# CHAPTER 1 – MAYORS FOREWORD AND EXECUTIVE SUMMARY

#### **COMPONENT A: MAYORS FOREWORD**

COUNCILLOR M THEBOLLA CITY MAYOR

#### FOREWORD BY THE CITY MAYOR, 2020/2021

The 29<sup>th</sup> of August 2019 marked my maiden initiation as Mayor of Msunduzi Municipality.

When the Council took office in August 2019, our aim was to respond quickly to the challenges our city was facing at the time. Such challenges included but were not limited to waste management; ageing infrastructure; vacant positions in critical service delivery units as well as lack of financial prudency.

We then had to devise a plan to address the urgent tasks. Critical vacant posts of the City Manager, General Managers for Community Services, Infrastructure Services and Sustainable Development and City Enterprises were filled. All critical Senior Manager vacancies were attended to as well.

We instructed the City Manager to fast-track consequence management which resulted in the appointment of presiding officers and initiators for all outstanding disciplinary matters. This was done successfully, and matters are in progress.

We as a matter of urgency directed the MM to tackle the abuse of overtime and the reduction of the use of consultants. This has yielded positive results thus far. We engaged on several partnerships to turn the city's affairs around. These include enlisting the services of ESKOM to tackle challenges of major electricity faults and outages. DBSA and CoGTA have come on board to assist with meter audits and other significant credit control matters.

#### **COMMUNITY SERVICES**

The City has been dubbed in some circles as the city of filth. This has concerned us and called for a mind shift in how we do things. Waste was not collected on time due to lack of management as well as tools of trade. During the financial year we have seen significant improvement in waste collection. Our weekly collection plan has seen waste being collected as per schedule. We have experienced the degradation of the landfill site. Notwithstanding the baptismal of fire we encountered pursuant to taking office, we took cogent steps to turn the situation around.

We have not had a major fire at the landfill site in more than a year. The weighbridge at the landfill site was repaired and we are now generating income again.

In our efforts to deal with energy shortages we envisage investing in the conversion of waste to energy.

The addition of fleet dedicated to the Traffic Department will significantly improve their visibility and improve law enforcement in the City. In keeping with the 4<sup>th</sup> Industrial Revolution, we obtained 200 extra computers which were deployed in our libraries across the City for our citizens to utilize.

#### **INFRASTRUCTURE SERVICES**

It is no longer a secret that there are households and businesses that are blatantly stealing both water and electricity. These are done through either bypassed meters; direct connections and in some instances the municipality disconnects them only for them to illegally reconnect themselves. The default of customers leads to ever-increasing non-revenue water and electricity. The scary part is that there seems to be no end in sight to this behavior. However, the Municipality has taken steps to curb this behavior through initiatives alluded to earlier.

Another challenge is that of saturated and aged infrastructure. There is a genuine outcry from communities that are without water and electricity for days due to the poor state of the infrastructure. Water pipes are fixed only for a burst to occur, sometimes a few meters down the line. Electricity outages are overwhelming communities whereby they are without power almost every day. Vandalism of critical infrastructure such as the one succumbed by the Eastwood Substation - which was on its way to be commissioned - tend to water down our developmental efforts.

The Municipality has shown no signs of despair but has stormed ahead with efforts to change the lives of our people. We have recently completed the construction of a 5 Mega Litres Reservoir in the Vulindlela area. Coupled with that we have secured funding for a 25-kilometer pipeline that will help distribute water in a number of wards in that area including Incwadi.

In many localities there are visible water leaks. This will soon be a thing of the past as we have initiated the process of Leak Detection and Repairs. In Wards 10, 13, 16 and 18 we are completing the much-needed water bourn, toilet system to eradicate the current sceptic tanks.

We are also busy in Ward 15 with Mid-Block Pipes upgrade. We alluded earlier to aging infrastructure including pipes. The replacement of old pipes in Wards 30, portion of 31 and 29 are meant to assist in addressing this challenge. As we speak the contractor is on site.

We are at an advanced stage of concluding phase 1 of the Manaye Hall upgrade. We also launched the Market Stalls near Mbalenhle Clinic in Imbali and tenants were allocated to avoid the structure being vandalized. As part of the Informal Economy Infrastructure we have also constructed Market Stalls for Street Traders in the City.

In keeping with this historic directive from our forbearer, we also constructed and concluded the Imbali Youth Enterprise park. A precinct that will accommodate a range of various uses for youth owned enterprises and they include: -

- Training rooms
- Retail space
- Internet Café
- Offices
- Ablution blocks

#### **ECONOMIC RECOVERY**

The COVID-19 pandemic has created profound disruptions to our economy and society. Many industries in the City are experiencing an adverse impact from the pandemic that is consistent with that of other Cities in the country and the world over.

The measures put in place to contain the Corona Virus; and the recent unrest has had a disastrous impact on Msunduzi Municipality's economy. As a result, multitudes of our people have been added to the ranks of the unemployed.

We have developed an economic recovery plan. I am confident that it will go a long way towards facilitating the restoration of our ailing economy.

#### **ROADS**

At some point the state of the City's roads leaved a lot to be desired with potholes being a serious eyesore and a danger to road users. Significant improvements have been made to address the situation.

We have done some significant road rehabilitations including the most recent one being the stretch between South Gate Spar and the Gladys Manzi intersection near Aloe Ridge.

Roy Campbell Road (Napier Ville) Rehabilitation is but one of those that had become a nuisance to society. We have and are continuing with rehabilitation of that road.

Orthman Road and Chase Valley roads were also rehabilitated.

When we took office, the funding for the IRPTN project had already been withdrawn. Numerous engagements with National Treasury, the National Department of Transport, Office of the Premier and Presidency translated to the reinstatement of the funds to enable the conclusion of work packages that had already commenced. What is left for us is to now source funds to secure and operate a fleet on the network.

#### **HUMAN SETTLEMENTS**

Security of tenure was attained by multitudes of our people across the City, through the handing over of title deeds. It was fulfilling to see the joy in the eyes of the recipients, especially the elderly. We are equally at an advanced stage of concluding the Jika Joe Community Residential Units. These will see low-income earners being able to live in dignified dwellings.

#### **FINANCES**

The last Audit opinion received by the City was a Qualified Opinion. This was initially due to 6 findings, five of which were cleared. We are proud to announce that in the current year of audit we have developed an audit tracker to monitor the matters of emphasis. Furthermore, my commitment to clean audit as presented at every Council meeting seeks to inculcate a culture of accountability. We are hopeful that when the AG gives a report this time around we stand a very good chance of improving our audit opinion.

We have significantly reduced Irregular Expenditure but improved our expenditure of some government grants to 100%.

Our revenue collection has significantly improved as more and more citizens see value in paying for the services received. We thank our people for partnering with the municipality as we can only spend from what we collect.

Our Billing brought about a lot of complaints from customers, which may be attributed to various factors, including faulty meters. 4000 defective domestic water meters have since been fixed to ensure the accuracy of bills and readings. We intend to fix an additional 5000 meters in this financial year.

#### **VULNERABLE GROUPS**

The Mayor's Office is dedicated to bettering the lives of our vulnerable groups which include Children; People with Disabilities; Elderly; Youth and Military Veterans. Serious strides have been made in each of the sectors. Of significant is our partnership with Kukhula in which people with are being trained in venture creation where they are taught business skills. We are currently recruiting 200 people from the sector to embark on a further training.

We have also adopted certain schools within the City and have been visible in assisting them to provide quality education.

As we conclude our term of office we believe we have made significant improvements. However, we could do better and we will do better. While we may have started on a back foot, we have tried to show the high-level account of the work done in turning the City around.

Steadily, the dark clouds of despair are lifting, giving way to our season of hope. We may be hurting, but the state of our city is resilient. The state of our city is united. The state of our city is hopeful and the state of our city -- deep-down – is strong.

THE HONOURABLE MAYOR COUNCILLOR M THEBOLLA

#### **COMPONENT B: EXECUTIVE SUMMARY**

#### 1. OVERVIEW BY THE CITY MANAGER - ANNUAL REPORT 2020/2021 FY

The Msunduzi Municipality is one of the smallest local municipalities in the uMgungundlovu District. It houses 39 wards and spans over more than 750km<sup>2</sup>. It is home to the city of Pietermaritzburg, the capital of KwaZulu-Natal.

The city is strategically situated along the N3 highway joining the industrial corridor from Durban and the agrobusiness corridor stretching from the City to Escourt.

Pietermaritzburg is the economic hub of the district and is known for having considerable influence on regional channels of investment and restructuring of the Provincial Spatial Framework for Growth and Development. Pietermaritzburg has played a major role in shaping the economic course of the Province of KwaZulu-Natal and driving change.

In the 2020/2021 financial year the Municipality has intensified its focus on restoring its position by filling most critical posts; developing, implementing and monitoring the audit action plan to address findings by the Auditor-General which arose in the previous financial years (2017/2018, 2018/2019) and ensuring the correct application of consequence management.

With assistance from the Department of Co-operative Governance and Traditional Affairs, the Municipality has been able to monitor and expedite grant spending and also ensure adequate reporting on such. The Municipality has been able to identify and correctly place employees within the organization, based on their qualifications, as a result of the skills audit and employee verification process it underwent. The Municipality has also collaborated with Eskom to ensure the steady supply of electricity despite budgetary challenges and ageing infrastructure constraints. Partnerships have also been forged between the Municipality and local businesses within the vicinity to restore the economy of the Municipality and also attract more investments.

In the recent past the City had been adversely affected by the looting sprees and destruction of infrastructure including buildings, roads, robots and substations. This has set back the City's economy immensely. Recovery plans have since been devised and implementation has commenced. The support received from ordinary citizens during this time was much appreciated and displayed their commitment to the restoration of the City and its economy.

The Municipality continues to improve in the provision of basic services and has made great strides in the rehabilitation of roads, traffic and street lights, grass cutting and tree felling, refuse removal and street sweeping, landfill site maintenance, electricity disconnections, water restrictions, revenue collection and the filling of vacancies.

It is the intention of the Msunduzi Municipality to create a system of governance which is capable, responsive, inclusive and transparent. To create collaborative governance where responsibility and accountability is shared between municipal officials, citizens and business. A system of governance which will ensure the effective implementation of Municipal by-laws to restore order and maintain the desired municipal standards. Municipalities that adopt a collaborative approach to governance and development will have more sustainable outcomes. Proper strategic planning and integrated environmental thinking are also imperative to enable and empower Msunduzi and its surrounds to cope with the demands of future growth and to ensure that all citizens share in the city's prosperity.

The Municipality is currently under administration and has been faced with financial instability, a decline in revenue collection, numerous service delivery protests, environmental hazards, ageing infrastructure, decline in staff morale and decline in cleanliness and general aesthetics of the Municipality as a whole and the central business district (CBD) in particular. These ailments have been further exacerbated by the COVID-19 pandemic which has resulted in the halting of some key projects thus negatively affecting the Municipality's ability to spend some allocations including grant funding. As a result many projects had to be carried over into the next financial

year. The pandemic has also affected the Municipality's ability to function at its optimum as it continues to lose valuable human capital due to COVID-19 related deaths.

The Municipality continues to face challenges in terms of finances mainly due to its inability to collect revenue adequately, illegal electricity connections, vandalism and water leaks due to the aging infrastructure. In the effort to curb further losses and effectively deal with such challenges the Municipality established strategic committees which meet regularly to monitor the implementation of contingency and/or recovery plans, brainstorm ideas and establish collaborations to restore the Municipality to its former glory. These committees include the Revenue Enhancement Committee, Capital Expenditure Committee, CBD Regeneration Committee and the Waste Management Committee.

Plans and strategies are being put in place in the 2021/2022 Financial Year to deal with all the challenges the Municipality is facing. The Municipality also reserves the commitment towards achieving an unqualified audit opinion so it can move away Section 139 status.

CITY MANAGER M P KHATHIDE

#### 2. MUNICIPAL FUNCTIONS, POPULATION & ENVIRONMENTAL OVERVIEW

#### **AUDITOR GENERAL REPORT FOR 2020/2021**

In the 2020/2021 financial year, the Auditor General expressed an Unqualified Audit opinion for Msunduzi Municipality with matters of emphasis.

#### **Emphasis of matters**

• I draw attention to the matters below. My opinion is not modified in respect of these matters.

#### **Restatement of corresponding figures**

 As disclosed in note 69 to the consolidated and separate financial statements, the corresponding figures for 30June 2020 were restated as a result of errors in the financial statements of the group at, and for the year ended, 30 June 2021.

#### Material impairment - statutory receivables and consumer debtors

- As disclosed in note 6 to the consolidated and separate financial statements, the municipality reported a provision for impairment balance of R772,56 million (2019-2020: R609,22 million) on statutory receivables as the recoverability of these amounts was doubtful.
- As disclosed in note 7 to the consolidated and separate financial statements, the municipality reported a provision for impairment balance of R2,52 billion (2019-2020: R2,03 billion) on consumer debtors as the recoverability of these amounts was doubtful.

#### Material losses - electricity

As disclosed in note 77 to the consolidated and separate financial statements the municipality incurred material electricity losses of R321 million (2019-2020: RI 78,49 million) which represents 22% (2019-2020: 18%) of total electricity purchased. This was mainly due to illegal connections, infrastructure vandalism, ageing infrastructure and overloading.

#### Material losses - water

As disclosed in note 77 to consolidated and separate the financial statements the municipality incurred material water losses of R223,37 million (20219-2020: R209,11 million), which represents 30% (2019-2020: 30%) of total water purchased. This was mainly due to illegal connections, progressive deterioration, as well as ageing and increasing levels of fragility in the bulk water infrastructure.

#### Other matters

draw attention to the matters below. My opinion is not modified in respect of these matters.

#### **Unaudited disclosure notes**

- In terms of section 125(2)(e) of the MFMA, the group is required to disclose particulars of
  noncompliance with the MFMA in the consolidated and separate financial statements. This disclosure
  requirement did not form part of the audit of the group financial statements and, accordingly, I do
  not express an opinion on it.
- Unaudited supplementary schedules

#### **CHAPTER 2 – GOVERNANCE**

#### INTRODUCTION TO GOVERNANCE

Governance at Msunduzi Municipality is made up of political and administrative governance, inter-governmental relations, public participation and corporate governance. Political governance comprises of elected ward Councillors and proportional representation Councillors which make up the Council. Council plays oversight over the administration of the municipality to ensure effective and efficient service delivery.

# COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

#### INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political & administrative governance at Msunduzi Municipality comprises of the Councillors and Senior Managers, respectively; they work together on a day-to-day basis in order to achieve identified service delivery goals and targets.

#### 2.1. POLITICAL GOVERNANCE

#### INTRODUCTION TO POLITICAL GOVERNANCE

Msunduzi municipality has several political structures which include Full Council, Executive Committee, other Council committees and Committees established to support the Executive Committee. The Speaker is the head of Council, whilst the Executive Committee is chaired by the Mayor. The Msunduzi Municipality also has the office of the Chief Whip.

The following Portfolio Committees have been established and are aligned to the Municipality's organizational structure:

- Corporate Services Portfolio Committee;
- Infrastructure Services Portfolio Committee;
- Sustainable Development and City Enterprises Portfolio Committee;
- Community Services Portfolio Committee; and
- Finance Portfolio Committee.

The Municipal Public Accounts Committee (MPAC) is a committee of Council that oversees the expenditure of public funds on behalf of Council and thereby ensures accountability of both the Executive Committee and administration.

#### **EXECUTIVE COMMITTEE**

The Executive Committee established in terms of section 42 of the Local Government: Municipal Structures Act No. 117 of 1998 (the Structures Act.

#### POLITICAL DECISION-MAKING

The Rules and Procedures of Council and its Committees provide inter alia for the powers and functions that the Council may delegate and those it may not delegate, as well as the votes that are required when certain matters are decided.

In making decisions on the following matters, a supporting vote of a majority of the number of Councillors is required: -

- (a) The passing of by-laws;
- (b) The approval of budgets;
- (c) The imposition of rates and taxes, levies and duties;
- (d) The raising of loans;
- (e) The rescission of a council resolution; and any other matter prescribed by legislation.

All other questions before the Council are decided by a majority of the votes cast and in the case of an equality of votes, the Councillor presiding (the Speaker) exercises a casting vote in addition to a vote he or she has as a Councillor.

Before the Council takes a decision on any of the following matters it first has to obtain the recommendations of the Executive Committee: -

- (a) The passing of by-laws;
- (b) The approval of budgets;
- (c) The imposition of rates;
- (d) The raising of loans;
- (e) The approval of an integrated development plan for the Municipality and any amendment to that plan;
- (f) The approval of a performance management system
- (g) The appointment and conditions of service of the City Manager and a head of department of the Council."

#### **COMPONENT B: INTERGOVERNMENTAL RELATIONS**

#### INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

The municipality continues to receive full support from the Office of the MEC for Cooperative Governance and Traditional Affairs. Substantial support in the development of a financial recovery plan has also been obtained from National Treasury. The Provincial Treasury has also assisted in terms of developing both the strategic and operational risk registers of the municipality. Whilst the Municipal Infrastructure Grant (MIG) was the primary source of funding for capital projects related to infrastructure development and basic services, the following basic services are delivered to the community using mechanisms of intergovernmental relations with National/ Provincial Departments and/or parastatals:

Water & Sanitation - Department of Water Affairs and Umgeni Water; Housing - Department of Human Settlements; Electricity - Department of Minerals & Energy and Eskom

Various other grants, such as the Neighborhood Partnership Development Grant, have been received for the implementation of projects. All information related to grants received is disclosed as required in the Annual Financial Statements.

#### INTERGOVERNMENTAL RELATIONS

#### NATIONAL INTERGOVERNMENTAL STRUCTURE

The Municipality is a participant in a number of national forums. On an administrative level, the Chief Financial Officer (CFO) participates in the CFO's Forum which is convened by the National Treasury and the office of the Auditor General. The City Manager participates in the National Municipal Managers Forum convened by the South African Local Government Association (SALGA). Both Councillors and management also participate in the SALGA National Members Assembly. The Corporates Services Unit is a member of the National Municipal Capacity Coordinating and Monitoring Committee. In light of the grant funding assistance received, the municipality participates in the National Treasury Forum of the National Development Partnership Grant (NDPG). Participation in these national forums is key to be able to network, benchmark and expose the municipality to a variety of developmental and funding opportunities.

The Municipality is a member of the South African Cities Network and participates in the following reference groups:

#### PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The City Manager and the Mayor participate in the technical and provincial MUNIMEC respectively. They also participate in the Premier's Coordinating Forum. The provincial SALGA convene the provincial MM's Forum of which the City Manager does attend.

#### **RELATIONSHIPS WITH MUNICIPAL ENTITIES**

The municipal entity (Safe City) has a legally constituted board. The board approves the business plan and the associated budget for the entity. These documents are submitted to the municipality for approval. The business plan outlines the Key Performance Area and Indicators (KPAs and KPIs). The (KPAs and KPIs) are included in the SDBIP of the municipality. The delivery on the milestones is monitored on a monthly basis by the submission of a monthly report and this report is submitted to all relevant municipal committees for review. An annual report together with an audited financial statements of the entity are submitted to the municipality for consideration and approval.

#### **DISTRICT INTERGOVERNMENTAL STRUCTURES**

The Municipality participates in the District Municipal Managers and Mayors Forum. The Municipal Manager used to be the Chairperson of the District Infrastructure Forum. Following the establishment of the District Command Council during the COVID-19 Disaster, the Municipality is the co-convener of the Governance, State Capacity and Institutional Development (GSCID) Cluster.

The Communications Unit participates in the Local Government Forum and District Communicators forum which helps by benchmarking on the best practices from other municipalities.

#### **COMPONENT B: PUBLIC SATISFACTION LEVELS**

#### **CUSTOMER SATISFACTION SURVEY 20/21**

The aim of the Msunduzi Municipality Customer Satisfaction Survey was to assess the current living conditions of the respondents of Pietermaritzburg and thus to interpret the holistic view of these conditions. Another aim of the survey was to evaluate the service quality of the municipality and gain an understanding of the perceptions of the respondents in light of the municipal services being provided by the municipality. Since the Msunduzi region was grouped naturally by 39 wards, these 39 wards served as strata.

The Area Based Management (ABM) unit was contacted and requested to conducts the surveys in each of the 39 wards. Due to the quick turnaround time a sample of 15 questionnaires from each ward was then agreed on. This in total summed up to 585 surveys in all the ward. The Customer Satisfaction Survey (CSS) was also published on the municipal website and it was agreed the submissions would form part of the analysis. In total 6 questionnaires where received via the website. In total the sample then amounted to 591 as per the responses received. The responses received via the website where then included into their respective wards.

The fieldwork for the project, was conducted by the Area Based Management unit. Each ABM Zonal Manager was responsible for the survey within their respective zones. All surveys conducted where managed by the Zonal Managers each manager was able to submit all their field work surveys for the PMS unit to analyse and produce a report.

The Area Based Management unit submitted the completed survey questionnaires per zone to the Organizational Compliance, Performance & Knowledge Management (OC, P & KM) unit by the close of day the 6th of November 2020. The OC, P & KM unit then commence capturing on the 7th of November 2020 and capturing and consolidation of all 591 surveys was completed on the 16th of November 2020. The Unit then commenced with the analysis and the drawing of the graphical representations between the 17th & 20th of November 2020 and a ward level analysis for each ward.

42.30% of the respondents find the Municipal Service Delivery to be fair over the past year whilst approximately 35% of the respondents found it to be poor and very poor. The reasons for dissatisfaction are not new to the municipality and going forward needs to be built into all plans to ensure the customers are satisfied.

The reasons as to respondents being satisfied have been extracted in verbatim and inserted as per below:

- Service Delivery is efficient
- Because they deliver services to the community
- Access roads are built
- RDP housing projects, some access roads being renovated
- Because so far all services that are rendered by Msunduzi is accessible
- We understand out municipality is still under administration but we have received services like high mast lights, roads upgrades etc.
- Some infrastructure is delivered so we see the difference when comparing with other years
- Municipal water tankers available
- There are visible changes compared to the past years more especially with roads
- They promptly attend to queries (ABM & Speaker) 🗈 Provision of services are rendered properly
- All the complaints and problems I logged with them were all resolved to my favor
   The reasons as to respondents being dissatisfied have been extracted in verbatim and inserted as per below:

- No developmental initiative project has been done in the past year
- The roads are full of potholes, electricity keeps tripping, water supply is poor and water tanks arrive once or not at all with rude drivers
- Roads are still gravel roads, the tripping of electricity and load shedding
- Basic services don't reach us as community members when we need them e.g. Water
- Basic services are not provided sufficiently i.e. Water, Roads, Electricity 

  No proper communication
- Over the last year we do not know what the municipality has done or rendered any service,
   lodge complaints but we do not receive feedback
- Msunduzi provides quick fixes for everything, including electricity, potholes, sewage problems. They only temporarily fix everything. Traffic lights at busy intersections stop working for a week every time it rains and there are never traffic officials present to direct the traffic. If Msunduzi fixes a burst pipe, they simply fill the holes with sand as a temporary fix and never get down to repairing the hole it is the same with potholes.
- The city and suburbs are filthy and the air quality is poor. The website is never updated with correct contact numbers. Staff at the call centre and on site are generally apathetic, lazy, rude and uninformed and think they are doing us a favour
- Projects are delayed, Municipality complains about the budget
- Delays for the RDP houses. Prepaid cards electricity is expensive
- Promises ae not kept and they not done by the municipality
- Because all Municipality passive open space are full of rubbish and illegal dumping

# CHAPTER 3 – ANNUAL PERFORMANCE REPORT – SERVICE DELIVERY INDICATORS

#### 1. INTRODUCTION:

In terms of section 46(1) and (2) of the Local Government: Municipal Systems Act (MSA), 2000(Act 32 of 2000), municipalities are required to annually prepare a performance report reflecting, the performance of the municipality and of each service provider during the financial year. The annual performance report must also reflect comparison of performance with targets set for the year under review with performance of the previous financial year. Section 121 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) further states that the annual performance report must form part of the municipality's Annual Report. Msunduzi Municipality's Annual performance report for the 2020/2021 financial year has been prepared in line with the provisions of the MSA read together with the MFMA.

The Annual Performance Report 2020 / 2021 of the Msunduzi Municipality is prepared as per section 46 of the Municipal Systems Act.

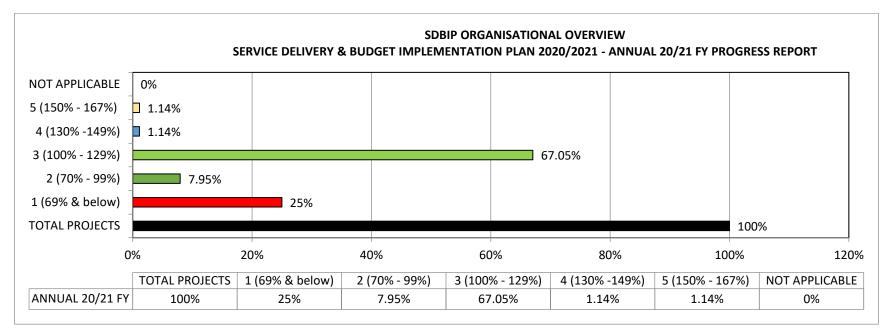

- FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT.
- PERFORMANCE OF EXTERNAL SERVICE PROVIDERS
- MEASURES TAKEN TO IMPROVE PERFORMANCE
- ANNUAL PERFORMANCE REPORT OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN 2020/2021 & ANNUAL REPORT OF THE OPERATIONAL PLAN 2020/2021

# OPERATIONAL PLAN COMPARISON BETWEEN OPERATING AND CAPITAL PROJECTS FOR THE 2020/2021 AND 2019/2020 FINANCIAL YEARS GRAPHICAL REPRESENTATION OF PERFORMANCE: OPERATING PROJECTS

## COMMENT ON PERFORMANCE – SDBIP (OPERATING & CAPITAL PROJECTS) & OP (OPERATING & CAPITAL PROJECTS)

In terms of the Operating projects on the SDBIP, in the 2020/2021 FY Msunduzi Municipality achieved **70,45% in** terms of the targets that were met, whereas in the 2019/2020 FY 40.51% of the targets were met. This indicates an improvement of 34.94% increase in targets met.

In terms of the Capital projects on the SDBIP, in the 2020/2021 FY Msunduzi Municipality achieved 55.84% in terms of the targets that were met, whereas in the 2019/2020 FY 40.51% of the targets were met. This indicates an improvement of 15.33% increase in targets met.

There is still a challenge in terms of adhering to the Organizational Management Policy. Submissions were not received as per stipulated timeframes set by the Performance Management Section. POE compilations not completed as per the Standard Operating Procedure.

AG identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information for the "basic service delivery" development priority. As management subsequently corrected the misstatements, AG did not raise any material findings on the usefulness and reliability of the reported performance information.

## PERFORMANCE MANAGEMENT OF CONTRACTS

The contract management unit reviews and reports on how SCM, service providers and the department as a whole is performing against set standards and metrics, provides insight into how policies are followed, and identifies areas of opportunity to drive value through process efficiencies, and verification of variations requested by user departments. Regular site visits and attending progress meetings, which allows for systematic management of supplier performance and building of work relationships to optimize the value for money in agreed deliverables throughout the project execution. Monthly and quarterly reports are submitted at OMC, SMC and Full Council.

We were not even aware that shutdown is not done on Mondays and Fridays due to poor communication. Yesterday the maintenance representatives failed to shut down the water where we were currently working, seems like the test was not done initially. Unfortunately, we have to wait until they figured out how to shut down water and this is delaying the Contractor's daily targets and progress on site. |

# SECTION 1: FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT

# **COMPONENT A: INFRASTRUCTURE SERVICES BUSINESS UNIT**

This component includes Water & Sanitation Services, Electricity, Roads, Transportation Planning, and Storm Water & Mechanical Workshops.

# 1. INFRASTRUCTURE SERVICES

#### 1.1. WATER & SANITATION SERVICES

#### **WATER SERVICES**

# **INTRODUCTION TO WATER SERVICES**

There is a correlation between water consumed and Revenue collection. The Revenue collected for all Water related services is directly linked to the above and revenue enhancement should be maximised to fully achieve this. Tariff setting is determined by the consumption used with tiered rate setting for the quantity of water used. The reading of water meters is used to calculate the consumption on a monthly basis and consumers are then billed based on consumption.

A Global Pandemic, COVID-19, demands that the provision of water services to each and every individual is ensured and supplied in a sustainable manner. This factor, coupled with other challenges has put considerable strain on our existing and aging water infrastructure.

# WATER SERVICES INITIATIVES UNDERTAKEN DURING 2020/2021 FY

- Practical completion of reservoir, pump station and pipeline completed in Ward 39
- Total Water Losses reduced to 29.8% in Wards 1 to 38

#### **COMMENT ON WATER USE BY SECTOR:**

1 Decrease in Industrial Usage -5%

2 Increase in Domestic Usage 9.5%

3 Increase in Water Losses 6.8%

It is evident that Domestic consumers are not adhering to water conservation efforts. The decrease in Commercial/industrial usage may be attributed to a wavering economy.

It should be noted that due to the fragile water infrastructure; the city was subjected to many mainline bursts. 2020/2021 saw the city dealing with 2151 mainline bursts. The increase in water losses is mainly due to these bursts. These combinations of factors will ultimately lead to an increase in bursts and subsequently an increase in water losses.

Factors that also can be attributed to an increase in Domestic usage.

1 Urbanization: People moving from rural areas to seek a better future in the city

2 Rampant Theft: illegal connections.

The demand for water is on the increase. Communities are demanding any form of water supply from standpipe supply to tap supply inside dwelling. Currently Bulk Water treatment and supply is on a healthy level.

Totals should equate to those included in the Chapter 4 total employee schedule. Employees and Posts numbers are as at 30 June. \*Posts must be established and funded in the approved budget or adjustments budget. Full-time equivalents are calculated by taking the total number of working days lost (excluding weekends and public holidays) while a post remains vacant and adding together all such days lost by all posts within the same set (e.g. 'senior management') then dividing that total by 250 to give the number of posts equivalent to the accumulated days.

# **COMMENT ON WATER & SANITATION SERVICES PERFORMANCE OVERALL**

Sanitation Service Objectives form an integral part in the Sanitation Services Performance overall. The primary objectives in Sanitation Service Deliverables include, inter alia:

- 1 Provision of toilets within standards
- 2 Basic Service Deliverables
- 3 Rehabilitation and refurbishment of existing Sanitation infrastructure and services

#### 1.2. ELECTRICITY SERVICES

#### INTRODUCTION TO ELECTRICITY SERVICES

The Electricity Unit generates approximately 40% of the total revenue of the Municipality. 70% of the income for the Electricity Unit comes from our large customers (industrial and commercial) and 30% from our residential customers.

#### **CHALLENGES**

The Hilton and Sweetwaters areas are still experiencing continuous outages due to the numerous faults on the existing 11kV networks. Capacity on the existing Crossways Substation is running very thin and with the number of new developments taking place in these areas, capacity will soon run out. Upgrades of the substation are urgently required to address these issues. Council had already invested a lot in terms of purchasing of long lead time equipment for upgrades of Crossways and Pine Street Substations.

There is a high backlog on maintenance, refurbishment and upgrade of the primary network, secondary substations, overhead lines and cables, thus contributing to unplanned outages and more funding is required to address these challenges.

Overloaded networks and illegal connections are contributing to the high number of replacement of equipment that has blown up and the rate of replacement is alarming. This is contributing to the shortage of materials.

Vandalism of electricity infrastructure including damaging of underground infrastructure by private companies that are digging and installing mainly the fibre optic cables has a negative impact on the provision of quality street lighting, protection of electricity infrastructure, stable electricity supply that in turn reduces Council Revenue and low customer and investor confidence.

Financial constraints are also a challenge in achieving the required targets.

During the better part of festive season municipality experience a severe electricity blackout; such occurrence severely tarnished the reputation of the municipality badly. Therefore, during mid-year budget performance review a decision was taken by Council structure to provide additional budget to electricity business unit in order to ensure critical service delivery initiatives are urgently addressed.

The urgent budget to be provided will be used for the following projects-

- Medium Voltage Network Upgrade R25 million;
- Retief Primary Substation Upgrade R5 million;
- Capital Equipment R19 million;
- Audit of Meters R1 million;
- Primary Substation R9 million.

Totals should equate to those included in the Chapter 4 total employee schedule. Employees and Posts numbers are as at 30 June. \*Posts must be established and funded in the approved budget or adjustments budget. Full-time equivalents are calculated by taking the total number of working days lost (excluding weekends and public holidays) while a post remains vacant and adding together all such days lost by all posts within the same set (e.g. 'senior management') then dividing that total by 250 to give the number of posts equivalent to the accumulated days.

#### COMMENT ON MECHANICAL WORKSHOPS PERFORMANCE OVERALL

In the absence of a Manager: Mechanical Workshops, due to unfilled critical posts in the Municipality, the Mechanical Workshops have been functioning under variability. This instability has contributed to, but not limited to, neglect in proper administration, poor record keeping, lack of leadership, authority and accountability for the first half of the 2020/2021 financial year.

During the third and fourth quarter of the 2020/2021 financial year the Mechanical Workshops serviced 230 and repaired 1269 of the total 1629 Council owned vehicle and plant received. The servicing of vehicles is currently based on voluntary submission, where the Workshops service vehicles as and when they are brought in by the used departments throughout the year. On an annual basis user departments are reminded of vehicles due for service to which response is satisfactory.

The Mechanical Workshops are currently faced with major backlogs in the servicing and repair of vehicles and plant mainly due to budget constraints.

#### 1.4. ROADS AND TRANSPORTATION

#### **INTRODUCTION TO ROADS & TRANSPORTATION**

This unit includes Transportation Planning, Integrated Public Transport Network (IPTN), Roads design and Implementation, Roads and Drainage sections.

#### **ORGANIZATIONAL UNITS WITHIN ROADS & TRANSPORTATION**

#### **ROADS**

The Roads Section continues to address the backlog of Gravel Roads. An attempt is made yearly to upgrade 15-20km of gravel road into "all weather surfacing in order to render uninterrupted access and safety. (i.e through geometric interventions).

The Roads section has completed its 5-Year Road Asset Management Plan (RAMP) and a Pavement Management System (PMS) to drive the Municipality's preventative/maintenance for five years.

The RAMP also informs the upgrading of gravel roads programme. The gravel roads and backlog is shown up to Ward level.

#### TRANSPORTATION PLANNING

The Transportation Planning department is crucial in planning sustainable developments and ensuring accessibility for all. The Transportation Planning department is responsible for meeting the directives set out at all spheres of government. The Key principles that we address as a section are:

- Mobility and Land Use;
- Congestion;
- City Efficiency;
- Road Safety; and
- Accessibility.

#### STORMWATER DRAINAGE

The Municipality constructed storm water systems in various roads in the Greater Edendale and Vulindlela area for the 2020/2021 financial Year. This was to prevent or minimise flooding of municipal roads. Other new systems are constructed in association with road network upgrade. However, this service is still under funded in terms of new or upgrade and maintenance of existing system.

#### INTEGRATED RAPID PUBLIC TRANSPORT NETWORK

After the suspension decision by National Treasury from 2020/20 PTNG MTEF, the Municipality continued with infrastructure implementation component of the project as this component had prior commitments that were entered into before the suspension decision.

The infrastructure implementatio component entails the construction for road widening of the truk route to along Moses Mabhida Road from Crossing junction to top of Church Street. Skills transfer is implemented through employment of local labours and 30% of the project value is sucontracted to local subcontractors and SMME's.

# **COMMENT ON ROADS & TRANSPORTATION PERFORMANCE OVERALL**

In the 2020/21 financial year, Traffic Calming Measures, Non-Motorized Transport (NMT) and Bus Stop Shelter projects were not implemented due to no Budget allocation. Transportation Section was able to achieve 118 km of road markings & replacement of 550 traffic signs at various wards within the municipality. Targets for Road markings and signage were not achieved in 2020/21 due to the COVID-19 Lockdown.

The 4.8km IRPTN road widening along Moses Mabhida Road in order to accommodate dedicated bus lanes, station and NMT facilities is divided into four Work Packages as per the above. Work Package 1 was completed during the 2018/19 financial year and Work Package 4 was completed in February 2021.

The following delays were experienced on the implementation of the two remaining work packages:

Work Package 2- 18 months delays due to tender objection, Covid-19 delays and late payment of invoices due to late approval of the shortfall amount in order to conclude all commitments that were undertaken prior to the suspension decision.

Work Package 3 – dispute between the Municipality and the contractor, Covid-19 delays and late payment of invoices due to late approval of the shortfall amount in order to conclude all commitments that were undertaken prior to the suspension decision

The transportation Section continues to address the backlog of the installation of Traffic Calming measures, guardrails and bus shelters in order to improve safety in the municipal road network.

The department has continued with its programme of re-gravelling, maintenance of gravel roads and upgrading of gravel roads to all weather surface with a vision of reducing the high backlog of unsafe roads within the city.

Funds are slowly being made available by the Municipality towards the rehabilitation programme, which makes up the preventative maintenance of the department as a result, a total of 60 000m2 of surface roads were rehabilitated, 16 190.9 m2 of pothole were repaired and 7.4km of gravel roads were upgraded to all weather surface roads during the 2020/21 FY

### 1.5. PROJECT MANAGEMENT OFFICE

### INTRODUCTION TO PROJECT MANAGEMENT OFFICE

The Municipal Infrastructure Grant (MIG) is a grant issued by National Treasury to public bodies, mainly municipalities and major government department to fund infrastructure projects and programmes implemented for the sole purpose of improving service delivery. The grant is facilitated by COGTA and is mainly spent on delivering basic infrastructure services to poor communities in order to address the backlog which exists in roads, public facilities, water and sanitation.

### **INTRODUCTION TO MIG**

The projects executed within the 2020/2021 financial year where service delivery projects ranging from the upgrade of gravel roads to asphalt and concrete, rehabilitation of sanitation infrastructure and installation of VIP toilets in various wards of Msunduzi Municipality.

The Municipality in the 2020/2021 financial Year ensured that MIG is monitored through weekly CAPEX and MIG meetings that would track and help accelerate MIG expenditure in the Municipality for the 2020/2021 financial Year

### **COMMENT ON MIG PERFORMANCE OVERALL**

MIG expenditure proved to be a challenge in the 20/21 financial year, in relation to Community Halls no building took place the municipality had to identify sites and get drawings for the Halls some of the funds had to be reallocated for Halls that were ready for construction. With the assistance of CoGTA and the weekly MIG meetings the municipality was able to spend the allocation of MIG.

#### 2.1. WASTE MANAGEMENT

### INTRODUCTION TO WASTE MANAGEMENT

The waste management section has an objective of providing 100% service to all it wards in terms of long term strategic planning. It is against this background that the municipality will be looking into procuring addition bulk waste collection containers for coming Financial year in order to achieve this objective.

Street cleansing of the Central Business District and small hubs (Nortdale and Edendele) the section has improved a lot in terms of this practice. The improvements come about as again we have enhances the operation through detailed allocation of duties and streamlined this managerial tool with intensified supervision of operations. With these plans and checklists we are able to measure input in terms of the output which is clean Central Business District with emphasis on consistency.

The three top service delivery priorites are 100% waste collection service provision, Waste Minimisation and divertion and lastly New England Landfill rehabilitation and management.

In terms of informal settlements the municipality has identified areas through management by cleaning up illegal dumping hots spot within the informal settlements as well a s planning on terms of the outer year capital budget to procure equipment that will aid in the provision of waste collection services.

### COMMENT ON WASTE MANAGEMENT SERVICE PERFORMANCE OVERALL:

The priority largest capital projects are around the procurement of Refuse collection compactor trucks to enhance waste collection as well as the Procurement of yellow earth moving plant for the New England Landfill as part of the 2020/2021 Financial year. Additionally, the waste management section is also as part of the 2020/2021 financial year will be procuring waste collection equipment which are bulk refuse collection containers which will utilized for the collection of waste in semi-rural areas as well as for bulk waste minimization operations at the landfills recycling plant.

### 2.2. WASTE MANAGEMENT(LANDFILL SITE)

### INTRODUCTION TO WASTE MANAGEMENT (NEW ENGLAND LANDFILL SITE)

The New England Road Landfill Site is permitted to continue operating until it reaches a maximum height of 652 meters above sea level. The current height of the landfill site is approximately within 5% of that limit. The life span is estimated to be at 6 to 10 years at the current rate of waste disposal. The volume that we still need to fill is approximately 1.3 million M3.

#### THE MAIN CONSIDERATIONS INCLUDE:

One of the top three priorities remain the Landfill Site (allied with the waste minimisation and diversion programme), improved refuse collection and the central business district cleaning and cleansing in the quest to revive Pietermaritzburg in terms of strategic waste management.

During the 2020/2021 Financial Year there was a huge fire that engulfed the City of Pietermaritzburg, The Municipal local firefighters and the Durban team that reinforced the staff were able to quall the fire and assess the damage and put measures in place that will assist the Landfill Site in case of another emergency.

The Municipal Manager during the Financial year introduced the Landfill Site Template to track progress on matters relating to the landfill site.

#### COMMENT ON THE PERFORMANCE OF AREA BASED MANAGEMENT OVERALL

From looking at the service statistic there has been very successful despite the COVID - 19 issues and regulations. The only deviations has been not being able to provide 11 Ten Days Counselling Course, however were able to do 80%. The original budget had funds for repairs and maintenance of Halls, however that whole budget was remove and this the 4th year were there is a zero budget for Halls repairs and maintenance.

Deficiencies Budget for halls, Staff shortage, City Hall and Facilities moving to ABM.

Forward planning the complete the Master Plan for halls and application for funding for halls repairs and maintenance, filling of vacant positions, Master Plan for City Hall.

#### SERVICE STATISTICS FOR RECREATION AND FACILITIES

#### **BIO-DIVERSITY & NATURE CONSERVATION**

Identification and Eradication of Alien Invasive Species. Working in collaboration with Working on Fire (WOF) to effect fire-breaks. Maintenance of public open spaces within townlands areas. Manage and maintain the Bisley Nature Reserve including the well being of the animals.

### **Challenges at the Bisley Nature Reserve:**

- There is an overbreeding of animals, particularly Giraffes and Zebras in the nature reserve which has resulted in an excess of the nature reserves carrying capacity.
- The Bisley Nature Reserve is in need of fencing to ensure that animals are unable to leave the reserve.
- Alien invasive plants is a concern.
- Fencing of Bisley Nature reserves is still proving a challenge for the Municipality

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)

Variances are calculated as follows:

Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

#### COMMENT ON THE PERFORMANCE OF RECREATION AND FACILITIES OVERALL

Burial space is fast becoming scarce. The dispute regarding land in Hollingwood is yet to be resolved.

Two Crematoriums are operational. To acquire two new crematoriums once funds are available. The Municipality is currently utilising the outside non-fenced area as burial space

Book buying and renovations are ongoing projects but for the 2020/2021 Financial Year no books were bought by the Library because of no funding also Due to the Covid-19 pandemic all libraries were closed to the public from 24 March 2020 to 30 September 2020.

libraries re-opened for public access on 01 October 2020, access control was minimised in line with Covid-19 protocols and regulations.

There as being a lack of maintenance due to the lack of funding only preventative maintenance has been conducted. Athletic track is completed. Grading and Categorization of Venues is ongoing.

The unit has been performing relatively well on all new building projects. There is a challenge on most maintenance work due insufficient funds from requesting business units hence delays in executing maintenance work efficiently and processing purchase orders.

#### COMMENT ON THE PERFORMANCE OF PUBLIC SAFETY ENFORCEMENT & EMERGENCY SERVICES OVERALL

The performance of the Disaster Management unit is directly linked to the Service Delivery and Budget Implementation plan (SDBIP's). While the performance is at an acceptable level, there are deficiencies within the unit like the filling of critical vacant posts and the establishment of a satellite disaster offices in the Greater Edendale Areas which include ward 39 Ncwadi/Vulindlela area which will further enhance service delivery thereby improving performance. Our Disaster Plan has not been approved due to various internal setbacks and we are positive that it will be approved during this reporting period. The funding for disaster relief has been drastically reduced by a huge amount. We have already committed our funding as per the 3-year contract, which has been approved to purchase relief items. We will therefore submit a request for further funding at mid-year review.

The lack of fire stations servicing the extreme areas of the municipality is a cause for concern due to the risks attached to the delayed response times from fire stations which are a fair distance from these areas. This is further exacerbated by the time of day response (peak periods etc.), and could have an impact on the ability to effectively protect life and property. The severe staff shortage has a direct impact on the morale of the fire staff, safety, and overtime budget implications in order to maintain an effective service.

The challenges that exist within the traffic department include, the lack of tools of trade, those tools of trade being vehicles, two way radios as a communication tool and uniforms. The DLTC continued to provide its services to Municipal patrons and providing a steady income of Revenue to the Municipality. In terms of the regulation the centre needs to have access to more space and be a stand-alone, which needs to addressed as it has been an audit finding.

All Firearms returned from SAP on the 29th January 2021 and Verified by SAP and no Fire-arm were issued to staff members. The unit is also facing significant shortage in terms of tools of trade, there are not enough vehicles, TLB, Chainsaws which further limits the ability to complete tasks. There was also shortage of with uniforms for security officers.

# COMPONENT C: SUSTAINABLE DEVELOPMENT & CITY ENTERPRISES BUSINESS UNIT

This component includes Development Services, Town Planning and Environmental Management, Human Settlements and City Enterprises.

## 3. SUSTAINABLE DEVELOPMENT & CITY ENTERPRISES

#### 3.1 DEVELOPMENT SERVICES

## INTRODUCTION TO DEVELOPMENT SERVICES

The sub-unit primarily deals with enhancing Economic Development through the development of Small Medium and Micro Enterprises (SMME's) and Cooperatives (Coops), furthermore supports the informal economy by facilitating and monitoring of informal street traders and tuck shops/ spaza shops.

#### ORGANIZATIONAL UNITS WITHIN DEVELOPMENT SERVICES & SERVICE STATISTICS

#### 1. BUSINESS DEVELOPMENT

#### 1.1. BUSINESS RETENTION AND EXPANSION

Business Retention & Expansion (BR&E) is an economic development strategy of proactively connecting with existing businesses to understand and respond to their needs. The Business Retention & Expansion (BR&E) strategy is to help businesses with expansion of current sites and facilities.

## 1.2. RED TAPE REDUCTION

Red tape within government have consistently been identified as one of the core elements, which restrict business development and growth. Red Tape affects the operation of businesses. Regulations, rules and procedures that regulate the business operation create undesirable consequences on businesses, the economy and individuals when not properly implemented. There are seven red tape indicators that were identified by COGTA; Business Development has implemented three (3) workshops and engagements with different business units on the effectiveness of reducing red tape within their department. Red Tape affects the operation of businesses and the regulations, rules and procedures that regulate the business operation, create undesirable consequences on business, the economy and individuals when not properly implemented.

The table below outlines the Red Tape Reduction Plan:

| INDICATO | DRS  | OBJECTIVE  | RED TAPE CHALLENGE  | EXPECTED<br>OUTCOME   | ACTION ACTIVITY   |

## Final construction phase

This is a COGTA funded project, which is the upgrade of Manaye Hall where Nelson Mandela made his last public speech before he went to prison. The project includes the Manaye Hall to be converted to a museum, an interpretation Centre, an amphitheater (already constructed as part of Phase 1), a coffee shop (SMME opportunity), a prison museum, landscaped areas, parking etc., a craft heritage market (SMME opportunities), a legends park and a gateway feature at the start of the project.

#### **ECONOMIC DEVELOPMENT**

## 2.1. LOCAL ECONOMIC DEVELOPMENT

The main focus of the Unit was to finalise Informal Economy policy which will be used as a guideline to develop and grow street traders and informal economy businesses with the municipality. The other main priority is to provide business support services to existing and potential businesses within Msunduzi jurisdiction in enabling them to undertake income-generated activities resulting in job creation and economic growth.

## 2.2. THE LOCAL ECONOMIC DEVELOPMENT UNIT STRUCTURE

- 1. SMME Development and Support
- 2. Informal Trade and Street Trading
- 3. Informal Economy

## 2.2.1 SMME DEVELOPMENT AND SUPPORT

The SMME Development and Support is a section of the Local Economic Development Unit that deals with facilitating the development of SMME's and Cooperatives within the jurisdiction of the Municipality. Our mandate as a Unit is to assist aspirant and existing entrepreneurs to start/grow and expand their business.

## The functions of the Business Unit are to facilitate:

- Business registration for SMMEs and Cooperatives
- Business compliance in terms of SARS, CSD, CIDB etc.
- Development and support to SMMEs and Cooperatives

- Access to finance
- Business linkages and markets
- Training and mentorship
- Poverty alleviation programmes
- Site visits on various projects to check progress and challenges
- Local Economic Development Forum

The Development Services Unit and its staff are committed to providing to its clients and stakeholders an innovative efficient and professional service. The main objective of the Unit is to provide a conducive environment for distributive economic growth and development. The Unit is guided by both SMME Development and Cooperative Development strategies to implement small businesses programmes and projects.

For 2020/21 financial year, the SMME Development Sub Unit had the following targets:

The Sub Unit also facilitated the following activities successfully:

- Ongoing maintenance of SMME and Cooperative Ward based database
- 4 x Local Economic Development Forum meetings
- Ongoing maintenance of Tuck Shop Database
- Ongoing maintenance of Informal Economy Database
- Implemented and adhered to Disaster Management Act during Level 4 and 3 of lockdown

#### 2.2.2. INFORMAL TRADE AND STREET TRADING

The Msunduzi Municipality as the City recognizes the objective of its existence in terms of the Constitution, which includes –

- To promote social and economic development
- To promote a safe and healthy environment and
- Municipal planning, trading regulations, licensing and control of undertakings that sell food to the public, markets, public places, municipal roads and street trading.

The City therefore recognizes the need to adopt a developmental approach to enable access to job and entrepreneurial opportunities within the Informal Trading sector, to harmonize the relationship between the Informal Trading sector and the formal trading sector and to facilitate the migration of Informal Trading into the formal trading sector (Upward Migration Programme).

In order to achieve and fulfil the abovementioned constitutional objective and responsibility, and after an extensive consultation process with the relevant stakeholders, the City has successfully reviewed an Informal Economy policy,

which aims at creating opportunities for the Informal Trading sector to share in the benefits of, and further contribute to, the City's economic growth.

## **Forms of Informal Trading**

Informal Trading may include any of the following forms of trading -

- Street trading, which comprises the selling of goods or supply of services for reward in a Public Road;
- Place;
- Mobile trading such as from caravans, and light Motor Vehicles;
- Selling of Goods in stalls or kiosks; and (f) Selling of Goods at Special Events;
- Selling of Goods in Linear Market;
- Sale of Goods or services in a Public 2.2 Strategies used in implementing services are:
- Provincial Informal Economy Policy and Street Trading Bylaws

## For 2020/21 financial year, the Informal Trade and Street Trading Sub Unit had the following targets:

- 4 x Training/workshops facilitated to street traders
- The Business Unit applied for funding from the Department of Economic Development and Environmental Affairs(EDTEA) at a value of R4 million. This funding will be used to upgrade street trader's facilities including trading stalls, storage and toilet facilities.

## ALLOCATION OF TRADING STALLS: THWALA ROAD STALLS.

Development Services Sub Unit has facilitated the launch of Thwala Road Market Stalls on the 03rd May 2021, which consisted of ten (10) stalls, all traders were allocated or handed their keys in their precise trading stalls.

Ten Lease Agreements were signed in May 2021 with the following Traders for the occupation of the Thwala Road Stalls:

#### 2.2.3. INFORMAL ECONOMY

#### The following are the duties of the informal economy Unit:

The Unit undertake the following tasks:

- The preparation of the policy that will focus on the development needs of the Informal sector, and identify opportunities within the economy of the Municipality, looking both externally at the broader economic situation of the region, as well as internally at its procurement processes.
- Capture an Informal Economy development vision for the Msunduzi Municipality in consultation with key stakeholder organizations.
- Provide an analysis of the Informal Economy environment, including strengths, weaknesses, opportunities and threats within the economy in general and municipality in particular.
- Review the key economic sectors in the municipality and analyze the potential development opportunities in each sector and the most recent trends.
- Analyze the latest Provincial Growth and Development Plan, the Municipal IDP, and the LED strategy
  together with the various plans of other national and provincial government departments in respect of
  promotion of Informal Economy growth and development, to identify possible opportunities.
- Undertake structured consultations with stakeholder groups to develop key strategies and priority interventions, with the aim of promoting new SMMEs, supporting progression from the informal sector to formal small businesses, and enabling SMMEs to expand, diversify and develop a profile beyond the Municipal boundaries.
- Make recommendations on the creation of an enabling environment which is conducive to promoting Informal Economy development, including both support and the reduction of regulatory and bureaucratic impediments.

## For 2021/22 financial year, the Informal Economy Sub Unit had the following targets:

- Finalize the reviewing of Informal Economy policy
- Successfully sourced funding for the establishment of Informal Trade Stalls, Refuse Bins, Ablution and Storage facilities.
- Successfully facilitated meetings of Sub Committee Liaison and Informal Chamber

#### **COMMENT ON LOCAL JOB OPPORTUNITIES**

There are a number of catalytic projects in the IDP, which support industrial development such as the Pietermaritzburg airport upgrade, the Integrated Rapid Public Transport System (IRPTN), the electrical infrastructure upgrade and the installation of a fibre optic cable network.

## **BUSINESS LICENSING**

The purpose of this Unit is to issue, endorse, revoke, amend the business licences and also ensure that all businesses within the Msunduzi Municipality comply with the Business Act, (Act No. 71 of 1991) which states that no person/business may conduct a business without a business license.

Businesses who fail to comply with the legislation, by trading without a license and by contravening their license conditions will be prosecuted"

## **CHALLENGES:**

The challenges of the unit are the critical staff shortage, the unit desperately requires admin clerks, and the shortage of clerical staff is hampering the roll out the E-licensing program.

The critical shortage of tools of trade (computers, color printer for printing business licenses, vehicles for inspectorate to carry out the regulatory functions)

## **BUSINESS VISITS FOR COMPLIANCE**

The business licensing unit has exceeded all the set target albeit the Covid 19 challenges

## 4. SPECIAL PROJECTS (NDPG)

- 4.1. The Unit is responsible for the planning, implementation and management of the Neighbourhood Development Partnership Programme [NDPG] that is intended for public investment, funding used to attract private, and community investment to unlock the social and economic potential within targeted neglected townships and neighbourhoods.
- 4.2. The Unit was successful in sourcing funding to the value of R108million for the Camps drift Dredging which has not been maintained over the past ten years due to the unavailability of funds. Currently in a process of extending the footprint of NDPG programme through the Integration Zone to the CBD and Northern Areas. In the 2020/2021 financial year, national treasury also approved R56million towards the planning and design of the Old Edendale road upgrade project.
- 4.3. The challenge has been that the majority of land parcels intended for the Edendale Town Centre development are privately owned and highly invaded with informal settlements. This resulted in the Municipality having to undergo the Land Expropriation process, which lead to a major setback on the development. The land acquisition exercise has contributed to major delays in the construction of some of the roads and other infrastructure in the Edendale town centre.
- 4.4. The unit was also successful in sourcing funding towards the refurbishment and development of 250 street trading stalls as well as provision informal street trading storage and cold-room facility, ablution facilities as well as bins within the CBD.
- 4.5. The Unit is also accountable for the planning and implementation of CoGTA funded projects. These are Special LED projects where the unit manage the planning & implementation, SMME space allocation and capacity building.
- 4.6. The Sub-unit is responsible for the facilitation of spatial planning, land identification and premises access for development. The Unit was successful in obtaining the Water Use License for Ezinketheni Social Development Planning Programme. However, this process took longer and resulted in a delay on the approval of the SPLUMA application.

#### COMMENT ON THE PERFORMANCE OF DEVELOPMENT SERVICES OVERALL

The sub-unit has performed exceptionally considering the human capital strength being unobtainable and the tools of trade unattainable due to budget constraints. The novel corona virus (covid-19) has taught us the new normal in terms of working smart and making impact without necessarily occupying the office space.

The Development Services has much more room to improve in terms of high impact Local Economic Development programmes and infrastructure projects.

On the 3rd May 2021, the Development Services Sub Unit facilitated the launch of Thwala Road Market Stalls which consisted of ten (10) stalls. All traders were allocated or given keys to their specific stalls.

The challenge of not filling the critical post in management is affecting the performance capability of the sub-unit and the propensity to do well in all areas. Especially the key strategic objective of the sub-unit that is to reduce unemployment, increase the economic activity and utilize land optimally. This can be achieved through proper business attraction, retention and expansion strategy and as well as a supportive Business incentives policy.

#### 3.2. HUMAN SETTLEMENTS

## **INTRODUCTION TO HUMAN SETTLEMENTS**

The Human Settlements Sector Plan sets out human settlements delivery goals, targets for the municipality, and provides an approach to human settlements delivery and spatial transformation. The Human Settlements Sector Plan is reviewed annually together with the Integrated Development Plan of the Municipality.

he newly reviewed Human Settlements Housing Sector Plan 2020/2021 was adopted by full council in April 2021.

#### SOME FOR THE KEY OBJECTIVES OF THE HUMAN SETTLEMENTS SECTOR PLAN IS TO:

- Upgrade the existing well located informal settlements to improve land tenure and access to basic services
- Accelerate development and consolidate human settlements development in line with the National Policy directives and the IDP of the Municipality
- Contribute towards spatial transformation and creation of an efficient settlements and spatial pattern.
- The Municipality is currently acting as a developer and has delivered several Human Settlements projects through funding from the Department of Human Settlements. Since 2004, the Municipality has delivered approximately 138000 Human Settlements units with access to basic services (water, electricity, roads, storm water, etc.).
- There are currently some 42 Projects in various stages of implementation. The total project pipeline will yield over 43 000 units in the next 10 years. The Human Settlements Sub Unit is made up of four (4) Sections with each focusing on key programmes of human settlements:

## ORGANIZATIONAL UNITS WITHIN HUMAN SETTLEMENTS

## LIAISON AND INFORMAL SETTLEMENT

The Section is responsible for the social facilitation/ community participation in all Human Settlements projects within the Municipality including setting up of Project Steering Committees and report back to communities. The Section also manages Beneficiary Administration in all Human Settlements projects and provide Human Settlements Consumer Education (training to beneficiaries of Human Settlements projects).

## **PROJECT PLANNING**

This Section identifies and facilitates the acquisition of well-located land to implement the relevant national Human Settlements subsidy programmes.

There are currently 32 Human Settlements projects that are in various phases of the planning stage (Pre-feasibility and Detailed Planning - Stage 1). These projects and other project under implementation are expected to deliver a combined estimated yield of 43 463. Once the planning stage is concluded these projects will advance to Stage 2 which is installation of services under the Implementation Section.

## PROJECT IMPLEMENTATION

The Section deals with project management of human settlements projects at the implementation to deliver the infrastructure services and mixed typology Human Settlements at scale. Ensuring that infrastructure services in all Human Settlements projects meet the Municipal standards. There are currently nine (9) human settlements projects that are in various phases of the implementation stage. During the 2020/21 financial year the municipality was able to deliver 829 housing units of the planned 1724 due to a variety of challenges, the biggest one being Covid-19.

The Municipality is currently undertaking rectification programmes which include the rectification of 2086 Wire-walled houses. The Municipality has also experienced a challenge whereby most of projects that were undertaken post 1994 were never completed and closed out, about 11 000 units have never been transferred to the beneficiaries. In rectifying this situation, the Municipality has appointed a Conveyancer to verify and transfer the 5685 units. By end of June 2021, 3627 title deeds had been transferred.

## **HUMAN SETTLEMENTS ADMINISTRATION**

Human Settlements Administration sections of Human Settlements that deals with Council Rental Stock. Council Rental Stock consists of Flats and Odd properties. Human Settlements Admin also deals with Files that belong to Edendale/ Imbali Township properties. The Municipality currently owns 248 rental flats and 40 state funded properties and 58 odd/ free-standing properties (houses) that are being leased out to tenants. The unit is also in the process of disposing of the approximately +- 800 ex-state owned pre-1994 properties within the Edendale area by application of the Extended Enhanced Discount Benefit Scheme (EEDBS). On the 27<sup>th</sup> May and 14<sup>th</sup> May 2021, the Unit handed over approximately 200 title deeds to tenants of pre-1994 ex-state owned properties most of which were elderly over 60 year of age and predominantly woman in Sobantu Village and Imbali Unit DD.

#### **CHALLENGES**

There are challenges relating to the management of Informal Settlements due to massive land invasions and mushrooming of more informal settlements, and the Municipality is having a challenge in fighting this phenomenon. What is even more challenging about land invasions is that they are targeting land that has already been identified for human settlements. Challenges with regards to the time taken on the appointment of service providers, leading to delays on the implementation of Human Settlement projects.

Delays in funding approval through the Municipal Infrastructure Grant for Human Settlement Projects. Some of the challenges that are facing the administration of the Human Settlements Rental stock, has been a long history of poor payment of rentals and services. Most projects were affected by the Country's lockdown due to Covid-19. For a considerable amount of time, contractors could not work on-site and when the Country was open, there were shortages of steel and other building materials which meant slow progress on delivering housing units on-site.

The other challenges are a lack of qualified data that both Human Settlements Administration and Finance work from in terms of rental collection and the systems being used by the sections to perform property management activities. There has also been minimal maintenance of the rental stock due to lack of funding resulting from non-payment of rentals. However, the Human settlement has appointed the service provider that will be doing maintenance and repairs of rental stock, and the legal that will be dealing with non-payment of rentals (evictions).

## PERFORMANCE ENHANCEMENTS

The Municipality is level 1 accredited by the National and Provincial Department of Human Settlement to perform Human Settlement activities on behalf of the Province. As part of the accreditation, the Municipality is provided with Grant Funding for operational purposes. The funding has assisted the Municipality to fill all critical positions, and that has drastically improved the performance of Human Settlement and Service Delivery as whole. The Unit is constantly engaging on staff training through internal bursaries and trainings requested from Provincial and National Department of Human Settlements to improve efficiency.

## HOUSING NEED IDENTIFICATION

There are various ways that Human Settlements Unit use to identify Housing needs, these include; IDP Izimbizo, requests from communities and Ward Councillors. Through the Municipal Spatial Development Framework in terms the identification of land suitable for human Settlement, as well as other internal strategic plans e.g. Human Settlement Sector and National Upgrading Support Programme.

The Municipality together with the Provincial Department of Human Settlements are in a process to implement the National Housing Needs Register programme. This programme will create a single and reliable list of potential beneficiaries/ those legitimately waiting for government housing assistance.

## **HUMAN SETTLEMENT DELIVERY AGENTS**

Human Settlements is working together and have a relationship with a Social Housing Institution called Capital City Housing (accredited by the Social Housing Regulatory Authority as per the Rental Housing Act). This Agent is responsible for the provision of the subsidised rental accommodation. The Municipality is currently investigating the establishment of a Municipal entity to deal with the provision and management of rental housing accommodation.

## COMMENT ON THE PERFORMANCE OF HUMAN SETTLEMENTS SERVICES OVERALL

Our four priorities amongst others are; Jika Joe Community Residential Units, Wirewall Rectification Project, Signal Hill Integrated Housing Project and the consolidation projects. Jika Joe is aimed at providing rental accommodation for low income residents within Jika Joe informal settlements and its surroundings. The project is currently under the construction of top structures on Phase 1 of the project which will yield 452 Units. The project had some delays performed very well and exceeded the projected expenditure in the financial year 2019/20.

Wirewall Rectification Program is focused on rectifying the houses that were built in late 1990's using the Wirewall technology. There are 2086 houses to be rectified in this project, 1352 houses have been rectified under this program with 679 units having been rectified on financial year 2020/21. The project performed very well and exceeded the number of units projected in the financial year 2020/21.

Signal Hill is an Integrated Development Project aimed at delivering various housing typologies for different income categories. Detailed Planning Studies for the project are ongoing; an Environmental Authorisation is in place (Record of Decision). There is a Town Planning (MPT approval) is in place for the Pilot Phase of the project (phase 1), the unbeaconed GP is 80% complete. This phase comprises of 59 units earmarked for the Gap Market. This phase is 80% complete and will be handed over to the Implementation Section for the installation of services which is Phase 1. The balance of the 2941 units' form part of phase 2 of the project which triggers a WULA upon approval of the WULA the SPUMA application process will be finalised. This exercise is 50% near completion.

There are five consolidation projects in Msunduzi; these include Happy Valley Housing project, Site 11 Housing project, Thamboville Housing project, Glenwood Q-Section Housing project and Thembalihle Housing project. These projects were faced with challenges in the 2020/21 financial year, these ranging from delays with NHBRC approvals, Covid-19 with steel and other material supply shortages and slow progress on site. Out of the projected 334 housing units to be delivered across the 5 projects, only 69 housing units were achieved.

#### 3.3. TOWN PLANNING AND ENVIRONMENTAL MANAGEMENT

This component includes Building Control; Town Planning, Environmental Health, Environmental Management, Land Survey and the Greater Edendale and Vulindlela Development Initiative (GEVDI).

#### INTRODUCTION TO TOWN PLANNING AND ENVIRONMENTAL MANAGEMENT

- (a) The opportunity of town planning is to be able to work hand in hand with the communities in their attempts to achieve service delivery and make their life successful within their environment. Town planning deals with areas that need intervention by making sure that areas change for the betterment of people who are staying within those areas.
- (b) The challenge that is facing town planning is an increase of unauthorized land uses due to delay in finalizing cases and a shortage of human capacity to enforce unauthorized land uses.

## ORGANIZATIONAL UNITS WITHIN TOWN PLANNING AND ENVIRONMENTAL MANAGEMENT TOWN PLANNING

During the 2020/21 financial year, Town planning received numerous development planning applications, of which most of them have been considered within the legislated timeframe. The table below, provides the exact figures of various development applications received and processed within the 2020/21 financial year.

## **BUILDING CONTROL AND SIGNAGE**

The Building Control Section monitors building construction in the Msunduzi Municipality boundaries. This is achieved by compliance with the National Building Regulations and Building Standards Act, 1977, the SANS 10400.

95% of Building Plan Applications <500m2 to be processed for approval by the Plan Approval Committee within an average of 30 days from date of receipt of the application by the 30th of June 2021

100% of (660) Building Plan Application <500m2 processed for approval by the plan Approval Committee within an average of 21 days from date of receipt of the application by the 30th of June 2021

Total of 600 building inspections conducted of illegal building works by the 30th June 2021

727 x building contraventions inspections conducted for illegal building works by the 30th of June 2021

#### Lack of Resources

- The lack of tools of trade has effected the department drastically. Since we are doing business electronically, the hardware must be upgraded accordingly.
- The Building Control unit does not have access to property ownership details when dealing with Companies and Trust as the contract with Windeed has not been renewed.
- Budgets for the unit were reduced and therefore we are unable to source assets and operational needs for the unit.

## **Problem Buildings**

 The Department together with Legal service and other units has identified 5 properties that were handed over to a Legal Firm to pursue the matter via the courts. The unit is current waiting for progress from Legal Service

#### **ENVIRONMENTAL HEALTH**

#### INTRODUCTION TO ENVIRONMENTAL HEALTH

Environmental Health encompasses those aspects of human health, including quality of life that is determined by physical, chemical, biological, social and psychosocial factors in the environment. It also refers to the theory and practice of assessing, correcting, controlling and preventing those factors in the environment that can potentially affect adversely the health of present and future generations. Environmental Health Services includes:

Water quality monitoring, Food control, Waste management, Surveillance of premises, Communicable diseases control, Vector control, Environmental pollution control, Disposal of the dead, chemical safety and noise control. The service delivery priorities focused on water quality monitoring, food quality and safety, and air quality monitoring.

#### Nitrogen dioxide

Human activities such as the combustion of fossil fuels and biomass are the major source of NO2 in the air. Effects of NO2 exposure include alveolar tissue disruption and obstruction of the respiratory bronchioles.

#### Ozone

In its natural form it is of benefit to mankind but the production of ozone due to human activity can be detrimental to humans. Ozone can be toxic to lung tissue if inhaled and may also impact the immune system.

#### **Particulate Matter**

Particulate matter (PM) found in the air is made up of a mixture of very small particles and liquid droplets. Once inhaled, these particles can affect the heart and lungs and cause serious health effects.

## **Sulphur Dioxide**

Sulphur Dioxide (SO2) is a colorless gas with a strong, unpleasant odor. High concentrations of SO2 can cause damage to the human respiratory function when inhaled, causing coughing and shortness of breath.

## **Carbon Monoxide**

Carbon monoxide (CO) is a colorless, odorless gas emitted from combustion processes. The majority of CO emissions to ambient air comes from mobile sources. CO can cause harmful health effects by reducing oxygen delivery to the body's organs (like the heart and brain) and tissues.

#### **ENVIRONMENTAL MANAGEMENT**

This unit aims to provide a rapid and high quality response to development applications which will inform internal and external parties of environmental and social constraints and opportunities on a site by site basis and to accurately evaluate all natural systems and habitats within the Municipal area. We help to implement the City's Environmental Strategy for environmental legislation and work with numerous other departments and external partners to ensure the City's long-term environmental sustainability.

#### LAND SURVEY

This unit performs various functions related to land and this include the following:

- 1. Dealing with the establishment of new townships and minor subdivisions of land
- 2. Provide required cadastral advice on land development matters
- 3. Provide engineering survey services to various departments for Municipal projects
- 4. Manage cadastral data for the City

In the last financial year, the unit appointed a service provider on a 3-year contract to assist the Municipality in cleaning and updating the property data.

The Unit is continuously involved in the title deed restoration programme by assisting the appointed conveyancers in issuing clearance certificates as required by the Registrar of Deeds

With limited resources, the unit manages the Wayleaves section through two seconded employees.

The section conducted various designs and surveys for the eThembeni Cemetery.

Through its drawing component, the section produced numerous plans for land disposal for strategic properties as managed by the LED unit. Lease plans were also generated in assisting the Real Estates Unit.

#### **CHALLENGES:**

- 1. Lack of general assistants that help out a surveyor in the field
- 2. No Chief Technician to manage junior surveyors.
- 3. Survey equipment and software is extremely limited
- 4. Covid restrictions did not allow the unit to operate optimally

## **GREATER EDENDALE AND DEVELOPMENT INITIATIVE**

GEVDI is a sub unit that deals with a myriad of developmental issues. GEVDI deal with the acquisition of private land for the redevelopment of the greater Edendale area and the GEVDI area is confronted by many land legal impediments that the sub unit is also tasked with addressing. The other facet of GEVDI is to drive planning in the GEVDI area through the formulation of strategic plans, technical advice and planning individual projects.

GEVDI dealt with many projects and other service delivery initiatives, below are some of the key projects on Infrastructure Delivery, Service Delivery and Economic development objectives:

- Edendale Land Acquisition
- Edendale Town Centre: Planning Old Edendale and Town Center Roads
- Edendale Corridor Development Framework and Implementation Plan
- Edendale Town Centre: Technical Assistance on Environmental Compliance [WULA submission] Phase Two
- Edendale Town Centre: Feasibility report on Civic Zone
- Edendale Town Centre: Technical Assistance on Environmental Compliance [BAR submission] Phase Two

## **CHALLENGES**

The transition from working face to face was a challenge as some people did not have access to virtual platforms. The consultation on projects were challenging to do and attendance was not great in other due to the Covid-19 pandemic

The land acquisition programme was affected by the rollover of funds and has been momentarily halted which affects the momentum that has been built up on the programme.

The training of in terns has been a great challenge due to the new found work order due to the various lockdown levels

### COMMENT ON THE PERFORMANCE OF TOWN PLANNING AND ENVIRONMENTAL MANAGEMENT OVERALL

Town Planning was able to process the majority of development planning applications and building plans within the legislated timeframe. The subject unit successfully completed the Scottsville/Pelham Local Area Plan and the Revision of Municipal Bylaws within the 2020/21 financial year, as per the set annual target. The department was able to successfully adapt into the electronic submission and processing of land development applications and building plans through emails.

GEVDI has managed to spend majority of its grant funding for capex in the purchase and expropriation of land through signing of sale agreements

| No. Properties Acquired | Purchase Price (Capital Expenditure) |
|-------------------------|--------------------------------------|
| 45 properties           | R19 000 000                          |

The unit managed to get approval for the Traffic Impact assessment for the Edendale Town center layout GEVDI managed to get approval from national treasury to go into detailed Feasibility on the Civic Zone and produced a financial model that showed how the project can be made viable. ### 3.4. CITY ENTITIES

# INTRODUCTION TO CITY ENTITIES

City entities is a sub-unit of Sustainable Development and City Entities Business unit and is made up of six sections as listed below:

- Airport
- Market
- Tourism
- > Tatham Art Gallery
- Forestry
- Safe City

The Airport, Market and Forestry are income generating business units. Tourism, and Tatham Art Gallery enhance the income generation of the municipality through attraction into the city. Safe City is the only established entity within City Entities and aids in revenue enhancement as a support function other departments within the municipality.

The sub-unit has been affected by the general economic decline in the country and the global pandemic Covid-19 that lead to the shut down of commercial activities. This had a negative impact on the trading entities revenue. The recovery from the effects of lockdown have been slow as the country has not stabilized.

Safe City and the Market continued with daily operations as essential service providers throughout all the levels of lockdown. Although the market continued operating as an essential service during the lockdown, activity was low as a result of deteriorating disposable income.

The airport has been adversely affected throughout the financial year of 20/21. The lockdown came with a total shut down of the activities at the airport. Operations only resumed in October of 2021 where it was operating at 30% capacity due to the extreme decline in passenger numbers. All the kiosk [shops] and the restaurant at the airport had to shut down due to not enough foot traffic at the airport to sustain their operation. The business unit is still struggling with attracting business onto the airport as the sustainability and profitability of business is still not certain. However, the compliance standards as per regulator are still adhered to and maintained within the business unit.

The majority of Municipal owned airports are not sustainable without ongoing financial support. Airports that have attracted more than one scheduled operator; regular charter operations, or a number of flying schools and clubs, are typically closer to being sustainable.

An amount of R2 500 000 was received by the business unit from EDTEA for airport infrastructure projects. This funding was used to complete the clearvu parameter fence and installation of emergency gates.

Market remains operational and striving. The post of market manager was filled permanently. Repairs and maintenance of cold rooms remains a challenge largely due to the age of the cold-rooms. The security issues that the market was faced with are being addressed and yielding noticeable results and improvement. The business unit has since moved to a cashless system.

Tourism has also been adversely affected by lockdown. This subunit had to cancel most of its planned activities as they could not be executed. Additional to this, the budget that was allocated to the business unit was taken away to fulfil other municipal functions. The business unit remains volatile and uncertain of what the future of tourism will be as the resurrection of its functions thereof. This subunit shall be moving to Development Services as per new organogram.

Tatham Art Gallery, was also closed for the first quarter of the financial year as it falls under museums which were only due to operate from level 2 onwards. The programs and exhibitions that were scheduled were moved around with the changing stages of lockdown. The planned annual exhibitions were met eventually. This business unit operates largely on grant funding received from the department of arts and culture. As per new organogram, the business unit will move to Community Services.

The forestry has been the most challenging subunit. Having been operated for years as an outsourced function, managing it as a municipal unit came immense challenges. A decision to outsource the plantation has been revised and has been approved. The department has initiated the procurement process to outsource this subunit. In the interim, the department is attempting to meet the regulatory and operational requirements as best as feasibly possible. On site, there is a security company on a 24hr patrol basis, this has drastically reduced the timber theft and looting activity at the plantation.

Safe City remains operational with aging infrastructure challenges. Safe City is monitoring hundred and sixty-nine (169) CCTV cameras on a 24/7 basis. Seventy-one (71) cameras are located in the CBD, Freedom Square Taxi Rank, Northdale and Scottsville areas. Ninety-eight (98) cameras are located at eight primary electrical substations. Safe City strives to be a center of excellence hence maintains an ISO 9001:2015 accreditation. The control room is the only street surveillance control room in the country which can boast with such an accreditation.

### **SERVICE STATISTICS FOR ART GALLERY 2020/2021**

The number of visitors to the Gallery decreased from 15932 in 2019/20 to 12297 in 2020/21. This decrease is a direct result of the Gallery being closed to the public for three and a half months during the National Lockdown.

### COMMENT ON THE PERFORMANCE OF CITY ENTITIES OVERALL

Pietermaritzburg airport being a municipal owned airport faces budget and financial sustainability constraints. Human capital within the aviation industry is an ongoing issue which places immense pressure on the current operational and compliance demands.

Although the food industry as a whole is facing decline on sales due to economic conditions and COVID19 that is affecting the whole country. We are working closely with our local wholesalers and street vendors in order to keep them buying in our market, also we are working together with UMgungundlovu Development agency in order to assist small scale farmers with the alternative market.

Due to lack of staff, budget, general support from management and the current lockdown regulations due to the Covid-19 restrictions, has prevented the unit from achieving its objectives.

As a result, the Tourism unit has been reliant on the CTO, which is an external organization funded by the municipality, to execute the Tourism mandate.

The Tatham Art Gallery has an active Exhibitions and Education programme, which includes Outreach to marginalized sectors of the community, however it is extremely challenging to continue to meet targets and expand programmes without the appointment of a Manager. This post has been vacant for 33 months, and all staff are required to assume added responsibilities as a result.

The added failure of the Municipality to provide funding for the extensive building maintenance required, has resulted in both internal and external infrastructure decay. The roof leaks, which have damaged display areas have slowly destroyed the building. In addition, the Old Presbyterian Church building, is the Outreach wing of the Gallery, was infested by termites in 2017. To date, no funding has been provided by Council for either the Gallery building or the Old Presbyterian Church. Priority funding is required to preserve both buildings, which are national monuments.

The performance of Safe City in its entirety can be described as good as we have achieved and even exceeded some of our targets which was set for 2020/21. We maintained a very healthy working relationship with our operational partners and also with the Msunduzi Municipality who is funding the project.

There are however a number of concerns which needs to be highlighted.

The current street surveillance system which has been in operation since January 2003 is an analogue system which can no longer adequately meet the needs of our operational partners. Whilst the system which monitors the electrical substations is a digital system with Video Analytics the street surveillance system has no such features. Video Analytics reduces the work load on an operator hence the operator can effectively monitor more cameras whilst the analogue cameras need to be operated by hand. Spares for the analogue system can no longer be obtained over the counter and has to be made which drastically increases repair costs. We also urgently need to upgrade our Control Room software in order to stay abreast with newer technology.

# COMPONENT D: CORPORATE SERVICES BUSINESS UNIT

This component includes Legal Services, Secretariat & Auxiliary Services, and Information Communication Technology & Human Resources.

### 4. CORPORATE SERVICES

### 4.1. LEGAL SERVICES

Legal Services provides legal support to the Municipality in providing legal comments, opinions and advice to all Business Units. In addition, thereto, the unit undertakes the management of civil litigation in the High and District Courts including interdicts and criminal prosecutions relating to the contravention of bylaws and other laws governing local governance. The unit also provides input on policies.

The unit is also responsible for the review, drafting and promulgation of new and existing bylaws.

Furthermore, the legal advisors sit on Bid Committees as ex officio me members, are alternate Municipal Manager's Representatives at Full Council and Executive Committee, as well as various other forums established for the efficient operations in the Municipality.

### THE 3 TOP SERVICE DELIVERY PRIORITIES ARE:

- 1. Bylaws
- 2. Legal representation for Civil Litigation, and criminal litigation
- 3. Provision of legal advice, opinions to Council.

### **IMPACT:**

- The Waste Management Bylaws were reviewed, but the processes towards approval were halted due to
  insufficient budget allocation for the project for which the amendment to the bylaws was intended. No
  Bylaws were promulgated in the last financial year, but the Credit Control and Debt Collection Bylaws
  were published for comment.
- We achieved 100% legal representation in both civil and criminal matters. This is bearing in mind that in some instances, this KPA was not applicable due to the closure of Courts for ordinary matters, during the early stages of the lockdown, due to the COVID 19 pandemic.
- With regard to legal advice, comments and opinions our impact has been less than 100%, having achieved
  a score of 2 on the SDBIP. Our target was to provide legal advice opinions and comments within 10 days
  from receiving a request. Whilst all requests were met, some were provided outside the 10-day period
  due to the following:
- Staffing Constraints and vacancies in the unit,
- Disruption of operations due to the lockdown as a result of the COVID 19 pandemic;
- Other urgent priorities;
- Work distribution not optimal;
- Legal briefs not containing all relevant information.

### MEASURES TAKEN TO IMPROVE PERFORMANCE AND MAJOR EFFICIENCIES:

- The Standard Operating Procedures for accessing legal services were approved in July 2020 and have been in implementation since.
- Improve the legal brief process to ensure all relevant information contained in brief.
- Reviewed and improved work distribution.
- Extended contracts for temporary employees.
- Prioritised vacant posts to be advertised- 2 posts were advertised and filled.
- Two members of staff on a short course on Legislative Drafting.
- Refreshed staff and service providers on the process for the payment of service providers.
- Maintained compulsory meeting with the attorneys for monthly reports and issues relating to performance.

### **SERVICE STATISTICS FOR LEGAL SERVICES**

- Achieved 100% legal representation on all civil and criminal matters.
- Achieved 100% input on policies.
- Provided legal input and made recommendations on insurance claims against the municipality.
- Successfully took over the labour relations function from the Office of the MM. This new target of legal representation in labour relations matters was achieved 100%.
- Reported on contingent liabilities, particularly the steady reduction of same, on a quarterly basis.
- Reviewed fines were submitted to the Chief Magistrate for approval.
- The Debt Collection and Credit Control Bylaws were published for comment in June 2020, whilst the review of the Waste Management Bylaws was completed and the amendment approved by Management.

### **COMMENT ON BY-LAWS**

Waste Management Bylaws: Legal Services identified 1 bylaw for review in the financial year: an amendment to the Waste Management Bylaws. The business unit resolved to implement the Waste Minimisation and Diversion Strategy, entailing separation at source and possibly an Integrated Waste Plant. Therefore, if the service is provided to the promised quality and is reliable. However, the business unit did not acquire the required budget allocation in order to implement the strategy. Therefore, whilst the amendment to the Bylaw was approved by the SMC, the Bylaw was not published for public comment or forwarded to Council for approval. These processes are suspended pending the go ahead from the business unit.

Bylaw Review Project: The project was initiated at the request of the Ministerial Representative to the Municipality. It seeks to address the longstanding list of Municipal Bylaws in order to bring them up to date. A call for submission on the required amendments was made to business units. Pursuant to submissions received, as well as based on the consideration of other relevant factors, such as legislative changes and compliance requirements. The outcome is that revenue related Bylaws were prioritised. In the new financial year, the Credit Control and Debt Collection Bylaws, Electricity Bylaws, Water Services Bylaws, Tariff Bylaws and Indigent Bylaws.

### COMMENT ON THE PERFORMANCE OF LEGAL SERVICES OVERALL:

The SDBIP provides an indication of what has been achieved and the deficiencies. For the sake of brevity, same will not be repeated as the information is contained in the tables above.

The performance target relating to legal advice, comments and opinions is the only target where the impact was less than 100% on the SDBIP. Our target was to provide legal advice opinions and comments within 10 days from receiving a request. Whilst all requests were met, some were provided outside the 10-day period due to the reasons stated above. The impact of the lockdown due to the COVID -19 virus was a significant factor coupled with the high vacancy rate within the unit. Notwithstanding these challenges, the Legal Team utilised all available resources to ensure service delivery objectives are achieved by employing technological tools, to adjust and migrate in order to operate in the available environment.

As a result, all other targets were met under 100%. There were in respect of the Bylaws, legal representation in civil matters and criminal prosecutions. The target for the review of policies was met notwithstanding that; the target was added at medium term. Lastly, the unit took over the Labour Relations functions from the Office of the Municipal Manager mid -ear and impressively met the target of 100% legal representation in labour matters.

### 4.2. SECRETARIAT AND AUXILIARY SERVICES

### INTRODUCTION TO SECRETARIAT AND AUXILIARY SERVICES

The Secretariat and Auxiliary Services unit is a sub-unit of the Corporate Services Business unit and is responsible for Archives, Registry and Information, Printing Services and Secretariat Services.

### **ORGANIZATIONAL UNITS WITHIN SECRETARIAT & AUXILIARY SERVICES**

### ARCHIVES, REGISTRY AND INFORMATION

This Sub-Unit is responsible for the keeping of all records generated by the Municipality and those received from outside the Municipality in accordance with the Council's Records Management Policy and relevant legislation, to archive the old and dispose obsolete records and to distribute agendas for the meetings of Council and Council structures. It also provides messenger services to the Unit for Council related correspondence.

### PRINTING SERVICES

The Sub-Unit renders organization-wide printing services which entail ordinary printing and high volume printing and binding of standard documents and registers through lithographic and high speed copying.

The turnaround time for all the requests made for printing and binding works is two days. This target was however not met in some cases due to the fact that the printing machines were always down and the repair services response time was slow.

### **SECRETARIAT SERVICES**

The Sub-Unit is responsible to render secretariat, translation and interpretation services to the meetings of Council, Council structures and administrative structures. The secretariat services briefly entail issuing out of notices and agendas of meetings and taking of minutes of meetings. It further includes translation of agendas and minutes and rendering of interpretation services to some of the meetings.

The targets which this Sub-Unit has are the weekly and monthly issuing of schedules of meetings and these targets were all met. The target that was not consistently met is for the compilation of the minutes of all meetings within seven days after the meeting. The failure to meet this target was due to the fact that the Secretariat Manager was the only one responsible to manage and provide quality checks to the work of twenty Committee Officers and could not cope with the amount of work generated by twenty Committee Officers.

### COMMENTS ON THE PERFORMANCE OF SECRETARIAT AND AUXILIARY SERVICES OVERALL

The Unit was unable to achieve some of its targets due to the overload as explained above, breakdown of printing machines and non-appointment of acting Manager in the absence of the Manager: Secretariat.

To alleviate the supervisory challenges, four Principal Committee Officer and three Principal Language Practitioner positions were created and staff has been seconded to some of these posts until such time that they are permanently filled.

The virtual running of meetings through Microsoft Teams in response to COVID – 19 requirements was successfully implemented and efforts are being made to refine it to cater for all activities relating holding of meetings and concomitant arrangements right from document generation to document filling, archiving and retrieval.

The Unit is currently sitting with 6 vacant posts and are prioritized for filling in the 2021/2022 financial year

### 4.3. INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

### INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

The ICT department plans to achieve these goals by:

- ICT to be a proactive business partner with the rest of Msunduzi in achieving Msunduzi's business goals.
- Right information, in the right format, in the right place and at the right time.
- Enabling the effective operation of critical business operations through the provision of business applications and
- Robust Infrastructure and Technology

Although the ICT department continues to face funding challenges just like any other Business Unit at municipality, this has a direct consequence in dealing with Poor network infrastructure and Poor integration between applications,

### ORGANIZATIONAL UNITS WITHIN INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

### **BUSINESS OPTIMISATION**

The main target for 2020-2021 was the implementation of e-forms. However, this is still work in progress as the challenges are lack of skills using the new Microsoft 365 technology. Although there is no cost to council the project is ongoing. The Webmaster and his team are doing continuous research, developing and making use of the free vendor support that form part the Microsoft 365 agreement.

The second target is the implementation of all Auditor General findings that relates to Business Systems. The remediation's are continuing and most of the challenges related to lack of SLA's, Legacy systems and untrained system custodians, however ICT Business Optimization Manager is facilitating and assisting the affected business units. Furthermore, in conjunction with the relevant business units a catalogue of all Business systems is being developed.

### **ICT INFRASTRUCTURE**

ICT Infrastructure unit maintain the servers, networks, security and other infrastructure equipment. The unit is responsible for upholding standards relating to all aspects of the technology architecture. The unit delivered on the two top priorities during the course of this 20/21 financial year

Fiber connectivity: Two sites (Publicity House & Truro library) were upgraded and connected to high speed

# PROJECT MANAGEMENT

This function ensures that all ICT projects are managed in a structured fashion using a chosen methodology. Priority ICT projects are driven by this unit. During this financial year, no projects were registered, instead the unit focused on outstanding work related to previous projects, e.g. Multi-Function deployment.

The Project Office is non-functional at the moment due to lack of capacity from the recently placed Project Manager and only one available Project Administrator. ICT Projects which are mainly infrastructure related are run by other business units within ICT.

### **ICT SECURITY**

The ICT Governance and Security manager will be responsible for all ICT governance and security activities within the ICT function. This function will also ensure that audit findings will be addressed timeously.

Governance and security work is assigned to other staff from other units in order to get it moving, and that alone creates other human resource related issues. The ICT Security Officer which was the only position to be filled in this unit remains unfilled since the previous incumbent resigned in 2018. Network tender is due for evaluation by SCM, finalization of it will assist in the appointment of an external ICT Security resource.

### SYSTEM ADMINISTRATION

The day-to-day administering of the IT systems that are mainly used by ICT staff in order to keep the ICT system landscape operating at a premium. Most of the operational work in ICT falls within this unit

### INTRODUCTION TO MUNICIPAL WEBSITE CONTENT AND ACCESS

A municipal website should be an integral part of a municipality's communication infrastructure and strategy. If managed effectively, it allows easy access to relevant information, serves as a tool for community participation, improves stakeholder involvement and facilitates stakeholder monitoring and evaluation of municipal performance. Msunduzi's website only went live in late 2007 and apart from the legislative compliances, the public for various needs, such as meter reading submissions, marketing, accessing of tenders and necessary public information relating to the citizens locally and worldwide, uses the website.

### COMMENT ON MUNICIPAL WEBSITE CONTENT AND ACCESS OVERALL

Information is uploaded almost daily. This is done by formatting documents where necessary, logging onto the website, customizing areas if necessary and uploading data. Publishing dates are indicated below the information or file download. The Public can access information on www.msunduzi.gov.za 24hrs a day by viewing some information on respective pages whereas other information is available as downloads viz. PDFs (Readable with Acrobat Reader). Information not up to date is usually due to respective Units not providing them timeously or when prompted about this report or not at all. Most compliance documentation is only made available by respective Units close to or on the due date and usually require further updating a few days later as original info is either incorrect or incomplete. Most information provided is uploaded and available within a few hours.

# COMMENT ON THE PERFORMANCE OF ICT SERVICES OVERALL:

The important priorities during the 2020/21 financial year were the improvement of ICT operations and governance related matters. Due to lack of capital funding, ICT spent the funding made available connecting two offices via fibre lines. Governance projects that have been completed were the reviewing and updating of all ICT related policies and procedures, the finalization and approval of the ICT Strategy and Governance Framework.

### 4.4. HUMAN RESOURCE SERVICES

### INTRODUCTION TO HUMAN RESOURCE SERVICES

Msunduzi Municipality appointed three contract work study staff members with the purpose of reviewing the structure. In terms of the Structure Review Action Plan, a draft Structure was to be finalised by no later than December 2019 but is delayed due to top structure not having been completed by the work study consultants assigned to this task. The draft proposed Structure will be costed so that the Municipality knows the financial implications of filling it and can therefore budget accordingly. A Workshop was held on 6/11/2019 with the proposed top structure being workshopped to Management and LLF (Local Labour Forum) members. The final macro structure is still in progress.

### ORGANIZATIONAL UNITS WITHIN THE HUMAN RESOURCES UNIT

### 1. PERSONNEL:

### **EMPLOYEE INFORMATION**

A personnel department organizes, maintains and secures each employees records and documentation for the organization. This includes qualifications, benefits, and other documents. Documents and records are typically stored in files, as well as a secured human resources database.

### SERVICE STATISTICS FOR HUMAN RESOURCE SERVICES

- Workplace Skills Plan (pointing to priority skills) approved.
- 2 General Manager posts were filled
- Signed off Change Management Strategy and Plan.
- Development of COVID-19 Guidelines, communicated to all Staff.

#### COMMENT ON THE PERFORMANCE OF HUMAN RESOURCE SERVICES OVERALL

In 2020 because of the COVID-19 pandemic and National Lockdown. It must be noted that a majority of HR programmes are interactive, hence could not be held as employees were not at work with the exception of essential services and critical support staff who were working under level 5 and 4.

Skills Development was not able to offer external bursaries to our disadvantaged youth and Study Assistance to internal staff because of the budget constraint and cash flow challenges.

It must be added that during the National lockdown, Corporate Services was responsible for COVID-19 development of COVID-19 Guidelines with roadshows being done to create awareness to employees. The Safety Unit played a pivotal role in ensuring that the regulations were being applied consistently. Challenges of non-compliance were raised. An ad hoc team which comprised of the employer and management was also formed to monitor compliance safety team and tried to be addressed.

The Municipality will need to have strategies to deal with COVID-19 in the workplace noting that organisations will have to live and manage the pandemic by observing all regulations.

#### 4.5. ORGANISATIONAL DEVELOPMENT

# **ORGANISATIONAL DEVELOPMENT OVERVIEW**

# ORGANIZATION DEVELOPMENT PERFORMANCE

The HR Leadership Team listed the items below as HR needs commonly stated by internal clients:

- Competent staff
- Accurate statistics from HR: staff attendance data, overtime data, vacancy data
- Motivation of staff
- Skill gaps bridged where they exist in order to improve employee performance
- Correct remuneration correct grading and salary bands
- Harmonization of the work environment
- Information to be available more communication expected
- Recognition of high performers
- Policy compliance and consistent policy application
- Incentives to perform
- Benchmarking of information

Based on the feedback drawn from the HR Survey, a gap is obvious between what the employees expect and what the HR team presently delivers, and this mismatch appears to be the primary cause for the lack of confidence in HR.

The items above indicate a need for HR to address not only administrative needs, but also facilitate solutions spearheading thought leadership for attainment of meaningful organizational solutions.

# **COMMENTS ON VACANCIES & TURNOVERS**

The General Manager's: Community and Infrastructure Services posts were filled in the 2020 2021 Financial Year. All Section 57 posts are now filled

The 2013 structure, implemented in June 2015 has a higher post compliment which further translated into a higher vacancy rate and while the Human Resources Unit has embarked on a concerted recruitment drive the Organization is still challenged by a relative high staff turn-over.

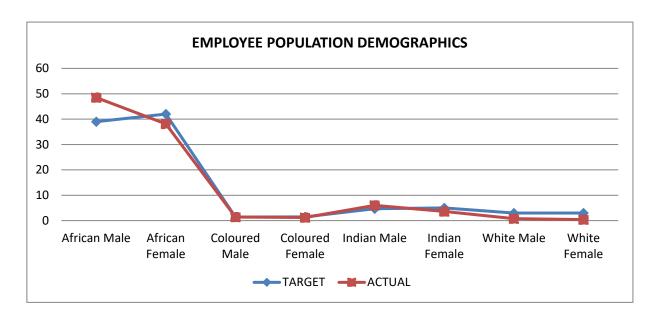

### MANAGING THE MUNICIPAL WORKFORCE

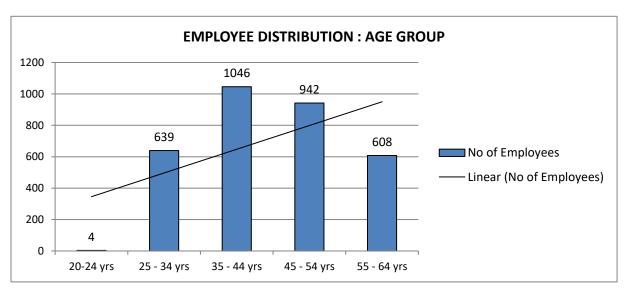

## INTRODUCTION TO MANAGING THE MUNICIPAL WORKFORCE

There is an urgent need for Msunduzi Management and HR senior management to give attention to attraction of younger recruits in order to bolster the talent pipeline which is presently very weak. Should nothing be done in this regard, the organization will face the risk of business continuity and loss of institutional knowledge as older employees retire. Specific recruitment targets and conscious interventions aimed at turning the age distribution curve around are considered as essential and urgent.

The Municipality pursues the equitable representation of designated groups in all occupational categories and levels in the workforce and actively supports an organizational culture and climate based on diversity, equality, mutual respect and dignity for all.

Currently in the organization, African males are over represented at lower Occupational levels (A Grade) while other demographic groups are minimally or not represented at all. People with disabilities are critically underrepresented. Of a workforce of 3166 permanent employees, the municipality has facilitated the formal declaration of only two employees with disabilities.

# **COMMENT ON WORKFORCE POLICY DEVELOPMENT:**

The following Policies were reviewed in 2020 2021 Financial year, the Policies are to be workshopped with Labour toward final approval.

# COMMENT ON INJURY AND SICK LEAVE

All employees that are injured on duty are assessed by the Medical Practitioners and Occupational Health Practitioners. Sick leave is given to the injured employees by the Medical Practitioner and the leave is monitored based on the nature off injury by Occupational Health Practitioners. The Municipality strives to ensure that the injured employees are given the necessary medical care so that the injured can return to work timeously.

# **COMMENT ON SUSPENSIONS AND CASES**

Consequence Management continues to be a problem in the Municipality but cases are being processed through the appointment of presiding officers to sit in cases that have not been attended. The HR department also facilitated trainings for Management regarding the handling of disciplinary matters through SALGA and Internal Stakeholders.

#### THE MUNICIPAL WORKFORCE

#### INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

During the 2020/2021 Financial Year only 494 employees were trained in all the occupational categories, the target was to train 410 employees in total. The Skills Development Unit over achieved their target. LGSETA grants were used to implement skills development interventions and the use of funded programmes by our various stakeholders due to the cost containment strategy of the Msunduzi Municipality. During the 2020/2021 Financial Year the Skills Development Unit ensured that it took full advantage of all funded programmes that were offered by SALGA, COGTA , LGSETA and other funding partners to capacitate Councillors, Employees and unemployed Youth and Community Members.

# COMMENT ON SKILLS DEVELOPMENT AND RELATED EXPENDITURE AND ON THE FINANCIAL COMPETENCY REGULATIONS

The municipality has implemented 2 MFMA programme during the 2020/2021 Financial Year using the MFMA grant funding. In terms of implementation of the MFMA Competency Regulations the Msunduzi Municipality has ensured that the relevant employees within the five categories have been trained and the training is now being cascaded to other non-finance managers in the various Business Units and MFMA Interns.

A total of 20 employees have been trained which include those affected by the regulation including MFMA interns and non-finance officials reporting directly to managers affected by the regulation.

# INTRODUCTION TO WORKFORCE EXPENDITURE

The municipality has made a concerted effort to manage workforce expenditure by improving the management and control of overtime.

# 5.2. INDIGENTS (FREE BASIC SERVICES)

# INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

Council receives Equitable Share to subsidise those who cannot afford to pay for the minimum needs in life. The objective in calculating the amount to be subsidised, must be to prevent an increasing balance on the account of an indigent as it will be difficult to recover the debt in a humanly way. According to the Municipal Systems Act 2000, Section 74(3) and 75(2) stipulates, "A tariff policy may differentiate between different categories of users/debtors."

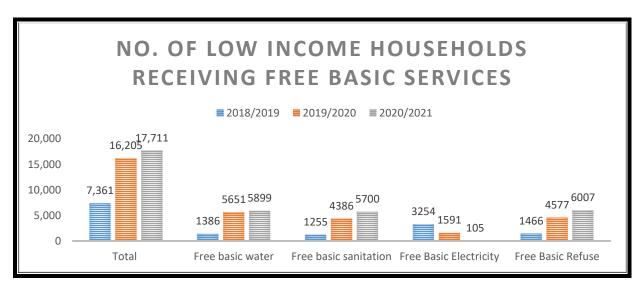

#### CRITERIA FOR APPROVAL

- 1. That the gross household income for qualification as a registered Indigent be determined each year by Council in terms of the tariff register. Currently the threshold income is R 4 560.00
- 2. That the prescribed application forms be completed annually.

# COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT OVERALL

The equitable share received is used to fund Free Basic Services that is extended to all our customers who have been declared indigent who are earning below **R 4 860.00** as determined by Council. Further to the free basic services, we are trying to remove the burden from the indigent customers by reducing their amperage on the electricity they use to 20AMPS. We have started a project to replace all indigent customers meter with smart prepaid. Indigent policy refers to: people who are lacking the necessities of life such as sufficient water, basic sanitation, refuse removal, environmental health, basic energy, health care, housing, food and clothing. Spent on electricity for 2020/2021 was **R 20,072**, spent on water 2020/2021, **R 4 643 713** spent on sewerage for 2020/2021 **R 10 510 907**, spent on refuse 2020/2021 **R 7 255 427** 

#### 5.3. FINANCIAL HEALTH OVERVIEW

# **FINANCIAL OVERVIEW**

The collection of revenue remains challenging for the City, the appointment of Debt Collectors will assist in the short term and once legal processes begin, this will drastically improve. However, the impact of COVID-19 on the livelihoods, of the residents of the City will continue into the near future.

# COMMENT ON CAPITAL EXPENDITURE

The municipality's capital budget was initially R580 892million, during the adjustments budget, it was increased to R747 190 million. The increase was due to additional funding that was made available to deal with much needed infrastructure. Capital Expenditure remains a challenge in the Municipality. Weekly Capex and MIG meetings are being held in order to ensure and assist the

# COMMENT ON THE PERFORMANCE OF BUDGET PLANNING IMPLEMENTATION & MONITORING OVERALL

The unit's performance is mainly dependent on the use of a system. From the inception of the budget preparation processes are mainly system driven more especially since the introduction of the mSCOA regulation. Unfortunately, SAP in its current form makes it difficult to perform at an optimum level hence monthly reporting not taking place as per MFMA requirements.

## 5.5. REVENUE MANAGEMENT UNIT

## INTRODUCTION TO REVENUE MANAGEMENT UNIT

Revenue Management involves all procedures necessary to ensure that all income is fully accounted for. The service delivery objectives of the department is the collection of revenue, the accounting of all revenue streams and the management of indigent residents in the City.

## ORGANIZATIONAL UNITS WITHIN REVENUE MANAGEMENT UNIT

## **COMPLIANCE DATA ANALYSIS & REPORTING**

The compliance data and analysis and reporting section manages the Tariff Review and Approval Process by ensuring that the tariffs follow legislative compliance for billing for each financial year, especially in terms of Section 75A of the Systems Act. The approval of the Tariff Policy is also a deliverable in terms of the Systems Act. The section also supports the Annual Financial Statement Process through the finalization of monthly reconciliations relating to the Subsidiary Ledger, General Ledger and Trial Balance. Short and long-term service delivery objectives are monitored as required by the section. The compliance data analysis unit met all the targets sent for the 2020/21 period.

## **CUSTOMER CARE**

The Customer Care Section is responsible for new service application, application for service alteration, application for property transfers, prepaid electricity sales, receipting and handling of customer queries. Customer Care consists of five sub-sections as listed below: Counter Enquiries Section, Receipting Section, Service Application Section, Correspondence Section and Prepaid Electricity administration Section

## **DEBT MANAGEMENT**

#### **Monitoring**

The Municipality conducted an analysis of its processes to recover its revenue and well as the processes followed in outstanding debt recovery. This value chain was thoroughly analyzed with intention to revamp, augment or restructure the processes and the organogram. The analysis revealed amongst others that the application of the credit control and debt collection policy does not yield the expected outcomes due to the fact that when services are disconnected/restricted for debt recovery, customers reconnect themselves, hence a low outstanding debt payment. This could be clearly identified by a low percentage of reconnections versus the number of disconnections done within the same month.

# **COMMENT ON DEBT RECOVERY**

Council is appointing a panel of Debt Collectors to collect outstanding arrears from debtors. The MM has formed a Debt Recovery Task Team that is going out and disconnecting properties with high debt daily. Our credit control policy reviewed annual to close the loop holes and any gaps that were identified during the past financial year.

## COMMENT ON THE PERFORMANCE OF REVENUE MANAGEMENT UNIT OVERALL

Utility Services: Our target to be achieved is related to the meter estimated. We have intervention plan in place where a Task Team was formed. The Estimated Task Team meets every Fridays to discuss the progress on the meters that are replaced and initiative to gain access to properties. The target has not yet been achieved as we should be reading our meters without estimating them. The stats as at 30<sup>th</sup> June 2021 was 79% meter read with 21% estimated.

The other initiative was a call for a Tender for Mobile Meter Reading App so that meters are read using the hand held devices. The appointment is at final stage, just waiting for the objection period to lapse so that the service provider can continue with the development of the APP. No capital expenditure has yet been spent on the development of the App.

## 5.6. EXPENDITURE MANAGEMENT UNIT

# INTRODUCTION TO EXPENDITURE MANAGEMENT UNIT

Expenditure Management is a sub-unit within Budget and Treasury Business Unit responsible for the management of payments to creditors of the municipality, payments of salaries and allowances to municipal staff and reporting. The service that we provide is a support service to the municipality and there is no direct impact on service delivery.

## ORGANIZATIONAL UNITS WITHIN EXPENDITURE MANAGEMENT UNIT

- Creditors, responsible for the management and controlling of payments to creditors.
- Internal Controls, responsible for the review and improvement of internal controls within the organisation.
- Pay Office, responsible for the management and controlling of payments salaries and allowances.

# SERVICE STATISTICS FOR EXPENDITURE MANAGEMENT UNIT

The targets for creditors section was to pay all service provider within 30 days from date of receipt of invoice or statement as per the MFMA. The target could not be met due to delays caused by internal processes and low cash flow.

# COMMENT ON THE PERFORMANCE OF EXPENDITURE MANAGEMENT UNIT OVERALL

Processing and payment of Salaries and Allowances to staff has always been undertaken on due date. Delay in payments to creditors has been a challenge due to long internal processes and lack of cash flow. The sub unit will review the procedure related to payments of creditors with the intention to shorten the process and pay within prescribed timeline.

## 5.7. SUPPLY CHAIN MANAGEMENT UNIT

# **OVERVIEW OF SUPPLY CHAIN MANAGEMENT (SCM)**

In terms of the MFMA SCM regulations and relevant legislative provisions regulating local government procurement, the SCM policy of the municipality must provide for a system of demand, acquisition, logistics, disposal, risk and performance management, and thus the Msunduzi SCM policy has been aligned accordingly. The following is a brief overview of the processes that have been established and implemented within the Supply Chain Management system as drawn from the SCM model below.

## **DEMAND MANAGEMENT**

The main objective of the plan is to assist the service deliver business units to achieve their service delivery mandates and to meet their service delivery requirements without any SCM processes delays and this forms the integral component of the entire process to ensure effectiveness, efficient and economical SCM processes.

#### **ACQUISITION MANAGEMENT**

The SCM unit in collaboration with the relevant secretariat support will continually strive to ensure that the three (3) tier Bid Committee structures are fully functional and well trained to execute their functions.

# LOGISTICS MANAGEMENT

Part of the responsibilities of logistic management is to safeguard and maintain stock; Camera systems have been installed and this will greatly help in minimizing some of the losses that are associated with stock theft.

## **DISPOSAL MANAGEMENT**

An effective system of disposal management has been established and detailed processes developed to ensure compliance with section 40 of the SCM regulations.

# **RISK MANAGEMENT**

A SCM policy and procedures have developed to ensures compliance and the monitoring of compliance with the SCM regulations. This unit manage risks by identifying and allocating the risk to the appropriate party in collaboration with the risk division in the Internal Audit and any other relevant stake holder

## PERFORMANCE MANAGEMENT (MONITORING AND CONTRACT ADMINISTRATION)

Contract Management is a sub-unit within Supply Chain Management delegated with the duties pertaining to the dispensation of processes associated with monitoring compliance with standards, procedures, regulations and specifications encompassed in Procurement Regulations with regards to the contracts enforcements, preparing and presenting investigational and qualitative reports.

## TO FULFIL THESE MANDATES SOME OF THE ACTIVITIES THE SECTION EMBARKS ON ARE:

## STAKEHOLDER MANAGEMENT

Engaging with all relevant stakeholders, to ascertain the complexity, and experience within the contractual obligations.

#### **COMPLIANCE MONITORING & REPORTING**

Reviews and report on how SCM, service providers and the department as a whole is performing against set standards and metrics, provides insight into how policies are followed, and identifies areas of opportunity to drive value through process efficiencies, and verification of variations requested by user departments.

## **SUPPLIER PERFORMANCE**

Regular site visits and attending progress meetings which allows for systematic management of supplier performance and building of work relationships to optimise the value for money in agreed deliverables throughout the project execution.

# **CHALLENGES**

- The unit is not fully recognised as a functional office and often misunderstood by the rest of the organisation to its responsibility within Supplier Performance management context.
- Inadequate SCM system to synchronize reporting and enhance performance indicators e.g. Coordination of information for the generation of monthly reports on Awarded Contracts is not automatically loaded at the point of letter of award during acquisitions process, which normally cause distortions and rendering potential delays in the report generation at times.
- Information management processes and procedures across functional structures are not aligned e.g. dissemination of resolutions regarding contract variations are delayed at times.
- Project and Contract Management systems are not linked to mitigate risk of poor performance.

## INTRODUCTION TO SUPPLY CHAIN MANAGEMENT UNIT

The Msunduzi Municipality's Supply Chain Management unit is a support function; it is mandated in terms Section 111 of the Municipal Finance Management act:

# ORGANIZATIONAL UNITS WITHIN SUPPLY CHAIN MANAGEMENT UNIT

#### **DEMAND AND ACQUISITION UNIT**

#### The Demand and Acquisition function objectives is to:

- Provide for an effective system of demand management in order to ensure that the resources required to support the strategic and operational commitments of the municipality are delivered at the correct time, at the right price and at the right location, and that the quantity and quality satisfy the needs of the municipality.
- provide for an effective system of acquisition management in order to ensure -
- That goods and services are procured by the municipality or in accordance with authorised processes only;
- That expenditure on goods and services incurred in terms of an approved budget in terms of section 15 of the MFMA Act;
- That the threshold values for the different procurement processes are complied with;
- That bid documentation, evaluation and adjudication criteria, and general conditions of a contract, are in accordance with any applicable legislation; and that any Treasury guidelines

## **CONTRACT MANAGEMENT**

In terms of section 116 (2) of the MFMA the accounting officer of a municipality must –

# THESE ARE ACTIVITIES OF THE CONTRACT MANAGEMENT MONITORING SECTION:

- All contracts are monitored, by having regular sites visits and attending monthly site progress meetings.
- Monitoring of expenditure on supplies and services contract.
- Monitoring and rotating of contracts with panel of contractors to ensure equal distribution amongst the prospective suppliers.
- Compiling engagement letters to all panellists upon appointments.
- Drafting Service Level agreements (SLA)
- Verifying variation Orders on projects by Project managers and recommend to the Bid Evaluation committee.

## **LOGISTICS MANAGEMENT**

Stores will endeavor to minimize and reduce stock holdings. This can be achieved by working closely with the Business Units in planning and execution of projects that involved procurement activities as well.

The stock count for the financial year 2020/2021 proceeded smoothly with every member of the team demonstrating their efforts and energy in achieving a well-run physical count of stock.

The other desirable target for the inventory count is to rectify and address few issues i.e.

- The material number duplication
- Doubled Storage location of material

- Identify and rectify inventory count document where material was appearing on more than one counting document.
- To sort and arrange material storage location or bin.

With the magnitude of inventory levels and volumes of material that are kept at Stores; it became evident that for a proper and successful inventory count to take place, more manpower and time needed is required. The process involved doing count even on weekends in order to meet the target; it took us approximately 14 days to finish the entire process.

The counting process flow involved the physical counting of inventory where each bin is counted and where huge variances is noticed after capturing, verification is done.

During the process, a number of issues were identified and addressed before the adjustment took place. These issues involved checking duplicates of materials, inventory that appear on more than one counting sheets, material that also appear on several inventory locations.

The regular or cycle count is a needed because the outcome of this count will yield positive results going forward, in that, the proper monitoring of inventory and evaluation of inventory will reflect the true value of inventory on hand at any given time.

## **FUEL**

The Council has invested on the electronic fuel management system. All Council vehicles are now installed with a gadget that monitors all fuel transactions. The system is now in operation and the reports are generated using the system are as follows:

- Detailed dispense transaction (per site)
- Hourly fuel grade total (per site)
- Monthly fuel grade total (per site)
- Monthly volumes (per site)
- Dispensed transaction total (per site)
- Detailed pump attendee authorization with name
- Vehicle site extract
- Detailed pump authorization (with vehicle information)

Any suspicious transaction is brought to the attention of Internal Audit for their action.

There has been some recognition of cost reduction potential on fuel issues and fuel purchases as a result of the new fuel management system. The consumption levels have steadily decreased. The investment on the fuel management system will provide more accurate cost controls and reporting. Reduce errors and human intervention when generating reports. Also help by providing real time fuel information as and when required. In the future the departments will be provided and advised on the litres each vehicle is consuming and frequency of refuels.

The fuel transactional information contained in the Fuel Master report is readable and can be modified. If this report is tampered with it could result in incorrect and incomplete fuel transactions being uploaded onto the SAP system.

The process of addressing the finding proceeded and finished on the 31 August 2020. There was a obvious delay in addressing the finding as a result of COVID-19. The SAP OTI Fuel Master Integration process was designed to replace the previous transacting process where fuel issues was initiated by a physical file upload of transactions into SAP. This process was manual and prone to errors due to perceived 'human intervention' as the file was not encrypted. The new process automates the fetching of data files, directly in the background, from external system into SAP.

Once the file is on SAP, a custom table is updated with detailed individual transaction records and goods issues are created, all at one goal. The upload and creation program returns or issues a results response or the creation log showing the successful and unsuccessful transactions. All these details are recorded on the relevant custom table on SAP and can be retrieved from daily reports of the job monitoring.

The procedure that is developed to allow an automatic update in SAP for all goods issues done in the OTI Fuel Master system without any human intervention. This procedure highlights the design of the solution as well as the processes and activities that must be followed in order to automatically create goods issues in SAP MM using the source data files stored in the external OTI system.

The scope of this procedure covers:

- Overall Solution Design
- Function Solution Design
- Technical Solution Design
- Goods Issue Processing and
- Monitoring of Processing Job.

# COMMENT ON THE PERFORMANCE OF SUPPLY CHAIN MANAGEMENT UNIT OVERALL

The top priority projects that are allocated budget: fuel management, fencing of stores, partitioning of SCM offices and Furniture: Fencing of stores, partitioning could be done and Furniture could be purchased due to cost cutting measures.

The Fuel Management System is the system that helps to oversee the consumption of fuel and flag any variance from the norm for management investigate;

## 5.8. ASSETS & LIABILITIES MANAGEMENT UNIT

## **INTRODUCTION TO ASSETS & LIABILITIES MANAGEMENT UNIT**

The Assets and Liabilities unit is responsible for Assets, Fleet Management, Insurance Management, Loss Control and Real Estate and Valuations.

# ORGANIZATIONAL UNITS WITHIN ASSETS & LIABILITIES MANAGEMENT UNIT

## **ASSETS**

The Assets Management Unit is responsible for the management of the municipality's assets, ensuring that the municipality has and maintains a management, accounting and information system that accounts for the assets of the municipality

#### **FLEET MANAGEMENT**

Strategic planning: continuous evaluation of fleet management within the Municipality as well as external organisations in order to formulate plans to improve the efficiency, effectiveness and economy of fleet assets available to the Municipality in the short, medium and long term Develop policies and procedures for the economic acquisition, operation, disposal and administration of the fleet.

Acquisition: Recommendation regarding the acquisition of Fleet assets after evaluating the requirements of the Municipality, based on the motivations and feasibility studies prepared by Msunduzi Fleet Management Unit. This includes the replacement of uneconomical fleet assets, the purchase of additional fleet assets and establishing or entering into lease or hiring contracts.

Ensure compliance of vehicles in terms of Road Traffic Act, Road Transport Quality System;

Ensuring that the fleet is properly registered and insured at all times; and

Withdraw fleet assets from service when they approach the end of their functional life and to transfer / replace and/ or scrap the fleet asset concerned to the best advantage to the fleet user and the Municipality.

## **INSURANCE MANAGEMENT**

Insurance Management Is aimed at ensuring that all assets, Councillors, employees and third parties are insured economically and adequately at all times. In terms of the approved Insurance policy and procedures staff manages litigated and non-litigated claims both internally and externally (third party). Claims are settled either through the internal insurance Fund or external insurance cover depending on the nature and value of the claim as outlined in the insurance policy and external insurance cover procured. Tracking and recording of claims is done through a loss register.

## LOSS CONTROL

Loss Control: Loss control seeks to reduce the possibility that a loss will occur and reduce the severity of those that do occur. Its aim is to reduce claims, through loss management information (policy and procedure) and services.

\*NB: Loss control at the moment provides admin support to insurance due to the unit not been fully established therefore service objectives are as per insurance management.

# **REAL ESTATE & VALUATIONS**

The Real Estate and Valuations Unit is responsible for the compilation of the valuation roll and supplementary valuations of all registered properties that fall within the boundaries of the Municipality, in line with the Municipal property rates Act. The unit is also responsible for facilitating the valuation of properties for acquisition and disposal purposes. The Real Estate section also administers and manages lease agreements for municipal owned properties. In terms of the Municipal Property Rates Act, The Municipality is required to compile a General Valuation roll at least once in Five years and also maintain the roll through supplementary valuations which must be published at least once a year.

## COMMENT ON THE PERFORMANCE OF ASSETS & LIABILITIES MANAGEMENT UNIT OVERALL

The Asset Management unit in the 2020/2021 was able to meet most of the targets in terms of the Operational plan, the Problem was in relation to a report on the assessment of the cost to rehabilitate the Land fill site. This could not be done as he Community Services department did not appoint the service provider to do the assessment of the cost to rehabilitate the site on time and therefore the report was not obtained at year-end.

## COMMENT ON THE PERFORMANCE OF FINANCE GOVERNANCE & PERFORMANCE MANAGEMENT UNIT OVERALL

The Finance Governance and Performance Management section has performed satisfactory during the 2020/2021 financial year as most of the targets were met in line with the operational plan of the section. All deadlines in terms of financial reporting legislative framework were met.

# COMPONENT F: CITY MANAGERS OFFICE

This component includes: Internal Audit, Strategic Planning, Political Support, Network (IRPTN) and Office of the City Manager.

## 6. CITY MANAGERS OFFICE

#### 6.1 INTERNAL AUDIT

## INTRODUCTION TO INTERNAL AUDIT

The primary objective is to provide an independent and objective assurance and consulting activity services designed to add value and improve Msunduzi Municipality administration operations through a systematic, disciplined approach to evaluate and improve the effectiveness of the system of internal control, risk management and governance processes.

The definition of internal auditing has many facets that, if unpacked, gives a very good understanding of what an internal auditor is expected to do.

Internal audit as a philosophy is a sounding board to management and designed to apprise and advise the Council, Accounting Officer and management on governance, risk management an internal controls processes. This affirm the attitude of the internal auditor's role in internal audit activity that by its nature, Internal Audit Unit is a governance structure which facilitates improvement on service delivery vehicle by reviewing the design and effectiveness of the system of internal controls around the core mandate and support functions of the municipality. Its role is critical in promoting and enhancing control environment through auditing and recommending solutions to management.

The King III report on Cooperative Governance accepts the need for the Audit Committee in the pursuit of good governance. It aligns the function of internal and external audit directly with the oversight by the Audit Committee. There are oversight committees of Council who are role-players to advocate for the combined assurance model. The Audit Committee 's primary focus is on financial reporting, risk management, governance, performance information and system of internal control space which the universal organization space.

We also need to create balance between assurance function and consulting activity based on risk assessment exercise and report of the Auditor General. The areas with high risks with strong controls in terms of their design against the risks exposures as per the assessment by management. The reaction of internal audit is to test those controls for effective operation and provide management assurance. Obviously where controls are not operating effectively we would provide management with advice through our recommendations on what they can do to strengthen the effectiveness of these controls. Where management had assessed risks as high and assess controls either as not in place or weak, the reaction of internal audit should be that here is an opportunity for consulting activity to add value to management.

#### SERVICE STATISTICS FOR INTERNAL AUDIT

As the world is still heavily impacted by the COVID-19 pandemic, so is the Internal Audit Unit in achieving its KPI's as dictated by the Annual Audit Plan.

The flexible working arrangement adopted by the Municipality as dictated by the Disaster Management Regulations in trying to curb the spread of the virus exacerbated the untimeliness of the deliverables expected from the Internal Audit Unit. Delays were experienced in securing meetings with the relevant officials, receiving audit evidence and

obtaining clarity when necessary due to some officials testing positive to COVID-19 and various buildings having to close for disinfection; however, the unit strived in ensuring minimal delays on the overall deliverables.

1X Audit Senior and 3 X Auditors were appointed in December 2020 and require Internal Audit specific training which will assist in upskilling them and aligning their performance to the Unit's performance standards. This training will also be beneficial to the in-house auditors as part of their continued development process.

The contract of Service Providers expired on 27 November 2020 and a new panel of Service Providers was appointed on 19 May 2021, effective 1 July 2021 to assist in bridging the gap created by the vacant posts in the unit.

#### **RISK MANAGEMENT**

Internal Audit is of the view that, subject to review, the Municipality has adequate instruments to drive risk management.

Our framework, profiles risks in terms of their likelihood of occurrence and impact to the Municipality, in terms of the best practice guidelines to risk management. The, then status of the Municipality, which, as discussed above, has not been updated, locates 76% of the risks as high and critical. Although not updated, there is evidence that this risk exposure has not improved since the initial assessments. The discussions surrounding this claim are in the sections that follow in this document.

Internal Audit further engaged in the development of an IT system, Risk Governor that will drive risk management in the City. The system is still functional and will be used for this purpose into the future.

However, the Unit is still thinly resourced and as such, still require external supplement to function optimally. We draw such resources from the pool of consultants at our disposal. With the current financial and budgetary challenges, this might be a challenge for the unit.

## Strategic Risks

The control – self assessments conducted, culminated in the Municipality defining its strategic risks as presented in the table below:

| Strategic Risk                                     | Likelihood | Impact   | Risk Rating |
|--|------------|----------|-------------|
| Financial Unviability                              | Likely     | Critical |             |

| Exposure of Community to Health and Safety Hazards | Likely     | Critical |             |

The Management assessed these risks as either critical or high as depicted. Internal Audit was seized with the responsibility to develop indicators and tolerance measures for these risks. Such is discussed below.

It is critical to note upfront that the measures, designed to extract and assess information independent of management, currently reflect that the status of risk exposure has not shifted, and in certain instances, worsened from the original status in 2016/2017. It has become more critical now than then that management places serious focus on the strategic risks facing the municipality. We have presented below the extent of movement from the original assessment of indicators to the current assessment to illustrate this point.

## **Financial Viability**

This risk was premised on the need for the municipality to remain financially resourced in order to deliver basic services to communities. Its primary focus was on ensuring sustainable cash resources to the City.

The financial climate in which the municipality operates has significantly worsened from 2018, necessitating that management puts a solid focus on the municipal purse. Our assessment, supported by the above indicators, is that the risk of financial viability is greater for the municipality than it ever was.

## Key risk considerations for viability

#### Debt Collection

The municipality has always been faced with debt collection challenges. It appears that these are worsening over time with very little sustainable solutions to arrest them. With a current collection rate at around 46%, the financial resources of the City are under severe threat. Although the current ratio reflects a positive 2.9:1, we have discounted it with the impairment of debtors that is underrated in the financial records of the municipality. Our independent calculations reflect that at least 60% of the municipality's debtor's book is potentially uncollectable. The municipality has accounted for 26% in its books.

## • COVID-19 pandemic.

The impact of the pandemic is and will continue to be desperate for the entire country. The extent of closures of businesses and retrenchment of workers/ citizens will place rate base and the collection rate under pressure. Although this is currently impractical to quantify, a practical prognosis is that the city would have to adjust its financial revenue forecasts downwards, from the advent of the pandemic.

We do not anticipate that the national fiscus will have a sufficient revenue muscle to compensate for the financial losses that municipalities will sustain, and, as such, municipalities will have to employ creative means to control their expenditures, convert their revenues into cash under these trying times, and remain financially viable.

## Municipality's risky projects

Internal Audit has identified programs of the municipality that do not appear to be generating meaningful revenues and, in fact, are placing the city into financial risks. The strategic relevance of these programs is beyond the scope of internal audit; however, we strongly suggest that the manner in which they are currently discharged, together with the financial viability assessments on them require consideration by management. These are:

- The forest,
- The game reserve,

## The traffic Office.

We suggest that, particularly in the current economic climate, the municipality conducts a serious review of the revenue generation instruments at its disposal and ensures that these are optimized. Similarly, cost drains, should be discontinued sooner rather than later.

## **Inadequate Infrastructure development**

Management's focus for this risk is to ensure that the infrastructure requirements of the city are met, and that such infrastructure is adequately preserved through maintenance.

As evident above, our financial analysis reflect that the municipality is allocating less of its expenditure to infrastructure. In fact, the city has fallen well below the national treasury thresholds in this regard. Similarly, the extent of maintenance of the existing infrastructure is significantly below such norms.

## **Key considerations**

#### Availability of infrastructure into the future

With the current expenditure patterns, we suggest that the communities will be faced with a dilapidating city in the future. The current status already suggests that the municipality is operating on ageing infrastructure, and a capital expenditure program, coupled with a maintenance strategy, will be paramount in mitigating this risk.

## Availability of reserves for infrastructure

The Municipality has virtually exhausted its infrastructure replenishment reserve, i.e. Capital Replacement Reserve, which ordinarily would guarantee the city's ability to replace infrastructure as it ages. This is exposing the city to a serious risk of an inability to respond to any major breakdowns of infrastructure in the future. Management should make all efforts to build this reserve and align it with the infrastructure maintenance and replacement plans of the Municipality.

#### Protect municipality's infrastructure

The COVID-19 pandemic is bound to constrain the relationship that the municipality has with its communities. This is gaining traction across the country and, if unmanaged, will also be felt in the City. Even outside the pandemic, this relationship has always been very sensitive.

This will simply exacerbate the infrastructure challenges that the municipality is currently engulfed with. Management should develop community management strategies, detection intelligence and coherent plans to deal with these should they arise.

#### **Poor Service Delivery**

Internal audit intended to have management place focus on service delivery through this risk. Its primary focus was on the statistics of access to basic services at community level. This was supplemented by the measures of the extent to which the municipality is spending on its operational and capital expenditure budget

Unfortunately, internal audit could not obtain appropriate information to measure the extent of service delivery by the municipality. However, the rate of spend of the operating and capital expenditure budgets suggests, as reflected above, that this is a course for concern.

## **Key Considerations**

## Budget reprioritisation

There is no doubt that the municipality would have to revisit its original budget taking into account the added pressures of the COVID-19 pandemic and ensure that the revised budget responds adequately to such pressures.

## Strengthened management

The extent of underspend on the budget is concerning. Management should interrogate the root – causes for this and seek mechanisms to eradicate it. In particular, the Capital Expenditure budget underspend with the infrastructure challenges discussed above, is not anticipated and would certainly not be tolerated by the communities.

#### 1.4. Poor Administration

The municipality has to manage a risk of a poorly administered city in its service delivery mandate. This, if left unmanaged in the public service, has serious political undertones and can compromise the community's confidence in the management of the city.

Virtually all indicators in this regard reveal a poorly administered city where indicators have fallen outside the national treasury thresholds.

## **Key considerations**

## Audit preparation

The municipality, across its operations, should ensure that it possesses sufficient and appropriate audit evidence to back the assertions that will be made in the annual financial statements and the performance reports. The city comes from a dark cloud of disclaimers and qualifications which need to be managed and eradicated. Internal Audit is aware of the strides that are made in this regard and urges that, particularly as the municipality is beginning its audit cycle, enhanced focus is placed on this.

#### Management of the vacancy rate

The vacancy rate of the municipality remains a challenge, and has a bearing on effective administration of the city's operations. We are currently uncertain as to the effect that this has on the expenditure patterns of the city raised above, the quality of the audit outcomes and general performance in delivering services. Our summation is that these are closely linked.

A significant risk exposure is the impact that COVID-19 will have on the human resource availability from time to time. We anticipate that the pandemic will have a major impact on business continuity through illnesses and, God forbid, death. Management should confront this risk and develop effective strategies to ensure that such does not negatively affect the capacity of the municipality to continue with an uninterrupted service delivery mandate.

#### **Unstimulated Municipal Economy**

A serious strategy of any municipality is to ensure that it does not turn its municipal boundaries into a "ghost town". Similarly, the intent is to strike an optimal balance between residential and commercial revenue bases urgently required to sustain the municipality. These can be in many forms, including rates, service charges and third - stream incomes.

This approach was to manage that the economy of the city is effectively stimulated, not only for the revenue requirements of the municipality, but also for effective engagement of the citizens of Msunduzi.

#### **Key Considerations**

#### COVID-19

The impact of the pandemic has been and will continue to be the erratic operation of businesses. Many have faced financial challenges that they may never recover from. A vast majority will be faced with operational and business continuity challenges. The blue-print response to the pandemic is to shut doors wherever it is encountered, disinfect the area, quarantine the affected and resume operation when it is safe to do so. This will be felt in the profitability of industry and their capacity to sustain in the long run. This ultimate impact will be on the rate base of the municipality.

Management should develop instruments to assist and support businesses in these hard times, to ensure that they protect the city's rate base.

#### Attraction of industry

The leadership of the municipality should further develop mechanisms to attract industry into the city to stimulate the economy. Access to land, palatable rate charges and financial support instruments would have to be developed in order to make Msunduzi a city of choice to run a business and live in. Security will also need to be strengthened to ensure that the risks of running a business and living in the city are brought to a minimum.

## **Health and Safety Hazards**

This risk was determined in order to respond to the municipality's mandate of making the city safe and healthy to reside

## **Key Considerations**

#### Fire hazards at the landfill site

Internal audit would like to draw management's attention to the recent fires at the landfill site and their probability of reoccurrence if left unmanaged. The landfill is scientifically prone to wild fires and mitigation strategies must be implemented and managed at all material times.

#### • Law enforcement

We have already raised a concern in this report with regards to the revenue generate and collected from traffic enforcement. A further concern is the visibility of the traffic officers within the perimeters of the city. We believe that traffic violations should not be left unabated and they would become a norm in the city, endangering the lives of the citizens.

The operations and resourcing of Safe City also require management attention in order to ensure that it continues to detect and manage crime. We are currently conducting a review in this regard and will be issues a comprehensive report to management on our findings.

#### COVID-19

Once again, the pandemic finds expression in this regard. There is no doubt that the municipality will need to develop and manage a strategy, not only to prevent the spread of the pandemic but also to manage its outcome in the health sector, corona services and ultimately sufficient and appropriate disposal strategies of the mortal remains of those who will unfortunately perish from the pandemic.

#### ANTI-CORRUPTION AND FRAUD

Forensic investigation is first of all a recognized science in its own right. Forensic investigation is an in-depth, meticulous investigation, systematic gathering and analysis of all documents, transactions, systems, relevant legislation, policies and other objects, searching for the truth through the use of specialized skills and expert knowledge and the application of scientific investigation methods and techniques, in order to lawfully discover, collect, prepare, identify and present evidence which can be presented to a court of law, disciplinary proceedings / tribunal set up by an organization. The primary purpose is finding a positive solution to a crime or offence or transgression or irregular conduct. The forensic investigation result in the presentation of the outcome of the investigation, whether in a court of law for criminal, civil or administrative proceedings, or at a disciplinary hearing.

The intention of any investigation is to establish what actually happened. The investigator does not rely on presumption but proves the crime or incident by means of evidence.

The main purpose of investigation is to trace offenders by using scientific techniques or approaches, or to detect alleged offenders by furnishing scientific proof of their involvement in the crime.

The primary objective of the forensic investigations sub-unit is to give effect to powers and responsibility of Audit Committee in terms of Section 166(2)(d) of the Municipal Finance Management Act, 56 of 2003. Audit Committee is responsible to carry out such investigation into the affairs of the municipality as Council of the municipality may request. Clause 3.1.3.4 of the Audit Committee charter re-affirm the aforementioned responsibility to the Audit Committee.

The Municipal Council has a framework on anti-fraud and corruption and it is composed of Anti-Fraud and Corruption Policy, Anti-Fraud and Corruption Strategy and Whistle Blowing Policy that was adopted in 2013. The framework was last reviewed and amendments made in 2018/19 financial year and adopted by Council in 2019/20 financial year.

Our anti-fraud and corruption strategy is continuing to bear fruits in our fight against the scourge of fraud and corruption in the Msunduzi Municipality. On the forensic investigation sub-unit performance was above average despite having limited resources. It is must be noted with concern that the Whistle Blowing Hotline has been discontinued which was intended to encourage employees, Councillors and members of public to feel confident in raising breaches, concerns or disclosing of information relating to fraud and corruption or irregular and or criminal activity in work place in a responsible manner without fear of victimization.

During period under review twenty-four (24) matters were reported to internal audit unit and some were referred by the City Manager and the Chief Financial Officer. Twenty-five (25) forensic investigations ranging from allegations of fraud, corruption, vehicle abuse, unethical behavior and other gross maladministration taking place in the municipality were completed during the year under review.

Of Twenty-five (25) forensic investigations finalized, eleven (11) cases were carried over from 2019/20 financial year were completed in 2020/21 financial year. Some forensic investigations took longer to be finalized due to complex

nature of forensic investigation technics to be applied and information to be sifted through and availability of officials to be interviewed and provide documents.

Forensic investigations revealed overtime fraud, Payroll fraud, losses as a result of absenteeism of staff, other types of fraud committed in the municipality, abuse of municipal vehicles and corruption. Refer to table below:-

Twenty-two (22) cases were registered with South African Police Service during the year under review on cases of fraud in majority and the total cases registered worth **R 34 722 141,10.** These cases were allocated to Commercial Crime Unit for investigation.

The above cases are in addition to seven (7) of cases which are under investigation by Directorate of Priority Crimes Investigation and three (3) cases of fraud and corruption which are part heard in Durban Specialized Commercial Crimes' Court. Two (2) cases worth R57 million are with Anti-Corruption Task Team and investigations are prosecutor (Senior State Advocates) driven and related to investigation conducted and finalized in 2019/20. These two cases will be ready to be enrolled at Durban Specialized Commercial Crimes 'Court in 2021/22

In terms of common law, criminal and other irregular conduct in the organs of the state and private bodies are detrimental to good, effective, accountable and transparent governance in organs of state and open and good corporate governance in private bodies and endanger the economic stability of the Republic of South Africa and have a potential to cause social damage.

The contribution by the members of community and some employees in reporting some of the above-mentioned allegations is much appreciated. The Msunduzi community members have an obligation to report allegations of immoral behaviors by employees, services providers contracted by the municipality or members of the public or any other third parties to the Municipality, as this is expression of citizenry activism. The fight of scourge of fraud, corruption, theft and embezzlement of the assets of the Municipality can only succeed if we work with all citizens of Msunduzi to reduce suffering and pain by the community due to fraud and corruption. The community is deprived basic rights of human dignity and improvement of quality of life for citizens.

## COMMENT ON THE PERFORMANCE OF INTERNAL AUDIT OVERALL

The performance of the unit was average in terms of the approved annual plan. The unit still has a challenge of internal capacity and is heavily reliant on consultants. The Chief Audit Executive was overly stretched with the expected deliverables, in particular due to a vacant position of the Chief Risk Officer and Manager: Forensic Investigations and the Manager: Assurance was on maternity leave.

The Covid 19 pandemic also contributed negatively on the execution of the Annual Audit Plan as the service providers were skeptical of accepting and performing audits.

#### 6.2. OFFICE OF THE CITY MANAGER

#### INTRODUCTION TO OFFICE OF THE CITY MANAGER

The office of the City Manager includes the political and the administrative interface of the Municipality. The following functions fall within the Office of the City Manager:

- Political Support encompassing:
- Internal Audit
- Strategic Planning
- Organizational Compliance, Performance and Knowledge Management

## OVERALL COMMENT ON THE PERFORMANCE OF OFFICE OF THE CITY MANAGER OVERALL

#### **COMMUNICATIONS AND IGR**

There was a challenge in meeting 100% of the Communication and Activity Plan in the 2020/2021 FY The nomination of Business Unit representatives for the forum has not be finalized.

## ORGANISATIONAL COMPLIANCE, PERFORMANCE & KNOWLEDGE MANAGEMENT

The unit is hampered with 2 Acting and 2 contract workers appointments including the manager of the unit. The unit further has staff on contract which is renewed on a 6 months' basis. This is worrying as at any time should the Acting and Contracts not be renewed the unit will only have 2 permanent staff members in the unit of which 1 staff member was seconded to the IDP unit.

In order for PMS to be taken seriously and move progressively forward towards a point where the institution is performance driven the unit needs to be fully staffed and all vacancies filled.

#### 6.4. STRATEGIC PLANNING

#### INTRODUCTION TO STRATEGIC PLANNING

The Strategic Planning Unit is also responsible for implementation of Urban Renewal Programmes. The Enforcement Officers on a daily basis patrol the Pietermaritzburg Central Business District (CBD) in order to identify any by-law infringements and/or service delivery matters that needs attention in order to ensure the Municipality is maintaining its Infrastructure and the by-laws are being enforced.

The backbone of the municipality is the Integrated Development Plan (IDP), devised to constructively implement the different programmes aimed at guiding future growth. This new focus on the future of the city, has led to a number of key catalytic and strategic projects that can leverage the city's economic and social potential. The city is repositioning itself for a new set of challenges and is aggressively implementing new game changers, which are visible large-scale catalytic projects with a huge impact. The timing and sequencing of these projects require balanced implementation with an emphasis on economic development and employment creation.

#### ORGANIZATIONAL UNITS WITHIN STRATEGIC PLANNING

#### CITY DEVELOPMENT

To help the city to harness the potential of growth and development with the view to improve the quality of life for all citizens by formulating a City Development strategy; analysing economic, social and environmental trends to maintain sustainability; adopt strategic planning to harness investments and growth opportunities for the city; develop a coordinated institutional framework for the city and to ensure that infrastructure and service delivery imperatives meets the demands of future growth within the city. To support increased institutional capacity and promote transformation, Strategic Planning sessions were undertaken to guide municipal priorities and the budget.

# • PIETERMARITZBURG URBAN RENEWAL PROGRAMME (PURP)

To revitalize the city, stimulate economic growth, restore economic vitality, increase investor confidence in the city by relieving social problems through the maintenance, rehabilitation and rebuilding of the physical environment; formulate an urban renewal plan for the city; facilitate urban revitalization projects; prevent urban decay and promote and enforce projects that contribute to creating a safe and well-maintained city to improve investor confidence. The section targets Bylaw infringement inspections within the CBD and service delivery challenges that needs attention in order to ensure the Municipality is maintaining its Infrastructure and the by-laws are being enforced.

#### IDP

To facilitate the development of a single, inclusive and strategic plan for the municipality by preparing a process set out in writing to guide the planning, drafting, adoption and review of the integrated development plan; facilitate the establishment of a vision for the long term development of the municipality; prepare an assessment development priorities and objectives for its elected term, facilitate the development of the council's development strategies and develop appropriate mechanisms, processes and procedures to consult the local community before adopting the IDP. This section targets include ensuring Budget Steering Committee meetings take place, the IDP Review process, draft IDP /Budget /PMS process plan is developed and adopted for the financial year. Attending the DDM forums and facilitating Mayoral Roadshows.

#### **PUBLIC MEETINGS**

# COMMUNICATION, PARTICIPATION AND FORUMS

Prior to the Zonal Izimbizo an IDP & Budget workshop is held with ward committee members to sensitize them in terms of what the IDP and budget entail. In order for the municipality to comply fully with the MSA and MFMA the municipality needs to facilitate the IDP/Budget consultation process. Due to cost containment that is currently being implemented and the National State of Disaster that has been declared by his Excellency President Cyril Ramaphosa on the 23rd of March 2020. The Municipality decided to bring innovative ways to communicate the IDP and Budget to the community and an extensive social media campaign was proposed to increase community interest in the process as defined below;

- 1. Social Media Campaign
- 2. Live online surveys
- 3. Live streaming of the Mayor giving the Address
- 4. Weekly newspaper adverts (Designed, layouts and Printed)
- 5. Summary booklets of the IDP/Budget available online and councillors offices
- 6. Online short videos for a You Tube channel (other social media).
- 7. Radio Adverts (Fly Overs to play daily/mentioning social media platforms)
- 8. Radio interviews/ More emphasis be placed on projects

#### COMMENT ON THE PERFORMANCE OF STRATEGIC PLANNING OVERALL

The Strategic planning unit has undertaken various initiatives to support increased institutional capacity and promote transformation through Strategic Planning sessions and workshops. These workshops were held with the political and the administrative ambit. Further, to assist with the financial challenges, a tender for fundraising was instituted by the unit. The fundraising tender is an ongoing tender with the aim of targeting investors to fund projects of the city. The tender also calls for proposals from investors to establish innovative methods of addressing infrastructural challenges. The unit has several vacancies and this is being attended to as posts where advertised and will be filled in the 21/22 FY.

#### 6.5 POLITICAL SUPPORT

#### INTRODUCTION TO POLITICAL SUPPORT

The Political Support Office is made up of a five sub units which are Mayor's Office, MPAC Office, Office of the Speaker & Chief Whip, VIP protection and Youth Office. The Political Support office prioritized providing administrative support to the Mayor with the waste management campaign. The office also developed and implemented a special Programme Calendar. To ensure that there is stability administratively a priority to ensure that the Accounting officer was also appointed during financial year. Weekly service delivery monitoring meeting were established and progress reports from management were required. The Rapid Response Task team was also introduced to deal with specific service delivery issues and while being proactive in dealing with possible service delivery protests. Performance meetings were scheduled with ward councillors that had poorly functional wards as per the COGTA assessments.

#### ORGANIZATIONAL UNITS WITHIN POLITICAL SUPPORT

#### **MAYORALTY**

Developed and Implemented the mayoral Special Programmes calendar which focused on working with provincial and National Government departments in supporting the people of the Province. The Office implemented programmes which relate to Women's month, People living with Disability's and the School development programme.

#### OFFICE OF THE MPAC CHAIR

The MPAC Office exercised oversight over the executive functionaries of council and ensured good governance in the municipality. This included oversight over the municipal entity. The MPAC Office also produced the oversight report on the Annual Report to ensure accurate reporting.

## OFFICE OF THE SPEAKER AND CHIEF WHIP

The Office of the Speaker ensured that the ward committee system is supported with the necessary resource. Although there needs to be improvements in this regards the speaker's office ensure that the community is addressed with regards to service delivery challenges.

# VIP PROTECTION

The VIP Protection unit deals with the Safety and protection of the political principles and ensure that the vehicles of the principles are kept clean and well maintained. The unit also plans specific trip details and ensures a security sweep is done for the principles for specific high risk meetings.

## YOUTH DEVELOPMENT

The Youth Development Office worked in a cooperative and coordinated manner with other youth agency in implementing youth programme and services. The youth were assisted with access to internet and provided with assistance with regards to CAO applications to High education institutions. Youth Learnerships were undertaken in partnership with other agency at the youth centre,

#### OFFICE OF THE SPEAKER

#### PUBLIC ACCOUNTABILITY AND PARTICIPATION

#### **OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION**

In the promotion of public accountability and participation members of the public are invited to attend all meetings of the Council and its committees. Another mechanism of public participation is conducted through Mayoral Budget and Integrated Development Plan (IDP) Izimbizo's. These are held prior to developing the draft budget in order to provide feedback to the community the implementation of projects in the current financial year and to illicit the needs of the community in order to provide input for the new financial year. A second Izimbizo is held once the draft budget has been developed in order to inform the public of key elements in the proposed budget and illicit responses thereto. The Section below provides an outline of further mechanisms which the municipality utilizes as a mean of public participation.

#### WARD COMMITTEES

Section 74 of the Municipal Structures Act, and regulation 5 of the Government Gazette No. 27699 Ward Committee, state that Ward Committees may have powers and functions delegated to them (which are essentially advisory in nature) in terms of S59 of the Municipal Systems Act

A ward committee may also make recommendations on any matter affecting its ward to the ward councillor or through the ward councillor to the local council.

#### SERVICE STATISTICS FOR POLITICAL SUPPORT

## **PUBLIC MEETINGS**

In total 259 ward committee meetings were held and 139 community (public) meetings were held, broken down as follows:

# COMMENT ON THE PERFORMANCE OF POLITICAL SUPPORT OVERALL

Due to the Covid 19 Pandemic it was very difficult to schedule Ward and Community Meetings due to the the restrictions that were placed on the number of people allowed into meetings. Councillors also had to resort to holding meetings via MS Teams which would also prove to be problematic due to network and data challenges.

For the year ending 30<sup>th</sup> June 2021

**BACKGROUND:** 

Safe City Pietermaritzburg was formally constituted as an Association incorporated under section 21 of the Companies Act on 28 March 2002. Upon advice from the Intervention Team that took over Msunduzi Municipality administration, Safe City was compelled to register as a (Pty) LTD company. We were then advised to register as a Non-For-Profit Company due to tax complications and the application was approved by the Companies Intellectual Properties Commission (CIPC).

The Safe City project is a partnership which is governed by an agreement by which the Municipality would make the necessary financial resources available for the operation of the organisation as well as the capital expenditure required to extend the CCTV surveillance to other parts of the city. The Service Level Agreement (SLA) for the financial years 2021 to 2024 has been agreed upon and signed by the Municipal Manager and the Safe City Chairperson on the 24<sup>th</sup> November 2020.

## **MEMBERS OF THE BOARD:**

The current Board of Directors has, since the inception of Safe City in 2003, performed its duties diligently in accordance with the Municipal Finance Management Act and other requirements as per the Company's Act. For most of this period, board members provided their expertise and time on a free and voluntarily basis. As Safe City is a Municipal entity performing a vital service to the community and the municipality of Msunduzi, directors serving on the Board need to have a sound knowledge and understanding of the following important aspects:

- Municipal Finance Management
- Municipal Systems Act
- Company's Act and in particular the provisions of the King IV document
- Information Technology
- Human Resource Management

- Criminal and Civil Law requirements and in particular the provisions of the Criminal Procedure Act: Act 51 of 1977
- CCTV street surveillance systems. The basic principles applied in the compilation of Operational Requirements, the Design of Street Surveillance systems and estimate costing of such systems.
  - Project Management.
  - ISO 9001 Accreditation
  - Municipal Supply Chain Management
  - Private Security Regulatory Act (PSIRA)
- Basic Conditions of Employment and Sectorial Determination 6 provisions
  - General Recognized Accounting Practice (GRAP) Standard practices
- Preparation of Budgets in accordance with Municipal Standard Chart of Accounts (MSCOA)

#### 3: PARTNERS

Safe City considers its partnership with the following Government, Business and Community based institutions as its notable strengths.

## Msunduzi Municipality:

Msunduzi Municipality is the parent entity of Safe City and provides Operational as well as Capital funding.

A Traffic Officer as well as an official from Waste Management performs duty in the Control Room on weekdays between 07:00 and 16:00. A dedicated operational desk has been made available solely for the purpose of detecting bylaw infringements such as littering and to monitor traffic flow during peak traffic hours. Requests for Waste Management to remove litter are directed and controlled by the official from Waste Management whilst the Traffic Officer directs Traffic Department responses to motor vehicle accidents, traffic congestions and traffic violations. There remains a dire need for a dedicated Municipal Response team to respond timeously to all bylaw infringements detected by Safe City. Incidents such as the posting of illegal abortions posters and littering which defaces our beautiful city are being detected on a daily basis but the response from Municipal Law Enforcement officials is not efficient in order to combat this menace. The re-introduction of Automatic Number Plate Recognition (ANPR) operations is also urgently requested as much needed revenue from outstanding traffic warrants can be collected using the Safe City surveillance system. It is estimated that more than R11 000 000 is outstanding in traffic warrant revenue. The ANPR operations which were conducted between 2010/11 and 2013/14 recovered

**R 4 378 915**. Unfortunately, the ANPR operations were stopped due to Traffic Department manpower constraints.

Safe City of recent assisted with the identification of a person who stole municipal water meters in the CBD as well as the receiver of these stolen meters. Since their arrests the theft of water meters has stopped.

Safe City assisted Internal Audit with video evidence of municipal employees who submitted false claims in respect of cleaning the city at night. Safe City in conjunction with Internal Audit also monitored business premises within camera visual area who had their electricity disconnected in order to identify persons responsible for illegal re-connections.

Safe City also manages and facilitates the Disaster Management Joint Operational Centre (JOC) when it is in operation during events such as gatherings, marches, and ongoing high profile High Court cases.

#### **South African Police Service:**

Safe City has a SAPS representative present in the Control Room on a 24/7 basis, The SAPS provides Safe City with daily, weekly, and monthly crime reports which enables us to monitor our own performance as well as to compile Control Room Operational plans directing staff to focus on problematic areas. Please see para 6.2 for a detailed explanation. SAPS also provides a rapid response capability in the form of the Pietermaritzburg Police Motor Bike unit to attend to all criminal incidents detected on camera. Safe City also attends the daily Pietermaritzburg Station Crime Combat Forum (SCCF) meetings where operational matters are discussed. At these forums Safe City is also informed of forthcoming events such as gatherings and marches. This information enables us to plan the Control Room operations effectively.

## **National Prosecuting Authority:**

Safe City enjoys a very productive relationship with the National Prosecuting Authority in Pietermaritzburg. A dedicated court has been made available to facilitate all video evidence emanating from Safe City arrests. For this purpose, Business Fighting Crime (BFC) donated a big screen and laptop to project video images during trials. It is expected from the Safe City surveillance staff to testify in all cases in which they detected and recorded criminal incidents. In this regard our staff have been complying diligently to appear in court despite the fear of intimidation.

### **Business Fighting Crime: (BFC)**

Safe City has a permanent representative attending BFC meetings. These meetings also include the Banking Task Team — and Non-Ferrous Forum through Business Fighting Crime (BFC). Safe City retains its efficient communication with the Pietermaritzburg business sector such as the Pietermaritzburg Midlands Chamber of Business and its stakeholders. Safe City on a regular basis is invited to present crime prevention presentations to these institutions.

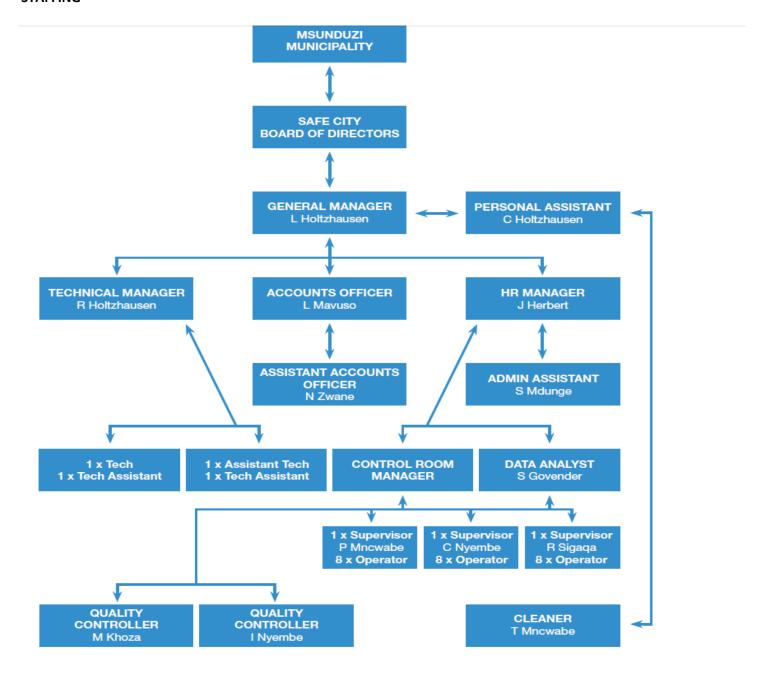

### **Community Police Forums.**

Safe City also has a representative attending CPF meetings. We are regularly invited to present crime prevention presentations to community-based organizations. Through the CPF's we continue interacting with the various communities.

### Social Media:

Safe City has also has a Facebook Page, "Safe City Msunduzi", where regular updates are being posted regarding activities or crime tendencies in the Msunduzi area which could have a negative or adverse impact on the residents or communities in our area.

### **STAFFING**

### PARTICULAR MATTERS RELATING TO THE YEAR 2020/21

### **Safeguarding of Priority Primary Electrical Sub Stations.**

In the past Msunduzi Municipality was plagued with continuous power outages whereby primary substations would be vandalized for copper and other critical electrical gear. These outages had a crippling effect on the business and manufacturing sectors especially in the Mkodeni and Willtowton Road areas. Several businesses indicated that they intended closing down if the municipality did not take appropriate steps to curtail these power outages. During 2016/17 the amount of R6,5 million rand was allocated to Safe City whereby 98 cctv cameras were installed as in the table below. A dedicated desk has been assigned to only monitor the eight primary electrical substations 24/7. It needs, however, to be emphasized that the above installation is only phase 1 of 3 phases to ensure that all Msunduzi Priority substations are effectively safe guarded against vandalism and theft of equipment. Since the installation of CCTV cameras at these sub stations no cases of theft or vandalism have been reported.

| Sub Station   | Number of CCTV cameras |
|---------------|------------------------|
| Riverside     | 19                     |
| Retief Street | 17                     |
| Prince Alfred | 13                     |
| Mkodeni       | 15                     |
| Hesketh       | 7                      |
| Woodburn      | 8                      |
| Northdale     | 8                      |
| Pine Street   | 11                     |

#### **Street Surveillance Cameras**

Safe City have 71 street surveillance cameras located in the following areas and monitored 24/7.

| Area                | Number of CCTV cameras |
|---------------------|------------------------|
| Alan Paton          | 1                      |
| Northdale           | 4                      |
| CBD                 | 56                     |
| Freedom Square Taxi | 10                     |

Except for the Freedom Square Taxi rank cameras, the street surveillance system can be regarded as antiquated and with the inclusion of the recording equipment needs to be upgraded as soon as possible as its operational capacity has diminished drastically. The system has been in operation on a 24/7 basis since the 1<sup>st</sup> of January 2003 and spares can no longer be obtained at reasonable prices to repair or replace crucial components.

### The Public Announcement System as a Law Enforcement Tool

The PA system has been used with great success since its inception during 2013/14.

During 2020/21 the PA system has been utilized on **1091** occasions. The system is used in the following instances:

- When suspects are detected in an area, pedestrians or the public will be warned to be on the alert to secure their valuables as they might become victims of crime.
- When known suspects are observed they will be warned that they are under surveillance which in turn will reduce their opportunities to commit a crime.
- When pedestrians are observed who are not complying with Covid 19 protocols they are warned to comply with the regulations.
- When bylaw infringements such as posting of posters and illegal trading are detected the culprits will be warned to cease their activities.

| Type of Announcement          | Number of Occasions |
|-------------------------------|---------------------|
| General Public Warnings       | 625                 |
| Covid 19                      | 369                 |
| Municipal Bylaw Infringements | 97                  |
| Total                         | 1091                |

#### **CONTROL ROOM PERFORMANCE:**

### **Core Functions:**

Safe City operates on a 24/7 surveillance basis and all the Control Room functions are ISO 9001:2015 certified. The Safe City Control Room is the only street surveillance Control Room in South Africa which can boast such an accreditation.

### **Primary Function:**

The monitoring of traffic and Municipal Bylaws such as littering, street gambling and illegal trading. Facilitating the Automatic Number Plate Recognition (ANPR) system for the execution of outstanding traffic warrants and the recovery of outstanding revenue.

- The prevention, detection, and investigation of crime.
- The maintenance of the existing CCTV system.

Advising Msunduzi Municipality on expansion of the CCTV system and Oversee the design, specification, and installation of new CCTV equipment.

### **Secondary Function:**

Facilitating the Disaster Management JOC during marches and gatherings.

The monitoring of gatherings, marches, and events of public interest within camera visual area.

Attend meetings with the Municipality to determine possible additional services.

Liaise with Community Policing Forums, Bank Task Group and Non-Ferrous Metal Forum.

Informing the public and business community regarding current crime tendencies and advise them on crime prevention strategies.

#### **Standard Procedure**

The crime statistics for Pietermaritzburg are submitted to the Control Room every weekday morning by the SAPS Pietermaritzburg Central. These statistics together with observations made by our surveillance staff are analysed daily. An operational plan is then compiled to address any tendencies detected or for planned events. This procedure enables operators to be more crime and bylaw infringement prevention orientated. With all suspicious incidents detected the SAPS, Traffic or Waste representatives will determine the appropriate response required to address the matter.

A record is maintained of vehicle despatches as compared with incidents detected. Any non-responses by SAPS are reported to the Station Commander at the daily SCCF.

An arrest is made when the suspect is apprehended. It often happens that after an arrest has been made the complainant refuses to open a case. This tendency is very frustrating as suspects then continue to commit crimes elsewhere. The latter is then reflected as a preventable operation which counts as a success for the operator. The Station Commander of SAPS Pietermaritzburg Central has issued a station order instructing SAPS members to charge the suspects in these circumstances with the Possession of Stolen Property.

### **Summary of Operational Performance: 2020/21**

### **Street Crime**

| No Response by Municipal Traffic    | 12      | 32      |
| Ave Municipal Traffic Response Time | 18 min  | 14 min  |

**Comment:** The Covid 19 regulations prohibiting or limiting the sale of alcohol had a positive impact on the number of Traffic Bylaw infringements. A number of these infringements occurred during the evening when on site alcohol consumption is normally high. The strict enforcement of the curfew time frames by the SAPS also had a positive impact in this matter. In this regard Safe City regularly reported liquor outlets to the SAPS who contravened the Covid 19 regulations.

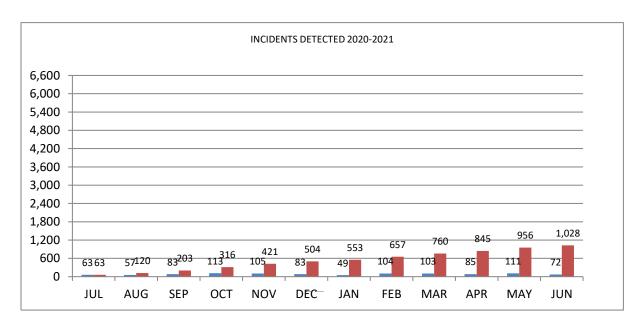

As can been seen in para 6.3.2 the response by Municipal Security is of concern. This poor response has a direct result on the effective enforcement of bylaws such as the posting of posters, playing of loud music, illegal trading and littering. If we can improve on these non-responses then our city will be more appealing for the general public to visit.

### **General Municipal Matters**

| Description | 2019/20 | 2020/21 |
|-------------|---------|---------|
| Fires       | 23      | 17      |
| Water leaks | 30      | 15      |
| Total       | 55      | 42      |

**Comment:** All these incidents were attended to by the relevant Municipal Units.

### **Incidents Detected**

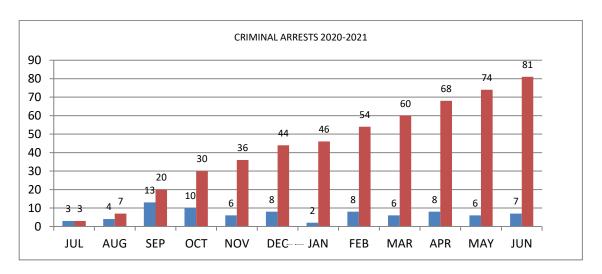

**Comment:** A total of **1028** incidents were detected compared to **1385** incidents the previous year. This decrease can be attributed to the drastic reduction of persons in the CBD area during the various phases of the Covid 19 lockdown.

### Some of the Incidents that were detected

| Туре                             | Number |
|----------------------------------|--------|
| Fighting                         | 348    |

| Marches and Gatherings           | 23     |
| Poss. of Dangerous Weapon        | 13     |

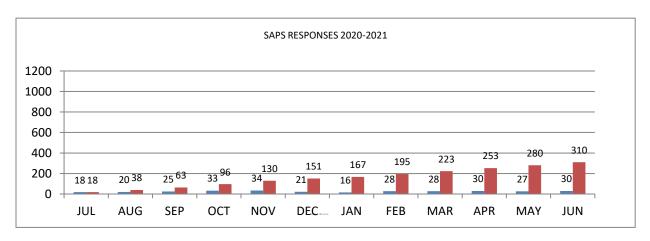

### **Arrests Made:**

**Comment:** The number of arrests made was **81** compared to **137** of the previous year. As mentioned in para 6.3.3 there was a drastic decrease in crime during the reporting period due to limitation or ban on the sale of alcohol.

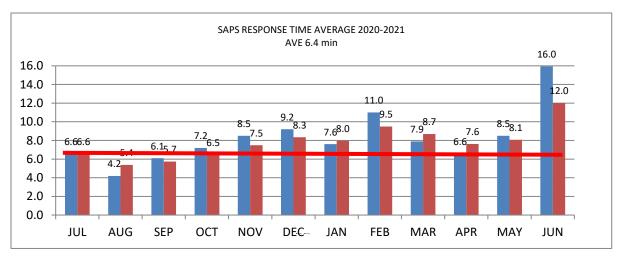

| Туре                           | Number |
|--------------------------------|--------|
| Robbery Related                | 23     |
| Possession of stolen Property  | 16     |
| Theft Out of Motor Vehicle     | 12     |

| Assault Related                | 3      |
| Drug Related                   | 2      |

### **6.3.7** Responses by the SAPS:

**Comment:** The total number of responses of the SAPS was **310**. No Reponses by SAPS units was **40** which was reported in writing to the Station Commander of Pietermaritzburg Central.

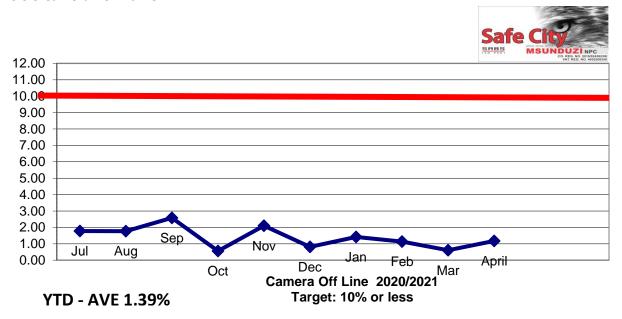

### **6.3.8 Response Time by the SAPS:**

**Comment:** The average response time for SAPS vehicles to respond is calculated from the time of notifying the SAPS Emergency Control Room until a vehicle arrives on the scene. An average of **6.4 min** was achieved.

The SAP Station Commander for Pietermaritzburg Central has given an undertaking that Safe City complaints will receive priority attention and that a competent SAPS member will be sent to the Control Room.

### 6.3.9 Camera Downtime:

Comment: The average camera downtime was 0.9% of all cameras. Safe City's target is 10%. Power

outages and load shedding wreaked havoc on our aging analogue equipment. In this regard the Technical

Manager and his team have excelled in restoring the functionality of some of these cameras.

Unfortunately, several analogue cameras could not be re commissioned and had to be replaced with IP

cameras. The cost of these replacements was funded through Operational funds.

**FINANCE:** 

Safe City Banking Accounts: First National Bank: Boom Street Branch:

Current Acc No 62035467978

Money Market: 62035942392

**Safe City Capital Budget:** 

2020/21 Financial Year

The amount of **R 3 500 000** has been applied for to upgrade the existing CCTV system. Unfortunately, no

capital budget was allocated for this purpose. As highlighted in para. 5.2 there is an urgent need to

upgrade to a digital system which will greatly assist surveillance staff in the detection of crime and bylaw

infringements. This matter has again been highlighted in the Safe City multi-year business plan which has

been submitted with the 2021/2022 budget application.

2021/22 Financial Year:

The amount of **R 3 500 000** has again been applied for to upgrade the existing CCTV system. We strongly

appeal to Council to consider this request as our surveillance equipment is now fast approaching the end

of its operational life span. It is of vital importance that Pietermaritzburg as the capital city of KwaZulu

Natal has a fully functional street surveillance system.

**Safe City Operating Budget:** 

2020/21 Financial Year:

Safe City applied for R13 562 909 (incl vat) for the financial year to maintain its high level of service

excellence. We would like to thank the Municipality for allocating the said amount to us. This

increase was used to maintain the ageing CCTV infrastructure and to accommodate staff salary

increases and benefits in accordance with PSIRA guidelines.

#### Comment:

Safe City experienced delays in receiving its quarterly funding payments. These delays had a negative impact on the management of the monthly operational budget. The operational budget had to be managed in such a manner that there were always sufficient funds available for staff salaries therefore reflecting a positive variance in expenditure. This positive variance created an impression of overfunding but in the process, expenditure in respect of maintenance had to be reduced which negatively impacted the life cycle of our ageing equipment.

For the past three years Safe City has received an unqualified audit report from the Auditor General which clearly indicates that Municipal funds are well administered and utilized.

### 2021/22 Financial Year:

For the financial year 2021/22 Safe City has applied for

R14 279 422 (incl vat). The increase in budget allocation is to accommodate inter alia the estimate cost of:

R795 000 to be paid to the Auditor General and

R530 000 to be paid for assuring our assets which were transferred from the Municipality to Safe city.

The allocation will also be used to ensure that:

staff salaries are as per the Sectorial 6 determination

staff benefits such as medical aid and pension fund is maintained.

maintenance is conducted on the expanded CCTV system as per the SDBIP for 2020/21

### **Financial Contributors:**

The following local company has given a discount to Safe City in the day to day running of its business.

#### SAFE CITY ANNUAL PERFORMANCE:

Safe City's KPA and KPI's for 2020/21 were aligned with the Service Delivery and Budge ImplementationPlan.

#### **SUSTAINABILTY AND GOVERNANCE:**

The Safe City Board Members remain committed in maintaining strict ethical standards in the operations of Safe City, and accordingly undertake from time-to-time reviews of its business practices and governance responsibilities. In this regard, several important policies have been compiled and others reviewed and approved by the Board of Directors during 2020/21.

### CONCLUSION

Safe City enjoyed a very fruitful relationship with the city's administration during 2020/21 and we would like to thank the Mayor, Councillor Mzimkhulu Thebolla, the Councillors, the Municipal Manager, Mr Madoda Khathide, and other senior officials for their constructive support towards the Safe City project and for supporting our belief that Safe City is performing a valuable community service. During the 2020/21 financial year Safe City remained fully operational despite the challenges imposed on us by the highly infectious Covid 19 virus. We observed the positive impact the limitation on the sale of alcohol had on our communities in respect of reported contact crimes such as Murder, Rape and Assault with Grievous Bodily Harm intentions. As mentioned, Safe City played a very important role in the enforcement of the Covid 19 liquor regulations in that we directed the SAPS to liquor outlets who blatantly ignored these regulations. We also utelised our Public Announcement System extensively to warn the public on the dangers Covid 19 can pose if they do not adhere to sanitizing and social distancing protocols. Our staff's health remained a priority throughout the year and was not compromised in any manner.

As the Chairperson of the Board, the Board of Directors, Safe City Management and Staff, allow me to confirm without any doubt that Safe City Msunduzi NPC can be regarded as an asset to the Msunduzi Municipality and its communities. Without the presence of Safe City's CCTV Control Room and its operators, crime would have been rampant in the city. It always remains an important objective for Safe City to be a centre of excellence to ensure the safety of the public when visiting the Msunduzi precinct and also to provide an acceptable service to the Municipality, SAPS, National Prosecuting Authority and other stakeholders.

Safe City has seen it is equally important to get involved in assisting the Msunduzi Municipality in the enforcement of relevant bylaws and to generate revenue in the form of recovery outstanding Traffic Warrant revenue which is estimated to be in excess of **R11 000 000**. In this respect I am pleased to report that this matter is receiving the necessary attention. The lack of bylaw enforcement greatly contributes to crime and grime in our city, and we would like to appeal to the Municipality to establish a dedicated Municipal Re-Action Unit who can operate in conjunction with Safe City to effectively address bylaw infringements. This action will also reduce the opportunities for serious crime to take place especially in congested areas.

Our ageing surveillance system is starting to have a negative impact on our operating capability. Continuous power outages and load shedding wreaked havoc on our fragile analogue system and in this regard, we would like to appeal to the municipality to allocate capital funding to Safe City to undertake projects such as the upgrading of the surveillance system, the completion of the safeguarding of the remaining electrical primary sub stations against theft and vandalism and to expand the surveillance footprint to areas such as Edendale Business Centre. These projects have been included in our three (3) year Business Plan. As the capital city of KwaZulu Natal, it is of vital importance that our city has a fully functional and updated surveillance system.

I would also like to thank all our partners including BFC, SAPS, NPA and several others who are, to a lesser or greater extent stakeholders in our operation.

The financial contribution from Colenbrander Inc. in the form of a considerable discount on their respective contractual costs with Safe City is hereby acknowledged. The valuable assistance rendered by our legal advisors Venn's, and the local media on reporting safety and security matters is further recognised and acknowledged.

In conclusion as the Chairperson of Safe City, I would like to extend my greatest appreciation to the members of the board for their undivided and united support in consistently contributing strategically in the good governance of the organisation and to ensure that as a Board we act in good faith and in the best interest of Safe City at all times. The Board further wishes to thank the management and staff of Safe City for their commitment in ensuring that Safe City remains a centre of excellence despite numerous operational as well as financial challenges. As the Board of Safe City, the Management, and all staff, we extend our particular gratitude to our parent municipality, Msunduzi Municipality as our main funder.

### CHAPTER 4 - REPORT OF THE AUDITOR GENERAL 2020/2021 FY

#### ANNUAL REPORT OF THE AUDIT COMMITTEE FOR THE PERIOD 01 JULY 2020 TO 30 JUNE 2021

#### REPORT OF THE AUDIT COMMITTEE FOR THE YEAR ENDED 30 JUNE 2021

The Audit Committee has pleasure in submitting its annual report for the financial year, 01 July 2020 to 30 June 2021, in accordance with sections 121(3)(j), 166(2)(b) and (c) of the Municipal Finance Management Act ("the MFMA").

#### **AUDIT COMMITTEE MEMBERS AND ATTENDANCE**

The Audit Committee consists of the members listed hereunder and meets as a minimum, four times a year as per the approved Audit Committee Charter. Two vacancies created by the expiration of two members' contracts in the previous reporting period were filled in the first quarter of this year. The Chairperson resigned due to personal circumstances effective 2 February 2021. The Committee continued to discharge its duties under the acting Chairmanship of Mrs Bronwyn Kemp. The Council has subsequently appointed a new Chairperson and filled the vacancy created by Advocate Madliwa's resignation subsequent to year end. The Committee held eight (8) meetings during the year and the Audit Committee Chairperson availed herself to present the Audit Committee oversight reports to Council meetings.

The Chairperson of the Audit Committee also met with the Municipal Accounting Officer, the Chief Audit Executive and the Chief Financial Officer. The meetings of the Audit Committee were held as per the table below.

### INTERNAL AUDIT FUNCTION

The Internal Audit Charter as adopted by the Audit Committee regulates the work of Internal Audit. In terms of Section 165(1) of the MFMA each municipality is required to have an Internal Audit function. Section 165(3) allows the municipality to co-source the function if the municipality requires assistance to develop its internal capacity. During the current year Internal Audit was assisted by co-sourced resources.

#### Internal Audit structure and capacity

The internal audit unit of The Msunduzi Municipality remains a co-sourced function, with an established Internal Audit Unit operating under the Chief Audit Executive (CAE) and reporting to the Audit Committee, in which capacity for the performance of individual tasks within the internal audit plan is supplemented by the use of external service providers.

During the year under review, the position of the Chief Risk Officer was filled, and seven (7) of the vacancies within the internal audit unit were filled. Despite these appointments, the unit remains under-capacitated with a 57% vacancy rate.

The continuing cash flow crisis that the municipality faces is a significant contributor to the municipality's inability to fill the vacancies within the internal audit unit.

As such, the Audit Committee remains concerned that the municipality's internal audit function is inadequately structured and resourced. The process of the structural review of internal audit has been finalized, however the new posts have not been graded as yet but the new job descriptions have been finalized and submitted to Human Resource Management. The unit is still has heavy reliance to consultants but the budget is in sufficient for the unit to have adequate coverage in most critical areas where high risks are prevalent.

### Internal Audit performance

The Annual Audit coverage plan was submitted to the Audit Committee for approval in June 2020.

During the year under review, significant and concerning adjustments had to be made to the planned Internal Audit activities. This was due to the impact on the capacity of internal resources and the availability of external resources related to the Covid-19 pandemic and related lockdowns and changes in work methods.

Seventeen (17) audits were planned for the 2020/2021 Financial Year, however only 6 audits were completed eleven (11) audits were removed from the plan during mid-year review because of the reasons given in the above paragraph.

The internal audit reports, with management comments, were presented to the Audit Committee meetings. Issues raised were deliberated and recommendations made to Council. The Audit Committee has previously reported its concern that the internal audit reports and findings raised therein are not responded to by management on a timely basis, and that the responses and action plans provided by management in response to the findings are too vague to facilitate timely resolution of the internal control weaknesses reported on a sustainable manner that can be tracked and for which officials can be held accountable. This remains the Audit Committee's assessment, and the Audit Committee remains concerned that until management properly elevate the work of internal audit to the status it requires in terms of priority, and assign equal importance to the formulation of quality, credible responses and SMART action plans to implement the recommendations of internal audit in a sustainable manner, the underlying system of internal control will continue to be inadequate, and the effectiveness of the work of both internal audit and the audit committee will continue to be compromised. In response to this, the Audit Committee has further

isolated the responsible departments and root causes contributing to unacceptably slow rates of resolution of the recommendations of internal audit and reports these findings to Council.

The Chief Audit Executive (CAE) had direct access to the Audit Committee primarily through the Chairperson. During the year, the Audit Committee met with both internal audit and the external auditors without management being present. Significant intervention was required by the Audit Committee in ensuring that the work of both internal audit and external audit, as well as the relationship between management and the auditors, was appropriately facilitated and guided where necessary in a manner that was independent and constructive.

#### SYSTEM OF INTERNAL CONTROL

The majority of Internal Audit reports submitted during the year under review indicated that the design and operation of the system of internal control respectively remained inadequate and ineffective This remains a recurring theme at the Msunduzi Municipality. This is attributable to the slow progress in the implementation of management action plans on both Internal Audit and Auditor-General recommendations. As already stated, the Audit Committee remains concerned that the root causes of the slow responses are not sufficiently analyzed to inform SMART (specific, measurable, achievable, realistic, time-bound) action plans to address audit findings and implement sustainable improvements to the system of internal control.

In the year under review, inadequate progress has been made in improving the system of internal control in place to accurately measure, bill, record, report and collect revenue from consumer and rates debtors and to minimize water and electricity losses. The failure of consumers to pay amounts owing to the municipality, and the municipality's inability to effectively collect the amounts owing, continue to threaten the municipality's cash flows and have a direct impact on the municipality's ability to fill vacant positions and put adequate information systems in place. This has an exponential weakening impact on the systems of internal control at the municipality. Firstly, because those positions that exist to implement internal control processes are not filled, and secondly because other employees are then expected to perform the internal control tasks of more than one position. This leads to increased human error, the need for employees to prioritize between controls that they do and do not implement, exhaustion, apathy and under-performance in general. Under these conditions, the system of internal control is very unlikely to improve.

#### **RISK MANAGEMENT**

After reporting in previous years that the assessment of Risk Management at the municipality revealed that Risk Management had all but collapsed, the Audit Committee is encouraged by the appointment during the year under review of the Chief Risk Officer and the subsequent progress made in implementing risk management processes at the municipality. The workshops were conducted with all business units to evaluate six strategic risks; the outcome of the strategic risk assessment was presented to the Audit Committee. All strategic risks in the municipality remained relatively critical. This necessitated instant management intervention by developing mitigation strategies. The assessment of Municipality's forty-six (46) fraud risks exposures was also performed during the year under review.

The audit outcomes by the Auditor-General and several findings of Internal Audit continue to indicate that management needs to put resolute efforts into establishing and maintaining effective and rigorous risk management so as

- to put effective mechanisms in place to ensure compliance with laws and regulations, and in particular, with supply chain management processes
- to prevent unauthorized, fruitless and wasteful and irregular expenditure,
- to ensure compliance with the basic requirements of effective financial management (for example revenue management and expenditure management) and

to ensure delivery of service against pre-determined targets.

This is incorporated into the focus of the Chief Risk Officer's responsibilities.

#### FINANCIAL MANAGEMENT AND REPORTING

The Audit Committee reviews reports compiled by management in terms of sections 66, 71 and 72 on a monthly or bi-annual basis as required. There has been no significant change in previous concerns raised by the Committee relating to the accuracy and completeness of the information contained in these reports, as well as to the late or non-submission of these reports for review by the Committee. This is particularly concerning when the preparing and reporting of these reports is a legislated requirement and failure to do so results in non-compliance with laws and regulations. The root cause of inaccurate reporting, previously reported by the Audit Committee as relating to ongoing challenges in the implementation and effectiveness of the SAP ERP system, and which in the previous year, the Committee reported was taking unacceptably long to resolve, remains unresolved even a year later. This is an example of a root cause that cannot be remedied through normal internal control processes and requires a solution that is driven by leadership. It must be aimed at properly understanding the requirements and finding a focused solution in which role players are held accountable for performance. This is an example of a number of significant challenges faced by the municipality which require problem-solving leadership to resolve, rather than being left to ordinary processes or to levels of management who do not have either the strategic vision to find solutions or do not have the authority to put such solutions in place.

In the year under review, additional concerns have been directed to management relating to the quality and usefulness of the narratives and explanations included in these reports, as well as to a lack of proper review of the reports before submission through the Council structures, leading to a failure to detect and correct errors in these reports.

Both the deficiencies in accuracy and completeness of information contained in these reports, in the usefulness of the narratives included, and in the lack of consistency of submission, impact on the Audit Committee's ability to play an effective oversight role.

The Audit Committee continued to raise specific concerns relating to the content of matters reported, and for the purposes of this report wish to highlight the following critical items:

- Billing inaccuracies;
- Inability to collect consumer debtors;
- Insufficient spending of conditional grants;
- Excessive overtime expenditure;
- Unacceptably high vacancy levels, and
- The use of consultants instead of filling of vacant positions.

In the previous year, management was advised to prioritize debt control and take measures to reduce debt to acceptable levels, and to investigate the potential abuse or fraudulent claiming of overtime by municipal employees. In the current year, these issued remained as focus items on the Audit Committee's oversight agenda, with management being requested to present alternative plans for

- analyzing consumer debtors and improving the understanding of consumer debtor behavior,
- driving initiatives both to collect debt and to change consumer behavior, and
- increasing the accountability in the use of overtime in user departments.

These activities have yet to yield any tangible results in terms of collection of revenue and reduction in the abuse of overtime.

#### **ANNUAL FINANCIAL STATEMENTS**

The activities of the Budget and Treasury Office (BTO) in the year under review related to the preparation of interim and final financial statements were negatively impacted by substantial delays in the finalization of the 2019/2020 external audit process. This was largely due to the impact on both the PFMA and MFMA audit cycles of the first and subsequent Covid-19 national lockdowns as well as the related impact of the changes on working conditions and challenges relating to the exchange of information during the audit processes. The 2019/2020 external audit process was finalized in April 2021. As a result, no interim financial statements were prepared during the 2020/2021 year.

The status of the processes required for the production of accurate and credible Annual Financial Statements remains unchanged in terms of the amount of manual effort still required to reconcile month end and year end balances due to unresolved issues in the SAP system. Although the reduction in the number of qualifications and resolution of previous qualification items from prior external audit reports shows an improvement in management's commitment to the audit process across business units, the Budget and Treasury Office still experiences ongoing challenges in obtaining quality information from business units that is required to prepare the Annual Financial Statements and to respond to external audit queries. It also spends a significant amount of time vetting the responses and the supporting information before submitting these to the external auditors, showing an ongoing lack of understanding of the nature and quality of source documentation and evidence of the performance of internal controls which is still challenging departments other than the BTO.

The Audit Committee also reiterates the concern reported in previous years that the improvement in the audit opinion on the financial statements was achieved only after significant effort by the reporting team and material adjustments to the financial statements submitted for audit. This means that although there are significant improvements to be acknowledged in the financial reporting process, the internal controls relating to the validity, accuracy and completeness of the underlying accounting records still require urgent attention, an observation which is consistent with the outcomes of Audit Committee meetings held during the year under review.

### PERFORMANCE MANAGEMENT

A benefit emanating from an improvement in the credibility of performance reporting in the previous years is that the actual planned and reported performance contained in the SDBIP, quarterly and annual performance reports can now be properly interrogated for oversight purposes. It is on this basis that the Audit Committee has made recommendations during the performance management evaluation processes that performance indicators require improvement for better measurement and for better alignment to outputs. The Audit Committee also raised concerns relating to the under-achievement of targets where the explanations provided for this related to the misuse of the Covid-19 related lockdowns as a blanket explanation, as well as the use of transversal processes, for example SCM delays or insufficient cash flow available, instead of detailing the steps taken for alternative actions contributing to the resolution of a transversal dependency impacting performance.

While the Office of the Municipal Manager continues to experience challenges in the timely receipt of quarterly performance information and portfolios of evidence, there has been an improvement. The results of Internal Audit reports issued on quarterly and annual performance reports reveal that the design of the system of internal control for performance management is adequate, whilst the operation thereof is ineffective. This is an improvement from previous reports where the design of the system was also deemed to be inadequate. The improvements in the operation of the system of internal control relate to compliance with the policies and procedures for the timelines, format and credibility of submissions into the performance planning, monitoring and reporting processes by the user departments.

The Audit Committee is hopeful that previous instability and long-standing vacancies in the s56 positions has now been addressed by Council, and that the resultant stability will enable the benefits of leadership to become clear in improved service delivery and performance management, and the growth in institutional knowledge of the new management team.

### INFORMATION AND COMMUNICATION TECHNOLOGY

In contrast to previous reporting periods, the Audit Committee consistently received regular reports on ICT Governance and on the implementation of the ICT governance strategy, policies and procedures. However, the Committee remains concerned at the unacceptable length of time it is taking to finalise the processes required to properly address internal and external audit findings as well as the resurfacing of issues that were reported to have been addressed already throughout the period under review. These concerns related to IT infrastructure, general control environment and application control weaknesses within the municipality's ICT environment, including ongoing significant configuration errors in the SAP ERP system. The impact of this has been described throughout this report.

The Audit committee noted with concern the slow pace in which the Municipality is addressing the SAP ERP legacy issues and that of ensuring that the ERP is mSCOA compliant.

Furthermore, the audit committee noted with concerned that some projects aimed to address the ICT aging infrastructure remained unaddressed as a result of lack of available funding. The committee recommends an ongoing assessment of ICT risks, and intentional implementation of mitigation strategies in order to avoid a catastrophic situation caused by the aging infrastructure.

The audit committee recommends that implementation of ICT general controls across business applications and the supporting infrastructure should be prioritised in order to ensure that the confidentiality, integrity, and availability information systems are not compromised. Furthermore, the audit committee recommends that among other activities, the ICT Steering Committee should implement measures to ensure that previously reported issues are indeed addressed, as well as ensure that all critical ICT related projects are resources optimally to ensure successful delivery including having an assurance function within the project Steering team.

The Audit Committee will continue to monitor and to evaluate the progress made in addressing long standing issues that were previously reported by Internal Audit and the Auditor General, including those that are in the 2020/21 management report.

### **GOVERNANCE & CONTROL ENVIRONMENT**

The review on governance and control environment conducted post 30 June 2018 revealed that Ethical Leadership and corporate citizenship in the municipality has declined. This was allowed to continue with impunity and only acted upon in early 2019/20 financial year by changing political leadership when damage had gone to a catastrophic state. The Provincial Executive Council took a decision in March 2019 by invoking Section 139(1) (b) to intervene by appointing a representative of the Member of the Executive Council. The issues raised in the 2018 review remain largely unresolved. There is ineffective tracking of the implementation of Council's decisions, and the municipality remains operating under Section 139(1)(b). The vacancy rate remains unacceptably high. The register for disciplinary matters is increasing and cases are not being dealt with at the desired rate. Loss recovery is slow. In addition, the municipality's financial health continues to be of concern, with adverse liquidity ratios severely impacting on service delivery. The control environment remains weak.

#### **COMPLIANCE WITH LAWS AND REGULATIONS**

The Audit Committee has reviewed the effectiveness of the system for monitoring compliance with laws and regulations and noted that there were still significant deficiencies in compliance. This has resulted in unauthorised, irregular, fruitless and wasteful expenditure as disclosed in the Annual Financial Statements, particularly in Supply Chain Management (SCM) and expenditure management. Robust discussions have been held with management on the use of deviations in the SCM processes and the Audit Committee has challenged management to identify instances of recurring use of deviations as indicative of systemic demand management issues and to align these with proper demand management principles instead. The Audit Committee will continue to play its oversight role to the system for monitoring compliance with laws and regulations to ensure that it is effective.

#### **EXTERNAL AUDIT BY AUDITOR-GENERAL OF SOUTH AFRICA (AGSA)**

The Audit Committee is encouraged by the progressive improvement in the audit outcome given by the Auditor-General during the audit of the annual financial statements of the municipality over the previous three financial years, culminating in an unqualified audit opinion in the financial statements for the 2020/2021 year. This improvement is testament to the consistent work management has put in to address deficiencies related to the financial reporting process.

However, the audit outcomes related to performance management and compliance with laws and regulations continue to reflect ongoing deficiencies in planning, recording and reporting on service delivery, and in day-to-day financial management requirements. These deficiencies are cut across multiple business units, where these business units are the custodians of service delivery and are responsible for internal controls related to financial management and compliance with laws and regulations relevant to their day-to-day areas of responsibility. The Audit Committee encourages all business units to entrench a culture of accountability and sound financial management and discipline on a daily basis and in all levels of operations of the municipality.

The Audit Committee met its obligations in terms of the oversight of the relationship between and process of audit between management and the external auditors and is encouraged by the professional and constructive manner in which both parties conducted the audit process and maintained the constructive relationship built in the previous year.

### FORENSIC INVESTIGATIONS

Section 166(2) (d) of the Municipal Finance Management Act, 56 of 2003 [MFMA] gives powers to the Audit Committee to carry out investigations into the affairs of the municipality or municipal entity as the council of the municipality, or in the case of the municipal entity, the council of the parent municipality or the board of directors of the entity, may request. Clause 3.1.3.4 of the Audit Committee charter re-affirm this responsibility to the Audit Committee to carry out investigations into the financial affairs of the municipality.

During period under review twenty-four (24) incidents / allegations were reported to internal audit unit and some were referred by the City Manager and the Chief Financial Officer and through the whistle blowing and walk-ins. Twenty-five (25) forensic investigations were completed during the year and covered a range of issues, including, but not limited to allegations of fraud, corruption, vehicle abuse, unethical behavior and other gross maladministration, and spanning many levels within the municipality.

Forensic investigation reports point to overtime and payroll fraud, absenteeism, vehicle misuse and abuse, corruption and other types of fraud (for example fuel theft). The findings reported in these reports provide clear evidence of ineffective operation of the systems of internal control. The nature of the findings in these reports are

consistent with the findings reported in prior years and indicate an unacceptably slow pace of change in addressing the root causes of these occurrences.

#### **CONCLUSION**

The Committee will continue to monitor progress being made by the municipality in improving overall governance, systems of internal control, risk management as well as performance management. In addition, the Audit Committee concurs with and accepts the conclusions of both the Internal Audit and the Auditor-General on the matters they have raised during the audits.

The Committee wishes to express its sincere appreciation to the Accounting Officer, the acting Accounting Officer, Senior Management, MPAC, Portfolio Committees, Executive Committee, Council and staff for their co-operation and support.

### CHAPTER 5 - RESPONSE TO THE REPORT OF THE AUDITOR GENERAL 2019/2020 FY

# MSUNDUZI LOCAL MUNICIPALITY REPORT BY MUNICIPAL MANAGER FOR COUNCIL

RESPONSE TO THE REPORT OF THE AUDITOR-GENERAL ON CONSOLIDATED FINANCIAL STATEMENTS OF THE MSUNDUZI MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2021

#### **BACKGROUND AND PURPOSE OF THE REPORT**

The report of the Auditor-General dated 28 February 2022 on the Audit of the Msunduzi Municipality and its entity for the financial year ended 30 June 2021, has been received and is on the Council agenda.

In terms of Section 21 (1) and (2) of the Public Audit Act, 2004 (Act No. 25 of 2004):

- [1] The Auditor-General must submit an audit report in accordance with any legislation applicable to the auditee which is the subject of the audit.
- [2] If there is no such legislation as contemplated in subsection (1) the Auditor-General must submit the audit report to the relevant legislature within the reasonable time.

The Accounting Officer must ensure that the requirements of Section 126 (1) and (2) of the Municipal Finance Management Act, (Act 65 of 2003) are complied with.

Section 121 prescribes that the Annual Report of a municipality must include among others the Auditor-General's Audit Report in terms of Section 126 (3) on the financial statements and particulars of any corrective action taken or to be taken in response to issues raised in the audit reports referred to in paragraph (b) and (c) of Section 121.

Comments and action on matters raised in the report are set out below with the numbering corresponding to the report of Auditor-General.

#### **GENERAL RESPONSE**

### Report on the audit of the consolidated and separate financial statements

### Unqualified audit opinion

- 1. The office of the Auditor General was engaged to audit the consolidated and separate Financial Statements of Msunduzi Local Municipality and its municipal entity for the financial year ended 30 June 2021. The Annual Financial Statements are comprised of Statement of Financial Position, Statement of Financial Performance, Statement of Changes in Net Assets, Cash Flow statement and Statement of Comparison of Budget and Actual amounts, as well as the notes to the Annual Financial statements, including accounting policies.
- 2. The office of the Auditor General issued an unqualified audit opinion on the consolidated and separate financial statements of the Municipality and its Municipal entity.

### **Basis for opinion**

3. AGSA conducted the audit in accordance with International Standards on Auditing (ISAs).

- 4. AGSA is Independent in accordance with International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants.
- 5. AGSA believe that the audit evidence obtained is sufficient and appropriate to provide a basis for the opinion. Material uncertainty relating to going concern
- 6. AGSA draw attention to the matter below:
- 7. I draw attention to note 79 to the consolidated and separate financial statements, which includes indicators of doubts as to the appropriateness of the going concern basis of accounting. These include the inability of the municipality to collect monies due from consumer debtors, inability to pay creditors on time, decreasing reserves and other adverse financial ratios. These conditions, indicate that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern.

### **Management Response**

Management has embarked on a number of interventions to improve the debtor's collection, these measures include the implementation of credit control policy, functioning of revenue enhancement committee, aggressive water and electricity meter disconnections.

#### **Emphasis of matters**

8. AGSA draw attention to the matters below. The audit opinion was not modified in respect of these matters.

### Restatement of corresponding figures

9. As disclosed in note 69 to the consolidated and separate financial statements, the corresponding figures for 30 June 2020 were restated as a result of errors in the financial statements of the group at, and for the year ended, 30 June 2021.

### **Management Response**

To avoid restatement of corresponding figures management will enforce the Month end discipline control mechanism, which will ensure that proper reconciliations of account balances and transactions are performed accurately, timeously and correctly. This will also ensure that transactions are completely recorded and classified in the correct accounting period.

### Material impairment - statutory receivables and consumer debtors

- 10. As disclosed in note 6 to the consolidated and separate financial statements, the municipality reported a provision for impairment balance of R772,56 million (2019-2020: R609,22 million) on statutory receivables as the recoverability of these amounts was doubtful.
- 11. As disclosed in note 7 to the consolidated and separate financial statements, the municipality reported a provision for impairment balance of R2,52 billion (2019-2020: R2,03 billion) on consumer debtors as the recoverability of these amounts was doubtful.

### **Management Response**

The material impairment is noted. Financial viability has been identified by management as one of the key strategic risks facing the municipality. This risk encompasses liquidity, debt collection and cash coverage. In response management has developed strategic action plan to mitigate this risk. Improving debtor's collection rate is part of the actions identified to be undertaken. It is envisaged that implementation of the developed strategic actions plans and enforcement of already in existence credit control and debt collection measures will lower the material impairment.

### Material losses – electricity

12. As disclosed in note 77 to the consolidated and separate financial statements the municipality incurred material electricity losses of R321,30 million (2020-2021: R178,49 million) which represents 22% (2019-2020: 18%) of total electricity purchased. This was mainly due to illegal connections, infrastructure vandalism, ageing infrastructure and overloading.

#### Material losses – water

13. As disclosed in note 77 to consolidated and separate the financial statements the municipality incurred material water losses of R223,37 million (2020-2021: R209,11 million), which represents 30% (2019-2020: 30%) of total water purchased. This was mainly due to illegal connections, progressive deterioration, as well as ageing and increasing levels of fragility in the bulk water infrastructure.

### **Management Response**

14. Management notes the finding. The Municipality has already commenced with the audit of the metering installation and implementing corrective action required. A total of 804 bulk meter and 1984 residential meters were audited during the 2020/21 financial year. The Municipality Electricity department has made submission for consideration during the Council Budget Process to avail funding that will enable the availability of resources to undertake meter audits during the 2022/23 to 2023/24 financial years.

The Interventions for Water Loss Reductions are in progress. The program is to replace approximately 4000 water meters based on the exception list submitted by Revenue. High Water Loss areas have been identified to dispatch contractors once appointed. Thirty- seven (37) pressure management zones have been designed and simulated, awaiting the Civils Tender for implementation. To date 80% of existing Pressure Management Zones have been reinstated to their optimal functionality. On-going monitoring and adjustments are undertaken within these systems, as to mitigate the burst frequency and prevent leakage within the defined pressure managed zones. An apparent loss policy is currently at draft stage which will assist with a standard Operation Procedure to deal with illegal connections.

#### Other matters

- 14. AGSA draw attention to the matters below. The audit opinion was not modified in respect of these matters.

  Unaudited disclosure notes
- 15. In terms of section 125(2)(e) of the MFMA, the group is required to disclose particulars of non-compliance with the MFMA in the consolidated and separate financial statements. This disclosure requirement did not form part of the audit of the group financial statements and, accordingly, I do not express an opinion on it. Unaudited supplementary schedules
- 16. The supplementary information set out on pages x to x does not form part of the consolidated and separate financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

### Responsibilities of the accounting officer for the consolidated and separate financial statements

- 17. The accounting officer is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with the SA Standards on GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.
- 18. In preparing the consolidated and separate financial statements, the accounting officer is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

### Auditor-general's responsibilities for the audit of the consolidated and separate financial statements

- 19. AGSA's objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 20. A further description of AGSA's responsibilities for the audit of the consolidated and separate financial statements is included in the annexure to this auditor's report.

### Report on the audit of the annual performance report

### Introduction and scope

- 21. In accordance with the Public Audit Act, 2004 (Act. No. 25 of 2004) (PAA) and the general notice issued in terms thereof, AGSA has a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for the selected development priority presented in the annual performance report. AG performed procedures to identify material findings but not to gather evidence to express assurance.
- 22. AGSA procedures address the usefulness and reliability of the reported performance information, which must be based on the municipality's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. AG procedures do not examine whether the actions taken by the municipality enabled service delivery. AG procedures also do not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, AG findings do not extend to these matters.
- 23. AGSA evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the "basic service delivery" development priority presented in the annual performance report for the year ended 30 June 2021.
- 24. AGSA performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. AGSA performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
- 25. The material finding on the usefulness and reliability of the performance information of the selected development priority is as follows:

Development priority B – basic service delivery **Various indicators** 

26. AGSA was unable to obtain sufficient appropriate audit evidence that clearly defined the predetermined source information and method of collection or that related systems and processes were established to enable consistent measurement and reliable reporting of the actual achievement of the indicators listed below. This was due to a lack of measurement definitions and processes. I was unable to confirm that the indicators are well-defined and verifiable by alternative means. As a result, I was unable to audit the reliability of the achievements reported in the annual performance report for the following indicators:

| No. | Indicator description  | Planned output   | Reported achievement   |
|-----|--|--|--|
| 1   | Number of Households with access to<br>free basic refuse collection service<br>(Msunduzi Households vs Households<br>provided with free basic refuse<br>removal) by 30 June 2021 | Number of Households with access to free basic refuse collection service (Msunduzi Households vs Households provided with free basic refuse removal) by 30 June 2021 | 6250 Households with access the free basic domestic waste collection by 30 June 2021   |

### Other matters

27. AGSA draw attention to the matters below.

### **ACHIEVEMENT OF PLANNED TARGETS**

28. The annual performance report on pages x to x sets out information on the achievement of planned targets for the year. This information should be considered in the context of the material finding on the usefulness and reliability of the reported performance information in paragraph 26 of this report.

### **ADJUSTMENT OF MATERIAL MISSTATEMENTS**

29. AGSA identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of the *basic service delivery development priority*. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

### **Management Response**

Management will develop a comprehensive Annual performance report process plan to ensure misstatements are detected prior to submission of the report for auditing.

### Report on the audit of compliance with legislation

### Introduction and scope

- 30. In accordance with the PAA and the general notice issued in terms thereof, AG has a responsibility to report material findings on the municipality's compliance with specific matters in key legislation. AGSA performed procedures to identify findings but not to gather evidence to express assurance.
- 31. The material findings on compliance with specific matters in key legislation are as follows:

#### STRATEGIC PLANNING AND PERFORMANCE MANAGEMENT

32. The performance management system and related controls were inadequate as it did not describe how the performance measurement, review and reporting processes should be conducted, organised and managed, as required by municipal planning and performance management regulation 7(1).

### **Management Response**

Management will develop performance management system and related controls that will describe how the performance measurement, review and reporting processes will be conducted, organised and managed.

### **FINANCIAL STATEMENTS**

33. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, current liabilities, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

### **Management Response**

Management has developed and monitor an action plan to prevent the occurrence of the issues that resulted in misstatements. In addition, management has developed an AFS Implementation plan for the 2021/2022 financial year. The implementation of aforementioned plans will detect and minimise the occurrence of material misstatements on the financial statements submitted for auditing.

### **Expenditure management**

- 34. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R920,57 million, as disclosed in note 76 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending of the approved budget.
- 35. Reasonable steps were not taken to prevent irregular expenditure amounting to R50,66 million as disclosed in note 73 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with supply chain management regulations.
- 36. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R6,27 million, as disclosed in note 75 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by payment of site reestablishment costs to a service provider.
- 37. Reasonable steps were not taken to ensure that the municipality implements and maintains an effective system of expenditure control, including procedures for the approval, authorisation and payment of funds, as required by section 65(2)(a) of the MFMA.

#### **Management Response**

Management will strive to ensure that there is compliance with legislation and its regulations when procuring goods and services.

Poor administration has been identified by management as one of the key strategic risks facing the municipality. This risk includes unauthorised, irregular and fruitless and wasteful expenditure. In response management developed an action plan to mitigate this risk. Developing a strategy to reduce unauthorised, irregular and fruitless and wasteful expenditure and workshopping the municipal departments on the strategy to reduce UIFW is part of the action plan to mitigate this risk. It is envisaged that the implementation of the action plan, implementation of credit control policy and monitoring internal controls will lower the incidences of UIFW.

### Revenue management

- 38. An effective system of internal control for debtors and revenue was not in place, as required by section 64(2)(f) of the MFMA.
- 39. An adequate management, accounting and information system which accounts for revenue, debtors and receipt of revenue was not in place, as required by section 64(2)(e) of the MFMA.

#### **Management Response**

Management will develop a system of internal control for debtors and revenue and will further ensure that there is adequate management, accounting and information system which accounts for revenue and debtors and will embark on a number of interventions to improve the debtor's collection, including the implementation of credit control policy, functioning of revenue enhancement committee, aggressive water and electricity meter disconnections.

### Consequence management

40. Appropriate action was not taken against officials of the municipality where investigations proved financial misconduct, as required by section 171 (4) (b) of the MFMA and municipal regulations on financial misconduct procedures and criminal proceedings 6(8).

#### **Management Response**

The recommendations of the Forensic Investigations are implemented and are monitored by the accounting officer on a weekly basis. A tracker for all cases has been developed and monitored in the MM's Office. The Presiding Officers and Prosecutors are also met regularly to ensure that administrative obstacles are dealt with timeously. All misconduct cases are given the necessary attention they deserve.

#### Other information

- 41. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the consolidated and separate financial statements, the auditor's report and the selected development priority presented in the annual performance report that has been specifically reported on in this auditor's report.
- 42. AGSA opinion on the consolidated and seperate financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and AGSA does not express an audit opinion or any form of assurance conclusion on it.
- 43. In connection with the audit. AGSA's responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements and the selected development priority presented in the annual performance report, or AGSA's knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 44. The other information AGSA obtained prior to the date of this auditor's report is the mayor's foreword and executive summary, governance, as well as the organisational development performance, and the report of the audit committee and oversight report are expected to be made available to me after the auditor's report date.
- 45. If, based on the work AGSA have performed on the other information that AGSA obtained prior to the date of this auditor's report, AGSA conclude that there is a material misstatement of this other information, AGSA is required to report that fact. AGSA have nothing to report in this regard.
- 46. When AGSA receive and read the report of the audit committee and the oversight report, if AGSA conclude that there is a material misstatement therein, AGSA is required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, AGSA may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

#### Internal control deficiencies

- 47. AGSA considered internal control relevant to audit of the consolidated and separate financial statements, reported performance information and compliance with applicable legislation; however, AGSA objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the annual performance report and the findings on compliance with legislation included in this report.
- 48. The accounting officer and management did not ensure that systems of internal control were adequately implemented and monitored to ensure compliance with key legislation relating to strategic planning, annual financial statements, expenditure management, revenue management and consequence management.
- 49. Management did not adequately review the annual financial statements and annual performance report before submitting for auditing. In addition, management did not validate achievements against supporting documents. As a result, material findings were raised during the audit.

#### **Management Response**

In a bid to strengthen and improve internal controls, as part of strategic risk management, management will prepare and monitor closely the audit action plan in addition to the month end discipline control measures.

The Municipality has developed an audit action plan to be monitored on a monthly basis by the audit committee and the structures of Council to deal with matters raised by the AGSA. Further strategies on improving the system of internal control are being employed to deal with the issues on the management report.

### **Material irregularities**

50. In accordance with the PAA and the Material Irregularity Regulations, AG has a responsibility to report on material irregularities identified during the audit.

### Material irregularities identified during the audit

51. The material irregularities identified are as follows:

#### Revenue not billed at the landfill site

52. Revenue earned from the municipal operated landfill site for waste deposits was not recognised as the weighbridge digitiser was not working for a period of six months in the 2019-2020 financial year. Vehicles entering the site were not weighed and there was no record of tonnage deposited. The non-compliance with section 64(2)(e)(i) of the MFMA is likely to result in a material financial loss for the Msunduzi Municipality.

- 53. The accounting officer was notified of the material irregularity on 1 April 2021 and invited to make a written submission on the actions taken and that will be taken to address the matter.
- 54. The accounting officer has not taken appropriate action in response to being notified of the material irregularity. AGSA recommend that the accounting officer should take the following actions to address the material irregularity, which should be implemented by 29 April 2022:
  - a. The non-compliance should be investigated to determine if any official might have committed an act of financial misconduct or an offence in terms of chapter 15 of the MFMA. The financial loss should be quantified.
  - b. Disciplinary or, when appropriate, criminal proceedings should commence against any official who has allegedly committed an act of financial misconduct or an offence, as required by section 62(1)(e) of the MFMA and in the manner prescribed by the Municipal Regulations on Financial misconduct procedures and Criminal Proceedings.
  - c. Any person(s) liable for the losses should be identified and appropriate action should commence to recover the financial loss.
- 55. AGSA will follow up on the implementation of the recommendations after the due date.

### Management response

Management has appointed an independent investigator to investigate the non-compliance. Once the investigation is finalized any person(s) liable for the losses will be identified and appropriate action will commence to recover the financial loss.

### Salary payments to a manager that never reported for duty

- Salary payments were made by the municipality from 1 December 2016 to 31 July 2019 to an employee who never reported for duty since their appointment date. The municipality received no services in return for the payments made. This is evident of a non-compliance with section 65(2)(a) of the MFMA. The non-compliance is likely to result in a material financial loss for the Msunduzi Municipality.
- 57. The accounting officer was notified of the material irregularity on 15 April 2021 and invited to make a written submission on the actions taken and that will be taken to address the matter.
- 58. The following actions have been taken by the accounting officer to resolve the material irregularity:
  - d. A forensic investigation was conducted by the municipality's internal audit unit and a report was tabled in council.
  - e. The Head: Legal services was issued with an instruction by the accounting officer on 24 March 2021 to institute the recovery of the financial loss.

59. AGSA will follow up on the implementation of the actions being taken during my next audit.

### Management response

The salary was stopped immediately as soon as the investigation report was discussed with management. Summons have been issued and Legal recovery processes are still in progress.

#### Failure to recover revenue from the sale of timber

- 60. The municipality failed to collect revenue from a service provider as per the agreement between the service provider and the municipality for the disposal of timber. The resulted in non-compliance with section 64(2)(a) of the MFMA and is likely to result in a material financial loss for the Msunduzi Municipality.
- The accounting officer was notified of the material irregularity on 3 May 2021 and invited to make a written submission on the actions taken and that will be taken to address the matter.
- 62. The following actions have been taken to resolve the material irregularity:
  - f. An independent expert has been appointed to conduct a verification of the plantation.
  - g. A new organogram has been compiled and approved for the forestry business unit.
  - h. A tender notice was issued on 19 August 2021 for the appointment of a suitable service provider for total management of the municipal forestry plantation.
  - i. The Head: Legal services was issued with an instruction by the accounting officer on 10 May 2021 to institute the recovery of the financial loss.
- 63. AGSA will follow-up on the implementation of the actions being taken during my next audit.

#### Management response

The investigation the non-compliance is still in progress. Once the investigation is finalized any person(s) liable for the losses will be identified and appropriate action will commence to recover the financial loss.

### Other reports

64. In addition to the investigations relating to material irregularities, AGSA draw attention to the following engagements conducted which had, or could have, an impact on the matters reported in the group's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of the opinion on the group financial statements or my findings on the reported performance information or compliance with legislation.

#### Investigations

65. At the request of the accounting officer and senior management, the internal audit unit performed investigations into allegations of fraud, corruption, theft, recruitment, mismanagement and supply chain management irregularities. Thirty-six investigations were conducted of which seventeen were concluded and reported to council. Nineteen investigations were still in progress at the date of this report. Some of these investigations resulted in disciplinary action against certain officials of the municipality. These proceedings were in progress at the date of this report.

#### **CONCLUSION:**

An audit action plan which addresses rout causes of all audit findings and internal control deficiencies has been developed in consultation with the relevant General Managers and Senior Managers to resolve all reported matters within specific timeframes and deadlines. The action plan will be monitored on weekly basis to ensure that adequate system of internal controls and measures are in place to address the audit findings.

# CHAPTER 6 – REPORT OF THE AUDIT COMMITTEE AND RECOMMENDATIONS OF THE AUDIT COMMITTEE 2020/2021 FY

#### ANNUAL REPORT OF THE AUDIT COMMITTEE FOR THE PERIOD 01 JULY 2020 TO 30 JUNE 2021

# AUDIT COMMITTEE REPORT REPORT OF THE AUDIT COMMITTEE FOR THE YEAR ENDED 30 JUNE 2021

The Audit Committee has pleasure in submitting its annual report for the financial year, 01 July 2020 to 30 June 2021, in accordance with sections 121(3)(j), 166(2)(b) and (c) of the Municipal Finance Management Act ("the MFMA").

#### **AUDIT COMMITTEE MEMBERS AND ATTENDANCE**

The Audit Committee consists of the members listed hereunder and meets as a minimum, four times a year as per the approved Audit Committee Charter. Two vacancies created by the expiration of two members' contracts in the previous reporting period were filled in the first quarter of this year. The Chairperson resigned due to personal circumstances effective 2 February 2021. The Committee continued to discharge its duties under the acting Chairmanship of Mrs Bronwyn Kemp. The Council has subsequently appointed a new Chairperson and filled the vacancy created by Advocate Madliwa's resignation subsequent to year end. The Committee held eight (8) meetings during the year and the Audit Committee Chairperson availed herself to present the Audit Committee oversight reports to Council meetings.

The Chairperson of the Audit Committee also met with the Municipal Accounting Officer, the Chief Audit Executive and the Chief Financial Officer. The meetings of the Audit Committee were held as per the table below.

#### INTERNAL AUDIT FUNCTION

The Internal Audit Charter as adopted by the Audit Committee regulates the work of Internal Audit. In terms of Section 165(1) of the MFMA each municipality is required to have an Internal Audit function. Section 165(3) allows the municipality to co-source the function if the municipality requires assistance to develop its internal capacity. During the current year Internal Audit was assisted by co-sourced resources.

#### Internal Audit structure and capacity

The internal audit unit of The Msunduzi Municipality remains a co-sourced function, with an established Internal Audit Unit operating under the Chief Audit Executive (CAE) and reporting to the Audit Committee, in which capacity for the performance of individual tasks within the internal audit plan is supplemented by the use of external service providers.

During the year under review, the position of the Chief Risk Officer was filled, and seven (7) of the vacancies within the internal audit unit were filled. Despite these appointments, the unit remains undercapacitated with a 57% vacancy rate.

The continuing cash flow crisis that the municipality faces is a significant contributor to the municipality's inability to fill the vacancies within the internal audit unit.

As such, the Audit Committee remains concerned that the municipality's internal audit function is inadequately structured and resourced. The process of the structural review of internal audit has been finalised, however the new posts have not been graded as yet but the new job descriptions have been finalized and submitted to Human Resource Management. The unit is still heavily reliant on consultants, but the budget is in sufficient for the unit to have adequate coverage in most critical areas where high risks are prevalent.

#### <u>Internal Audit performance</u>

The Annual Audit coverage plan was submitted to the Audit Committee for approval in June 2020.

During the year under review, significant and concerning adjustments had to be made to the planned Internal Audit activities. This was due to the impact on the capacity of internal resources and the availability of external resources related to the Covid-19 pandemic and related lockdowns and changes in work methods.

Seventeen (17) audits were planned for the 2020/2021 Financial Year, however only 6 audits were completed eleven (11) audits were removed from the plan during mid-year review because of the reasons given in the above paragraph.

The internal audit reports, with management comments, were presented to the Audit Committee meetings. Issues raised were deliberated and recommendations made to Council. The Audit Committee has previously reported its concern that the internal audit reports and findings raised therein are not responded to by management on a timely basis, and that the responses and action plans provided by management in response to the findings are too vague to facilitate timely resolution of the internal control weaknesses reported on a sustainable manner that can be tracked and for which officials can be held

accountable. This remains the Audit Committee's assessment, and the Audit Committee remains concerned that until management properly elevate the work of internal audit to the status it requires in terms of priority, and assign equal importance to the formulation of quality, credible responses and SMART action plans to implement the recommendations of internal audit in a sustainable manner, the underlying system of internal control will continue to be inadequate, and the effectiveness of the work of both internal audit and the audit committee will continue to be compromised. In response to this, the Audit Committee has further isolated the responsible departments and root causes contributing to unacceptably slow rates of resolution of the recommendations of internal audit and reports these findings to Council.

The Chief Audit Executive (CAE) had direct access to the Audit Committee primarily through the Chairperson. During the year, the Audit Committee met with both internal audit and the external auditors without management being present. Significant intervention was required by the Audit Committee in ensuring that the work of both internal audit and external audit, as well as the relationship between management and the auditors, was appropriately facilitated and guided where necessary in a manner that was independent and constructive.

#### SYSTEM OF INTERNAL CONTROL

The majority of Internal Audit reports submitted during the year under review indicated that the design and operation of the system of internal control respectively remained inadequate and ineffective This remains a recurring theme at the Msunduzi Municipality. This is attributable to the slow progress in the implementation of management action plans on both Internal Audit and Auditor-General recommendations. As already stated, the Audit Committee remains concerned that the root causes of the slow responses are not sufficiently analysed to inform SMART (specific, measurable, achievable, realistic, time-bound) action plans to address audit findings and implement sustainable improvements to the system of internal control.

In the year under review, inadequate progress has been made in improving the system of internal control in place to accurately measure, bill, record, report and collect revenue from consumer and rates debtors and to minimise water and electricity losses. The failure of consumers to pay amounts owing to the municipality, and the municipality's inability to effectively collect the amounts owing, continue to threaten the municipality's cash flows and have a direct impact on the municipality's ability to fill vacant positions and put adequate information systems in place. This has an exponential weakening impact on the systems of internal control at the municipality. Firstly, because those positions that exist to implement internal control processes are not filled, and secondly because other employees are then expected to perform the internal control tasks of more than one position. This leads to increased human error, the need for employees to prioritise between controls that they do and do not implement, exhaustion, apathy and under-performance in general. Under these conditions, the system of internal control is very unlikely to improve.

#### **RISK MANAGEMENT**

After reporting in previous years that the assessment of Risk Management at the municipality revealed that Risk Management had all but collapsed, the Audit Committee is encouraged by the appointment during the year under review of the Chief Risk Officer and the subsequent progress made in implementing

risk management processes at the municipality. The workshops were conducted with all business units to evaluate six strategic risks; the outcome of the strategic risk assessment was presented to the Audit Committee. All strategic risks in the municipality remained relatively critical. This necessitated instant management intervention by developing mitigation strategies. The assessment of Municipality's forty-six (46) fraud risks exposures was also performed during the year under review.

The audit outcomes by the Auditor-General and several findings of Internal Audit continue to indicate that management needs to put resolute efforts into establishing and maintaining effective and rigorous risk management so as

- to put effective mechanisms in place to ensure compliance with laws and regulations, and in particular, with supply chain management processes
- to prevent unauthorised, fruitless and wasteful and irregular expenditure,
- to ensure compliance with the basic requirements of effective financial management (for example revenue management and expenditure management) and
- to ensure delivery of service against pre-determined targets.

This is incorporated into the focus of the Chief Risk Officer's responsibilities.

#### FINANCIAL MANAGEMENT AND REPORTING

The Audit Committee reviews reports compiled by management in terms of sections 66, 71 and 72 on a monthly or bi-annual basis as required. There has been no significant change in previous concerns raised by the Committee relating to the accuracy and completeness of the information contained in these reports, as well as to the late or non-submission of these reports for review by the Committee. This is particularly concerning when the preparing and reporting of these reports is a legislated requirement and failure to do so results in non-compliance with laws and regulations. The root cause of inaccurate reporting, previously reported by the Audit Committee as relating to ongoing challenges in the implementation and effectiveness of the SAP ERP system, and which in the previous year, the Committee reported was taking unacceptably long to resolve, remains unresolved even a year later. This is an example of a root cause that cannot be remedied through normal internal control processes and requires a solution that is driven by leadership. It must be aimed at properly understanding the requirements and finding a focused solution in which role players are held accountable for performance. This is an example of a number of significant challenges faced by the municipality which require problem-solving leadership to resolve, rather than being left to ordinary processes or to levels of management who do not have either the strategic vision to find solutions or do not have the authority to put such solutions in place.

In the year under review, additional concerns have been directed to management relating to the quality and usefulness of the narratives and explanations included in these reports, as well as to a lack of proper review of the reports before submission through the Council structures, leading to a failure to detect and correct errors in these reports.

Both the deficiencies in accuracy and completeness of information contained in these reports, in the usefulness of the narratives included, and in the lack of consistency of submission, impact on the Audit Committee's ability to play an effective oversight role.

The Audit Committee continued to raise specific concerns relating to the content of matters reported, and for the purposes of this report wish to highlight the following critical items:

- Billing inaccuracies;
- Inability to collect consumer debtors;
- Insufficient spending of conditional grants;
- Excessive overtime expenditure;
- Unacceptably high vacancy levels, and
- The use of consultants instead of filling of vacant positions.

In the previous year, management was advised to prioritize debt control and take measures to reduce debt to acceptable levels, and to investigate the potential abuse or fraudulent claiming of overtime by municipal employees. In the current year, these issued remained as focus items on the Audit Committee's oversight agenda, with management being requested to present alternative plans for

- analyzing consumer debtors and improving the understanding of consumer debtor behavior,
- driving initiatives both to collect debt and to change consumer behavior, and
- increasing the accountability in the use of overtime in user departments.

These activities have yet to yield any tangible results in terms of collection of revenue and reduction in the abuse of overtime.

#### **ANNUAL FINANCIAL STATEMENTS**

The activities of the Budget and Treasury Office (BTO) in the year under review related to the preparation of interim and final financial statements were negatively impacted by substantial delays in the finalization of the 2019/2020 external audit process. This was largely due to the impact on both the PFMA and MFMA audit cycles of the first and subsequent Covid-19 national lockdowns as well as the related impact of the changes on working conditions and challenges relating to the exchange of information during the audit processes. The 2019/2020 external audit process was finalized in April 2021. As a result, no interim financial statements were prepared during the 2020/2021 year.

The status of the processes required for the production of accurate and credible Annual Financial Statements remains unchanged in terms of the amount of manual effort still required to reconcile month end and year end balances due to unresolved issues in the SAP system. Although the reduction in the number of qualifications and resolution of previous qualification items from prior external audit reports shows an improvement in management's commitment to the audit process across business units, the Budget and Treasury Office still experiences ongoing challenges in obtaining quality information from business units that is required to prepare the Annual Financial Statements and to respond to external audit queries. It also spends a significant amount of time vetting the responses and the supporting information before submitting these to the external auditors, showing an ongoing lack of understanding of the nature and quality of source documentation and evidence of the performance of internal controls which is still challenging departments other than the BTO.

The Audit Committee also reiterates the concern reported in previous years that the improvement in the audit opinion on the financial statements was achieved only after significant effort by the reporting team and material adjustments to the financial statements submitted for audit. This means that although there are significant improvements to be acknowledged in the financial reporting process, the internal controls

relating to the validity, accuracy and completeness of the underlying accounting records still require urgent attention, an observation which is consistent with the outcomes of Audit Committee meetings held during the year under review.

#### PERFORMANCE MANAGEMENT

A benefit emanating from an improvement in the credibility of performance reporting in the previous years is that the actual planned and reported performance contained in the SDBIP, quarterly and annual performance reports can now be properly interrogated for oversight purposes. It is on this basis that the Audit Committee has made recommendations during the performance management evaluation processes that performance indicators require improvement for better measurement and for better alignment to outputs. The Audit Committee also raised concerns relating to the under-achievement of targets where the explanations provided for this related to the misuse of the Covid-19 related lockdowns as a blanket explanation, as well as the use of transversal processes, for example SCM delays or insufficient cash flow available, instead of detailing the steps taken for alternative actions contributing to the resolution of a transversal dependency impacting performance.

While the Office of the Municipal Manager continues to experience challenges in the timely receipt of quarterly performance information and portfolios of evidence, there has been an improvement. The results of Internal Audit reports issued on quarterly and annual performance reports reveal that the design of the system of internal control for performance management is adequate, whilst the operation thereof is ineffective. This is an improvement from previous reports where the design of the system was also deemed to be inadequate. The improvements in the operation of the system of internal control relate to compliance with the policies and procedures for the timelines, format and credibility of submissions into the performance planning, monitoring and reporting processes by the user departments.

The Audit Committee is hopeful that previous instability and long-standing vacancies in the s56 positions has now been addressed by Council, and that the resultant stability will enable the benefits of leadership to become clear in improved service delivery and performance management, and the growth in institutional knowledge of the new management team.

#### INFORMATION AND COMMUNICATION TECHNOLOGY

In contrast to previous reporting periods, the Audit Committee consistently received regular reports on ICT Governance and on the implementation of the ICT governance strategy, policies and procedures. However, the Committee remains concerned at the unacceptable length of time it is taking to finalise the processes required to properly address internal and external audit findings as well as the resurfacing of issues that were reported to have been addressed already throughout the period under review. These concerns related to IT infrastructure, general control environment and application control weaknesses within the municipality's ICT environment, including ongoing significant configuration errors in the SAP ERP system. The impact of this has been described throughout this report.

The Audit Committee noted with concern the slow pace in which the Municipality is addressing the SAP ERP legacy issues and that of ensuring that the ERP is mSCOA compliant. Furthermore, some projects

aimed to address the ICT aging infrastructure remained unaddressed as a result of lack of available funding. The Committee recommends an ongoing assessment of ICT risks, and intentional implementation of mitigation strategies in order to avoid a catastrophic situation caused by the aging infrastructure.

The audit committee recommends that implementation of ICT general controls across business applications and the supporting infrastructure should be prioritised in order to ensure that the confidentiality, integrity, and availability information systems are not compromised. Furthermore, the Audit Committee recommends that among other activities, the ICT Steering Committee should implement measures to ensure that previously reported issues are indeed addressed, as well as ensure that all critical ICT related projects are resources optimally to ensure successful delivery including having an assurance function within the project Steering team.

The Audit Committee will continue to monitor and to evaluate the progress made in addressing long standing issues that were previously reported by Internal Audit and the Auditor General, including those that are in the 2020/21 Management Report.

#### **GOVERNANCE & CONTROL ENVIRONMENT**

The review on governance and control environment conducted post 30 June 2018 revealed that Ethical Leadership and corporate citizenship in the municipality has declined. This was allowed to continue with impunity and only acted upon in early 2019/20 financial year by changing political leadership when damage had gone to a catastrophic state. The Provincial Executive Council took a decision in March 2019 by invoking Section 139(1) (b) to intervene by appointing a representative of the Member of the Executive Council. The issues raised in the 2018 review remain largely unresolved. There is ineffective tracking of the implementation of Council's decisions, and the municipality remains operating under Section 139(1)(b). The vacancy rate remains unacceptably high. The register for disciplinary matters is increasing and cases are not being dealt with at the desired rate. Loss recovery is slow. In addition, the municipality's financial health continues to be of concern, with adverse liquidity ratios severely impacting on service delivery. The control environment remains weak.

#### COMPLIANCE WITH LAWS AND REGULATIONS

The Audit Committee has reviewed the effectiveness of the system for monitoring compliance with laws and regulations and noted that there were still significant deficiencies in compliance. This has resulted in unauthorized, irregular, fruitless and wasteful expenditure as disclosed in the Annual Financial Statements, particularly in Supply Chain Management (SCM) and expenditure management. Robust discussions have been held with management on the use of deviations in the SCM processes and the Audit Committee has challenged management to identify instances of recurring use of deviations as indicative of systemic demand management issues and to align these with proper demand management principles instead. The Audit Committee will continue to play its oversight role to the system for monitoring compliance with laws and regulations to ensure that it is effective.

#### **EXTERNAL AUDIT BY AUDITOR-GENERAL OF SOUTH AFRICA (AGSA)**

The Audit Committee met its obligations in terms of the oversight of the relationship between and process of audit between management and the external auditors and is encouraged by the professional and constructive manner in which both parties conducted the audit process and maintained the constructive relationship built in the previous year.

The Audit Committee is encouraged by the progressive improvement in the audit outcome reported by the Auditor-General during the audit of the Annual Financial Statements of the municipality over the previous three financial years, culminating in an unqualified audit opinion in the financial statements for the 2020/2021 year.

The Audit Committee draws attention to meaning of the Auditor-General's unqualified opinion on the Annual Financial Statements for the year ended June 2021. The unqualified opinion means that the information reported in the Annual Financial Statements is, in all material respects, fairly presented and that users of the Annual Financial Statements can rely on the information contained therein with reasonable assurance and subject to the limitations inherent in an external audit. The Audit Committee further emphasizes that the unqualified opinion does not mean that the Municipality's financial position and performance and related cash flows, financial management and financial health are no longer significantly concerning. Users are encouraged to properly read and engage with the information contained in the financial statements to understand and evaluate the municipality's performance and to make decisions based on the information presented and disclosed, and not on the basis of the opinion on the fair presentation alone.

Despite the unqualified opinion on the Annual Financial Statements, the audit outcomes related to performance management and compliance with laws and regulations continue to reflect ongoing deficiencies in planning, recording and reporting on service delivery, and in day-to-day financial management requirements. These deficiencies cut across multiple business units, where these business units are the custodians of service delivery and are responsible for internal controls related to financial management and compliance with laws and regulations relevant to their day-to-day areas of responsibility. The Audit Committee encourages all business units to entrench a culture of accountability and sound financial management and discipline on a daily basis and in all levels of operations of the municipality. It is critical that senior management and Council create an ethical environment in which ethics and accountability form the basis of all municipal activities. The message from Council of zero tolerance for underperformance and unethical behavior needs to be clear, consistent and tangible.

#### **FORENSIC INVESTIGATIONS**

Section 166(2) (d) of the Municipal Finance Management Act, 56 of 2003 [MFMA] gives powers to the Audit Committee to carry out investigations into the affairs of the municipality or municipal entity as the council of the municipality, or in the case of the municipal entity, the council of the parent municipality or the board of directors of the entity, may request. Clause 3.1.3.4 of the Audit Committee charter reaffirm this responsibility to the Audit Committee to carry out investigations into the financial affairs of the municipality.

During period under review twenty-four (24) incidents / allegations were reported to internal audit unit and some were referred by the City Manager and the Chief Financial Officer and through the whistle blowing and walk-ins. Twenty-five (25) forensic investigations were completed during the year and covered a range of issues, including, but not limited to allegations of fraud, corruption, vehicle abuse, unethical behavior and other gross maladministration, and spanning many levels within the municipality.

Forensic investigation reports point to overtime and payroll fraud, absenteeism, vehicle misuse and abuse, corruption and other types of fraud (for example fuel theft). The findings reported in these reports provide clear evidence of ineffective operation of the systems of internal control. The nature of the findings in these reports are consistent with the findings reported in prior years and indicate an unacceptably slow pace of change in addressing the root causes of these occurrences.

#### **CONCLUSION**

The Committee will continue to monitor progress being made by the municipality in improving overall governance, systems of internal control, risk management as well as performance management. In addition, the Audit Committee concurs with and accepts the conclusions of both the Internal Audit and the Auditor-General on the matters they have raised during the audits.

The Committee wishes to express its sincere appreciation to the Accounting Officer, the acting Accounting Officer, Senior Management, MPAC, Portfolio Committees, Executive Committee, Council and staff for their co-operation and support.

### 15 AUDITOR GENERAL MATTERS

#### Sept 2020

#### 6. <u>UPDATE BY THE OFFICE OF THE AUDITOR GENERAL</u>

(Items 9, 10 and 11 on the agenda dated 25 August 2020)

The Manager: AGSA reported that the Office of the Auditor General would be convening a meeting with Management and the Audit Committee to address the audit approach, compliance and the relevant timeframes. He indicated that the Audit Strategy and that Engagement Letter required adjustment as a result of the Covid-19 National lockdown which resulted in delays.

The Manager: AGSA thereafter reported that Audit commenced approximately three weeks ago. The team was in the process of verifying the **status on the PPE**, as well as the **revenue streams**. He indicated that **Prior Year Items** would be tested, along the following areas within human resources i.e the **appointment of staff, overtime and terminations**. He further advised that Loans and Financial Charges would also be tested.

The Audit Committee was advised that two additional staff would be added to the team to build capacity in fast tracking the Audit.

The explanation from the Manager: AGSA on the changes from their Head Office to accommodate the new deadline and Covid-19 related delays were accepted by the Audit Committee.

The National Treasury Representative (Mr L Holland) reported that National Treasury had conducted a workshop with non-delegated municipalities, including Msunduzi Municipality on the National State of Disaster. As a result of staff being on remote working arrangements during this period, the unavailability of key officials during the audit resulted in a limitation of scope. Management was urged to be consistently aware of the risks during the audit as a result of the Covid-19 situation and its impact on the audit process.

No report was received at the time of preparing the agenda.

(Item 21 on agenda dated 25 August 2020)

The Business Unit was reprimanded for the non-submission of reports on the Safe City Entity. It was stressed that the this must not recur; as both the Municipality and the Audit Committee, have legislated responsibilities with regards to the municipal entity. It was indicated that this was the second meeting at which the Audit Committee have not received reports from Safe City which amounted to **non-compliance with the Municipal Systems Act.** 

# 20. <u>FINAL INTERNAL AUDIT REPORT ON THE REVIEW OF ADEQUACY AND EFFECTIVENESS</u> <u>OF THE IT GOVERNANCE, STRATEGY AND FRAMEWORK (REF:3.10.1.1)</u>

Report dated 1 June 2020 incorporating recommendations of the Strategic Management Committee.

(Page 1 of agenda dated 15 September 2020)

With regard to Item 6.4.1 on the report, clarity was sought on whether the Business Architecture and Governance Framework would be outdated, as ICT Policies were being considered in piece- meal instead of a consolidated approach.

It was noted that the ICT Steering Committee and the ICT Technical Committee were established and would be addressing all issues. It was further noted that there was an issue of non-attendance of officials at the ICT Technical Committee.

It was thereafter

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the Findings, Internal Audit Opinions on the inadequacy of the design of the System of Internal Controls and partial effectiveness of Operation of the System of Internal Controls around the IT Governance, Strategy and Framework be considered:-

- (a) That the Senior Manager: ICT, discuss with the General Manager: Corporate Services and the Chief Financial Officer and ensure that Budget / Funding is set aside for the Drafting Governance, reviewing and implementation of the IT Framework and IT Strategy. Thereafter, an assigned resource from the IT Department should be paired with the appointed service provider responsible for drafting the IT Governance Framework and IT Strategy to ensure skills transfer and going forward that the assigned individual is able to draft or update the IT Governance Framework and IT Strategy.
- (b) That the Senior Manager: ICT must ensure that the ICT Charter is revised / drafted and submitted to Council for approval and implementation. The City Manager must ensure that the ICT Steering Committee must meet in accordance with the interval / frequency set out in the ICT Charter, and that all meetings must be minuted.
- (c) That the Senior Manager: ICT must ensure that for all IT related projects, a Cost Benefit Analysis (Quantitative and Qualitative) is performed and documented based on stipulated business case and proposed benefits set out for the Project, prior to approval and implementation. This will ensure that proposed and actual returns on investments are measured and realized.
- (d) That the Senior Manager: ICT in conjunction with the Work-Study Officers must ensure that the ICT Organogram is updated to meet the current and future staffing needs to adequately support the municipality. Funding must be secured to ensure that identified and noted positions which are vacant on the ICT Organogram can be filled once the Moratorium on the Filling of Vacant Posts has been lifted.
- (e) That the City Manager must ensure that the BCP and DRP can be released to the Municipality; and
- (f) That the City Manager must ensure that the BCP and DRP is presented to ICT Steering Committee, and thereafter to the Full Council for REVIEW and ADOPTION.
- (g) That the Senior Manager: ICT must ensure that on a regular basis (at least bi-annually). The ICT Risk Register is updated to ensure that its accounts for and tracks current ITCT risks that the Municipality could be exposed to.
- (h) That in addition, the Senior Manager: ICT must ensure that at least bi-annually, basis monitoring actions to mitigate ICT risk exposures are reported to the ICT Steering Committee, once established.

- (i) That the City Manager must ensure that that all ICT Policies and Procedures are presented to Council at the end of November 2020 for REVIEW and APPROVAL; and thereafter for the Policies and Procedures to be implemented by the Senior Manager: ICT.
- That the City Manager must ensure that the new ICT Policies and Procedures are communicated to all users to ensure compliance.

# 24. ANNUAL AUDIT PLAN STATUS UPDATE AND THE PROPOSED REVISION OF THE ANNUAL AUDIT PLAN (REF:3.10.1.1)

Report dated 24 August 2020 by the Manager: Internal Audit.

(Circulated separately via electronic mail)

Audit Committee members expressed their disappointment that they could not be effective without the Internal Audit Unit being effective, and neither could management. It was stressed that Internal Audit played a critical role in the combined Assurance Model, and that this Unit must be independent.

The City Manager was instructed to ensure that Internal Audit was catered for by it's reporting structure on governance matters through the Audit Committee and Council. The City Manager was also instructed to ensure that the Unit was effectively resourced, which as it was an administrative matter, which the City Manager took ultimate responsibility for.

Audit Committee members expressed their grave concern that in every meeting, they recommended that the Internal Audit Unit needed to be fully resourced and that these recommendations were not implemented.

The City Manager was reminded that failure to capacitate the Internal Audit Unit meant failure to implement the Municipal Finance Management Act and related legislation.

The Audit Committee requested that these concerns and frustrations be noted, as it was felt that these matters were being a repeat issue with no visible action or alternative plan to meet the legislated objectives of Internal Audit.

It was subsequently

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That amendment of the Annual Audit Plan for the 2020/2021 Financial Year, be APPROVED.
- (b) That City Manager approve an additional budget for the Internal Audit Unit during the Mid-Term Budget Review.

# 27 Oct 2020 STATUS UPDATE ON PREPARATION OF THE ANNUAL FINANCIAL STATEMENTS FOR THE 2020 FINANCIAL YEAR (REF: 3.7.1(2020/2021))

Report dated 2 October 2020 incorporating recommendations of the Strategic Management Committee.

(Page 24 on agenda)

The Senior Manager: Finance and Governance and Performance reported that the concerns raised by National Treasury and the Internal Audit have been addressed.

Audit Committee member (Ms B Kemp) undertook to submit comments on the Annual Financial Statements to the Senior Manager: Finance and Governance and Performance.

The committee was subsequently advised that special adjustments were done to factor in the Covid-19 expenditure, and that large variances were looked at on the Annual Financial Statements.

The Chief Financial Officer notified the committee that the cash flow had been low which impacted negatively on council funded projects. She reported that in terms of impairment, a reconciliation was prepared for non-cash items.

After extensive discussion, the Audit Committee noted the effort exerted by management in ensuring timely preparation of the Annual Financial Statements with minimal errors on the face.

The committee supports for the Annual Financial Statement to be submitted to the Auditor General on 30 October 2020 but expressed concerns with the credibility of the debtors' book. It was therefore

#### **RESOLVED**

- (a) That the status update and power point presentation on the preparation of the Annual Financial Statements for the 2019/2020 Financial Year as at 30 June 2020, as contained in the report dated 2 October 2020 incorporating recommendations of the Strategic Management Committee, be NOTED.

(Page137 on agenda)

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the findings and management comments as contained in the report dated 1 June 2020 incorporating recommendations of the Strategic Management Committee considering the **Final Internal Audit Report on the Audit of the 2018/2019 Annual Report**, be considered.

# 7. SAFE CITY ANNUAL FINANCIAL STATEMENTS FOR THE 2019/2020 FINANCIAL YEAR BY THE HEAD: SAFE CITY FINANCE

(Page 41 on agenda)

The Audit Committee was advised that expenditure included depreciation and rentals. In addition to this, it was indicated that the Safe City Budget was prepared on a cash basis.

After discussion the committee noted the effort exerted by management in ensuring timely preparation of the Safe City Annual Financial Statements for the 2019/2020 financial year with minimal errors. The committee supports for the Safe City Annual Financial Statements to be submitted to the Auditor General on 30 October 2020.

It was therefore

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That the Safe City Annual Financial Statements as at 30 June 2020 for the 2019/2020 Financial Year, as contained be NOTED.
- (b) That the Audit Committee renders its support for the Safe City Annual Financial Statements for the 2019/2020 Financial Year to be submitted Auditor General on 30 October 2020.
- (c) The Audit Committee requested that supplementary information must be included in the Safe City Annual Financial Statements.

# 8. MSUNDUZI MUNICIPALITY - AUDIT OF PERFORMANCE INFORMATION: QUARTER 4 AND FINAL INTERNAL AUDIT REPORT ON QUARTER 4 OF THE ANNUAL REPORT FOR THE 2019/2020 FINANCIAL YEAR (REF:3.10.1.1)

(Item 16 on agenda)

The committee noted that Internal Audit Unit had conducted an audit on the Quarter 4 Audit of Performance Information and Annual Performance Report and that the Performance Management Unit was updating the Appraisals with findings raised by internal audit.

The committee further noted that the Performance Management Unit would sit with internal audit to make adjustments on the Annual Performance Report and supported that the Annual Performance Report be submitted to Auditor General.

It was therefore

#### **AGREED**

- (d) That the update on the Audit of Performance Information for Quarter 4 and the Final Internal Audit Report on Quarter 4 of the Annual Report for the 2019/2020 Financial Year, be NOTED.
- (e) That the Audit Committee renders its support for the Audit of Performance Information for Quarter 4 and the Final Internal Audit Report on Quarter 4 of the Annual Report for the 2019/2020 Financial Year, to be submitted Auditor General, subject to adjustments to be made subsequent to the briefing with the Performance Management Unit and Internal Audit.

#### 11. UPDATE BY THE OFFICE OF THE AUDITOR GENERAL

(Item 9 on the agenda)

The Manager: AGSA (Mr H Makhanyela) indicated that his office had no written report to share with the committee, and subsequently provided the committee with a verbal update.

The Manager: AGSA reported that there had been a change in the Auditor General Team in regard to the position of the Acting Deputy Business Executive.

The committee was advised that the Auditor General would close for the year end on 11 December 2020 and would reopen on 11 January 2020. Mr Makhanyela informed the committee that the Engagement Letter would be updated. He advised the Audit Committee members that the Auditor General Team was on site. He indicated that the Auditor General had a different approach for its Team in terms of execution and planning on site. He mentioned that the approach was to issue problematic items and to issue findings early as possible thereby ensuring that management would have sufficient time for responses.

On behalf of the Audit Committee, Ms B Kemp congratulated the Office of the Auditor General on the appointment of Ms Tsakani Maluleke as the first female Auditor General.

NOTED.

#### 12. CLOSURE OF PROCEEDINGS

(Raised verbally)

The Chairperson indicated that the main Audit Committee agenda, Confidential Committee Circular No. 44 of 2020, together with an update on the Performance Management Audit and Feedback on the status of vacant positions within the Internal Audit Unit would be considered at the next meeting.

The Committee was advised that due to Audit Committee member (Ms B Kemp) having a family commitment, the proceedings would not be quorate to continue.

It was therefore

#### **AGREED**

That the remaining agenda items be deferred for consideration to the next meeting of the Audit Committee which will reconvene within the next two weeks, the date of which will be communicated in due course.

#### 20 Nov 2020

#### **OUTSTANDING MATTERS REPORT**

Report dated 20 October 2020 by Corporate Services Business Unit.

(Page 21 on agenda)

#### 3.2 ICT Monthly Reporting

It was noted that the ICT Quarterly Report was not on the current agenda for the last two consecutive meetings, despite this being a standing agenda item. Committee members sought clarity from the Senior Manager: ICT on whether he was familiar with the information required by the Audit Committee and that a blanket report which the business unit submitted to other council structures would not be specific to the reporting issues that was required by the Audit Committee.

The Senior Manager: ICT indicated that issues of policies and strategies have been dealt with at the Full Council meeting in October 2020, and would be reported on at the next meeting of the Audit Committee.

Audit Committee member (Mr Mazwi Shongwe) undertook to submit a guideline of the strategic issues that all future monthly ICT reports must be based upon, which would cover the business units management of risks for the month, managing the ICT spending plans, reporting on incidents of sabotage, updates on approvals of ICT Strategies etc. He advised that the basis for the ICT Report must be a strategic view of the ICT Environment for that specific month.

#### 3.3 Reporting on Covid-19 Expenditure

There Chief Financial Officer reported that she would be presenting a report on the Covid-19 towards the end of the meeting.

It was

#### **AGREED**

That the Outstanding Matters Report dated **20 October 2020** by Corporate Services Business Unit, be NOTED subject to the removal of the following items:-

- Item 1: Debt Write-off Process by applying the EEDBS Policy
- Item 2: Problems with IDT
- Item 4: Handing over of SAP to ICT
- Item 5: Outstanding Debtors: Title Deeds Programme
- Item 6: Deviation on non-reading of meters during Level 1 of Covid-19

#### **AUDITOR GENERAL MATTERS**

#### 4. UPDATE BY THE OFFICE OF THE AUDITOR GENERAL

(Item 9 on the agenda)

On behalf of the Audit Committee, Audit Committee member (Ms B Kemp) extended condolences to the staff of the Auditor General and to the family and friends of the late outgoing Auditor-General (Mr Kimi Makwetu).

The Senior Manager: AGSA indicated that the staff were saddened by Mr Kawetu's death, and thanked the members of the Audit Committee for the message of condolence, which they will pass onto the staff and family of Mr Kimi Kawetu.

The Senior Manager: AGSA reported that the audit was progressing well, and that there was constant interaction with action. He informed the committee that the Office of the Auditor-General was due to close on 11 December 2020.

However, as a result of operational matters, the date of closure for the festive season had been revised to close on 18 December 2020.

Responding to a query raised by National Treasury Representative (Mr Leslie Holland), the Manager: AGSA confirmed that findings on some of the major sections such as revenue, assets and related disclosures have been prioritized in terms of execution in key areas. He indicated that the audit was still in its early stages, whereby four findings were shared with management in regard to the compliance or the reporting framework of the financial statements. The Senior Manager: AGSA indicated that these findings would be assessed based on the responses from Msunduzi management.

The Senior Manager: AGSA informed the committee that management was meeting the deadlines and that the he was hopeful that the report would be signed on time.

The National Treasury Representative (Mr Leslie Holland) indicated that in terms of medium term strategic goals, reduction on audit goals was a key. He reported that National Treasury was available to provide assistance to management.

It was

#### **AGREED**

That the verbal update by the Manager: AGSA on the 2019/2020 Report by the Auditor General, be NOTED.

#### 5. PROGRESS ON AUDITOR GENERAL TRACKING TOOL ACTION PLAN

(Item 12 on agenda)

- 5.1 Audit Committee member (Ms B Kemp) indicated that some findings listed on Annexure A were repeat findings in that the root causes were systematic. She acknowledged that whilst the Audit Action Plan was coordinated by the Finance Business Unit, the office of the Municipal Manager or the Infrastructure Business Unit or Full Council needed to take ownership of the Audit Action Plan as majority of the issues raised by the Auditor General were service delivery matters. Ms Kemp advised that the Action Plan needed to be made more realistic in that the actual root causes must be addressed within a twelvemonth period, whereas currently, strategic issues got resolved in approximately five years. She thereafter commended management on resolving some of the issues on the Audit Action Plan.
- 5.2 The Chief Financial Officer reported that a policy on Water Losses for the Entire City for the 2019/2020 and 2020/2021 financial years was in the process of being developed. She informed committee

members that such technical matters and financial losses could be developed for inclusion on the **proposed three-year strategic Audit Action Plan**. She indicated that management needed to determine whether such business unit plans could be used to address some of the root causes in the Action Plan.

5.3 Mr Holland (National Treasury Representative) advised that there needed to be a fundamental level of internal control to address issues of risk to deal with Msunduzi's municipal objectives. He reminded the committee that the ultimate responsibility of the Audit Action Plan rested with the Accounting Officer. Mr Holland reported that the National Treasury raised the following concerns regarding the Audit Action Plan:

The adequacy of management actions which did not address root causes raised by the Auditor General.

Responsibility in dealing with the root causes rested with the user departments;

Actions to address the findings and the root causes;

Confirmation on whether there was a proper understanding of the findings during management's engagement with the Auditor General;

Monitoring of the Plan was another finding;

The role of Internal Audit to assist management to improve internal controls;

The role of the Audit Committee and the Municipal Public Accounts Committee to ensure that remedial action was taken by management.

- 5.4 Mr Holland (National Treasury Representative) appealed to management to ensure that there was robust risk assessment. He indicated that some assessments could go over one financial period. He also requested that management must give consideration to the recommendations of the Internal Audit Unit and the Audit Committee.
- 5.5 The Committee was advised that the Audit Action Plan was a standing item of the Strategic Management Committee, where it was deliberated on by the City Manager and the General Managers.

It was

#### **AGREED**

- (a) That the presentation on the **Auditor General Tracking Tool Action Plan**, be NOTED.
- (b) That the final responsibility of the Audit Action plan rests with the Accounting Officer.
- (c) That the Chief Financial Officer develop a separate Audit Action Plan to address strategic issues that will take more than one financial year to resolve.
- (d) That the General Managers of each business unit be responsible for developing plans to address the root causes of the respective findings.

### 6. <u>INTERNAL AUDIT REPORT ON MOTOR VEHICLE DRIVER'S LICENSING CENTRE:</u> <u>COMMUNITY SERVICES: PUBLIC SAFETY (REF: 3.10.1.1)</u>

Report dated 11 July 2020 incorporating recommendations of the Strategic Management Committee.

(Page 67 on agenda)

Noting that the Driver's License Centre was running at a loss to council, Audit Committee members sought clarity as to the reasons why the 2015 findings remained unresolved, over and above the new audit findings. In addition to this, the committee queried reasons why the high risk exposures were not resolved. Members of the Audit Committee offered assistance to the management to ensure that there would be no repeat findings.

The Municipal Manager was requested to undertake a detailed analysis of the root causes, and ensure that consequence management was applied for the non-performance in this regard.

The Senior Manager: Public Safety, Emergency and Disaster Management provided the committee with some background into the establishment of this facility. He explained that this was an initiative that was introduced to council as a means to generate revenue during the period with the municipality was under its first administration in 2012. He indicated that a business plan was submitted to the Administration team and to the Department of Transport. In response to the proposal by Msunduzi, the Department of Transport was in support of the initiative and had indicated to Msunduzi Municipality that the Post Offices were unable to cope with the transactions. The committee was informed that the Department of Transport was prepared to allocate more functions on a similar basis to Council on condition that the initiative was operating smoothly and efficiently, and that the Department of Transport would pay Msunduzi Municipality a commission for providing this service.

The Senior Manager: Public Safety, Emergency and Disaster Management further indicated that the Department of Transport conducted its own audit on a monthly basis. Committee members were informed that training of staff was undertaken by the Department of Transport, and that administration records were kept on the ENatis system. The Senior Manager: Public Safety, Emergency and Disaster Management requested that an intervention was required for the audit teams of Msunduzi Municipality and Internal Audit to meet to look at these findings.

Committee members were advised that this report was also currently before the Community Services Portfolio Committee.

Noting the background to the establishment of the Driver's License Test Centre, committee members expressed concern that management did not resolve any of the findings over the past 5 years, and that management was now raising their concerns at this meeting instead of when these findings were raised in 2015. Audit Committee members reminded management that this report was a follow-up report. Management was instructed to correct these findings as a matter or priority.

It was thereafter

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That the findings, internal audit opinions on around the inadequacy of the design and ineffective **operation** of the system of internal controls at Motor vehicle drivers licensing centre be considered.
- (b) That the office space should be reviewed to consider extending the storage facility so that all supporting documents are filed and kept in safe repository area.
- (c) That whilst the office space is inadequate, Council should make a determination whether it would want to continue providing this service which is not a core business of the municipality at a loss or would consider to close it down after discussion with the Provincial Department of Transport as the service does not make business sense to the municipality.
- (d) That access should be restricted to only DLTC staff and ensure that all documents are locked in a safe area.

- v) **Workstations:** must be suitable for the worker and work. A suitable seat must be provided where necessary.
- vi) Space: make sure workrooms have enough floor area, height and unoccupied space.
- vii) Traffic: organize workplaces to allow safe traffic circulation by pedestrians
- (n) That management should ensure that reconciliation are prepared and signed off as evidence of review. The reviewer of the reconciliation should only sign upon ensuring that supporting documentation are attached to support the balances reflected on the reconciliation.
- (o) That all reconciling items must be matched to supporting documentation to ensure validity and completeness of transactions recorded onto the system.
- (p) That the reviewer and prepare should ensure that the reconciliation is signed to accept accountability of approving accuracy and completeness of the bank reconciliation.
- (q) That consistently in procedure applied monthly shall be enforced and any deviation to this must be dealt with effectively.
- (r) That management should ensure that reconciliations are prepared and signed off as evidence of review. The reviewer of the reconciliation should only sign upon ensuring that supporting documentation are attached to support the balances reflected on the reconciliation.
- (s) That all reconciling items must be matched to supporting documentation to ensure validity and completeness of transactions recorded onto the system
- (t) That the reviewer and prepare should ensure that the reconciliation is signed to accept accountability of approving accuracy and completeness of the bank reconciliation.
- (u) That consistently in procedure applied monthly shall be enforced and any deviation to this must be dealt with effectively.

#### 7. RISK MANAGEMENT REPORT ON MUNICIPAL SIX STRATEGIC RISKS (REF:3.10.1.1)

Report dated 24 August 2020 by the Chief Audit Executive.

(Page 246 of agenda)

The committee was advised that the Senior Manager: Strategic Planning had passed away in September 2020. Therefore, the development of the performance indicators and the performance targets could not be achieved. It was noted that the appointment of the Chief Risk Officer was finalized, and that as soon as the incumbent was available, these risks along with other risks would be dealt with by the Chief Risk Officer.

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That the Municipal Manager and General Managers assisted by the Senior Managers must develop performance indicators and the performance targets that have clear timeframes, key performance indicators, risk/action owners against each and every intervention to address the six strategic risks and these should comply with smart principle (Specific, Measurable, Attainable, Relevant and Timebound).
- (b) That the development of the performance indicators and the performance targets must be facilitated by the Senior Manager: Strategic Planning (Acting) as the strategic risk management interventions must be part and parcel of the strategy of the municipality.
- (c) That the development of the performance indicators and the performance targets be done within a period of 30 days from the resolution of the Risk Management Committee.
- (d) That the developed performance indicators and the performance targets be incorporated to the performance agreements of the Municipal Manager, General Managers and Senior Managers.
- (e) That the Chief Risk Officer must conduct a review of the performance indicators and the performance targets and progress of implementation of the **risk intervention strategies on quarterly basis** with the first review due by **30 January 2021**.

# 8. REPORT ON WHISTLE BLOWING HOTLINE FOR 01 JULY 2020 TO 30 SEPTEMBER 2020 (REF:3.10.1.1)

Report dated 2 October 2020 by Chief Audit Executive (Ref:WBH/19-20).

(Page 270 on agenda)

In response to a query regarding what actions were taken once reported, the Chief Audit Executive indicated to the committee that feedback reports were needed to follow through on the Whistle Blowing Hotline reporting.

It was

## AGREED TO RECOMMEND TO THE FULL COUNCIL

That the report dated 2 October 2020 by Chief Audit Executive (Ref:WBH/19-20) considering the report on the **Whistle Blowing Hotline for 1 July 2020 to 30 September 2020**, be NOTED.

# 9. PROGRESS REPORT ON INTERNAL AUDIT FINDINGS FOR THE 2016/17, 2017/18 AND 2018/19 FINANCIAL YEARS and PRESENTATION ON THE INTERNAL AUDIT TRACKING TOOL (REF: 3.10.1.1)

Report dated 20 October 2020 by Senior Manager: Office of the City Manager (Ref.1).

(Pages 274 and 281on agenda and attachments on the Audit Committee agenda link)

Audit Committee member (Ms B Kemp) extended her appreciation for the management reports which the committee was now receiving regularly, and she subsequently sought clarity on reasons why issues remained unresolved.

The Manager: Organizational Performance and Knowledge Management (Acting) reported that some of the findings being queried were repeat findings, with some findings being unachievable, and with other findings business units were not submitting information. In this regard, the committee was informed that the normal performance management protocols were adhered to, along with the respective portfolio of evidence being filed. In addition to this, committee members were advised that this report was a standing item at the weekly meetings of the Strategic Management Committee, whereby senior management was required to give update the City Manager.

The National Treasury Representative (Mr Leslie Holland) urged that Internal Audit must indicate the classification of the risk ratings based on these findings, and that management must provide reasons why issues were unresolved.

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That the progress report dated 20 October 2020 by the Senior Manager: Office of the City Manager (Ref.1) for the **2016/17**, **2017/18** and **2018/19 financial years**, and the presentation of the Internal Audit Tracking Tool, be NOTED.
- (b) That the City Manager must provide the Audit Committee with strategies to ensure that all outstanding findings were resolved.

#### 10. PRESENTATION AND DASHBOARD OF THE FINANCIAL RECOVERY PLAN

(Page 290 of agenda and Audit Committee agenda link)

In response to a query, the General Manager reported that a decision was taken for performance management to cascade to all levels, and that this process would be coordinated by the Corporate Services business unit. She indicated that the business unit was in the process of developing the policy of cascading performance management from level 3 to all other levels within the municipality. Committee members were advised that the business unit was working the South Africa Local Government Association (SALGA) adaptations of the of the policy, and that once the Policy was developed, it would be submitted to the Local Labour Forum.

It was

#### **AGREED**

That the presentation and dashboard on the Financial Recovery Plan, be NOTED.

### 11. PRESENTATION ON THE STATUS OF RECRUITMENT OF INTERNAL AUDIT POSTS FOR THE 2019/2020 AND 2020/2021 FINANCIAL YEARS

Presentation dated 18 November 2020 by the General Manager: Corporate Services.

(Circulated separately via email)

The committee thanked the General Manager: Corporate Services for the detailed presentation on the filling of vacancies with the Internal Audit Unit.

It was

#### **AGREED**

That the detailed presentation on the Status of Recruitment of Internal Audit Posts for the 2019/2020 and 2020/2021 financial years be NOTED.

### 12. PRESENTATION ON REVENUE COLLECTION FOR THE MONTHS OF AUGUST 2020 AND SEPTEMBER 2020

(Pages 304 and 323 of agenda and on Audit Committee agenda link)

The improvement in the collection rate in September 2020 was noted.

Committee members indicated that the outstanding debtors amount of approximately R4,5 billion was not being reduced. In consideration of this amount, clarity was sought on the habits of the paying consumers, as well as who were the 93% of consumers that were paying.

The Senior Manager: Revenue (Acting) reported that approximately 84 000 consumers made regular payments on their municipal bills, with approximately 64 000 consumers being in arrears. The Senior Manager: Revenue (Acting) informed committee members that he was compiling a detailed report in this regard.

Audit Committee member (Ms B Kemp) requested that the report be further ring-fenced into good payers, and bad payers.

Noting that the business unit had a collection rate of 97%, the Senior Manager: Revenue (Acting) was requested to maintain the current collection rate, and also ensure that there was focus on collecting the arrear amounts owing by all consumers.

#### 20. IRREGULAR EXPENDITURE FOR 2019/2020 FINANCIAL YEAR (REF:3.7.1(2019/2020))

Report dated 9 July 2020 by the Manager: Demand and Acquisition.

(Page 573 of agenda)

The Head: Supply Chain Manager informed the committee that all cases of irregular expenditure have submitted for investigation. She reported that due to the numerous plans and procedures that have been implemented within the business unit, there had been a reduction in the cases of irregular expenditure from the 2018/2019 to the 2019/2020 financial years.

Audit Committee member (Ms B Kemp) cautioned management that the irregular expenditure of R 30 million would be challenged by the Auditor General, as this amount was unaudited.

It was

#### **AGREED**

- (a) That the irregular expenditure for the 19/20 financial year amounting to **R 30 469 016,77** be subject to an investigation and review by Internal Audit to determine if Council can authorize the write off or institute disciplinary measures against the responsible official and or start the recovery process, if possible.
- (b) That in terms of Section 32 (4) of the Municipal Finance Management Act, the MEC for Local Government in the Province and the Auditor General be advised in writing of the irregular expenditure incurred.
- (c) That the Chief Financial Officer, in consultation with National Treasury Representative (Mr Leslie Holland) provide the Audit Committee and Council with feedback on the Strategy to Reduce Irregular / Fruitless and Wasteful Expenditure.

Report dated 31 August 2020 by Senior Manager: Supply Chain Management (Ref:Ur/Emer/Aug2020).

(Page 603 on agenda)

Audit committee members raised concerns over the costs that were being incurred to strip-and-quote for municipal vehicles that required repairs, which were outside of the general maintenance of municipal vehicles. The committee urged management to ensure that old municipal vehicles be scrapped as part of Council's disposal policy. It was noted that there was a long list of municipal vehicles that were sent in for strip-and-quote, and that this was cause for a possible question of fruitless and wasteful expenditure.

It was

### **AGREED**

- (a) That the City Manager conducts a detailed investigation into the reasons why more than one municipal vehicle/machinery was sent in for strip-and-quote, and that this reporting must be monitored and reported to the Audit Committee on a regular basis.

### 02 Feb 2020

### 3. VERBAL UPDATE BY THE AUDITOR GENERAL

(Item 10 on agenda)

An apology was tendered on behalf of the Business Executive.

The Senior Manager: AGSA emphasized that the impact of the Covid-19 pandemic had been severe on the services of the AGSA. He indicated that it was anticipated that the Audit would be signed on 28 February

2021, and that should this timeframe not be met the alternate date would be 31 arch 2021. It was anticipated that the audit on the Safe City Entity would be signed timeously.

The Chairperson sought clarity on the AGSA Letter of Engagement and Strategic Engagement.

It was reported that the AGSA would be making some minor amendments, and as soon as these amendments have been made, the final documents would be sent to members of the Audit Committee.

Audit Committee members were notified that responses were received from management, which would be followed up with a meeting with management to review these responses. The consultation with National Treasury was outstanding.

It was established that there was a material difference in the reporting on the financial statements and the age analysis, together with some conflicting information from municipal staff and management with regard to the Plantation / Forestry.

National Treasury Representative (Mr Leslie Holland) sought clarity whether the Audit Committee meeting on 23 February 2021 would be premature in light of the audit only being signed off by 28 February 2021.

In view of the anticipated finalization of the audit, it was requested that a special meeting of the Audit Committee be convened for the purpose of reviewing the management responses, or if the Office of the AGSA could include Audit Committee members during their meeting with management to review the audit responses from management.

The Manager: AGSA indicated that two meetings would be held; one meeting would review the draft report, with the second meeting to consider the final report. The dates for these meetings would be communicated by the Office of the AGSA.

The Senior Manager: AGSA was subsequently requested to forward the technical findings on the PPE to National Treasury Representative (Mr Leslie Holland).

It was

### **AGREED**

That the Chief Audit Executive, in conjunction with the Chief Financial Officer and the City Manager make the relevant budgetary provisions to accommodate the two special meetings which Audit Committee members will be attending with the Office of the AGSA for the month of March 2021 for the purpose reviewing the draft management responses and the final report to the Auditor General.

### 4. <u>FINAL INTERNAL AUDIT REPORT ON THE AUDIT OF PERFORMANCE INFORMATION FOR QUARTER 4 AND ANNUAL PERFORMANCE REPORT FOR 2019/20 (REF:3.10.11)</u>

Report dated 26 November 2020 by the Chief Audit Executive (Ref:AoPI-2-2020/21).

(Page 31 of agenda)

The Chief Audit Executive reported that responses to the Quarter 4 Performance Information and Annual Performance Report for the 2019/2020 financial year were only received from the Performance Management Section and Corporate Services.

Audit Committee members expressed disappointment with management in its failure to address this report which had so many high risk issues. Committee members stressed that the City Manager must implement consequence management for the failure to address issues outlined in this report. Clarity was sought on whether the AGSA had picked up information contained in this report.

The management team was questioned whether they took the findings in this report seriously, as these issues regarding performance and service delivery talks to the very issues regarding the state of Msunduzi Municipality.

Clarity was sought by the National Treasury Representative (Ms N Myeza) whether the City Manager gives consideration to internal audit reports, and what he has done about these issues, and what would he do to address these failures.

The Chairperson pointed out that these reports were not considered by the City Manager and the General Managers and based on the poor responses, the Annual Report did not contain reliable information on the actual findings, or how management would address these findings in the Annual Report.

The City Manager indicated that he reserved his comments on this matter at that moment. He indicated that there was another opinion, and he had confirmed that the AGSA did not pick up on these issues. The City Manager reported that the two issues that were escalated, still required engagement with the AGSA. The City Manager undertook to review the proposed amendments of indicators with the Chief Audit Executive.

The City Manager proceeded to brief the Audit Committee on the relational issues with Internal Audit.

The Committee raised concerns that the lack of management responses raised possible questions on whether reports were being considered and interrogated. The findings raised in the report indicate a clear risk that the information included in the Annual Report is likely to be unreliable.

In addition, it was stressed that there needed to be a behavioural change in terms of performance management at Msunduzi Municipality.

It was therefore,

### **AGREED**

- (a) That the report dated 26 November 2020 by the Chief Audit Executive (Ref:AoPI-2-2020/21) considering the Final Internal Audit Report on the Audit Performance Information for Quarter 4 and the Annual Performance report for the 2019/2020 Financial year, be STOOD DOWN to the next meeting of the Audit Committee to allow for the City Manager to ensure that management have populated the relevant information as a matter of urgency, and that the City Manager must provide a detailed report to the Audit Committee on reasons why management failed to respond, as well as the actions taken for the relevant non-performance.
- (b) That the breakdown of communication between the City Manager and Chief Audit Executive be discussed under the confidential proceedings.
- 5. PROGRESS REPORT ON INTERNAL AUDIT FINDINGS FOR THE 2016/17, 2017/18 AND 2018/19 FINANCIAL YEARS and PRESENTATION ON THE INTERNAL AUDIT TRACKING TOOL (REF: 3.10.1.1)

Report dated 24 November 2020 by the Senior Manager: Office of the City Manager.

(Page 132 of agenda)

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the progress report dated 24 November 2020 by the Senior Manager: Office of the City Manager on the Internal Audit Findings for the 2016/2017, 2017/2018 and 2018/2019 financial years, be NOTED.

# 8. <u>SECTION 66 OF THE MUNICIPAL FINANCE MANAGEMENT ACT NO.56 OF 2003:</u> <u>EXPENDITURE ON STAFF BENEFITS REPORT: OCTOBER 2020 (REF:3.7.P)</u>

Report dated 10 November 2020 by Senior Manager: Budget, Planning, Implementation and Monitoring Plan (Ref:3.7.P. Rep No.4).

(Page 140 of agenda)

In response to a query regarding ongoing exorbitant overtime, Senior Manager: Budget, Planning, Implementation and Monitoring Plan reported that in certain instances, there was no control on the overtime. He reported that in certain business units, patterns have been picked up with certain employees regarding overtime, which many staff see overtime as their second salary.

The City Manager reported that the filling of vacant posts in relation to the available budget was the greatest challenge. He advised that a proposed introduction of a shift system which would greatly reduce overtime may not be implementable during the current financial year. However, the shift system would greatly reduce overtime.

The General Manager: Corporate Services indicated that there must be a correlation between the filling of vacancies to that of the available cash flow. She cautioned management to ensure that positions were cash backed. She advised the committee that priority was given to vacant posts within the Revenue sub-unit, Community Services business unit, Water and Electricity sub-units. The **General Manager: Corporate Services undertook to provide the Audit Committee with a progress report on the filling of these priority posts at the next meeting.** 

Audit Committee members indicated that efforts by the City Manager and the General Managers have not been fruitful. The City Manager must report to the next meeting of the Audit Committee on how overtime was approved throughout the municipality, and indicate how much of overtime was undertaken during the normal overtime, as well as those approved under emergency overtime.

National Treasury Representative (Mr L Holland) queried the information on the **Ministerial Representative's report on the extent of the use of consultants** in comparison to vacancies in terms of Council's cost containment strategy, which required further engagement by the Audit Committee.

The City Manager reported that the information on the use of consultants was available and that it would be presented for the next meeting of the Audit Committee.

The General Manager: Infrastructure Services reported that most of the overtime generated was as a result of unplanned overtime under the technical services due to the problems with the Retief Street Sub-Station.

It was

### **AGREED**

- (a) That the report dated 10 November 2020 by Senior Manager: Budget, Planning, Implementation and Monitoring Plan (Ref:3.7.P. Rep No.4) considering the **Section 66 of the Municipal Finance Management Act No.56 of 2003 for Staff Benefits for October 2020**, be NOTED.
- (b) That the Audit Committee concerns on the **ongoing exorbitant overtime expenditure** be NOTED.
- (c) That the City Manager submit the presentation on the use of consultants in relation to vacancies for the next meeting of the Audit Committee on 23 February 2021.

(Pages 225 to 238 of agenda)

Clarity was sought on whether the Auditor General had raised any additional queries on Fruitless and Wasteful Expenditure.

The Chief Financial Officer was asked to explain to the committee where was the report on Assets Management regarding the replacement of old fleet.

The Chief Financial Officer confirmed that the fleet was old. She reported that four waste management trucks had been recently procured. She informed the committee that an exercise was undertaken to determine it was cheaper to procure or to hire vehicles. She confirmed that the financial constrains prevented council to procure a new fleet. In regard to the old fleet, she reported that there was a process to dispose.

It was

### **AGREED**

That consideration of the reports dated 1 September 2020 by Senior Manager: Expenditure (Ref:3.7.1(2020/2021) and Report dated 1 October 2020 by Senior Manager: Expenditure (Ref:3.7.1(2020/2021)) on the Quarterly Report on Fruitless and Wasteful Expenditure for the months of July 2020 to September 2020 be WITHDRAWN from the current agenda as this item was considered at the Audit Committee meeting held on 15 September 2020.

(Page 245 of Confidential Committee Circular No.111 of 2020)

(It was noted that the City Manager had to leave the proceedings at this juncture in order to attend another commitment with the Troika).

National Treasury Representative (Mr L Holland) requested that deadlines must be set to prevent issues from recurring in the future.

The Chairperson stressed that the responsibility of providing responses to the Auditor General did not solely rest with the Chief Financial Officer, as all senior managers are responsible to provide timeous responses to the Chief Financial Officer for consolidation of the overall response.

Following discussion, it was

### **AGREED**

- (a) That the report dated 9 November 2020 by the Senior Manager: Finance Governance and Performance Monitoring considering the **report on the audit action plan to address the 2018/19 AG audit findings,** be NOTED.

### 23 Feb 2021

### 29. **OUSTANDING MATTERS REPORT**

Report dated 05 February 2021 by General Manager: Corporate Services.

(Page 16 of agenda)

It was

### **AGREED**

That the Outstanding Matters Report dated 5 February 2021 by the General Manager: Corporate Services be noted subject to the removal of the following item:-

Item 2: Debtors Management as this item was on the current agenda.

## 30. <u>AUDIT COMMITTEE DECISION TRACKER: 2019/2020 AND 2020/2021 FINANCIAL YEARS: TO BE CIRCULATED TO MEMBERS ONLY: FEEDBACK FROM OFFICE OF THE CITY MANAGER</u>

(Item 9 on the agenda)

It was reported that this item was still being updated and would be presented to the Audit Committee meeting in April 2021.

The Audit Committee noted the time frame between the Audit Committee meetings held on 2 and 23 February 2021, respectively was short in order for the Audit Committee Decision Tracker to be updated. Therefore, it was requested that this item be included on the Outstanding Matters Report.

NOTED.

# 31. PROPOSED NEW REPORT TEMPLATE FOR THE AUDIT COMMITTEE: TO STREAMLINE REPORTING TO THE AUDIT COMMITTEE AND TO REDUCE SIZE OF REPORT

(Page 17 of agenda)

The proposed template for a streamlined Quarterly Audit Committee report was presented to the Committee, which would be presented to the Council as part of the Audit Committee's reporting.

The Audit Committee urged Management to avoid sending copies of their generic reports which they compiled for other Council Structures, as these reports were just generic reports that did not address the concerns of the Audit Committee. Management was requested to provide summarized information that would give the Committee a snapshot view of the progress and challenges on standing matters for the relevant quarter. Officials were requested to minimize attachments, and to include summarized tables which can monitor the progress of the respective matters within that three-month cycle, making it easier for the Audit Committee to track and monitor all pertinent standing activities.

It was reported that the input to the report would be co-ordinated by the Senior Manager: Office of the City Manager.

It was requested that the title for the ICT Reporting reflected under the new proposed template be amended as "ICT Governance".

In support of the report, it was

### **AGREED**

That the **New Report Template for the Audit Committee** be approved and be coordinated through the Office of the City Manager.

### 32. UPDATE BY THE AUDITOR GENERAL

- (i) Revised engagement letter dated 21 November 2020 by the AGSA Business Executive.
- (ii) Revised Audit Strategy for the Msunduzi Municipality dated 30 June 2020 by the AGSA.

(Circulated separately)

The Business Executive: AGSA reported that there was slow progress on the Audit as a result of the Covid-19 Pandemic. It was anticipated that the signing of the consolidated report would take place by the end of March 2021

It was reported that the Audit Team would forward summaries of significant findings to Management within the next few days.

The Audit Team was requested to submit these findings directly to the Audit Committee members. In response to a query regarding any relational issues, red flags and the impact of the audit outcomes, the Business Executive: AGSA reported that the Audit was progressing satisfactorily. She informed the Committee that there was a debrief session held with the Mayor during the previous week, and that there were weekly meetings taking place.

The Committee was also notified that the previous financial year's findings were being addressed with Management, and that a summary of these findings would be provided to the Audit Committee.

It was

### **AGREED**

That the (i) Revised engagement letter dated 21 November 2020 by the AGSA Business Executive and the (ii) Revised Audit Strategy for the Msunduzi Municipality dated 30 June 2020 by the AGSA be noted.

33. CONFIRMATION OF PRESENTATION SESSIONS WITH THE AUDIT COMMITTEE, MANAGEMENT TEAM AND THE AGSA FOR THE REVIEW OF AUDIT RESPONSES (AND BUDGET FOR THE SPECIAL AUDIT COMMITTEE MEETING TO ADDRESS AUDIT RESPONSES)

(Item 18 on agenda)

The Senior Manager: AGSA reported that the presentation sessions with Management and the Audit Committee was scheduled for the following dates:-

- (i) Friday, 12 March 2021
- (ii) Friday, 19 March 2021 and
- (iii) Wednesday, 31 March 2021.

NOTED.

34. PROGRESS ON THE ADMINISTRATORS REPORT ON EXTENT OF USE OF CONSULTANTS IN TERMS OF THE MUNICIPALITY'S COST CONTAINMENT REGULATIONS ON USE OF CONSULTANTS VERSUS FILLING OF RESPECTIVE VACANT POSTS: CONTRACT REGISTER MASTER FILE FOR CONSULTANTS (REF:10.4.1)

Report dated 10 February 2021 by the Senior Manager: Office of the City Manager.

(Page 19 of agenda)

The Audit Committee indicated that whilst skills transfer was important in Contract Management, the report did not address Committee's current concerns, as skills from the use of consultants could not be transferred to vacant positions.

Clarity was thereafter sought on the **budget for vacant positions in comparison to the amount expended on the use of consultants.** In addition to this, it was queried whether filling the vacancies would result in **no** further use of consultants.

The Audit Committee requested that a quarterly report tracking the use of consultants in relation to cost Containment and the filling of vacancies be presented at the next Audit Committee meeting in April 2021.

It was

### **AGREED**

That the City Manager submit the quarterly report tracking the Use of Consultants in Relation to Cost Containment and the Filling of Vacancies for the period of January 2021 to March 2021 to the next meeting of the Audit Committee.

It was further

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That the report dated 10 February 2021 by the Senior Manager: Office of the City Manager on the **Contract Register Master File for Consultants** be noted.
- (b) That the Contract Register Master File for Consultants Template be utilized as a monthly monitoring tool to monitor the contracts in various business units.
- 35. PROGRESS REPORT ON COST CONTAINMENT FOR OVERTIME FOR THE PERIOD 1 JULY 2020 TO CURRENT FOR ALL BUSINESS UNITS AND VERIFICATION REPORT OF ALL OVERTIME BY GENERAL MANAGERS TO CURB OVERTIME ABUSE PATTERNS

(Item 13 on agenda)

The Audit Committee emphasized that the Section 66 Report could not be considered under this item, as that report did not to cover the concern raised by the Committee on the **measures to curb overtime**.

Noting that this item was outstanding, it was

#### **AGREED**

That the City Manager submit a report to the next meeting of the Audit Committee on the Progress of all Cost Containment Measures implemented from 1 July 2020 to current to curb overtime, outlining the processes for the vetting, verification and approval of all overtime along with detailed submissions by each General Manager on overtime for Quarter 3 detailing what each General Manager was implementing within their respective business units to ensure that overtime is paid in accordance with the Policies and Procedures, and what each General Manager was doing to curb the abuse of overtime, as well as fraudulent overtime and detailing the measures to reduce overtime in the respective units.

36. PROGRESS REPORT ON PLANS TO IMPLEMENT SHIFT SYSTEMS FOR ALL HIGH OVERTIME GENERATING BUSINESS UNITS

(Item 14 on agenda)

Noting that no report was received, it was

That the progress report from the City Manager on Plans to Implement Shift Systems for all High Overtime Generating Business Units be placed on the Outstanding Matters Report, and be submitted to the next Audit Committee meeting on 20 April 2021.

37. PROGRESS REPORT ON APPOINTMENT OF VODACOM FOR THE ICT SERVER MAINTENACE

(Item 15 on agenda)

Noting that no report was received, the Audit Committee

### **AGREED**

That the **progress report** from the General Manager: Corporate Services on the **Appointment of Vodacom for the ICT Server Maintenance** be placed on the Outstanding Matters Report and be submitted to the next Audit Committee meeting on 20 April 2021.

38. PROGRESS ON CENTRALISING THE RECEIPT, MANAGEMENT, PROCESSING AND PAYMENT OF ESKOM INVOICES IN FINANCE TO ONE CREDITORS CLERK, WHILST UPDATING ESKOM OF ANY CHANGES TO THE EMAIL ADDRESS/ES AND CONTACT PERSONS FOR ESKOM ACCOUNTS AT THE MUNICIPALITY TO LIMIT CHALLENGES RELATING TO THE RECEIPT, PROCESSING AND APPROVAL THEREOF TO ENSURE TIMEOUS PAYMENTS TO ESKOM (REF: 3.7.1(20/21)

Report dated 16 February 2021 by the Senior Manager: Expenditure.

(Item 16 on agenda)

(Circulated separately)

The Senior Manager: Expenditure explained to the Committee that the processes involved in forwarding invoices from Eskom to the individual business units for verification deemed it difficult to centralize the Eskom Account for better control and management.

With regard to the actual procedure to process the payment for Eskom invoices, the Senior Manager: Expenditure reported that the Business Unit was in the process of **reducing the number of signatures to streamline the process.** 

The Chairperson requested that other invoices of a similar nature must be ring-fenced for this type of streamlined procedure i.e Telkom.

The Chief Audit Executive pointed out that invoices were sent to different business units and in view of this, he highlighted the need to have one designated official within the Finance Unit to control all Eskom invoices. He indicated that the **issue of "signatures"** was **not** the main root cause and expressed concern that the Finance Business Unit would not accept the recommendations of the Internal Audit Unit.

The Chairperson mentioned that if it was impossible for the Business Unit to centralize these payments, Management must implement controls to expedite all payments to Eskom. She requested that in the event of these new measures <u>not</u> yielding the results of expeditious payments, the Chief Financial Officer must consider the recommendations of Internal Audi.

The National Treasury Representative (Mr Leslie Holland) reiterated his concern over **Cash Flow Management** and the **timely payment of creditors.** It was requested that this matter be reported to the Audit Committee as part of the Quarterly Audit Committee Report. Management was encouraged to work with the Internal Audit Unit to improve controls.

The National Treasury Representative (Mr Leslie Holland) urged Management to make every effort to improve Cash Flow Management along with the pre Covid-19 concerns regarding Collections in order to improve the overall financial viability of the Municipality. He emphasized that the availability of cash to meet all liabilities must be carefully monitored on an ongoing basis.

It was therefore

### **AGREED**

- (a) That the report dated 16 February 2021 by the Senior Manager: Expenditure considering the centralizing of the processing of Eskom invoices, be noted.
- (b) That the Chief Financial Officer submit a report to the next meeting of the Audit Committee detailing alternate measures that would be implemented to (a) ensure that all processes were performed timeously thereby preventing fruitless and wasteful expenditure and (b) including the recovery of interest from late payments to Eskom.
- (c) That the City Manager in conjunction with the Chief Financial Officer ensure that the Impact of Cash Flow Management on the Payment of Creditors and the risks of incurring ongoing fruitless and wasteful expenditure is reported to the Audit Committee as part of the Audit Committee Quarterly Report.
- 39. PROGRESS REPORT ON THE RECOVERY OF MONIES FROM FRAUD AND MISAPPROPIATION, AND ROOT CAUSES

(Item 17 on agenda)

It was

#### **AGREED**

That the item considering the **Recoveries of Monies from Fraud and Misappropriation and Root Causes** be considered under the *Confidential Items* which would be discussed later in the proceedings.

### 40. REPORT ON FLEET MANAGEMENT AND PLAN TO DISPOSE OF OLD FLEET TOGETHER WITH ALL ASSOCIATED COST ESTIMATES TO DISPOSE OF OLD FLEET

Unsigned report dated 16 February 2021 by the Senior Manager: Assets and Liabilities.

(Circulated separately)

The Chairperson indicated that the report lacked information such as the following:-

- (a) financial impact of continuing with an old fleet, along with the
- (b) cost implications incurred as a result of repairs and maintenance of an old fleet, together with
- (c) who was accountable for not disposing the old fleet,
- (d) who was responsible for giving consideration to the financial impact of the old fleet,
- (e) what was the plan to manage an old fleet and
- (f) the issue of risks attached to the "strip-and-quote" method which was linked to ongoing fruitless and wasteful expenditure.

It was reiterated that with proper planning, Management could have avoided such deviations. It was stressed that the old municipal fleet must be disposed.

The Senior Manager: Assets and Liabilities informed the Committee of the current situation of staff shortages within Fleet Management. She notified the Committee that there was no Manager at the Municipal Workshop.

The City Manager further advised the Committee that officials were appointed to act in the post of Manager: Workshop. However, the officials were refusing to act in this post. In addition to this, other members of staff who acted in this post complained that they were unable to continue acting in the position as a result of the stress attached to this post. Thereafter, the Business Unit was faced with a detrimental situation of these some staff members testing positive with Covid-19. The City Manager assured the Audit Committee that the issue of the disposal of old fleet was being addressed as it would bring in much needed revenue. He reported that all business units were requested to provide input on this matter by the end of February 2021. He assured the Committee that a detailed report would be ready for the Audit Committee meeting in June 2021.

The Audit Committee was given the assurance that the Business Unit was utilizing various agents on the municipal database to conduct the relevant maintenance and repairs to the municipal fleet. It was also reported that the Minor Parts Contract would soon be in place allowing for various spares to be procured and to be kept at the municipal stores.

It was subsequently

### **AGREED**

- (a) That the unsigned report dated 16 February 2021 by the Senior Manager: Assets and Liabilities considering the progress on the **preparation of the fleet management report on vehicles identified for disposal** be NOTED.
- (b) That the Chief Financial Officer submit a progress report to the next meeting of the Audit Committee on the awarding of the Minor Parts Contract.

### 41. PROGRESS REPORT ON THE HANDOVER OF SAP TO ICT AND THE MSCOA ALIGNMENT

Report dated 16 February 2021 by the Senior Manager: Expenditure (Handover of SAP to ICT).

(Item 20 on agenda circulated separately)

The Audit Committee was informed that there was a Steering Committee in place to monitor the Project of the SAP Handover to ICT and the Alignment of MSCOA, together with a Technical Committee that would be working closely with the SAP Handover Technical Team, which was a different committee to that of the ICT Steering Committee.

The Business Unit undertook to provide the Committee with a high level Project Plan at the Audit Committee meeting in April 2021.

It was therefore

- (a) That the report dated 16 February 2021 by the Senior Manager: Expenditure on the Status of the SAP ERP System to the ICT Unit be noted.
- (b) That the Senior Manager: Expenditure in conjunction with the Senior Manager ICT submit the **Project Plan** to the next meeting of the Audit Committee on 20 April 2021.
- (c) That the City Manager submit a report to the next meeting of the Audit Committee addressing measures to improve the attendance of ICT Steering Committee members.
- 42. PROGRESS REPORT ON TRAFFIC FINES REVENUE FOR PERIOD 1 JULY 2020 TO JANUARY 2021: AND STATUS UPDATE ON CHALLENGES IN RAISING TRAFFIC FINE REVENUE: STATUS OF UNPAID OUTSTANDING TRAFFIC FINES OWED TO THE MSUNDUZI MUNICIPALITY BY PROXIES GOVERNMENT REGISTERED VEHICLES (REF: 3.2.2)

Report dated 5 February 2021 by the Senior Manager: Public Safety, Enforcement and Disaster Management.

(Page 23 on agenda)

The Chairperson indicated that the issue emanated from the previous month's Safe City Entity Quarterly report which informed the Committee on the proposed use of the Number Plate Recognition System to assist with the collection of outstanding traffic fines.

Clarity was then sought on the breakdown of the **R 500 000.00** which was requested by the Business Unit **for the purpose of conducting Weekly Roving Traffic Blocks** to collect the R10 million in outstanding traffic fines.

The Audit Committee queried the Opportunity Cost of the secondment of staff and queried what impact would the secondment of staff have on an already congested central business district (CBD).

The General Manager: Community Services undertook to provide the Audit Committee with a breakdown of the requested funding at its next meeting.

It was therefore

### **AGREED**

- (a) That the report dated 5 February 2021 by the Senior Manager: Public Safety, Enforcement and Disaster Management on the **Status of Challenges in collecting Outstanding Traffic Fines** be SUPPORTED by the Audit Committee, <a href="subject">subject</a> to the General Manager providing proper details on the breakdown of the R 500 000.00 which was requested by the business unit for the purpose of conducting Weekly Roving Traffic Blocks to collect the R10 million in outstanding traffic fines, prior to the report being submitted to the other Council Structures for consideration and approval.
- (b) That the City Manager submit a progress report to the next meeting of the Audit Committee on the Implementation of the Safe City's **Number Plate Recognition** for **Revenue Enhancement.**

### 43. STATUS UPDATE ON PROGRESS OF ALL REVENUE STREAMS WITHIN THE MUNICIPALITY

Report dated 7 February 2021 by the Manager: Debtors Management.

(Item 23 on agenda)

It was

- (a) That the report dated 7 February 2021 by the Manager: Debtors Management on the **Current Revenue Streams within the Msunduzi Municipality** be NOTED by the Audit Committee and that the Manager: Debtors Management ensures that the report is referred to other Council Structures for further consideration and input.
- (b) That the City Manager in conjunction with the Chief Financial Officer submit a copy of the Revenue Enhancement Strategy Report prepared by Phila Ndimande to the next meeting of the Audit Committee in April 2021.
- 44. REVIEW OF CURRENT BILLING REPORT IN BALANCE OF DEBT HANDOVER, BALANCE OF REVENUE GENERATING BY REGULAR PAYERS FOR THE MONTH

## 46. FINAL INTERNAL AUDIT REPORT ON THE AUDIT OF PERFORMANCE INFORMATION FOR QUARTER 4 AND ANNUAL PERFORMANCE REPORT FOR 2019/20 (REF:3.10.11)

Report dated 26 November 2020 by the Chief Audit Executive (Ref:AoPI-2-2020/21).

(Page 28 of agenda)

It was noted that this report was presented to the Audit Committee on 2 February 2021. However, as a result of a lack of management responses, the Audit Committee took a decision to stand the report down to the Audit Committee meeting on 23 February 2021 to allow for more responses.

The Audit Committee expressed concern that after the request for resubmission highlighted above, the status quo regarding management responses remained the same.

The Audit Committee raised concern that there was insufficient interrogation between Management and the Internal Audit Unit in agreeing on the finalization of these matters, and that this report would be escalated to Council in the absence of these responses.

The Audit Committee undertook to schedule a strategic session with Management and the Internal Audit Unit on how to respond appropriately to Findings Raised by both Internal and External Audit.

The National Treasury Representative (Mr L Holland) supported the initiative for the strategic session, and he pointed out that the lack of management responses; as well as the quality of responses compromised the Internal Audit Unit and the Audit Committee.

It was thereafter

- 1. That the City Manager, General Managers and Chief Financial Officer should establish the reasons for not meeting the targets and take necessary action;
- 2. That the City Manager should interrogate the reason and identify issues resulting to poor planning, skills, external factors; and
- 3. That the City Manager, General Managers and Chief Financial Officer should ensure that the reasons furnished are adequate and relate specifically to the indicators and targets measured.

- 32. That the process to be followed in reviewing the performance should be detailed in the procedures of Annual Performance.
- 33. Consequence management should be undertaken by the City Manager against the General Managers for failure to adhere to the Portfolio of Evidence development Standard Operating Procedures manual.

- 34. The content of the POE file must be reviewed by the General Managers to ensure accuracy and completeness of the information contained therein.
- 35. The General Managers should ensure that a proper record of POE file is adequately referenced for ease of reference.
- 36. POE files should be reviewed from time to time to ensure compliance with the PoE development Standard Operating Procedures manual.
- 37. The General Managers should ensure that have appropriate system to collect, collate, verify and store performance
- 38. A review of this information must be made to ensure that the information is valid, accurate and complete.
- 39. Management should ensure that an appropriate portfolio of evidence is kept that is sufficient, valid accurate and complete to support reported performance information.
- 40. It is the General Manager's responsibility to ensure that accurate and complete PoE files are submitted for auditing; therefore, the City Manager should ensure that consequence management is implemented for any noncompliance to policies, procedures and SOP's.

# 47. RELOCATION OF RISK MANAGEMENT FUNCTION FROM INTERNAL AUDIT UNIT (REF:3.10.1.1)

Report dated 15 December 2020 by Chief Audit Executive.

(Page 175 of agenda)

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the post of a Chief Risk Officer and the incumbent be relocated to report directly to the City Manager with effect from 1 February 2021 or alternatively once the handing over process for this function has been completed.

# 48. REPORT ON THE COST BENEFIT ANALYSIS OF INSOURCING VERSUS OUTSOURCING SECURITY SERVICES (REF:3.10.1.1)

Copy of report dated 16 October 2019 by the Chief Audit Executive submitted to the City Administrator (Submitted for information).

(Page 181 of agenda)

It was

### **AGREED**

That the report dated 16 October 2019 by the Chief Audit Executive on the **Cost Benefit of Insourcing versus Outsourcing Security Services** which was previously submitted to the City Administrator, be NOTED.

49. <u>FINAL INTERNAL AUDIT REPORT ON SECTION 52, 66 AND 71 OF THE MFMA FOR QUARTER</u> 4 OF THE 2019/2020 FINANCIAL YEAR (REF:3.10.1.1) Report dated 9 February 2021 by the Chief Audit Executive (Ref:A5-2020/21).

(Page 282 of agenda)

The Audit Committee queried the operational and the compliance implications of reporting inaccurate information to the Treasury.

The Chairperson expressed concern that such reports were for oversight, and the associated reporting meant that oversight was being carried out on **inaccurate information** to the Strategic Management Committee, Audit Committee, Municipal Public Accounts Committee and to the Full Council.

Management was cautioned that the inability to install a system of internal control that generated timeous and accurate information was a direct contravention of the Municipal Finance Management Act.

The Audit Committee sought confirmation on the root causes for the inaccuracies in the report.

The Manager: Assurance pointed out that one of the main issues was that **reconciliations were not prepared** and that **the figures on the Annual Financial Statements and Section 71 Reports were not reconciled.** 

The Business Unit was requested to prioritize the appointment of the service provider for the MSCOA Alignment.

It was indicated that Management needed to accept and to understand that the SAP modules were problematic. Management was instructed to ensure that there were systems in place to provide manual inputs *in lieu* of the problematic SAP Modules.

The Committee indicated that performance management must be implemented for this reporting.

The concern of the Committee was the next course of action when such performance reviews had failed.

Management was urged to send written emails to the Internal Audit Unit confirming their support for the respective findings, or reasons for not supporting the findings by providing substantial responses to the Internal Audit Unit.

It was requested that Management and Internal Audit must engage further on these issues prior to this report being considered at Council

It was thereafter

- 1. That the Senior Manager: Budget, Planning, Monitoring and Implementation and Chief Financial Officer should adequately review the Schedule C reports to ensure accuracy and completeness before the data strings are uploaded to the National Treasury portal;
- 2. That the Chief Financial Officer should speed up the process of appointing a service provider who will configure the outstanding SAP modules and provide support that will assist the Municipality to fully comply with mSCOA; and
- 3. That the Senior Manager: Budget, Planning, Monitoring and Implementation and Chief Financial Officer should ensure that data strings are correct when extracting from the system and uploading to the National Treasury portal.
- 4. That the Senior Manager: Budget, Planning, Monitoring and Implementation and the Chief Financial

Officer should adequately review the monthly Section 71 reports to ensure accuracy; and

- 5. That going forward, once the audited Annual Financial Statements are available these adjusted figures should be used.
- 6. That the amounts recorded in **Schedule C** should be reviewed by a senior official to ensure that amounts agree to the approved adjustment budget (Schedule B) prior to being uploaded to the National Treasury portal.
- 7. That the Senior Manager: Budget, Planning, Monitoring and Implementation should ensure compliance with rules and regulations by monitoring timeous completion and submission of information required by authorities; and
- 8. That the Senior Manager: Budget, Planning, Monitoring and Implementation should follow up with the Supply Chain Management Unit for the acquisition of modules to fast track the process of preparing data strings automatically rather than manually to prevent errors.
- 9. That the Senior Manager: Budget, Planning, Monitoring and Implementation and the Chief Financial Officer should adequately review workings prepared and mapped from the Statement of Financial Performance reports that are used to populate the Section 71 reports, to ensure that correct figures are included in the Section 71 reports.
- 10. That the Senior Manager: Budget, Planning, Monitoring and Implementation and the Chief Financial Officer should adequately review Schedule C reports to ensure accuracy and consistency across all schedules.
- 11. That Management should ensure that supporting schedules/ documents to journals are adequately signed off and approved by the relevant officials prior to processing journals, as a way of strengthening internal controls and reducing the risk of fraud and error.
- 12. That the Senior Managers/Heads of Departments in respective business units should adequately review prepared vouchers to ensure accuracy and consistency between supporting documents and schedules prior to routing vouchers to Finance for processing.
- 13. That the Chief Financial Officer and Senior Manager: Budget, Planning, Monitoring and Implementation need to follow up with the Webmaster to ensure that Section 71 reports are uploaded to the website in a timely manner and to ensure accuracy and consistency between budget statements and upload dates; and
- 14. That the Webmaster should monitor information uploaded to the Municipal website as well as the dates in which information is uploaded to ensure accuracy and consistency thereof.

### 50. FINAL INTERNAL AUDIT REPORT ON SAFE CITY (REF:3.10.1.1)

Report dated 12 February 2021 by the Chief Audit Executive (Ref: FUA1-2019/2020).

(Page 338 of agenda)

The Audit Committee sought clarity on what extent were the recommendations made in this report adjusted to take into account Management responses, and to what extent were the recommendations adjusted or amended.

It was

- That the Senior Management and the Safe City Board should pursue entering a memorandum of understanding with the South African Police Service to ensure the roles and responsibilities of the SAPS is clearly outlined as well as the expected support in terms of responding to reported incidents.
- That the Senior management should also explore areas of alignments and collaboration with other security forums and entities within the same areas that Safe City operate in. This shall increase the security consciousness of the community and potentially broaden the resources available to respond to incidents.
- That on-going meetings should be held to monitor and evaluate the operations of Safe City with SAPS
- 4. That Senior management and the Safe City Board should ensure that the crime statistics, specifically the statistics regarding the out of camera areas with the highest crime rates, are identified and form the basis of the expansion plan in the Safe City Strategic Business Plan.
- 5. That Senior management and the Board should ensure that the expansion of camera surveillance is included in the Annual Performance Plan as well as the annual budget to ensure this is prioritized.
- 6. That Senior management and the Board should engage SAPS and other key stakeholders to ensure the is a coordinated effort to preventing and responding to crime, especially in areas that are out of the camera surveillance.

### 20 Apr 2021

### 82. <u>UPDATE BY THE OFFICE OF THE AUDITOR GENERAL</u>

(Item 9 on the agenda)

82.1 <u>Finalization of the Report by the Auditor General</u>

The Business Executive: AGSA reported that the Auditor General's Report for the 2019/2020 Financial Year had been concluded and signed. It was noted that Messrs H Makhanyela and L Njokwe have attended most meetings of the Audit Committee.

### 82.2 Acknowledgment of co-operation by the Management Team and Support of the Audit Committee

On behalf of the Office of the Auditor General, the Business Executive: AGSA and the AGSA Team extended their gratitude to the Management Team, together with members of the Audit Committee for their cooperation and submissions to the Auditor General's Report.

### 82.3 <u>Concern over lack of reconciliation of the Performance Audit to Poor Service Delivery</u>

The Committee pointed out that there was a mismatch with regards to the report on Performance Management in comparison to the actual Service Delivery on the ground. In this regard, the Office of the Auditor General was requested to provide some insight into how Performance Management would be reconciled to the actual delivery of municipal services on the ground.

There was consensus that the **Performance Audit did not speak to the poor service delivery on the ground**.

### 82.4 Acknowledgment by National Treasury

The Management Team was acknowledged and congratulated for the significant improvement in their reporting, and for clearing most of the findings from the previous year.

The City Manager and his Management Team were urged to improve service delivery on the ground which was the key mandate of local government.

It was reiterated that the Good Performance Reporting must equate to and be linked with exceptional service delivery on the ground.

82.5 Acknowledgement by the Chief Audit Executive

The Chief Audit Executive advised the AGSA Team that the Internal Audit Sub-Unit conducted Audits on Performance Management. However, as a result of staffing constrains within the Business Unit, the auditing of service delivery on the ground was not performed. He was in support of focusing on the Council's core function of service delivery.

### 7.6 Acknowledgment by the Audit Committee

The Audit Committee acknowledged the support providing by the team of officials from the Office of the Auditor General. It was indicated that despite not achieving the desired outcomes on the Auditor General's Opinion, the Management Team were acknowledged and thanked for all their submissions. The Committee commended the tremendous team effort by Management and the AGSA.

It was

### **AGREED**

- (a) That the verbal report by the Business Executive: AGSA on the signing and conclusion of the **Auditor General's Report**, be noted.
- (b) That the Chief Audit Executive ensures that the Internal Audit Plan includes a report on the Performance Audit of Service Delivery on all municipal services with a view to assist in enhancing and improving service delivery on the ground and to make the relevant findings for Consequence Management as a result of poor performance.

### 83. FINAL INTERNAL AUDIT REPORT ON THE MECHANICAL WORKSHOPS (REF:3.10.1.1)

Report dated 30 March 2021 by the Manager: Assurance (Ref:A13-2019/20).

(Page 44 on the agenda)

The Audit Committee confirmed that the Report reiterated and justified the Committee's longstanding complaints regarding the "Strip and Quote" method for vehicle repairs as being fruitless and wasteful expenditure. It was emphasized that Management had insufficient Plans for the Maintenance of the Entire Municipal Fleet, and in light of this, Management was requested to provide a comprehensive response to the report which detailed far greater consequences on service delivery.

It was noted that the report reflected that Management supported the Final Internal Audit Report on the Mechanical Workshops. However, the Committee found it peculiar that Management supported the findings to the report as the short comings experienced within the Business Unit had a huge impact on service delivery.

In relation to the budget availability or non-availability of budget, Management was urged to provide details to their responses eg. to provide explanations on how such repairs could be <u>deferred until the mid-year review budgeting process</u> or to include a note that the respective repairs that would be <u>committed in the following financial year</u>, as opposed to providing "<u>no comments</u>" or indicating that "<u>there was a lack of budget</u>".

The Ministerial Representative concurred that Management must submit a comprehensive response to the Audit Committee and to the Service Delivery War Room.

The Committee noted that several vacant posts within the Mechanical Workshops were not filled. Clarity was sought on whether the posts identified by the Internal Audit Unit were prioritized.

The City Manager gave the Committee an assurance that the detailed **Management Response** would be submitted to the Audit Committee after the 2021/2022 Budget had been approved and adopted by the Council.

In regard to the filling of **vacant posts**, the City Manager advised the Committee of the position taken by the Ministerial Representative to place the filling of vacancies on hold as there was no funding available to fill vacancies as a result of the poor financial state of the Municipality.

The City Manager reported that the **availability of funds for the payment of Audit Committee Members for the next meeting** also needed to be reviewed as a result of the poor financial health of the Municipality.

Furthermore, the City Manager reported that there was mounting pressure from the residents of the City opposing the proposed tariffs increases for the 2021/2022 financial year. He advised that approximately four thousand (4000) objections were received against the proposed tariff increases.

Clarity was then sought on the state of the City's Fire Engines.

In response to a query, the City Manager advised that there was a lack of funding to repair the City's Fire Engines. He explained that the City Finances were in such a state, that staff in certain business units were utilizing their own monies to repair municipal vehicles so that they were able to conduct their daily duties.

It was subsequently

#### **AGREED**

(a) That the Chief Audit Executive conduct an investigation to determine the total fruitless and wasteful expenditure incurred for Strip and Quotes conducted on all Municipal Vehicles and respective Plant per Business Unit for the 2019/2020 and 2020/2021 financial years.

(b) That the City Manager, in conjunction with the relevant General Managers submit a **detailed** response to the Audit Committee in regard to the Final Internal Audit on the Mechanical Workshops to make the necessary budgetary commitments to assist the Mechanical Workshops Sub-unit in providing them with the relevant support functions needed to undertake their delegated functions to service all business units, detailing the measures that would be undertaken to build the relevant capacity within this Business Unit ensuring that service delivery would no longer be affected.

#### It was thereafter

### AGREED TO RECOMMEND TO THE FULL COUNCIL

- (a) That there should be a separate and comprehensive Policy for Mechanical Workshops considering that Fleet Management and Mechanical Workshops fall under different business units.
- (b) A Fleet Master Plan should be developed and conditional assessments be done on the Municipality's Fleet.
- (c) A Fleet Maintenance Plan needs to be Developed.
- (d) CAMIS License should be renewed and considered being utilized again or alternatively develop a module on SAP for Fleet Management (including repairs and maintenance).
- (e) Mechanical Workshops Management should ensure that there is effective record keeping systems in place.
- (f) Control measures should be reinforced for strict adherence to ensure that adequate and reliable supporting documentation is maintained for all Mechanical Workshops related matters.
- (g) The Accounting Officer should consider reviewing the current structure of the municipality and consider combining Fleet Management and Mechanical Workshops under one unit in order to ensure seamless operations.
- (h) Fleet Management and Mechanical Workshops should not be working in silos, but to support and complement each other.
- (i) The Accounting Officer and the General Manager: Infrastructure Services should increase capacity within the Mechanical Workshops Unit.
- (j) Adequate training relating to vehicle repairs and maintenance of specialized plant should be provided to the Mechanics.
- (k) Reasonable budget should be allocated to the Mechanical Workshops in order to prioritize the filling of critical vacant positions and provide appropriate training to employees as they have a direct impact on service delivery.
- (I) The Accounting Officer and the General Manager: Infrastructure Services should ensure that a safe and conducive working environment is provided and maintained.
- (m) The General Manager: Infrastructure Services should ensure that items that are "fast moving spares or supplies" must be kept on hand eg. Fuses, lights, brake pads, batteries, etc.
- (n) The Accounting Officer and the General Manager: Infrastructure Services should increase capacity within the Mechanical Workshops Unit.

- (o) CAMIS License should be renewed and considered being utilized again or alternatively develop a module on SAP for Fleet Management (including repairs and maintenance).
- (p) A Tracking System can be used to assist Fleet Management and Mechanical Workshops to schedule vehicles for services.
- (q) The Accounting Officer should implement Consequence Management against Drivers / Custodians eg. Recover costs incurred by the municipality as a result of service agreements not adhered to.
- (r) That the Manager: Mechanical Workshops should advise the business units on areas of non-compliance / vehicle abuse / negligence.
- (s) The Accounting Officer and General Managers of the respective business units to implement Consequence Management against employees (from Drivers to general Managers where relevant) should the cause of the breakdown be assessed to as driver negligence and abuse.
- (t) The Accounting Officer and General Manager: Infrastructure Services should consider moving Fleet Management to the Mechanical Workshops for administration and reporting support.
- (u) There should be a thorough review conducted on the completeness and accuracy of all Mechanical Workshops reports by the Manager: Mechanical Workshops.

# 84. STATUS UPDATE ON THE HIGH LEVEL REVIEW OF THE DRAFT ANNUAL REPORT FOR THE 2019/2020 FINANCIAL YEAR (REF:3.10.1.1)

Report dated 19 April 2021 by the Manager: Assurance (A9-2020/2021).

(Item 11 on the agenda circulated separately on the agenda link)

Clarity was sought by the Committee on whether the findings outlined in the report were over-and- above or different to those already reported on by the AGSA. The Management Team was advised that in the event of such matters having been audited, it was cautioned that such changes could only be permitted by the Auditor General.

The City Manager acknowledged the findings outlined in the draft review on the Annual Report for the 2019/2020 financial year, and confirmed that the Management Team would address these findings prior to the report being considered by the Council, and would make the relevant corrected comments. He requested that the Internal Audit Unit must review the current Performance Management System in such a manner that poorly performing senior managers were identified.

It was

#### **AGREED**

- (a) That the status update on the findings and overall assessment dated 19 April 2021 by the Manager: Assurance (A9-2020/2021) on the **Draft Annual Report for the 2019/2020 Financial Year** be NOTED.
- (b) That the City Manager ensures that the relevant corrected Management comments are updated prior to the report referred to in (a) above is finalized for consideration by the Full Council.
- 85. QUARTER 3 CONSOLIDATED AUDIT COMMITTEE REPORT (JANUARY 2021 TO MARCH 2021)(REF:3.10.1.1)

Report dated 6 April 2021 by the City Manager.

(Page 85 of the agenda)

### 85.1 Request for refinements in the reporting by General Managers on the Quarterly Consolidated Audit Committee

The Audit Committee reiterated to Management that it was imperative that business units provided **details on the root causes** together with the names and designations of the officials who were responsible for the relevant reporting.

Committee members expressed their disappointment that there were excuses for the non-submission of certain reports. Management was urged to **provide status reports** on the relevant matters, as well as on any other report requested by the Committee notwithstanding the matter being in progress.

The Management Team was advised that the Audit Committee was compelled by Council's requests for identifying General Managers and Business Units that were underperforming, as well as the reasons for such under performance.

It was emphasized that such reports were crucial for the Audit Committee to review the weaknesses and challenges in order to provide Management with guidance.

### 85.2 Audit Committee Decision Tracker

The high-level summary of the Audit Committee Decision Tracker was noted.

The Senior Manager: Office of the City Manager advised that the Tracker was presented at each Strategic Management Committee for the findings to be presented to each General Manager for updating.

It was reiterated that the Audit Committee Decision Tracker was a crucial part of reporting and oversight by the Audit Committee to Council and to the Auditor General; and that the Committee required insight into how these findings were being resolved.

There was concern that the template was not user friendly, and it was also noted that the document was voluminous.

### 85.3 Consequence Management

It was noted that a comprehensive integrated report was in the process of being compiled by the Ministerial Representative in conjunction with the General Manager: Corporate Services on Consequence Management and the Forensic Investigations.

#### 10.4 Audit Action Plan

The Chairperson pointed out that findings on Annexure A to the report were not resolved. In light of this concern, the Senior Manager: Financial Governance and Performance Monitoring was requested to focus on the findings for the 2019/2020 financial year.

The City Manager was encouraged to ensure that there was accountability and responsibility by all General Managers for inputs.

### 85.4 <u>Financial Recovery Plan</u>

Members of the Audit Committee supported the Chief Financial Officer's appeal to all Business Units to populate their progress on items enlisted on the Financial Recovery Plan. Officials were reminded of the importance of the report was to **enhance the financial viability of the Municipality**.

The Chairperson advised that the focus of the Council and the Audit Committee was to guide the Municipality into a viable position. She reiterated that the Financial Recovery Plan shaped the Municipality back to a healthy position, and emphasized that it was a crucial report that required all managers to prioritize comment and input.

The Audit Committee Chairperson indicated that there needed to be a broader scope to assist the Budget and Treasury Business Unit in addressing **consumer debt**. She pointed out that consumer debt must be categorized into each into Business Debt, Domestic / Residential Debt and Government Debt for each Ward, outlining all Wards that have unbilled consumers and highlighting all Wards that have consumers that were not paying for any services.

### 85.5 Revenue Collection

It was reported that Business Unit was conducting weekly meetings for Revenue Enhancement. Committee members noted that a meeting was also held with local businesses to improve debt collection. There was a commitment from the Budget and Treasury Business Unit to submit regular reports to the Committee on the progress of payments received through the Covid-19 Relief Plan.

Clarity was sought on whether the discounted amounts on the **outstanding debt proposed through the Covid-Relief Plan were equated into monetary terms**. It was requested that the total discounted values needed to be reported on in order to **note the total monetary value of the total percentage of debt being discounted**.

The Finance Team were commended for their efforts, and the marketing campaign for the Covid-19 Relief Plan was thereafter noted.

The Business Unit was questioned on the accuracy of **outstanding debt as true-debt**, in comparison with **mistakes created through the SAP Billing System**.

With reference to the success of the Covid-19 Relief Plan, the Committee was advised that there was a large number of consumers who have criticized the Plan and deemed it to be unfair to the paying consumers.

The Chief Financial Officer confirmed that a great portion of the debt was old-debt dating back to many years. The Committee was given an assurance that the Business Unit would scrutinize the entire Debtors Book through the Amnesty Process and Indigent registry process. She reported that many consumers had indicated that they had become unemployed during the Covid-19 Pandemic. She explained that by analyzing of the Debtors Book, all consumer and business billing disputes were being addressed through the weekly Finance Dispute Committee, which met every Friday to rectify billing disputes.

The Committee was in support of all measures that the Business Unit had in place to improve revenue collection. However, it was stressed that the Municipality must ensure that the Billing System was credible and billed effectively.

#### 85.6 Section 66: Expenditure On Staff Benefits: Staff and Councillor Debt

The Chief Financial Officer reported that the Debt Collection Policy had been reviewed and was applied to the **collection of municipal debt by councillors and staff**. It was advised that some of the debt was higher than the total earnings of certain members of municipal councillors and staff.

The Business Unit was commended for their efforts in controlling debt reduction for and councillors staff, and were encouraged to continue with this level of detail in their reporting.

### 85.7 Section 66: Expenditure on Staff Benefits: Overtime

The City Manager briefed the Committee on the business units that generated the most overtime. He advised that there was a reduction in overtime expenditure since the previous financial year. However, he advised that overtime expenditure increased to approximately R 90 million for the month of December 2020.

It was emphasized that **overtime was a focus area of the Ministerial Representative, the City Manager and the Council.** The Chairperson stressed that it was **imperative to control and to curb overtime expenditure.** She emphasized that the Audit Committee considered numerous reports on forensic investigations on overtime abuse, and fraudulent overtime. Therefore, the Audit Committee's concerns over excessive overtime were justified.

The Chairperson echoed the Committee's queries on the measures that the General Managers were implementing to reduce overtime, as there was clearly no evidence that the General Managers had a firm grip on overtime generated within their respective Business Units in light of the high number of forensic reports on overtime abuse, and fraudulent overtime.

The Audit Committee raised their frustrations with the lack of reporting on overtime by Management, and indicated that it was only up until December 2020 that the Committee received some responses from certain General Managers. Thereafter, the reporting on overtime regressed, and now there was a situation of overtime being out-of-control again. Despite, all General Managers being requested to provide detailed submissions to the Audit Committee on the systems of controls in place for overtime at its meeting held on 23 February 2021, the Chairperson expressed her disappointment that the request by the Audit Committee on overtime reporting continued to be ignored by some General Managers.

The Management Team was reminded that the request for such reports were not a request from the Office of the City Manager, and did not require submission to the Strategic Management Committee in the first instance which resulted in reports becoming back-logged and delayed for timeous submission to the Audit Committee. It was highlighted again, that reports requested specifically for the Audit Committee must come directly to the Audit Committee, and must be compiled in a manner that such reports addressed the Committee's specific requests which did not require the normal generic reports that were submitted to the Strategic Management Committee and the other Portfolio Committees.

The City Manager advised the Committee that he preferred to have all reports submitted to the Strategic Management Committee to ensure and verify that all reports conformed to the standard reporting requirements set by the Office of the Municipal Manager.

The City Manager was then requested to ensure that his office coordinated the timeous submission of reports to the Audit Committee.

### 10.8 Irregular Expenditure

The Chief Financial Officer was requested to ensure that the Irregular Expenditure report must be updated for the 2020/2021 financial reporting period.

In respect of the Audit Outcomes for security related irregular expenditure which required the individual Business Units to validate receiving such services, it was mentioned that the **internal controls at Business Unit levels were not being undertaken correctly**. Therefore, it was appearing that the Municipality was paying for services that were not validated as having been received or rendered.

The Management Team were counselled over the risks of not implementing and applying correct attention to detail on endorsing and receiving all goods and services that were paid for by the Municipality. Officials were cautioned over the risks of a higher amount of fruitless and wasteful expenditure.

The Chairperson stressed that the lack of controls on irregular expenditure was a clear weakness.

The General Managers were urged to improve controls and to endorse with absolute certainty that all goods and services which were received and rendered were authorized and signed off, **prior** to payment, together with all associated proof of evidence files.

The overall opinion of the Audit Committee was that fruitless and wasteful expenditure with the Municipality was understated given the failure of internal controls when expenditure was approved when goods and services were received; it being noted that the Qualification on security was direct proof of this together with the Internal Audit Units findings and reports. In addition to this, the Committee expressed their doubt that over the amount of R 19 797 593,34 in Irregular Expenditure for Quarter 3 (January 2021 to March 2021) as being a true reflection.

### 10.9 Submission of the first Quarterly Consolidated Audit Committee Report

The Audit Committee extended their appreciation to the City Manager for his first high level consolidated quarterly report to the Audit Committee.

(At this point in the proceedings, the Chairperson announced a change to the format of the agenda with items 14 to 32 on the current agenda being deferred to a future meeting of the Audit Committee yet to be determined in order for the Management Team to conclude their presentations to the Audit Committee and thereafter join an Executive Committee meeting which was due to commence at 14:00 that same day).

It was

#### **AGREED**

- (a) That the updated **Audit Committee Decision Tracker** be DEFERRED to the Audit Committee on 22 June 2021 to allow the Management Team sufficient time to populate collectively.
- (b) That as part of the submissions to the Quarterly Consolidated Audit Committee, General Managers must include details on all **challenges** within their respective business units, together with the associated **root causes**.
- (c) That in the next quarterly submission, the Senior Manager: Financial Governance and Performance Monitoring must focus on the progress made to **resolving the findings for the 2019/2020 financial year**, and to remove the reporting on the 2018/2019 financial year.
- (d) That the Chief Financial Officer submits the following reports to the next meeting of the Audit Committee:-
  - (i) A detailed report to the next Audit Committee meeting on the **R 4 billion Consumer Debt** categorized into Business Debt, Residential Debt and Government Debt for each Ward (detailing the Ward Name and Ward Number only) within the Municipal jurisdiction.
  - (ii) A high level report detailing the **total amount billed for one month categorized** into Business, Government and Residential billing for each Ward (detailing the Ward Names and Ward Numbers only) within the entire municipal jurisdiction.
  - (iii) A detailed report on the total number of all unbilled consumers in each Ward (detailing the Ward Names and Ward Number only) within the entire municipal jurisdiction, together with the total estimates on service charges from such areas to determine the total estimated loss to Council over one calendar month.
  - (iv) A high level report outlining **billed consumers** in all Wards within the municipal jurisdiction **that are not paying for any services**, together with the total estimated services charged utilized and estimated debt resultant thereof.

It was thereafter

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the **Quarter 3 Consolidated Audit Committee report for January 2021 to March 2021** as outlined in the report dated 6 April 2021 by the City Manager, be noted.

### 86. AUDIT COMMITTEE DECISION TRACKER: 2020/2021 FINANCIAL YEAR (REF.3.10.1.1)

(Item 12 on agenda)

The Senior Manager: Office of the City Manager advised that the populating of the Audit Committee Decision Tracker required was more time as the document in its current format was lengthy and not user friendly. She proceeded to make reference to high level summary of the Audit Committee Decision Tracker as contained under Item 4.2 of the Quarter 3 Consolidated Audit Committee Report. She anticipated that the first progress report on the Audit Committee Decision Tracker would be available for the Audit Committee meeting on 22 June 2021.

NOTED.

### 87. RISK MANAGEMENT REPORT ON MUNICIPAL STRATEGIC RISKS (REF: 3.10.1.1)

Report dated 16 April 2021 by the Chief Risk Officer.

(Tabled at the meeting)

The Chairperson requested that Management must ensure that Risk Management was cascaded to all levels of employees within the Municipality. It was advised that the relationships between the work undertaken by employees in relation to Risk Management was integrated. It was indicated that the systems of internal controls were designed to mitigate risks. Therefore, as a way forward, Council needed to place emphasis on the value of systems of Internal Controls and Risk Management together with the influence of Strategic and Operational Risks so that there was no silo approach within Council that employees and politicians had nothing to do with risks.

It was

#### **AGREED**

- (a) That the City Manager ensures that the **National Treasury Local Government Maturity Risk Questionnaire** was completed.
- (b) That the City Manager include in the next Quarterly Consolidated Audit Committee Report on the **Risk Management Strategy for the 2020/2021 Financial Year**, together with the associated **Implementation Plan**.
- (c) That the City Manager ensures that the **Timelines for all Risk Milestones, together with** the assigned officials are reported on at the Audit Committee meeting in the 2<sup>nd</sup> Quarter of the 2020/2021 financial year.

It was thereafter

### RESOLVED TO RECOMMEND TO THE FULL COUNCIL

(a) That Mitigation Strategies developed by Management for adequacy and whether these comply with the SMART Principles (Specific, Measurable, Attainable, Relevant and Timebound) be considered.

- (b) That the City Manager incorporate the Mitigation Strategies into the Performance Agreements of General Managers and Senior Managers.
- (c) That the City Manager enforce Performance Management pertaining to key performance indicators and targets on Risks as per the Performance Management Framework.
- (d) That the City Manager conduct performance assessments on a quarterly basis, acknowledge and reward excellent performance and implement Consequence Management where lack of performance is identified.
- (e) That the Chief Risk Officer conduct a Review of the Performance Targets and Progress of the Implementation of the Risk Intervention Strategies on a quarterly basis with the first review due by **31 October 2021**.

### 88. DEFERRAL OF AUDIT COMMITTEE AGENDA ITEMS 14 TO 32

#### 95. AUDIT COMMITTEE DECISION TRACKER 2020/2021

(Item 7 on the agenda)

It was noted that a high level report on the Audit Committee Decision Tracker was presented as part of the Quarter 3 Consolidated Audit Committee at the meeting held on 20 April 2021. The Committee was advised that the first update on the Tracker would be presented to the Audit Committee on 22 June 2021.

NOTED.

### 96. REPORTS REQUESTED BY THE AUDIT COMMITTEE FROM THE CITY MANAGER

Internal minute dated 24 February 2021 by the Chairperson-acting-in-the-Chair.

(Page 11 of the agenda)

The Chairperson indicated that some of the reports requested by the Audit Committee at its meeting held on 23 February 2021 remained outstanding despite officials having sufficient time to submi.

It was

### **AGREED**

That the internal minute dated 24 February 2021 by the Acting Chairperson of the Audit Committee requesting specific reports from the City Manager, which was circulated previously to Management be noted.

### 97. EXHORBITANT OVERTIME BY ALL GENERAL MANAGERS

(i) Report dated 23 March 2021 by the General Manager: Sustainable Development and City Enterprises.

(Page 14 of agenda)

(ii) Report dated 1 April 2021 by the General Manager: Community Services.

(Page 17 of agenda)

The Chairperson pointed out that reports requested by the Audit Committee over-and-above the standing agenda items must be submitted directly to the Audit Committee and that such reports did not necessarily

need to go through the Strategic Management Committee first i.e. the Strategic Management Committee should not be the reason that reports were delayed and not received by the Audit Committee timeously.

The City Manager preferred that when the Audit Committee requested specific reports, such reports were to follow a process through which the Office of the City Manager had to ensure consistency.

Management was urged to plan their internal processes to ensure that the timely submission of reports to the Audit Committee was adhered to.

The Audit Committee stressed that ALL outstanding reports were expected at the next meeting and that failure to do so would result in the respective General Manager being held responsible for not complying with the requests of the Audit Committee. The Management Team was informed that such non-submission thereof, was being tracked by the Mayor and would be reported at Council at the time the Chairperson of the Audit Committee presented the Audit Committee report.

The Committee emphasized that the reports were crucial in the assisting the Audit Committee in performing its legislative functions effectively.

The Chairperson advised that the **General Managers must provide feedback on overtime**, as the Forensic Investigations spoke to numerous reports on financial misconduct, abuse of overtime and fraudulent overtime; amongst other matters of misconduct which were an ongoing occurrence within Msunduzi Municipality. The Audit Committee highlighted that such reports were common within the service delivery driven business units such; Parks, Cemeteries, Fleet, Waste Management, Finance and Infrastructure.

Clarity was sought on how General Managers were ensuring that the overtime that they were processing were genuine overtime, and not fraudulent / abusive or excessive use of overtime.

It was indicated that the reports on overtime submitted by the General Managers for Sustainable Development and Community Services were unclear, with these reports failing to highlight the root causes and equating the reasons and amounts for the overtime.

The City Manager reported that overtime expenditure had drastically reduced. He advised that the intention was to migrate to the shift system. He confirmed that reports from the General Managers were not forthcoming, and advised that some reports were received but were sent back to the respective General Managers for more information.

The City Manager advised the Committee that such over expenditure also raised concern over the procurement of personal protective equipment together with tools of trade and contract services within Council.

The City Manager was requested to ensure that all reports for the Audit Committee were coordinated through his office for central co-ordination.

Members of the Audit Committee reiterated that reports requested by the Committee must be submitted in a coordinated manner to allow for the Committee to deliberate on the issue collectively.

It was

#### AGREED

(a) That the Office of the City Manager submit a consolidated report on overtime generated for Quarter 3 (January 2021 to March 2021) and Quarter 4 (April 2021 to May 2021) for all Business Units to collectively include the following points requested by the Audit Committee at its meeting held on 23 February 2021.

- Progress on the Measures implemented to Curb Overtime,
- Outlining of the Processes for the vetting, verification and approval overtime,
- Detailed submissions by each General Manager on overtime for Quarter 3 (January 2021 to March 2021) including Quarter 4 (April 2021 and May 2021);
- What measures each General Manager was applying within their respective business units to ensure that overtime for the relevant month was paid in accordance with the legislation and Council policies and procedures,
- What measures each General Manager was implementing to curb the abuse of overtime, as well as fraudulent overtime and excessive overtime.
- And what measures each General Manager was implementing to reduce overtime.
- (b) That the report on overtime referred to in (a) above must include Business Units that did not generate high overtime, and that such Business Units must outline the measures that were applied to keep overtime generation low.
- (c) That the Audit Committee acknowledged the submission of the two reports on Overtime dated 23 March 2021 by the General Manager: Sustainable Development and City Entities and the report dated 1 April 2021 by the General Manager: Community Services, and concurred that these 2 reports be revised accordingly for the consolidated report on overtime.

### 98. PROGRESS REPORT ON THE IMPLEMENTATION OF THE SHIFT SYSTEM

(Item 10 on agenda)

In the absence of a report, it was

### **AGREED**

That consideration of the **Progress report from the City Manager on the Implementation of the Shift System** be DEFERRED to the Audit Committee meeting on 22 June 2021.

# 99. PROGRESS REPORT ON THE APPOINTMENT OF A SERVICER PROVIDER FOR STABILIZATION OF THE ICT NETWORK

(Item 11 on agenda)

The Senior Manager: ICT apologized to the Committee for the non-submission of the progress report. He advised the Committee of the difficulty with using the National Transversal Contract to appoint a service provider. In this instance, the successful service provider would have had a few months remaining on the contract until the contract would end. Therefore, it was concurred that this process was not be in the best interest of Council.

In view of this, the General Manager: Corporate Services requested that the Title of the item be amended to read as follows: "Progress report on the Appointment of a Service Provider for the Stabilization of the ICT Network".

In response to a query, the Senior Manager: ICT notified the Committee that the process for the appointment of a new service provider had commenced.

The Senior Manager: ICT was requested to ensure that the **specifications for the new contract included effective and efficient network coverage for the entire Msunduzi municipal jurisdiction**.

It was

#### **AGREED**

That the Senior Manager: ICT ensures that a progress report on the **Appointment of a Service Provider for the Stabilization of the ICT Network** is reported on as part of the Quarterly Consolidated Audit Committee report at its next meeting on 22 June 2021.

## 100. PROGRESS REPORT ON CASH FLOW MANAGEMENT: CASH FLOW REPORT AND INVESTMENT REGISTER AS AT END OF MARCH 2021

Report dated 6 April 2021 by the Senior Manager: Financial Governance and Performance Management.

(Page 21 of the agenda)

The Senior Manager: Financial Governance and Performance Management reported that Cash Flow Management was prepared on a weekly basis. He advised that the collection rate fluctuated every month. He notified the Committee that the Business Unit had various interventions in place to improve the revenue. He also reported that the cash flow projection for the next six months were derived from historic projections. He reported that the **cash flow was in a deficit**, and that the finances of the Municipality were not in a good state. He stated that the Municipality would be able to move out of its deficit state once the revenue collection rate had improved.

Members of the Audit Committee pointed out that the matter of revenue collection required a new approach. It was stressed that the proposed tariff increases were being challenged. In addition to this, there were numerous complaints from paying consumers who felt that the Covid-Amnesty was unfair to paying consumers.

There was concern over the quality and accuracy of the Debtors Book. Furthermore, the Committee was of the view that politicians needed to share the responsibility of community by-in and education at ward level to improve revenue collection.

The City Manager was urged to ensure that the collection of municipal debt from staff and councillors were enforced.

Members of the Audit Committee concurred that a collective approach in improving revenue collection was required. For this to take place, Management was urged to **ensure that the SAP Billing System was accurate**, and that there were various processes were implemented place to collect **all** municipal debt.

It was

#### **AGREED**

- (a) That the **Cash Flow and Investment Register** as outlined in the report dated 6 April 2021 by the Senior Manager: Financial Governance and Performance Management be NOTED with concern by the Audit Committee.
- (b) That the Chief Financial Officer submit a detailed report for Quarter 3 (January 2021 to March 2021) and Quarter 4 (April 2021 and May 2021) on the Debtors Age Analysis summarized into the total consumption for households, business and government debtors per ward for all wards within the Msunduzi Municipality for the next meeting of the Audit Committee, together with the same information detailed on the outstanding debtors of approximately R 4 billion; with the report highlighting the each ward name.
- (c) That the Audit Committee monitors Cash Flow Management and Expenditure Management to curb unnecessary spending as part of the Committee's 2021/2022 priority areas.

### 101. PAYMENT OF CREDITORS: PROPOSED PAYMENT PLAN (REF: 3.7.1(2020/2021)

Report dated 2 March 2021 by the Senior Manager: Expenditure.

(Page 25 of the agenda)

The Audit Committee expressed concern that there was a large variation between the Cash Flow Management Report as at the end of March 2021 in relation to the Proposed Payment Plan for Creditors detailed in the report dated 2 March 2021 by the Senior Manager: Expenditure.

Noting the 4-week time difference between the two reports, the Business Unit was requested to ensure that the Cash Flow Management Report and the Creditors Management Report for Quarter 4 were realistic and were correctly reconcilable.

It was

#### **AGREED**

- (a) That the **Proposed Payment Plan for the Next 6 Months** as outlined in the report dated 2 March 2021 by the Senior Manager: Expenditure, be NOTED.
- (b) That the Chief Financial Officer ensures that the Cash Flow Management Report and the Creditors Management Report for Quarter 4 were realistic and reconciled accordingly.

# 102. PROGRESS ON ADDRESSING POOR ATTENDANCE AT THE ICT STEERING COMMITTEE (REF:9.4.1)

Report dated 15 April 2021 by the City Manager.

(Page 30 of the agenda)

It was

#### **AGREED**

- (a) That it be noted that the members of the Strategic Management Committee (SMC) constitute the membership of the ICT Steering Committee.
- (b) That it be noted that the meetings of the ICT Steering Committee will be scheduled to take place on a quarterly basis on the same day as the scheduled meetings of the Strategic Management Committee (SMC).

# 103. PROGRESS ON THE IMPLEMENTATION OF THE SAFE CITY'S NUMBER PLATE RECOGNITION FOR REVENUE ENHANCEMENT

(Item 15 on the agenda)

It was

#### **AGREED**

That the City Manager ensures that there was structural co-operation between the Public Safety Sub-Unit and the Safe City Entity in terms of implementing the Safe City's Number Plate Recognition for revenue enhancement, and that a progress report on this matter is included in the next Quarter Consolidated Audit Committee Report.

### 104. REVENUE EHANCEMENT STRATEGY BY PHILA NDIMANDE

(Item 16 on the agenda)

It was

#### **AGREED**

That the item considering the **Revenue Enhancement Strategy Document** by Ndimande Consultants be deferred to the Audit Committee meeting on 22 June 2021.

### 105. BILLING REPORT FOR QUARTER 3

(Item 17 on agenda)

It was noted that the Billing Report for January 2021 and February 2021 was included on the Quarter 3 Consolidated Audit Committee report presented to Committee at its meeting held on 20 April 2021.

NOTED.

# 106. FINAL INTERNAL AUDIT REPORT ON THE HIGH LEVEL REVIEW OF THE ANNUAL REPORT FOR THE 2019/2020 FINANCIAL YEAR (REF:3.10.1.1)

Report dated 12 May 2021 by the Manager: Assurance (Ref: A9-2020/2021).

(Tabled at the meeting)

The City Manager was requested to ensure that the final published report must contain the correct information.

The Audit Committee requested that Management must keep the Committee informed on the outcome of the meeting scheduled with the Auditor General to find a way forward in correcting the Annual Report.

Management was requested to ensure that going forward, **Business Unusual must be planned** and that the accountability for this review to take place together with the Annual Performance Report must be corrected prior to submission to the AGSA for auditing.

It was highlighted that incorrect information published by the Municipality was considered to be financial misconduct.

The Chairperson advised that the meeting to be held with the AGSA and Management would need to review the findings of the Internal Audit Unit, and if there were no material changes to the Annual Report, the AGSA would be able to provide Management with guidance on whether the Audit Process for the 2019/2020 Financial Year would need to be re-opened.

The Manager: Assurance advised that despite Business Unusual experienced during the 2019/2020 Financial Year, the internal process did not change in regard to the submission and completion of Portfolios of Evidence. She stressed that the onus was upon every Senior Manager to play their role in their submissions to the Report.

It was indicated that there was a possibility that the auditing process could be re-opened and that there was a possibility that additional auditing fees would be raised.

It was

## AGREED TO RECOMMEND TO THE FULL COUNCIL

That the findings around the **Final Internal Audit Report on the High Level Review of the 2019/2020 Annual report** as contained in the report dated 12 May 2021 by the Manager: Assurance, be NOTED.

## 107. <u>DATE FOR AUDIT COMMITTEE STRATEGIC SESSION WITH THE STRATEGIC MANAGEMENT COMMITTEE</u>

(Item 19 of the agenda)

The Chairperson indicated that a date for the Audit Committee Strategic Session must be secured sometime in July 2021 and August 2021 to conduct a 5-hour session with the Strategic Management Committee and the relevant Senior Managers.

NOTED.

### 108. FULL STATUS REPORT ON THE 3 YEAR ROLLING PLAN

(Item 20 on the agenda)

In the absence of a report, it was

#### **AGREED**

That the item considering the **Full Status Report on the three-year Internal Audit Rolling Plan** be deferred to the Audit Committee meeting on 22 June 2021.

### 109. <u>FINANCIAL RECOVERY PLAN WITH ADJUSTED DATES: PROGRESS REPORT ON THE</u> FINANCIAL RECOVERY PLAN IMPLMENTATION (REF:3.7.1(20/21)

Report dated 23 April 2021 by the Chief Financial Officer.

(Page 32 of agenda)

The Chief Financial Officer reported that the Financial Recovery Plan was previously a tool used by the Operational Management Committee which was meeting for some reason, resulting in a lapse in reporting.

It was

### **AGREED**

- (a) That the progress report dated 18 March 2021 and 23 April 2021 by the Chief Financial Officer on the **Financial Recovery Plan as at March 2021 and April 2021**; respectively, be NOTED.
- (b) That the Chief Financial Officer submit a further report to the next meeting of the Audit Committee on 22 June 2021 on the progress report of the **Revenue Enhancement Committee**.

#### 110. REVENUE COLLECTION REPORT FOR THE QUARTER

(Item 22 on agenda)

It was advised that revenue collection was reported on as part of the Quarter 3 Consolidated Audit Committee report presented to Committee at its last meeting held on 23 April 2021. Further to this report, the outstanding report on Revenue Collection for each ward would be submitted to the next Audit Committee meeting on 22 June 2021.

NOTED.

# 111. <u>SPECIFIC REPORT ON CONDITIONAL GRANT: CASH BACKING ON PROJECTS:</u> CONDITIONAL GRANTS STATUS AND MANAGEMENT (REF: 3.4.5)

Report dated 26 March 2021 by the Senior Manager: Budget Planning, Implementation and Monitoring.

(Page 39 of agenda)

The Business Unit was requested continue submitting its quarterly high level summaries on conditional grants so that the Audit Committee could continue tracking the impact of results of the interventions put in place by this Plan which was initiated and required by National Treasury.

The Committee was advised that reconciliations were prepared on a weekly basis for submission to the National Treasury, for which the Business Unit received many accolades.

The Chief Financial Officer and her team were commended for preparing weekly reconciliations for all Conditional Grants.

It was

#### **AGREED**

- (a) That the status update on **Grants Management and Progress on the Implementation**, as detailed in the report dated 26 March 2021 by the Senior Manager: Budget Planning, Implementation and Monitoring be noted.
- (b) That the Chief Financial Officer ensures that copies of the **Conditional Grant Reconciliations** is submitted as an **annexure** to the quarterly submissions for the Audit Committee.

### 112. PROGRESS ON THE UNAUTHORIZED, IRREGULAR, FRUITLESS AND WASTEFUL UIFW) EXPENDITURE REDUCTION PLAN FOR COUNCIL APPROVAL (REF: 3.7.1(20/21)

Report dated 5 April 2021 by Manager: Municipal Public Accounts Committee.

(Page 44 of the agenda)

The Chairperson advised that majority of the fruitless, wasteful and irregular expenditure resulting from overtime the Internal Audit forensic investigations were not reported on.

Management was reminded that the reduction of fruitless and wasteful expenditure was the responsibility of every business unit, and not specially that of the Budget and Treasury Business Unit.

Management was urged to adhere to policies on a daily basis to curb overtime and fruitless and wasteful expenditure.

It was

### **AGREED**

That the report dated 5 April 2021 by the Manager: Municipal Public Accounts Committee considering the **Unauthorized**, **Irregular**, **Fruitless and Wasteful Expenditure Plan** be noted.

#### 113. COPY OF THE DISCIPLINARY BOARD CHARTER (REF: 3.10.1.1)

Disciplinary Board Charter as at December 2019.

(Page 58 of agenda)

It was

#### **AGREED**

That the Disciplinary Board Charter as at December 2019, be noted.

#### 114. PRESENTATION ON THE COVID-19 RELIEF PLAN

Presentation by the Chief Financial Officer.

(Item 26 on agenda)

That the presentation by the Chief Financial Officer on the Covid-19 Relief Plan, be noted.

### **CONFIDENTIAL: NOT FOR PUBLICATION**

### 115. PROGRESS REPORT ON THE COLLECTION STATUS: ACCOUNT NUMBER: 03715470 (REF: 3.3.1.2.1)

Report dated 7 April 2021 by the Manager: Debtors

(Item 18 on agenda submitted separately under the Confidential Agenda Link)

**NOTE BY SENIOR MANAGER: SECRETARIAT & AUXILLIARY SERVICES:** Due to the strict confidentiality of this item, an extract of the minutes under this item has been given to the Audit Committee members ONLY and a copy filed in the official CONFIDENTIAL records.

### 22 JUNE 2021

### 116. <u>UPDATE BY THE OFFICE OF THE AUDITOR GENERAL</u>

(Item 6 on agenda)

- 116.1 The Senior Manager: AGSA reported that the audit had commenced with limited staff. He advised that the Team was not at a stage to share the Engagement Letter and the Audit Strategy.
- 116.2 With regards to the Annual Report for the prior year, the AGSA Team met with Internal Audit, and would be presenting their final assessment on the feedback to the Report.
- 116.3 The Management Team was urged not to publish the Annual Report until such time that the AGSA had perused the Report.
- 5.4 The Acting Audit Committee Chairperson requested a follow-up on PAA matters for the next Audit Committee meeting on 24 August 2021.

NOTED.

#### 117. REVISION OF THE ANNUAL AUDIT PLAN FOR 2021/2022 (REF: 3.10.1.1)

Report dated 14 May 2021 by the Chief Audit Executive: Internal Audit Unit.

(Page 26 of agenda)

The Chairperson indicated that the actual work planned versus that actual work that could be undertaken during 2021 needed to be reported to Council with reasons in detail, together with an indication on whether the work planned for 2022 could be undertaken.

The Audit Committee supported the Revision of the Internal Audit Plan for the 2021/2022 financial year for approval with concerns relating to the **impact on the limitation on the scope and quality of assurance** provided by Internal Audit.

National Treasury Representative (Mr Leslie Holland) sought clarity on the extent that the Internal Audit Plan had been informed by Risk Management, as well as the Municipality's Financial Health and Records Record Management. He queried the Section 66 Audit and suggested that consideration be given to focus Internal Audit Resources in other areas, as Audit was already covered by the AGSA in detail. Clarity was also sought on whether controls around effective Consequence Management, Section 32 for Irregular Expenditure and Financial Misconduct Regulation were also included.

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the **Internal Audit Plan for the 2021/2022 Financial Year** as outlined in the report dated 14 May 2021 by the Chief Audit Executive be approved.

# 118. THREE YEAR AUDIT AND ANNUAL AUDIT PLANS FOR 20221/2022 TO THE 2023/2024 FINANCIAL YEARS (REF:3.10.1.1)

Report dated 14 June 2021 by the Chief Audit Executive (Ref:04-2020/21).

(Circulated as Item 8 on the Audit Committee agenda link)

The Audit Committee approved the report subject to the understanding that this was a live document that would be continually revised for relevance and responsiveness based on risk assessment processes and any other items that would come to the Audit Committee's attention that required an assurance related response.

It was pointed that the Unauthorized, Irregular, Fruitless and Wasteful Expenditure, Financial Misconduct and Fraud was not included in the report. In addition, it was noted that SAP was not included due to the Internal Audit Unit not having an expert in SAP.

Clarity was sought on how the financial health of the Municipality would be addressed.

It was emphasized that Revenue must be prioritized as a risk response in providing relevant information to Council which would be conducted at a time that was going to have impact taking into account when the AGSA would also be busy at the Budget and Treasury Business Unit taking into consideration:-

- Billing (meters and billing accuracy)
- Collections
- Disconnections and reconnections
- Indigent management.

National Treasury Representative (Mr Leslie Holland) sought clarity if the resources within Internal Audit were sufficient and if not, what was the Municipality's plan to ensure that there are sufficient resources. Clarity was also sought on the Co-sourcing arrangement within Internal Audit and to what extent were the current existing arrangements cost-effective of using the panel versus employing more staff within the Internal Audit Unit.

It was

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That the Three year Internal Audit Rolling Plan and Annual Audit Plans for the 2021/2022 to 2023/2024 Financial Years be approved.

# 119. <u>AUDIT COMMITTEE WORK PLAN AND CALENDAR OF ACTIVITIES ENDING AS AT 30 JUNE 2022 (REF:3.10.1.1)</u>

Report dated 9 June 2021 by the Chief Audit Executive (Ref:03 2020/21).

(Circulated as Item 9 on the Audit Committee agenda link)

The Committee requested that the report be amended to include revised dates for the Review of the Financial Statements, together with the Internal Audit Report on the Annual Financial Statements to Internal Audit by the end of July 2021 and for submission to the Audit Committee by 15 August 2021.

It was also requested that the Audit Committee Work Plan must include the Annual Review of Charter, Effectiveness of the Audit Committee and the Effectiveness of the Internal Audit Unit.

It was

#### **AGREED**

That the Annual Audit Committee Plan and Calendar of Activities for the 2021/2022 Financial Year be revised and resubmitted for consideration at the next meeting of the Audit Committee.

# 120. QUARTER 4 CONSOLIDATED AUDIT COMMITTEE REPORT (APRIL 2021 TO MAY 2021)(REF:3.10.1.1)

Report dated 14 June 2021 by the City Manager.

(Circulated as Item 10 on the Audit Committee agenda link)

- 9.1 Tracking of IA findings
- 9.1.1 The Audit Committee queried the Management effort that was being put into the weekly Strategic Management meetings to drive the resolutions of Tracking Tool for the Internal Audit Findings for the 2019/2020 Financial Year other than just noting them.
- 9.2.1 Audit Committee Decision Tracker
- 9.2.1 The Audit Committee noted with concern the **lack of inputs by certain General Managers** on the Audit Committee Decision Tracker.
- 9.3 Financial Recovery Plan
- 9.3.1 The Budget and Treasury Business Unit indicated that they were not receiving co-operation in receiving information on the strategy action items from the other Business Unit's. The Business Unit was urged to get the basics right in light of the current financial situation of the Municipality. Emphasis was placed upon the **filling of the post for Manager: Internal Control** as highlighted by the AGSA.
- 9.4 Revenue Collection
- 9.4.1 The Audit Committee noted that the Office of the Chief Financial Officer was finalizing a closed tender that would **analyze all outstanding debtors' balances**, which would determine debtors that should have been collected/disconnected and have not been disconnected, and how this would be corrected. In addition to this, it was noted that the Chief Financial Officer had requested specific investigations by Internal Audit on **rates and on billing accuracy**.

- 9.4.2 The schedule on **outstanding debt per ward was noted.** The Committee queried the **outstanding debt for Ward 0: Vulindlela : Ingonyama land** which was **currently billed at a flat rate**, that had a co-inherited bill of R40 million from Umgeni Water which was now sitting on the **highest outstanding debt** amount of **R 579 230 994 million**.
- 9.4.3 Clarity was sort on whether there was a **deadline for the improvement of the financial situation of the Municipality** and the **collection of outstanding debt**, and what the Business Unit was working towards to ensure that this deadline would be achieved.
- 9.4.4 Concerns raised by the Audit Committee and National Treasury on the **Chief Financial Officer not trusting staff on revenue and billing** were noted. Clarity was sought on how this was being addressed in terms of fraud, corruption and the relevant disciplinary processes.
- 9.4.5 The Audit Committee sought regular updates on the **project for the unpacking of the debtors** balance.
- 9.4.6 After a robust and very transparent discussion regarding the outstanding **debtors balance** and the **current status of internal controls in revenue, billing and collections**, and in particular the Chief Financial Officer's concerns relating to the deliberate circumvention of internal controls within the Section, the Audit Committee noted with concern the small improvements being made in Revenue, but that they were **insufficient in making any difference to this critical financial viability issue**, and that **extreme measures were required from the Finance Unit, from the Municipal Manager's Office and from Council.**
- 9.5 Section 66: Expenditure on Staff Benefits: Overtime
- 9.5.1 The Audit Committee queried the **discrepancy on the Section 66 Report**, and pointed out that someone applied their minds to this item and specifically documented that there was an **over-expenditure**. The Committee therefore sought clarity on how the generator and the reviewer of this report both got this report wrong. The Committee expressed their concern over the **lack of a quality review of the Section 66 report** which was submitted in this incorrect manner to various structures that placed reliance on the report; as well as to National Treasury. The Audit Committee advised that there <u>was a non-compliance as no Section 66 Report had been received since March 2021</u>. The Chief Financial Officer was requested to investigate and take appropriate action in this regard and to ensure that this was rectified and that the outstanding Section 66 reports were submitted to the next meeting to allow for the Audit Committee to consider the report on Overtime which was stood down as a result thereof.
- 9.6 Conditional Grants
- 9.6.1 In addressing concerns of the Committee that there were rumors that Conditional Grant funds were being used to pay other municipal expenditure, the Chief Financial gave the Committee an assurance that Conditional Grant funds were not used any other purposes.
- 9.10 Request to include Environmental Scanning to the Audit Committee Report

The Audit Committee requested that a **new sub-section** be included on the consolidated report to cover **Environmental Scanning** which would assist the Municipality in **monitoring the environment to improve on internal and external risk management** and **to detect potential threats** which would assist in its **strategic decision making processes and future planning**. Management was requested to ensure that this item covered all matters raised in the local press and to provide the Audit Committee with feedback on the **relevant actions taken by Management**. While the Audit Committee acknowledged that not all items appearing in the media necessarily represent instances where action needed to be taken or where action has not been taken, the **Committee required an analysis of media articles** that categorized matters into those which are significant and those which are not (and why), and where these were significant, what the municipality's response was to these items.

It was

#### **AGREED**

That the Quarter 4 Consolidated Audit Committee Report (April 2021 to May 2021) as outlined in the report dated 14 June 2021 by the City Manager be NOTED.

## 121. <u>REPORT BY THE CITY MANAGER ON EXHORBITANT OVERTIME FOR QUARTER 3 AND QUARTER 4: FOR ALL BUSINESS UNITS</u>

Report dated 17 June 2021 by the City Manager.

(Circulated separately as Item 11 on the Audit Committee Link)

138. HIGH COURT RULING: POOR MANAGEMENT OF THE NEW ENGLAND ROAD LANDFILL SITE

(Raised verbally)

The City Manager reported that the High Court Ruling on the New England Road Landfill Sire was being studied. He assured the Committee that the General Manager: Community Services and the Senior Manager: Waste Management had commenced with the implementation some of the findings to ETIA and were reporting to the High Court on a monthly basis. Council needs to allocate sufficient budget for the Landfill Site. The South African Police Services were approached to assist with the investigations into the allegations against certain staff members. However, there were challenges within the SAPS with regards to capacity to assist.

The City Manager undertook to provide the Committee with an update at its next meeting.

NOTED.

## 139. COST-CUTTING MEASURES AND THE IMPLICATION AND IMPACT THEREOF FOR FUTURE AUDIT COMMITTEE MEETINGS

(Item 28 on agenda)

The City Manager advised that the Audit Committee must not exceed the budgetary provisions committed for the Audit Committee meetings.

Audit Committee members concurred with the City Manager but sought clarity on the need to convene meetings outside of this provision which was beyond control; such as in instances whereby the agenda could not be concluded, or when the meeting had to be postponed due to reports not being forthcoming; which Committee indicated that this would be a cost for the municipality that would be deemed as fruitless and wasteful expenditure.

The City Manager reported that he was awaiting a report on the finances confirming the budget for Audit Committee meetings.

NOTED.

# 141. THE MUNICIPALITY'S CONSIDERATION OF, AND ACTION PLAN COMING FROM, THE SANBI AUDIT OF THE MSUNDUZI MUNICIPAL PLANTATIONS AGAINST THE SUSTAINABLE AFRICAN FORESTRY ASSURANCE SCHEME (SAFAS) FOREST MANAGEMENT STANDARD (REF: 3.10.1.1)

(Item 30 on agenda)

In response to a query regarding the SANBI Audit of the Msunduzi Municipality Plantations, the City Manager reported that he was not aware of the report being queried by the Committee.

Audit Committee Member (Mr Leo Quayle) also raised concerns relating to the plantations and the fire risk of the dry winter season. The City Manager was requested to ensure that fire breaks were conducted as a matter of priority to limit the City to possible danger of runaway fires that would result in the damage of property.

The Acting Audit Committee Chairperson undertook to circulate a copy of the SANBI Audit to the City Manager as a matter of urgency.

The City Manager informed the Committee that the General Manager: Sustainable Development was working on a Plantation Programme, with the business unit ready to put out a tender for the management of the plantation. He reported that there was a security service provider in place. However, that service provider would need to be removed.

NOTED.

# 142. THE PROCESS FOLLOWED TO ENSURE THE LEGALITY OF THE TENDER PUBLISHED FOR THE PROPOSAL: CALL FOR LONG TERM LOAN TO FUND THE MSUNDUZI MUNICIPALITY'S CAPITAL EXPENDITURE FOR THE 2021/2022 FINANCIAL YEAR

(Item 31 on agenda)

The City Manager advised the Committee that the bid for the proposal call for a long term loan to fund Council's Capital Expenditure Budget for the 2021/2022 Financial Year was approved in principal. He notified the Committee that the bid closed during the previous week and that the evaluation and adjudication processes would follow. He informed the Committee that National Treasury was in the process of determining whether Msunduzi Municipality qualified for the loan.

The City Manager was urged to ensure that all public participation and public disclosure processes were adhered to and was cautioned to do so before the matter was reported in the local press.

NOTED.

#### 143. PROGRESS REPORT ON THE FORENSIC INVESTIGATION ON MR CLIVE LOTZ (REF:10.4.1)

Report dated 23 March 2021 by the City Manager (Ref:1).

(Page of 12 Confidential Circular No.28 of 2021)

(This report was stood down at the Audit Committee meeting held on 20 April 2021).

It was

## AGREED TO RECOMMEND TO THE FULL COUNCIL

That the report dated 23 March 2021 by the Chief Audit Executive o provide the Msunduzi Full Council with a **progress update on the forensic investigation into the irregular appointment** of Mr Clive Lotz as the Manager in the Office of the Speaker and Chief Whip, be noted.

144. FORENSIC INVESTIGATION INTO ALLEGATIONS OF MUNICIPAL VEHICLE ABUSE AND ABSENTEEISM DURING WORKING HOURS ON PRIVATE TRIPS: MR JP VILAKAZI: EMPLOYEE NUMBER (REF:3.10.1.1)

Report dated 31 March 2021 by the Chief Audit Executive.

(Page of 82 Confidential Circular No.28 of 2021)

The Audit Committee was informed that the internal disciplinary hearing relating to the allegations emanating from this forensic investigation has already been held and finalised and that the Presiding Officer determined that Mr RP Vilakazi (Employee Number: 5504450) was found not guilty in relation to three of the four allegations emanating from this forensic investigation into permanent absenteeism and related charges involving **Mr RP Vilakazi (Employee Number: 5504450).** 

The Audit Committee and those members of Internal Audit and Management present had a considerable discussion relating to the report, the allegations, the forensic process, the evidence and the related financial misconduct allegations in relation to the apparent outcome of the internal disciplinary hearing.

The Committee weighed in very heavily on the decisions of the presiding officer in the internal disciplinary hearing. Audit Committee members expressed that they were uncomfortable with the outcome of the disciplinary process in the light of the strong evidence presented in the forensic report, and in considering the impact that this outcome, especially if not reasonable, may have on the proper course of financial misconduct proceedings required by the MFMA.

The request of the Audit Committee does not extend to considerations relevant to Mr Amoo, Mr RP Vilakazi's supervisor, for which a separate forensic investigation has been tabled, recommendations made and for which processes are being followed.

It was therefore,

#### **AGREED**

That the City Manager obtain an urgent internal Legal Opinion on the matter by Council's internal Legal Advisor on whether the decision by the Presiding Officer in the internal disciplinary hearing, specifically as it pertains to the not guilty verdicts relevant to all allegations brought against Mr RP Vilakazi in this forensic investigation and that fell into the scope of the hearing, can be reviewed or not.

145. FORENSIC INVESTIGATION INTO ALLEGED IRREGULAR REMOVAL OF PROPERTY NO.23

The review must be authorised by the City Manager or his/her delegated authority

2.7.3 Ms Mdletshe contravene Clause 13.1.3 of Credit Control and Debt Collection Policy which stipulates that: In the event that full payment of the account, including any accumulated arrears and interest, is not received on or before the due date, the electricity supply and the water supply may be disconnected /restricted, unless a formal acknowledgement of debt has been signed by the customer and the necessary payment arrangement for an extension of time has been approved.

# 146. FORENSIC INVESTIGATION INTO ALLEGED VARIOUS IRREGULARITIES RELATING TO ACCIDENT REPORTS AND OVERTIME COMMITTED BY FOREMAN: MR JP MOSEYA: PAY NUMBER: 550979: COMMUNITY SERVICES: WASTE MANAGEMENT (REF:3.10.1.1)

Report dated 29 April 2021 by the Chief Audit Executive.

(Page of 143 Confidential Circular No.28 of 2021)

Emphasis was placed upon the General Managers continuing to approve abusive and fraudulent overtime claims within the business units, together with the ongoing matters of failure to manage absenteeism. Members concurred that this matter must be addressed at the Audit Committee Strategic Session with the City Manager and the General Managers.

It was thereafter

### AGREED TO RECOMMEND TO THE FULL COUNCIL

That disciplinary action be instituted against **Mr J P Moseya** within a period of three months in terms of Schedule 2 of the Municipal Systems Act, Act 32 of 2000 (As amended), Code of Conduct for Municipal Staff members read with Disciplinary Procedure Code Collective Agreement issued by South African Local Government Bargaining Council for breach of:
