25 January 2018

Periodical Closure of Moses Mabhida Rd, M 70 (Edendale Rd) to Repair the 132 KV Electrical Overhead Conductors

The Msunduzi Electricity Department would like to notify all the residents of Pietermaritzburg, Moses Mabhida Rd users to and from the City that there will be a partial closure of the road just after the Campsdrift Rd interchange (Makro) when driving from the city. The closure will be undertaken to make it safe for the ESKOM and Msunduzi to perform urgent replacement and repairs of the 132 KV electrical overhead lines crossing the Moses Mabhida road.

The work will affect both lanes of the road (north and southbound), the location of the crossing is between the Campsdrift Rd and HULAMIN.

The partial closures will run from 30 January 2018 until 02 February 2018, the duration of partial closure on the road is estimated to be one hour commencing at 09h00 in the morning, and thereafter traffic will be controlled ending at 15h00 in the afternoon.

Should a need arise; traffic will be diverted in the following manner:

1. Coming from Edendale/Imbali side: Archie Gumede, M50 (Newport) Drive, Slangspruit Rd, Pentrich Rd, French Rd, Campsdrift Rd and back to Moses Mabhida Rd.
2. Coming from the city centre side: Campsdrift Rd, French Rd, Pentrich Rd, Slangspruit Rd, Archie Gumede Drive and back to Moses Mabhida Rd.

Msunduzi Traffic Officers will monitor and control diversion of traffic into designated alternate routes.

We apologize any inconvenience that may be experienced during this period.

Yours faithfully

Mr T.B Madlala
