#### COMMENT ON UPGRADED POSTS AND THOSE THAT ARE AT VARIANCE WITH NORMAL PRACTICE:

The approval of the 2013 Structure saw the allocation of employees from the 2004 structure with perceived grades, to the approved task grades aligned to a written Job Description - Where offers of allocation were accepted and are at a lower level, the allocation will be done on Personal to Holder until the post is filled by a new incumbent.

Deficiencies in the current Job Descriptions are currently under review and it is anticipated that this exercise will narrow the gap of perceived and actual. The allocation of the employees was done by matching the job content/requirement of the post per the structure with the skills/competencies, qualifications, experience of the employees, omissions on the new structure, coupled with the provision that an employee may not be allocated into a higher level post without the post having being duly advertised, resulted in 7 employees remaining unallocated to the 2013 structure. Structure Review is to commence in the 19/20 financial year.

## COMPONENT F: CORPORATE BUSINESS UNIT

This component includes: council and executive & internal audit.

### 6.1 COUNCIL AND EXECUTIVE

#### INTRODUCTION TO EXECUTIVE AND COUNCIL

The Executive and Council include all administrative support that is provided to the offices of the Mayor, Speaker, Municipal Public Accounts Chairperson and the City Manager. This includes, inter alia, meetings of Council and its committees and support related to the functioning of ward committees.

The Executive and Council is rendered committee support by the Secretariat & Auxiliary Services Unit. The main purpose for the existence of this Unit is to give administrative support, primarily to Council and its committees and to ensure smoothness of Council's decision making process.

The Unit in turn comprises three sub-units, namely Secretariat, Information Centre and Printing.

The Unit commits itself to providing efficient printing service to Council & business units; quality minutes and efficient record keeping of all minutes of Council and its committees.

In an attempt to improve its performance in so far as it concerns the quality management of minutes the Unit introduced various levels of accountability to check agendas and minutes so as to minimize errors and material amendments respectively. In addition, the decisions of Executive and Management Committees are electronically captured at meetings and confirmed at the end of each meeting so as to speed up the implementation of thereof.

#### SERVICE STATISTICS FOR COUNCIL & EXECUTIVE

| COUNCILLORS AND COMMITTEE MEETING DATA 2018/ 2019     |        |
|-------------------------------------------------------|--------|
| ITEM                                                  | NUMBER |
| Total number of Councillors                           | 78     |
| Total number of Executive Committee Members           | 10     |

## COMMENT ON THE PERFORMANCE OF THE EXECUTIVE AND COUNCIL:

In the 2018/2019 financial year portfolio committees held meetings on a regular basis, however some were postponed and rescheduled due to not having the required quorum for meetings to sit. Msunduzi Municipality was also able to meet the legislative deadlines in the development and submission of the Annual Performance Report for 2017/2018, Annual Report 2017/2018, Oversight Report 2017/2018 and also the Section 72 Mid-Year Budget & Performance review as well as the IDP for 2019/2020.

## 6.2 INTERNAL AUDIT

### INTRODUCTION TO INTERNAL AUDIT

Internal Audit is an independent, objective, assurance and consulting activity designed to add value and improve the municipality's operations. The unit assists the municipality in accomplishing its objectives through a systematic, disciplined approach to evaluate and improving the effectiveness of risk management, system of the internal control and governance processes. By its nature, Internal Audit Unit is a governance structure which facilitates improvement on service delivery vehicle by reviewing the design and effectiveness of the system of internal controls around the core mandate and support functions of the municipality. Its role is critical in promoting and enhancing control environment through auditing and recommending solutions to management.

The King III report on Cooperative Governance accepts the need for the Audit Committee in the pursuit of good governance. It aligns the function of internal and external audit directly with the oversight by the Audit Committee. There are oversight committees of Council who are role-players to advocate for the combined assurance model. The Audit Committee's primary focus is on financial reporting, risk management, governance, performance information and system of internal control space which the universal organisation space.

There is synergy between the Audit Committee and the various Council Oversight Committee structures which are responsible to ensure effective governance. If, for instance, an audit was undertaken on the quality of infrastructure provision and maintenance, the results of the audit are communicated to the Infrastructure AND Services Committee to enable it to play its oversight role. This makes the Portfolio committee to play an oversight role on the system of internal control, risk management and governance in their respective Portfolios and enable them to monitor implementation of corrective measures rather than to rely on the reports by management which may be selective.

A positive change has been realized through internal audit effort by changing the approach of auditing. The planning includes focus on risks within the municipality, compliance with regularity framework, performance information and core mandate of the municipality.

### SERVICE STATISTICS FOR INTERNAL AUDIT

Internal Audit Unit was guided by its Annual Audit Plan for 2018/19 on the assurance function as approved by the Audit Committee, anti-fraud and corruption strategy.

Twenty (20) audits were planned for the 2018/19 financial year, and nineteen (19) were removed from the plan during mid-year. The removal of the nineteen (19) audits from the annual plan was as a result of a Consulting Activity on the Financial Management Intervention which seeks to provide a holistic view on the integrated systems of internal controls rather than looking at pockets of processes.

Two (2) audits which were scheduled to be completed during the 2018/ 2019 financial year will be rolled over to the 2019/ 2020 Financial Year due to client unavailability. Consulting Activity on the SAP ISU and HCM (Payroll) modules was also undertaken in order to address the system deficiencies which had a negative impact on operations. Findings were discussed with management and follow-up audits have been scheduled for the 2019/ 2020 Financial Year. The drastic changes on the annual plan was also influenced by the audit outcomes which warranted in change in approach.

| INTERNAL AUDIT POLICY OBJECTIVES TAKEN FROM THE IDP |                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                    |                      |                                                                                                                              |                                                                                                                                                                                                                |                                    |                                                                                                              |                                                                                                                                     |                                            |                                                                                                                  |                      |                                                                                                                                                           |

#### COMMENT ON THE PERFORMANCE OF INTERNAL AUDIT OVERALL

The performance of the unit was above average in terms of the approved annual plan. The unit still has a challenge of internal capacity and is heavily reliant on consultants. The Acting Chief Audit Executive was stretched to the limit as the Chief Audit Executive was still on suspension since April 2016.

After the suspension the Municipality appointed an Acting Chief Audit Executive up until 28 January 2018 who was then replaced by another acting incumbent. When the change of the acting incumbent took place the risk management function was removed out of internal audit unit to be a stand-alone function. The new acting incumbent had to oversee assurance (internal audit, ICT auditing and Audit of Performance Information), forensic investigations and Audit Committee support function.

## COMPONENT G: SAFE CITY – MUNICIPAL ENTITY – MSUNDUZI MUNICIPALITY

**SAFE CITY MSUNDUZI NPC, Reg. No. 2010/024562/08  
CHAIRPERSON'S ANNUAL REPORT - FOR THE YEAR ENDING 30TH JUNE 2019**

### 1. BACKGROUND:

Safe City Pietermaritzburg was formally constituted as an Association incorporated under section 21 of the Companies Act on 28 March 2002. Upon advice from the Intervention Team that took over Msunduzi Municipality Administration Safe City was compelled to register as a (Pty) LTD company. Safe City then has been advised to register as a Non-For-Profit Company due to tax complications and the application has been approved by the Companies Intellectual Properties Commission (CIPC).

The Safe City project is a partnership which is governed by an agreement by which the Municipality would make the necessary financial resources available for the operation of the organisation as well as the capital expenditure required to extend the CCTV surveillance to other parts of the city. The Service Level Agreement (SLA) for the financial year 2018/19 has been agreed upon and signed by the Municipal Manager and Safe City Chairperson on the 31st July 2018

### 2. DIRECTORS:

During the previous financial year, the Msunduzi Municipal Council had resolved that an advertisement will be placed inviting interested persons to be considered as directors of Safe City Msunduzi NPC. Council has also resolved that the current Board of Directors will be retained as an interim board until new directors have been appointed. Unfortunately, the advertisement has not been placed as yet and the current Board of Directors are still functioning as an interim board. There is a need for directors with skills and knowledge in respect of:

- Municipal Finance Management requirements i.e. GRAP
- Company's Act and in particular the provisions of the King IV document
- Information Technology
- Human Resource Management
- Accounting
- Legal
- The principles of CCTV street surveillance

It was also resolved to remunerate the interim board of directors in accordance with National Treasury guidelines.

### PARTNERS

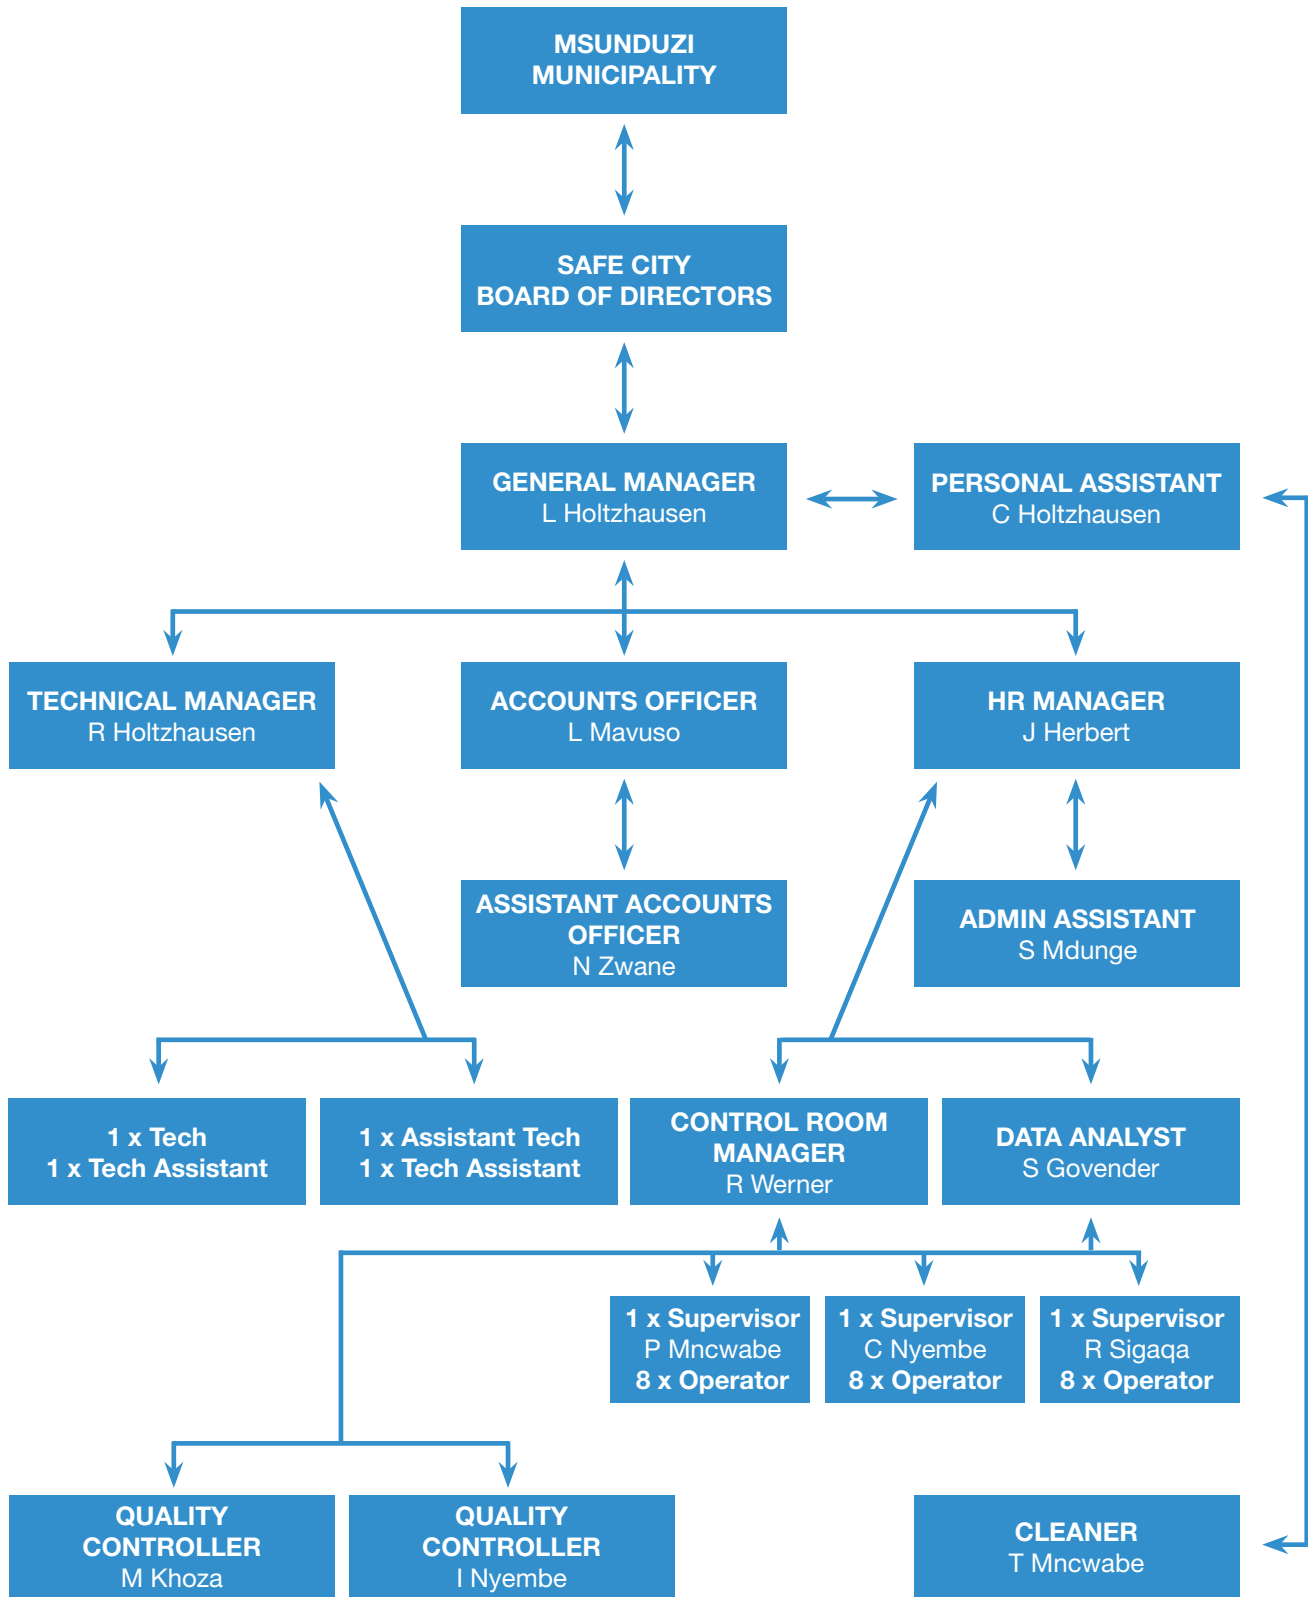

Safe City considers its partnership with the Msunduzi Municipality and the South African Police Service (SAPS) to be one of its notable strengths, while it also enjoys constructive relationships with the National Prosecuting Authority (NPA), Business Fighting Crime (BFC) and various Community Police Forums (CPF). Operational meetings are being held on a daily, weekly as well as a monthly basis to discuss crime related matters and to improve this working relationship.

Safe City have a SAPS representative present in the Control Room on a 24/7 basis, whilst Traffic - and Waste Management officials perform duties on week days between 07:00 and 16:00. A dedicated operational desk has been made available solely for the purpose to detect bylaw infringements such as littering and to monitor traffic flow during peak traffic hours. There remains a dire need for a dedicated Municipal Response team to respond timeously to all bylaw infringements detected by Safe City. Incidents such as the posting of illegal abortions posters and littering which defaces our beautiful city are being detected on a daily basis but the response from Municipal Law Enforcement officials are not efficient in order to combat this menace.

Through Business Fighting Crime (BFC) Safe City retain its efficient communication with the Pietermaritzburg Business Sector.

**3. STAFFING:**

**SAFE CITY MSUNDUZI NPC ORGANOGRAMME**

**4. PARTICULAR MATTERS RELATING TO THE YEAR 2018/19**

**4.1 Safe Guarding of Priority Primary Electrical Sub Stations.**

The primary sub stations as listed in the below is being monitored 24/7 at the Safe City Control Room as well as at the Electricity Dept. in Havelock Road. It needs however to be emphasized that the above installation is only phase 1 of three phases to ensure that all Msunduzi Priority substations are effectively safe guarded against vandalism and theft of equipment. Since the installation of CCTV cameras at these sub stations no cases of theft or vandalism has been reported.

Safe City has 98 CCTV cameras located at the following sub stations and monitored 24/7.

| Sub Station   | Number of CCTV cameras |
|---------------|------------------------|
| Riverside     | 19                     |
| Relief Street | 17                     |
| Prince Alfred | 13                     |
| Mkondeni      | 15                     |
| Hesketh       | 7                      |
| Woodburn      | 8                      |
| Northdale     | 8                      |
| Pine Street   | 11                     |

#### 4.2 Street Surveillance Cameras

Safe City have 71 street surveillance cameras which are located in the following areas and monitored 24/7.

| Area                | Number of CCTV cameras |
|---------------------|------------------------|
| Alan Paton          | 1                      |
| Northdale           | 4                      |
| CBD                 | 56                     |
| Freedom Square Taxi | 10                     |

With the exception of the Freedom Square Taxi rank cameras the street surveillance system can be regarded as antiquated and with the inclusion of the recording equipment needs to be upgraded as soon as possible. The system has been in operation on a 24/7 basis since the 1st January 2003 and spares can no longer be obtained at reasonable prices to repair or replace crucial components. The operational capacity of the system has diminished to a point where recorded footage can become questionable for investigation or prosecuting purposes. This system needs to be upgraded as a matter of urgency.

#### 4.3 The Public Announcement System as a Law Enforcement Tool

The PA system has been used with great success during the past financial year. Please see statistics in the below.

The PA system is being utilised for the following purposes:

- When suspects are detected in an area, pedestrians or the public will be warned to be on the alert and to secure their valuables as they might become victims of crime.
- Potential victims will be advised to secure their handbags or valuables against bag-snatchers or pick-pockets.
- Suspects will be warned that they are under surveillance which in turn will be reduce their opportunities to commit a crime.
- It is envisaged that more speakers will be added in identified hotspot areas depending on the availability of funds

| Type of Announcement           | Number of Occasions |
|--------------------------------|---------------------|
| General Public Warnings        | 20                  |
| Fighting                       | 2                   |
| Suspicious Behaviour           | 35                  |
| Municipal Bylaw Infringements  | 41                  |
| Possession of Dangerous Weapon | 2                   |
| <b>Total</b>                   | <b>100</b>          |

## 5. FINANCE:

#### Safe City Banking Accounts:

First National Bank: Boom Street Branch:  
Current Acc No 62035467978  
Money Market: 62035942392

#### 5.1 Safe City Capital Budget:

##### 5.1.1 2018/19 Financial Year

The amount of R3 500 000 has been applied for in order to upgrade the existing CCTV system. Unfortunately, no capital budget was allocated for this purpose. As highlighted in para. 5.2 there is an urgent need to upgrade to a digital system which will greatly assist surveillance staff in the detection of crime and bylaw infringements. This matter has again been highlighted in the Safe City multi - year business plan which has been submitted with the 2019/20 budget application.

#### 5.2 Safe City Operating Budget:

##### 5.2.1 2018/19 Financial Year:

Safe City applied for R11 811 746 (incl vat) for the financial year in order to maintain its high level of service excellence. We would like to thank the Municipality for allocating the said amount to us. This increase has been used to maintain the ageing CCTV infrastructure and also to accommodate staff salary increases and benefits in accordance with PSIRA guidelines.

### 5.2.2 2019/20 Financial Year:

For the financial year 2019/20 Safe City has applied for R13 086 078 (incl vat). The increase in budget allocation is to accommodate inter alia the estimate cost of:

- R665 500 to be paid to the Auditor General and
- R479 160 to be paid for ensuring our assets which has been transferred from the Municipality to Safe City.

The allocation will also be used to ensure that:

- Staff salaries are as per the Sectoral 6 determination
- Staff benefits such as medical aid and pension fund is maintained.
- Maintenance is conducted on the expanded CCTV system as per the SDBIP for 2019/20

### 5.3 Financial Contributors:

The following local companies and institutions paid for or gave discounts to Safe City in the day to day running of the business.

| Name of Co       | Value   | Period  | Service Provided                    |
|------------------|---------|---------|-------------------------------------|
| Ben Booysen      | R23 433 | 2018/19 | Servicing of Air conditioners       |
| Colenbrander Inc | R11 900 | 2018/19 | Book keeping and compilation of AFS |

## 6. CONTROL CENTRE PERFORMANCE:

### 6.1 Core Functions:

- The 24/7 surveillance operation is the core of Safe City's business.
- It is ISO 9001:2015 certified and SABS approved.

#### Primary Function:

- The monitoring of traffic and Municipal Bylaws such as littering, street gambling and illegal trading.
- Facilitating the Automatic Number Plate Recognition (ANPR) system for the execution of outstanding traffic warrants and the recovery of outstanding revenue
- The prevention, detection and investigation of crime
- The maintenance of the existing CCTV system
- Advising Msunduzi Municipality on expansion of CCTV system
- Oversee the design, specification and installation of new CCTV equipment.

#### Secondary Function:

- Facilitating the Disaster Management JOC
- The monitoring of gatherings, marches and events of public interest within camera visual area.
- Attend meetings with the Municipality to determine possible additional services.
- Liaise with Community Police Forums, Bank Task Group and Non-Ferrous Metal Forum.
- Informing the public and business community regarding current crime tendencies and advise them on crime prevention strategies.
- Receive and disseminate crime information and public complaints via the Safe City SMS Safe project and App to the relevant role-players'.

### 6.2 Standard Procedure

The crime statistics for Pietermaritzburg are submitted to the Control Room every weekday morning by the SAPS Pietermaritzburg Central. These statistics together with observations made by our surveillance staff is analysed on a daily basis. An operational plan is then compiled to address any tendencies detected or for planned events. This procedure enables operators to be more crime - and bylaw prevention orientated. With all suspicious incidents detected the SAPS, Traffic or Waste representative will determine the appropriate response required to address the matter.

The yearly target for SAPS dispatches is between 50% and 60% of Incidents Detected. A record is maintained of vehicle despatches as compared with Incidents detected.

An arrest is made when the suspect is apprehended. It often happens that after an arrest has been made the complainant refuses to open a case. This tendency is very frustrating as suspects then continue to commit crimes elsewhere. The latter is then reflected as a preventable operation which counts as a success for the operator. The Station Commander of SAPS Pietermaritzburg Central has issued a station order instructing SAPS member to charge the suspects in these circumstances with the Possession of Stolen Property.

### 6.3 Summary of Operational Performance: 2018/19

| Description                              | 2017/18      | 2018/19      |
|------------------------------------------|--------------|--------------|
| No of Incidents Detected                 | 4828         | 3719         |
| Response by SAPS Units                   | 705          | 597          |
| No Response by SAPS                      | 132          | 118          |
| SAPS Response Time                       | Ave 7.1 min  | Ave 6.8 min  |
| Bylaw Incidents detected                 | 1277         | 957          |
| Response by Municipal Law Enforcement    | 600          | 264          |
| No Response by Municipal Law Enforcement | 445          | 347          |
| Municipal Law Enforcement Response Time  | Ave 20.7 min | Ave 23.9 min |
| Arrests Effectuated                      | 282          | 219          |
| % Camera down time                       | 1.97%        | 1.28%        |

### 6.3.1 Incidents Detected

The total of 3716 incidents were detected compared to 4828 incidents the previous year. This decrease can be attributed to the redefining of general and crime incidents. Some of the incidents detected are as follows:

| Type                          | Number |
|-------------------------------|--------|
| Fighting                      | 739    |
| Bylaw Infringements           | 957    |
| Suspicious behaviour          | 608    |
| Motor vehicle Accidents       | 313    |
| Marches and Gatherings        | 113    |
| Medical Conditions            | 27     |
| Robbery Related               | 98     |
| Possible Poss. of Stolen Prop | 54     |

### 6.3.2 Responses by the SAPS

The total number of responses of the SAPS was 597 compared to the target of 1152. No Responses by SAPS units was reported in writing to the Station Commander of Pietermaritzburg Central.

### 6.3.3 Arrests Made:

The number of arrests made was 219 compared to 282 of the previous year. The decrease can be attributed to 82% of reported crimes now occurs out of camera view.

### 6.3.4 SAPS Response Time

The average response time for SAPS vehicles to respond is calculated from the time of notifying the SAPS Emergency Control Room until a vehicle arrives on the scene the average 6.8 min compared to the ave. 4-min target.

Although the target for SAPS response times is 4 min it is subject to traffic congestion and the availability of manpower and vehicles. The Station Commander for Pietermaritzburg Central Brig Zondi has given his undertaking that Safe City complaints will receive priority attention and that competent SAPS members be sent to the Control Room.

### 7.3.5 Camera Downtime:

The average camera downtime was 1.9%. Safe City's target is 10%. There has been a number of power outages in the CBD which had a negative impact on the functionality of the CCTV cameras. A number of deep cycle batteries has been installed at high priority cameras in order to ensure that the area remains under surveillance during power outages. The Technical Manager and his team enjoy a healthy relationship with the Electricity dept. and electricity interruptions are normally restored in a short space of time.

## 7. KPA's/KPI's 2018/19

Safe City's KPA and KPI's for 2018/19 was aligned with the SDBIP.

| SAFE CITY POLICY OBJECTIVES TAKEN FROM THE IDP |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                |                                    |                          |                                                                                              |                          |                                    |                      |                    |                                            |                                    |                      |                                                                                                                                                                                                                                |

## 8. SUSTAINABILITY AND GOVERNANCE:

The Board of Directors remains committed in maintaining strict ethical standards in the operations of Safe City, and accordingly undertakes from time to time reviews of its business practices and governance responsibilities. In this regard, a number of important policies has been compiled and others reviewed and approved by the Board of Directors during 2018/19.

## 9. CONCLUSION

Safe City has again enjoyed a very fruitful relationship with the city's administration during 2018/19 and Safe City would like to thank the Mayor, Councillor Themba Njilo, the previous Municipal Manager, Mr Sizwe Hadebe, Acting Municipal Manager, Ms. Nelisiwe Ngcobo, Council and other senior officials for their constructive support towards the Safe City project and for supporting our belief that Safe City is performing a valuable community service. We are very grateful that Council has approved the nomination of Board Directors for attending board meetings for the 2018/19 financial year onwards.

It always remains an important objective for Safe City to be a centre of excellence in order to ensure the safety of the public when visiting the Msunduzi precinct and also to provide an acceptable service to the Municipality, SAPS, National Prosecuting Authority and other stakeholders. With the increase in the number of people visiting our city on a daily basis this objective has become more challenging year after year. Our aging surveillance system is starting to have a negative impact of our operating capability. In this regard, we would like to appeal to the municipality to allocate capital funding to Safe City to undertake projects such as the upgrading of our ageing surveillance system, the completion of safeguarding the remaining electrical primary sub stations against theft and vandalism and also to expand the surveillance footprint to areas such as Edendale Business Centre. These projects have been included in our three (3) year Business Plan.

Also, of equal importance is to assist the Municipality in the enforcement of relevant bylaws. The lack of bylaw enforcement greatly contributes to crime and grime in our city. The lack of respect for the city bylaws can clearly be observed in the manner in which motorists behave whilst driving and also the amount of litter that is strewn in our streets and other public places. In order to enforce our bylaws Safe City would appeal to the Municipality to establish a dedicated Municipal Re Action Unit who can operate in conjunction with Safe City to effectively address bylaw infringements. This action will also reduce the opportunities for serious crime to take place especially in congested areas.

We would also like to thank all our partners including BFC, SAPS, NPA and several others who are, to a lesser or greater extent, stakeholders in our operation.

The members of the Safe City Board are also thanked and commended for their support and commitment. The Board wishes thank the Management and staff of Safe City for their commitment in ensuring that Safe City remains a centre of excellence despite numerous operational as well as financial challenges.

We reserve our particular gratitude to the Msunduzi Municipality, the main funder of this operation. We also acknowledge the financial contributions from Ben Booysen, and Colenbrander Inc. in the form of considerable discounts on their respective contractual costs with Safe City as well as the valuable assistance rendered by legal advisors Venn's, and the local media on reporting safety and security matters.

## **COMPONENT H: FINANCIAL PERFORMANCE**

All relevant information relating to Financial Performance of Msunduzi Municipality & Safe City (Municipal Entity) will be dealt with in terms of the Annual Financial Statements.

## SECTION 2: ANNUAL REPORT ON THE SERVICE DELIVERY & BUDGET IMPLEMENTATION PLAN AND OPERATIONAL PLAN 2018/2019 FY

The Service Delivery and Budget Implementation Plan (SDBIP) is a legislative requirement as per the Municipal Finance Management Act (MFMA). The SDBIP gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget. The SDBIP facilitates the accountable role that managers hold to the Council and that Councillors hold to the community. It also fosters the management, implementation and monitoring of the budget, the performance of senior management and the achievement of the strategic objectives as laid out in the IDP.

Chapter 1 of the MFMA describes the SDBIP as:

A detailed plan approved by the mayor of a municipality in terms of section 53 (1) (c)(ii) for implementing the Municipality's delivery of services and the execution of its annual budget and which must include the following:

- (a) projections for each month of –
  - (i) Revenue to be collected by source; and
  - (ii) Operational and capital expenditure, by vote;
- (b) Service delivery targets and performance indicators for each quarter”.

In terms of the provisions above, IN-YEAR monitoring on service delivery indicators was conducted according to the attached SDBIP on a monthly & quarterly basis and reports thereof submitted to the Operational Management Committee (OMC), EXCO, the Full Council, Portfolio Committees, Municipal Public Accounts Committee and the Audit Committee. Monitoring through the SDBIP enables the City Manager to monitor the performance of Senior Managers, the Mayor to monitor the performance of the City Manager and for the community to monitor the performance of the municipality as each activity contains outputs, outcomes and timeframes. The SDBIP is compiled on an annual basis.

As the SDBIP is a management and implementation tool, and not a policy proposal, it is not required to be approved by Council - it is however tabled before Council and made public for information and monitoring purposes. However, the top layer of the SDBIP cannot be revised without the approval of the Council. During the 2011/2012 financial year, the municipality developed a quarterly dashboard reporting process. In 2018/19 the municipality continued to implement the dashboard process of reporting. The dashboard is colour-coded in order to serve as an early indicator warning system in order to identify areas that require intervention in areas of non/under performance. Monthly & Quarterly reports on the SDBIP 2018/2019 were submitted to Council and are available on request.

During the Strategic Planning Process for the 2018/2019 financial year a management decision was taken to differentiate between service delivery indicators that have a direct impact on the community and those that are operational, support and auxiliary services. In this regard for the 2018/2019 financial year the SDBIP has been developed to focus on the service delivery indicators and the Operational Plan 2018/2019 has been developed to focus on operational, support and auxiliary services.

The SDBIP 2018/2019 contains Public Participation Units (Office of the Speaker, Office of the Mayor, Office of the MPAC Chairperson & Office of the Municipal Manager), Community Services Units (Area Based Management, Waste Management, Recreation & Facilities as well as Public Safety Enforcement and Disaster Management), Infrastructure Units (Water and Sanitation, Roads and Stormwater, Electricity & Mechanical Workshops) and Sustainable Development & City Enterprises Units (Development Services, Town Planning and Environmental Management, City Entities & Human Settlements). Also included are the Legislated Performance Indicators as regulated by the National and Provincial Departments of Cooperative Governance and Traditional Affairs (CoGTA). As prescribed by legislation, the Municipality must set and monitor key performance indicators of all municipal entities. To fulfil this, SAFE CITY the only registered municipal entity; key performance indicators were also developed and inserted in the SDBIP 2018/2019.

All other units provide operational, support and auxiliary services to the Municipality and have been placed on the Operational Plan 2018/2019. The Operational Plan 2018/2019 contains the Corporate Business Units (Internal Audit, Communications & IGR, Integrated Development Plan and Organisational Compliance, Performance & Knowledge Management), Budget & Treasury Units (Budget, Revenue Management, Expenditure Management, Supply Chain Management, SAP, Financial Governance & Performance Management & Assets & Liabilities), Infrastructure Units (Project Management Office), Corporate Services Units (Legal Services, Information Communication Technology, Secretariat & Auxiliary Services and Human Resources) and Sustainable Development & City Enterprises (Development Services, Town Planning and Environmental Management & Human Settlements).

The graphical representations below illustrate the performance of the municipality, for the 2016/2017 financial year, as per the colour-coded dashboard.

| COLOUR | SCORE          | DESCRIPTION                   | PERCENTAGE    | KEY |
|--------|----------------|-------------------------------|---------------|-----|
|        | N/A            | TOTAL PROJECTS                | N/A           | KEY |
|        | 1              | NIL ACHIEVED                  | 69% and below |     |
|        | 2              | TARGET PARTIALLY MET          | 70% - 99%     |     |
|        | 3              | TARGET MET                    | 100% - 129%   |     |
|        | 4              | TARGET EXCEEDED               | 130% - 149%   |     |
|        | 5              | TARGET SIGNIFICANTLY EXCEEDED | 150% - 167%   |     |
|        | NOT APPLICABLE | N/A                           | N/A           |     |

There were a total of 123 Key performance indicators on the SDBIP 2018/2019, 80 being operating projects and 43 being capital projects. There were a total of 195 Key performance indicators on the OP 2018/2019, 193 being operating projects and 2 being capital projects.

## SDBIP 2018/2019 ANNUAL PROGRESS REPORT ORGANISATIONAL OVERVIEW

- 1. TOTAL PROJECTS: 123
- 1.1 OPERATING PROJECTS: 80
- 1.2 CAPITAL PROJECTS: 43

### GRAPHICAL REPRESENTATION OF PERFORMANCE: OPERATING PROJECTS

- 1. A total of 80 Operating Projects were reported on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2. 43.75% of the projects were reported as having achieved a 1 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 3. 10% of the projects were reported as having achieved a 2 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 4. 36.25% of the projects were reported as having achieved a 3 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 5. 6.25% of the projects were reported as having achieved a 4 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 6. 3.75% of the projects were reported as having achieved a 5 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 7. 0% of the projects were reported as not applicable on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT

### GRAPHICAL REPRESENTATION OF PERFORMANCE: CAPITAL PROJECTS

- 1. A total of 43 Capital Projects were reported on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2. 48.84% of the projects were reported as having achieved a 1 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 3. 9.30% of the projects were reported as having achieved a 2 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 4. 30.23% of the projects were reported as having achieved a 3 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 5. 9.30% of the projects were reported as having achieved a 4 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 6. 2.33% of the projects were reported as having achieved a 5 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 7. 0% of the projects were reported as not applicable due to not having any targets on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT

**OPERATIONAL PLAN (OP) 2018/2019 ANNUAL PROGRESS REPORT  
ORGANISATIONAL OVERVIEW**

**CONCLUSION:**

This Annual Performance report reflects the performance of Business Units during the financial year 2018/2019.

During the 2018/2019 financial year Msunduzi Municipality made great strides in trying to ensure that the municipality did not receive a poor Audit opinion for performance management. A number of systems, procedures and interventions were implemented during this period to assist with ensuring the alignment of the Integrated Development Plan, Budget & Service Delivery & Budget Implementation Plan (SDBIP) in order for the communities to receive quality services. The municipality also undertook several interventions to ensure that the communities it serves were continuously informed of matters pertaining to service delivery.

## CHAPTER 4 – ANNUAL FINANCIAL STATEMENTS

## ACCOUNTING OFFICER'S RESPONSIBILITIES AND APPROVAL

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the consolidated annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the consolidated annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the consolidated annual financial statements and was given unrestricted access to all financial records and related data.

The consolidated annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The consolidated annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that she is ultimately responsible for the system of internal financial control established by the municipality and its entity and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and its entity and all employees are required to maintain the highest ethical standards in ensuring the economic entity's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality and its entity is on identifying, assessing, managing and monitoring all known forms of risk across the municipality and its entity. While operating risk cannot be fully eliminated, the municipality and its entity endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the consolidated annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality and its entity's cash flow forecast for the year to 30 June 2020 and, in the light of this review and the current financial position, she is satisfied that the municipality and its entity has or has access to adequate resources to continue in operational existence for the foreseeable future.

Although the accounting officer is primarily responsible for the financial affairs of the municipality, she is supported by the municipality's audit committee, internal and external auditors.

The external auditors are responsible for independently auditing and reporting on the municipality and its entity's consolidated annual financial statements.

I certify that the salaries, allowances and benefits of councillors as disclosed in note 51 of these Consolidated Annual Financial Statements are within the upper limits of the framework envisaged in section 219 of the Constitution, read with Remuneration of Public Officer Bearer Act and the Minister of Provincial and Local Governments determination in accordance with this Act.

The consolidated annual financial statements set out on page 244 - 371 which have been prepared on the going concern basis, were approved by the accounting officer on 30 September 2019 and were signed on its behalf by:

**Accounting Officer**  
**Nelisiwe Margret Ngcobo (Acting)**  
**Pietermaritzburg**  
**Monday, 30 September 2019**

## ACCOUNTING POLICIES

### 1. Presentation of Consolidated Annual Financial Statements

The consolidated annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003). The reporting Framework is as prescribed by the Accounting Standards Board in Directive 5.

These consolidated annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these consolidated annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

#### 1.1 Presentation currency

These consolidated annual financial statements are presented in South African Rand, which is the functional currency of the economic entity.

#### 1.2 Going concern assumption

These consolidated annual financial statements have been prepared based on the expectation that the economic entity will continue to operate as a going concern for at least the next 12 months.

#### 1.3 Materiality

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

#### 1.4 Significant judgements and sources of estimation uncertainty

In preparing the consolidated annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the consolidated annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the consolidated annual financial statements. Significant judgements include:

##### **Allowance for slow moving, damaged and obsolete stock**

An allowance for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items. The write down is included in the operation surplus note.

##### **Impairment testing**

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The economic entity reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors including economic factors.

##### **Provisions**

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 20 - Provisions.

##### **Useful lives of waste and water network and other assets**

The economic entity's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

##### **Post retirement benefits**

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 21.

## Effective interest rate

The economic entity used the prime interest rate to discount future cash flows.

## Debt Impairment

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition unless if the effect of discounting is immaterial.

### 1.5 Agricultural assets

The entity recognises agricultural assets or agricultural produce when, and only when:

- the entity controls the asset as a result of past events;
- it is probable that future economic benefits or service potential associated with the asset will flow to the economic entity; and
- the fair value or cost of the asset can be measured reliably.

Agricultural assets are measured at their fair value less costs to sell.

The fair value of the tree plantations is based on the combined fair value of the land and trees. The fair value of the raw land and land improvements is then deducted from the combined fair value to determine the fair value of the trees.

A gain or loss arising on initial recognition of agricultural assets or agricultural produce at fair value less costs to sell and from a change in fair value less costs to sell of agricultural assets is included in surplus or deficit for the period in which it arises.

Where market determined prices or values are not available, the present value of the expected net cash inflows from the asset, discounted at a current market-determined pre-tax rate where applicable is used to determine fair value.

### 1.6 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the economic entity, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

## Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

If the entity determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably measurable when construction is complete, it measures that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier). If the entity determines that the fair value of an investment property (other than an investment property under construction) is not reliably determinable on a continuing basis, the entity measures that investment property using the cost model (as per the accounting policy on Property, plant and equipment). The residual value of the investment property is then assumed to be zero. The entity applies the cost model (as per the accounting policy on Property, plant and equipment) until disposal of the investment property.

Once the entity becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on property, plant and equipment.

### 1.7 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the economic entity; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost. Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows:

| Item                               | Depreciation method | Average useful life |
|------------------------------------|---------------------|---------------------|
| Land                               | Straight line       | Infinite            |
| Buildings                          | Straight line       | 5 - 50 years        |
| Roads                              | Straight line       | 5 - 50 years        |
| Plant and machinery                | Straight line       | 5 - 15 years        |
| Furniture and fixtures             | Straight line       | 7 - 10 years        |
| Motor vehicles                     | Straight line       | 5 - 10 years        |
| System security                    | Straight line       | 5 - 10 years        |
| Storm water drainage               | Straight line       | 25 - 50 years       |
| Airport Infrastructure             | Straight line       | 20 years            |
| Solid waste infrastructure         | Straight line       | 5 - 10 years        |
| Water and sanitation               | Straight line       | 10 - 50 years       |
| Major substations:buildings        | Straight line       | 5 - 50 years        |
| Transformers and related equipment | Straight line       | 50 years            |
| Mains                              | Straight line       | 45 years            |
| Street lighting                    | Straight line       | 50 years            |
| Recreational facilities            | Straight line       | 5 - 50 years        |
| Fresh produce and other markets    | Straight line       | 5 - 50 years        |
| Fire engines                       | Straight line       | 20 years            |
| Transport facilities               | Straight line       | 5 - 50 years        |
| Fencing                            | Straight line       | 10 years            |
| Office equipment                   | Straight line       | 5 - 10 years        |
| Emergency equipment                | Straight line       | 5 - 15 years        |
| Electricity                        | Straight line       | 5 - 50 years        |
| Security                           | Straight line       | 5 - 10 years        |
| Landfill site                      | Straight line       | 5 - 50 years        |
| Heavy and mobile plant             | Straight line       | 10 - 15 years       |
| Bins and containers                | Straight line       | 5 - 10 years        |

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the economic entity. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The economic entity assesses at each reporting date whether there is any indication that the economic entity expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the economic entity revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

The economic entity separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note).

The economic entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

## 1.8 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the economic entity or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the economic entity; and
- the cost or fair value of the asset can be measured reliably.

The economic entity assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

| Item              | Depreciation method | Average useful life |
|-------------------|---------------------|---------------------|
| Computer software | Straight line       | 3 - 5 years         |
| Servitudes        | Straight line       | Indefinite          |

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of intangible assets is included in surplus or deficit when the asset is derecognised.

## 1.9 Heritage assets

Assets are resources controlled by an economic entity as a result of past events and from which future economic benefits or service potential are expected to flow to the economic entity.

Carrying amount is the amount at which an asset is recognised after deducting accumulated impairment losses except for artworks and jewellery.

Class of heritage assets means a grouping of heritage assets of a similar nature or function in an economic entity's operations that is shown as a single item for the purpose of disclosure in the consolidated annual financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

An impairment loss of a cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable amount.

An impairment loss of a non-cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable service amount.

An inalienable item is an asset that an economic entity is required by law or otherwise to retain indefinitely and cannot be disposed of without consent.

Recoverable amount is the higher of a cash-generating asset's net selling price and its value in use.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Value in use of a cash-generating asset is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Value in use of a non-cash-generating asset is the present value of the asset's remaining service potential.

The economic entity separately discloses expenditure to repair and maintain heritage assets in the notes to the financial statements (see note ).

The economic entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note ). The Municipality measures Artworks and jewellery using revaluation model.

### Recognition

The economic entity recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the economic entity, and the cost or fair value of the asset can be measured reliably.

### Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

### Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses except for Artworks.

After recognition as an asset, Artworks, whose fair value can be measured reliably, are carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent impairment losses.

If Artworks carrying amount is increased as a result of a revaluation, the increase is credited directly to a revaluation surplus. However, the increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same heritage asset previously recognised in surplus or deficit.

If Artworks carrying amount is decreased as a result of a revaluation, the decrease is recognised in surplus or deficit. However, the decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that heritage asset.

### Impairment

The economic entity assesses at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the economic entity estimates the recoverable amount or the recoverable service amount of the heritage asset.

### Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

## Derecognition

The economic entity derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is included in surplus or deficit when the item is derecognised.

### 1.10 Living resources

Living resources are assets that undergo biological transformation.

A living resource shall be recognised as an asset if, and only if:

- (a) it is probable that future economic benefits or service potential associated with the asset will flow to the entity; and
- (b) the cost or fair value of the asset can be measured reliably.

Living resources are initially measured at cost and at fair value if acquired through a non-exchange transaction. Subsequent costs shall only be recognised in the carrying amount if service potential associated with the game animals is expected to flow to the municipality.

Subsequently living resources are measured at cost less impairment.

### 1.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or non-collectable amounts.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

## Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

| Class                                      | Category                                   |
|--------------------------------------------|--------------------------------------------|
| Receivables from exchange transactions     | Financial asset measured at amortised cost |
| Receivables from non exchange transactions | Financial asset measured at amortised cost |
| Consumer debtors                           | Financial asset measured at amortised cost |
| Short term investment                      | Financial asset measured at amortised cost |
| Cash and cash equivalents                  | Financial asset measured at amortised cost |
| Housing selling schemes                    | Financial asset measured at amortised cost |

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

| Class                               | Category                                       |
|-------------------------------------|------------------------------------------------|
| Payables from exchange transactions | Financial liability measured at amortised cost |
| Consumer deposits                   | Financial liability measured at amortised cost |
| Unspent conditional grants          | Financial liability measured at amortised cost |
| Other financial liabilities         | Financial liability measured at amortised cost |

The entity has the following types of residual interests (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

## Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

## Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at amortised cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

### 1.12 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

#### **Operating leases - lessee**

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

#### **1.13 Inventories**

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the economic entity incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the economic entity.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### **1.14 Impairment of non-cash-generating assets**

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the economic entity; or
- the number of production or similar units expected to be obtained from the asset by the economic entity.

#### **Designation**

At initial recognition, the economic entity designates an asset as non-cash-generating, or an asset or cash-generating unit as cash-generating. The designation is made on the basis of an economic entity's objective of using the asset.

The economic entity designates an asset or a cash-generating unit as cash-generating when:

- its objective is to use the asset or a cash-generating unit in a manner that generates a commercial return; such that
- the asset or cash-generating unit will generate positive cash flows, from continuing use and its ultimate disposal, that are expected to be significantly higher than the cost of the asset.

The economic entity designates an asset as non-cash-generating when its objective is not to use the asset to generate a commercial return but to deliver services.

An asset used with the objective of generating a commercial return and service delivery, is designated either as a cash-generating asset or non-cash-generating asset based on whether the economic entity expects to use that asset to generate a commercial return. When it is not clear whether the objective is to use the asset to generate a commercial return, the economic entity designates the asset as a non-cash-generating asset and applies this accounting policy, rather than the accounting policy on Impairment of Non-cash-generating assets.

#### **Identification**

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The economic entity assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the economic entity estimates the recoverable service amount of the asset.

#### **Value in use**

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

The present value of the remaining service potential of a non-cash-generating assets is determined using the following approach:

#### **Depreciated replacement cost approach**

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the current reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the economic entity would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

#### **Recognition and measurement**

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued non-cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the economic entity recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### **Reversal of an impairment loss**

The economic entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the economic entity estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued non-cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### **Redesignation**

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

### 1.15 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

Termination benefits are employee benefits payable as a result of either:

- an entity's decision to terminate an employee's employment before the normal retirement date; or
- an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

#### Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognised the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

#### Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans (other than state plans and composite social security programmes) or defined benefit plans (other than state plans) that pool the assets contributed by various entities that are not under common control and use those assets to provide benefits to employees of more than one entity, on the basis that contribution and benefit levels are determined without regard to the identity of the entity that employs the employees concerned.

The municipality provides retirement benefits for its employees and councillors. Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the municipality's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

The Natal Joint Provident, Dynamique Ambrella (Pietermaritzburg Provident Fund) and Umgeni Provident Fund are defined contribution plans. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year they become payable.

The Municipality pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Municipality has no further payment obligations once the contributions have been paid. The contributions are recognized as an employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

## Multi-employer plans and/or State plans and/or Composite social security programmes

The entity classifies a multi-employer plan and/or state plans and/or composite social security programmes as a defined contribution plan.

Where a plan is a defined contribution plan, the entity accounts for in the same way as for any other defined contribution plan.

### Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

When an employee has rendered service to the entity during a reporting period, the entity recognises the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

### Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognise actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the entity recognises past service cost as an expense in the reporting period in which the plan is amended.

Plan assets comprise assets held by a long-term employee benefit fund and qualifying insurance policies.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The entity recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses;
- past service cost;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date. The entity recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- any resulting change in the present value of the defined benefit obligation; and
- any resulting change in the fair value of the plan assets.

### Actuarial assumptions

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
  - those changes were enacted before the reporting date; or
  - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

### **Pension obligations**

The Municipality's employees contribute to 7 different Pension Funds, of which the Natal Joint Provident and Retirement Pension Fund cater for the majority of the staff

The following are defined contribution and benefit funds

- The Natal Joint Provident Fund,
- Dynamique Ambrella (Pietermaritzburg Provident Fund),
- Umgeni Water Provident Fund
- Government Employees Pension Fund,
- Association Institution Pension Fund,
- South African Local Authorities Pension Fund and
- Councillors Pension Fund
- LGM retirement for Municipal Manager

Actuarial valuations are conducted on an interim basis each year with a statutory valuation undertaken every three years. Consideration is given to any extent that could impact the Funds up to the end of the reporting period where the interim valuation is performed at an earlier date.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The economic entity has both defined benefit and defined contribution plans.

The liability / asset recognized in the statement of financial position in respect of defined benefit pension plans is equal to the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Past-service costs are recognised immediately against revenue.

Any asset is limited to unrecognised actuarial losses and past service costs, plus the present value of available refunds and reduction in future contributions to the plan.

Natal Joint Retirement Funds, Government Employee Pension Fund and Associated Institution Pension Fund are defined benefit funds

The Natal Joint Provident Fund, Pietermaritzburg and South African Local Authority are defined contribution funds

### **Other post retirement obligations**

The municipality provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The entity shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

## 1.16 Provisions and contingencies

Provisions are recognised when:

- the economic entity has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Where the effect is material, non-current provisions are discounted to their present value using a prevailing prime rate at year end which reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability, if any (for example in the case of obligations for the rehabilitation of land). The municipality uses the prevailing prime rate at year end.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Future events that may affect the amount required to settle an obligation shall be reflected in the amount of a provision where there is sufficient evidence of occurrence.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus (deficit).

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 62.

A contingent asset is a possible asset that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset is disclosed where an inflow of economic benefits or service potential is probable.

Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue is recognised in the financial statements of the period in which the change occurs.

A contingent liability is:

- (a) a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- (b) a present obligation that arises from past events but is not recognised because:
  - (i) it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
  - (ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits or service potential is remote

Contingent liabilities are assessed continually to determine whether an outflow of resources embodying economic benefits or service potential has become probable. If it becomes probable that an outflow of future economic benefits or service potential will be required for an item previously dealt with as a contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

## 1.17 Commitments

A commitment is a binding agreement to undertake operating and capital expenditure at some set time in the future which has not yet become an actual liability.

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

## 1.18 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

#### Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

#### Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the economic entity has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the economic entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the economic entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the economic entity;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

#### Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Royalties are recognised as they are earned in accordance with the substance of the relevant agreements.

Dividends or similar distributions are recognised, in surplus or deficit, when the municipality's right to receive payment has been established.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

#### 1.19 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by the municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arise when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Non - exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

**Recognition**

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Revenue received from conditional grants, donations and other funding are recognised as revenue to the extent that the municipality has complied with the criteria, conditions or obligations embodied in the grant agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

**Measurement**

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

**Taxes**

The municipality recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

Resources arising from taxes satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The municipality analyses the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for value added tax is the undertaking of taxable activity during the taxation period by the taxpayer.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

**Transfers**

Apart from services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

**Debt forgiveness and assumption of liabilities**

The municipality recognise revenue in respect of debt forgiveness when the former debt no longer meets the definition of a liability or satisfies the criteria for recognition as a liability, provided that the debt forgiveness does not satisfy the definition of a contribution from owners.

Revenue arising from debt forgiveness is measured at the carrying amount of debt forgiven.

**Fines**

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

**Gifts and donations, including goods in-kind**

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

**Services in-kind**

Except for financial guarantee contracts, the municipality recognise services in-kind that are significant to its operations and/or service delivery objectives as assets and recognise the related revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Where services in-kind are not significant to the municipality's operations and/or service delivery objectives and/or do not satisfy the criteria for recognition, the municipality disclose the nature and type of services in-kind received during the reporting period.

#### 1.20 Bad debts written off

Before any debt is written off it is proved that the debt has become irrecoverable.

Irrecoverable debt is debt which cannot be traced successfully; and after all reasonable steps were taken to recover the debt.

Bad debt write-offs are considered in terms of cost benefit; when it becomes too costly to recover and the chances of collecting the debt are remote, a write off is considered.

#### 1.21 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

#### 1.22 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

#### 1.23 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

#### 1.24 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.25 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.26 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

#### 1.27 Housing development fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

#### 1.28 Internal reserves

##### Capital replacement reserve (CRR)

The CRR is an asset financing source that represents an alternative to the other funding sources available to the Municipality namely external loans (interest bearing borrowings) and government grants & subsidies.

Subsequent to the implementation of GRAP in 2008, Reserves and Funds had to be discontinued as they are not permissible in terms of GRAP. However, the National Treasury determined that the CRR is one of the few funds and reserves that are allowed.

As a matter of principle, the focus is the manner in which these reserves are created and accounted for, which in this instance the capital replacement of major components of Infrastructure Assets in the event of technical failure. For accounting purposes, the CRR will be created by transferring amounts out of Accumulated surpluses/deficits to the respective reserve account, or vice versa, in the Statement of Changes in Net Assets. The net effect of these transfers will be nil in the Statement of Changes in Net Assets, and will not affect the value of reserves in totality. It is the requirement of GRAP that no transactions should be accounted for, directly to the Statement of Changes in Net Assets other than those specifically allowed in terms of GRAP, i.e. Revaluation Surplus Reserve. Therefore, situations should be avoided where reserves are created and accounted for, by taking amounts directly to the Statement of Changes in Net Assets thereby circumventing the Statement of Financial Performance.

The CRR will only be utilised for the purpose of purchasing items of property, plant and equipment for the municipality and will not be used for the maintenance of such items.

#### **Self insurance reserve**

The municipality has a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that cannot be insured externally (adapt to specific circumstances).

Claims are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

The municipality operates a self-insurance scheme under the Self-Insurance Reserve, which has a policy that is aligned with the practice in the Insurance Industry. The balance of the Self-Insurance Reserve is determined based on surpluses accumulated since inception.

#### **Compensation for occupational injuries and diseases (COID) reserve**

The Compensation for Occupational Injuries and Diseases Act (Act 130 of 1993) is to provide for payment of medical treatment and compensation for disablement caused by occupational injuries or diseases sustained or contracted by employees in the course of their employment, or for death resulting from such injuries or diseases. The contribution to the COID fund is 0.75% of the salary expense. The municipality is an exempt employer in terms of Section 84 (1) (a)(ii) & (2) and as such does not pay any assessments to the COID Commissioner. In terms of the exempt status the municipality is mandated to establish its own fund and administers this fund in terms of the COID Act.

#### **1.29 Revaluation reserve**

The surplus arising from the revaluation of Heritage assets is credited to a revaluation reserve. The revaluation surplus is realised upon disposal of artworks and jewellery. On disposal, the net revaluation surplus is transferred to the accumulated surplus/deficit while gains or losses on disposal, based on revalued amounts, are credited or charged to the statement of financial performance.

#### **1.30 Tax**

##### **Income tax**

The Municipality is exempted from income tax in terms of section 10(1)(a) of the Income Tax Act.

#### **1.31 Expenditure**

An expense is a decrease in the net financial position of the entity, other than decreases arising from ownership distributions

An expense arises from exchange and non-exchange transactions, other events such as unrealised increases and decreases in the value of assets and the consumption of assets through depreciation and erosion of service potential and ability to generate economic benefits through impairments.

An expense may arise from individual transactions or groups of transactions.

Expenses are recognised in the statement of financial performance when a decrease in future economic benefits or service potential related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. The recognition of expenses occurs simultaneously with the recognition of an increase in liabilities or a decrease in assets

Expenses encompasses losses as well as those expenses that arise in the course of the operating activities of the municipality

Losses represent other items that meet the definition of expenses and may, or may not, arise in the course of the operating activities of the entity. Losses represent decreases in economic benefits or service potential and as such, they are no different in nature from other expenses.

#### **1.32 Budget information**

Economic Entity are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by economic entity shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on an accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2018/07/01 to 2019/06/30.

The budget for the economic entity includes all the entities approved budgets under its control.

The consolidated annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

Deviations between budget and actual amounts exceeding 10 percent are obtained monthly for the preparation of the Section 71 reporting and used during the audit process.

### 1.33 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

A related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the economic entity, including those charged with the governance of the economic entity in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the economic entity.

### 1.34 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The economic entity will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The economic entity will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

### 1.35 Value Added Tax (VAT)

VAT is payable on the receipt and payment basis.

The transaction date is referred to as the "time of supply". Time of supply applies to certain supplies as the prevailing rate of VAT on that date will apply to the transaction concerned.

- before 1 April 2018 – a VAT rate of 14% will apply;
- on or after 1 April 2018 – a VAT rate of 15% will apply.

## NOTES TO THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS

| Figures in Rand | Economic entity |      | Controlling entity |      |
|-----------------|-----------------|------|--------------------|------|
|                 | 2019            | 2018 | 2019               | 2018 |

### 2. New standards and interpretations

#### 2.1 Standards and interpretations effective and adopted in the current year

In the current year, the economic entity has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

| Standard/ Interpretation:                                             | Effective date:<br>Years beginning on or after | Expected impact:                                                                                                                                                                                 |
|-----------------------------------------------------------------------|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| • GRAP 16 (as amended 2016): Investment Property                      | 01 April 2018                                  | The adoption of this has not had a material impact on the results of the municipality, but has resulted in more disclosure than would have previously been provided in the financial statements. |
| • GRAP 17 (as amended 2016): Property, Plant and Equipment            | 01 April 2018                                  | The adoption of this has not had a material impact on the results of municipality, but has resulted in more disclosure than would have previously been provided in the financial statements.     |
| • GRAP 21 (as amended 2016): Impairment of non-cash-generating assets | 01 April 2018                                  | The impact of the standard is not material.                                                                                                                                                      |
| • GRAP 26 (as amended 2016): Impairment of cash-generating assets     | 01 April 2018                                  | The impact of the is not material.                                                                                                                                                               |

#### 2.2 Standards and interpretations issued, but not yet effective

The economic entity has not applied the following standards and interpretations, which have been published and are mandatory for the economic entity's accounting periods beginning on or after 01 July 2019 or later periods:

| Standard/ Interpretation:                                                                                        | Effective date:<br>Years beginning on or after | Expected impact:                                                                                                                                                                                                                                                                                                    |
|------------------------------------------------------------------------------------------------------------------|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| • GRAP 34: Separate Financial Statements                                                                         | 01 April 2020                                  | Unlikely there will be a material impact                                                                                                                                                                                                                                                                            |
| • IGRAP 1 (revised): Applying the Probability Test on Initial Recognition of Revenue                             | 01 April 2020                                  | Impact is currently not known. It is unlikely to result in a material impact on the financial statements.                                                                                                                                                                                                           |
| • Directive 7 (revised): The Application of Deemed Cost                                                          | 01 April 2019                                  | The directive affects future transfer of assets, mergers and assets acquired prior to measurement whose historic cost information is not available. Impact is not yet known.                                                                                                                                        |
| • Guideline: Guideline on Accounting for Landfill Sites                                                          | Effective date not determined                  | The municipality operates a landfill site, after the end of life of the landfill site, disclosure and rehabilitation is required in terms of legislation. Therefore, accounting for land, provision, expenses, discount rate has be to done in line of the guidance. Full impact of the guideline is not yet known. |
| • Guideline: Guideline on the Application of Materiality to Financial Statements                                 | Effective date not determined                  | Materiality decisions on developing policies, disclosure and assessment of misstatements is provided by this guideline. Full impact of the application of the guide                                                                                                                                                 |
| • GRAP 104 (revised): Financial Instruments                                                                      | Effective date not determined                  | Full impact of the standard is not yet known. However, additional disclosure is expected and unlikely to result in a material impact.                                                                                                                                                                               |
| • GRAP 35: Consolidated Financial Statements                                                                     | 01 April 2020                                  | Unlikely there will be a material impact                                                                                                                                                                                                                                                                            |
| • GRAP 36: Investments in Associates and Joint Ventures                                                          | 01 April 2020                                  | Unlikely there will be a material impact                                                                                                                                                                                                                                                                            |
| • GRAP 37: Joint Arrangements                                                                                    | 01 April 2020                                  | Impact is currently not known. It is unlikely to result in a material impact on the financial                                                                                                                                                                                                                       |
| • GRAP 38: Disclosure of Interests in Other Entities                                                             | 01 April 2020                                  | Impact is currently not known. Inventories are recorded using the weighted average cost method.

Inventories expensed during the year 2019: R56 479 898(2018 : R69 327 347)

Inventories are carried at lower of cost or net realisable value.

Inventories losses - consumables for the year ((R16 453 277 ) (2018 : (R4 743 013)).

The land inventory includes land that is earmarked for housing projects as per the municipality's Housing Development Plans and Housing Sector Plans by Human Settlements.

The land will be transferred to beneficiaries once the legal title is transferred to the beneficiaries.

#### Inventory pledged as security

No inventory was pledged as security for either overdraft facilities or any financial liabilities of the municipality.

### 4. Short term investment

## Receivables from exchange transactions pledged as security

There are no receivables from exchange transactions pledged as security for any financial liabilities of the municipality.

## Credit quality of trade and other receivables

The credit quality of trade and other receivables that are neither past nor due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates:

The credit quality of receivables from exchange transactions are neither past due nor impaired except for land sale debtors, insurance claims and IDT.

There is an ongoing dispute between IDT and Msunduzi Municipality on an amount that was paid by Msunduzi Municipality to IDT for the implementation of infrastructure projects. IDT was appointed as an implementing agent and advance payments were made to IDT during 2011/12 and 2012/13 financial years. The projects were implemented; however, IDT was unable to account for work amounting to R108 836 507. The municipality referred the matter to the legal team for a civil litigation and has not been finalised a yet. The receivable has been fully impaired since IDT is disputing the receivable and the matter is still under litigation.

Average rate of return is based on average interest rate on all bank and investment accounts 6.79 % (2018: 6.15%)

Due to the short term nature of these investments, no amortisation was performed.

No cash and cash equivalents were pledged as security for any financial liabilities.

No restrictions exist with regard to the use of cash.

No portion is past due or impaired.

## The municipality had the following bank accounts

## Non-financial information

The municipality owns a plantation forest that produces felled trees for timber production, separately disclosed as consumable biological assets.

There were no harvests or sales made during the year.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

Agricultural assets have been measured at fair value less costs to sell in accordance with GRAP 27.

Refer to note 72 for risk management strategies on agricultural assets

#### Pledged as security

No agricultural assets have been pledged as security.

#### Restrictions imposed by regulations

There are no agricultural assets whose use or capacity to sell is subject to restrictions imposed by regulation.

#### Methods and assumptions used in determining fair value

Agricultural assets has been accounted for in terms of GRAP 27 and comprises of plantation owned by the municipality. Agricultural assets are not depreciated annually but valued at year end in order to determine their fair value as prescribed in GRAP 27.

The valuation at 30 June 2019 was performed by Malcolm Gardiner.

Malcolm Gardiner is a member of the South African Council for Property Valuers Profession (SACPVP), and has the required qualifications and expertise in the valuation of agricultural assets.

The valuations conform to South African Valuation Standards and were arrived at by reference to market evidence of transaction prices.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

**Other information**

The municipality has elected to use the cost model when accounting for heritage assets, except for artworks and jewellery.

Artworks and jewellery whose fair value can be measured reliably are carried at the revalued amount, being their fair value at the date of valuation less any subsequent impairment losses.

Artworks has been valued on 30 June 2019 for the 2018/19 financial year.

According to the municipality's accounting policy, artworks are revalued every 4 years.

Artworks were last valued in the 2014/15 financial year.

Jewellery was last valued in the 2018/19 financial year.

According to the municipality's accounting policy, jewellery are revalued every year.

**List of heritage assets where the values cannot be determined**

**Legal Deposit collection at the Bessie Head Library**

In 1916, the Natal Society Library (now the Msunduzi Municipal Library – Bessie Head Library) was identified as one of five libraries in South Africa accorded Legal Deposit status. This privilege helped make it into one of South Africa's major research and information libraries. Legal Deposit libraries play a unique and very important role as custodians, in perpetuity, of this country's cultural wealth and information. They also have to make this information available, as widely as possible, to the citizens of South Africa. The Legal Deposit Collection has become an important asset. Since 1916, the Msunduzi Municipal Library has amassed a huge collection of South African books, pamphlets, periodicals, maps and newspapers which it has to preserve for future generations. Due to the nature of the class of heritage assets, the Department of Arts and Culture has confirmed that there is no monetary value as there is no active market.

The valuation of artworks was performed by Harriet Marry Giffillan who is an independent professional Appraiser and has experience in the valuation of artworks and jewelleries.

The valuations were arrived at by reference to market analysis, market records and trends relating to each artist and type of artwork was researched in order to arrive at a fair value.

#### Pledged as security

No intangible assets have been pledged as security for any financial liabilities.

#### Restricted title

There are no intangible assets whose title is restricted.

#### Details of valuation

The municipality elected to use the cost model when accounting for intangible assets. After initial recognition, an intangible asset shall be carried at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets were assessed for impairment using the depreciated replacement cost method.

Servitudes have an infinite useful life as they are rights held by the Municipality to property.

**Pledged as security**

No investment property has been pledged as security for any financial liabilities.

**Details of property**

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

**Details of valuation**

The effective date of the latest revaluations was 30 June 2019. Revaluations were performed by an independent valuer, Martin Ficht who is not connected to the municipality and has recent experience in location and category of the investment property being valued.

The valuation was based on open market value for existing use.

Adjustments to the valuation is attributable to change in market value of investment property.

These assumptions are based on current market conditions.

Martin Fichet and Mike Hanlsoo are members of the South African Council for Property Valuers Profession (SACPVP), and have the required qualifications and expertise in the valuation of investment properties. The valuations conform to South African Valuation Standards and were arrived at by reference to market evidence of transaction prices for similar properties.

Investment property has been accounted for in terms of GRAP 16 and comprises both land and buildings owned by the municipality.

|                 | 2019            | 2018 | 2019               | 2018 |

**Amounts recognised in surplus or deficit**

|                                         |           |           |           |           |
|-----------------------------------------|-----------|-----------|-----------|-----------|
| Rental revenue from Investment property | 1 111 112 | 1 691 065 | 1 111 112 | 1 691 065 |
|-----------------------------------------|-----------|-----------|-----------|-----------|

There are no restrictions on the realisability of investment property or the remittance of revenue and proceeds of disposal of investment property.

The municipality has adopted the fair value model in accounting for investment properties.

The municipality does not hold any operating property interest.

There were no repairs, maintenance and direct operating expenses related to investment property.

Tenants are responsible for repairs and maintenance.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

Included in Investment is vacant land which has been invaded/illegally occupied. The land has a carrying value R 25 330 000.

The illegally occupied land is not considered impaired by management as the service potential is not considered affected as this land is addressed by the Rapid urbanisation management within the parameters of the approved land use scheme.

#### Pledged as security

No living resources have been pledged as security for any financial liabilities.

#### General Information

The Msunduzi Municipality Bisley Nature Reserve's main purpose is the conservation of a representative system of biodiversity encompassing fauna, flora and unique scenery within the nature reserve. The municipality does not manage the reserve for reproduction of biodiversity.

The municipality is involved in biological transformation of fauna and flora primarily as a service to the community for the main purpose of recreation rather than for sale.

#### Other information

The living animals assets have been measured at fair value.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

#### Details of valuation

The valuation as at 30 June 2019 was performed internally, using values provided by Ezemvelo KZN Wildlife as a guide.

### Pledged as security

No property, plant and equipment has been pledged as security for any financial liabilities.

### Other information

Refer to Appendix A for detailed property, plant and equipment schedule.

The Msunduzi Municipality has elected the Cost Model when accounting for property, plant and equipment, and property, plant and equipment is depreciated using the straight line method.

During the year the municipality undertook a conditional assessment of fixed assets, which culminated in the additional decreases/increases in remaining useful lives of assets.

The municipality applies the depreciated replacement cost method to calculate impairment.

Property, plant and equipment were assessed for impairment.

Property plant and equipment were impaired by R5 719 753 (2018 : R3 722 558) as a result of conditional assessment.

Included in property, plant and equipment is vacant land which has been invaded/illegally occupied. The land has a carrying value of R52 437 457.

The illegally occupied land is not considered impaired by management as the service potential is not considered affected as this land is addressed by the Rapid urbanisation management within the parameters of the approved land use scheme.

**Landfill rehabilitation provision**

The landfill site provision represents management's best estimate of the municipality's rehabilitation liability based on a valuation provided by an external consultant on the remaining useful life of the landfill site.

One Pangaea Financial was appointed to provide the provision for the programme for closure of the New England Road landfill site. At the end of the life of the landfill site, the municipality is expected to restore the landfill site to the condition it was before its use.

According to the National Environmental Management Act, Act 107 of 1998, the operation of a landfill results in an obligation to rehabilitate the landfill and prevent any further pollution after closure thereof. The landfill site provision was created to ensure that the site is environmentally and publicly acceptable and suited to the implementation of the proposed end-use. The rehabilitation cost is anticipated to be spent in 2024, the expected end of life of the landfill site, according to expert's report. As at 30 June 2019, the estimated remaining life of the landfill site is six years.

**The key assumptions used by the experts were:**

Net discount rate 3.20%  
 Type of waste – domestic waste mostly  
 Average density of waste - 0.75 tonnes per cubic metre  
 Expected growth rate of waste generation - 1.12%  
 Excavatable cover depth - 2.5 metres  
 Cover to waste ratio – 1: 4

At the reporting date there were no future events that could affect the cost of rehabilitating the land fill site.

**Alien vegetation provision**

According to the National Environmental Management Act, 1998 (Act No. 107 of 1998) the municipality was encouraged to recognise a provision in this regard.

The Department of Agriculture has since 2006 provided considerable support to the municipality in terms of clearing listed alien invasive plants.

The municipality's involvement and responsibility is effectively operational support to the Department of Agriculture for the clearing of listed alien invasive plants.

No work has been carried out during the current reporting period.

**Litigation**

Litigations against the Municipality recognized as provisions are those that the appointed attorneys have considered probable that the Municipality is liable and an outflow of economic benefits associated with the litigation is expected and the costs can be measured reliably.

**Key assumptions provided by legal counsel are -**

Net effective discount rate - 15.5%

**21. Employee benefit obligations**

**Defined contribution plan**

The Council provides retirement benefits to its employees by contributing to either a Provident fund, Retirement Pension Fund or Superannuation Pension Fund.

Membership to either a pension or provident fund is compulsory for all permanent employees.

The majority of the members and the Council contributes to the Natal Joint Municipal Pension and Provident funds (NJMP), employees contribute to the South African Local Authorities Pension Fund (SALA) and, Associated Institution Pension Fund (AIPF), Pietermaritzburg Provident Fund and Government Employees Pension Fund (GEPF). Employees contributing to SALA, AIPF, Pietermaritzburg Provident Fund and GEPF make up the minority of members contribution to the pension funds. The municipality's liability in these funds cannot be determined owing mainly to the assets not being allocated to each employer and one set of financials being compiled for each fund and not for each contributing employer.

The majority of personnel are members of the following pension funds:

**KwaZulu-Natal Joint Municipal Provident Fund**

An actuarial valuation was performed on 31 March 2018 by Argen Actuarial Solutions.

The market value of the fund's assets was R4 105 682 000 as at 31 March 2018.

*Results of the valuation*

The Fund self-insures its risk benefits in excess of the full benefit. It therefore maintains a Risk Reserve Account as a measure of protection against volatility in claims experience. The amount of R23 071 000 required to be held in the Risk Reserve Account.

The Fund is financially sound as at the valuation date.

Benefits of the fund:

- 1) Pension age - 65 years
- 2) Earliest retirement age - 58 years (55 years if more than 10 years continuous service)
- 3) Full benefit - Initial transfer plus member's contributions plus employer's contributions for full benefits plus investment earnings and bonuses.
- 4) Member's portion of full benefits - Initial transfer plus members' contributions plus local authorities' contributions for full benefits plus interim, special and final bonuses.
- 5) Benefit on retirement after earliest retirement age or pension age - full benefit.
- 6) Benefit on retirement because of ill health - full benefit.
- 7) Benefit on death in service - Full benefit plus 0.7% of annual pensionable salary for each month of potential service to a maximum of 2.1 years salary.

### Contributions to the fund

Members may choose to contribute at a rate of 5%, 7% or 9.25% of their pensionable emoluments in terms of regulation 14(a).

Local Authorities Contributions.

Participating employers contribute at a rate of 1.95 times of the rate of members contribution in terms of regulation 17(1)(b).

### Natal Joint Municipal Pension Fund: (Superannuation) actuarial valuation

An actuarial valuation was performed on 31 March 2018 by Argen Actuarial Solutions.

The market value of the fund's assets was R 11 685 250 000 as at 31 March 2018.

The regulations of the fund have been amended with effect from 1 July 2004, so that the Committee of Management is able to levy a separate surcharge on local authorities which grant excessive salary increases, thereby causing a financial strain on the fund to the detriment of other stakeholders. The employers are no longer permitting members to join the Fund, so that it is effectively closed to new members. This means that the average age will increase over time which, in turn, means that the required rate of contribution will also increase. Thus, once the surcharge ceases, the underlying rate of contribution will not be sufficient to meet the cost of the benefits. It is necessary to set aside a reserve to hold assets equal to the expected shortfall. For this reason a "Contribution Reserve is held equal to the present value of the shortfall in terms of the Financial Services Board's Circular PF117 for the 5 years to 2015 when it is expected that the surcharge will cease.

#### Benefits of the fund:

- 1) Members Contributions - 9.25% of pensionable salaries.
- 2) Pension age 65 years.
- 3) Final average salary - average annual pensionable salaries during the last year of service.
- 4) Pension on retirement at pension age - 2.2% of final average emoluments per year of continuous service.
- 5) Lump sum on retirement at pension age - 8.25% of final average emoluments per year of service.
- 6) Pension on retirement because of ill-health (minimum ten years continuous service) - pension as for retirement at pension age.
- 7) Lump sum on retirement because of ill-health (minimum 10 years continuous service) - lump sum as for retirement at pension age.
- 8) Lump sum on retirement because of ill health (less than ten years continuous service) - the greater of the resignation benefit or twice the members contributions
- 9) Surviving spouses pension on death in service - 1,2% of final average emoluments per year of continuous service that the member would have had at the pension age.
- 10) Surviving spouses pension on death of pensioner - 1,2% (0,77% in the case of a pensioner who retired before 1 July 1999) of final average emoluments per year of continuous service.
- 11) Lump sum on death in service - Annual pensionable emoluments.10.75% of final average salaries.
- 12) Withdrawal - members contribution plus 5/12% for each month of continuous service (the addition is approximately equal to compound interest at 10% a year) and increased by 5% for each complete year of service up to a maximum of 20 years.

## Post employment medical aid

The municipality's employees and councillors are members on 6 accredited medical aid schemes, namely:

- 1) Bonitas,
- 2) Discovery Health,
- 3) Hosmed,
- 4) Key-Health,
- 5) LA Health
- 6) SAMWU Med,

Pensioners continue on the option they belonged to on the day of their retirement.

The latest actuarial valuation was performed by Arch Actuarial Consulting for the period ended 30 June 2019.

The valuation undertaken in accordance with the requirements of Professional Guidance Note (PPN) 301 of the Actuarial

Society of South Africa.

The expert is independent and an approved pension fund valuator and a member of the Actuarial Society of South Africa (ASSA).

According to the last valuation the accrued liability amounted to R 526 821 870 (2018: R 629 854 699).

#### Long service awards

The long service awards provision represents the amount of money that should be set aside in present day terms to cover all expected long service awards for current employees.

The long service award provision is created to ensure adherence to SALGA collective agreement requirements. The liability was estimated by an Actuary in terms of GRAP 25 (Employee Benefits).

Long service awards payments are expected on the anniversary of appointment for all the qualifying employees.

At the reporting date there were no future events that could affect the future payment costs for long service awards.

As at 30 June 2019, the liability was estimated by experts, Arch Actuarial Consulting.

The key assumptions used by the experts were:

Net effective discount rate - 2.43%

Average retirement age - 62 years

Mortality during employment - SA 85 - 90

| Figures in Rand | Economic entity |      | Controlling entity |      |

The total post employment medical aid benefit obligation decreased by R 103 032 829 (16%) from the previous valuation due the actuarial gain.

The significant actuarial gain arose chiefly due to the reasons stated below:

- 1) Fewer than expected members remained on a medical aid scheme at retirement
- 2) On average, members who retired on a medical aid scheme did so with a lower proportion of spouse dependants (about 60%).
- 3) On average, members bought down to cheaper medical aid options.
- 4) There were more exits than expected since the last valuation.

**Key assumptions used**

Assumptions used at the reporting date:

|                                                  |        |         |        |         |
|--------------------------------------------------|--------|---------|--------|---------|
| Discount rates used                              | 9,24%  | 9,52%   | 9,24%  | 9,52%   |
| Health care inflation rate                       | 6,74%  | 7,32%   | 6,74%  | 7,32%   |
| Maximum subsidy inflation rate                   | 4,68%  | 5,12%   | 4,68%  | 5,12%   |
| Proportion with a spouse dependant at retirement | 60,00% | 90,00%  | 60,00% | 90,00%  |
| Continuation of membership at retirement         | 75,00% | 100,00% | 75,00% | 100,00% |

The projected unit credit method is used as the standard valuation methodology for the valuation done during the reporting period.

On average, members who retired on a medical aid scheme did so with a lower proportion of spouse dependants (about 60%) compared to the previous valuation (90%).

**Other assumptions**

Assumed healthcare cost trends rates have a significant effect on the amounts recognised in surplus or deficit. A one percentage point change in assumed healthcare cost trends rates would have the following effects:

|                                            | One percentage point increase | One percentage point decrease | One percentage point increase | One percentage point decrease |

Experience adjustments are the effects of differences between the previous actuarial assumptions and what has actually occurred.

#### Long service awards

The long service awards provision represents the amount of money that should be set aside in present day terms to cover all expected long service awards for current employees.

The long service award provision is created to ensure adherence to SALGA collective agreement requirements. The liability was estimated by an Actuary in terms of GRAP 25 (Employee Benefits).

Long service awards payments are expected on the anniversary of appointment for all the qualifying employees.

At the reporting date there were no future events that could affect the future payment costs for long service awards.

As at 30 June 2019, the liability was estimated by experts, Arch Actuarial Consulting.

The key assumptions used by the experts were:

Net effective discount rate - 2.43%  
Average retirement age - 62 years  
Mortality during employment- SA 85-9

## 22. Unspent conditional grants and receipts

Unspent conditional grants and receipts comprises of:

| <b>Unspent conditional grants and receipts</b> |                    |                    |                    |                    |

**25. Capital replacement reserve**

Based on the approval by the strategic management committee on the 7th April 2015 the CRR was created by transferring funds of R 151 935 999 from the accumulated surplus. This reserve will be used for the funding of property, plant and equipment.

Included in the reserve is an amount of R1 975 432 (2018: R8 472 914) in respect to interest earned on the reserve.

Valuations on land and buildings are performed every 4 years in terms of the Municipal Property Rates Act. The last general valuation came into effect on 1 July 2014. Interim/ supplementary valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

The municipality applied for one year exemption and was granted by the MEC COGTA. The new general valuation will be implemented on 01 July 2019.

#### Equitable Share

In terms of the Constitution, this grant is used to subsidise the provision of basic services to indigent community members.

In terms of section 227 of the Constitution, the Equitable Share grant provides funding for the municipality to deliver free basic services to poor households and subsidises the cost of administration and other core services for the municipality.

#### Finance Management Grant

|                                         |             |             |             |             |

Conditions still to be met - remain liabilities (see note 22).

The funding was provided by the Department of Human Settlements for the following:

1. To support GIS with the interrogation of housing layout against services in Edendale.
2. To support the finalisation of the town planning scheme.
3. For the development of an integrated land use management system for Edendale.
4. To value additional properties which are not within the 5 priority housing projects.
5. For advertising costs for expropriation of properties.
6. For costs relating to tenure conflicts, cadastral and deed office rectification.
7. For increasing the resources for sales administration with regard to drawing up, signing and managing sales agreements.
8. For the provision of further training for personnel using GIS and property tracking systems.
9. For employment of two planning interns to be employed by the Land Legal Committee for a period of two years.

### Library

|                                         |                  |                |                  |                |

|                                         | <b>8 436 694</b> | <b>9 670 473</b> | <b>8 436 694</b> | <b>9 670 473</b> |

Conditions still to be met - remain liabilities (see note 22).

Funds received from Co-operative Governance and Traditional Affairs for Youth Enterprise Park which emerged to address the challenges of finding appropriate localities for businesses. The concept of the park will be to cluster a purpose built park of 30 to 50 container enterprises in a particular locality either in community, small town or rural district or as part of urban or rural renewal programmes. The programme will also offer on site training facilities and support micro enterprises that operate within the park. The idea is to create a purpose built precinct at scale where the local community is able to take up local economic community opportunities to establish businesses. The Youth Enterprise Park should fundamentally be able to reconnect the economy with communities whose needs offer economic opportunity for its local entrepreneurs.

#### Expanded Public Works Programme

|                                          |             |             |             |             |

Conditions still to be met - remain liabilities (see note 22).

Funds provided by the Office of the Premier to support both the establishment and implementation of the Dlulisumlando Project, a national historical development initiative and imperative.

#### Integrated National Electrification Programme

|                                          |          |             |          |             |
|------------------------------------------|----------|-------------|----------|-------------|
| Balance unspent at beginning of year     | -        | 3 885 495   | -        | 3 885 495   |
| Unspent surrendered to National Treasury | -        | (3 885 495) | -        | (3 885 495) |
|                                          | <b>-</b> | <b>-</b>    | <b>-</b> | <b>-</b>    |

To implement the Integrated National Electrification Programme (INEP) by providing capital subsidies to municipalities to address the electrification.

#### Electricity Smart Grids

|                                      |          |           |          |           |
|--------------------------------------|----------|-----------|----------|-----------|
| Balance unspent at beginning of year | -        | 247 097   | -        | 247 097   |
| Refunded to grant provider           | -        | (247 097) | -        | (247 097) |
|                                      | <b>-</b> | <b>-</b>  | <b>-</b> | <b>-</b>  |

The funding has been provided for the deployment of smart grid solutions to deal with municipal revenue enhancement and public building energy efficiency, data acquisition, collection, modelling and management together with the over-arching facilitation of stakeholder participation and collaboration, cognisant of human capital development and knowledge sharing or transfer to prove the application, adaptability and scalability of such technologies.

#### Jika Joe Community Residential Units

|                                         |                   |          |                   |          |
|-----------------------------------------|-------------------|----------|-------------------|----------|
| Current-year receipts                   | 37 602 972        | -        | 37 602 972        | -        |
| Conditions met - transferred to revenue | (27 087 045)      | -        | (27 087 045)      | -        |
|                                         | <b>10 515 927</b> | <b>-</b> | <b>10 515 927</b> | <b>-</b> |

Conditions still to be met - remain liabilities (see note 22).

Funds provided by the Provincial Department of Human Settlements for the addressing of the housing backlog in the Municipality, and rental stock has been identified as a strategic intervention in addressing the formal accommodation needs. The Jika Joe project has been identified as a priority to address the Jika Joe informal settlement. The project also aims to relocate the residents from the existing Masukwana Street temporary housing and the removal of the of structures.

#### Title Deed Restoration Programme

|                                         |                  |          |                  |          |
|-----------------------------------------|------------------|----------|------------------|----------|
| Balance unspent at beginning of year    | -                | -        | -                | -        |
| Current-year receipts                   | 8 965 991        | -        | 8 965 991        | -        |
| Conditions met - transferred to revenue | -                | -        | -                | -        |
|                                         | <b>8 965 991</b> | <b>-</b> | <b>8 965 991</b> | <b>-</b> |

Conditions still to be met - remain liabilities (see note 22).

Funds provided by the Provincial Department of Human Settlements to assist the municipality to ensure that people approved through the enhanced extended discount benefit scheme and the housing delivery programme, their ownership is confirmed through this title deeds restoration grant.

#### Debt Recovery Plan

The debt that has been written off in the current financial year includes debts that relate to the previous financial years. The municipality has embarked on a debt recovery plan that is focusing on the key Industrial, Commercial and Government debtor categories. The approach is based on the fact that these categories of debtors have a greater potential to pay their service debts that are due, enhancing the municipalities cash flow situation.

The Revenue Enhancement process deals with the escalating debtor's book in the following manner:

- 1) Analysis of our debtor's book to ascertain that there is no existence of debtor accounts balances with prescribed debt.
- 2) All prescribed debt will be reviewed for its existence and valuation to establish if a consumer is consuming the services and are benefiting but not paying with the hope that the municipality will write off the debt.
- 3) Converting indigent customer's meters into prepaid meters.
- 4) In the pipe line, is the plan to convert water credit meters into water prepaid meters.
- 5) Illegal tampering by customers will result in immediate disconnection of services.
- 6) A dedicated team to handle disconnection services.
- 7) We are also doing disconnection over the weekend.
- 8) Installation of all new services installations will be strictly done through prepaid meters.
- 9) Implementation of municipality approved credit control policies.

**47. Impairment loss/ reversal of impairments**

**Impairments**

**Property, plant and equipment**

The procedure used to determine if the asset was impaired was to physically inspect the asset and determine if the asset was impaired and what factors contributed to the impairment and then comparing the condition, age and cost of the asset to the current records in the asset register and if there was a change this was then adjusted accordingly.

**Heritage assets**

The impairment is in respect to a flooding that occurred at the Tatham Art Gallery.

**In-kind benefits**

The Mayor, Deputy Mayor, Speaker and Executive Committee Members are full-time.

Each is provided with an office and secretarial support at the cost of the Council.

The Mayor and the Deputy Mayor each have the use of separate Council owned vehicles for official duties.

The Mayor has three full-time bodyguards. The Deputy Mayor and Speaker have two full-time bodyguards

Normal credit control procedures have been applied for the recovery of all outstanding debt.

Councillors have made arrangements to re-pay outstanding debt.

**Deviation from supply chain management regulations**

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Regulation 36 of the Municipal SCM Regulations of 2005 permits the Accounting Officer to "dispense with official procurement processes established by the policy and to procure any required goods or services through any convenient process".

This would typically include urgent and emergency cases, single-source/sole providers of goods and services, and any other cases where it is impractical to follow normal SCM process. In the event of such a decision, the Accounting Officer is required to report this to the next council meeting for noting.

Operating lease payments represent rentals payable by the municipality for certain office equipment.

#### 62. Contingencies

The municipality is defending various litigation and claim cases against it.

Should the litigation and claims against the municipality be successful the total estimated liability of all the cases is approximately R 99 521 553 (2018:R110 710 555).

Refer to Appendix E1 and E2 for further details.

## 66. Change in estimate

### Property, plant and equipment

GRAP 17: Property, plant and equipment requires that the review of the remaining useful life of an item of property, plant and equipment be conducted at least at each reporting period. The municipality performed this review as at 30 June 2019 and the following results were achieved:

Based on the condition assessment and utilisation of assets ascertained during the physical verification exercise, the remaining useful lives of assets were reviewed.

The impact of the adjustment is that depreciation charges on property, plant and equipment decreased by R23 960 455 (2018: R6 275 757).

It is impractical to determine the amount of the effect in future periods.

### Property, Plant and Equipment - Landfill site provision

Landfill site provision is created to ensure that the municipality will be able to restore the landfill site to its original condition at the end of its life. The provision represents management's best estimate of the municipality's liability with regards to aforementioned restoration costs. The effect of the current year's revision was an increase of R4 738 227 due to change in discount factor and effect of re-measurement.

### Employment benefit obligation

The municipality provides post-employment medical benefits to certain staff members. The provision represents management's best estimate of the municipality's liability with regards to aforementioned post-employment medical benefits. The effect of the current year's revision is a decrease of R103 032 829 to R526 821 870 owing to the net effect of the actuarial gain, current service and interest costs for the reporting period ended 30 June 2019.

### Leave accrual

The leave pay accrual is created to ensure adherence to SALGA collective agreement requirements. It states that at the end of a leave cycle, an employee may not have more than 48 days annual leave to their credit. The effect of this revision has increased the accrual from R90 462 844 to R 107 539 694.

### Long service provision

In terms of the SALGA conditions of service collective agreement, employees qualify for long service leave upon completion of specified periods in the agreement. The provision was created to comply with the agreement. The effect of the current year's revision is a decrease by R2 707 925 to R71 457 540 attributed to the net effect of the actuarial gain, benefits vesting, current service, past service and interest costs for the reporting period ended 30 June 2019.

## 67. Irregular expenditure

Irregular expenditure has not been written off or condoned.

Section 32(4) of the Municipal Finance Management Act requires that Council can deal with these matters in the manner prescribed.

In the case of irregular and fruitless and wasteful expenditure, it is only after an investigation has been conducted that irregular expenditure can be certified as irrecoverable and written off by Council, hence there were no movement between financial years 2008/2009 to 2017/2018 as the investigations are still open and as soon as they are closed Council will write off or condone this expenditure.

A system has been put in place to stream-line the payment process to ensure non occurrence of interest costs. Staff have been advised on possible recovery of costs due to negligence.

Fruitless and Wasteful expenditure has not written off or condoned.

Section 32(2)(b) of the Municipal Finance Management Act requires that Council can deal with these matters in the manner prescribed.

In the case of irregular and fruitless and wasteful expenditure, it is only after an investigation has been conducted that irregular expenditure can be certified as irrecoverable and written off by Council hence there no movement between financial years 2008/2009 to 2017/2018 as the investigations are still open and as soon as they are closed Council will write off or condone this expenditure.

A system has been put in place to stream-line the payment process to ensure non occurrence of interest costs.

Staff have been advised on possible recovery of costs due to negligence.

#### 70. Unauthorised expenditure

|                                       |                    |                    |                    |                    |

| Units sold - kWh      | (1 537 755 297)    | (1 511 945 988)    | (1 537 755 297)    | (1 511 945 988)    |
|                       | <b>248 595 728</b> | <b>272 732 542</b> | <b>248 595 728</b> | <b>272 732 542</b> |

|                                  |             |             |             |             |
|----------------------------------|-------------|-------------|-------------|-------------|
| Electricity loss as a percentage | 13,92       | 15,30       | 13,92       | 15,30       |
| Costs per kWh in cents           | 0,99848     | 0,94196     | 0,99848     | 0,94196     |
| Electricity losses in rand value | 248 217 863 | 256 903 790 | 248 217 863 | 256 903 790 |

The significant electricity losses of kWh 248 595 728 (2018 : 272 732 542 kWh) occurred during the year under review, which resulted in material revenue losses to the municipality.

**The slight decrease of losses from previous financial year may be as a result of the following:**

- 1) Commissioning of the City Grid 132kV underground cables network that replaced the ageing 33kV networks - Commissioning of new 40MVA Power Transformers.
- 2) The commissioning of new Electrification Project in the Informal Settlements areas resulting in the reduced illegal connections in the network.

The acceptable norm of electricity loss is between 7% and 10% as per MFMA circular 71 dated January 2014.

**Some of the main contributing factors to increased electricity losses are:**

**Non –Technical Losses**

- 1) Illegal connections.
- 2) Infrastructure vandalism.
- 3) Metering inaccuracies (due to faulty meters).
- 4) Unmetered energy (meter tempering or bypassing the meter at the customer meter).

**Technical losses (these are inherent in the distribution networks and cannot be eliminated):**

- 1) Ageing infrastructure that results in increased power dissipation during transmission and distribution on lines, cables and transformers in the system.
- 2) Overloading.
- 3) Poor standard of equipment installed.

**How are these losses being addressed**

**Non - technical losses**

A plan to audit all the bulk (medium and low voltage) installations technically has been developed, A plan/program of disconnecting the illegal connections (Human settlement to resolve the land issues) is ongoing, Customers that do not pay their Consolidated Bill timeously are disconnected, Electrification of informal settlement areas, a plan to convert all the manually read meters to on-line meter reading from 100 Amps low voltage up bulk 11 kV has been developed, Eradication plan of joints, mid-block, looped services etc. in progress, The plan to replacement of faulty meters and inaccurate meters has been developed and replacement is in progress, replacement of old wooden substation doors with steel doors to prevent easy access to substations. Regular property inspections to identify bypassed/tampered installations.

**Technical losses**

- 1) The slight decrease of losses from previous financial years may be as a result of the following -Commissioning of the City Grid 132kV underground cables network that replaced the ageing 33kV networks -Commissioning of new 40MVA Power Transformers and also the commissioning of new Electrification Project in the Informal Settlements areas resulting in the reduced illegal connections in the network.
- 2) Refurbishment of the aged infrastructure, conduct system strengthening in the networks to relieve overloading in the networks and purchasing and installation of efficient equipment.
- 3) Establishment of Quality supply unit.

| Figures in Rand            | Economic entity |              | Controlling entity |              |

| Apparent losses            | 5 355 364       | 5 219 415    | 5 355 364          | 5 219 415    |
| Total water losses (kl)    | 20 118 469      | 20 074 674   | 20 118 469         | 20 074 674   |
| Water loss as a percentage | 28,17           | 29,30        | 28,17              | 29,30        |
| Cost per kl in cents       | 7,814           | 6,910        | 7,814              | 6,910        |
| Water loss in rand value   | 157 205 719     | 138 715 997  | 157 205 719        | 138 715 997  |

MFMA circular dictates that real losses and apparent losses be considered jointly as total water losses.

A material water loss of R157 205 719 (2018: R138 715 997) occurred during the year under review.

Progressive deterioration, illegal water connections, aging and increasing levels of fragility in the bulk water infrastructure is progressively contributing to increase in water losses.

**Non-water initiatives undertaken for the duration of the 2018/2019 financial year.**

- 1) The hydraulic model for the entire Vulindlela system was completed.
- 2) Two contracts for water main replacement was advertised in the 2018/19 financial year.
- 3) Reactively responded to and repaired 1781 mainline burst pipes in the 2018/19 financial year.
- 4) The review of the non-revebue water master plan commenced in the 2018/19 financial year.

## 72. Risk management

### Financial risk management

The municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

#### Liquidity risk

The municipality and its entity's risk to liquidity is a result of the funds available to cover future commitments. The municipality and its entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

|                 | Less than 1 year | Between 1 and 2 years | Between 2 and 5 years | Total       |
|-----------------|------------------|-----------------------|-----------------------|-------------|
| At 30 June 2019 |                  |                       |                       |             |
| Borrowings      | 114 310 751      | 80 973 541            | 285 317 996           | 480 602 288 |
| At 30 June 2018 |                  |                       |                       |             |
| Borrowings      | 113 891 401      | 400 915 552           | 50 310 652            | 565 117 605 |

#### Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise mainly water, sanitation, refuse, rates, property rental, electricity and other service chargers, dispersed across different industries and geographical areas. Management evaluated credit risk relating to customers financial conditions on an ongoing basis, and have been presented in these financial statements net of a provision for impairment. In the case of debtors whose accounts become in arrears, it is endeavored to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

#### Market risk

##### Risk from agricultural assets

The municipality is exposed to financial risks arising from changes in timber prices. The municipality does not anticipate that the timber prices will decline significantly in the foreseeable future. The municipality has not entered into derivative contracts to manage the risk of a decline in timber prices. The municipality reviews its outlook for timber prices regularly in considering the need for active financial risk management.

##### Interest rate risk

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk.

**74. Going concern**

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The Provincial Executive Council of KwaZulu-Natal and MEC for Department of Co-operative Governance and Traditional Affairs, resolved to intervene in terms of Section 139 (1) (b) of the Constitution at the municipality and appointed the Ministerial representative. The appointment became effective on 15 April 2019 and will terminate on 14 April 2020. The terms of reference specified the functions of the Ministerial representative which also include the implementation of governance systems and procedures including oversight of the administration including the ratification of decisions taken by the Municipal Council, the Executive Committee, Municipal Manager and Section 56 Managers in terms of the authority.

The Provincial intervention does not have an impact on the municipality's ability to continue as a going concern. In assessing the going concern, management identified indicators casting doubt to the municipality's ability to continue operating as a going concern. These indicators are summarised below :

- 1) A deficit for the current year and past two financial years.
- 2) Adverse liquidity ratios for the current year and the ratios have decreased significantly during the past two years.
- 3) Sub par cash cost coverage ratio. This indicator has declined over the last three years.
- 4) The outstanding gross debtors balance has increased significantly and the majority of the debtors have been outstanding for over 365 days.
- 5) The reserves of the municipality have also decreased due to declining collection rates from debtors.

The following measures are being implemented by management as part of the revenue enhancement strategy and cost containment strategy:

- 1) The expenditure committee was formed to monitor the implementation of the cost containment strategy and to ensure economically efficient spending.
- 2) The revenue enhancement task team was appointed to implement and monitor the revenue enhancement strategy and identification of additional revenue streams.
- 3) The dispute resolution committee was formed to speed up the process of dealing with consumer appeals.
- 4) The debt recovery plan was developed and approved by Council.
- 5) The debt collectors were appointed to recover long outstanding debtor.
- 6) The financial recovery plan was adopted and monitored on a monthly basis.

Despite the above negative indicators, the municipality continues to adopt the going concern assumption as it is management's view that the municipality will continue to operate in its present form in the foreseeable future, as it is primarily funded by government grants and will continue to be funded from the DoRA in the foreseeable future. In addition, management has embarked on an aggressive programme of debt recovery to ensure improved future cash inflows.

## 75. Variance analysis comparison of budget against actual

Reasons are only provided for variances above 10%.

| Account Balance / Transaction / Disclosure              | Current year budget amount, as per approved budget | Current year budget adjustment | Current year budget final amount | Current year-to-date actual amount as at 30 June 2019 | Difference between current year actual and budget | Difference between current year actual and budget - % | Explanation for significant fluctuations                                                                                                                                                                                                                                     |

## DIRECTORS' RESPONSIBILITIES AND APPROVAL

The directors are required by the Companies Act 71 of 2008, to maintain adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is their responsibility to ensure that the financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with Generally Recognised Accounting Practices with the requirements of the Municipal Finance Management Act 56 of 2003.

The financial statements are prepared in accordance with Generally Recognised Accounting Practices with the requirements of the Municipal Finance Management Act 56 of 2003. and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the company's cash flow forecast for the year to 30 June 2020 and, in the light of this review and the current financial position, they are satisfied that the company has or has access to adequate resources to continue in operational existence for the foreseeable future.

The financial statements set out on pages 374 to 385, which have been prepared on the going concern basis, and were approved by the directors on 15 November 2019 and were signed by:

**D Sokhela**

**L Holtzhausen**

## PRACTITIONER'S COMPILATION REPORT

### To the shareholders of Safe City Msunduzi NPC

We have compiled the financial statements of Safe City Msunduzi NPC, as set out on pages 374 to 385, based on the information you have provided. These financial statements comprise the statement of financial position of Safe City Msunduzi NPC as at 30 June 2019, the statement of financial performance, statement of changes in net assets and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

We performed this compilation engagement in accordance with International Standard on Related Services 4410 (Revised), Compilation Engagements.

We have applied our expertise in accounting and financial reporting to assist you in the preparation and presentation of these financial statements in accordance with Generally Recognised Accounting Practices with the requirements of the Municipal Finance Management Act 56 of 2003. We have complied with relevant ethical requirements, including principles of integrity, objectivity, professional competence and due care.

These financial statements and the accuracy and completeness of the information used to compile them are your responsibility.

Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provided to us to compile these financial statements. Accordingly, we do not express an audit opinion or a review conclusion on whether these financial statements are prepared in accordance with Generally Recognised Accounting Practices with the requirements of the Municipal Finance Management Act 56 of 2003.

## ACCOUNTING POLICIES

### 1. Presentation of financial statements

The financial statements have been prepared on a going concern basis in accordance with Generally Recognised Accounting Practices with the requirements of the Municipal Finance Management Act 56 of 2003. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

#### 1.1 Property, plant and equipment

Property, plant and equipment is carried at cost less accumulated depreciation and accumulated impairment losses.

Cost include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Depreciation is provided using the straight-line method to write down the cost, less estimated residual value over the useful life of the property, plant and equipment as follows:

| Item                     | Depreciation method | Useful life |
|--------------------------|---------------------|-------------|
| Furniture and fixtures   | Straight line       | 15 years    |
| Motor vehicles           | Straight line       | 10 years    |
| Office equipment         | Straight line       | 15 years    |
| Computer equipment       | Straight line       | 15 years    |
| Video and data equipment | Straight line       | 20 years    |

If the major components of an item of property, plant and equipment have significantly different patterns of consumption of economic benefits, the cost of the asset is allocated to its major components and each such component is depreciated separately over its useful life.

The residual value, depreciation method and useful life of each asset are reviewed only where there is an indication that there has been a significant change from the previous estimate.

#### 1.2 Impairment of assets

The company assesses at each reporting date whether there is any indication that property, plant and equipment may be impaired.

If there is any such indication, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

#### 1.3 Financial instruments

##### Initial measurement

Financial instruments are initially measured at the transaction price (including transaction costs except in the initial measurement of financial assets and liabilities that are measured at fair value through profit or loss) unless the arrangement constitutes, in effect, a financing transaction in which case it is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

##### Financial instruments at amortised cost

These include loans, trade receivables and trade payables. Those debt instruments which meet the criteria in section 11.8(b) of the standard, are subsequently measured at amortised cost using the effective interest method. Debt instruments which are classified as current assets or current liabilities are measured at the undiscounted amount of the cash expected to be received or paid, unless the arrangement effectively constitutes a financing transaction.

At each reporting date, the carrying amounts of assets held in this category are reviewed to determine whether there is any objective evidence of impairment. If there is objective evidence, the recoverable amount is estimated and compared with the carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

#### 1.4 Trade and other receivables

Trade and other receivables are stated at the nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. The carrying value of these receivables approximate fair value due to the short period to maturity of these instruments. Trade and other receivables from non-exchange transactions are disclosed separately from trade and other receivables from exchange transactions. Trade and other receivables in exchange for which the entity gives approximately equal to another entity are recognised as trade and other receivables from exchange transactions. Trade and other receivables received without directly giving approximately equal value in exchange are recognised as trade and other receivables from non-exchange transactions.

### 1.5 Taxes - Value Added Tax

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is incurred as part of receivables or payables in the Statement of Financial Position.

### 1.6 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less.

### 1.7 Trade and other payables

Trade and other payables are stated at their nominal value. The carrying amount of these payables approximates fair value due to the short period to maturity of these instruments.

### 1.8 Provisions

Provisions are recognised when the company has an obligation at the reporting date as a result of a past event; it is probable that the company will be required to transfer economic benefits in settlement; and the amount of the obligation can be estimated reliably.

### 1.9 Revenue

Revenue is recognised to the extent that the company has transferred the significant risks and rewards of ownership of goods to the buyer, or has rendered services under an agreement provided the amount of revenue can be measured reliably and it is probable that economic benefits associated with the transaction will flow to the company. Revenue is measured at the fair value of the consideration received or receivable, excluding sales taxes and discounts.

Interest is recognised, in profit or loss, using the effective interest rate method.

### 1.10 Revenue from non-exchange transactions

Refers to transactions where the entity received revenue from the Municipality without giving approximately equal value in exchange. Revenue from non exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

### 1.11 Expenditure

Expenditure is recognised using the accrual basis and are recorded in the period in which they are incurred. 1.12 Capital commitments  
A capital commitment is a binding agreement to undertake capital expenditure at some set time in the future which has not yet become an actual liability.

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

### 1.13 Employee benefits

#### Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as leave pay and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

#### Defined contribution plans

Employees contribute to defined contribution retirement fund and benefits are provided to all eligible employees. Contributions are charged as an expense as they fall due and the fund is externally managed.

### 1.14 Tax

#### Tax expenses

Tax expense is recognised in the same component of total comprehensive income or equity as the transaction or other event that resulted in the tax expense.

### 1.15 Related parties

The entity operated in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a constitutional independence of the three spheres of government in South Africa, only entities within the national, provisional and local sphere of government are considered to be related parties.

Management are those persons responsible for planning, directing and controlling the activities of the entity, including those charged with the governance of the entity in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that member of management in their dealings with the entity.

Directors' contributions consist of items that meet the definition of equity, being any contract that evidences a residual interest in the net assets of the company.

The entity is directly controlled by the Msunduzi Municipality.

#### **1.16 Fruitless and wasteful expenditure**

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expenses, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### **1.17 Irregular expenditure**

Irregular expenditure is expenditure that in contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### **1.18 Comparative figures**

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason of the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

#### **1.19 Events after the reporting date**

Subsequent events that are both favourable and unfavourable which occurred between the reporting date and the date when the financial statements are authorised for issue, are included as a disclosure note to the financial statements.

#### **1.20 Prior period accounting errors**

Prior period errors are omissions from, and misstatements in, prior period annual financial statements resulting from the failure to use, or the misuse of, reliable information that was available, or could be reasonably expected to have been obtained, at the time of preparation of those annual financial statements. The applicable changes have been disclosed in note 20.

## NOTES TO THE FINANCIAL STATEMENTS

### 2. New standards and interpretations

#### 2.1 Standards and interpretations issued, but not yet effective.

The entity has not applied the following standards and interpretations, which have been published and are mandatory for the entity's accounting periods beginning on or after 01 July 2019 or later periods:

| Standard/ Interpretation:                                                                                        | Effective date:<br>Years beginning<br>on or after | Expected impact:                         |

**Provision for leave pay**

- The leave pay provision is based on the maximum leave available for staff to use in the 2020 financial year.

**Provision for performance bonus**

- The performance bonus is based on assessments made by management of the staff performance for the current financial year under review.

**Provision for annual bonus (13th cheque)**

- The 13th cheque annual bonus is based on one month's cost to company for all employees in the company's payroll.

#### Service in-kind

The Board of Directors of the entity attended 8 Board meetings during the current year under review for which they were compensated and 6 Board meetings in the prior year for which they were not compensated. As the directors were not compensated for the prior year meetings, this was therefore deemed to be a service in-kind which was considered not significant to the entity.

The company's management attended 7 Municipal Audit Committee meetings in the current year under review and 4 Municipal Audit Committee meetings in the prior year.

Safe City Msunduzi NPC makes use of the Msunduzi Municipality's audit committee and internal audit services, these services in kind were also considered not significant.

Safe City Msunduzi NPC makes use of the Msunduzi Municipality's accounting system - SAP. This is therefore deemed a service-in-kind.

#### 18. Going concern

The financial statements have been prepared on the going concern basis, since the directors have every reason to believe that the company has adequate resources in place to continue in operation for the foreseeable future.

#### 19. Events after the reporting period

The directors are not aware of any matter or circumstance arising since the end of the financial year that has a material impact on the financial statements.

#### 20. Prior period error

The of the prior period adjustment relates to funds received in the current year relating to monies outstanding from prior periods from the South African Revenue Services in relation to the company's change over period as a private company to a non profit company.

The prior period adjustment relates to an accrual for electricity for the 2018 period that had not been recorded in the prior period.

The correction of the error results in adjustments as follows:

#### Statement of Financial Position

| The above expenses did not adhere to the Supply Chain Management rules.                                                                                                                                                                                                                                                                                                                       |                |                |
| Irregular expenditure has not been written off or condoned.                                                                                                                                                                                                                                                                                                                                   |                |                |
| Section 32 (4) of the Municipal Finance Management Act requires that council can deal with these matters in the manner prescribed.                                                                                                                                                                                                                                                            |                |                |
| In the case of irregular and fruitless and wasteful expenditure, it is only after an investigation has been conducted that irregular expenditure can be certified as irrecoverable and written off by the directors. Hence there has been no write-off, as the investigations are still to be done and as soon as they are closed the directors will write off or condone these expenditures. |                |                |
| <b>Details of irregular expenditure</b>                                                                                                                                                                                                                                                                                                                                                       |                |                |
| Insufficient quotations received as required by the procurement process.                                                                                                                                                                                                                                                                                                                      | 100 256        | 181 620        |
| <b>23. #### Notes:

N1 - The variance in interest received is attributable to the company earning more interest than anticipated during the current year.  
N2 - The variance is due to sale of DVD's.

### 2. Expenses

|                               | Actual 2019       | Approved Budget 2019 | Differences approved and actual | Actual 2018      |
|-------------------------------|-------------------|----------------------|---------------------------------|------------------|
| Fixed asset additions (N1)    | 37 965            | 155 774              | 117 809                         | 49 052           |
| Employee costs (N2)           | 7 713 752         | 8 275 055            | 561 303                         | 6 256 738        |
| Other operating expenses (N3) | 2 518 399         | 1 840 254            | (678 145)                       | 2 550 877        |
|                               | <b>10 270 116</b> | <b>10 271 083</b>    | <b>967</b>                      | <b>8 856 667</b> |

#### Notes:

N1 - Fewer assets were purchased in the current year.  
N2 - The variance in employee costs is due to the fact that the budgeted amount was higher than what was actually paid.  
N3 - The variance in other operating expenses is attributable unforeseen expenditure occurring in the current year.  
N4 - The total expenses amounted to R10 270 116 which is less than the budgeted expenses of R10 271 083.

## COMMENT ON MIG:

The late appointment of a panel of consultants impacted negatively on meeting targets of appointing Consultants for Design and supervision of certain projects, it was mainly because of the appeal. The performance of the external service providers entrusted with completing the construction of the few mentioned projects was assessed thoroughly and deemed Poor, Fair or Good. The bulk of the MIG funding was used on water, sanitation and roads projects, however other projects such as high mast lighting, Landfill Site Upgrade, community facilities and bulk water for construction of housing unit were undertaken.

In terms of the way forward and avoiding the challenges experienced in the last financial year the following measures have been put in place.

A comprehensive Procurement Plan has been drafted to ensure projects proceeding according to planned timeframes in accordance with required SCM process. The panel of contractors has been appointed to ensure that there is flexibility in terms of implementing the work.

There has been an initiative to capacitate the Project Management Office of the municipality in order to champion the grants/capex expenditure and address any challenges timeously.

## SEVEN LARGEST CAPITAL PROJECTS PER WARD 2018/2019

Note: As per the above table in respect of the Four Service Delivery Priorities per Ward: the following table contains the summary of the needs as requested by Communities, Ward Committees, Councillors and Amakhosi. For each Need an explanation has been provided under the heading – Nature of Requests.

| NO. | NEED                              | NATURE OF REQUESTS                                                                                                                                                                                                                                                                                                                                                                                              |
|-----|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | <b>Good Governance</b>            | Requests under good governance included the following - communities wanted to be informed about the IDP process, to be involved in the budget process, for ward committees to be established, for the municipality to strengthen relationships between communities and their councillor, for nepotism to be eradicated, many ward requests cited that Councillors must not be involved in the hiring of people. |
| 2   | <b>Repairs &amp; Maintenance</b>  | Repairs & Maintenance included requests for the upgrades of roads, rehabilitation of community facilities like halls and parks, fixing of potholes, building of speed humps, attending to sewage blockages, repairing of burst water pipes, repairs to RDP houses where roofs are leaking,                                                                                                                      |
| 3   | <b>Roads</b>                      | Requests for roads predominantly centred around the building of new roads, link roads, access roads and tarred roads where there have never been roads constructed before.                                                                                                                                                                                                                                      |
| 4   | <b>Economic Development</b>       | It also included the issue of youth development, job creation, training and skills development, small business establishment & other aspects in order to strengthen the economy,                                                                                                                                                                                                                                |
| 5   | <b>Halls / Community Centre's</b> | Request for halls and community Centre's hinged around the construction of new halls and community Centre's which are multi-purpose in nature in order to enhance community development by social cohesion (building to be used by all community members irrespective of colour)                                                                                                                                |
| 6   | <b>Housing</b>                    | Housing requests include the request for RDP houses and houses in general.                                                                                                                                                                                                                                                                                                                                      |
| 7   | <b>Sanitation</b>                 | Toilets & Sanitation requests include requests for the building of new toilet & sanitation systems especially where they have houses but no toilet facilities.                                                                                                                                                                                                                                                  |
| 8   | <b>Sports fields</b>              | Communities want sports fields in their respective areas, sports fields they can use as per their needs in order to strengthen community unity and social engagement.                                                                                                                                                                                                                                           |
| 9   | <b>Street Lighting</b>            | Street lighting includes street lights & high mast lights in order to make areas safe from criminal activities as there are large areas with no street lights                                                                                                                                                                                                                                                   |
| 10  | <b>Electricity</b>                | Electricity needs included new installations of electricity in households which do not have electricity all together, and also the installation of pre-paid meters.                                                                                                                                                                                                                                             |
| 11  | <b>Water</b>                      | Water needs included new installations of piped water to households and the ability to use water within the household through taps in order to do their necessary washing and cleaning.                                                                                                                                                                                                                         |
| 12  | <b>Clinics</b>                    | Communities want to see the municipality ensuring there are clinics in close vicinity of their wards either permanently established or by way of mobile clinics as it is costly to travel to access the health care facility as many are unemployed.                                                                                                                                                            |
| 13  | <b>Crèches</b>                    | Communities want the municipality to build crèches or early childhood development Centre's where parents can leave their children during the day whilst they are at work.                                                                                                                                                                                                                                       |
| 14  | <b>Refuse Collection</b>          | Communities complained that the municipality is failing to keep their communities clean as the pickup of refuse is not constant and is leading to environmental risks for the elderly and young kids as the refuse is not collected for lengthy periods of time and then starts to decompose and smell.                                                                                                         |
| 15  | <b>Bridges</b>                    | Communities have requested the construction of bridges and foot bridges.                                                                                                                                                                                                                                                                                                                                        |
| 16  | <b>Taxi Ranks</b>                 | Communities are tired of standing in the rain in long queues waiting for public transport; they want the municipality to provide either taxi ranks or taxi shelters.                                                                                                                                                                                                                                            |

## CHAPTER 7 – REPORT OF THE AUDITOR GENERAL 2018/2019

### REPORT OF THE AUDITOR-GENERAL TO THE KWAZULU-NATAL PROVINCIAL LEGISLATURE AND COUNCIL ON MSUNDUZI MUNICIPALITY

#### Report on the audit of the consolidated and separate financial statements

##### Qualified opinion

1. I have audited the consolidated and separate financial statements of the Msunduzi Municipality set out on pages 240 to 331, which comprise the consolidated and separate statement of financial position as at 30 June 2019, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget information with actual information for the year then ended, as well as the notes to the consolidated and separate financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the possible effects of the matters described in the basis for qualified opinion section of this report, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of the Msunduzi Municipality as at 30 June 2019, and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP), the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2018 (Act No. 1 of 2018) (Dora).

##### Basis for qualified opinion

##### Property, plant and equipment

3. The municipality did not appropriately account for property, plant and equipment in accordance with SA Standard of GRAP 17, Property, plant and equipment. Items of property, plant and equipment acquired in the prior year were incorrectly recognised as operational costs. Additionally, items of land were recorded at incorrect amounts. I was unable to determine the full extent of the misstatement as it is impractical to do so. Consequently, property, plant and equipment stated at R7 billion (2018: R6,97 billion) included in note 15 to the consolidated and separate financial statements was misstated by an undeterminable amount. This also has an impact on the accumulated surplus.

##### Consumer debtors

4. I was unable to obtain sufficient appropriate audit evidence that consumer debtors had been properly accounted for as the municipality did not have adequate internal controls to maintain records of consumer debtors. Additionally, material mathematical inaccuracies were identified in the calculation of allowance for impairment. I was unable to confirm the consumer debtors by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to consumer debtors stated at R454,84 million (2018: R424,77 million) included in note 8 to the consolidated and separate financial statements. This also has an impact on the debt impairment and the related allowance for impairment.

##### Revenue from exchange transactions – interest from consumer debtors and receivables

5. The municipality did not account for interest from consumer debtors and receivables in accordance with SA Standard of GRAP 9, Revenue from exchange transactions. The municipality did not correctly calculate interest charged to consumers and receivables. I was unable to determine the full extent of the misstatement as it was impractical to do so. Consequently, interest from consumer debtors and receivables stated at R218,93 million (2018: R201,96 million) included in note 29 to the consolidated and separate financial statements was misstated by an undeterminable amount.

##### Revenue from exchange transactions – service charges

6. I was unable to obtain sufficient appropriate audit evidence that revenue from service charges had been properly accounted for as the municipality did not have adequate internal controls to maintain records for service charges. I was unable to confirm the revenue from service charges by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to revenue from service charges stated at R2,94 billion in the consolidated and separate financial statements. This also has an impact on material electricity and water losses included in note 71 to the financial statements.

##### Revenue from non-exchange transactions – property rates

7. I was unable to obtain sufficient appropriate audit evidence that revenue from property rates had been properly accounted for as the municipality did not have adequate internal controls to maintain records for property rates. I was unable to confirm the revenue from property rates by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to revenue from property rates stated at R930,98 million in the consolidated and separate financial statements.

##### Context for the opinion

8. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the consolidated and separate financial statements section of this auditor's report.

9. I am independent of the municipality in accordance with sections 290 and 291 of the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants and parts 1 and 3 of the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA codes) as well as the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA codes.
10. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

**Material uncertainty relating to going concern**

11. I draw attention to the matter below. My opinion is not modified in respect of this matter.
12. As disclosed in note 74 to the consolidated and separate financial statements, a deficit was incurred in the current year and past two years as well as adverse financial ratios. As stated in note 74, these events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern.

**Emphasis of matters**

13. I draw attention to the matters below. My opinion is not modified in respect of these matters.

**Restatement of corresponding figures**

14. As disclosed in note 65 to the consolidated and separate financial statements, the corresponding figures for 30 June 2018 were restated as a result of an error in the financial statements of the municipality at, and for the year ended, 30 June 2019.

**Material losses – electricity**

15. As disclosed in note 71 to the consolidated and separate financial statements, material electricity losses of 248,60 kilowatt hours amounting to R248,22 million (2017-2018: 272,73 kilowatts hours amounting to R256,90 million) were incurred, which represents 14% (2017-2018: 15%) of total electricity purchased. Losses were incurred as a result of illegal connections, infrastructure vandalism, ageing infrastructure, overloading and poor standard of equipment installed.

**Material losses – water**

16. As disclosed in note 71 to the consolidated and separate financial statements, material water losses of 20,12 kilolitres amounting to R157,21 million (2017-2018: 20,07 kilolitres amounting to R138,72 million) were incurred, which represents 28% (2017-2018: 29%) of total water purchased. Losses were incurred as a result of illegal connections and ageing infrastructure.

**Other matters**

17. I draw attention to the matters below.

**Unaudited disclosure note**

18. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the consolidated and separate financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

**Unaudited supplementary schedules**

19. The supplementary information set out on pages 332 to 371 does not form part of the consolidated and separate financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

**Responsibilities of the accounting officer for the consolidated and separate financial statements**

20. The accounting officer is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.
21. In preparing the consolidated and separate financial statements, the accounting officer is responsible for assessing the Msunduzi Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

**Auditor-general's responsibilities for the audit of the consolidated and separate financial statements**

22. My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
23. A further description of my responsibilities for the audit of the consolidated and separate financial statements is included in the annexure to this auditor's report.

## Report on the audit of the annual performance report

### Introduction and scope

24. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for the selected development priority presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
25. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
26. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the development priority B – basic service delivery presented in the annual performance report of the municipality for the year ended 30 June 2019.
27. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
28. The material findings in respect of the usefulness and reliability of the selected development priority are as follows:

### Development priority B – basic service delivery

#### Various indicators

29. The systems and processes that enable reliable reporting of achievement against the indicator were not adequately designed so that data will be collected consistently by implementing adequate controls measures for tracking how achievements can be collected and reported in a manner that is verifiable.

| No. | Performance measure                                                          | Performance Target                                                            | Actual achievement reported |
|-----|------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-----------------------------|
| 1   | Number of zones refuse collected                                             | Refuse collection in all 5 zones of the Msunduzi Municipality by 30 June 2019 | Nil                         |
| 2   | Number of skip bins repaired (various sizes) and/or replaced by 30 June 2019 | 24 skip bins repaired (various sizes) and or replaced by 30 June 2019         | Nil                         |

#### Other matters

30. I draw attention to the matters below.

#### Achievement of planned targets

31. The annual performance report on pages 18 to 239; 447 to 586 includes information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraph 29 of this report.

#### Adjustment of material misstatements

32. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of the basic service delivery development priority. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

## Report on the audit of compliance with legislation

### Introduction and scope

33. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
34. The material findings on compliance with specific matters in key legislation are as follows:

### Financial statements

35. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of non-current assets, current assets, liabilities, revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided, but the uncorrected material misstatements resulted in the financial statements receiving a qualified opinion.

#### Expenditure management

40. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
41. Reasonable steps were not taken to prevent irregular expenditure amounting to R93,05 million as disclosed in note 67 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with Municipal Supply Chain Management Regulations GNR 868 OF 30 May 2005 (MSCMR).
42. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R3,54 million, as disclosed in note 69 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by salaries paid to suspended employees with cases that were not finalised on time.
43. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R170 million, as disclosed in note 70 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending of the approved budget.

#### Revenue management

44. An adequate management, accounting and information system which accounts for revenue, debtors and receipts of revenue was not in place, as required by section 64(2)(e) of the MFMA.
45. An effective system of internal control for debtors and revenue was not in place, as required by section 64(2)(f) of the MFMA.
46. Revenue due to the municipality was not calculated on a monthly basis, as required by section 64(2)(b) of the MFMA.

#### Asset management

47. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

#### Consequence management

48. Unauthorised expenditure incurred by the municipality was not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(a) of the MFMA.
49. Some of the irregular and fruitless and wasteful expenditure incurred by the municipality were not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(b) of the MFMA.
50. Some of the allegations of financial misconduct against senior managers were not always investigated, as required by the disciplinary regulations for senior managers 5(3) and section 171(4) of the MFMA.
51. Some of the allegations of financial misconduct made against officials of the municipality were not investigated by the disciplinary board, relevant treasury or an independent investigator or team of investigators appointed by council, as required by municipal regulations on financial misconduct procedures and criminal proceedings 5(4).
52. Disciplinary proceedings were not instituted by the council when the report of independent investigators confirmed the financial misconduct by a senior manager, as required by disciplinary regulations for senior managers 5(6) and municipal regulations on financial misconduct procedures and criminal proceedings 6(8).
53. Cases of financial misconduct which constitute a crime committed by senior managers and officials were not always reported to the South African Police Service, as required by municipal disciplinary regulations for senior managers 8(4) and municipal regulations on financial misconduct procedures and criminal proceedings 10(1).
54. Allegations of fraud and uttering a forged document which exceeded R100 000 were not always reported to the South African Police Service, as required by section 34(1) of the Prevention and Combating of Corrupt Activities Act (Act No. 12 of 2004).

#### Strategic and performance management

55. Annual performance objectives and indicators were not included in the municipal entity's multi-year business plan, as required by section 93B(a) of the Municipal Systems Act (Act No. 32 of 2000) (MSA).

#### Human resource management

56. A senior manager did not sign a performance agreement within the prescribed period, as required by section 57(2)(a) of the MSA.

#### Other information

60. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and the selected development priority presented in the annual performance report that have been specifically reported on in this auditor's report.
61. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
62. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priority presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

63. The other information I obtained prior to the date of this auditor's report is in the governance section, municipal entity's section and report on grants. The mayor's foreword, overview by the city manager and the audit committee report are expected to be made available to us after 31 January 2020.
64. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact.
65. When I do receive and read the audit committee report and I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

#### Internal control deficiencies

66. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.
67. Leadership did not implement effective controls to ensure accurate financial reporting nor did they exercise adequate oversight of compliance with applicable legislation, which resulted in a qualification on the financial statements as well as non-compliance with key legislation.
68. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting. In this regard, management did not prepare regular, accurate and complete financial and performance reports that are supported and evidenced by reliable information.

#### Other reports

69. I draw attention to the following engagements conducted that had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
70. At the request of the accounting officer and senior management, the internal audit unit performed numerous investigations into allegations made on the whistle-blower hotline. These investigations related to allegations of fraud, corruption, theft, recruitment, mismanagement and supply chain management irregularities. During the 2018-19 financial year, 61 investigations were conducted. Of the 61 investigations conducted, 18 were concluded and reported to council. Forty-three cases relating to recruitment, corruption, misconduct and theft were still in progress at the date of this report.

*Auditor-General*

Pietermaritzburg  
31 January 2020

AUDITOR-GENERAL  
SOUTH AFRICA

*Auditing to build public confidence*

## Annexure – Auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected development priorities and on the municipality’s compliance with respect to the selected subject matters.

### Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor’s report, I also–
  - identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
  - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality’s internal control
  - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
  - conclude on the appropriateness of the accounting officer’s use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Msunduzi Municipality’s ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a municipality to cease operating as a going concern
  - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

### Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also confirm to the accounting officer that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, related safeguards.

## CHAPTER 8 – RESPONSE TO THE REPORT OF THE AUDITOR GENERAL

### RESPONSE TO THE REPORT OF THE AUDITOR-GENERAL ON CONSOLIDATED FINANCIAL STATEMENTS OF THE MSUNDUZI MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2019

#### BACKGROUND AND PURPOSE OF THE REPORT

The report of the Auditor-General dated 31 January 2020 on the Audit of the Accounts of the Council for the financial year ended 30 June 2019, has been received and is on the Council agenda.

In terms of Section 21 (1) and (2) of the Public Audit Act, 2004 (Act No. 25 of 2004):

- [1] The Auditor-General must submit an audit report in accordance with any legislation applicable to the auditee which is the subject of the audit.
- [2] If there is no such legislation as contemplated in subsection (1) the Auditor-General must submit the audit report to the relevant legislature within the reasonable time.

The Accounting Officer must ensure that the requirements of Section 126 (1) and (2) of the Municipal Finance Management Act, (Act 65 of 2003) are complied with.

Section 121 prescribes that the Annual Report of a municipality must include among others the Auditor-General's Audit Report in terms of Section 126 (3) on the financial statements and particulars of any corrective action taken or to be taken in response to issues raised in the audit reports referred to in paragraph (b) and (c) of Section 121.

Comments and action on matters raised in the report are set out below with the numbering corresponding to the report of Auditor-General.

#### GENERAL RESPONSE

Report on the audit of the consolidated and separate financial statements

##### Qualified opinion

1. The office of the Auditor General was engaged to audit the consolidated and separate financial statements of Msunduzi Municipality and its municipal entity, which comprises of the consolidated and separate statement of financial position, statement of financial performance, statement of changes in net assets and the cash flow statement as at 30 June 2019.

It also comprised of the consolidated and separate statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the consolidated and separate financial statements, including a summary of significant accounting policies.

The Auditor-General expressed a qualified opinion with the following basis for qualified opinion:

##### Property, plant and equipment

2. The municipality did not appropriately account for property, plant and equipment in accordance with SA Standard of GRAP 17, Property, plant and equipment. Items of property, plant and equipment acquired in the prior year were incorrectly recognised as operational costs. Additionally, items of land were recorded at incorrect amounts. The Auditor General was unable to determine the full extent of the misstatement as it was impractical to do so. Consequently, property, plant and equipment stated at R7 billion (2018: R6, 97 billion) included in note 15 to the consolidated and separate financial statements was misstated by an undeterminable amount. This also has an impact on the accumulated surplus.

##### Management Response

###### ERF 1820

- Management will engage an Independent Expert in the field of Property Valuation to provide fair valuation of ERF 1820.
- Management will engage with the Town Planning department, the Surveyor General's office, Human settlements department and other relevant stakeholders to ensure adequate subdivisions of ERF 1820.
- Management will then engage the Auditor General early to understand the level of comfort with the approach that will be presented by management in an attempt to resolve the finding.
- Management will then process the necessary adjustments in the interim financial statements to ensure fair presentation of PPE.

###### IDT Assets

- Management will meet with IDT Management to obtain (MOU) Memorandum of Understanding, Project details and Bill of Quantities to substantiate the amounts recorded in the Asset Register.
- Information obtained from IDT will be linked to the assets recorded on the FAR, if new information is obtained it will be verified (Physical inspection) assessed and recorded on the FAR.
- Assets that were leased from IDT will be valued and recognised on the Asset Register.

- Management will reconcile the cost of capital projects in the asset register to the IDT schedule to confirm that the amounts disclosed in the asset register are valid, accurate and complete.
- Management will engage the Auditor General to present a documented approach followed and the additional supporting documents obtained from the process. Any information not obtained from IDT will be discussed with AG for guidance on alternative procedures to confirm Validity, Accuracy and Completeness of IDT Assets.

#### Consumer debtors

3. The office of the Auditor General was unable to obtain sufficient appropriate audit evidence that consumer debtors had been properly accounted for as the municipality did not have adequate internal controls to maintain records of consumer debtors. Additionally, material mathematical inaccuracies were identified in the calculation of allowance for impairment. The Auditor General was unable to confirm the consumer debtors by alternative means. Consequently, he was unable to determine whether any adjustment were necessary to consumer debtors stated at R454, 84 million (2018: R424, 77 million) included in note 8 to the consolidated and separate financial statements. This also has an impact on the debt impairment and the related allowance for impairment.

#### Management Response

- The impairment calculation will be performed on a monthly basis and reviewed to ensure the accuracy of formula and data used.
- The suspense accounts will be regularly reviewed and cleared.
- Management will reconfigure the system to ensure the ageing bucket on the statement to reflect that of the age analysis.
- The schedule of debtors with negative balances will be reviewed on a monthly basis and management will implement the process of allocating these balances against active accounts.
- The suspense accounts will be regularly reviewed and cleared.

#### Revenue from exchange transaction – interest from consumer debtors and receivables

4. The municipality did not account for interest from consumer debtors and receivables in accordance with SA Standard of GRAP 9, Revenue from exchange transactions. The municipality did not correctly calculate interest charged to consumers and receivables. The Auditor General was unable to determine the full extent of the misstatement as it was impractical to do so. Consequently, interest from consumer debtors and receivables stated at R218, 93 million (2018: R201, 96 million) included in note 29 to the consolidated and separate financial statements was misstated by an undeterminable amount.

#### Management Response

- The debt control and credit control policy will be amended to be aligned with GRAP standards and the tariff register.
- The monthly reconciliations between the interest GL account and sub-ledger will be performed and reviewed by management.
- The SAP system will be re-configured to calculate the interest in accordance with the tariff register and updated policy.
- The entire population of interest charged for the current year and prior years will be reviewed and the system adjusted accordingly.

#### Revenue from exchange transactions – service charges

5. The office of the Auditor General was unable to obtain sufficient appropriate audit evidence that revenue from service charges had been properly accounted for as the municipality did not have adequate internal controls to maintain records for service charges. He was unable to confirm the revenue from service charges by alternative means. Consequently, he was unable to determine whether any adjustment was necessary to revenue from service charges stated at R2, 94 billion in the consolidated and separate financial statements. This also has an impact on material electricity and water losses included in note 71 to the financial statements.

#### Management Response

- The supporting documents for adjustments to the customer accounts will be uploaded and saved onto SAP system.
- The tariff register will be updated to address the gap identified on the approved tariffs. Additional details will be included on the tariff policy explaining that the charge is based on daily tariffs.
- The configuration of the SAP system will be changed to allow the correction accounts to be made without the reversal of the previous billing documents.
- The revenue standard operating procedures will be developed and these will include a detailed billing process.
- The database of all the reversal documents and matching invoices for the current and prior year will be extracted and be available for audit

#### Revenue from non-exchange transactions – property rates

6. The office of the Auditor General was unable to obtain sufficient appropriate audit evidence that revenue from property rates had been properly accounted for as the municipality did not have adequate internal controls to maintain records for property rates. He was unable to confirm the revenue from property rates by alternative means. Consequently, he was unable to determine whether any adjustment was necessary to revenue from property rates stated at R930, 98 million in the consolidated and separate financial statements.

#### Management Response

- An exception report reflecting all accounts with no billing orders will be generated from the 15th of each month and regular intervals thereafter. The report will be reviewed by the manager and any unbilled account rectified.
- A transaction code be created to extract the report on the comparison of the number of properties billed for each month.
- The configuration of the SAP system will be changed to allow the correction accounts to be made without the reversal of the previous billing documents.
- A dedicated team will be appointed at revenue section to deal with all the revenue related requests and findings raised.

#### EMPHASIS OF MATTERS AND OTHER MATTERS:

The following matters were raised by the Auditor-General

## Restatement of corresponding figures

7. As disclosed in note 65 to the consolidated and separate financial statements, the corresponding figures for 30 June 2018 were restated as a result of an error in the financial statements of the municipality at, and for the year ended, 30 June 2019.

### Management Response

Management agrees with finding. The financial statement will be adjusted accordingly.

### Material losses - electricity

8. As disclosed in note 71 to the consolidated and separate financial statements, material electricity losses of 248,60 kilowatt hours amounting to R248,22 million (2017-2018: 272,73 kilowatts hours amounting to R256,90 million) were incurred, which represents 14% (2017-2018: 15%) of total electricity purchased. Losses were incurred as a result of illegal connections, infrastructure vandalism, ageing infrastructure, overloading and poor standard of equipment installed.

### Management Response

The material losses are noted and will be part of the action plan developed by infrastructure to address water and electricity losses.

### Material losses - water

9. As disclosed in note 71 to the consolidated and separate financial statements, material water losses of 20, 12 kilolitres amounting to R157, 21 million (2017-2018: 20, 07 kilolitres amounting to R138, 72 million) were incurred, which represents 28% (2017-2018: 29%) of total water purchased. Losses were incurred as a result of illegal connections and ageing infrastructure.

### Management Response

The material losses are noted and will be part of the action plan developed by infrastructure to address water and electricity losses.

### Other matters

I draw attention to the matters below:

### Material uncertainty relating to going concern

10. As disclosed in note 74 to the consolidated and separate financial statements, a deficit was incurred in the current year and past two years as well as adverse financial ratios. As stated in note 74, these events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern.

### Unaudited disclosure note

11. In terms of section 125(2) (e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the consolidated and separate financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

### Unaudited supplementary schedules

12. The supplementary information set out on pages 332 to 371 does not form part of the consolidated and separate financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

### Responsibilities of the accounting officer for the consolidated and separate financial statements

13. The accounting officer is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.
14. In preparing the consolidated and separate financial statements, the accounting officer is responsible for assessing the Msunduzi Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

### Auditor General's responsibilities for the audit of the consolidated and separate financial statements

15. The Auditors General objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes their opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
16. A further description of the Auditors General responsibilities for the audit of the consolidated and separate financial statements is included in the annexure to the auditor's report.

## Report on the audit of the annual performance report

### Introduction and scope

17. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PM) and the general notice issued in terms thereof the office of the Auditor General have a responsibility to report material findings on the reported performance information against predetermined objectives for the selected objectives presented in the annual performance report. They performed procedures to identify findings but not to gather evidence to express assurance.
18. Their procedures addressed the reported performance information, which was based on the approved performance planning documents of the municipality. They did not evaluate the completeness and appropriateness of the performance measures included in the planning documents. Their procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, there findings do not extend to these matters.
19. The Auditors General evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected objectives presented in the annual performance report of the municipality and its municipal entity for the year ended 30 June 2019:
20. The Auditor General performed procedures to determine whether the reported performance information was consistent with the approved performance planning documents. He performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
21. The material findings in respect of the usefulness and reliability of the selected objectives are as follows:

### Development priority B - Basic service delivery

#### Various indicators

22. The systems and processes that enable reliable reporting of achievement against the following (2) indicators were not adequately designed so that data will be collected consistently by implementing adequate controls measures for tracking how achievements can be collected and reported in a manner that is verifiable:

| No. | Performance measure                                                          | Performance Target                                                            | Actual achievement reported |
|-----|------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-----------------------------|
| 1   | Number of zones refuse collected                                             | Refuse collection in all 5 zones of the Msunduzi Municipality by 30 June 2019 | Nil                         |
| 2   | Number of skip bins repaired (various sizes) and/or replaced by 30 June 2019 | 24 skip bins repaired (various sizes) and or replaced by 30 June 2019         | Nil                         |

#### Management response

- The indicators and targets will be amended during 2020/21 planning period to ensure that the SMART principle is met.
- The daily trip sheets will be implemented and completed for all the refuse collection vehicles.

23. I draw attention to the matters below.

#### Other matters

#### Achievement of planned targets

24. The annual performance report on pages 18 to 239; 447 to 586 includes information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraph 29 of this report.

#### Adjustment of material misstatements

25. The Auditor General identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of the basic service delivery development priority. As management subsequently corrected only some of the misstatements, the Auditor General raised material findings on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

## Report on the audit of compliance with legislation

### Introduction and scope

26. In accordance with the PAA and the general notice issued in terms thereof the Auditor General has a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. The Auditor General performed procedures to identify findings but not to gather evidence to express assurance.
27. The material findings on compliance with specific matters in key legislation are as follows:

### Annual financial statements

28. The consolidated and separate financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of disclosure items identified by the auditors in the submitted consolidated and separate financial statements were subsequently corrected and the supporting records were provided subsequently, but the uncorrected material misstatements and supporting records that could not be provided resulted in a disclaimed audit opinion.

## Management Response

- The September 2019 financial statements were prepared to try and improve the quality of the financial statements.
- The interim financial statements will be prepared for the period ended 31st January 2020 and thereafter monthly financial statements will be prepared.
- The sections that do not comply with monthly deadlines and the AFS implementation plan will be reported to SMC.
- More resources will be added to the financial statements preparation team to ensure that the supporting schedules are adequately reviewed prior to finalising the year-end financial statements.
- The AFS team will attend the GRAP update training during the year

## Expenditure management

29. Money owed by the municipality was not always paid within 30 days, as required by section 65(2) (e) of the MFMA.
30. Reasonable steps were not taken to prevent irregular expenditure amounting to R93, 05 million as disclosed in note 67 to the annual financial statements, as required by section 62(1) (d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with Municipal Supply Chain Management Regulations GNR 868 OF 30 May 2005 (MSCMR).
31. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R3, 54 million, as disclosed in note 69 to the annual financial statements, in contravention of section 62(1) (d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by salaries paid to suspended employees with cases that were not finalised on time.
32. Reasonable steps were not taken to prevent unauthorised expenditure amounting to R170 million, as disclosed in note 70 to the annual financial statements, in contravention of section 62(1) (d) of the MFMA. The majority of the unauthorised expenditure was caused by overspending of the approved budget.

## Management Response

- Creditors section will ensure that all invoices received are paid within 30 days as required.
- The implementation of revenue enhancement strategy and other initiations that the municipality has embarked on is expected to result in an improvement in the debtor's collection.
- The SCM compliance checklist will be reviewed to ensure compliance with all SCM laws and regulations.
- The compliance checklist will be implemented to ensure that fruitless and wasteful expenditure is not incurred.
- The municipality will implement the Collective Code of Conduct issued on February 2018 and regulations of disciplinary for senior managers which prescribes the process to be followed in the case of suspended employees.

## Revenue management

33. An adequate management, accounting and information system which accounts for revenue, debtors and receipts of revenue was not in place, as required by section 64(2)(e) of the MFMA.
34. An effective system of internal control for debtors and revenue was not in place, as required by section 64(2) (f) of the MFMA.
35. Revenue due to the municipality was not calculated on a monthly basis, as required by section 64(2) (b) of the MFMA.

## Management Response

- Management will implement the necessary controls and implement the action plan to address the prior year findings to ensure that the revenue recorded is valid, accurate and complete.

## Asset management

36. An effective system of internal control for assets was not in place, as required by section 63(2c) of the MFMA.

## Management Response

- Management will implement the controls and implement the action plan to address the prior year findings in order to ensure that all assets are accounted for correctly

## Consequence management

37. Unauthorised expenditure incurred by the municipality was not investigated to determine whether any person was liable for the expenditure, as required by section 32(2)(a) of the MFMA.
38. Some of the irregular and fruitless and wasteful expenditure incurred by the municipality were not investigated to determine whether any person was liable for the expenditure, as required by section 32(2) (b) of the MFMA.
39. Some of the allegations of financial misconduct against senior managers were not always investigated, as required by the disciplinary regulations for senior managers 5(3) and section 171(4) of the MFMA.
40. Some of the allegations of financial misconduct made against officials of the municipality were not investigated by the disciplinary board, relevant treasury or an independent investigator or team of investigators appointed by council, as required by municipal regulations on financial misconduct procedures and criminal proceedings 5(4).
41. Disciplinary proceedings were not instituted by the council when the report of independent investigators confirmed the financial misconduct by a senior manager, as required by disciplinary regulations for senior managers 5(6) and municipal regulations on financial misconduct procedures and criminal proceedings 6(8).

42. Cases of financial misconduct which constitute a crime committed by senior managers and officials were not always reported to the South African Police Service, as required by municipal disciplinary regulations for senior managers 8(4) and municipal regulations on financial misconduct procedures and criminal proceedings 10(1).
43. Allegations of fraud and uttering a forged document which exceeded R100 000 were not always reported to the South African Police Service, as required by section 34(1) of the Prevention and Combating of Corrupt Activities Act (Act No. 12 of 2004).

#### **Management Response**

- Reports will be periodically submitted to internal audit to report the unauthorised expenditure incurred and request for an investigation.
- Investigate all cases/ incidents identified that were not investigated and take appropriate actions as necessary/ required as per the outcomes.

#### **Strategic and performance management**

44. Annual performance objectives and indicators were not included in the municipal entity's multi-year business plan, as required by section 93B (a) of the Municipal Systems Act (Act No. 32 of 2000) (MSA).

#### **Management Response**

- The entity's business plan will be amended during 2019/20 year to include the performance indicators.

#### **Human resource management**

45. A senior manager did not sign a performance agreement within the prescribed period, as required by section 57(2) (a) of the MSA.

#### **Management Response**

- The Individual Performance Management Policy (IPMS) will be reviewed to include a clause that will allow the dispute resolution committee to address issues where the employees are not in agreement with some of the conditions included on the performance contract.

#### **Other information**

46. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report which includes the mayor's foreword, executive summary, governance information, organisational performance, audit committee's report and other appendices. The other information does not include the consolidated and separate financial statements, the auditor's report and those selected objectives presented in the annual performance report that have been specifically reported in the auditor's report.
47. The Auditor General's opinion on the consolidated and separate financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
48. In connection with the audit, the Auditor General's responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements and the selected objective presented in the annual performance report, or knowledge obtained in the audit, or otherwise appears to be materially misstated.
49. The other information obtained by the Auditor General, prior to the date of this auditor's report is in the governance section, municipal entity's section and report on grants. The mayor's foreword, overview by the city manager and the audit committee report are expected to be made available to the Auditor General after 31 January 2020.
50. If, based on the work performed by the Auditor General, on the other information obtained prior to the date of this auditor's report, the Auditor General concludes that there is a material misstatement of this other information, he is required to report that fact.
51. When the Auditor General does receive and read the audit committee report and he concludes that there is a material misstatement therein, he is required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, he may have to retract the auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

#### **Internal control deficiencies**

52. The Auditor General considered internal control relevant to the audit of the consolidated and separate financial statements, reported performance information and compliance with applicable legislation; however, he's objective was not to express any form of assurance thereon.
53. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for disclaimer of opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.

#### **Leadership**

54. Leadership did not implement effective controls to ensure accurate financial reporting nor did they exercise adequate oversight of compliance with applicable legislation, which resulted in a qualification on the financial statements as well as non-compliance with key legislation.
55. Management did not implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting. In this regard, management did not prepare regular, accurate and complete financial and performance reports that are supported and evidenced by reliable information.

**Other reports**

56. The Auditor General draw's attention to the following engagements conducted that had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part the Auditor General's opinion on the financial statements or his findings on the reported performance information or compliance with legislation.
57. At the request of the accounting officer and senior management, the internal audit unit performed numerous investigations into allegations made on the whistle-blower hotline. These investigations related to allegations of fraud, corruption, theft, recruitment, mismanagement and supply chain management irregularities. During the 2018-19 financial year, 61 investigations were conducted. Of the 61 investigations conducted, 18 were concluded and reported to council. Forty-three cases relating to recruitment, corruption, misconduct and theft were still in progress at the date of this report.

**CONCLUSION:**

An action plan has been developed in consultation with the relevant officials to resolve all reported matters within specific deadlines.

## CHAPTER 9 – REPORT OF THE AUDIT COMMITTEE & RECOMMENDATIONS OF THE AUDIT COMMITTEE 2018/2019

### REPORT OF THE AUDIT COMMITTEE FOR THE YEAR ENDED 30 JUNE 2019

#### AUDIT COMMITTEE REPORT

The Audit Committee has pleasure in submitting its annual report for the financial year, 01 July 2018 to 30 June 2019, in accordance with sections 121(3)(j), 166(2)(b) and (c) of the Municipal Finance Management Act (“the MFMA”).

#### AUDIT COMMITTEE MEMBERS AND ATTENDANCE

The Audit Committee consists of the members listed hereunder and meets as a minimum, four times a year as per the approved Audit Committee Charter.

The Committee held seven (8) meetings during the year and the Audit Committee Chairperson availed himself to present the Audit Committee oversight reports to the Executive Committee Meetings and Council. Council made certain changes on the composition of the committee during the course of the year under review due to resignation.

Members of the Audit Committee also met with the Municipal Accounting Officer, the Chief Audit Executive, the Chief Financial Officer and the Auditor-General.

#### AUDIT COMMITTEE RESPONSIBILITIES AND TERMS OF REFERENCE

The Audit Committee has complied with its responsibilities arising from section 166 of the MFMA and clause 14(2)(a) of the Municipal Planning and Performance Management Regulations of 2001. The Audit Committee’s work was guided and regulated by the Audit Committee Charter as approved by Council and the Audit Committee has discharged its responsibility as contained therein during the year ended 30 June 2019.

#### INTERNAL AUDIT FUNCTION

The Internal Audit Charter as adopted by the Audit Committee regulates the work of Internal Audit. In terms of Section 165(1) of the MFMA each municipality is required to have an Internal Audit function. Section 165(3) allows the municipality to co-source the function if the municipality requires assistance to develop its internal capacity. During the current year internal audit was assisted by co-sourced resources.

#### INTERNAL AUDIT STRUCTURE AND CAPACITY

The current structure of Internal Audit was developed in 2012/13 and implemented on 1 June 2016. It should be noted that Msunduzi Municipality has grown over the years (between 2012/2013 and 2016 when the structure was implemented), and a review of the current structure is required. A process of structural review has been implemented by the municipality in order to ensure that the current structure is geared towards the future growth of the municipality.

A desk top study which seeks to do a comparison with other non-delegated high capacity municipalities and Metropolitan Municipalities has been conducted and it will inform the size and shape of the internal audit structure. The structure and levels of management, supervision and review of audit work should ensure that there is due professional care as provided for in the International Standards for the Professional Practice of Internal Audit. The Internal Audit Unit is heavily reliant on consultants as a result of a thin structure and high vacancy rate in the unit, and this comes at a high cost to the municipality. The unit is always allocated a limited budget because of competing service delivery needs of the communities under the Municipality’s jurisdiction.

The CAE, having returned from suspension on 10 August 2018, had direct access to the Audit Committee primarily through the Chairperson. During the year, both the external auditors and internal audit were also afforded opportunities to access the Audit Committee without management being present in order to assess if there were any issues that were impacting on the audit work.

## INTERNAL AUDIT PERFORMANCE.

The Annual Audit coverage plan was submitted to the Audit Committee for approval on 13 July 2018. During the year under review there was a revision of the approved Internal Audit Plan due to a conclusion that the control environment within the municipality had further weakened and providing assurance in such circumstances may have been fruitless and wasteful.

To this end, a number of assurance audits were removed in order to concentrate and handle the significant exposure to risk in areas where management believes that the controls in place are strong in terms of design and the objective therefore was to test whether such controls were working as intended and thus make a positive impact. In those areas where the control environment was considered to be weak, Internal Audit conducted consulting activities and thus the revised plan was striking a balance between the anticipated assurance activities and the consulting activities prevalent.

Internal Audit completed sixteen (16) audit assignments and audit reports, with management comments, were presented to the Audit Committee meetings. Issues raised were deliberated and recommendations made to Council. However, the committee remains concerned about the impact of the unit's budget and capacity constraints and reliance on co-sourcing on the effectiveness of the work of internal audit. In addition, concerns remain about the length of time taken by management to respond to internal audit findings to implement their recommendations and the quality of management's responses to internal audit findings.

In terms of Section 166(2) (d) of the Municipal Finance Management Act, 56 of 2003 the Audit Committee has powers to carry out investigations into the affairs of the municipality. Of the total of forty three (43) allegations that were reported through the whistle blowing hotline and through other means, ten (10) cases were completed during the year under review and submitted to the Audit Committee and thirty five (35) were in progress and eight (8) were closed at a preliminary stage either due to lack of information or insufficient evidence of wrong doing.

## SYSTEM OF INTERNAL CONTROL

A significant number of the internal audit reports submitted during the year under review indicated that the design and operation of the system of internal control are respectively inadequate and ineffective. This is attributable to the slow progress in the implementation of management action plans on both internal audit and Auditor-General recommendations.

## RISK MANAGEMENT

Risk management within the municipality is progressing very slowly, chiefly due to the delay in the appointment of the Chief Risk Officer whose absence has now become catastrophic. In general, there are a number of key management positions that are vacant posing a high risk in the functioning of the municipality. Furthermore, the Chief Financial Officer is the acting City Manager due to this position being vacant since 01 August 2018. The Committee advised the municipality to put resolute effort in order to realize effective risk management.

## FINANCIAL REPORTING

The municipality is faced with challenges in financial administration and management amongst which are difficulties in the compilation of annual financial statements, serious audit queries, inconsistent month end discipline, inadequate monthly reporting internally to the audit committee, to Council, to Treasury, a declining revenue base as well as increasing delinquency by its debtors resulting in declining financial health and decrease in cash resources.

To address these issues and in particular month end discipline, which is viewed as crucial in overcoming these challenges when it is institutionalized and embedded in the municipality's processes, a service provider was appointed to implement strict month end discipline.

Council's attention was also drawn to the unacceptably high debtors' book (more than R3 billion) which is continually increasing thus posing a threat to cash flow, financial viability and future sustainability of the municipality. Council was advised to prioritize debt management and control and take measures to reduce debt to acceptable levels.

## ANNUAL FINANCIAL STATEMENTS

Challenges with producing Annual Financial Statements in a timely manner such that they be thoroughly audited by the Internal Audit before submission to the Auditor-General, still exist. Whilst these were submitted to both internal audit and to the audit committee for review, inadequate time was afforded to both for a quality review and for management to adequately respond to findings before submission of the financial statements for audit. The municipality still has a challenge of producing quality Interim Financial Statements and Annual Financial Statements and this is evident from material misstatements in the previous years and in the year under review.

## PERFORMANCE MANAGEMENT

A performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed.

Evidence provided for Key Performance Indicators (KPI) was inadequate to support the target achieved and there was lack of evidence to ensure that certain Portfolio of Evidence files were signed as evidence of review, at the appropriate level, for accuracy and validity.

Non submission of information by Business Units is prevalent resulting in certain KPI's not being tracked and to address this, a section on consequence management was included in the Performance Management Policy. The review of the SDBIP for 2018/19 as approved by the Mayor in June 2018 also highlighted significant findings. Management has been engaged on this matter and they have committed themselves to improve in this area.

## INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)

The Audit Committee requested that a comprehensive report on ICT Governance be submitted quarterly but this has not been forthcoming. The report was to include progress made on Systems Applications and Products (SAP) implementation and how it impacted on compliance with the Municipal Standard Chart of Accounts (mSCOA) regulations as well as disaster recovery and continuity plans. The goal of the SAP implementation is to provide, configure and implement an Enterprise Resource Planning (ERP) system that automates and integrates business processes including its functionality requirements.

The review of SAP (ISU and Payroll) configuration indicated a number of significant configuration flaws on the system and resulted in a number of business process limitations for the municipality. Predominantly, the system was not adequately configured to cater for the business requirements of the municipality as a number of functionalities have either not been configured or incorrectly configured when implemented.

The system deficiencies identified were noted and discussed with relevant managers with a view to their resolution.

The implementation of SAP outside ICT has contributed in the configuration and implementation failures of the system. The implementation of an ERP system is required to be performed and championed by competent and experienced individuals in ICT which was the opposite for the municipality. It has been recommended that the responsibility for SAP implementation be moved from Financial Services, where it currently resides, to ICT.

## GOVERNANCE

The on-going challenges relating to stability in leadership and management within the municipal structures and the impact on the governance and leadership environment of on-going disciplinary and human resources processes has had a direct impact on the ability of the governance and leadership structures to create a culture of stable and ethical leadership within the municipality. This is evidenced by continued findings on non-compliance with laws and regulations relating to procurement and supply chain management, internal controls and human resource management, and on the achievement of service delivery targets and reporting thereon. The impact of this on the effectiveness of the work of the internal audit and audit committee resulted in inadequate preparation for and attendance at audit committee meetings by senior management.

## COMPLIANCE WITH LAWS AND REGULATIONS

The Audit Committee has reviewed the effectiveness of the system for monitoring compliance with laws and regulations and noted that there continue to be deficiencies in compliance which has resulted in irregular, fruitless and wasteful expenditure as disclosed in the Annual Financial Statements, particularly in Supply Chain Management and Human Resource Management. The Audit committee will continue to play its oversight role to the system for monitoring compliance with laws and regulations and reporting thereon to council.

## EXTERNAL AUDIT BY AUDITOR-GENERAL OF SOUTH AFRICA (AGSA)

For the year under review, the municipality's audit outcomes were a qualification with findings. This is an improvement from the disclaimer of 2017 and the adverse of 2018. Although these outcomes are far from being ideal, the Committee commends Council and Management for the improved results. The Committee is aware that a huge effort was made by all, particularly the Finance Division to ensure improved audit results.

Whilst these efforts are commendable, the Audit Committee cautions that there still is a lot of work ahead given the qualification and the high number of audit findings and the desire of the municipality to obtain an unqualified without other matters result. The Committee is committed to supporting the municipality in developing a clear action plan to deal with the issues raised with a view to improved audit outcomes in the following year.

## CONCLUSION

The Committee appreciates the intervention made by the Provincial Government in appointing a Ministerial Representative to assist in preparing a comprehensive recovery plan for the municipality. The Committee will continue to monitor progress being made by the municipality in improving overall governance, systems of internal control, risk management as well as performance management. In addition, the Audit Committee concurs and accepts the conclusions of both the Internal Audit and the Auditor-General on the matters they have raised during the audits.

The Committee wishes to express its sincere appreciation to the Accounting Officer, Senior Management, MPAC, Portfolio Committees, Executive Committee, Council and staff for their co-operation and support

**Chairperson: Audit Committee**  
**Mr M M Madliwa CA (SA)**

## RECOMMENDATIONS OF THE AUDIT COMMITTEE 2018/2019

| DATE           | RESOLUTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

INTERNAL AUDIT 2017/2018 ANNUAL AUDIT PLAN STATUS UPDATE [3.10.1.1]</b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>That the report dated 30 July 2018 by the Chief Audit Executive (Acting) on the status of the implementation of the Annual Audit Plan 2017/2018 be NOTED.</p> <p><b>10.2. FINAL INTERNAL AUDIT REPORT ON THE FINANCIAL ANALYSIS REVIEW [3.10.1.1]</b></p> <p>Report dated 19 July 2018 incorporating the recommendations of the Strategic Management Committee.</p> <p><b>RESOLVED TO RECOMMEND TO THE EXECUTIVE COMMITTEE</b></p> <p>That the audit results as contained in the Final Internal Audit Report on Financial Analysis Review be NOTED.</p> <p>That Management should make continuous effort to identify opportunities, prioritise identified opportunities and implement action plan in order to improve or maintain the financial position of the Municipality.</p> <p><b>10.3. FINAL INTERNAL AUDIT REPORT ON SECTION 71 OF THE MFMA (INCLUDING SECTION 52 AND SECTION 66) FOR QUARTER 3 OF 2017/2018 FINANCIAL YEAR [3.10.1.1]</b></p> <p>Report dated 19 July 2018 incorporating the recommendations of the Strategic Management Committee.</p> <p><b>RESOLVED TO RECOMMEND TO THE EXECUTIVE COMMITTEE</b></p> <p>That the report dated 24 April 2018 by the Chief Audit Executive [Acting] on the Project Charter Follow up on the 2017/2018 External Audit Action Plan be NOTED.</p> <p><b>10.4. FINAL INTERNAL AUDIT REPORT ON SAP AND MSCOA IMPLEMENTATION COST VS BENEFIT REVIEW [3.10.1.1]</b></p> <p>Report dated 2 August 2018 incorporating the recommendations of the Strategic Management Committee.</p> <p><b>RESOLVED TO RECOMMEND TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That after careful review of the SAP and MSCOA implementation project and considering the nature and extent of the issues identified, it is noted that the implementation of the project is ineffective.</p> <p>(b) That the invoices should be supported with progress reports detailing work performed.</p> <p>(c) That the progress reports should be reviewed and approved by the SAP Project Manager against the invoice before authorising payment.</p> <p>(d) That Contracts / SLA (agreements) terms of reference must be entered into for all significant undertaking outlining specific deliverable.</p> <p>(e) That a central repository for storage of original contracts must be created and managed by the Supply Chain Management Department of the Msunduzi Municipality.</p> <p>(f) That copies of contracts (not originals) are to be handed over to the user departments to monitor and review service delivery.</p> <p>(g) That a control register should be implemented by management to monitor the movement of contracts in/out of the central repository.</p> <p>(h) That Management should ensure that all contracts between the municipality and supplier :</p> <ol style="list-style-type: none"> <li>i. Are formalised and vetted by the legal department;</li> <li>ii. The general conditions of the contract are agreed by both parties; and</li> <li>iii. The contract is signed and dated by the municipality and the supplier.</li> </ol> <p>(i) That Terms of Reference outlining scope of work should be detailed and included in the contract.</p> <p>(j) That a process should be in place to ensure that all suppliers are regularly evaluated relating to the following as a minimum :</p> <ol style="list-style-type: none"> <li>i. Goods/Services received are as per the stipulations of the contract;</li> <li>ii. Performance of suppliers (progress reports on work performed);</li> <li>iii. Time charged are supported by approved timesheets.</li> </ol> <p>(k) That adequate mechanisms to monitor and enable control compliance to the above process by management should be designed and implemented.</p> <p>(l) That the municipality should ensure that formalised contracts are in place with the supplier.</p> <p>(m) That the contract should be reviewed by both parties before signing to ensure that the terms of reference outlining scope of work/services to be provided as well as all related costs are correctly stated.</p> <p>(n) That no variations in cost should be allowed unless agreed to in writing by both parties.</p> <p>(o) That invoices should be supported by a progress/close out report from the supplier as well as the attendance registers completed for training.</p> <p>(p) That the invoice should be compared to the approved progress report and the attendance register by the MSCOA Project Manager before authorising the invoice for payment.</p> <p>(q) That the municipality should ensure that all contracts have a total fee stipulated in order for costs incurred to be monitored against.</p> <p>(r) That tenders should go through a competitive bidding process.</p> <p>(s) That deviations should only be used in the event of an emergency or a single supplier source.</p> <p>(t) That a capability assessment should be performed to determine if the supplier can meet the deliverables.</p> <p>(u) That invoices should be supported with approved timesheets confirming hours charged and progress reports detailing work performed.</p> <p>(v) That the timesheets and progress reports should be reviewed and approved by the SAP Project Manager against the invoice before authorising payment.</p> <p>(w) That a reconciliation between the hours submitted per supplier timesheet to hours charged per supplier invoice should be performed to ensure that only valid and accurate payments are made.</p> <p>(x) That the reconciliation should thereafter be reviewed by the SAP Project Manager.</p> |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|      | <p><b>INTERNAL AUDIT (ASSURANCE)</b></p> <p><b>10.1. FINAL INTERNAL AUDIT REPORT ON SAP POST IMPLEMENTATION REVIEW (Phase 2 – Application Controls Including Data Migration Review).</b></p> <p>Report dated 14 August 2018 incorporating the recommendations of the Strategic Management Committee.</p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on the adequacy of the design of the system of internal controls are inadequate and operation of the system of internal controls is ineffective around the outcome of the Final Internal Audit Report On Sap Post Implementation Review (Phase 2 – (a) Application Controls Including Data Migration Review), be NOTED.</p> <p>(b) That management should ensure that inappropriate access be remediated. Periodic reviews of user accounts together with the corresponding transaction codes assigned should be performed by independent senior officials. Furthermore, evidence of these reviews should be retained.</p> <p>(c) That periodic user access reviews should be conducted to identify users with excessive access and segregation of duties concerns. Access for the accounts that were used during the implementation of SAP should be revoked. Furthermore, the activities performed on production environment should be monitored on a regular basis.</p> <p>(d) That management should ensure that a refresh training course for the SAP ISU super-users is conducted by EOH, so that for first line IT support can be provided by the internal Msunduzi staff, i.e. SAP super-users. This will thereby reduce the dependency on EOH and upskill current internal staff.</p> <p>(e) That management should ensure that the formalised clearing rules are located. In addition, a centralised document retention repository should be established.</p> <p>(f) That management should investigate all ISU Masterfile information creation or changes effected without approval documentation and ensure that adequate record keeping activities are performed and source documentation can be made available upon request.</p> <p>(g) That management should ensure that there is an automated posting between the SAP HCM and SAP ISU modules.</p> <p>(h) That management should contact the service providers to ensure that the information received from them are encrypted. If this is not feasible, an automated interface should be created to upload the information. In addition, SAP should be configured to prevent duplicate files from being uploaded.</p> <p>(i) That management should ensure that the information uploaded to ISU, which is obtained from MetVal, is updated by the MetVal Program A/valuation automated interface that already exists on SAP through execution of the Valuation interface Program, i.e. ZMETVAL.</p> <p>(j) That management should enable the meter reading functionality within SAP. If this is not currently feasible, the transfer of information between NeoMeter and SAP should be automated.</p> <p>(k) That management should ensure that the system is configured to prevent duplicate business partners from being created.</p> <p>(l) That management should ensure that inappropriate access is remediated in a timely manner.</p> <p>(m) That periodic reviews of user accounts together with the corresponding transaction codes assigned to user accounts should be performed by independent senior officials. Furthermore, evidence of these reviews should be retained.</p> <p>(n) That management should ensure that all activities of the SAP super users are logged, logs are reviewed on a regular basis either electronically or manually by an independent senior official for appropriateness and that evidence of the reviews are maintained.</p> <p>(o) That management should ensure that all assets are captured on the system before it is released to the users for use.</p> <p>(p) That in addition, regular spots checks should be performed at the municipality premises to verify that all assets found on the municipality premises has been appropriately captured in the asset register.</p> <p>(q) That management should ensure that there is an adequate succession plan in place and that existing staff members are upskilled to assume the responsibilities of staff that are away for extended periods of time to ensure continuity of operations.</p> <p>(r) That management should ensure that inappropriate access as identified in the finding is remediated in a timely manner.</p> <p>(s) That management should ensure that staff are adequately trained on how to use the system and that the service provider provides adequate support. This will enable staff to generate and provide the requested information in a timely manner for review.</p> <p>(t) That management should ensure that Landfill invoice upload is done through an interface with the Landfill system as per the approved blueprint document for the SAP SD module.</p> <p>(u) That management should ensure that the super user accounts are appropriately secured and disabled in the production environment when not required for use.</p> <p>(v) That management should consider implementing an SOD monitoring tool to monitor and track SOD conflicts. Where SOD conflicts identified the management should be notified to address the issue immediately.</p> <p>(w) That management should ensure that the SAP PS module is configured as per the requirements of the SAP training manual documents.</p> <p>(x) That management should ensure that approved copies of training manuals exist and can be provided for review upon request.</p> <p>(y) That the SAP RE module should be configured to automatically interface with METVAL.</p> <p>(z) That management should ensure that SAP modules are implemented in their entirety, including all sub-modules and relevant functionality as the per the signed blueprint documents.</p> <p>(aa) That management should ensure that the SAP RE module is configured as per the requirements of the SAP blueprint/training manual documents.</p> <p><b>10.2. FINAL INTERNAL AUDIT REPORT ON AUDIT OF PERFORMANCE INFORMATION QUARTER 2 OF 2017/2018</b></p> <p>Report dated 2 October 2018 incorporating the recommendations of the Strategic Management Committee.</p> <p><b>RESOLVED TO RECOMMEND TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on the adequacy of the design of the system of internal controls are adequate and operation of the system of internal controls is ineffective around the Final Internal Audit Report on Audit of Performance Information Quarter 2 of 2017/18, be NOTED.</p> <p>(b) That the responsible person for the Business Unit should ensure that the Portfolio of Evidence Files are submitted for the review to ensure compliance with the Regulation.</p> <p>(c) That a Review should be performed on the Portfolio of Evidence Files to ensure compliance with the Act and the regulations.</p> <p>(d) That the Portfolio of Evidence files should be updated as and when a particular target is achieved and this information should inform the information reported on the monthly and quarterly SDBIP and not at the end of the quarter upon Internal Audit's request.</p> <p>(e) The Portfolio of Evidence file should be reviewed/spot checked by the General Manager evidenced by spot review marks and a signature.</p> <p>(f) That the Portfolio of Evidence Files should be provided for auditing within the stipulated deadlines and failure thereof should be reported to the City Manager as it is expected that these files are provided for auditing after the General Managers have performed their reviews.</p> <p>(g) That the City Manager should take action against the General Managers of the business units that fail to comply with the above.</p> <p>(h) That Senior Managers should ensure that all performance reported is accompanied by supporting documentation that is valid, verifiable and relevant.</p> <p>(i) That Senior Managers should ensure that all performance reported is supported by the Service Delivery Budget Implementation Plan reporting template and that the template is signed by the preparer and reviewer within the business unit.</p> <p>(j) That Senior Managers should ensure that all performance reported is supported by documentation that is valid, verifiable and relevant.</p> <p>(k) That General Managers should conduct a thorough review of the quarterly progress reports and ensure that all performance reported is verified against supporting documentation to confirm the validity and accuracy of the reported performance.</p> |

|      | <p><b><u>AUDITOR GENERAL MATTERS</u></b></p> <p><b><u>18.1 UPDATE BY THE AUDITOR GENERAL</u></b></p> <p>It was indicated that the Auditor General was not present to report on their issues.</p> <p><b><u>18.2. REPORT BY THE ACTING CITY MANAGER AND THE ACTING CHIEF FINANCIAL OFFICER ON PROGRESS OF THE AUDIT FOR THE 2017/2018 FINANCIAL YEAR BY THE AUDITOR GENERAL</u></b></p> <p>(Raised Verbally).</p> <p>The Senior Manager: Financial Services [Acting] briefed Committee on behalf of the Acting City Manager and the Chief Financial Officer [Acting].</p> <p>The following key issues were highlighted in terms of the challenges experienced for submission to the AG :</p> <p>(i) <u>Auditing of Performance Operations (APO)</u> : This item was delayed in terms of submission as it took time to raise the finding, however the outstanding issues on the query raised by the AG were submitted.</p> <p>(ii) <u>Expanded Public Works Programme (EPWP)</u> : The EPWP lists of beneficiaries had to be compared to the Department of Home Affairs lists. The information was delayed on submission to the AG but it was submitted.</p> <p>(iii) <u>Revenue</u> : The Auditor General submitted the information they required and this item was discussed as part of the Audit Committee pre-meeting. More information was still to be submitted to the AG.</p> <p>(iv) <u>IDT</u> : Original documentation was requested by the AG and the municipality does not have these documents. Therefore they have to be obtained from the IDT itself.</p> <p>(v) <u>Consumer document requests</u> : It was pointed that the AG was still pushing for more requests and still auditing more information. More information was also being request for depreciation. The AG was still busy with their findings and the outcome of the audit. Documentation for revenue was to be submitted to the AG on time.</p> <p>(vi) <u>Communication</u> : A summary of the communication received during the audit was prepared and the municipality has responded. Most were Annual Financial Statement queries. Some ICT findings were also received.</p> <p>(vii) <u>Assets and Land Invasion</u> : Communication was received in terms of confirming land being recognized belonged to the municipalities or not.</p> <p>(viii) <u>Cash Flow statement</u> : Item can be resolved and forward to the AG.</p> <p>It was further suggested by the Chief Audit Executive that the contact details of Ms B Kemp be given to the Chief Financial Officer [Acting] in order to discuss the issues and requests raised by the AG.</p> <p>In addition it was pointed out that a Special Audit Committee meeting should be convened in order for the Audit Committee members to peruse the AG report to management and advise thereof.</p> <p>NOTED.</p> |

| DATE          | RESOLUTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|      | <p><b><u>MATTERS ARISING</u></b></p> <p><b><u>8.1. REPORT ON THE LAND AUDIT</u></b></p> <p>(Items of the Outstanding matters report dated 31 January 2019).</p> <p><b>RESOLVED</b></p> <p>(a) It was NOTED that report titled “ Progress report : Review of the Msunduzi Municipal Land Audit and Preparation of the Land Audit in GIS/ICT format” was discussed at the Audit Committee meeting on 1 November 2018 as item 17.3 of the agenda dated 1 November 2018.</p> <p>(b) That it be noted that the General Manager : Sustainable Development and City Enterprises [Acting] reported that the land audit was being reviewed in consultation with ICT’s GIS unit.</p> <p>(c) That a further progress report will be required to be submitted by the General Manager : Sustainable Development and City Enterprises [Acting] at the next meeting of the Audit Committee.</p> <p><b><u>8.2. REPORT ON THE LEASE AUDIT</u></b></p> <p>It was reported that Internal Audit was to perform the lease audit and this formed part of the Internal Audit revised plan. A concern was raised in respect of the expected timeframe.</p> <p>It was reported that a report back would be submitted to the next meeting of the Audit Committee from Internal Audit.</p> <p><b>RESOLVED</b></p> <p>(a) That it be noted that a further comprehensive report be submitted by the General Manager : Sustainable Development and City Enterprises [Acting] to the next meeting of the Audit Committee; it being noted that an external legal opinion was being sought especially in respect of the issue of the 99 year leases amongst other matters.</p> <p>(b) That the General Manager : Sustainable Development and City Enterprises [Acting] must finalise the transfer of properties and the progress be submitted every quarter to the Audit Committee and Council.</p> <p><b><u>8.3. MSUNDUZI RAISED AS A DEBTOR [3.10.1.1]</u></b></p> <p><b>RESOLVED</b></p> <p>(g) It was reported that the Infrastructure Unit was not restricting the water supply as they were not aware of which properties’ meters to restrict.</p> <p>(h) That Infrastructure Unit be given a latest list of properties falling under Msunduzi.</p> <p>(i) That the Senior Manager : Income (Acting) and the General Manager : Sustainable Enterprises (Acting) meet with Councillors in the wards affected, to inform them that the owners are only to be contacted and not the tenants.</p> <p>(j) That it be noted that the General Manager: Sustainable Development and City Enterprises [Acting] ensures that a process be identified to ensure that Msunduzi is not raised as a debtor again.</p> <p><b><u>8.4. MFMA SECTION 71 AND SECTION 72 (D) MONTHLY, MID YEAR AND QUARTERLY REPORTS [3.7.1 (2017/2018)]</u></b></p> <p><b>RESOLVED</b></p> <p>That the item on MFMA Section 71 And Section 72 (D) Monthly, Mid-Year and Quarterly Reports be removed from the outstanding matters report, as it was discussed as item 12.4. on the agenda dated 5 March 2019.</p> <p><b><u>8.5. CONSOLIDATED AUDIT FINDINGS REGISTER STATUS AT MSUNDUZI : PROGRESS REPORT ON 2015/2016 AND 2016/2017 INTERNAL AUDIT FINDINGS [3.10.1.1]</u></b></p> <p><b>RESOLVED</b></p> <p>That the item on Consolidated Audit Findings Register Status At Msunduzi : Progress Report On 2015/2016 And 2016/2017 Internal Audit Findings remains on the outstanding matters report, pending a report/presentation to be submitted by the Audit Readiness Consultant to the next meeting of the Audit Committee, it being noted that this item becoming a STANDING ITEM ON THE AGENDA of every Audit Committee meeting.</p> <p><b><u>8.6. IT GOVERNANCE AND STRATEGY REPORT</u></b></p> <p>It was reported that the Acting City Manager requested the Manager : IT to attend the meeting but he did not arrive to respond on the matter.</p> <p><b>RESOLVED</b></p> <p>That this item remains on the Outstanding matters report and the General Manager : Corporate Services ensures that a report is submitted to the next meeting of the Audit Committee.</p> <p><b><u>8.7. UPDATE ON REGISTER OF DISCIPLINARY MATTERS</u></b></p> <p>The Chief Audit Executive indicated that discussions were held with Lelani van den Berg and the Acting City Manager and copies of all the reports and resolutions of the Strategic Management Committee were being done. People from a panel of SALGA were being requested to assist with these matters to prosecute and Chair disciplinary matters, thereafter progress of each matter, with timelines to ensure that each matter is dealt with accordingly should be reported. Concern was raised in respect of the number of people being disciplined and the timelines of each disciplinary.</p> <p><b>RESOLVED</b></p> <p>That this item remains on the Outstanding matters report and the Chief Audit Executive ensures that a report is submitted to the next meeting of the Audit Committee.</p> |

| DATE | RESOLUTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
