# CHAPTER 1 – MAYOR’S FOREWORD AND EXECUTIVE SUMMARY

## COMPONENT A: MAYOR’S FOREWORD

**COUNCILLOR M Thebolla**  
**CITY MAYOR**

### FOREWORD BY THE CITY MAYOR, 2018/19

Msunduzi, as a City, sits at a critical point of change. As the second largest Metropolitan complex in the province, its ever-present possibility of reaching Metropolitan status and a shift towards City Development. The geographic location of Msunduzi municipality allows it the opportunity of becoming well connected in the global economy due to the access of various connectivity and growth opportunities throughout Msunduzi, across various sectors such as Tourism and Agriculture. As such, it is essential for physical connectivity to be further improved to stimulate these economic linkages.

During the 2018-2019 financial year the municipality continued to contribute to the Provincial Growth and Development strategy by investing in various projects and programmes across the city. To highlight a few the city invested in water and sanitation infrastructure in line with the strategic objective of ensuring availability and sustainability of water and sanitation in our communities. The Jika Joe human settlements project is in line with the strategic objective of creating sustainable human settlements this project will facilitate the existence of racially and culturally integrated human settlements, which will also promote citizens to pursue their social, cultural, political and economic goals. It will make meaning full steps in moving people from the margins of poverty into the mainstream economy by providing opportunities for sustainable livelihood and development.

The 2018-2019 financial year has also been particularly challenging year for the Msunduzi municipality with the municipality being placed under provincial administration in terms of section 139(1) (b) of the constitution of the Republic of South Africa placing the responsibility on the Ministerial representative to develop a turnaround plan. The municipality experienced distress in terms of financial management, service delivery, economic development and institutional management. The regression of the audit outcomes in previous financial years acted as a signal for the distress that is being experienced by the municipality. Non-collection of revenue, which is the life-blood of the organisation placed the municipality in a challenging position. This has resulted in the municipality enhancing and fast tracking the implementation of revenue enhancement initiatives. The municipality is tracking daily performance of disconnection contractors and having weekly status review meetings. To improve culture of paying for rates and services stakeholder engagement with the public, business and government debtors has been intensified and all illegal connections are being addressed. The City is also working on improving the enforcement by laws to stimulate new revenue.

The municipality received a qualified audit opinion from the Auditor General, which is a slight improvement from the previous financial year. The basis for qualified opinion for the 2018-2019 financial year was Property, Plant and Equipment, Consumer Debtors and revenue transactions these are areas that will be looked into closely through the audit action plan and necessary improvement will need to be instituted by management and the Council will need to play its oversight role.

**THE HONOURABLE MAYOR**  
**COUNCILLOR: COUNCILLOR M THEBOLLA**

## COMPONENT B: EXECUTIVE SUMMARY

### 1. OVERVIEW BY THE CITY MANAGER (ACTING): ANNUAL REPORT 2018/2019

**MRS. N M NGCOBO**  
**CITY MANAGER (ACTING)**

Msunduzi Municipality prepares its Annual Report based on the legislative prescripts as per below.

The Municipal Finance Management Act No. 56 of 2003, Chapter 12, prescribes that every municipality must for each financial year prepare an annual report in accordance with this Chapter. The council of a municipality must within nine months after the end of a financial year deal with the annual report of the municipality and of any municipal entity under the municipality's sole or shared control in accordance with section 129.

The purpose of an annual report is –

- to provide a record of the activities of the municipality or municipal entity during the financial year to which the report relates;
- to provide a report on performance against the budget of the municipality or municipal entity for the financial year; and
- to promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity.

Cities need to have long-range strategies to deal with their growth and development, within the context of rapid urbanization taking place in South Africa and throughout the continent, coupled with a resource-constrained environment. Cities that adopt an integrated approach to development will have more effective and sustainable outcomes. Proper strategic planning and integrated environmental thinking are also imperative to enable and empower Msunduzi and its surrounds to cope with the demands of future growth and to ensure that all citizens share in the city's prosperity.

The backbone of this approach is the 2018/19 Integrated Development Plan (IDP), devised to constructively implement the different programmes aimed at guiding future growth. This new focus on the future of the city, has led to a number of key catalytic and strategic projects that can leverage the city's economic and social potential. The city is re-positioning itself for a new set of challenges and is aggressively implementing new game changers, which are visible large-scale catalytic projects with a huge impact. The timing and sequencing of these projects require balanced implementation with an emphasis on economic development and employment creation. Furthermore, it is also essential to appreciate that the delivery of the catalytic and strategic projects requires major public-led infrastructure investment facilitated by various spheres of government. It also requires significant planning and preparation in order to deal with complex technical matters, long lead times and the financial capability to move forward.

During the 2017-2018 financial year the municipality had received an adverse audit outcome and an audit action plan was developed to address all the AG findings during the 2018-2019 financial year. In deed during the 2018-2019 financial year, more emphasis was placed on month end discipline in terms of financial management. A month end checklist was developed and used to ensure that all month end processes are undertaken timeously and correctly. The waste management unit that had been reporting to the office of the City Manager was moved back to the community services business unit as per the approved structure. There has been an improvement of the control environment during the 2018-2019 financial year as compared to 2017-2018 hence the slight improvement in the audit outcome. There are areas that the municipality needs to improve on such as the billing and the subsequent declining revenue and increasing debtors. Although expenditure remains high, expenditure items such as overtime have been investigated to ensure that it is warranted. The expenditure on contracted services was investing during the 2018-2019 financial year and resulted in some official being disciplined. Revenue generation has been a major and ongoing challenge in the 2018-2019 financial year. Many initiatives have been undertaken by the municipality to pursue revenue generation and collection; however, this remains a huge challenge for Msunduzi. An audit action plan was devised to address all the audit findings and further, to improve the municipality's audit outcome. All unauthorised, irregular, fruitless and wasteful expenditure incurred during 2018/19 is subject to investigation.

**MRS. N M NGCOBO**  
**CITY MANAGER (A)**

## 2 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

### INTRODUCTION TO BACKGROUND DATA

Msunduzi Municipality provides Water, Sanitation, Electricity, Refuse Removal, & Housing as part of the Basic Services. It also provides Roads, Stormwater & Drainage together with Local Economic Development and the approval of local building plans to local communities.

#### 2.1. VISION STATEMENT

A safe, vibrant city in which to live, learn, raise a family, work, play and do business.

#### 2.2. MISSION STATEMENT

To ensure that the Municipality functions effectively and in a sustainable manner in order to deliver services of excellence to the community.

#### 2.3. LOCALITY

The Municipality affectionately known as Pietermaritzburg or the City of Choice is located along the N3 at a junction of an industrial corridor from Durban and Pietermaritzburg and an agro-industrial corridor stretching from Pietermaritzburg to Escourt. Regionally it is identified at the cross section of the N3 corridor and Greytown Road corridor to the north, a tourist route to the Drakensberg and Kokstad Road to the South.

#### 2.4. THE POPULATION OF MSUNDUZI

## THE ECONOMY

The Municipality possesses a number of economic advantages, including:

- Locational Advantages: the centrality of the Municipality and the fact that the Municipality is bisected by the N3 corridor, which is the primary logistical corridor linking Gauteng and the Durban Harbour;
- Natural/Geographical Advantages: Highly fertile land;
- Human Capital Advantages: Good Schools and Tertiary institutions; and
- Institutional Advantages: Msunduzi enjoys the 'Capital City' Status.

## UNEMPLOYMENT AND POVERTY NEXUS

Source: Global Insight, 2015

### COMMENT ON BACKGROUND DATA:

The data provided herein is data used from the Census 2011 report conducted by Statistics South Africa and HIS Global Insight, 2015. Msunduzi Municipality strives to ensure the backlogs in the delivery of Basic Services like Water, Electricity and Housing are reduced on an annual basis.

## 3. SERVICE DELIVERY OVERVIEW

### SERVICE DELIVERY INTRODUCTION

#### 1. Service Delivery

The Msunduzi Municipality basic services as contained in the Municipal Indigent Policy is intended to provide norms and standards for a program to improve the lives of indigents and to improve access to FREE BASIC SERVICES. The policy recognizes the need for inter-government co-operation in the process of dealing with indigents but places a specific emphasis on the local government sphere, recognizing the important role a municipality has in effectively addressing the needs of indigent households. This requires local understanding and local initiative as well as co-ordination and support from national and provincial governments.

The indigent policy seeks to address the problem of institutional exclusion by facilitating the reform of the systems of local government in ways that ensure the inclusion of the poor in ways that will guarantee their access to affordable basic services. The implementation of the indigent policy as the basis of providing Free Basic Services was done in context of socio-economic realities facing our communities such as:

- High level unemployment
- Low income earners that have limited affordability
- High incidents of child-headed households
- Natural attrition of elderly headed households within our society.

Indigent applications are valid from 1 July 2018 – 30 June 2019. The application process began on 1 March 2018 and is open until 30 June 2019.

Applications were available from 333 Church Street, Area Based Management Offices and all Ward Councillors offices.

Currently there are 4210 applied indigents as at 30 June 2019.

## 2. Indigent Population

“Indigents” – means an owner /occupier of a property as defined in the qualification for concessions. Lacking the necessities of life such as sufficient water, basic sanitation, refuse removal, environmental health, basic energy, health care, housing, food and clothing. This is a household, which is not financially capable of paying for the delivery of Basic Services – including poor households.

Council receives Equitable Share to subsidise those who cannot afford to pay for the minimum needs in life. The objective in calculating the amount to be subsidised, must be to prevent an increasing balance on the account of an indigent as it will be difficult to recover the debt in a humanly way. According to the Municipal Systems Act 2000, Section 74(3) and 75(2) stipulates, “A tariff policy may differentiate between different categories of users/debtors.”

### Qualification for concessions – Indigent policy 2016/2017

1. That the gross household income for qualification as a registered Indigent be determined each year by Council in terms of the tariff register. Currently the threshold income is **R4 260.00**.
2. That the prescribed application forms be completed annually.

### COMMENT ON ACCESS TO BASIC SERVICES:

The equitable share received is used to fund Free Basic Services that is extended to all our customers who have been declared indigent who are earning below **R4 260.00** as determined by Council. Further to the free basic services, we are trying to remove the burden from the indigent customers by reducing their amperage on the electricity they use to **20AMPS**. We have started a project to replace all indigent customer meter’s with smart prepaid. Indigent policy refers to people who are lacking the necessities of life such as sufficient water, basic sanitation, refuse removal, environmental health, basic energy, health care, housing, food and clothing.

|-----------------------------------------|-------|
| Total beneficiaries                     | 4 210 |
| Water concession beneficiaries          | 1 325 |
| Electricity concession beneficiaries    | 1 573 |
| Rates concession beneficiaries          | 891   |
| Sewerage concession beneficiaries       | 1 302 |
| Ampere charge concession beneficiaries  | 565   |
| Refuse removal concession beneficiaries | 1 439 |

### CLASSIFICATION OF BENEFICIARIES FOR 2018/2019 FINANCIAL YEAR – GRAPHICAL REPRESENTATION

## 4. FINANCIAL HEALTH OVERVIEW

### FINANCIAL OVERVIEW

The Municipality began the financial year with a cash balance of R458, 2 million. During the year, a total amount of R5,0 billion accrued and some portion of it the actual cash received, while expenditure incurred, during the same period also amounted to R5, 2 billion. By the end of June 2019, the municipality's cash was R290, 8 million. This balance is inclusive of unspent conditional grants of R127, 9 million. Hence the deficit of R159, 2 million as per table below.

| FINANCIAL OVERVIEW – 2018/2019<br>R'000 |                 |                   |           |
|-----------------------------------------|-----------------|-------------------|-----------|
| Details                                 | Original Budget | Adjustment Budget | Actual    |
| Income                                  |                 |                   |           |
| Grants                                  | 672,679         | 671,406           | 602,211   |
| Taxes, Levies and Tariffs               | 4,154,383       | 4,126,900         | 4,123,160 |
| Other                                   | 204,885         | 170,881           | 283,132   |
| Subtotal                                | 5,031,947       | 4,969,187         | 5,008,503 |
| Less Expenditure                        | 4,927,968       | 4,923,966         | 5,167,662 |
| Net Total*                              |                 |                   |           |
| * Note: Surplus/ (deficit)              | 103,979         | 45,221            | (159,159) |

| Operating Ratios                 |     |
|----------------------------------|-----|
| Details                          | %   |
| Employee Cost                    | 22% |
| Repairs and Maintenance          | 1%  |
| Finance Charges and Depreciation | 10% |

### COMMENT ON OPERATING RATIOS:

The municipality's employee related costs is 22% of the total operating expenditure and this is below the norm of between 30% and 35%. This is due to vacancies, that exists within the municipality, as provided for in the municipality's 2013 approved organogram.

Repairs and maintenance as a percentage of operating budget is 1% and this is below the norm recommended by National Treasury however, this is only the operating budget part of repairs and maintenance. The bulk of the municipality's capital expenditure for the year is on the renewal of existing assets, which a capital budget portion of repairs.

The municipality's Finance Charges costs are projected to decrease over the next few years and continues to honour loan repayments timeously.

| TOTAL CAPITAL EXPENDITURE 2017/18– 2018/19<br>R'000 |         |         |         |
|-----------------------------------------------------|---------|---------|---------|
| Detail                                              | 2016/17 | 2017/18 | 2018/19 |
| Original Budget                                     | 726 240 | 698 424 | 571 382 |
| Adjustment Budget                                   | 871 726 | 762 592 | 595 676 |
| Actual                                              | 436 141 | 584 184 | 488 582 |

#### COMMENT ON CAPITAL EXPENDITURE:

The municipality's capital budget was initially R571, 4 million, during the adjustments budget, it was increased to R595, 7 million. The increase was due to additional funding that was made available to deal with much needed infrastructure. At the end of the financial year, an amount of R488, 6 million was 82% of the total capital budget. This is an improvement compared to the previous financial year.

## 5. ORGANISATIONAL DEVELOPMENT OVERVIEW

#### INTRODUCTION TO ORGANISATIONAL DEVELOPMENT PERFORMANCE

The Human Resources Function of the Msunduzi Municipality consists of a single Process Unit, namely: Human Resources Management, comprising; Personnel Management, Organisational and Skills Development, Occupational Health and Safety, and HR Management Services.

The key achievements of the unit in 2018/2019 are as follows;

- 166 new Appointments
- The Occupational Health unit conducted 2 employee wellness events attended by 327 employees
- 100 high risk employees were vaccinated in accordance to the risk of exposure as per OHSA 85 of 1993 (HBAs) hazardous Biological Agents

| 13.                             | A copy of the report to be submitted to the MEC for local government in KZN, the Auditor General, Provincial Legislature and National Treasury.                                                                                                                                                                                                                                 | Within 14 days from the date of tabling the annual report         |
| 14.                             | Oversight report on Annual Report 2018/2019 to commence once Annual Report has been tabled at Full Council – Oversight report to be completed within two months of the Tabling of the Annual Report to Full Council.                                                                                                                                                            | Start in February 2020 – completed on or before the 31 March 2020 |
| 15.                             | Oversight report made available to the public within seven days of being tabled in Council                                                                                                                                                                                                                                                                                      | On or before the 6 April 2020                                     |

### COMMENT ON THE ANNUAL REPORT PROCESS:

The Municipal Finance Management Act No. 56 of 2003, Chapter 12, prescribes that every municipality must for each financial year prepare an annual report in accordance with this Chapter. The council of a municipality must within nine months after the end of a financial year deal with the annual report of the municipality and of any municipal entity under the municipality's sole or shared control in accordance with section 129.

The purpose of an annual report is –

- To provide a record of the activities of the municipality or municipal entity during the financial year to which the report relates;
- To provide a report on performance against the budget of the municipality or municipal entity for the financial year; and
- To promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity.

The annual report of municipality must include –

- The annual financial statements of the municipality, and in addition if section 122 (2) applies, consolidated annual financial statements, as submitted to the Auditor-General for audit in terms of section 126 (1);
- The Auditor-General's audit report in terms of section 126 (3) on those financial statements;
- The annual performance report of the municipality prepared by the municipality in terms of section 46 of the Municipal Systems Act.

The accounting officer of a municipality must prepare the annual financial statements of the municipality and, within two months after the end of the financial year to which those statements relate, submit those statements to the Auditor-General for auditing and the accounting officer of a municipal entity must prepare the annual financial statements of the entity and, within two months after the end of the financial year to which those statements relate, submit those statements to the parent municipality of the entity and the Auditor-General for auditing. The Auditor-General must audit those financial statements and submit the audit report to the accounting officer of the municipality or entity within three months of the receipt of the statements.

The mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control.

The council of a municipality must consider the annual report of the municipality of municipal entity, and by no later than two months from the date on which the annual report was tabled in council, adopt an oversight report containing council's comments on the annual report which must include a statement whether the council-

- Has approved the annual report without reservations;
- Has rejected the annual report; or
- Has referred the annual report back for the revision of those components that can be revised.

In order to give effect to the above legislative requirements, Msunduzi Municipality developed the above table in order to ensure the communities of Msunduzi Municipality are able to view the contents of the Annual Report on time; the table serves as a strict guide.

## CHAPTER 2 – GOVERNANCE

### INTRODUCTION TO GOVERNANCE

Governance at Msunduzi Municipality is made up of political and administrative governance, inter-governmental relations, public participation and corporate governance. Political governance comprises of elected Councillors, Council and council committees. It plays oversight over the administration of the municipality to ensure effective and efficient service delivery. Administrative governance takes place through various administrative structures and functionaries under the leadership of the Municipal Manager. Intergovernmental relations refers to the structures and processes by which municipality forges relationships with national and provincial government departments as well as with other municipalities and government structures to ensure unimpeded, coherent and coordinated service delivery. Public participation refers to the manner in which the Municipality engages and involves communities within its area jurisdiction in the running of its affairs. This takes place through community meetings, izimbizo's, as well as ward committee and ward meetings. Corporate governance looks at issues of transparency, compliance with the rule of law, accountability and upholding of the Batho Pele Principles. Together these important aspects intertwine and ensure that the objects of local government as enshrined in section 152 of the Constitution are realized.

## COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

### INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political & administrative governance at Msunduzi Municipality comprises of the elected Councillors and Senior Managers, respectively; they work together on a day-to-day basis in order to achieve identified service delivery goals and targets.

#### 2.1. POLITICAL GOVERNANCE

##### INTRODUCTION TO POLITICAL GOVERNANCE

Msunduzi municipality has several political structures which include Full Council, Executive Committee, other Council committees and Committees established to support the Executive Committee. The Municipal Public Accounts Committee (MPAC) which is one of the Council Committees that oversees the expenditure of public funds on behalf of Council and thereby ensures accountability of both the Executive Committee and administration. It further considers the Annual Report and provides Council with oversight report and its comments on the Annual Report. To ensure effective oversight, the Council has further appointed the Audit Committee, which is a Committee that is made up of private individuals with expertise in the areas of finance, performance management and law to advise Council on the performance of the Executive Committee and administration with regard to financial management, risk management, performance management and legislative compliance.

## COUNCILLORS

Councillors are elected representatives serving a predetermined term of office on the local council on behalf of their respective constituents. The Msunduzi Municipal Council has a total of 78 seats. Thirty-nine (39) of these seats are allocated to ward Councillors who are elected through the wards they represent. The other 39 seats are allocated to political parties in proportion to the number of votes cast for the respective parties.

## COMMITTEE ALLOCATIONS – JULY 2018 – JUNE 2019

### COUNCILLOR ATTENDANCE AT MEETINGS 2018/2019 FINANCIAL YEAR

Councillor attendance is monitored by the Office of the Speaker based on the attendance registers that are recorded by the Secretariat during meetings and forwarded to the Office of the Speaker at the end of each meeting. The table below indicates the number of meetings attended by each Councillor during the period 1 July 2018 – 30 June 2019. In certain instances, though very few, Councillors attended meetings but did not sign the attendance registers and this omission may slightly compromise the accuracy of the number of meetings actually attended by some Councillors.

### NUMBER OF MEETINGS ATTENDED BY COUNCILLORS FROM 01 JULY 2018 TO 30 JUNE 2019

| NO. | CLLR'S NAME                     | JULY | AUG | SEPT | OCT | NOV | DEC | JAN | FEB | MAR | APR | MAY | JUNE | TOTAL |

## **MSUNDUZI MUNICIPALITY PORTFOLIO COMMITTEES BY NAME & PURPOSE**

The following reflects the different committees of Council and their respective purposes.

## **MSUNDUZI MUNICIPALITY COUNCIL COMMITTEES, PORTFOLIO COMMITTEES AND OTHER COMMITTEES BY NAME & PURPOSE**

At its meeting, which was held on 29 June 2016, Council took a resolution adopting the Terms of Reference and the establishment of the following committees:

### **MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)**

The Municipal Public Accounts Committee (MPAC) is established in terms of section 79 of the Structures Act, 1998 and is made up of ordinary Councillors to oversee the expenditure of public funds in order to ensure the efficient and effective utilization of council resources and to enhance the political accountability of Council. It exercises an oversight role over the Executive and the Administration on behalf of the Council, with regard to matters falling within its area of competence and reports directly to Council. The primary purpose of the MPAC is to assist Council to hold the executive and the municipal administration to account. To this end, it reviews and interrogates the Annual Report as well as the audit reports on the financial and administrative affairs of the municipality and may initiate, direct and supervise investigations into any matter falling within its terms of reference, including projects requested by Council and Executive Committee.

### **APPEALS COMMITTEE**

The Appeals Committee is constituted in terms of section 62 (4) (c) (ii) of the Local Government: Municipal Systems Act, 2000 to hear appeals against decisions taken by a political structure, political office bearer or a Councillor of the Municipality in terms of a power or duty delegated or sub-delegated to it by a delegating authority. The Committee has the power to decide all appeals against decisions taken by a political structure, political office bearer or a Councillor of the municipality.

### **SECURITY COMMITTEE**

The Security Committee is constituted in terms of section 79 of the Structures Act to consider and deal with cases of threats directed to Councillors and senior officials and are associated with or linked to the performance of their duties as municipal Councillors and senior officials. The Committee is empowered to make emergency decisions where it deems necessary and incur concomitant expenditure or make recommendations to Council.

### **RECESS COMMITTEE**

The Recess Committee is established in terms of section 79 of the Structures Act to deal with any emergency or urgent matters which may emerge and require urgent attention when the Council is in recess and those matters that could not be finalized before the Council went to recess and have been designated as such to the Recess Committee to finalize them.

### **EXECUTIVE COMMITTEE**

The Executive Committee established in terms of section 42 of the Local Government: Municipal Structures Act No. 117 of 1998 (the Structures Act) and is the principal committee of the Municipal Council which guides the Council in performing its role of political oversight of the municipality's functions, programmes and the management of the administration. The Committee presents its resolutions and recommendations to Council.

### **COMMITTEES TO ASSIST THE EXECUTIVE COMMITTEE**

The following Committees have been established in terms of section 80 of the Structures Act to assist the Executive Committee:

#### **CORPORATE SERVICES PORTFOLIO COMMITTEE**

This Portfolio Committee is charged with the responsibility for efficient and effective Council and Committee support services, legally compliant human resources management, information management and legal services.

#### **FINANCIAL SERVICES PORTFOLIO COMMITTEE**

This Portfolio Committee is responsible for the matters relating to the transparent, efficient and effective management of municipal finances, which includes in the main treasury and budget management, supply chain management, revenue and expenditure management, as well as financial control and cash management.

#### **INFRASTRUCTURE SERVICES PORTFOLIO COMMITTEE**

This Portfolio Committee is responsible for municipal infrastructure planning, financing, development, maintenance and management of water, sanitation, electricity, roads and storm water provision.

#### **COMMUNITY SERVICES PORTFOLIO COMMITTEE**

This Portfolio Committee is responsible for landfill site and waste management, libraries, cemeteries and crematoria services, public safety and disaster management as well as traffic law enforcement services.

#### **SUSTAINABLE DEVELOPMENT & CITY ENTERPRISES PORTFOLIO COMMITTEE**

This Portfolio Committee deals with integrated development planning matters, municipal markets, forestry and tourism, local economic development, environmental health as well as human settlements development and management.

**NOTE: - FULL VERSION OF THE APPROVED TERMS OF REFERENCE ARE AVAILABLE ON REQUEST FROM THE ARCHIVES, REGISTRY & INFORMATION SUB-UNIT**

## POLITICAL DECISION-MAKING

The Rules and Procedures of Council and its Committees provide inter alia for the powers and functions that the Council may delegate and those it may not delegate, as well as the votes that are required when certain matters are decided.

In making decisions on the following matters, a supporting vote of a majority of the number of Councillors is required:-

- (a) The passing of by-laws;
- (b) The approval of budgets;
- (c) The imposition of rates and taxes, levies and duties;
- (d) The raising of loans;
- (e) The rescission of a council resolution; and any other matter prescribed by legislation.

All other questions before the Council are decided by a majority of the votes cast and in the case of an equality of votes, the Councillor presiding (the Speaker) exercises a casting vote in addition to a vote he or she has as a Councillor.

Before the Council takes a decision on any of the following matters, it first has to obtain the recommendations of the Executive Committee: -

- (a) The passing of by-laws;
- (b) The approval of budgets;
- (c) The imposition of rates;
- (d) The raising of loans;
- (e) The approval of an integrated development plan for the Municipality and any amendment to that plan;
- (f) The approval of a performance management system
- (g) The appointment and conditions of service of the Municipal Manager and a head of department of the Council.”

**Note:** Minutes of all meetings as well as attendance registers can be obtained from the Archives, Records and Information Unit.

## 2.2 ADMINISTRATIVE GOVERNANCE

### INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

During the 18/19 financial year, the General Manager: Sustainable Development post was filled. The General Manager: Infrastructure, vacated in June 2018, remains vacant. All remaining Section 56/57 posts were occupied throughout the year. As the head of the municipal administration, subject to the policy directions of the municipal council, the City Manager is responsible and accountable for the formation and development of an economical, effective, efficient and accountable administration. The City Manager must make sure the administration is equipped to implement the municipality's integrated development plan, that it operates in accordance with the municipality's performance management system, and that it is responsive to the needs of the local community.

The roles and responsibilities of the City Manager are comprehensively set out in Section 55 of the Municipal Systems Act and responsibilities of the City Manager as Accounting Officer is set out in Chapter 8 of the Municipal Finance Management Act, 56 of 2003.

The City Manager's office has assumed direct responsibility for Communications and Corporate Strategy as well as the drafting, management and implementation of Council's Integrated Development Plan [IDP]. The Internal Audit unit is also located in the Municipal Manager's office and ensures compliance with municipal legislation.

In addition, the five Business Units that mirror the committee portfolios also report to the Municipal Manager. These Business Units, each headed by a Deputy Municipal Manager, ensure that services are delivered to the people of the Msunduzi Municipality. They are:

- Infrastructure services;
- Community services;
- Economic Development;
- Financial Services; and
- Corporate services.

The City Manager and his team of executive managers hold weekly meetings to discuss key strategic service deliverables, and to offer guidance on achieving IDP goals. The administrative component is aligned with the five National Key Performance Areas; **Financial Viability and management, Local economic Development, Basic service delivery and Infrastructure development, Good Governance and Public Participation, Institutional Development and Transformation, Environmental Planning and Social Services**

## COMPONENT B: INTERGOVERNMENTAL RELATIONS

### INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

The municipality continues to receive full support from the Office of the MEC for Cooperative Governance and Traditional Affairs. Substantial support in the development of a financial recovery plan has also been obtained from National Treasury. The Provincial Treasury has also assisted in terms of developing both the strategic and operational risk registers of the municipality. Whilst the Municipal Infrastructure Grant (MIG) was the primary source of funding for capital projects related to infrastructure development and basic services, the following basic services are delivered to the community using mechanisms of intergovernmental relations with National/ Provincial Departments and/or parastatals:

Water & Sanitation - Department of Water Affairs and Umgeni Water;  
Housing - Department of Human Settlements;  
Electricity - Department of Minerals & Energy and Eskom

Various other grants, such as the Neighbourhood Partnership Development Grant, have been received for the implementation of projects. All information related to grants received is disclosed as required in the Annual Financial Statements.

### 2.3 INTERGOVERNMENTAL RELATIONS

#### NATIONAL INTERGOVERNMENTAL STRUCTURE

The Municipality is a participant in a number of national forums. On an administrative level, the Chief Financial Officer (CFO) participates in the CFO's Forum which is convened by the National Treasury and the office of the Auditor General. The Municipal Manager participates in the National Municipal Managers Forum convened by the South African Local Government Association (SALGA). Both Councillors and management also participate in the SALGA National Members Assembly. The Corporates Services Unit is a member of the National Municipal Capacity Coordinating and Monitoring Committee. In light of the grant funding assistance received, the municipality participates in the National Treasury Forum of the National Development Partnership Grant (NDPG). Participation in these national forums is key to be able to network, benchmark and expose the municipality to a variety of developmental and funding opportunities.

The municipality remains a member of the South African Cities Network at a national level. The Mayor sits on the Board of Directors of the SACN and the Municipal Manager is an alternate.

The municipality continues to enjoy favourable relations with the following National Departments who have provided conditional grants to the municipality:

| PROJECT DESCRIPTION                  | FUNDER            | RECEIVED             |
|--------------------------------------|-------------------|----------------------|

#### PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The City Manager and the Mayor participate in the technical and provincial MUNIMEC respectively. They also participate in the Premier's Coordinating Forum. The provincial SALGA convene the provincial MM's Forum of which the Municipal Manager does attend. The Mayor is the chairperson of the provincial SALGA Human Resources Working Group.

#### RELATIONSHIPS WITH MUNICIPAL ENTITIES

The municipality has one municipal entity called Safe City. Safe City is dedicated to making the City of Pietermaritzburg a better place in which to live, work and play.

#### SAFE CITY MUNICIPAL ENTITY

The accounting officer ensures that annual performance objectives and indicators for the municipal entity are established by agreement with the municipal entity and included in the municipal entity's multi-year business plan. The accounting also ensures that as part of the municipal entity's annual budget process, the performance of the municipal entity against the agreed performance objectives and indicators is monitored.

A compliance checklist with all applicable legislation is developed and implemented to serve as a preventative control in ensuring compliance with legislation. Furthermore, senior management has to review and monitor implementation of the checklist.

A multi-year business plan of the entity will include performance targets and indicators and these will be included in the Sustainable Development and City Entities Service Delivery and Budget Implementation Plan (SDBIP). The municipality will have two resolutions, for approval Msunduzi consolidated budget and approval of Safe City budget.

**DISTRICT INTERGOVERNMENTAL STRUCTURES**

The Municipal Manager and the Mayor are members of the Technical District and Mayoral District Forum respectively. The Municipal Manager is also the Chairperson of the District Infrastructure Services Forum.

## COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

### OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

During the 2018/2019 financial year, the municipality had 39 functional ward committees which serve as a conduit between the municipality and the committee. In addition, a public participation policy and guideline was already developed and approved by Council. In addition to ward committees, the Service Delivery and Budget Implementation Plan (SDBIP) is made public and published on the municipal website. This contains projected financial and service delivery Indicators and deliverables. Members of the public are also invited to participate in the Oversight process related to the Annual Report.

In the promotion of public accountability and participating members of the public, are invited to attend all meetings of the Council and its committees. Another mechanism of public participation is conducted through Mayoral Budget and Integrated Development Plan (IDP) Izimbizo's. These are held prior to developing the draft budget in order to provide feedback to the community the implementation of projects in the current financial year and to illicit the needs of the community in order to provide input for the new financial year. A second Izimbizo is held once the draft budget has been developed in order to inform the public of key elements in the proposed budget and illicit responses thereto.

Section 2.4 below provides an outline of further mechanisms which the municipality utilizes as a mean of public participation.

### 2.4 PUBLIC MEETINGS

#### COMMUNICATION, PARTICIPATION AND FORUMS

Every year around the end of August, Msunduzi Municipality finalizes a Process Plan which is approved by Full Council, once approved a public notice is posted to our website and various newspapers inviting members of public as well as various stakeholders to make submissions with regards to developmental priority needs. The very same Process Plan is posted to the Msunduzi website where different activities and milestones are reflected in terms of the IDP review and PMS and Budget implementation and monitoring.

The Msunduzi Municipality has a structured program of public participation. This program is reflected in the Process Plan and forms the basis for citizenry engagement framework which is currently mooted in a form of a public participation policy.

The following are forms of citizenry participation that are utilized by the Municipality to ensure the citizen and stakeholders voice are accommodated in the planning, execution and review of the IDP, Budget and PMS processes:

- Ward Committee Monthly Meetings
- Stakeholders Quarterly Meeting (Reporting on PMS Progress/SDBIP and IDP)
- Monthly Community Meetings by Councillors (due to financial constrains-are held once in two months /6 meetings per annum per ward)
- Project Based Meetings
- Sector Plan Based Engagements
- Executive committee – Public Gallery
- Full Council Meeting – Public Gallery
- Integrated Development Planning Meetings:
- Izimbizo: Public Meetings for Budget, IDP etc.
- Municipal Property Rates Act (MPRA)
- Service Standard or Charter
- Community Based Planning
- Complaints Register: Customer Care and Batho Pele Engagements
- Sukuma Sakhe – Premier's Flagship Tool for Accelerated Service Delivery at a Ward Base Level
- Attendance to invitations by Interest groups
- Partnerships and MOUs

The above various forms of public participation engagements are conducted throughout the year specifically at an operational level and then some of them are organized on a fortnightly, monthly, quarterly and annually as reflected in our Process Plan, the intergovernmental relations and citizenry participation system model is presented for adoption by Full Council which forms the basis for Public Participation Policy.

#### WARD COMMITTEES

Section 74 of the Municipal Structures Act, and regulation 5 of the Government Gazette No. 27699 Ward Committee, state that Ward Committees may have powers and functions delegated to them (which are essentially advisory in nature) in terms of S59 of the Municipal Systems Act, these are:

- 1) To serve as an official specialized participatory structure in the Msunduzi Municipality.
- 2) To create formal unbiased communication channels as well as a co-operative partnership between the community and the Council.
- 3) Advise and make recommendations to the Ward Councillor on matters of policy affecting the Ward.
- 4) Assisting the Ward Councillors in identifying the challenges and needs of residents.
- 5) Dissemination of information in the Ward concerning municipal affairs such as the budget, integrated development planning, performance management systems, service delivery options and municipal properties.
- 6) Receive queries and complaints from residents concerning municipal service delivery, communication with Council and provide feedback to the community on Council's response.
- 7) Ensure constructive and harmonious interaction between the municipality and community through the use and co-ordination of ward residents meetings and other community development forums, and
- 8) Interact with other organisations and forums on matters affecting the ward.

A ward committee may also make recommendations on any matter affecting its ward to the ward councillor or through the ward councillor to the local council.

**PUBLIC MEETINGS**

In total 363 ward committee meetings were held and 181 community (public) meetings were held, broken down as follows:

**WARD COMMITTEE MEETINGS 2018 /2019 FY**

| OFFICE OF THE SPEAKER - MSUNDUZI MUNICIPALITY                                                                                                     |                 |                                               |                                                  |                                            |                                                                                                         |                                                                                                              |                                                           |                                                                                             |                                                                             |                                     |                                                                                    |                                          |                                                      |

**COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:**

The Municipality and Communities alike benefited from the meetings mentioned above as through the consultative processes, brainstorming occurred and ward committees imparted their advice to the Councillor who in turn did so to council. Council then took these recommendations forward by using certain aspects in terms of the Municipal Turnaround Strategy. Requests are being dealt with in a systematic manner with council having taken a decision to open a fully-fledged call centre to take calls from community members where there are issues of service delivery.

## IDP PARTICIPATION AND ALIGNMENT

| IDP Participation and Alignment Criteria*                                      | Yes/No |
|--------------------------------------------------------------------------------|--------|
| Does the municipality have impact, outcome, input, output indicators?          | Yes    |
| Does the IDP have priorities, objectives, KPIs, development strategies?        | Yes    |
| Does the IDP have multi-year targets?                                          | Yes    |
| Are the above aligned and can they calculate into a score?                     | Yes    |
| Does the budget align directly to the KPIs in the strategic plan?              | Yes    |
| Do the IDP KPIs align to the Section 57 Managers                               | Yes    |
| Do the IDP KPIs lead to functional area KPIs as per the SDBIP?                 | Yes    |
| Were the indicators communicated to the public?                                | Yes    |
| Were the four quarter aligned reports submitted within stipulated time frames? | Yes    |

## COMPONENT D: CORPORATE GOVERNANCE

### OVERVIEW OF CORPORATE GOVERNANCE

Corporate Governance at Msunduzi Municipality entails Risk Management, Anti-Corruption and Fraud and Supply Chain Management which is unpacked below.

### 2.6 RISK MANAGEMENT

#### RISK MANAGEMENT

##### LEGISLATIVE PROVISIONS

In terms of Section 62 (1) (c) of the Municipal Finance Management Act, Act No. 56 of 2003 (MFMA) the Accounting Officer of a municipality is responsible for managing the financial administration of the municipality and must for this purpose take all reasonable steps to ensure that the municipality has and maintains an effective, efficient and transparent systems of financial and risk management and internal control.

Section 95 of the MFMA reaffirms the responsibilities of the Accounting Officer in so far as maintenance of effective, efficient and transparent systems of risk financial, risk management and internal control.

Section 78 of the MFMA outlines the general responsibilities of Senior Management and other officials of the Municipality. The responsibilities of these officials have a direct bearing in financial and risk management, governance and systems of internal controls.

Section 165 of the MFMA requires the internal audit unit to advise the Accounting Officer and to report to the Audit Committee on matters relating to among other things, risk and risk management.

The MFMA has established the legal framework for risk management in the local government sphere that enforces risk management practice. Risk Management is about managing a potential inability by the municipality to fulfil the requirements of the Constitution. It is for this reason that the Constitution of the Republic of South Africa is the fundamental foundation for risk management.

##### BACKGROUND

Organisations operate in environments where factors such as technology, regulations, restructuring, changing service delivery requirements and political influence create uncertainty.

Uncertainty arises from an inability to precisely determine the likelihood that potential events will occur and the associated impact.

Risk management forms a critical part of an organisation’s strategic management.

It is the process by which an organisation addresses the risks intertwined in the activities with an objective of achieving sustained benefit within each activity and across the range of its activities.

The Accounting Officer has appointed General Managers and the Senior Manager: Office of the City Manager as members of the Risk Management Committee. The Risk Management Committee is governed by a Risk Management Committee Charter. The RMC is a sub-committee of the Audit Committee.

##### THE RISK MATRIX OF THE MUNICIPALITY

Of the population of the risks identified inherent to the municipality, 24% has been rated to be “Critical” followed by 52% that has been rated to be “Major”. This means 76% of the municipal risk exposures require management effort and oversight to ensure that controls in place are effective and constantly monitored to reduce the risks to the risk appetite level adopted by the municipality. 24% is rated moderate to minor and requires minimal management effort, however these shall be constantly monitored to ensure they remain at assessed levels.

##### STRATEGIC RISKS

During the Risk Profiling Exercise, Internal Audit Unit proposed SIX (6) Strategic Risks that Senior Management and Council should regularly get appraisal on to ensure success and sustainability of the municipality. These were identified upon studying the strategic objectives of the municipality and the scrutiny of the risks that were identified across the business units of the City.

Measures and tolerances along each of the strategic risks, which should be constantly monitored to ensure that the risks are managed, were also proposed and presented to the Strategic Management Committee and the Audit Committee.

The following table provides brief definitions for the identified strategic risks:

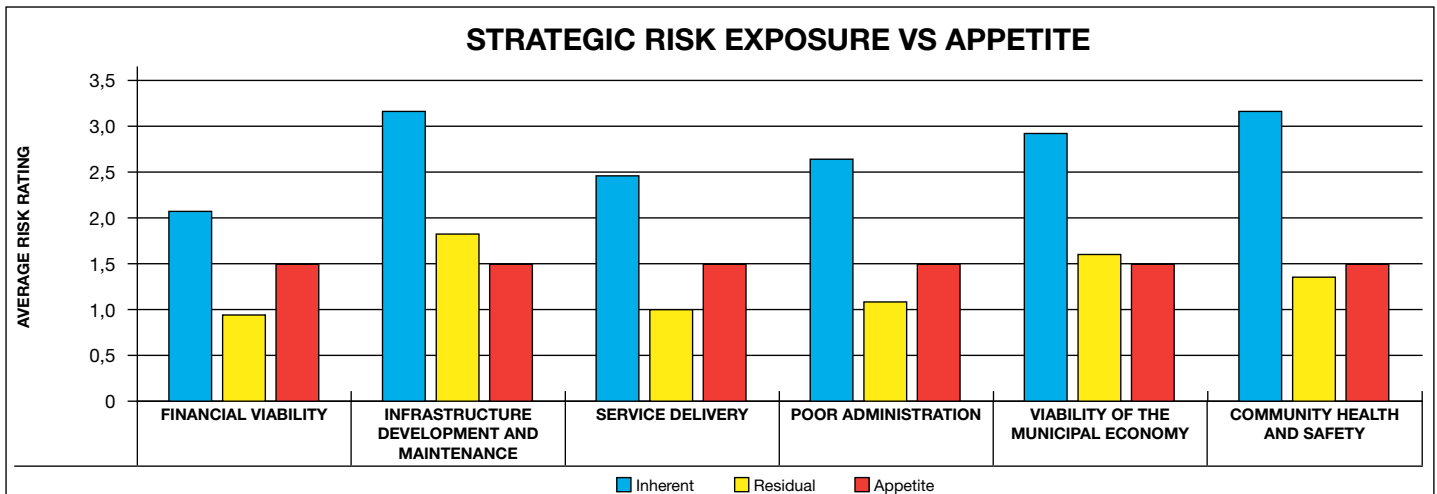

| Strategic Risk                             | Risk Definition                                                                                                                                                                                                                                                                       |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Financial Viability                        | The risk that the Municipality will not be financially viable and sustainable and may lead to bankruptcy. This may be as a result of poor liquidity of the municipality with depleted cash reserves from improper debt collection mechanisms and non-creation of third stream income. |
| Infrastructure Development and Maintenance | This risk will emanate from the incapacity of the Municipality to implement its CAPEX program to clear the infrastructure backlog, coupled with dilapidated infrastructure because of inadequate maintenance.                                                                         |
| Service Delivery                           | This risk will result in service delivery unrests by the communities serviced because of poor service delivery by the Municipality.                                                                                                                                                   |
| Poor Administration                        | This risk will emanate from inadequate systems, inadequate personnel, inadequate exercise of managerial / supervisory responsibility in the Municipality and ineffective policies, systems and procedures to drive the administration.                                                |
| Viability of The Municipal Economy         | This risk will emanate from the incapacity of the Municipality to stimulate the economy of the city thus creating jobs and eradicating poverty and inequality.                                                                                                                        |
| Community Health and Safety                | This risk relates to the inability of the Municipality to create a safe city where communities are not exposed to health hazards and unsafe environments.                                                                                                                             |

The diagram below depicts the prevalence of these strategic risks to the operations of the municipality (i.e. alignment of the strategic risks to the operational risks identified):

The highest risk prevalence is towards the strategic risk of “Poor Administration” with 53% of the operational risk universe of the municipality ascribed to it. Following at 24% of prevalence is the strategic risk of “Infrastructure Development and Maintenance”. The “Financial Viability” and “Community Health and Safety” have a prevalence of 8% respectively. The remaining prevalence is ascribed to “Service Delivery” and “Viability of the Economy” risks at 5% and 2% respectively”.

The diagram below depicts an assessment of these risks after the effect of internal controls put in place by management across all operations (i.e. the residual risk) against the adopted risk appetite of the municipality:

On assessment of existing controls in place by management, the risk exposure of the municipality appears to be a fairly managed, evidenced by the residual risks across the strategic risks identified being within the risk appetite, save for Infrastructure Development and Viability of the Municipal Economy risks. Focused identification, management and monitoring of the strategies to bring these risks at par with the risk appetite is paramount.

## 2.7. ANTI-CORRUPTION AND FRAUD

The Municipal Council has a policy framework on anti-fraud & corruption and which compose of Whistle Blowing Policy, Anti-Fraud and Corruption Policy and Anti-Fraud and Corruption strategy that was adopted in 2013. The policy framework on anti-fraud & corruption was reviewed and revised and changes made in order to ensure that it is aligned to any changes in the structure and titles of critical management in the municipality and taking into account the prevailing circumstances. In 2018 the framework was sent to Council for adoption.

The community has continued to play a pivotal role in reporting unethical behaviour, vehicle abuse, Supply Chain Management irregularities, electricity and water theft through illegal connections, cable theft, fraud, corruption and other gross maladministration allegedly taking place within the municipality. We appreciate their contribution because as a municipality we cannot identify all these immoral behaviours alone. Without the activism of the citizens of Msunduzi to protect their rates and tax monies which they work very hard for, the municipality will be a lone voice against the scourge of fraud, corruption, theft and other gross irregularities which has become an impediment against service delivery.

Allegations that are reported through whistle blowing hotline and other means are prioritized by conducting preliminary investigation to test the veracity of the allegations & conduct full scale investigations on each case where deemed necessary.

Thirty-eight (38) cases of alleged fraud, corruption, theft and other gross maladministration were reported during the year under review. In addition to the thirty-eight (38) cases, ten (10) which were carried over from previous financial years which were not completed for various reasons including the fact that the Chief Audit Executive was suspended in April 2016 and no one had institutional knowledge of these matters. Eleven (11) forensic investigations were finalized and seven (7) were at reporting stage as at the end of the financial year under review. The 38 cases which were under investigation during the period under review implicate thirty-two (32) employees.

We have also briefed the Brigadier responsible for Anti-Corruption Task Team on alleged corruption involving Electrical Technicians and the potential amount involved is R60 million.

Investigation into fraud on Supply and Services Contract for Mechanical Maintenance and Refurbishment new installations, modification, painting and cleaning is at reporting stage. The case has been discussed with the Anti-Corruption Task Team and is waiting for an allocation an Investigating Officer and the State Advocate that will be responsible for prosecution of these case. The amount involved in this case alone is R35 834 166.94 and the contract was awarded at different intervals during 2011, 2013, 2014 and 2016.

Our forensic investigation also uncovered diesel theft and fraud in that quantities of 450 litres on daily basis, filled up in containers and filled in municipal vehicles and decant into drums sold off by municipal employees. Our investigation identified 599 transactions of where 450 litres of diesel were dispensed into a container before being driven away on a Municipal vehicle. The value of these transactions is R4 090 606.40 and these transactions occurred between 1 January 2017 and 31 December 2018.

The overtime fraud investigations were completed in previous financial years with the total amount of R239 169.53 which is an actual loss to Msunduzi Municipality and eleven (11) employees are implicated. We are awaiting to be allocated an Investigating Officer and the State Advocate that will be responsible for prosecution of these cases.

There one criminal case relating to fraud on overtime by an Electricity employee is pending in Durban Specialized Commercial Crime Court which was uncovered by our forensic investigations in 2016/17 financial year. The amount involved in the case is R76 434.37.

Mr. Xaba defrauded the municipality R756 883.13 was sentenced to six (6) years imprisonment which was suspended for five (5) years and further ordered to pay the Msunduzi Municipality R500 000.00 on monthly instalments of R10 000.00 starting from 31 July 2018 defaulted in July 2018 and was arrested and appeared in the Durban Specialized Commercial Crimes Court. He promised that he will abide by the order and asked to be given another chance, however he defaulted again and was sentenced to Four (4) year imprisonment.

## 2.8. SUPPLY CHAIN MANAGEMENT

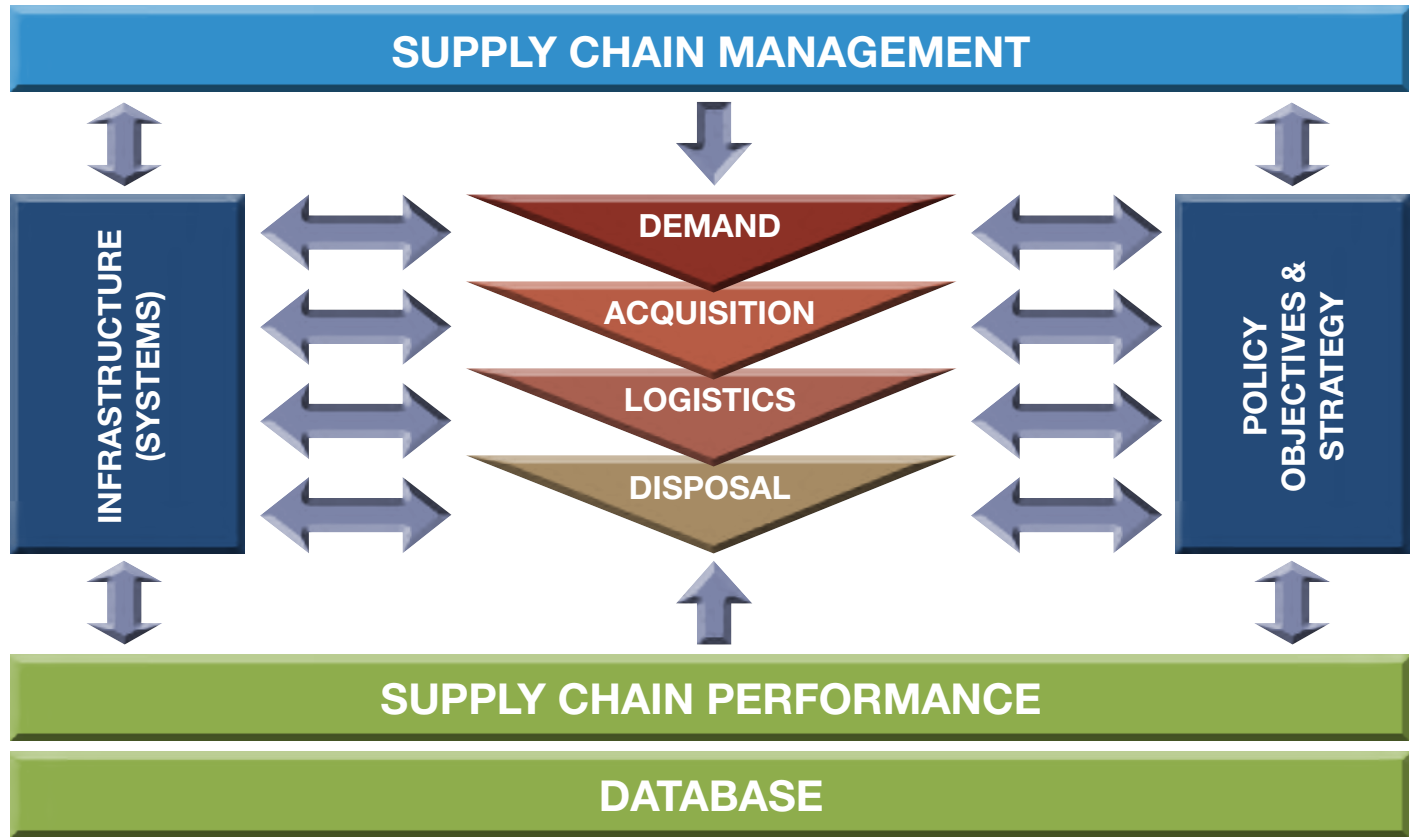

### OVERVIEW OF SUPPLY CHAIN MANAGEMENT (SCM)

The Msunduzi Municipality's Supply Chain Management unit is a support function for all business units within the council to ensure provision of efficient, transparent, fair, equitable and cost effective, procurement services hence assisting the business units to implement their service delivery priorities.

The supply chain management policy for the year 2018/2019 was adopted by Council on 30 May 2019 in terms of SCM Regulation 3 (1) (a) and implemented immediately thereafter. Since the initial adoption of the policy, it is reviewed yearly to align it with legislative provision, circulars, instruction notes and demand of the municipality that are in line with the constitution of SA.

An SCM implementation plan was development and implemented throughout the year and quarterly reports on implementation were submitted to Council.

In terms of the MFMA SCM regulations and relevant legislative provisions regulating local government procurement, the SCM policy of the municipality must provide for a system of demand, acquisition, logistics, disposal, risk and performance management, and thus the Msunduzi SCM policy has been aligned accordingly. The following is a brief overview of the processes that have been established and implemented within the Supply Chain Management system as drawn from the SCM model below.

**DEMAND MANAGEMENT**

The Procurement Plan defines the Supply Chain Management needs of the organisation, aligned to the municipality’s IDP, Budget and Departmental SDBIP. The plan is for a minimum of one year but aligned to the IDP three-year period. This is especially critical in the case of capital projects requiring the issuing of bids for multi-year projects, as well as in order to obtain cost savings through longer term goods and service contracts (limited to a three-year period in terms of the MFMA)

The main objective of the plan is to assist the service deliver business units to achieve their service delivery mandates and to meet their service delivery requirements without any SCM processes delays and this forms the integral component of the entire process to ensure effectiveness, efficient and economical SCM processes.

The preferential policy objectives were identified at a global level hence during the 2015/2016 financial year a procurement plan was established and implemented.

**ACQUISITION MANAGEMENT**

Bid committee structures were established and implemented in accordance with section 27, 28 and 29 of the Supply Chain Management regulations, Details of SCM committees during 2018/2019 financial year:

The SCM unit in collaboration with the relevant secretariat support will continually strive to ensure that the three (3) tier Bid Committee structures are fully functional and well trained to execute their functions.

**BID COMMITTEE MEMBERS**

| BID ADJUDICATION COMMITTEE (7)                   | MEMBERSHIP STATUS | BUSINESS UNIT      | POSITION                          |

| Johan Van Der Merve                                  | Ex Officio Member | Corporate Services : Legal      | Legal Advisor                                      |
| Lungisani Ntuli                                      | Member            | Electricity                     | Manager                                            |

## LOGISTICS MANAGEMENT

An effective system of logistics management has been established. The continuous interrogation of inventories and improvements on systems and processes have yielded positive results in that there is a progressive reduction of stock holdings. Part of logistics management is to establish and implement appropriate standards of internal control and warehouse management to ensure that goods placed in stores are secure and only used for the purpose for which they were purchased; regular checking of stock; and monitoring and review of the supply vendor performance to ensure compliance with specifications and contract conditions for particular goods or services. Part of the responsibilities of logistic management is to safeguard and maintain stock; Camera systems have been installed and this will greatly help in minimizing some of the losses that are associated with stock theft.

## DISPOSAL MANAGEMENT

An effective system of disposal management has been established and detailed processes developed to ensure compliance with section 40 of the SCM regulations. Disposal Committee was also established during the 2011/2012 financial year, this function falls within asset management unit, of which they are a separate unit according to the Msunduzi organisational Structure.

## RISK MANAGEMENT

A SCM policy and procedures have developed to ensure compliance and the monitoring of compliance with the SCM regulations. The unit manages risks by identifying and allocating the risk to the appropriate party in collaboration with the risk division in the Internal Audit and any other relevant stakeholder.

## PERFORMANCE MANAGEMENT (MONITORING AND CONTRACT ADMINISTRATION)

In terms of section 116 (2) of the MFMA the accounting officer of a municipality must - "Take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality or municipal entity is properly enforced; monitor on a monthly basis the performance of the contractor under the contract or agreement; establish capacity in the administration of the municipality to assist the accounting officer in carrying out the duties and to oversee the day-to-day management of the contractor under the contract or agreement;"

Therefore a Contract management Office (monitoring) within the Supply Chain Management unit was established in order to adhere to the above act. The Contract Management Monitoring Section within the SCM Unit has been identified as a critical vehicle to benchmark between Project Management and Delivery against all awarded contracts.

Contract Management is a foundational pillar towards a pro-actively managed and service centric supply chain management organisation. Properly managed contracts can ensure that services are delivered within specification and at the agreed cost.

Contract Management is a sub-unit within Supply Chain Management delegated with the duties pertaining to the dispensation of processes associated with monitoring compliance with standards, procedures, regulations and specifications encompassed in Procurement Regulations with regards to the contracts enforcements, preparing and presenting investigational and qualitative reports.

## TO FULFIL THESE MANDATES SOME OF THE ACTIVITIES THE SECTION EMBARKS ON ARE:

### STAKEHOLDER MANAGEMENT

- Engaging with all relevant stakeholders, to ascertain the complexity, and experience within the contractual obligations.

### COMPLIANCE MONITORING & REPORTING

- Reviews and report on how SCM, service providers and the department as a whole is performing against set standards and metrics, provides insight into how policies are followed, and identifies areas of opportunity to drive value through process efficiencies, and verification of variations requested by user departments.

### SUPPLIER PERFORMANCE

- Regular site visits and attending progress meetings which allows for systematic management of supplier performance and building of work relationships to optimize the value for money in agreed deliverables throughout the project execution.

### CHALLENGES

- The unit is not fully recognized as a functional office and often misunderstood by the rest of the organisations to its responsibility within Supplier Performance management context
- Inadequate SCM system to synchronize reporting and enhance performance indicators e.g. Coordination of information for the generation of monthly reports on Awarded Contracts is not automatically loaded at the point of letter of award during acquisitions process which normally cause distortions and rendering potential delays in the report generation at times.
- Information management processes and procedures across functional structures are not aligned e.g. dissemination of resolutions regarding contract variations are delayed at times
- Project and Contract Management systems are not linked to mitigate risk of poor performance.

### TRAINING OF SCM PRACTITIONERS AND BID COMMITTEES

SCM Management, SCM practitioners and Bid Committee members were trained during 2018/2019 as per SCM Regulation 8 in accordance with Treasury guidelines on supply chain training to meet the competency level required for supply chain practitioners.

## 2.9 BY-LAWS

### A BRIEF OVERVIEW OF THE DEVELOPMENT OF BY-LAWS DURING THE 2018/2019 FINANCIAL YEAR:

Legal Services identified 4 By-laws for review namely Debt collection and credit control, Street trading, Public Health (Keeping of Dogs) and SPLUMA. Debt collection and credit control and Public Health (keeping of dog) were submitted to Strategic Management Committee.

| BY-LAWS INTRODUCED DURING 2018/19 |                                                  |                                                                                                                                                    |                               |                          |                     |

|                                   | Spatial planning and land use management By-laws | No                                                                                                                                                 | N/A                           | N/A                      | N/A                 |
|                                   | Public health By-law (keeping of dogs).          | No, but approved for such participation.                                                                                                           | To follow                     | N/A                      | N/A                 |
|                                   | Street trading By-law                            | The licensing department is in the process of reviewing the policy. The By-law is to be reviewed once the review of the policy has been completed. | N/A                           | N/A                      | N/A                 |
|                                   | Debt collection and credit control By-law        | No, but approved for such participation.                                                                                                           | To follow                     | N/A                      | N/A                 |

### COMMENT ON BY-LAWS:

Legal Services identified 4 By-laws for review.

#### Public Participation:

The intended adoption of amendments to By-laws is always preceded by permitting the public to comment thereon.

#### Enforcement:

Legal Services act as Prosecutors in the enforcement of By-laws. The different business units are responsible, through their Peace Officers, for the enforcement of By-laws by issuing compliance notices and summonses. Legal Services was instrumental in facilitating progress in the establishment of a single law enforcement unit within the Municipality by submitting a comprehensive research report on the issue to a Council Workshop. A Task Team was established to perform further work on such establishment.

## 2.10 WEBSITES

### INTRODUCTION TO THE MUNICIPAL WEBSITE

For Legislative Compliance, various Business Units are expected to furnish relevant information for publishing on the Msunduzi Website however some of the information is provided before deadlines. Information is updated almost daily and is accessible within a few hours depending on the content. Internet bandwidth on the LAN is not very reliable therefore uploads onto the Msunduzi Website is very slow. Although 3G Data Connectivity is available the speed is not consistent and also affects uploads and test downloads. However, Msunduzi always strives and publishes the necessary information on the Msunduzi Website.

### COMMENT MUNICIPAL WEBSITE CONTENT AND ACCESS:

Information is uploaded almost daily. This is done by formatting documents where necessary, logging onto the website, customizing areas if necessary and uploading data. Publishing dates and/or short descriptions are indicated below the information or file download. The Public can access information on [www.msunduzi.gov.za](http://www.msunduzi.gov.za) 24hrs a day by viewing some information on respective pages whereas other information is available as downloads viz. PDFs (Readable with Acrobat Reader). Information not up to date is usually due to respective Units not providing them timeously or when prompted about this report or not at all. Most compliance documentation is only made available by respective Units close to or on the due date. Sometimes updated documentation is received and requests are made to supersede previous submissions. This obviously delays publishing if the document requires some adjustments for presentation. Most information provided is uploaded and available within a few hours.

## 2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

No Public Satisfaction on Municipal Services surveys conducted in 2018/2019 financial year.

## CHAPTER 3 – ANNUAL PERFORMANCE REPORT – SERVICE DELIVERY INDICATORS

### INTRODUCTION:

The Annual Performance Report (APR) is a legislative requirement which prescribes that the report must be submitted to the Auditor General by the 31<sup>st</sup> August annually. The Annual Performance Report, amongst other documents, will form part of the consolidated Annual Report of the Municipality which must be submitted to Council by the end of January on an annual basis.

The Annual Performance Report 2018 / 2019 of the Msunduzi Municipality is divided into two (2) broad categories as follows:

#### **SECTION ONE: FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT.**

#### **SECTION TWO: ANNUAL REPORT OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN 2018 / 2019 & ANNUAL REPORT OF THE OPERATIONAL PLAN 2018/2019**

During the 2018 / 2019 financial year, Msunduzi Municipality continued to implement a process for reporting on the SDBIP & OP; a process for reporting against pre-determined objectives and Key Performance Indicators (KPI's) that are contained in the approved Service Delivery and Budget Implementation Plan (SDBIP). The process is based on a colour-coded dashboard that serves as an early-warning indicator of under / zero performance. Monthly and Quarterly reports, based on the colour-coded dashboard were submitted to Council with applicable recommendations that were adopted. These reports and Council resolutions are available for inspection on request.

During the 2018 / 2019 financial year, Msunduzi Municipality had 2 vacancies for S57 employees being the General Manager: Sustainable Development & City Enterprises as well as the General Manager: Infrastructure Services. The post of General Manager: Sustainable Development & City Enterprises was filled with an acting incumbent for most of the financial year; however, towards the latter part of the financial year the post was filled. All S57 managers except the General Manager: Corporate Services signed performance agreements for the financial year. The Individual Performance Management System (IPMS) was cascaded to Level 3 employees (S58 – Senior Managers as well as Managers in Strategic Positions reporting directly to the City Manager i.e. Chief Audit Executive, Senior Manager: Office of the City Manager, Senior Manager: Political Support, Senior Manager: Strategic Planning and the Head: Integrated Rapid Public Transport Network. All Senior Managers and Managers in Strategic Positions reporting directly to the City Manager signed performance agreements as well. During the 2018 / 2019 financial year individual Annual assessments for 2017/2018 FY were conducted for 3 General Managers and the Chief Financial Officer.

In the 2018 / 2019 financial year institutional arrangements have been put in place in order to ensure the implementation of an Organisational Performance Management System (OPMS) as per legislative requirements and also to enable meaningful and informed monitoring and evaluation. It is hoped that as OPMS becomes institutionalized within the municipality and part of our everyday business, that Managers, Councillors and the Community alike will use it as tool to monitor the services that are being delivered by the municipality thereby increasing the accountability and transparent role of local government.

During the Strategic Planning Process for the 2018/2019 financial year a management decision was taken to differentiate between service delivery indicators that have a direct impact on the community and those that are operational, support and auxiliary services. In this regard for the 2018/2019 financial year the Service Delivery & Budget Implementation Plan (SDBIP) has been developed to focus on the service delivery indicators and the Operational Plan (OP) 2018/2019 has been developed to focus on operational, support and auxiliary services.

The SDBIP 2018/2019 contains Public Participation Units (Office of the Speaker, Office of the Mayor, Office of the MPAC Chairperson & Office of the Municipal Manager), Community Services Units (Area Based Management, Waste Management, Recreation & Facilities as well as Public Safety Enforcement and Disaster Management), Infrastructure Units (Water and Sanitation, Roads and Stormwater, Electricity & Mechanical Workshops) and Sustainable Development & City Enterprises Units (Development Services, Town Planning and Environmental Management, City Entities & Human Settlements). Also included are the Legislated Performance Indicators as regulated by the National and Provincial Departments of Cooperative Governance and Traditional Affairs (CoGTA). As prescribed by legislation, the Municipality must set and monitor key performance indicators of all municipal entities. To fulfil this, SAFE CITY the only registered municipal entity; key performance indicators were also developed and inserted in the SDBIP 2018/2019.

All other units provide operational, support and auxiliary services to the Municipality and have been placed on the Operational Plan 2018/2019. The Operational Plan 2018/2019 contains the Corporate Business Units (Internal Audit, Communications & IGR, Integrated Development Plan and Organisational Compliance, Performance & Knowledge Management), Budget & Treasury Units (Budget, Revenue Management, Expenditure Management, Supply Chain Management, SAP, Financial Governance & Performance Management & Assets & Liabilities), Infrastructure Units (Project Management Office), Corporate Services Units (Legal Services, Information Communication Technology, Secretariat & Auxiliary Services and Human Resources) and Sustainable Development & City Enterprises (Development Services, Town Planning and Environmental Management & Human Settlements).

## HIGH LEVEL SUMMARY OF PERFORMANCE COMPARISON FOR THE 2017/2018 & 2018/2019 FINANCIAL YEARS (SDBIP & OP)

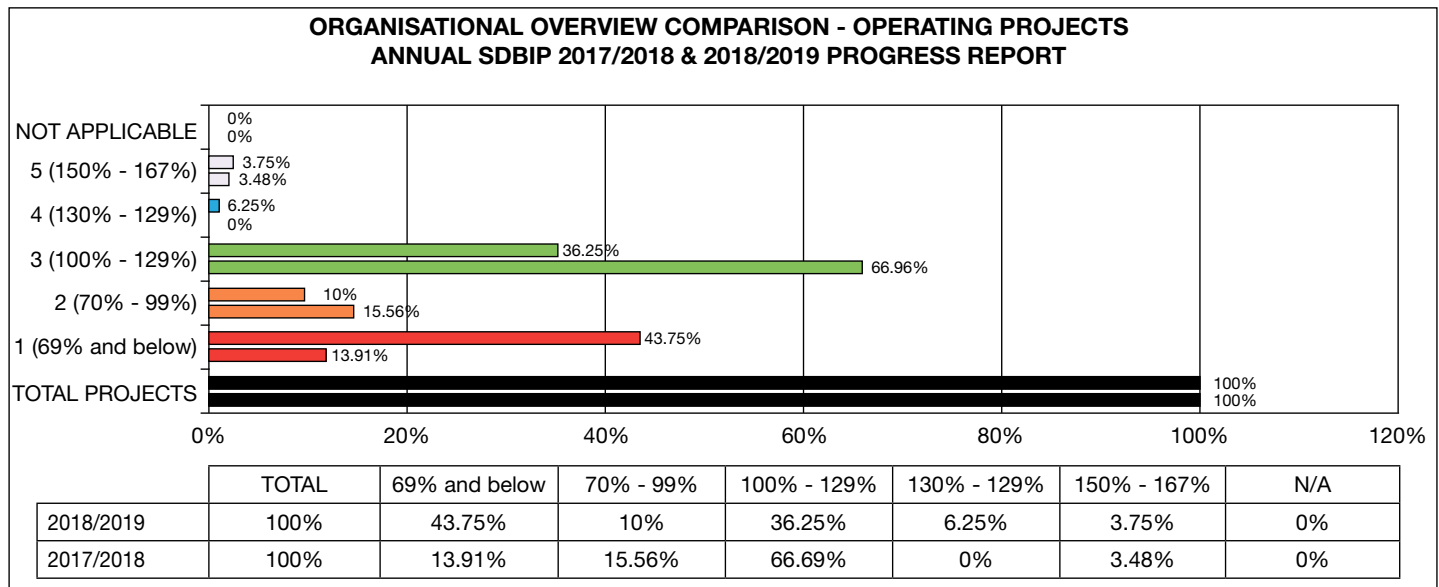

The graphical representations below illustrate the summary of high level performance of the municipality for the 2017/2018 and the 2018/2019 financial years, as per the colour-coded dashboard.

| COLOUR | SCORE          | DESCRIPTION                   | PERCENTAGE    | KEY |
|--------|----------------|-------------------------------|---------------|-----|
|        | N/A            | TOTAL PROJECTS                | N/A           | KEY |
|        | 1              | NIL ACHIEVED                  | 69% and below |     |
|        | 2              | TARGET PARTIALLY MET          | 70% - 99%     |     |
|        | 3              | TARGET MET                    | 100% - 129%   |     |
|        | 4              | TARGET EXCEEDED               | 130% - 149%   |     |
|        | 5              | TARGET SIGNIFICANTLY EXCEEDED | 150% - 167%   |     |
|        | NOT APPLICABLE | N/A                           | N/A           |     |

There were a total of 123 Key performance indicators on the SDBIP 2018/2019, 80 being operating projects and 43 being capital projects. There were a total of 195 Key performance indicators on the OP 2018/2019, 193 being operating projects and 2 being capital projects.

## SDBIP COMPARISON BETWEEN OPERATING AND CAPITAL PROJECTS FOR THE 2017/2018 AND 2018/2019 FINANCIAL YEARS

### GRAPHICAL REPRESENTATION OF PERFORMANCE: OPERATING PROJECTS

1. A total of 80 Operating Projects were reported on the SDBIP for the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 115 in 2017/2018 FY
2. 43.75% of the projects were reported as having achieved a 1 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 13.91% in 2017/2018 FY
3. 10% of the projects were reported as having achieved a 2 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 15.56% in 2017/2018 FY
4. 36.25% of the projects were reported as having achieved a 3 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 66.96% in 2017/2018 FY
5. 6.25% of the projects were reported as having achieved a 4 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 0% in 2017/2018 FY
6. 3.75% of the projects were reported as having achieved a 5 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 3.48% in 2017/2018 FY
7. 0% of the projects were reported as not applicable due to not having any targets on the SDBIP for the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 0% in 2017/2018 FY

**GRAPHICAL REPRESENTATION OF PERFORMANCE: CAPITAL PROJECTS**

1. A total of 43 Capital Projects were reported on the SDBIP for the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 95 in 2017/2018 FY
2. 48.84% of the projects were reported as having achieved a 1 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 14.74% in 2017/2018 FY
3. 9.30% of the projects were reported as having achieved a 2 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 20% in 2017/2018 FY
4. 30.23% of the projects were reported as having achieved a 3 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 56.84% in 2017/2018 FY
5. 9.30% of the projects were reported as having achieved a 4 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 6.32% in 2017/2018 FY
6. 2.33% of the projects were reported as having achieved a 5 on the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 2.11% in 2017/2018 FY
7. 0% of the projects were reported as not applicable due to not having any targets on the SDBIP for the 2018/2019 FY ANNUAL PROGRESS REPORT whereas 0% in 2017/2018 FY

## SERVICE DELIVERY & BUDGET IMPLEMENTATION PLAN FOR THE 2018/2019 FINANCIAL YEAR - ORGANISATIONAL OVERVIEW NARRATIVE

### COMMENT ON PERFORMANCE OVERALL – SDBIP (OPERATING & CAPITAL PROJECTS) & OP (OPERATING & CAPITAL PROJECTS)

In terms of the Operating projects on the SDBIP, in the 2018/2019 FY Msunduzi Municipality achieved 36.25% in terms of the targets that were met, whereas in the 2017/2018 FY 66.96% of the targets were met. This indicates a regression of 30.71% decrease in targets met.

In terms of the Capital projects on the SDBIP, in the 2018/2019 FY Msunduzi Municipality achieved 30.23% in terms of the targets that were met, whereas in the 2017/2018 FY 56.84% of the targets were met. This indicates a regression of 26.61% decrease in targets met.

In terms of the Operating projects on the OP, in the 2018/2019 FY Msunduzi Municipality achieved 68.39% in terms of the targets that were met, whereas in the 2017/2018 FY 58.22% of the targets were met. This indicates an improvement of 10.17% increase in targets met.

In terms of the Capital projects on the OP, in the 2018/2019 FY Msunduzi Municipality achieved 100% in terms of the targets that were met, whereas in the 2017/2018 FY 50% of the targets were met. This indicates an improvement of 50% increase in targets met.

## MEASURES UNDERTAKEN AS PER S46 OF THE MUNICIPAL SYSTEMS ACT TO IMPROVE PERFORMANCE

During the 2018/2019 financial year a number of measures were undertaken as per S46 of the Municipal Systems Act to improve the overall performance of the Municipality in order to ensure that Msunduzi Municipality turned around the poor audit opinions on Performance Management and Information and made strides towards obtaining a clean audit. The measures undertaken where as a result of the Auditor Generals findings of previous financial years in respect of SMARTNESS of indicators, linkage of indicators between the Integrated Development Plan (IDP) and the Service Delivery & Budget Implementation Plan (SDBIP), poor quality Portfolios of Evidence & inaccurate reporting against quarterly and annual targets set at the beginning of the financial year.

### THE FOLLOWING TABLE AIMS TO DESCRIBE THE MEASURES UNDERTAKEN TO IMPROVE PERFORMANCE:

| MEASURES UNDERTAKEN TO IMPROVE PERFORMANCE IN THE 2018/2019 FINANCIAL YEAR |                            |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |                                                                                                                                                        |                                                                                               |

| 1                                                                          | Office of the City Manager | Mrs. N M Ngcobo (CM - Acting) | Management took a decision to separate the functions of the Organisation whereby only Service Delivery & Public Participation functions & projects that were budgeted for would be placed on the SDBIP, all other auxiliary functions and projects would be placed on an Operational Plan.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 2                                                                          | Internal Audit             | Mr. P J Mahlaba               | At the approval of the SDBIP 2018/19 by the Mayor, the Office of the Municipal Manager forwarded both the SDBIP & OP 18/19 to the Internal Audit unit for an audit on SMARTNESS and Alignment to the IDP. Internal Audit conducted an Audit and presented the findings.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 3                                                                          | Office of the City Manager | Ms. Madeleine Jackson         | Upon completion of the Audit on the SDBIP & OP by Internal Audit, the Office of the CM then conducted a review of the SDBIP in order to rectify the findings presented. A report on the completed review was prepared and submitted to the Strategic Management Committee (SMC) for approval and finally to the FULL COUNCIL for approval and noting during the mid-year review 18/19 FY.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 4                                                                          | Office of the City Manager | Mrs. N M Ngcobo (CM - Acting) | Upon the Auditor General releasing their report on the Audit Opinion for the Municipality, the City Manager set up the Controls Transformation Steering Committee which meets bi-weekly to deal with the Auditors Queries. In preparation for the meetings and Action Plan is initially created and reviewed as progress is made in order to fully resolve all queries. The Audit Action Plan contains queries for both financial and non-financial activities including performance management queries.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 5                                                                          | Office of the City Manager | Mrs. N M Ngcobo (CM - Acting) | The Municipal Systems Act makes provision that the municipality must on a quarterly basis prepare a quarterly report on the SDBIP performance. Management took a decision to go a step further and have monthly meetings to discuss the progress made towards achieving targets on the SDBIP & OP. Meetings are held once a month. Reports on the SDBIP & OP are presented to the Operational Management Committee which is constituted of the City Manager, General Managers, Senior Managers and all Senior Managers reporting directly to the City Manager. At the meetings monthly or quarterly reports are discussed in-depth and interrogated before onwards transmission to the relevant portfolio committees.                                                                                                                                                                                                                                                                                             | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 6                                                                          | Office of the City Manager | Ms. Madeleine Jackson         | Reports discussed at the OMC monthly meetings are presented by the Office of the City Manager at Portfolio Committees, Executive Committee, Full Council, the Municipal Public Accounts Committee and the Audit Committee.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |
| 7                                                                          | Office of the City Manager | Ms. Madeleine Jackson         | Review of the Organisational Performance Management Framework and the Individual Performance Management Policy was conducted and submitted to the Strategic Management Committee for approval and was subsequently approved and thereafter approved by Full Council. Business units therefore had the task of implementing both the policies as approved.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | In Progress   | Business units deviated from the approved policies                                                                                                     | City Manager to implement consequence management                                              |
| 8                                                                          | Office of the City Manager | Ms. Madeleine Jackson         | As per the approved IPMS policy; Individual Performance Management was cascaded to level 3 employees until such time the organisation was ready to go to the next levels and finally all employees. The City Manager, General Managers, Senior Managers and all Senior Managers reporting directly to the City Manager x 28 signed Performance Agreements which included, personal development plans, the code of conduct, financial declarations of private interests as well as work plans. The Systems Act says that all section 56/57 Managers Performance agreements must be made public within 14 days after the approval of the SDBIP by the Mayor. This was completed through the Publishing of the CM & GMs performance agreements on the municipal website. Copies of the signed performance agreements were also forwarded to CoGTA as per circular 7 of 2015. Only the GM: Corporate Services & the 4 Senior Managers reporting directly to her did not sign performance agreements for the 18/19 FY. | Partially Met | Only the GM: Corporate Services & the 4 Senior Managers reporting directly to her did not sign performance agreements for the 18/19 FY. (Confidential) | The City Manager (A) is dealing with the matter and can be contacted for further information. |
| 9                                                                          | Internal Audit             | Mr. P J Mahlaba               | After the SDBIP & OP quarterly reports are completed, they are forwarded to the Internal Audit Unit. The Internal Audit unit then Performs an audit on the results presented in the respective documents. Reports on the IA findings are produced and submitted to Management for comments.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Completed     | N/A                                                                                                                                                    | N/A                                                                                           |

## MEASURES UNDERTAKEN TO IMPROVE PERFORMANCE IN THE 2018/2019 FINANCIAL YEAR

| NUMBER | DEPARTMENT RESPONSIBLE     | PERSON RESPONSIBLE            | ACTION TAKEN                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | STATUS        | REASON FOR DEVIATION                                                                                                     | CORRECTIVE MEASURE                               |
|--------|----------------------------|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|--------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------|
| 10     | Office of the City Manager | Mrs. N M Ngcobo (CM - Acting) | During the OMC, the City Manager noted there was a slow pace on municipal expenditure on MIG funding & Grants. As a result, it was resolved compulsory weekly meetings with all General Managers, Senior Managers and Project Champions will take place. The meetings looked at possible ways of fast-tracking expenditure on MIG funding & Grants.                                                                                                                                                                                    | Completed     | N/A                                                                                                                      | N/A                                              |
| 11     | Office of the City Manager | Mrs. N M Ngcobo (CM - Acting) | Msunduzi Municipality continues to implement a dashboard for performance management. In the reporting templates of the SDBIP & OP a graphical summary is included and on each sub-unit's reporting templates there are drop down menus which are colour coded and linked to the graphical summaries. This further enhances oversight by the CM in respect of early warnings signals of Indicators coded as either red or brown in colour as these indicate targets are not being met and there are problems in those respective areas. | Completed     | N/A                                                                                                                      | N/A                                              |
| 11     | Office of the City Manager | Ms. Madeleine Jackson         | The SDBIP & OP 18/19 FY was reported on both monthly and quarterly. Both the monthly and quarterly reports included a narrative of performance at the beginning of each section focusing on the Targets that were not met and partially met. This served to further act as an early warning tool for all the councillors and management with the ease of reference of not having to go through the entire sections of the report to locate poor performance.                                                                           | Completed     | N/A                                                                                                                      | N/A                                              |
| 12     | Office of the City Manager | Ms. Madeleine Jackson         | Msunduzi Municipality continues to implementing a new format of the SDBIP & OP templates on which new columns have been included. These columns are for indicator level reporting (low level), whereby there are columns headed reason for deviation, corrective measures and timeframe to implement corrective measures. Where targets are not met or are partially met, the respective manager is required to populate these columns with responses which are interrogated at the Monthly OMC meetings by the CM.                    | Completed     | N/A                                                                                                                      | N/A                                              |
| 13     | Office of the City Manager | Ms. Madeleine Jackson         | The Office of the City Manager, having consulted with the AG, has developed and implemented a Standard Operating Procedure (SOP) for compilation and storage of performance information (portfolios of evidence) on the SDBIP & OP by strategic business units. The template requires sign off by both the incumbent & supervisor having satisfied themselves that the contents thereof is an accurate and true reflection of the recorded actual.                                                                                     | Partially met | Some Business units are still not using the POE top sheet requiring sign of between the Senior Manager & General Manager | City Manager to implement consequence management |
| 14     | Office of the City Manager | Ms. Madeleine Jackson         | In line with an Internal Audit report recommending the OC, P & KM unit conduct training with all Managers for the compilation of POE's, the OC, P & KM unit conducted training at a meeting of the Operational Management Committee on the following:<br>Presentation on the OPMS Policy & the SOP 2015/2016,<br>Presentation on IPMS Policy & the SOP 2015/2016,<br>How to complete the SDBIP & OP on a monthly & quarterly basis;<br>How to use the POE cover sheet; and<br>How to prepare the POE?                                  | Completed     | N/A                                                                                                                      | N/A                                              |

# SECTION 1: FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT

## COMPONENT A: INFRASTRUCTURE SERVICES

This component includes: Water Services, Sanitation Services, Electricity, Roads, Transportation Planning, and Storm Water & Mechanical Workshops.

### 1.1 WATER SERVICES

Please find below basic terminology used commonly in Water & Sanitation content input.

#### BASIC TERMINOLOGY

Some of the standard definitions for international use used in this report have been included below for ease of reference and understanding:

- System Input Volume is the volume of water input to a distribution system.
- Authorized Consumption is the volume of metered and/or unmetered water taken by registered consumers, the water supplier or others who are authorized to do so, for domestic, commercial and industrial purposes (authorized consumption includes items such as firefighting and training, flushing of mains and sewers, street cleaning, watering of municipal gardens, public fountains and building water. These may be billed or unbilled, metered or unmetered according to local practice).

Water Losses of a system are calculated as:

- $\text{Water Losses} = \text{System Input Volume} - \text{Authorized Consumption}$  as per MFMA circular 71 of 2014 which is inclusive of Actual and Apparent losses.
- Water losses can be considered as a total volume for the whole system, or for partial systems such as bulk or reticulation. In each case the components of the calculation would be adjusted accordingly. Water Losses consist of Real and Apparent losses, and are collectively referred to as "Unaccounted-for Water".
- Real Losses are physical water losses from the distribution system, up to the point of consumer metering. The volume lost through all types of leaks, bursts and overflow is dependant on frequencies, flow rates and average durations of individual leaks.
- Apparent Losses (or Commercial Losses) consist of unauthorized consumption (theft or illegal use) and all types of inaccuracies associated with bulk and consumer metering. For example, under-registration of bulk meters and over-registration of consumer meters leads to under-estimation of losses. Conversely, over-registration of bulk meters and under-registration of consumer meters leads to over-estimation of real losses. Apparent losses to be included into total water losses as per MFMA circular 71 of 2014.
- Unauthorized Consumption is generally associated with the misuse of fire hydrants and fire service connections, and illegal connections.
- Non-Revenue Water (NRW) is the difference between the System Input Volume and Billed Authorized Consumption. The Equitable share payment is factored in the category of Authorized Consumption and therefore is eliminated in the calculation of the Non-Revenue Water as a monetary component.

#### INTRODUCTION TO WATER SERVICES

Note: Recent legislation includes the Water Services Act 1997 and the General Enabling Act 2005

The Water Services Act No 108 of 1997 was created manage, monitor, control and decide on the provision of basic water services to all citizens. The National government is the ultimate custodian of the national water resources. The Municipality is closest to the people and are therefore responsible for the provision of potable water.

Water is a finite resource and therefore the conservation concept should be considered. Water conservation involves many aspects but the primary intention is to use it sparingly and diligently. Treated water is provided by water boards. Bulk water agreements are compiled, and bulk tariffs determined, albeit with the guidance and legislation of National Government.

Msunduzi was appointed as water services authority (WSA) in 2013 to oversee this conservation effort, serve as an auditor within the water services and make the necessary amendments. The key to supply and sustainable water lies in Revenue enhancement.

Consumer tariffs are set by using the Block tariff method, each "block" determined by consumption used. It is also important to note that Government must ensure water supply services are subsidised through the Equitable Share, but must also be affordable to ensure sustainable economic activity and attracts economic investment. Primarily water is provided through piped water and standpipes and water tankers.

Water is fast becoming a scarce resource, and coupled with global change; it is of utmost importance that global participation becomes involved in expanding the longevity of this precious resource.

Another aspect is the quality of drinking water. During the first round of the blue drop status; the Municipality scored and overall score of 92% of potable drinking water (quality)

NOTE: MOST INFORMATION IS BASED ON THE 2011 Census which had a mediocre confidence level. Statistics are constantly being updated and verified. The next census will be conducted in 2021 and hopefully the will be a higher level of accuracy and reliability.

The dynamics of water dictate that there is very limited control on water losses and water wastage.

## INITIATIVES UNDERTAKEN DURING 2018/2019 FINANCIAL YEAR

1. The hydraulic model for the entire Vulindlela system was completed.
2. Two (2) Contracts for Water mains replacement was advertised in the 2018/2019 financial year.
3. Reactively responded to and repaired 1781 mainline burst pipes in 2018/2019.
4. The review of the Non-Revenue Master plan commenced in the 2018/2019 financial year.
5. A total of 96 water connections was installed in the 2018/2019 financial year.
6. The total Water losses for the 2018/2019 financial year was 28.8% which is within the acceptable limits as contained in MFMA circular 71 Uniform Financial Ratios and Norms.

## COMMENT ON WATER USE BY SECTOR

As indicated in the trend graph above; the units purchased have steadily increased which correlates to unit sales over the last 3 financial years. There is however an indication that the volume associated with water losses has slightly increased although in respect to percentage this has remained below 30%. This can be attributed to the initiatives initiated in the Non-Revenue Water Reduction program. The continuation of this program including asset replacement will further add credibility to Water Conservation Mandates.

The Msunduzi Municipality has maintained below 30% for the last three financial years which conforms to MFMA Circular 71 Uniform Financial Ratios and Norms.

Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variances are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100

## COMMENT ON WATER SERVICES OVERALL

Resource limitation hinder effective an efficient managing, monitoring and control of water movements. Performance management of the provision of potable water has its limitations due to fragile bulk and non-bulk water infrastructure. A rigid bulk water infrastructure will ensure an effective water conservation strategy once the Non-Revenue Water Master plan is adopted. Different funding mechanisms need to be explored in order to meet the short, medium and long-term targets as contained in the Master Plan. Budgetary and personnel resource availability also play a part in rectifying and meeting desired targets.

The major capacity constraints within the entire Msunduzi Water distribution has been identified with the priority been the Vulindlela system. The planning has further been completed in respect to Ward 39. It should be noted that the master plan will be augmented by Umgeni Waters long term planning strategy. Corporate and private enterprises should also have input into preserving this natural resource. The above mentioned interventions will definitely increase the number of households that require potable water, whilst the Municipality will strive to reduce potable water exigencies of service to all its residents.

Alternate sources of water supply should be considered, for example boreholes, but unless the water is treated to potable standards this will affect our Blue drop status. The Msunduzi Municipality has also shown an improvement in Water Quality and remain still remain blue drop compliant. It should be noted that for the 3<sup>rd</sup> consecutive financial year Msunduzi Municipality's water losses fell below 30% which is within the acceptable limits as contained in MFMA circular 71 Uniform Financial Ratios and Norms.

## 1.2 SANITATION SERVICES

### INTRODUCTION TO SANITATION PROVISION

The provision of acceptable standards (above minimum) is probably one of the most fundamental delivery service component to ensure healthy living conditions and most important; the maintenance of human dignity. Embodied in the Constitution of South Africa (106) is the National Water Act of 1998 which clearly defines this and is considered an act of legislation. Although significant progress has been made to fulfil requirements of this Act, sanitation services are not available to all citizens. The starting point is to provide a basic form of sanitation (above minimum level) and thereafter elevate to a water-borne sanitation system, a 2030 National Vision. However, the Municipality is confronted with many challenges that makes this task difficult. Sewerage Infrastructure renewal and replacement is a key challenge confronting the Msunduzi Municipality, caused by limited financial and personnel resources.

The upgraded sewer treatment works at Darville is almost complete and will definitely accommodate the increased sewage inflow. The increased inflow is primarily due to migration of persons from rural areas to cities to seek a better future.

The strategic framework for water services (2003) makes provision for a 10- year roadmap for addressing the Country's Sanitation service delivery directives.

Water Services refer to water supply and sanitation provision. The levels of government closest to the communities are the Municipalities. Municipalities are therefore mandated to serve as a primary role player in providing this sanitation service in a cost effective and sustainable manner.

Section 4b of the Constitution emphasizes that Government's primary objective is to ensure that all South Africans have access to basic water and sanitation services. As a result, it is necessary and compulsory to prioritise and plan to achieve this mandate.

The priority is developed along the parameters of financial availability and other relevant resources aligned to short and long term programs.

The Sanitation sector is governed by three (3) primary policy documents.

1. White Paper on Water Supply and Sanitation (1994)
2. White Paper on a National Water Policy (1997)
3. White Paper on Basic Household Sanitation (2001)

The following is a list of core sanitation achievements in the 2018-2019 financial year

1. 10 sanitation stream crossings were rehabilitated and are no longer discharging into river system.
2. 2,4 km of sewer pipe was installed in order to eliminate on site conservancy tanks.
3. 1,3 km of sewer pipe was installed in order to eliminate the use of septic tanks.
4. 1020 Ventilated improved pits were constructed in order to provide basic sanitation.
5. The where 29 new sewer connections undertaken in the form of an application process.
6. The Sanitation Master plan was completed and approved through at full council.
7. A total of 4021 mainline sewer blockages were attended to in the 2018/2019 financial year which is graphically represented including the previous financial years

## SANITATION / SEWERAGE GRAPHIC

- The trend graph is indicative of an increase in the number of Main line blockages that occur on a regular basis. It's been identified that the primary reason is attributed to the aging and fragile infrastructure.

| SANITATION SERVICE DELIVERY LEVELS                |               |               |               |               |

Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variances are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100

## COMMENT ON SANITATION SERVICES PERFORMANCE OVERALL:

It is essential, by regulation, to provide at least a basic form of sanitation to households that do not have a basic sanitation service. A total of 1020 Ventilated Improved Pits (VIP) increasing our access to sanitation to 54,71% across the Msunduzi Area of jurisdiction. The rehabilitation of sanitation infrastructure, is critical for assets replacement in order to ensure that our operational cost decreases and further the quality of water in our streams and rivers improves. To this end a total of 10 stream crossings were rehabilitated and are no longer discharging into river systems. Resource availability (staffing and financial) is of critical importance to fulfil all targets and reduce the number of sanitation blockages within our system. The Sanitation Service Delivery objectives has been prioritised to effectively fulfil obligations to provide households with, firstly a basic sanitation service and thereafter a move to above minimum service levels of sanitation.

## 1.3 ELECTRICITY

### INTRODUCTION TO ELECTRICITY

Note: Recent legislation includes the Electricity Amendment Acts 1989; 1994; 1995; and the Electricity Regulation Act 2006. The Msunduzi Electricity unit is licensed by the National Electricity Regulator of South Africa (NERSA) to supply electricity to approximately 50% of the total customer in the Municipality' area of jurisdiction and the balance which is comprised of the Greater Edendale, Imbali and Vulindlela areas is supplied by Eskom who holds the electricity distribution license in those areas. Msunduzi Municipality purchases electricity in bulk on Megaflex Tariff from 132 000 Volts from 2 Eskom intake points with a total maximum demand of 350MVA (Msunduzi Substation = 190MVA and Mersey Substation = 160MVA).

Msunduzi Electricity is undertaking implementation of electrification projects in areas under its license in order to address the electrification backlog. The electrification of new low cost housing developments is driven by the completion of projects by Human Settlements. During the 2018/2019 financial year, there were no new low cost housing developments to be connected. The backbone infrastructure is available to connect these new households. The backlog of electricity connections only exists in areas where there are informal settlements and those are electrified as and when they are identified by Msunduzi Human Settlement Unit. When low costs housing projects are completed, Grant Funding from Department of Energy is used to electrify the identified area.

As part of addressing the ageing infrastructure which contributed to the unplanned outages, the following major projects were completed during the 2017/18 financial year: Installation of 20 High Masts lights was achieved during the 2018/19 financial year in various wards of Msunduzi Municipality as per the Council Resolution to address the issue of lack of lighting and improve security in areas identified.

The delivery of 2 x 40 MVA 132/11 kV power transformers for the upgrade of Pine Street Substation project was achieved during the 2018/2019 financial year.

**Street Lighting:** - A lot of challenges were faced in addressing the number of street lights that were not working due to vandalism, cable theft, and unreported cable damages due to excavations undertaken by private contractors. This had resulted in a number of complaints received and never ending backlog. A number of areas are well-lit and improvements are ongoing. Underground Cables: - The underground cable network needs upgrading. Most of the cables are overloaded, contributing to regular outages, especially during high peak loads. These are being addressed as funds are made available.

**Contributing factors to electricity losses:** - Illegal Connections are a big challenge, metering inaccuracies (faulty meters), unmetered energy (tampering and bypassed), mid-block electricity services, estimated meter readings Ageing infrastructure: - Overloaded feeders and equipment, poor standard of equipment installed. How are these losses being addressed? - Replacing the old inaccurate, faulty meters and installation of meters where there were none and regular auditing to identify those meters that are tampered with, regular visits to the informal settlements to remove illegal connections.

Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variations are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100

## COMMENT ON ELECTRICITY SERVICES PERFORMANCE OVERALL: ACHIEVEMENTS

The following 2018/19 capital projects were achieved as planned: The supply and delivery of 2 x 40MVA 132/11kV Power Transformers, The installation of 13MVA Single Core Circuit between Eastwood Primary and Prilla Mills Substation. The Commissioning of 132kV Eastwood Overhead lines was not completed as a result of supply chain processed. As part of the upgrade of Pine Street and Crossways Substations, the delivery of the 2 x 40 MVA 132/11kV Power Transformers concluded the balance of the Capital Equipment with long lead times and the installation of these equipment will be completed as part of the construction projects on budget availability and will go a long way in addressing outages caused by overloading. The availability of the backbone infrastructure to connect households without access to electricity is contributing to the increase number of households connected for the first time to the network, thereby increasing the number of households with access to electricity. The budget approved against the budget available to complete these projects is contributing to the slow pace in completing the projects planned as per the NDP. Eskom is supplying the electricity to the Municipality without any challenges

## 1.4 ROADS

### INTRODUCTION TO ROAD TRANSPORT

This component of the report falls under the Roads and Transportation (R & T) Sub Unit of the Infrastructure Business Unit. R & T deals with the following:

- Planning, Development and Maintenance of Municipal roads and storm water infrastructure
- Transportation Planning, Traffic Engineering Issues, Road Safety and Public Transport Issues
- Planning, Development and Maintenance of Pedestrian and Vehicle Bridges

### INTRODUCTION TO ROADS

The Roads Section continues to address the backlog of Gravel Roads. An attempt is made yearly to upgrade 15-20km of gravel road into "all weather surfacing in order to render uninterrupted access and safety. (i.e through geometric Interventions).

The Roads section has commenced with its 5-Year road assessment in order to produce a revised and complete Road Asset Management Plan (RAMP) and a Pavement Management system (PMS) to drive the municipality's preventative/maintenance for the next five years.

The RAMP is going to inform the upgrading of gravel Roads programme, the gravel and backlog will be shown up to Ward level.

Preventative maintenance Programmes commenced in early 2013/14 FY. 12km of resurfacing and resealing was completed in the 2018/19 financial year.

In the 2018/19 FY the Roads Municipal Infrastructure grant Projects was moved to the Project Management unit of the municipality. The specified department would be able to advise with regards to the TARRED Road Infrastructure.

| Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variations are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100 |             |                   |                    |                                 |                     |

**COMMENT ON THE PERFORMANCE OF ROADS OVERALL:**

The department has continued with its programme of re-gravelling and maintenance of gravel roads with a vision of reducing the high backlog of unsafe roads within the city. The upgrading of gravel roads to tar was for the 18/19 financial year was appointed to the Project management unit to program. Funds are slowly being made available by the municipality towards the rehabilitation programme, which makes up the preventative maintenance of the department. In access and due to budget constraints a total of 60kms was maintained for the 18/19 FY.

**1.5 TRANSPORTATION PLANNING**

**INTRODUCTION TO TRANSPORTATION PLANNING**

Transportation Planning is crucial in planning sustainable developments and ensuring accessibility for all. The Transportation Planning Section is responsible for meeting the directives set out at all spheres of Government. The key principles that we address as a Section are:

- i. Mobility & Land use
- ii. Congestion
- iii. City Efficiency
- iv. Road Safety, and
- v. Accessibility

**TRANSPORTATION PLANNING SECTION PERFORMS THE FOLLOWING FUNCTIONS:**

- i. Evaluation, assessment, and sighting of transport facilities
- ii. Planning, co-ordination, facilitation and provision of efficient and effective transport systems and infrastructure for all private and public transport.
- iii. Planning, co-ordination, facilitation, provision, monitoring and regulation of efficient, effective public transport services and facilities within a balanced market demand and supply framework.
- iv. Provides effective traffic management, control and safety through co-ordinated planning and maintenance programmes.

**SERVICE STATISTICS FOR TRANSPORT**

The transportation Section continues to address the backlog of the installation of Traffic Calming measures, guardrails and bus shelters in order to improve safety in the municipal road network.

In 2018/19, the Transportation Section installed a total of thirteen (13) Speed humps, 0.4km of guardrails, 48 bus shelters and marking of 146 km of roads & replacement 516 traffic signs at various wards within the municipality.

| Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variations are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100 |              |                 |                    |                                 |

**COMMENT ON THE PERFORMANCE OF TRANSPORT OVERALL:**

13 traffic calming measures (speed humps and speed tables) were constructed, 0.4km of guardrails installed, 48 bus shelters were constructed. Marking of 146 km of roads & replacement of 516 traffic signs at various wards within the municipality.

## 1.6 STORM WATER

### INTRODUCTION TO STORM WATER

This component of the report falls under the Roads & Transportation (R & T) Sub-unit of Infrastructure Services Business Unit. R & T deals with the following: The Municipality maintained 83km of storm water channel in various roads in the CBD, Northern areas, and Greater Edendale areas. This was to prevent or minimise flooding of municipal roads. Other new systems are constructed in association with road network upgrade. However, this service is still under funded in terms of new or upgrade and maintenance of existing system.

### STORMWATER DRAINAGE

#### INTRODUCTION TO STORMWATER DRAINAGE

The Municipality maintained 83km of storm water channel in various roads in the Greater Edendale area and CBD and northern for the 2018/19 financial year. This was to prevent or minimise flooding of municipal roads. Other new systems are constructed by PMU projects in association with road network upgrade. However, this service is still under funded in terms of new or upgrade and maintenance of existing system. Preventative Maintenance programme is still in its infancy stage, however this programme has now been upgraded to ensure that funding is available.

| <b>Total Operational Expenditure</b>             | <b>37 010</b> | <b>66 885</b>   | <b>38 980</b>     | <b>38 577</b> | <b>-1</b>             |
| <b>Net operational (Service) Expenditure</b>     | <b>37 010</b> | <b>66 885</b>   | <b>38 980</b>     | <b>38 577</b> | <b>-1</b>             |

Variances are calculated by dividing the difference between the Actual and Adjustment Budget by the Adjustment Budget x 100

## CAPITAL EXPENDITURE - STORMWATER DRAINAGE

| Details                                            | 2018/2019 |                   |                    | Total Project Value |
|----------------------------------------------------|-----------|-------------------|--------------------|---------------------|
|                                                    | Budget    | Adjustment Budget | Actual Expenditure |                     |
| <b>Total All</b>                                   | <b>-</b>  | <b>2,507</b>      | <b>2,179</b>       | <b>-13</b>          |
| LEVS-Z2:SINATHING PORTAL CULVERT & BANK PROTECTION | -         | 2,507             | 2,179              | -13                 |

Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate).  
Variances are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100

## COMMENTS ON THE PERFORMANCE OF STORMWATER DRAINAGE OVERALL:

The department has continued with its programme of maintaining storm water drainage. Only 26.7km of storm water channels were constructed in the 16/17 financial year. Due to financial constraints, the available funding is not enough to deal with storm water issues. 2017/18 seen the design on new storm water drainage and channelling, however this is currently put on hold with Water Usage License processes that have been introduced by the Department of Water and Sanitation. 2018/19 the construction of storm water and channels was taken over by the PMU running simultaneously with the roads projects. The Roads department continues to maintain the existing infrastructure as per the maintenance program.

## 1.7 MECHANICAL WORKSHOPS

### INTRODUCTION TO MECHANICAL WORKSHOPS

Mechanical Workshop is a sub-unit of the Infrastructure Services Unit. The Manager Mechanical Workshops reports directly to the General Manager Infrastructure Services.

Mechanical Workshops is responsible for the repairs and maintenance of Councils vehicle and plant. There are six workshops situated strategically around the City. Facility the process with Supply Chain Management (SCM) to outsource major components engines gearboxes differentials and C.O.F. (certificate of fitness) to service providers that are compliant on the SCM database.

### STRATEGIC OBJECTIVES OF THESE SUB-SECTIONS ARE:

The Manager Mechanical Workshops is responsible for managing the repairs and maintenance to the five mechanical workshops. Excluded from the mechanical workshops are Fire and Emergency services workshops which reports directly to the Chief Fire Officer. The five workshops are situated at the following locations and caters for the following departments.

#### DOULL ROAD WORKSHOPS

Situated at 150 Mayors Walk, the workshop is split in two. The one half caters for Waste Management department and the other for the following departments, Water, Sewer, Plant Pool, Transportation, Roads, and Drainage. Waste Management refuse compactor repairs are done on an urgent base in conjunction with the SCM policy.

#### AUXILIARY WORKSHOP

Situated at 150 Mayors Walk, the workshop is responsible welding and fabricating tyre and battery replacements. The scrapping of all tyres replaced in the Fleet is checked and managed with the service provider and the Auxiliary Foreman.

#### ELECTRICITY WORKSHOP

Electricity workshop is situated at 111 Havelock Road. The workshop foreman manages and controls Electricity and Traffic workshops. The workshops caters for the following departments, Electricity, Head Office Pool, the Mayoral, Speakers Office, ABM, Library, Human Settlement, Environmental Health, Building.

#### TRAFFIC WORKSHOP

The workshop is situated at 21 Washington Road. The workshop caters for the following departments Traffic, Security and Airport quad bikes.

#### PARKS WORKSHOP

The workshop is situated in Alexandra Park. The workshop is split in two, a mechanical workshop for plant and vehicles and a small plant workshops for brush cutter repairs.

| LEVS:AH:NEW:MACHINERY & EQUIPMENT                   | 217         | 217               | 54                 | -75                            |                     |

Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate). Variances are calculated as follows:- Actual expenditure - Adjusted budget divided by the Adjusted budget x 100

#### COMMENT ON THE PERFORMANCE OF MECHANICAL WORKSHOPS OVERALL:

Mechanical Workshops serviced 435 versus a target of 504 vehicles for the financial year 18/19. Also a contributing factor to slow turn around time on repairs is the high vacancy rate in the Mechanical Workshops and turn around times on procuring of spares with SCM.

# COMPONENT B: SUSTAINABLE DEVELOPMENT & CITY ENTERPRISES

This component includes: Planning, Local Economic Development, Airport, Building Control & Signage, Market, Human Settlements, Art Galleries & Environmental Health.

## 2.1 PLANNING

### INTRODUCTION TO PLANNING AND DEVELOPMENT

- (a) The opportunity of town planning is to be able to work hand in hand with the communities in their attempts to achieve service delivery and make their life successful within their environment. Town planning deals with areas that need intervention by making sure that areas change for the betterment of people who are staying within those areas.
- (b) The challenge that is facing town planning is an increase of unauthorised land uses due to delay in finalising cases and a shortage of human capacity to enforce unauthorised land uses.

### INTRODUCTION TO PLANNING

- (i) A strategy of town planning for 2018/2019 was to be more pro-active in development by working hand-to-hand with developers who wants to invest in the city. A number of catalytic projects, amongst others include the Athlone Mixed Use development, the total value is R250 million, Mother to Child Hospital development, with the total value of R400, million and the Hill cove Mixed Used Development, and the total value for this will be about R22 billion rand.
- (ii) The Development Facilitation Committee was also established to fast-track development applications.
- (iii) The Municipal Planning Tribunal is up and running and sits twice a month in order to fast-track development application, all these processes are put into place in order to assist in enhancing development to the City which good for the City's revenue.
- (iv) During 2018/2019 financial year Town Planning Department undertook the following projects: -
  - (a) It reviewed the Ashburton Town Planning Scheme,
  - (b) It prepared the Land Use Regulatory Policy for land located outside the Town Planning Scheme,
  - (c) It prepared the Land Use Policy for land, which are situated outside the Town Planning Scheme,
  - (d) It prepared the Scottsville-Pelham Local Area Plan, which will be completed during 2019/20 Financial Year,
  - (e) Reviewed the Spatial Framework Plan, which will be completed during 2019/20 Financial Year, and
  - (f) It reviewed the Vuindlela Local Area Plan because of the inclusion of Ward 39 to the Msunduzi Municipality

#### COMMENT ON THE PERFORMANCE OF PHYSICAL PLANNING OVERALL:

As been mentioned under the introduction, the Sub- Unit has assisted and facilitated in approving some of those catalytic projects, which will assist revenue to the City. The priority is to make sure that Msunduzi as is located along the Sip 2 Corridor, it benefits in attracting investors to the City. The other priority is to see the implementation of the Airport Precinct Plan, which was approved by Council, due to lack of budget, the plan cannot be implemented. The 5-year targets, which has been set out in the IDP, cannot be implemented due to shortage of budget.

## 2.2 LOCAL ECONOMIC DEVELOPMENT

### INTRODUCTION TO LOCAL ECONOMIC DEVELOPMENT

Inclusive economic development remains high in the national and provincial development agenda, the KwaZulu-Natal Provincial Development Plan, 2016, states that inclusive, expanded and sustained economic output is the fundamental driver for job creation and economic growth. In 2017, Msunduzi Municipality reviewed its Local Economic Development (LED) Strategy to align it to the national development agenda. The overall objective was to compile a strategy that will highlight areas that the Municipality needs to concentrate on to ensure that it creates an enabling environment for the local businesses within Msunduzi Local Municipality to thrive. Also, to develop a framework to act as a catalyst that drives and propels economic development, spatially guide investment and essentially become a development guide for the entire municipality.

While the overall objective of the LED strategy is to catalyse economic development, a number of sub-strategies were also developed in 2017/2018 that focus on the empowerment of specific sub-sectors within the overall context of local economic development. All these strategies align to the LED strategy, which acts as an overarching strategy informing the sub-strategies. The sub-strategies are: The Small, Medium and Micro-Enterprises (SMME) Strategy; The Cooperatives Strategy; The Youth Economic Empowerment Strategy; The Women Economic Empowerment Strategy; and The Disabled Economic Empowerment Strategy. The overall challenge of the previous strategies has been the implementation, to improve performance, the LED strategy and sub-strategies have been approved with detailed implementation plans. To date there has been significant capacity building and support programmes for small medium and micro enterprises and cooperatives, the focus being on the previously disadvantaged groups.

The Municipal Industrial Development Strategy (MIDS) adopted by Council during 2018/2019 was identified as one of the projects to be undertaken to ensure the expansion of and investment into the manufacturing sector. The intention was to formulate a Strategy based on identified development needs, opportunities, competitive and comparative advantages to inform and guide the Msunduzi Municipality to facilitate development, unlock latent industrial development potential, encourage private sector investment and create economic development and job opportunities for the poor. The strategy broadly recommends for ways of ensuring retention of existing industries (Enable and support existing industry), attraction of new industries – promotion of new entrants and support growth of industries – both existing and new entrants.

## COMMENTS ON LOCAL JOB OPPORTUNITIES:

Msunduzi municipality is experiencing high unemployment rates with an increase from 25.2% in 2016 to 25.4% in 2017. A number of retail developments, residential developments and industrial developments have been approved by the municipality during the 2018/2019 financial year, it is projected that once these are being implemented and or operational unemployment figures will change. Short-term employment has been achieved through the implementation of infrastructural projects such as the Integrated Rapid Public Transport Network, Neighbourhood Development Partnership projects, Small Town Rehabilitation - CoGTA projects etc. It is expected that long term opportunities will be created through the R5Billion government investment to the City through N3 Upgrade by SANRAL [N3 Corridor Durban – Gauteng].

### COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

The KwaZulu-Natal Provincial Development Plan, 2016, identifies Msunduzi Municipality as provincial Secondary Node and thus an urban centre with good existing economic development and the potential for growth and services to the regional economy.

**The adopted vision for local economic development is:**

“Msunduzi Municipality is of a globally competitive metropolitan city of choice which capitalizes on its strategic location, environment, cultural heritage and educational facilities in creating a choice quality of life for all, whilst actively creating an enabling environment for local economic development directed towards economic growth, prosperity, alleviation of poverty and job creation.”

This can be achieved through focus on strategic issues such as spatial transformation and land availability, infrastructural development and service support, the implementation of integrated catalytic projects such as the Techno Hub, the Edendale Town Centre etc., support and promotion of key industrial sectors, protective environmental and social measures and institutional support. The approved LED Strategy and sub-strategies together with their implementation plans are steering the municipality towards achieving this vision. Economic Development targets for 2018/2019 were achieved within the allocated budget, however a need for an increased capital and operational budget allocation is necessary in order to implement more projects and support SMMEs & Cooperatives to increase the impact on the community.

**2.3 AIRPORT**

**INTRODUCTION TO AIRPORT SERVICES**

It is the Airport's key role to sell aeronautical services and facilities (i.e. the provision of runways, taxiways, aprons and terminals) to airlines. The airport also sells services such as shops, office space, hangarage and car parks, usually through concessionaires, direct to the passengers, local residents and other customers. The biggest challenge faced by the airport is limited capital funding and ageing infrastructure. In the 2018/19 financial year the key capital project is the parameter fence. This will ensure and increase safety and security at the airport as well as ensuring compliance with legislation. 25% of this project will be subcontracted to a local service provider thus ensuring community benefit.

| AIRPORT SERVICES POLICY OBJECTIVES TAKEN FROM THE IDP |                                                                                                                                   |                                                                                                                        |                                    |                      |                                                              |                                                              |                                    |                      |                    |                                            |                                         |                      |                                                                                                     |

### COMMENT ON THE PERFORMANCE OF AIRPORT SERVICES OVERALL:

Top capital projects for the airport are the Fence, Apron Refurbishment, Runway Resurfacing, CCTV cameras. The successful implementation of these projects will ensure a safe and compliant airport. It will also increase security levels as well as operational efficiency at the airport. In the 2019/20 the project that has been funded is the fence and has been given priority.

## 2.4 BUILDING CONTROL & SIGNAGE

### INTRODUCTION TO BUILDING CONTROL & SIGNAGE

The Building Control and Signage Sub-unit controls building construction and outdoor advertising signage in the city. This is done through compliance with the National Building Regulations and Building Standards Act, 1977, the SANS 10400, and the Msunduzi Municipality Advertising Signs Bylaws. This section has seen several changes over the year:

- On the Building Control side, the staff complement was reduced during the year due to the resignation of one Building Inspector. This post has not yet been filled. Regarding the vacant and funded Law Enforcement Officer post, this was advertised as "Senior Building Enforcement Officer" and still remains to be filled but an alternative arrangement has been made through Traffic & Security to provide an officer on a three month secondment basis. This however does not assist with the continuation of the work of the enforcement officer and the lack of issuing summons and executing Warrants of Arrests.

Regarding the Priority posts, we had requested six Building Inspectors but none was advertised. This is a major challenge in covering the growing zones within the city following the resignation of one Building Inspector and no filling of the previously vacated posts. In addition, one Senior Building Inspector and two Plans Examiners were advertised. Regarding the three-year fixed term contracts, we had requested six Building Inspectors, two Plans Examiners and one Senior Building Inspector but the Human Resources advertised two Building Inspectors and one Senior Building Inspector. The section appointed a permanent Plans Examiner in August 2017 and the second Plans Examiner in June 2018. However, one of the plan examiner resigned and commenced work as a building inspector.

The plan examiner post was not filled in and currently stalling delivery of plan assessment as this is now the responsibility of one plan examiner.

The post was advertised internally; no short-listing was done to date. (Critical). The post of one Technical Clerk was advertised internally, no short-listing is done to date. (Critical).

- During the year the Plan Approval Systems have been further improved:

Plan Approval Management software has been operating well and reducing approval times. The appointed service provider with ICT implemented necessary enhancements and upgrades to the system and all glitches were fixed.

The Plan Approval Committee has continued to ensure delays are minimised and to address the risk of possible fraud and corruption in the plan approval process.

Msunduzi Municipality in consultation with COGTA has assisted various other Municipalities. Our unit has hosted various Municipalities within KZN region who are now adopting our plan approval process.

- On the Outdoor Advertising side there has been great improvement – there has been an appointment of the Signage Officer post in January 2017 and one Signs Inspector in June 2018.

Since the previous Signage Management Service Provider contract ended on 31 December 2015, SCM processes are underway to appoint a new Service Provider (Management Company) to provide support as well as the appointment of Co-operatives. The Management Tender is currently at Bid Adjudication Committee.

4. The Bid Adjudication Committee turn down the report and requested the report to be amended to allow for an Audit of all signage in the Municipality jurisdiction. A report was prepared and presented to BSC and waiting for the panel to consider the report. Other initiatives, which have contributed, to the control of signage and promise substantial revenue for the City are:  
The renewal of Billboard contracts for all Billboards in the City is in the process of being finalised.

| SDBIP / OP REFERENCE | 2017/2018                                                                                                                                                                                                                  |                                                                                                                                                                                                                                      |                                    |                      | 2018/2019                                                                                                                                                                                          |                                                                                                                                                                                                     |                                    |                                                                                                    | 2019/2020                                                                                    |                                                                                                                                                   |                                                                  |                      |                                                                                                                                                                                                    |

#### COMMENT ON THE PERFORMANCE OF BUILDING CONTROL & SIGNAGE OVERALL:

The Building Control and Signage section started off well during the first half of the 2018/19 financial year due to the additional staff members recruited during the year. However, production started lagging during the second half due to the resignation of a plan examiner, the non-filling of vacant posts. This situation was due to be improved when the newly approved organisational structure was implemented, especially with appointment of an additional Plan Examiner or two. These posts are critical to improving the service of approval of building plans. The Sub-unit managed to appoint one Technical Clerk/Plans Administrator by the 1st of June 2017 which improved the receiving of building plan applications.

The enhancements to the Plan Approval System is on an as-and-when-required basis and the service provider has installed the new Build of Engage and they have moved the Application to a new server. The service provider has created a new link via [Buildingplans@msunduzi.gov.za](mailto:Buildingplans@msunduzi.gov.za) to all its users. Testing is ongoing for this new Build for enhancement though the service provider is experiencing challenges in accessing the server. This has been resolved as the new Build is loaded on to the server and operational. The service provider is attending to occasional ad hoc queries raised by all relevant department. This has shown signs of improved quality and quantity of Building Plans Approved and the service delivered.

The system can now identify all plans submitted and approved that have been moved to the building inspector stage on GIS map for each inspector's zone. It also has an improved reporting function.

The Outdoor Advertising function is still experiencing challenges due to shortage of experienced management and operational staff, but strategies for better control of legal advertising and eradication of illegal advertising have been developed and promise to deliver more control, a cleaner city, and increased revenue to the council during the 2017/18 financial year.

The tender for the Management of Advertising Signage is at Bid Adjudication Committee and, the Clean-up Co-operative was appointed during May 2018 and rendered its services during mid-June 2018. The Manager Building Control & Signage has resigned during December 2018, and the post has not been advertised to date.

Currently the appointment of an Acting Manager assists with the daily functions of the unit. This does not allow continuation of work and proper management of the unit. The appointment of the Manager is crucial to ensure service delivery continues and proper functioning of the unit.

## 2.5 MARKET

### INTRODUCTION TO MARKET SERVICES

The Pietermaritzburg Fresh Produce Market operates through a system of market agencies, market agents acting as the link between sellers and buyers. The main products traded are potatoes, onions, tomatoes, vegetables, bananas and fruit. The crucial variable determining the economic viability of the market is the volume of business, or the tonnage throughput. The market has been able to maintain its No 5 spot out of 18 national markets listing. This can be attributed to the tight financial control system and the market upgrade.

The main project at the market for the 2018/19 FY was to replace cold room fans that where not in operation also to do refurbishment to the downpipes that were leaking.

The aim is to change exit gates that are broken in 2019/2020.

#### COMMENT ON THE PERFORMANCE OF MARKET SERVICES OVERALL:

The market is embarking on the marketing drive where we visit our fruit and veg outlets to come and buy at the market. The impact of our marketing was good because we manage to keep our main buyers and get feedback on things that we can improve.

Currently we have 128 big buyers that come to market every day. The market is also working with UMEDA which is (UMgungundlovu development agency) on RASET program to try to educate small-scale farmers about commercial market.

Pietermaritzburg market manages to keep no 5 position comparing to 18 markets around South Africa, though there was decline in turnover and tonnages in all markets due to the economic situation South Africa is facing compared to the 2017/2018 financial year.

## 2.6 HUMAN SETTLEMENTS

### INTRODUCTION TO HUMAN SETTLEMENTS

The Human Settlements Sector Plan sets out housing delivery goals and targets for the municipality and provides an approach to housing delivery and spatial transformation. The Housing Sector Plan is reviewed annually together with the Integrated Development Plan of the Municipality. Msunduzi Municipality developed its first Housing Sector Plan in 2011. The Human Settlements Sub-Unit is currently reviewing its 2015/16 Human Settlements Sector Plan, which anticipates its approval by Council in 2019.

Similarly, to other secondary cities in South Africa, the Msunduzi Municipal spatial character depicts the legacy of apartheid planning and high levels of urbanisation. There are currently seventy identified informal settlements located in different parts of the city with limited basic services.

#### SOME OF THE KEY OBJECTIVES OF THE HOUSING SECTOR PLAN IS TO:

- Upgrade the existing well located informal settlements to improve land tenure and access to basic services.
- Accelerate development and consolidate human settlements development in line with the National Policy directives and the IDP of the Municipality.
- Contribute towards spatial transformation and creation of an efficient settlements and spatial pattern.
- The Municipality is currently acting as a developer and has delivered several housing projects through funding from the Department of Human Settlements. Since 2004, the Municipality has delivered approximately 26 398 housing units with access to basic services (water, electricity, roads, storm water, etc.).
- The Human Settlements Sub Unit is made up of four (4) Sections with each focusing on key programmes of human settlements:

#### - INFORMAL SETTLEMENT

This section facilitates the National Upgrading Support Programme which seeks to identify and incrementally upgrade informal settlements. The programme involves the identification, categorisation and prioritisation of informal settlements for upgrading initiatives. With the assistance of the National Department of Human Settlements, a service provider was appointed to produce an Informal Settlement Upgrading Strategy as a first phase of the programme. Through this project, a total of seventy informal settlements were identified, categorised and prioritised.

The second phase of the NUSP programme involved the detailed assessment of 24 informal settlements and a further 31 thereafter. This included geotechnical and environmental assessments. Thereafter upgrading plans were prepared for each of the informal settlements. The upgrading plans included proposals and plans relating to the provision of various basic services such as water and sewer reticulation, standpipes, ablution blocks, street lighting, electricity connections, solar panels etc. They also included town planning layouts where applicable as well as various socio-economic community based interventions. The financial implications of each of the proposed interventions in each informal settlement were also counted. The section is currently engaging with the Provincial Department of Human Settlements for the release of funding to implement the upgrading plans.

The section is also facilitating the implementation of the National Housing Needs Register (NHNR). The NHNR will be a single integrated database of potential human settlement beneficiaries. The NHNR is a tool to be utilized to enable our citizens to register their need for adequate shelter. A Council resolution to implement the subject programme has been obtained and the NHNR's Communication and Implementation Plan also approved. The section is currently busy finalising preparations for the implementation of the programme.

The section is also responsible for the social facilitation, community participation, beneficiary administration and consumer education in all Human Settlements projects.

One of the main challenges the Section is facing in dealing with Informal Settlement is massive land invasions and mushrooming of more informal settlements. The Municipality is having a challenge in fighting this phenomenon. What is even more challenging about land invasions is that they are targeting land that has already been identified for human settlements.

#### - PLANNING

This Section identifies and facilitates the acquisition of well-located land to implement the relevant national housing subsidy programmes. Ensure the alignment between the Human Settlements Sector Plan, Spatial Development Framework Plan and Infrastructure Development Sector Plan. Prepare and package human settlements projects business plans to secure funding from relevant sources. Develop strategic policies to enhance the development of integrated human settlement within the Municipal jurisdiction.

There are currently forty-one (41) Human Settlements projects that are in various phases of planning, and of these projects; thirty (30) are Integrated Human Settlements projects (which have an estimated yield of 38 107 units), with the remaining eleven (11) being Social Housing projects (which have an estimated yield of 5 610 units). These are expected to deliver a combined yield of 43 717 units in different financial years.

During the previous financial year (2018/2019), the Municipality acquired several large parcels of private land for human settlements development. The land acquisition programme has resulted in two new housing projects. The projects in the planning stage include Informal Settlement Upgrading (Project-Linked Subsidy), Social/Rental Housing and Gap Market.

The challenges that the Planning section faces in its scope of work, is the issue of minimal land parcels that are under municipal ownership, which restricts access to develop vacant land, as it is privately owned. The section is working closely with the Greater Edendale and Vulindlela Development Initiative (GEVDI) unit, in acquiring the privately owned land parcels, towards the development of integrated human settlements. It must further be noted that the process of land acquisition is lengthy, given the various dynamics of reaching consensus with the private land owners.

On a geographical perspective; the Municipal Area faces numerous constraints, such as steep topographies, environmentally sensitive areas and the likes, all of which are costly for the development of the human settlements typologies that are made available by the provincial Department of Human Settlements. Consequently, these environmental constraints reduce the availability of land for the development of Integrated Human Settlements projects.

In relation to the administrative processes: the section encounters challenges in securing funding, as far as timeframes are concerned. On the other hand, the nature of our work requires for the section to be dependent on other Sector Departments within (and out of) the Municipality. Subsequently, the processes from other Sector Departments tend to lag the processes of housing development. These processes may include (but are not limited to) the Environmental Impact Assessment (EIA); Water Use License Authority (WULA), and the Spatial Planning and Land Use Management Act (SPLUMA) applications, amongst others.

## - PROJECT IMPLEMENTATION

This Section is responsible for the provision of infrastructural services that are in-line with the municipal acceptable standards and top structures that comply with the National Housing Code, National Building Regulations, the NHBRC standards as well as Municipal requirements. Facilitate the process of acquiring MIG funding to ensure that services delivered are in-line with the municipal acceptable standards. Ensure that quality control is maintained during the construction of both infrastructure services and top structures.

There are currently ten housing projects that are in various phases of the implementation stage. These projects are expected to deliver a combined yield of 30852 units in different financial years which is inclusive of Operation Sukuma Sakhe Phase 1 and 2 interventions. During the 2018/19 financial year the municipality was able to deliver 3 070 units to low income qualifying beneficiaries of the Msunduzi Municipality.

One of the challenges the municipality has experienced over the years is the poor workmanship on houses that were delivered from 1994 – 2002. The Municipality is currently undertaking rectification programmes which include the rectification of 2086 Wire-walled houses and another 585 units. The Municipality has also experienced a challenge whereby most of projects that were undertaken post 1994 were never completed and closed out, about 11 000 units have never been transferred to the beneficiaries. In rectifying this situation, the Municipality has appointed a Conveyancer to verify and transfer the 5685 units. This process has started and should be completed in two financial years

## - HOUSING ADMINISTRATION

The Section administers all property management activities for Council's Housing Rental Stock, Odd and free standing properties. The Municipality currently owns 248 rental flats and 40 state funded properties and 58 odd / free standing properties (houses) that are being leased out to tenants.

The unit is also in the process of disposing of the approximately +- 800 ex-state owned pre-1994 properties within the Msunduzi area by application of the Extended Enhanced Discount Benefit Scheme (EEDBS).

Some of the major challenges that the section currently faces under the administration of the Housing Rental stock, has been a long history of poor payment of rentals and services, the lack of information on the status of the current tenants occupying the units as there has been many cases of sub-letting by previous tenants, deceased tenants (lease holder) which have passed away, leaving family members who can't afford the rentals etc. but are still on the billing system.

One of the successes has been the completion of tenant audit and verification for all Council Housing rental stock and Odd / free standing properties. This process has assisted in addressing the current challenges within all the tenancy discrepancies. The other achievement has been the formulating and approving of a turnaround strategy and action plans to arrest the escalating arrears within all rental housing stock. The debt has been further categorised into status of tenancies and e.g. Deceased tenants, unemployed tenants, etc. Reports have been submitted to Council recommending the various action plans which included debt write-off and those tenancies that could face eviction. Verification of existing tenants and signing of new leases is ongoing and it taking longer than anticipated. This is due to tenants not wanting to verify, sign a new leases and pay the required rental. We have appointed an Attorney to take legal action against defaulting tenants.

The other achievement has been a committee that has been formed between Housing Administration and Finance to deal with all the issues that are cross-cutting. The matter of maintenance although plagued by challenges, progress has been noted by formulating and approving a turnaround strategy, to achieve a 7-day turnaround time to addressing all maintenance queries. The Section is appointed and a Facilities Management Company to address all maintenance related matters and we are achieving the 7-day turnaround time to undertake repairs and maintenance.

With respect to new allocations, Council resolved to allocate vacant flat/units to qualifying staff. This will ensure rent is deducted from their salaries and will improve our collection rate.

| PERCENTAGE OF HOUSEHOLDS WITH ACCESS TO BASIC HOUSING |                                                          |                              |                                         |

## COMMENT ON THE PERFORMANCE OF THE HUMAN SETTLEMENTS SERVICE OVERALL:

The Human Settlements Unit performance has been faced challenges. Various projects at Implementation stage were active during the 2018/19 financial year but the yield from these project has been poor due to challenges ranging from unresolved contractual arrangements with the Provincial Department of Human Settlements resulting in the Implementation Agents being on a go slow. However, some of the challenges were resolved in the later part of the year resulting in an expenditure of approximately 42 million Rand on engineering and top-structure in the Jika Joe Community Residential Unit project.

5 Consolidation projects were approved by the Provincial Department of Human Settlements and preparatory work was undertaken in the 2018/19 financial year and the real expenditure on these projects will be in the new financial year 2019/20 as construction of housing units commences.

Funding is expected from the National and Provincial Department of Human Settlements for incremental upgrading of informal settlements in the Informal Settlements Upgrading Programme. This funding will see the implementation of upgrading plans crafted under the National Upgrading Support Programme (NUSP).

## 2.7 ENVIRONMENTAL HEALTH

### INTRODUCTION TO ENVIRONMENTAL HEALTH

Environmental Health encompasses those aspects of human health, including quality of life that is determined by physical, chemical, biological, social and psychosocial factors in the environment. It also refers to the theory and practice of assessing, correcting, controlling and preventing those factors in the environment that can potentially affect adversely the health of present and future generations. Environmental Health Services includes:

Water quality monitoring, Food control, Waste management, Surveillance of premises, Communicable diseases control, Vector control, Environmental pollution control, Disposal of the dead, chemical safety and noise control.

The service delivery priorities focused on water quality monitoring, food quality and safety, and air quality monitoring.

#### • SERVICE DELIVERY PRIORITY (1): WATER MONITORING

Monitoring water quality of potable, surface and ground water, ensuring water safety and accessibility in respect of a safe quality (microbiological, physical and chemical) and an adequate quantity for domestic use as well as in respect of the quality for recreational, industrial, food production and any other human or animal use. This was achieved by sampling and testing water in the field and examining and analysing it in the Unit's laboratory, as well as advocating for proper and safe water usage and waste water disposal.

## • SERVICE DELIVERY PRIORITY (2): FOOD CONTROL

Ensuring food safety in respect of acceptable microbiological and chemical standards, quality of all food for human consumption and optimal hygiene control throughout the food supply chain from the point of origin, all primary raw material or raw products production, up to the point of consumption. This was achieved by inspecting food production, distribution and consumption areas; monitoring informal food trading; inspecting food premises and any nuisances emanating there-from; by applying food quality monitoring programmes and principles through various techniques, e.g. Hazard Analysis and Critical Control Points System (HACCP System) audits; and promoting the safe transportation, handling, storage and preparation of foodstuffs, including meat, milk and their products.

## • SERVICE DELIVERY PRIORITY (3): ENVIRONMENTAL POLLUTION CONTROL

Ensuring hygienic working, living and recreational environments; identifying the polluting agents and sources of water, air and soil pollution; ensuring clean and safe air externally (ambient and point sources) through emission inventory monitoring, modelling and toxicological reports, reviews and complaint investigations; and taking the required preventative measures to ensure that the general environment is free from health risks. This was further achieved by ensuring the registration, permitting, monitoring and auditing of all industries, activities, trade, etc., which involves controlling the internal effects of pollution on the worker, and the external effects of pollution on the community and the environment.

### SERVICE STATISTICS FOR ENVIRONMENTAL HEALTH

| DESCRIPTION                                                                                                                                                            | TARGET                               | ACHIEVED                 |

### AIR MONITORING:

All readings taken throughout the year as per below where found to be within National limits.

| Pollutant        | Averaging Period | Limit Value          | Annual Average          |
|------------------|------------------|----------------------|-------------------------|
| SO <sub>2</sub>  | 1-year           | 19 ppb               | 1.32 ppb                |
| CO               | 1-hour           | 26 ppm               | 0.59 ppm                |
| NO <sub>2</sub>  | 1-year           | 21 ppb               | 19.26 ppb               |
| PM <sub>10</sub> | 1-year           | 40 µg/m <sup>3</sup> | 22.28 µg/m <sup>3</sup> |
| O <sub>3</sub>   | 8-hour (running) | 61 ppb               | 22.13 ppb               |

### Nitrogen dioxide

NO<sub>2</sub> is a natural gas with a strong odour, when combined with oxygen they become reactive and can be potentially harmful. Human activities such as the combustion of fossil fuels and biomass are the major source of NO<sub>2</sub> in the air. Effects of NO<sub>2</sub> exposure include alveolar tissue disruption and obstruction of the respiratory bronchioles.

### Ozone

Ozone (O<sub>3</sub>) is a highly reactive gas that occurs both naturally and through anthropogenic activity. In its natural form it is of benefit to mankind but the production of ozone due to human activity can be detrimental to humans. Ozone can be toxic to lung tissue if inhaled and may also impact the immune system.

### Particulate Matter

Particulate matter (PM) found in the air is made up of a mixture of very small particles and liquid droplets. Once inhaled, these particles can affect the heart and lungs and cause serious health effects.

### Sulphur Dioxide

Sulphur Dioxide (SO<sub>2</sub>) is a colourless gas with a strong, unpleasant odour. High concentrations of SO<sub>2</sub> can cause damage to the human respiratory function when inhaled, causing coughing and shortness of breath.

### Carbon Monoxide

Carbon monoxide (CO) is a colourless, odourless gas emitted from combustion processes. The majority of CO emissions to ambient air comes from mobile sources. CO can cause harmful health effects by reducing oxygen delivery to the body's organs (like the heart and brain) and tissues.

## COMMENT ON PERFORMANCE OF ENVIRONMENTAL HEALTH OVERALL

Environmental Health Services continued to be provided without funding from National Treasury. With a limited budget and diminishing resources the nine functional areas relating to environmental health services as defined in the National Health Act, No. 61 of 2003 were carried out to ensure effective and efficient service delivery within the areas of Msunduzi. One of the service delivery priorities focusing on, viz. water quality monitoring, continued for the purposes of Blue Drop status accreditation. The departmental laboratory was used for the monitoring of water and food quality and also swabbing to determine standards of hygiene at food premises. Three (3) of the Four (4) Air Quality Monitoring Stations of the City's Air Quality Monitoring Network was functional, and data on criteria pollutants monitored is available for the 2018/19 financial year. The Edendale Station was replaced during 2018, and the acquisition of an additional station for the Taylors Halt area had to be put on hold, due to the implementation of cost containment measures.

## 2.8 ART GALLERY

### INTRODUCTION TO ART GALLERY

The Tatham Art Gallery is an Art Museum that serves the visual arts needs of people of KwaZulu-Natal generally and the Msunduzi municipal area in particular. Its core functions are collecting art works of suitable quality to develop the permanent collection; documenting and researching the collections in order to build up a database of relevant information for research purposes; caring for the permanent collection in order that it will be available to future generations; displaying exhibitions of quality, based on art works in the permanent collection, and soliciting quality exhibitions from further afield; presenting visual arts educational and outreach programmes based on the permanent collections and temporary exhibitions.

The Gallery's top service delivery priority is presenting regular art exhibitions of high quality. The target for 2018/19 was 7 exhibitions and the Gallery exceeded that target by presenting 10 temporary exhibitions during the year. In addition to the 10 temporary exhibitions, there were 4 ongoing exhibitions which were drawn from the Gallery's permanent collection of artworks.

The Education department at the Gallery focused on a teaching programme aimed at those who are marginalised. The Outreach programme during 2018/19 included art classes for youth who do not have access to art tuition at school, workshops for the hearing impaired and a series of workshops run in conjunction with the Mental Health department.

89 new art works were acquired for the Gallery's permanent collection, including a substantial donation of South African art works, and a collection of beaded Zulu dolls from the Tugela Ferry area. The number of visitors to the Gallery increased from 21990 in 2017/18 to 23690 in 2018/19.

### SERVICE STATISTICS FOR ART GALLERY

**COMMENT ON THE PERFORMANCE OF ART GALLERIES**

The Gallery's major challenge is one of funding. Extensive building maintenance to the Gallery building is required, including repairs to the leaking roof. Service provision is compromised as more and more art works are removed from display due to the roof leaks. The building infrastructure continues to be damaged by rain. The Old Presbyterian Church building, which is the Outreach wing of the Gallery, was infested by termites in 2017. To date, no funding has been provided by Council for either the Gallery building or the Old Presbyterian Church. Priority funding is required to preserve both buildings, which are national monuments.

## 2.9 ENVIRONMENTAL MANAGEMENT

### INTRODUCTION TO ENVIRONMENTAL MANAGEMENT

Environmental Management is a sub-unit of the Town Planning & Environmental Management Unit located within the Sustainable Development & City Enterprises Business Unit. The Environmental Management Sub-Unit has five primary functional areas these being: Biodiversity and Open Space Planning; Environmental Planning, Policy Implementation and Review; Environmental Education and Training; Impact Mitigation, Assessment, Compliance Monitoring and Enforcement; and Climate Change Planning and Adaptation. Existing policies and plans guide the functions and decision making processes within the Sub-Unit and include the following which were approved by the Council in July 2010: Integrated Environmental Management Policy (IEMP); Environmental Status quo Report; Strategic Environmental Assessment (SEA); Environmental Management Framework (EMF); and Strategic Environmental Management Plan (SEMP).

### SERVICE STATISTICS FOR ENVIRONMENTAL MANAGEMENT

During the 2018 /2019 Financial Year, the Environmental Management Unit undertook the following projects as part of Service delivery priorities;

1. The Development of a Strategic Environmental Assessment (SEA) for the Bishopstowe Study Area
2. The Development of a Strategic Environmental Assessment (SEA) for the Vulindlela Area
3. Review of the adopted Msunduzi Environmental Management Framework (EMF) and migration to ARC 10
4. Maintenance two floating treatment wetlands in the baynespruit catchment
5. Maintenance of one storm water sock
6. Maintenance of one trash boom

### COMMENT ON THE PERFORMANCE OF ENVIRONMENTAL MANAGEMENT

The National Environmental Management Act, (Act 107 of 1998) refers to the development of procedures for the assessment of the impact of plans; and the Municipal Systems Act (32 of 2000) refers to the requirement for SEA in the context of spatial planning. The Bishopstowe SEA was completed in the 2018/2019 financial year. The Vulindlela SEA is to be completed in the 2019/2020 Financial Year, which the Environmental Management Unit will implement thereafter. The EMF is to be completed in the 2019/2020 Financial Year and will be operationalised in accordance with the EMF adopted by the Competent Authority on the 3rd September 2015 (Provincial Notice 125 of 2015) in terms of sub regulations 3(1) and 5(1) of the Environmental Management Framework Regulations 2010 (Government Notice No. R. 547). Maintenance on the storm water sock and trash boom were installed to remove solid waste from the Baynespruit stream while the floating wetlands removed nitrates, phosphates, ammonia and E.coli thus directly improving water quality. Maintenance thereof is ongoing.

## COMPONENT C: COMMUNITY SERVICES

This component includes: Waste Management, Theatres & Halls, Cemeteries & Crematoria, BIODIVERSITY & Landscape, Traffic & Public Safety, Fire, Disaster Management, Sport & Recreation and Library.

### 3.1 WASTE MANAGEMENT

#### INTRODUCTION TO WASTE MANAGEMENT

The Waste Management sub-unit provides refuse collection services to domestic residents (once per week) and to other institutions such as businesses, government schools, and so forth. The unit also provides street cleaning services, provision of public toilets services in the main central business districts, garden refuse collection, clearing of illegal dumping and a landfill site.

A new division focussing on waste minimisation and diversion of waste is being set up and will commence operations early in the new financial year. The provision of services to Vulindlela and other non-serviced areas is in the pipeline. In time waste to landfill will be reduced and other value added opportunities created.

Major challenges face by the unit include the lack of intergration between waste management and other services such as water, sanitation, informal and formal trade, traffic and security, the homeless, and so forth. Plans are being made by the Ministerial Representative to address these issues.

The top three priorities remain the Landfill Site (allied with the waste minimisation and diversion programme), improved refuse collection and the central business district cleaning.

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variances are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

**COMMENT ON WASTE MANAGEMENT SERVICE PERFORMANCE OVERALL:**

The Waste Management unit business has been grossly under budgeted for at about 1.5% of total budget: including both capital and operating. For a provincial city of this size and complexity the insufficient budget cannot cater properly for the quality and quantity of work expected. Vacant posts remain a problem and especially key administration posts. The capital budget also needs to be increased in order to embrace modern technology and advanced means of production, such as mechanical street sweepers, mulching or chipping equipment, and to embrace advanced waste treatment. Unfortunately, the business unit is in a make-do-with-what-you-have mode as there are other different municipal priorities. Staff need to be retrained and re-motivated in order to improve performance and productivity.

**3.2 THEATRES & HALLS****INTRODUCTION TO COMMUNITY FACILITIES (THEATRES & HALLS)**

This unit is responsible for the management and maintenance of Halls and Theatre facilities maintained to an acceptable standard for use by hirers. Develop new hall facilities. Prepares venues for the use by hirer.

**SERVICE STATISTICS FOR THEATRES & HALLS**

| FACILITY NAME | NUMBER |
|---------------|--------|
| Halls         | 75     |
| Theatre       | 1      |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
 Variances are calculated as follows:  
 Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

**COMMENT ON THE PERFORMANCE OF CEMETERIES & CREMATORIUMS OVERALL:**

Burial space is fast becoming scarce. EIAs are being done on the new site. The dispute regarding land in Hollingwood needs to be resolved. Two Crematoriums are operational. To acquire two new crematoriums once funds are available.

**3.4 BIODIVERSITY & LANDSCAPE**

**INTRODUCTION BIODIVERSITY AND LANDSCAPE**

Management, maintenance and development of Parks, open spaces, play lots, verges and Conservation areas. Horticultural practises which includes, beautifying, landscaping of cities islands, city entrances, maintenance of surrounds and garden at council buildings e.g. halls and libraries. Develops new parks. Provides plant material for the entire city by operating a nursery. Maintenance and development of conservation areas and environmental management plan. Manage grass cutting in parks, public open spaces and verges.

**SERVICE STATISTICS FOR BIODIVERSITY AND LANDSCAPE**

| Project D                                                |            |                   |                    |                                |                     |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variances are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

#### COMMENTS ON THE PERFORMANCE OF BIODIVERSITY; LANDSCAPE OVERALL:

Beautification projects have been initiated on all council gardens, islands, and city entrance to enhance the aesthetics of the city and is ongoing. Grass cutting program and tree felling program is ongoing. In the process of purchasing new slasher mowers and 50 Brushcutters.

### 3.5 TRAFFIC & PUBLIC SAFETY

#### INTRODUCTION TO TRAFFIC, SAFETY & SECURITY

The Department of Public Safety helps to ensure a safe environment and improve the quality of life through effective Traffic Policing combined with the efficient use of Driver Licence Testing Centre and Registration, Security personnel and the newly established Rapid Response Unit.

- Control and regulate all forms of traffic, promote education and training of traffic and road safety.
- Attend scenes of motor vehicle collisions and assist with traffic control, removal of accident damaged vehicles to ensure the free passage of vehicular traffic.
- Eliminate points of congestion, obstructions, hindrances, interferences or danger to vehicles and pedestrians.
- Driver licence Test Centre and Registration helps to provide effective issuing of valid driver's licences and Professional Drivers permits.
- Static Security Services is responsible for the safety of Council Property and personnel.
- Security Task Team which is responsible for the enforcement of Street Trading related By-Laws.
- Rapid Response Unit responsible for the illegal occupation Council Land and property and including responding to the volatile situations.

| Furniture & Office Equipment | 280          | 0                 | 0                  | <b>0</b>                        |                     |
| Market Offices               | 1,000        | 600               | 308                | <b>208</b>                      |                     |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variations are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

### COMMENT ON THE PERFORMANCE OF TRAFFIC & PUBLIC SAFETY OVERALL:

Performance of Traffic and Security personnel are on par as per the Service delivery and budget implementation plan. The lack of Satellite Traffic Stations servicing the remote areas of Municipality is a cause for concern due to the risks attached to the delayed response times from existing Traffic and Security Stations which are located in the Central Business District. This is further exacerbated by the time of their response (peak hours etc.) and could have an impact on the ability to respond to road accidents. With the 10% reduction in road traffic accidents over the previous years, the estimated of 22% can be achieved.

## 3.6 FIRE SERVICES

### INTRODUCTION TO FIRE SERVICES

The Fire Services unit is responsible for as per below:

#### 1. FIGHT OR EXTINGUISH A FIRE AND RESCUE OF LIFE OR PROPERTY FROM A FIRE OR OTHER DANGER:

Early and timeous response to fire and rescue incidents is critical for life and property saving measures to be effective. In order to improve turnout times to incidents the Municipality has started the process which should see two more fire stations opened in the vast Vulindlela area and Northdale suburb of the City, however due to financial constraints these projects have been placed on hold. Whilst staff shortages are a challenge this is combated by a constant attempt to ensure that a minimum manning standard is complied with on a daily basis, even at the expense of overtime costs.

#### 2. PREVENT THE OUTBREAK AND SPREAD OF FIRE AND THE PROTECTION OF LIFE OR PROPERTY FROM FIRE OR OTHER THREATENING DANGER:

The dedicated Fire Prevention officers ensure that all new building development applications are in compliance with the City by-laws, National Building Regulations and SANS 0400 codes of practice for fire safety in buildings. Existing infrastructure is also subject of daily scheduled and ad hoc inspections for fire safety compliance.

#### 3. BASIC FIRE AND LIFE SAFETY TRAINING:

The Fire Prevention Officers undertake regular scheduled training with hospitals, commerce and industry in order to impart basic fire safety training in the use of first aid firefighting equipment.

The Public Education Section engages schools and communities in a drive to ensure basic fire and life safety awareness and skills are imparted at a rudimentary scale, mostly by meetings, attendance to community structures and visitations to schools, and, of schools to fire stations. Whilst this basic intervention is still not enough it is imperative that communities are aware of the fire service and services it offers, how to access these services, and what it is that they can do to provide basic first aid fire safety protection to themselves.

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
 Variances are calculated as follows:  
 Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

### COMMENT ON THE PERFORMANCE OF FIRE SERVICES OVERALL:

The lack of fire stations servicing the extreme areas of the municipality is a cause for concern due to the risks attached to the delayed response times from fire stations which are a fair distance from these areas. This is further exacerbated by the time of day response (peak periods etc.), and could have an impact on the ability to effectively protect life and property.

The severe staff shortage has a direct impact on the morale of the fire staff, safety, and overtime budget implications in order to maintain an effective service.

Vehicles repair and maintenance is negatively impacted by poor supply chain processes which fail to recognize emergency fire vehicle repairs as emergency/urgent in terms of MFMA SCM. This leads to long turnaround times and delays for vehicle repairs.

## 3.7 DISASTER MANAGEMENT

### INTRODUCTION TO DISASTER MANAGEMENT

Disaster Management falls under the Disaster Management Act 57 of 2002. The Act requires an integrated and effective response to disasters. Disaster Management aims to reduce the risk of disasters, mitigate the severity of disasters, plan and prepare for emerging crisis, events or disasters, respond rapidly and effectively to disasters and to implement post disasters recovery and rehabilitation by monitoring, integrating, co-ordinating the disaster risk management activities of all role-players. The overall implementation of Disaster Risk management initiatives is a shared responsibility of all employees, department, relevant external role-players and the participation of the community.

Disaster Management provides a culture of risk avoidance amongst communities through education and public awareness. Disaster Management has two components to it-the proactive component that alerts the community to the problem, highlights practices to prevent problems and work with other departments and entities to avoid problems and to lessen the impact of problems.

Under the leadership of the Environmental Management section, significant progress has been made towards determining how climate change projections would affect communities and individuals within the Msunduzi Municipality. It is clear from this work that the impact of existing climate variability and likely future climatic changes will be cross-sectorial and necessitate adaptation planning by the majority of municipal departments.

It is a legal requirement for the Local Authority to develop an off- site plan for every Major Hazard Installation. The MHI Legislation prescribes that the local authority develops a site-specific plan for each individual MHI. It is the intention of Disaster Management together with the Fire Rescue Services to involve all relevant stakeholders and critical departments that need to play a significant role in the implementation of the Off-Site emergency plan as per the MHI regulation.

During the 2018/2019 period a total of 24 Disaster Awareness programmes we undertaken in various wards of Msunduzi. These programmes are effective and help in Disaster risk reduction within the various wards. Relief supplies and assistance were given to those who were affected by storm fires and other disasters. Relief provided in the form of temporary accommodation (tents), food parcels, mattresses and blankets, and in many instances plastic sheeting used as waterproofing. Assistance is sometimes offered by other parties e.g. NGOS.

Disaster Management is also involved in event safety and forms part of the safety and security cluster that oversees and monitors all events within the Msunduzi area of jurisdiction. Also participates in planning meetings prior to various types of events. Disaster Management is also responsible for the Emergency Communications Centre (ECC). The Emergency Communications Centre (ECC) is charged with the responsibility within Public Safety of providing prompt, courteous, and professional handling of all emergency calls from the public and subsequent dispatch of appropriate emergency service responders.

### SERVICE STATISTICS FOR DISASTER MANAGEMENT

During the 2018/2019 financial year a number of incidents of various types of disasters was attended to and as per below:

- Total number of incidents: 229
- Cost of relief in relation to emergency supplies: R 921 503
- Total Number of Events attended: 116
- Total number of people monitored: 4997

| Project C                                         |           |                   |                    |                                 |                     |
| Project D                                         |           |                   |                    |                                 |                     |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
 Variances are calculated as follows:  
 Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

**COMMENT ON THE PERFORMANCE OF DISASTER MANAGEMENT**

The performance of the Disaster Management unit is directly linked to the Service Delivery and Budget Implementation plan (SDBIP's). While the performance is at an acceptable level, there are deficiencies within the unit like the filling of critical vacant posts and the establishment of a satellite disaster offices in the Greater Edendale Areas which include ward 39 Incwadi/Vulindlela area which will further enhance service delivery thereby improving performance.

Whilst we received capital budget for the relocation and upgrading of the Emergency Communications Centre (ECC) we were unable to start our project due to various internal processes that did not happen. The buildings section assisted us and due to the non-approval and delay in the SS22 contract being awarded the project did not start. ITC dealt with the replacement of our PABX and Voice Logging equipment project and due to unforeseen circumstances the service provider Telkom did not honour their part and the project came to a standstill and as a result was not completed

**3.8 SPORT & RECREATION**

**INTRODUCTION TO SPORT AND RECREATION**

Manage maintenance and development of all municipal sports facilities and swimming pools plus the promotion and development of sports and recreation. Coordination of major sporting events. Development of new sporting facilities. Prepares sports venues for major events. Coordinators sports development.

**SERVICE STATISTICS FOR SPORT AND RECREATION**

Total number of Sports Facilities - 65

Total number of pools – 7

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variations are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

## COMMENT ON THE PERFORMANCE OF SPORT AND RECREATION OVERALL:

There as being a lack of maintenance due to the lack of funding only preventative maintenance has been conducted. Athletic track is completed. Grading and Categorization of Venues is ongoing.

## 3.9 LIBRARY SERVICES

### INTRODUCTION TO LIBRARY SERVICES

There are eleven libraries within the Msunduzi Municipal Library services which include the main Bessie Head Library, eleven branch libraries and three mobile library services. The Bessie Head Library offers a wide range of resources which includes books, large print books, newspapers, periodicals, audio books, DVD's, music CD's, scores and CD-ROM's for all age groups. We offer specialised services to the visually impaired.

Within the Branch Libraries, three large libraries are identified which includes the Northdale, Georgetown and Eastwood Libraries and seven smaller libraries which include, Woodlands, Sobantu, Ashdown, Ashburton, Alexandra, Mafunze, Slangspruit and Elandskop. The Branch libraries offer a smaller range of materials than is available at the main library. However, they make every effort to meet the needs of the communities that they serve. A limited Adult Reference service is available at Northdale, Georgetown, and Eastwood Libraries. These libraries also offer a study space for tertiary learners.

Libraries have traditionally been one of the primary sources of information for citizens. Technology and the Internet has liberated much of the information that was controlled by physical artefacts. Msunduzi Municipal Library Services remains relevant and adapts to the changing environment in meeting the information and recreational needs of the community and the patrons by providing unique curation, expert advice and services that our patrons demand and which the library is well equipped to provide. The role of the library is to provide access to knowledge and resources to help people learn the skills needed to participate in and accomplish work/tasks in this changing landscape. Our Libraries aim to address all the needs of the community including the 17 Sustainable development Goals. We aim at promoting literacy, providing free access to information, and prove to be welcoming spaces.

Library Services has purchased a total of 24 668 books for all libraries. Our comprehensive collection aspires to fulfil all information and recreational needs of the communities that we serve.

The Elandskop and Eastwood Libraries were renovated and there is need for more attention in certain areas for delivering the best service. The following services were also covered through the DAC grant: License and connectivity fees to enable the Library services to have access to the SLIMS and SABINET systems, Staffing, Capacity building and training and Maintenance of all libraries.

## SERVICE STATISTICS FOR LIBRARY SERVICES

### COMMENT ON THE PERFORMANCE OF LIBRARY SERVICES

The expectations for 2018/19 were partially met even though there were challenges such as DAC Grant expenditure was completed on time due to the budget allocation, which required the library to wait for Mid-Year Budget Review. The council approved the allocation but it was when BAC did not approve the section 72 contractors in March/April and that affected the renovations and maintenance of the libraries.

Currently the library is focusing on building Copesville Library together with AfriSam and Imbali Library through Department of Arts and Culture and renovations and extension of Alexandra Library to take place soon.

## 3.10 WASTE MANAGEMENT – LANDFILL SITE

### INTRODUCTION TO WASTE MANAGEMENT (NEW ENGLAND LANDFILL SITE)

The New England Landfill Site is the largest licensed disposal facility in the District region. The facility is owned and operated by the Msunduzi Municipality and services the Pietermaritzburg and surrounding areas as well as other District Municipalities. The Site is managed and operated within the prescripts of the Permit issued by the Department of Economic Development, Tourism and Environmental Affairs. The Site has complied with the Permit but has had insufficient Budget for the year. A few vehicles were purchased in the previous financial year and is now operational. Even though vehicles were purchased there was still a backlog resulting in problems, which was partly machinery reliant, weather related and so forth. This was overcome by hiring in vehicles and assistance by CoGTA.

The Site needs to have sufficient Budget to address the challenges it faces, as well as improve the Security measures to control the activities of Waste-pickers, to promote order at the Facility and to enhance Service Delivery.

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variations are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

**COMMENT ON WASTE MANAGEMENT (NEW ENGLAND LANDFILL SITE) OVERALL**

The Site is mandated via the Permit to conduct an annual infrastructure upgrade to meet compliance standards and to maintain operations. The Budget required for this project varies depending on Operational needs and the required Budget is short of what is required. This shortfall of the Budget makes it difficult to pro-actively address challenges and mitigate against potential risks.

Operating Budgets are also insufficient to sustain daily operations and maintenance in an environmentally and socially acceptable manner.

Capital and MIG budgets need to be increased to meet the requirements of the Unit, the projected requirements for the next 3 years are:

- 2019/2020 Required R 25 000 000
- 2020/2021 Required R 30 000 000
- 2021/2022 Required R 35 000 000

The landfill site is fast running out of airspace. The waste minimisation and diversion programme is expected to reduce the demand for airspace and the increase in lifespan. The extent of both will be clearer once the programme is underway. The percentage of waste recycled has not been quantified as yet but this will be attended to as part of the waste minimisation and diversion programme.

## COMPONENT D: BUDGET & TREASURY

This component includes: Indigents (Free Basic Services), Financial Services and Supply Chain Management.

### 4.1 INDIGENTS (FREE BASIC SERVICES)

#### INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

Council receives Equitable Share to subsidise those who cannot afford to pay for the minimum needs in life. The objective in calculating the amount to be subsidised, must be to prevent an increasing balance on the account of an indigent as it will be difficult to recover the debt in a humanly way. According to the Municipal Systems Act 2000, Section 74(3) and 75(2) stipulates, "A tariff policy may differentiate between different categories of users/debtors."

#### CRITERIA FOR APPROVAL:

1. That the gross household income for qualification as a registered Indigent be determined each year by Council in terms of the tariff register. Currently the threshold income is R4 000.00.
2. That the prescribed application forms be completed annually.

#### COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT:

The equitable share received is used to fund Free Basic Services that is extended to all our customers who have been declared indigent who are earning below R 4 000.00 as determined by Council. Further to the free basic services, we are trying to remove the burden from the indigent customers by reducing their amperage on the electricity they use to 20AMPS. We have started a project to replace all indigent customers meter with smart prepaid. Indigent policy refers to: people who are lacking the necessities of life such as sufficient water, basic sanitation, refuse removal, environmental health, basic energy, health care, housing, food and clothing. Spent on electricity for 2018/2019 was R2 407 457 , spent on water 2018/2019 R 151 612 052 , spent on sewerage for 2018/2019 R 10 551 150, spent on refuse 2018/2019 R 5 640 881.

## 4.2 FINANCIAL SERVICES

### INTRODUCTION TO FINANCIAL SERVICES

The Financial Services Business Unit comprises with the following sections, namely:

- BUDGET
- EXPENDITURE
- REVENUE MANAGEMENT
- SUPPLY CHAIN MANAGEMENT, &
- ASSETS & LIABILITIES
- MSCOA
- SAP
- FINANCIAL GOVERNANCE & PERFORMANCE MANAGEMENT

The National Key Performance Areas for this business unit is Financial Viability & Management. Programmes pertaining to the sections are as follows:

- Budget & Treasury-Compliance and Annual Financial Statements.
- Expenditure-Trade and Sundry Payments, Payment of all invoices within 30 days, management of general insurance fund, remuneration management.
- Revenue Management-Credit Control and billing, policies.
- Supply Chain & Supply Chain management, and
- Asset Management

### COMMENT ON DEBT RECOVERY

Council is appointing a panel of Debt Collectors to collect outstanding arrears from debtors. The MM has formed a Debt Recovery Task Team that is going out and disconnecting properties with high debt daily. Our credit control policy reviewed annual to close the loop holes and any gaps that were identified during the past financial year. We have also improved our indigent registration in order to better manage the accounts of low income earners such that the income threshold was increased to R4000.00 so that the majority of the poorest of the poor are catered for and those who cannot afford to settle their debts in excess of the free basic service, their meters are being changed to prepaid.

### GRANT PERFORMANCE

#### GRANT PERFORMANCE & GRANTS RECEIVED FROM SOURCES OTHER THAN DIVISION OF REVENUE ACT (DORA)

### COMMENT ON GRANTS, CONDITIONAL GRANTS AND GRANT RECEIVED FROM OTHER SOURCES:

The actual figures in the tables above are the amounts that the Municipality utilized on capital and operational projects during the financial years. During 2015/2016 the municipality had spent 61.38% of the grants received during the year and grants rolled over from the prior year, in 2016/2017 the percentage has increased to 86.19%, in 2017/2018 the percentage decreased to 78.99% and in 2018/2019 the percentage increased to 79.68%. In terms of the grants from other sources, the municipality did not receive any grants from other external funders for the last three financial years.

| FINANCIAL SERVICES POLICY OBJECTIVES TAKEN FROM THE IDP |                                                                                                                                                         |                                                                                                                                                          |                                    |                      |                                                                                                                                                         |                                                                                                                                                         |                                    |                                                                                                                                                                                                                                          |                                                                                                                    |                                                                                                     |                                               |                      |                                                                                                                                                          |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)

### COMMENT ON THE PERFORMANCE OF FINANCIAL SERVICES OVERALL:

The process leading to the approval of the budget was in line with the approved budget process plan. The Budget was adopted within the MFMA legislated timeframes and the approved budget was informed by the Long-Term Financial Plan (LTFP). All relevant budgets related policies are in place and some of the critical procedure manuals were adopted during the year. Staff shortages/vacancies were also addressed within the financial year.

## 4.3 SUPPLY CHAIN MANAGEMENT

### INTRODUCTION TO SUPPLY CHAIN MANAGEMENT

The Msunduzi Municipality's Supply Chain Management unit is a support function for all business units within the council to ensure provision of efficient, transparent, fair, equitable and cost effective procurement services hence assisting the business units to implement their service delivery priorities. Msunduzi SCM consist of three components being demand management and acquisition management, contract management, and Logistics. SCM section has 82 staff compliment in total and currently we are seating at approximately 25% vacancy rate, each component is under a leadership of a manager. Over the years the section has improved from where it was since the previous administration, some of the triggers of improvements were the administration itself, internal Audit, Auditor general etc. Each component within SCM performances certain function that linked to the operational plan of the SCM section.

### FOCUS AREAS FOR 18/19 FY

#### MONITORING AND CONTRACT MANAGEMENT

In terms of section 116 (2) of the MFMA the accounting officer of a municipality must - "Take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality or municipal entity is properly enforced; monitor on a monthly basis the performance of the contractor under the contract or agreement; establish capacity in the administration of the municipality to assist the accounting officer in carrying out the duties and to oversee the day-to-day management of the contractor under the contract or agreement;" therefore we have established a Contract management Office(monitring) within the Supply chain management unit in order to adhere to the above act.

#### THESE ARE ACTIVITIES OF THE CONTRACT MANAGEMENT MONITORING SECTION:

- All contracts are monitored, by having regular sites visits and attending monthly site progress meetings.
- Monitoring of expenditure on supplies and services contract.
- Monitoring and rotating of contracts with panel of contractors to ensure equal distribution amongst the prospective suppliers.
- Compiling engagement letters to all panellists upon appointments.
- Drafting Service Level agreements (SLA)
- Verifying variation Orders on projects by Project managers and recommend to the Bid Evaluation committee.

#### CHALLENGES

- There are challenges in Integrating of project management and Contract management

#### 1. SUPPLIERS DATABASE (FRONT DESK) & INFORMATION MANAGEMENT

- The exercise of data clean-up was also conducted in light of SCM regulation 44, regarding the prohibition of awards to persons in the service of the state which had been a serious concern as per the Auditors General's findings from the last report.
- For the current financial period, much attention would be given Business Process implementation interventions as part SAP system to ensure that information management is catered regarding the analysis of historical procurement spending. This would assist in the demand management processes to ensure that Msunduzi Municipality factors in cost effectiveness as it procures goods, services and/or works as outlined through S217 of the RSA Constitution.

## 2. CHALLENGES: SUPPLIER DATABASE

- Turnaround times for capturing information of the database forms, within the set period of thirty (30) days, has been a challenge due to high volumes.
- Supplier Records missing i.e. some database forms cannot be accountable for in the filing system.
- Poor document management system i.e. the filing system is not user friendly when it comes to retrieving data.
- Lack of understanding the SCM legislative reforms i.e. Suppliers that do not understand the rationale behind submission of original documents when submitting Database forms.

## 3. CHALLENGES: INFORMATION DESK

- Frustrated Suppliers who expect to be given work opportunities irrespective of the evaluation outcomes applicable
- Suppliers who buy tender documents 30 minutes before the Tender briefing meeting.
- Collusive practices between Suppliers and Officials that create expectations e.g. suppliers will receive information from municipal officials pertaining to Bids before the advertisements are released for print media.

## SERVICE STATISTICS FOR SUPPLY CHAIN MANAGEMENT

12 Monthly reports on tenders awarded were submitted during the year 2018/2019 financial year. Eighty-six (86) requests between R30 000 and R200 000 were received, fifty (50) were finalized, thirty-two (32) were cancelled and Four (4) are still in the pipeline. Eighty-six (86) Open Tenders (> R200 000) were advertised by Supply Chain Management Fifty (50) Awards were made, thirty-two (32) were cancelled and Four (4) are still in the pipeline, four (5) objections were received and one was resolved; and there were three court application.

It should be noted that the overlap in terms of numbers is caused by the request emanating from 17/18 financial year that were still in the pipeline and were finalized in the 18/19 financial year.

| Question                                                                                                                                                                   | Answer | Comment on progress                                                       | Date for completion | Official(s) responsible        |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|---------------------------------------------------------------------------|---------------------|--------------------------------|
| 1 Has the Council adopted a SCM policy in terms of SCM regulation 3?                                                                                                       | Yes    | N/A                                                                       | N/A                 | SM:SCM                         |
| 2 How many staff are employed by the SCM Unit? (show full time staff equivalent, a person shared with another function or working part-time on SCM is shown as a fraction) | 60     | N/A                                                                       | N/A                 | N/A                            |
| 2.1 How many positions are unfilled, i.e. waiting for an appointment? (full time equivalent)                                                                               | 22     | 22 post still vacant the effort of filling them is being undertaken by HR | 2019/20             | GM:CS                          |
| 2.2 Has a job description been developed for each position within the SCM Unit?                                                                                            | Yes    | N/A                                                                       | N/A                 | GM:CS                          |
| 3 Has a detailed implementation plan for SCM been developed?                                                                                                               | Yes    | N/A                                                                       | N/A                 | Head: SCM                      |
| 3.1 If "YES", is progress regularly measured against the implementation plan?                                                                                              | Yes    | Progress on the Procurement Plan is updated monthly                       | N/A                 | Head: SCM                      |
| 4 Is a report on the implementation of the SCM Policy provided to the mayor (within 10 days of the end of each quarter (reg 6(3)) SCM Processes:                           | Yes    | N/A                                                                       | N/A                 | Head: SCM                      |
| 5.1 Is the necessary needs assessment undertaken before each acquisition?                                                                                                  | Yes    | N/A                                                                       | N/A                 | Manager Demand and acquisition |
| 5.2 Are preferential policy objectives identified to be met through each contract?                                                                                         | Yes    | N/A                                                                       | N/A                 | Manager: Contract Management   |

| Question |                                                                                                                                                                                                                | Answer | Comment on progress                                                                                 | Date for completion | Official(s) responsible         |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|-----------------------------------------------------------------------------------------------------|---------------------|---------------------------------|
| 5.3      | Is the performance of vendors regularly monitored?                                                                                                                                                             | Yes    | Monthly assessments are done by the monitoring officer and reported to Council on a quarterly basis | N/A                 | Monitoring officer              |
| 5.4      | Are SCM processes independently monitored to ensure the SCM policy is followed and desired objectives achieved?                                                                                                | Yes    | N/A                                                                                                 | N/A                 | IA                              |
| 6        | Are the threshold values contained in the SCM Policy aligned with the values stipulated in regulation 12?                                                                                                      | Yes    | N/A                                                                                                 | N/A                 | SM:SCM                          |
| 6.1      | If "NO" are the values contained in the SCM Policy higher than that stipulated in regulation 12?                                                                                                               | NO     | N/A                                                                                                 | N/A                 | SM:SCM                          |
| 7        | Do municipal bid documents comply with MFMA Circular No 25?                                                                                                                                                    | Yes    | N/A                                                                                                 | N/A                 | SCM Practitioners               |
| 8        | Do municipal bid documents include evaluation criteria for use by the bid evaluation and adjudication committees?                                                                                              | Yes    | N/A                                                                                                 | N/A                 | Manager: Contract Management    |
| 9        | Regulation 46 requires the SCM Policy to establish a code of conduct.                                                                                                                                          |        |                                                                                                     |                     |                                 |
| 9.1      | Is the Code of Conduct issued by NT in MFMA Circular No 22 utilised?                                                                                                                                           | Yes    | N/A                                                                                                 | N/A                 | SM: SCM                         |
| 9.2      | Are measures in place to ensure all SCM practitioners are aware of the SCM code of conduct?                                                                                                                    | Yes    | All practitioners have signed the code of conduct.                                                  | N/A                 | SM: SCM                         |
| 10       | Are all delegations in terms of SCM roles and responsibilities in writing (other than delegations contained in the SCM Policy)?                                                                                | Yes    | SCM Delegations adopted by Council                                                                  | 31/10/2014          | SM:SCM                          |
| 11       | Prior to making an award above R30 000 the municipality or municipal entity must check with SARS whether that person's tax matters are in order (reg 43 and MFMA Circular No 29). Is this being complied with? | Yes    | N/A                                                                                                 | N/A                 | SCM Practitioners               |
| 12       | Please confirm if records are kept of the following:                                                                                                                                                           |        |                                                                                                     |                     |                                 |
| 12.1     | Petty cash purchases?                                                                                                                                                                                          | Yes    | Creditors department are the custodian of these records                                             | N/A                 | Creditors Manager               |
| 12.2     | Written or verbal quotations received and awards made?                                                                                                                                                         | Yes    | Creditors department are the custodian of these records                                             | N/A                 | Creditors Manager               |
| 12.3     | Tenders and all other bids received and awards made?                                                                                                                                                           | Yes    | Tenders records are kept at SCM offices                                                             | N/A                 | Manager Demand and acquisition  |
| 13       | Are all invitations for bids above R30 000 advertised for at least 7 days on the website and official notice board? (reg 18(a))                                                                                | Yes    | N/A                                                                                                 | N/A                 | SCM Practitioners               |
| 13.1     | In addition, are all invitations for competitive bids publicly advertised in newspapers commonly circulating locally? (reg 22(1))                                                                              | Yes    | N/A                                                                                                 | N/A                 | SCM Practitioners               |
| 14       | Is the "list of accredited prospective providers" required by regulation 14 updated at least quarterly?                                                                                                        | Yes    | N/A                                                                                                 | N/A                 | Manager: Demand and acquisition |
| 15       | Is there a database established to record redundant and obsolete store items?                                                                                                                                  | Yes    | N/A                                                                                                 | N/A                 | Logistics Manager               |

## PERFORMANCE MANAGEMENT OF CONTRACTS FOR THE PERIOD 1 JULY 2018 – 30 JUNE 2019

### INTRODUCTION TO PERFORMANCE MANAGEMENT OF CONTRACTS

#### MONITORING AND CONTRACT MANAGEMENT

In terms of section 116 (2) of the MFMA the accounting officer of a municipality must -

“Take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality or municipal entity is properly enforced; monitor on a monthly basis the performance of the contractor under the contract or agreement; establish capacity in the administration of the municipality to assist the accounting officer in carrying out the duties and to oversee the day-to-day management of the contractor under the contract or agreement;” therefore we have established a Contract management Office(monitors) within the Supply chain management unit in order to adhere to the above act.

#### PERFORMANCE MANAGEMENT OF CONTRACTS

Contract Management is a sub-unit within Supply Chain Management delegated with the duties pertaining to the dispensation of processes associated with monitoring compliance with standards, procedures, regulations and specifications encompassed in Procurement Regulations with regards to the contracts enforcements, preparing and presenting investigational and qualitative reports.

Reviews and report on how SCM, service providers and the department as a whole is performing against set standards and metrics, provides insight into how policies are followed, and identifies areas of opportunity to drive value through process efficiencies, and verification of variations requested by user departments.

Regular site visits and attending progress meetings which allows for systematic management of supplier performance and building of work relationships to optimise the value for money in agreed deliverables throughout the project execution.

Monthly and quarterly reports are submitted at OMC, SMC and Full Council. Firstly, is the engagement with all relevant stakeholders to ascertain the complexity and experience within the contractual obligations.

| 2                                                                                                                                           | SCM 6 of 15/16  | UPGRADE OF ROADS IN ASHBURTON                                                            | KULU CIVILS                            | <ul style="list-style-type: none"> <li>The contractor has abandon the project.</li> <li>* As at the 6th of July 2018. The overall progress on site was at 99%.</li> <li>* The performance of a contractor did not meets all the contractual requirements of the contract for the project.</li> <li>* The works were ceded to West mead Houliers. The appointed contractor Kulu Civils failed to complete the project due to the fact that the contractor had financial difficulties.</li> <li>* Practical completion was made possible in January 2018 by the project manager's negotiations with a subcontractor to carry out the remaining work (surfacing of the 400m, sideways, speed humps, minor kerbing, road marking and signage) via a cession agreement.</li> <li>* All the ceded work has been carried out successfully by West mead, However the Main contract is still failing to complete the remaining work (Snags). As a result the Cessionary could not be paid.</li> <li>* Without the help of cession, these project would still be unpaved and susceptible to damage from the elements and from the municipal perspective we would have been worse off.</li> <li>* The Project manager from the roads department and SCM have been sending emails urging the contractor to finish all the outstanding works, however the contractor is non-responsive. This project is closely monitored by all parties. Expenditure remains at 90%.</li> </ul> |

| 5      | SCM 32 of 15/16  | UPGRADING OF DISTRICT ROAD D2069 IN VULINDLELA                                                                                                                                                                                | KULU CIVILS                                        | <p>The contractor has abandon the project.</p> <ul style="list-style-type: none"> <li>* As at the 6th of July 2018. The overall progress on site was at 98%.</li> <li>* The performance of a contractor did not meets all the contractual requirements of the contract for the project.</li> <li>* The works were ceded to West mead Houliers. The appointed contractor Kulu Civils failed to complete the project due to the fact that the contractor had financial difficulties.</li> <li>* Practical completion was made possible in December 2017 by MSA's negotiations with a subcontractor to carry out the remaining work (surfacing, sideways, speed humps, minor kerbing, road marking and signage) via a cession agreement.</li> <li>* All the ceded work has been carried out successfully by West mead, However the Main contract is still failing to complete the remaining work (Snags). As a result the Cessionary could not be paid.</li> <li>* Without the help of cession, these project would still be unpaved and susceptible to damage from the elements and from the municipal perspective we would have been worse off.</li> <li>* The Project manager from the roads department, Engineer MSA and SCM have been sending emails urging the contractor to finish all the outstanding works, however the contractor is non-responsive.</li> <li>* This project is closely monitored by all parties. Expenditure remains at 90%.</li> </ul> <p>Practical completed.</p> |

| 19     | SCM 25 of 17/18  | COMPILATION OF A GENERAL VALUATION ROLL AND SUPPLEMENTARY VALUATION ROLLS 01 | EVALUATION ENHANCED PROPERTY APPRAISALS (PTY) LTD | <ul style="list-style-type: none"> <li>No building plans were received from building survey for this Month.</li> <li>There were 100 revenue clearance certificate applications received from the Rates unit. 99 rates clearance have been processed and returned to the Rates unit. Only 1 rates clearance</li> <li>No building plans were received from building survey for this Month.</li> <li>There were 100 revenue clearance certificate applications received from the Rates unit. 99 rates clearance have been processed and returned to the Rates unit. Only 1 rates clearance application is outstanding as it is still under investigation. Changes in the value of properties triggered by the rates applications will be updated on the roll once the valuation software has been re-installed.</li> <li>The General Manager; Sustainable and enterprise; is delegated the power and authority to sign conveyancing documents as per item 232 of the Msunduzi local municipality delegation register of 31st of March 2015. The (Acting) General Manager for Sustainable and Enterprise is Mr. Radha Gounden who has been signing the conveyancing documents. There were 17 documents received and 13 of them have been signed and returned to respective conveyancing firms. There are 4 documents that are still outstanding. Below is an overview of the conveyancing documents that were processed in the month of August.</li> <li>70% of the posts in the Real Estates and Valuations department are vacant and it is the key Positions that are vacant. The prolonged vacancies in these key positions have a detrimental effect on the productivity levels of the unit; as a result, there are numerous outstanding matters that have been left unattended. These include the implementation of recommendations that were made by the auditor general/ internal auditors</li> <li>The reconciliation of the valuation roll file and the finance file is still ongoing. All the rolls that were submitted to the finance unit for uploading on to SAP have been uploaded and discrepancy reports have been generated.</li> <li>There were 45 valuation certificates that were issued in august. Valuation certificates are issued at a R40.00 fee to the requesting party.</li> <li>No issues regarding performance received from the business unit.</li> </ul> |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)

## COMMENT ON THE PERFORMANCE OF SUPPLY CHAIN MANAGEMENT OVERALL:

### LOGISTICS MANAGEMENT

Stores always try to achieve the proper management of inventory by using a systematic approach to obtain, storing goods/items. This is to make sure that Stores keep the right stock, at the right stock level and most importantly at the cost.

According to Msunduzi Municipality Inventory policy clause 2.1; it aims to achieve the following objectives, which are to: -

- Provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding and disposal of inventory.
- Procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy.
- Eliminate any potential misuse of inventory and possible theft.

Stores will endeavour to minimize and reduce stock holdings. This can be achieved by working closely with the Business Units in planning and execution of projects that involved procurement activities as well. Part of logistics management is to establish and implement appropriate standards of internal control and warehouse management to ensure that goods placed in stores are secure and only used for the purpose for which they were purchased; regular checking of stock; and monitoring and review of the supply vendor performance to ensure compliance with specifications and contract conditions for particular goods or services.

The preparation and planning for the year-end inventory count started on 15 June 2019 when Central Stores was closed for undertaking inventory count. The Warehouse was completely shut down and no issues and delivery of goods took place, only emergencies were attended to.

The purpose of conducting an inventory count is to verify and ascertain and benchmark the inventory records as reflected by the computer system and that of the physical inventory on hand. During the inventory count variances were identified, adjusting entries were processed into the SAP system to align the physical inventory (bin balance) to that on the SAP/ computer system. The following two inventory accounts were therefore credited and debited as inventory losses and inventory gains:

- 2 310 000 000 INVENTORY LOSSES
- 2 810 000 000 INVENTORY GAINS

The inventory count proceeded smoothly with every member of the team demonstrating his or her efforts and energy in achieving a well-run physical count of inventory. The counting team comprised of Municipal staff members (Store men & Store Assistants).

The other desirable target for the inventory count is to rectify and address few issues i.e.

- The material number duplication
- Doubled Storage location of material
- Identify and rectify inventory count document where material was appearing on more than one counting document.
- To sort and arrange material storage location or bin.

With the magnitude of inventory levels and volumes of material that are kept at Stores; it became evident that for a proper and successful inventory count to take place, more manpower and time is required. The process involved doing count even on weekends in order to meet the target; it took us approximately 14 days to finish the entire process.

The counting process flow involved the physical counting of inventory where each bin is counted and where huge variances are noticed after capturing, verification is done. The counted stock sheets were then checked and verified by a Manager Logistics before being handed in for capturing. During the process, a number of issues were identified and addressed before the adjustment took place. These issues involved checking duplicates of materials, inventory that appear on more than one counting sheet, material that also appear on several inventory locations. The regular or cycle count is a needed because the outcome of this count will yield positive results going forward, in that, the proper monitoring of inventory and evaluation of inventory will reflect the true value of inventory on hand at any given time.

The new financial system (SAP) is able to provide useful inventory information i.e.: ABC analysis of cycle counting. In the new financial year 18/19, the stock will be counted regular using the ABC analysis cycle counting. The inventory is classified based on their value and ABC analysis is a system for inventory control used throughout materials management. Whatever sort of items on an inventory it is used for, the approach works by setting all of them into three distinct categories. Therefore, ABC analysis is a system of categorization, using three classes, of which each class has a differing management control.

The 'ABC' in ABC analysis, as known as ABC Classification, refers to the three classes or categories used in the system. The first, A, is the category for items that are outstandingly important, or critical. The second, B, is the classification for items of average or middling importance. Finally, category C is the designation for relatively unimportant items. As a basis for a control scheme, each class ought to be handled in a different way. As you might have guessed, more attention will usually be devoted to category A items, with less to B and still less further to C.

Inventory is valued on the Weighted Average costing method per location and is VAT (EXCL)

All variances have been checked and validated for authenticity as well as reasonableness by the store man and signed off by the Store manager as proof of verification. The following entries were processed into the SAP system:

| INVENTORY LOSS AND GAINS - GENERAL LEDGER ACCOUNTS: END OF JUNE 2019 |                     |                        |                       |

## FUEL

The Council has invested on the electronic fuel management system. All Council vehicles are now installed with a gadget that monitors all fuel transactions. The system is now in operation and the reports are generated using the system are as follows:

- Detailed dispense transaction (per site)
- Hourly fuel grade total (per site)
- Monthly fuel grade total (per site)
- Monthly volumes (per site)
- Dispensed transaction total (per site)
- Detailed pump attendee authorization with name
- Vehicle site extract
- Detailed pump authorization (with vehicle information)

Any suspicious transaction is brought to the attention of Internal Audit for their action.

There has been some recognition of cost reduction potential on fuel issues and fuel purchases as a result of the new fuel management system. The consumption levels have steadily decreased. The investment on the fuel management system will provide more accurate cost controls and reporting. Reduce errors and human intervention when generating reports. Also help by providing real time fuel information as and when required. In the future the departments will be provided and advised on the litres each vehicle is consuming and frequency of refuels.

This computer system is also assisting Msunduzi Municipality with the following control measures:

- Secure fuelling environment
- Controls pumps
- Minimum or no human intervention
- Fuel volume reduction
- Maximum accuracy
- Improved fuelling efficiency
- Reduced admin resources
- Accurate transaction information

BELOW INFORMATION WAS DRAWN FROM THE NEW FUEL MANAGEMENT SYSTEM

For the financial year 16/17, the positive outcome was that we managed to have savings on the budget of R3, 9 Million. Financial year 17/18 the actual expenditure against the budget went up by 0.44% and FIN YR 18/19 the actual expenditure shown is 91.83% however, the balance of the actual expenditure is not reflecting as it was processed through exceptional table on the system.

**FIG 2: FUEL BUDGET VS ACTUAL YR ON YR**

The top priority projects that are allocated budget: fuel management, fencing of stores, partitioning of SCM offices and Furniture:

Fuel management System is the system that help to oversee the consumption of fuel and flag any variance from the norm for management investigate;

Fencing is required for the protection of stock in stores department which is the wing of SCM, the council keep stock of approximately R50 000 000 in rand value; no amendment made to the IDP, all the targets remains unchanged.

## 4.4 FLEET MANAGEMENT

### INTRODUCTION TO FLEET MANAGEMENT

#### OVERVIEW OF FLEET MANAGEMENT

Fleet Management is the sub-unit of Asset and Liabilities under Budget and Treasury Business unit and its core function is to purchase, manage, monitor and dispose the Council's fleet. Fleet Management is divided into two (2) sub-sections namely: Fleet Administration and Fleet Control

#### FLEET STRATEGY

In order for Fleet Management to provide optimal support to various business units, the following strategic objectives were implemented.

#### FITMENT OF VEHICLE MONITORING SYSTEM:

This was due to abuse of vehicles and the high amount of fuel usage. The fitment is done as the new vehicles are being purchased. The major achievement is the better control and reduction of overtime and detection of vehicle abuse.

## PURCHASE OF NEW VEHICLES:

Although the funding provided for Fleet management to purchase vehicles was not enough, a total of 95 vehicles and plant were purchased for the various business units in 2017/18 financial year. Again in 2018/19 financial year a total of 40 plant and vehicles were purchased for various business units.

## FLEET POLICY:

The policy was adopted by the full Council and is implemented. Business units were work-shopped. As new staff joining the Municipality the sessions of work-shopping and awareness is an ongoing process. The Fleet Management unit has amended Fleet Management Policy/Procedures and it will be sent to business units for implementation by end of September 2019.

| FLEET MANAGEMENT POLICY OBJECTIVES TAKEN FROM THE IDP |                                                                                                                                                              |                                                                                                                                                                  |                                    |                      |                                                                                                                                                        |                                                                                                                                                        |                                    |                               |                                                                        |                                            |                 |          |                                                                        |

Net expenditure to be consistent with summary table T5.1.2 in Chapter 5. Variances are calculated by dividing the difference between the Actual and Adjustment Budget over the Adjustment Budget

**CAPITAL EXPENDITURE: FLEET MANAGEMENT**  
R'000

| Details          | 2018/2019    |                   |                    |                       |                     |
|------------------|--------------|-------------------|--------------------|-----------------------|---------------------|
|                  | Budget       | Adjustment Budget | Actual Expenditure | Variances to Budget % | Total Project Value |
| <b>Total All</b> | <b>5,000</b> | <b>5,085</b>      | <b>4,448</b>       | <b>-12.53%</b>        |                     |
| Furniture        | -            | 85                | 15                 | -82.35%               | 15                  |
| Transport Assets | 5,000        | 5,000             | 4,433              | -11.34%               | 4433                |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)

**COMMENT ON THE PERFORMANCE OF FLEET MANAGEMENT OVERALL:**

The strategic planning for Fleet Management is to replace at-least 100 vehicles per annum, but experiencing challenges of capital funds to implement this replacement plan. Vehicle maintenance costs are high due to ageing fleet.

# COMPONENT E: CORPORATE SERVICES

This component includes: Human Resources Services, Information Communication Technology, and Legal Services & Organisational Development Performance.

## 5.1 HUMAN RESOURCES SERVICES

### INTRODUCTION TO HUMAN RESOURCE SERVICES

Msunduzi Municipality appointed three contract work study staff members with the purpose of reviewing the structure. The team has commenced and has finalised the introductory phase-consultation on the process with business units. The team has a deadline to finalise the draft structure by no later than 31 August 2019 with the final approval being no later than 31 December 2019. An action that will enable this to be done has been put in place.

Job descriptions of employees also need to be reviewed. The job evaluation team has finalised all the job description for General Assistants which are now ready to be submitted to the Provincial Job Evaluation Committee. The remainder of the job descriptions starting from the City Manager will be done once the work study team has completed the purpose and functions of all the jobs.

| Project D – PERSONNEL – OFFICE EQUIPCOMPUTER                | 37         | 77                | 68                 | -12%                           | 68                  |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)

Variations are calculated as follows:

Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

**COMMENT ON THE PERFORMANCE OF HUMAN RESOURCE SERVICES OVERALL:**

The HR priority Capital Project in 2018/2019 financial year saw the implementation of SAP HCM, presenting the potential for improved employee reporting, absence and benefit maintenance.

The lack of budgetary provision for external bursaries resulted in these projects not being implemented in the 18/19 financial year. The Internship programme was however supplemented in partnership and workplace placement of externally funded learners. Training numbers planned were impacted by delays in the internal procurement and approval processes due to the lack of suitable providers sourced.

## 5.2 INFORMATION & COMMUNICATION TECHNOLOGY SERVICES

**INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES**

During the 2018/19 financial year, we saw the final year of the ICT Strategy implementation, which started from 2013 -2018. There have been some incredible successes and a few failures in implementing the strategy during this 5-year period. Due to lack of capital funding, 24% of the ICT projects were not implemented or started, which most of them will be considered in the next cycle of the strategy development. In overall, 54% of ICT projects were fully implemented and 9% of the projects are still in progress. The key ICT projects undertaken this year is the review of ICT Policies and the Deployment of Multi-Function Printers.

**REVIEW OF ICT POLICIES AND PROCEDURES**

There has been various changes and replacement of ICT infrastructure and ICT Applications within Msunduzi Municipality's Data centre and the end users. Due to various ICT infrastructure changes and the acquisition of the SAP ERP, it is imperative for the policies and procedures to be realigned accordingly.

In addition, key findings were made on ICT governance, which necessitated the review of ICT policies and procedures. These policies and procedures will be vetted by AGSA at the next audit. The policies and procedures will be considered ex-post facto by the ICT Steering Committee when the ICT Unit resuscitate it during 2019/2020 financial year.

| Policy / Procedure Name                     | Status                                                                                                                                                                                                                                                                 |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Change Management Procedure                 | Submitted to SMC and the resolution was 'That a workshop for Operational Management Committee on the ICT policies be arranged to workshop the policies before the policies can be recommended to the Council Committee structures and that the workshop be expedited.' |
| Change Management Policy                    |                                                                                                                                                                                                                                                                        |

| Backup Testing of Restoration Procedure     |                                                                                                                                                                                                                                                                        |

### DEPLOYMENT OF MULTI-FUNCTION PRINTERS

Printing is at the core of running the day-to-day successful operations of the Municipality and especially the effective running of the Council meetings. With the new service provider finally awarded the Printing contract after a long protracted legal battle at the courts which lasted for just over 2 years, we were able to operationalise the deployment project. In summary, a total of 104 printers were ordered to replace all existing printers within Council, as at the end of the 2018/19 financial year, 91 printers were delivered and deployed to various business units. The remaining printers will be delivered during July and August in the new financial year.

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variations are calculated as follows: Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

#### COMMENT ON THE PERFORMANCE OF ICT SERVICES OVERALL:

The ICT unit continues to improve in providing the best service and support throughout the municipality as indicated above by the ICT infrastructure uptime and the Service Desk statistical report. ICT unit received in excess of six (6) interns during this financial year and that has greatly assisted us in maintaining the smooth support service throughout the council. In addition, the unit unfortunately lost both of our ICT Network Security Officers during this period due to better paying jobs, we hope we will be able to attract such skilled resources during the next financial year.

## 5.3 LEGAL SERVICES

### INTRODUCTION TO LEGAL SERVICES

Legal Services provides essential support to the Municipality in providing legal comments, opinions and advice to all Business Units. In addition, thereto, the unit undertakes the management of civil litigation in the High and District Courts including interdicts and criminal prosecutions relating to the contravention of By-laws and other laws governing local governance. The unit also provides input on policies.

The unit is also responsible for the review, drafting and promulgation of new and existing By-laws. Furthermore, the legal advisors sit on Supply Chain Management Committees as ex officio members and are alternate Municipal Manager's Representatives at Full Council and Executive Committee.

### THE 3 TOP SERVICE DELIVERY PRIORITIES ARE:

1. By-laws
2. Legal representation for civil litigation, and criminal litigation
3. Provision of legal advice, opinions to Council.

### IMPACT:

- With regard to the By-laws, two By-laws were reviewed and a further two were promulgated in the last financial year.
- We achieved 100% legal representation in both civil and criminal matters and had no judgment noted against the municipality.
- With regard to legal advice, comments and opinions our impact has been less than 100%, having achieved a score of 2 on the SDBIP. Our target was to provide legal advice opinions and comments within 10 days from receiving a request. Whilst all requests were met, some were provided outside the 10-day period due to the following:
  - Staffing Constraints and vacancies in the unit,
  - Other urgent priorities meant not all brief could be attended to in time,
  - Work distribution not optimal,
  - Legal briefs not containing all relevant information.

### MEASURES TAKEN TO IMPROVE PERFORMANCE AND MAJOR EFFICIENCIES:

1. Improve the legal brief process to ensure all relevant information contained in brief.
2. Reviewed and improved work distribution.
3. Extended contracts for temporary employees.
4. Prioritised vacant posts to be advertised- 3 posts were advertised.
5. Trained staff on new rules of court relating to the Magistrates' Court- new rules for District and Regional Court.
6. Sent 2 members of staff on a Labour Law seminar.
7. Introduced a new process for the payment of service providers.
8. Formalised and introduced a new compulsory meeting with the attorneys for monthly reports and issues relating to performance.

### SERVICE STATISTICS FOR LEGAL SERVICES

1. Achieved 100% legal representation on all civil and criminal matters.
2. Achieved 100% input on policies.
3. Achieved 100% for consideration and evaluation of summonses for law enforcement and attended court in all criminal prosecution matters.
4. Provided legal input and made recommendations on insurance claims against the municipality.
5. Established a significant cases template for reporting purposes.
6. Established a template for the monthly update of all open cases relating to contingent liabilities.
7. Produced a new template for the review of fines and submitted same to the Chief Magistrate for approval.
8. The Water Services By-law was promulgated in the Gazette on 6 June 2019.
9. The Telecommunications, Mast Infrastructure By-law was promulgated on 14 February 2019.
10. The Debt Collection and Credit Control By-laws were reviewed and submitted to SMC.
11. The Public Health By-laws were reviewed and submitted to SMC.

| LGL01                                               | 4X SPECIFIED BYLAWS SUBMITTED TO SMC for approval by Council by the 30th of June 2018 (Water Services Bylaws, Fireworks Bylaws, Debt Collection and Credit Control Bylaws and Rules of Order Bylaws)                                                          | Water Services Bylaws: Bylaws submitted to SMC by 30 June. Amendments were published for public comment with no comments received. Bylaws will be work-shopped in Portfolio Committee at the end of July 2018; Fireworks Bylaws submitted to SMC before 30th of June 2018 and was approved for public comments; Debt Collection and Credit Control Bylaws: Legal Services had initially been working on draft bylaws from the 2017/2018 policy. In the course of drafting the 2017/2018 policy, it was established that the 2018/2019 policy had been approved at the end of May 2018. A report with draft bylaws based on the 2017/2018 policy was ready to be tabled at SMC, but Finance indicated that it would make more sense to utilize the newly adopted 2018/2019 policy. Both the 2017/2018 and the 2018/2019 draft bylaws had been sent through to Finance for comment, however, Legal Services still awaits such; Rules of Order Bylaws: A report to SMC with the proposed amendments has been drafted; Wayleaves Bylaws: New bylaws are currently being published for public comment, due to expire on the 28th July 2018. | 2 (70% - 99%)                     | LGL01                | 4X SPECIFIED BYLAWS SUBMITTED TO SMC for approval by Council by the 30th of June 2019 (Keeping of Dogs, Debt Collection and Credit Control, Street Trading and Spatial Planning and Land Use Management Bylaws) by the 30th of June 2019                      | Not all 4X SPECIFIED BYLAWS WERE SUBMITTED TO SMC for approval by Council by the 30th of June 2019 (Keeping of Dogs, report has been considered and approved for public comment by the SMC Portfolio; Debt Collection and Credit Control; Street Trading and Spatial Planning and Land Use Management Bylaws) considered and approved by SMC for public comment. | 1 (68% & below)                   | Street Trading: These bylaws will have to be based on any relevant changes to the Informal Trading Policy, user department still to do policy (target not met) Committee; Spunna. Consultation has taken place with Town Planning, still requires more attention. | Other                                            | 6 825         | 2 756           | 5280              | 7 014         | 33%                             |
| <b>Total Operational Expenditure</b>             | <b>17 089</b> | <b>8 225</b>    | <b>10 705</b>     | <b>14 735</b> | <b>38%</b>                      |
| <b>Net operational (Service) Expenditure</b>     | <b>16 949</b> | <b>8 216</b>    | <b>10 696</b>     | <b>14 658</b> | <b>37%</b>                      |

Variations are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

## CAPITAL EXPENDITURE: LEGAL SERVICES (502) R'000

| Details                        | 2018/2019 |                   |                    |                                 |                     |
|--------------------------------|-----------|-------------------|--------------------|---------------------------------|---------------------|
|                                | Budget    | Adjustment Budget | Actual Expenditure | Variations to Adjusted Budget % | Total Project Value |
| <b>Total All</b>               | <b>30</b> | <b>31</b>         | <b>30</b>          | <b>-3%</b>                      |                     |
| Project A : COMPUTER EQUIPMENT | 30        | 26                | 26                 | 0%                              | 26                  |
| Project B : OFFICE EQUIPMENT   | 0         | 5                 | 4                  | -20%                            | 4                   |

Total project value represents the estimated cost of the project on approval by council (including past and future expenditure as appropriate)  
Variations are calculated as follows:  
Actual expenditure – Adjusted budget divided by the Adjusted budget x 100.

### COMMENT ON THE PERFORMANCE OF LEGAL SERVICES OVERALL:

The SDBIP provides an indication of what has been achieved and the deficiencies. For the sake of brevity, same will not be repeated as the information is contained in the tables above.

We repeat what has been stated in column 1 herein with regard to legal advice, comments and opinions our impact has been less than 100%, having achieved a score of 2 on the SDBIP. Our target was to provide legal advice opinions and comments within 10 days from receiving a request. Whilst all requests were met, some were provided outside the 10-day period due to the following:

- Staffing Constraints and vacancies in the unit,
- Other urgent priorities meant not all brief could be attended to in time,
- Work distribution not optimal,
- Legal briefs not containing all relevant information.

We have already indicated new processes to improve efficiency and performance. We may mention that some of the targets that were previously indicated in the SDBIP have now been revised for the new financial year and made smarter having taken into account the fact that some processes are outside the control of the Legal Services unit and have a direct impact on the achievement of the targets.

The high vacancy rate within the unit impacts on the performance of work and currently there are only 2 Chief Legal Advisors doing the work of 5 Chief Legal Advisors and the Head of the Unit.

The Unit recognises that there has been a dip in the overall performance noting that in the financial year 2014/15 it was awarded the Best Process Unit of the year having achieved 100% in all its targets. All targets were also achieved in the next financial year.

## 5.4. ORGANISATIONAL DEVELOPMENT PERFORMANCE

### INTRODUCTION TO ORGANISATIONAL DEVELOPMENT PERFORMANCE

#### HR SERVICES REQUIRED BY LINE MANAGEMENT:

The HR Leadership Team listed the items below as HR needs commonly stated by internal clients:

- Competent staff
- Accurate statistics from HR: staff attendance data, overtime data, vacancy data
- Motivation of staff
- Skill gaps bridged where they exist in order to improve employee performance
- Correct remuneration - correct grading and salary bands
- Harmonization of the work environment
- Information to be available – more communication expected
- Recognition of high performers
- Policy compliance and consistent policy application
- Incentives to perform
- Benchmarking of information

Based on the feedback drawn from the HR Survey, a gap is obvious between what the employees expect and what the HR team presently delivers, and this mismatch appears to be the primary cause for the lack of confidence in HR.

The items above indicate a need for HR to address not only administrative needs, but also facilitate solutions spearheading thought leadership for attainment of meaningful organisational solutions.

**COMMENT ON VACANCIES AND TURNOVER:**

The General Manager's: Sustainable Development and Infrastructure Services posts were vacated in the 2017/2018 financial year; General Manager: Sustainable Development Post has since been filled in the 2018/2019 Financial Year.

The 2013 structure, implemented in June 2015 has a higher post compliment which further translated into a higher vacancy rate and while the Human Resources Unit has embarked on a concerted recruitment drive the Organisation is still challenged by a relative high staff turn-over.

**MANAGING THE MUNICIPAL WORKFORCE**

**INTRODUCTION TO MANAGING THE MUNICIPAL WORKFORCE**

An assessment of workforce requirements for the current and future organisation needs is to be periodically conducted, balancing stability of the approved organisational structure and changing demand and supply dynamics.

There is an urgent need for Msunduzi Management and HR senior management to give attention to attraction of younger recruits in order to bolster the talent pipeline which is presently very weak. Should nothing be done in this regard, the organisation will face the risk of business continuity and loss of institutional knowledge as older employees retire. Specific recruitment targets and conscious interventions aimed at turning the age distribution curve around are considered as essential and urgent.

The Municipality pursues the equitable representation of designated groups in all occupational categories and levels in the workforce and actively supports an organisational culture and climate based on diversity, equality, mutual respect and dignity for all.

Currently in the organisation, African males are over represented at lower Occupational levels (A Grade) while other demographic groups are minimally or not represented at all. People with disabilities are critically under-represented. Of a workforce of 3459 permanent employees, the municipality is yet to facilitate the formal declaration of any employees with disabilities.

**EMPLOYEE DISTRIBUTION: AGE GROUP**

**GENDER**

**RETIREMENT PLANNING: EMPLOYEES AGE D 55-65**

**COMMENT ON INJURY AND SICK LEAVE:**

**EMPLOYEE WELLNESS DAY EVENTS:**

The Occupational Health unit conducts 2 employee wellness events biannually as per our SDBIP. In the financial year 18/19 the employee wellness events were as follows:

- Electricity Clinic – 30-11-2018
- City Engineers – 31-05-2019

**EMPLOYEE WELLNESS PROGRAMMES:**

- Both the Wellness Events were a success with 642 attendances respectively.
- Employee Health Awareness programme are per National Health Calendar Month.
- TB awareness, Cancer Awareness, Health and lifestyle Awareness, HIV&AIDS Awareness, Mental Health and stress management, pregnancy management, Alcohol, drug and substance abuse.

**PRIMARY HEALTH CARE:**

- The three occupational health clinics had 10 348 attendances in the 18/19 financial year.

**MEDICAL SURVEILLANCE**

- 253 Employment medicals were done (pre-employment, periodic & exit).

**INTERVENTION PROGRAMMES**

- O.H and WCA Employee Intervention workshops are done every Wednesdays and Thursdays of each week throughout the year for different sections.

**IMMUNISATION PROGRAMMES:**

Vaccinations and booster doses are given departmental according to the risk of exposure as per OHSA 85 of 1993 (HBAs) hazardous Biological Agents.

- Sewer department - 83 employees were given Typhoid Vaccines.
- Landfill site – 18 employees were given Tetanus toxoid vaccine AS
- Waste department is still outstanding with the Tetanus toxoid and Typhoid vaccines.

**INJURIES ON DUTY**

- 57 Injuries on duty were reported and registered with the compensation commissioner for 18/19 financial year.
- The Occupational Safety Unit core function is to develop, monitor and implement health and safety systems and procedures within the Municipality. This monitoring and reporting is undertaken to ensure compliance with the occupational Health and Safety Act. In order to ensure compliance to the Act, an operational plan was developed in accordance to the SDBIP to conduct occupational risk assessments. Risk assessments was conducted in the business units and all targets were achieved.
- The Civil Aviation License was granted to the Pietermaritzburg Airport and there was no adverse finding in terms of safety at the Airport.
- Intervention Sessions on legal compliance was done at Business Unit levels in form of workshops, induction training, newsletters and meetings.
- Injury on duty statistics are recorded monthly and there were no fatalities reported. The municipality reported a Disabling Frequency Rate (DIFR) and a Disabling Injury Severity Rate (DISR) of 1.41 and 8.69 respectively.
- All infrastructure construction projects were monitored for safety compliance and there was no adverse findings or serious injuries note.

### COMMENT ON SUSPENSIONS AND CASES OF FINANCIAL MISCONDUCT:

A Disciplinary Team has been established within the Office of the City Manager, to expedite the finalisation of outstanding hearings. Managers are being trained in Disciplinary Procedures, a disciplinary Process Manual has been developed and a specialised Legal team has been established to assist in ensuring that those employees disregard policies and procedures are held accountable.

### COMMENT ON SUSPENSIONS AND CASES OF FINANCIAL MISCONDUCT:

Suspension: Careful consideration is taken when suspending employees as we are cautious in terms of the wasteful expenditure and each case is assessed on its own merits in order consider the following:

That there is reasonable cause to believe that the employee's active presence at the workplace may:

- Jeopardise any investigation into the alleged misconduct;
- Interfere with potential witnesses; or
- Commit further acts of misconduct.

Disciplinary Cases: A position for a dedicated Employer Representative/Prosecutor has been vacant since July 2017 therefore there has been some difficulty in dealing effectively and sufficiently with all matters as Managers do not have the suitable training and/or are reluctant to get involved in the discipline of staff members. Since the period 2016/2017 to 2018/2019 there has also been a backlog in processing the Forensic Investigations due to numerous challenges.

Discipline is acknowledged to have taken a decline since 2016/2017 to 2018/2019 however there is progress in terms of 2017/2018 to 2018/2019 and with the required level of support we foresee optimal functioning for 2019/2020.

## COMMENTS ON PERFORMANCE REWARDS

The Municipality has implemented Performance Management System up to level 3 within the organisation it is not currently linked to rewards. The Individual Performance Management Policy was reviewed and approved during the 2018/19 financial year.

Performance management is currently not being cascaded to the employees beyond the third level of management.

## THE MUNICIPAL WORKFORCE

### INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

During the 2018/2019 Financial Year, The Skills Development Unit engaged and implemented the following interventions. The following are the achievements of the SD Unit.

- Appointed 114 Interns in various disciplines within the Msunduzi Municipality.
- Implemented the Public Admin NQF 5 and Environmental Practice NQF 3 Learnership, training 40 learners.
- Trained 361 employees in various skills programmes.
- Embarked on a recruitment drive to register employees for Adult Education Programme (AET) and Matric. The initiative was aimed at establishing the number of employees wanting to complete Matric and employees wanting to pursue the Adult Education Programme.
- Facilitated the implementation of the Environmental Practice, Transport Management and Disaster Management LGSETA funded Learnerships.
- 38 municipal employees were awarded study assistance in the 2018/2019 Financial Year.
- Facilitated the LGSETA 2018/2019 DG bursaries for 4 employed and 3 unemployed students.
- 101 Work exposure students were placed in the various Business Units in the 2018/2019 Financial Year.

\*% AND \*R VALUE OF MUNICIPAL SALARIES (ORIGINAL BUDGET) ALLOCATED FOR WORKPLACE SKILLS PLAN

## COMMENT ON SKILLS DEVELOPMENT AND RELATED EXPENDITURE AND ON THE FINANCIAL COMPETENCY REGULATIONS:

During the 2018/2019 Financial Year only 361 employees were trained in all the occupational categories, the target was to train 1035 employees in total. The Skills Development Unit only achieved 35% of its target due to the Cost Containment strategy and the delays in the appointment of some service providers. The reason being, that the Skills Development Unit was not permitted to use the budgets of the Business Units that was approved for the implementation of capacity building and training within the Msunduzi Municipality. Only LGSETA grants were used to implement skills development interventions.

In terms of the MFMA Competency Regulations, the Msunduzi Municipality has trained officials within the five categories. The municipality has not implemented any MFMA training in the 2018/2019 financial year as it was busy appointing a training provider to implement the training. The target for the training being MFMA Interns and non-finance managers in the various Business Units.

In terms of implementation of the MFMA Competency Regulations the Msunduzi Municipality has ensured that the relevant employees within the five categories have been trained and the training is now being cascaded to other non-finance managers in the various Business Units and MFMA Interns. The Municipality has met the MFMA Competency Regulations.

## MANAGING THE WORKFORCE EXPENDITURE

### INTRODUCTION TO WORKFORCE EXPENDITURE

The municipality has made a concerted effort to manage workforce expenditure by improving the management and control of overtime.

This included the centralisation of the processing of leave and overtime to ensure conformity, and the introduction of standardised pre-approval and overtime claim forms to address such issues as the necessity for work to be carried out after hours, verification that the time claimed was justified in relation to the work done, location of work, vehicle usage, compliance with policy and availability of funding amongst others.

The overtime policy and procedures are also being reviewed to improve the management and control of overtime. Online leave approval was launched as a pilot in 2016/17 is currently being tested to improve control over leave management.

## EMPLOYEE EXPENDITURE
