|      | <p><b><u>12.4. FINAL INTERNAL AUDIT ON CONDITIONAL GRANTS [3.10.1.1]</u></b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on around the adequacy of the design of the system of internal controls are inadequate and operation of the system of internal controls ineffective around the Final Internal Audit Report on Conditional Grants be noted.</p> <p>(b) That the conditional grants management policy should be reviewed for completeness and accuracy, approved and thereafter rolled out by management; and</p> <p>(c) That the conditional grants management policy should be published on the Municipality's website and intranet on an annual basis.</p> <p>(d) That Management is to implement appropriate mechanisms to ensure timeous submission and review of conditional grant reports by management.</p> <p>(e) That re-enforcement of the control procedures to be followed in the procurement process to be communicated to and adhered to by all individuals and departments involved in the process; and</p> <p>(f) That all payments must be supported with accurate, valid and complete supporting documents.</p> <p>(g) That investment reconciliations should be performed and signed as evidence of performance;</p> <p>(h) That adequate mechanisms to monitor and enable control compliance to the above process by management should be designed and implemented to ensure conditional grants are adequately cash backed.</p> <p>(i) That Management is to implement appropriate mechanisms to ensure timeous submission of roll over applications to the funder relating to unspent conditional grant funds by not later than 31st August;</p> <p>(j) That regular performance assessments should be conducted to gauge delivery of various projects and timeously escalate any projected unspent funding to trigger the application process to funder.</p> <p>(k) That the current controls in terms of the grant reconciliation process both in terms of preparation and review should be enhanced and embedded by management;</p> <p>(l) That supporting documentation for reconciling items should accompany the reconciliation; and</p> <p>(m) That the reconciliations should be timeously reviewed and approved by management on a monthly basis and signed and dated as evidence thereof.</p> <p>(n) That reconciliations should be performed and signed as evidence of performance for all general ledger and investment reconciliations;</p> <p>(b) That Management is to implement appropriate mechanisms to ensure timeous transfer of grant monies deposited into the main account;</p> <p>(p) That the main bank account statements should be reviewed on an ongoing basis to identify grant receipts deposited; and</p> <p>(q) That, once grant receipts have been identified, the approval for transfer of funds document should be prepared and submitted for approval timeously.</p> <p>(r) That adequate planning should be performed by grant champions at the beginning of the financial year to ensure conditional grants are fully utilised;</p> <p>(s) That cash flows should be performed and approved by management which adequately covers amount and timing of conditional grants; and</p> <p>(t) That the current controls in terms of the SMC process both in terms of monitoring and submission to the executive committee and council should be enhanced.</p> <p>(u) That adequate mechanisms to monitor and enable control compliance to the above process by management should be designed and implemented.</p> <p>(v) That the Acting City Manager should take effective disciplinary steps against officials who have under spent on their conditional grants and report to Audit Committee, Executive Committee and Council of the steps taken and progress in the implementation of disciplinary action by 31 May 2019.</p> <p>(w) That the Chief Financial Officer (Acting) ensures that Supply Chain Management provide on a monthly basis the Procurement Plan, with updated information on each project as submitted by project champions and submits such to the Strategic Management Committee for consideration.</p> <p>(x) That Project Champions must receive written appointments signed by the Accounting Officer.</p> <p><b><u>12.5. FINAL INTERNAL AUDIT REPORT ON TRADE PAYABLES FOR THE MONTHS OF JULY, AUGUST AND SEPTEMBER 2018 [3.10.1.1]</u></b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>i. That the findings, management comments and recommendations made in the Final Trade Payables reports for the months of July, August and September 2018 be noted.</p> <p>ii. That implementation of the recommendation as contained in the report be monitored through progress reports to SMC and Audit Committee.</p> <p>iii. That all anomalies noted by Internal Audit should be investigated to ensure minimal occurrences in future.</p> <p>iv. That the Supply Chain Management and Creditors' policy should be updated to reflect services where compliance cannot be achieved per the payment workflow process.</p> <p>v. That the Creditors' batch payment document should be approved by both A and B signatories in line with the listing of authorised signatories.</p> <p>vi. That payments to suppliers should be performed timeously and within 30 days of receipt.</p> <p>vii. That all supporting documents used in the process should be attached to the payment pack and made readily available for inspection e.g. approval for payment, creditors batch payment approval and expenditure committee approval etc.</p> <p>viii. That delegation of authorities should be reviewed and approved by the Accounting Officer for each of the approvers and all approval of payments should be performed in line with the delegated maximum approved amount.</p> <p><b><u>12.6. FINAL INTERNAL AUDIT REPORT ON THE HIGH LEVEL REVIEW OF THE ANNUAL REPORT FOR THE 2017/2018 FINANCIAL YEAR [3.10.1.1]</u></b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings on the High Level Review of the Annual Report for the 2017/2018 FY be NOTED.</p> <p>(b) That disciplinary measures be instituted where Portfolios of Evidence were not submitted for verification and;</p> <p>(c) That disciplinary measures be instituted where management comments were not received for the anomalies identified during the audit.</p> |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|      | <p><b>12.7. FINAL INTERNAL AUDIT REPORT ON THE REVIEW OF THE SECTION 72 MFMA REPORT FOR THE 2018/2019 FINANCIAL YEAR [3.10.1.1]</b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on the adequacy of the design of the system of internal controls are inadequate and operation of the system of internal controls is ineffective around the Final Internal Audit Report on the review of Section 72 MFMA report for the 2018/19 Financial year be NOTED.</p> <p>(b) That the Budget Planning Unit should consult with Finance and SAP consultants to resolve the system limitation issue. Alternatively, Budget Planning Unit should obtain the cash flow information from Finance and populate the cash flow statement.</p> <p>(c) That the Budget Planning Unit should establish a standard guideline for material variances explanation.</p> <p>(d) That the Budget Planning Unit should, with intervention from the CFO ensure all required information is provided by other units.</p> <p>(e) That the Budget Planning Unit should ensure that all schedules in S72/S71/S52 report are duly and accurately completed. Management structure within Budget Planning Unit should ensure that members of staff are adequately trained to complete the S72/S71/S52 reports free of material errors.</p> <p>(f) That the Budget Planning Unit should ensure that a detailed review is performed on the S72/S71/S52 report prior to submission to the mayor of the municipality and the council.</p> <p>(g) That the Budget Planning Unit should ensure that all schedules in S72/S71/S52 report are accurately completed.</p> <p>(h) That the Management structure within Budget Planning Unit should ensure that members of staff are adequately trained to complete the S72/S71/S52 report free of material errors.</p> <p>(i) That the Budget Planning Unit should ensure that a detailed review is performed on the S72/S71/S52 report prior to submission to the mayor of the municipality and the council.</p> <p>(j) That the Management structure within Budget Planning Unit should ensure that members of staff are adequately trained to complete the S66 report free of material errors.</p> <p>(k) That the Budget Planning Unit should ensure that a detailed review is performed on the S66 report prior to submission to the mayor of the municipality and the council.</p> <p>(l) That the Budget Planning Unit should ensure that all schedules in S66 report are accurately completed and verified to valid supporting documents.</p> <p><b>12.8. FINAL INTERNAL AUDIT REPORT ON THE REVIEW OF THE SAP CONFIGURATION MSCOA IMPLEMENTATION, INCLUDING CHANGE AND PATCH MANAGEMENT (BPC) MODULE[3.10.1.1]</b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on the adequacy of the design of the system of internal controls are Inadequate and operation of the system of internal controls is ineffective around the Final Internal Audit Report on review of SAP configuration, mSCOA implementation, incl. Change and Patch management (BPC Module). Management should ensure that leave report schedules are reviewed and authorized by independent senior personnel be noted.</p> <p>(b) That Management should engage with the SAP support service provider to ensure:</p> <p>(i) That pipe delimited reporting functionality is deployed at the Msunduzi Municipality.</p> <p>(ii) That reports generated from SAP contain mSCOA reporting segment information which is accurate and complete.</p> <p>(c) That Management should engage with the service provider to ensure that the BPC module is deployed fully which includes the following, i.e.:</p> <p>(i) Automated balance sheet budgeting functionality exists.</p> <p>(ii) Reporting functionality in terms of National Treasury reporting requirements.</p> <p>(iii) Templates exist that mirror schedule A and B National Treasury templates for ease of presentation and reporting on budgets.</p> <p>(iv) System validation checks are configured and implemented for accurate and complete reporting purposes.</p> <p>(d) That Management should engage with the SAP support service provider to ensure that validation functionality is built in to SAP to ensure that the mSCOA segments which appear on report generation are correct.</p> <p>(e) That Management should engage with the SAP support service provider to ensure that the all GL accounts as per the Municipal chart of accounts have SCOA GUIDs.</p> <p>(f) That the Financial Manager from Safe City in consultation with the SAP support service provider should ensure that pipe delimited reporting functionality is developed and implemented at Safe City as a matter of urgency. This will ensure that pipe delimited reports can be generated and provided to Msunduzi Municipality for consolidation in a timely manner.</p> <p>(g) That the Safe City General Manager and Finance Manager in consultation with the SAP and MSCOA Champions should perform the following:</p> <p>(i) Discuss the gaps in the system (SAP &amp; mSCOA)</p> <p>(ii) Agree on the timelines for the implementation of remedies.</p> <p>(iii) User training to be budgeted for and undertaken during 2019/2020 FY latest.</p> <p>(h) That the Project Champion: SAP should consult with the SAP service provider to ensure that SAP is configured to allow for full processing to take place on the application to meet the business needs of Safe City.</p> <p>(i) That the Project Champion: SAP with the assistance of the SAP service provider should ensure that the all GL accounts as per the Municipal chart of accounts have SCOA GUIDs</p> <p>(j) That the Project Champion: SAP should ensure that the SAP Transport Request Management Procedure is approved by management and circulated to staff as soon as possible.</p> <p>(k) That, in addition, version control of the document should be maintained to track updates made.</p> <p>(l) That the SAP Basis team should ensure that an adequate filing system is established and transport request forms are filed in a central location in a timely manner once the transport has been approved for migration to the production environment.</p> <p>(m) That the SAP Basis team should ensure that the "transport approval forms" are completed in full by the Project Champion: SAP prior to the transport being migrated to production.</p> <p>(n) That the SAP business stream leads should ensure that prior to completion of the SAP transport forms with the assistance of service provider, helpdesk calls are logged outlining at a minimum the following detail, i.e.:</p> <p>(i) Nature of request</p> <p>(ii) Priority</p> <p>(iii) Remediation date.</p> <p>(o) That a mandate or TOR should be documented and approved for the CAB. This document should outline the following detail as a minimum, i.e.:</p> <p>(i) Purpose of the committee;</p> <p>(ii) Membership;</p> <p>(iii) Roles and responsibilities of each CAB member, and</p> <p>(iv) Frequency with which CAB meetings are to be held.</p> <p>(p) That once the mandate or TOR has been approved, formally appointment letters should be issued to committee members which should be signed off by the appointed personnel and retained to ensure that members are aware of their roles and responsibilities.</p> <p>(q) That Management should ensure that:</p> <p>(i) The Patch Management Policy/ Procedure is reviewed and approved during 2018/ 2019 financial year.</p> <p>(ii) Version control of the document should be maintained to track updates.</p> <p>(r) That the SAP Basis team should ensure that an adequate filing system is established and patch forms are filed in a central location in a timely manner once the patch has been approved deployment to the server or ERP.</p> <p>(s) That the SAP Basis team should ensure that, i.e.:</p> <p>(i) A dedicated test environment is setup for testing of patches prior to deployment.</p> <p>(ii) The latest patches are successfully deployed onto the Windows operating server and the SAP ERP.</p> |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|      | <p><b>12.9. FINAL INTERNAL AUDIT REPORT ON THE DISASTER RECOVERY PLAN [3.10.1.1]</b></p> <p><b>RESOLVED TO RECOMMENDED TO THE EXECUTIVE COMMITTEE</b></p> <p>(a) That the findings, internal audit opinions on around the adequacy of the design of the system of internal controls are inadequate and operation of the system of internal controls ineffective around the Final Internal Audit Report on Disaster Recovery Plan.</p> <p>(b) That the Senior Manager: ICT should establish and implement the Business Continuity Management framework to assist with the implementation of the Business Continuity Plan and related policies and procedures.</p> <p>(c) That the Senior Manager: ICT should ensure that the Business Continuity Plan (BCP) and any other related policies and procedure are developed, approved, tested and implemented to mitigate the risks in the event of a disaster.</p> <p>(d) That the Senior Manager: ICT should ensure that the Continuity of Operations Plan integrates business continuity activities from across business units and addresses the winding down of operations due to a disaster and the restoration of services following a complete shutdown.</p> <p>(e) That the ICT Steering committee should conduct Business Impact Analysis and determine whether continuity planning has resulted in clear positioning of required resources to recover business operations during a disruption.</p> <p>(f) That the Senior Manager: ICT should expedite the approval process of all policies. This sets the tone to all the users of the plan and enforces the consequences of non-compliance or inadequate performance.</p> <p>(g) That the Senior Manager: ICT should ensure that policies are reviewed and approved by the ICT Steering Committee prior being submitted to structures of Council for approval.</p> <p>(h) That training programmes should be incorporated into BCP to mitigate the risk of over dependence on key resource.</p> <p>(i) That training programmes should be developed and kept on record. Training materials, attendance register, and feedback reports should be kept on file for reference and developmental purposes.</p> <p>(j) That the Senior Manager: ICT should ensure that the plans are communicated and made accessible to personnel and current hard copies should be maintained at primary and backup locations.</p> <p>(k) That the Senior Manager: ICT should prepare, maintain and test plans that document the specific steps to take when a risk event may cause a significant operational or development incident with serious business impact.</p> <p>(l) That the DRP should be tested at least twice a year to ensure continuity in the event cases of a disaster/destruction.</p> <p>(m) That during every phase of the test, the detailed documentation of observations, problems and resolutions should be maintained.</p> <p>(n) That the Senior Manager: ICT should establish a steering committee where plans, policies, guidelines and procedures that affect the Municipality and, as such, should have the support and suggestions from employees, executive management, auditors, security administration, and the legal counsel.</p> <p>(o) That the individuals representing various management levels should meet as a committee on quarterly basis to discuss issues relating to DR, BCP and BIA.</p> <p>(p) That the Business Continuity steering committee should be formally established with the appropriate terms of reference.</p> <p>(q) Senior Manager: ICT should conduct a risk assessment so that the information resulting from that assessment will allow the Municipality to highlighted areas where risks have exceeded its risk appetite. This is the foundation for developing business continuity strategies to reduce the likelihood of a disruption.</p> <p>(r) That Risk assessments should also be performed periodically to address changes in the environment, security requirements and risk situations (e.g. in the assets, threats, vulnerabilities, impacts), and when significant changes occur.</p> <p>(s) That the SLA provides both parties with a range of sanctions to ensure smooth handling of the resolution process in the event that agreed service levels are not met.</p> <p>(t) That, furthermore, Senior Manager: ICT should ensure that SLA's are agreed upon and signed by both parties as required by section 116 (1) of the MFMA.</p> <p>(u) That the Senior Manager: ICT should ensure that SLA is signed by both parties during the SLA meeting held on a periodic basis.</p> <p>(v) That the municipality should consider setting up another disaster recovery site which will be at least 20km away from the primary site. If there is a disaster in the primary site, the disaster recovery site might not be affected by the same catastrophe. The distance may also give personnel at the disaster recovery site ample time to react to a potential disaster that would have affected the primary site.</p> <p>(w) That the Senior Manager: ICT should ensure that a formal backup policy has been documented and there is a common understanding of backup and restore standards that should be complied with.</p> <p>(x) That Backup should be made for all the data on a secondary storage media (Tapes, hard drives, digital media) and transfer to the offsite location.</p> <p>(y) That the Senior Manager: ICT should implement the grandfather (monthly), father (weekly) and son (daily) back up processes as this is the best practice.</p> <p>(z) That the backup operator should review the report before submitting it to management for their own review on a monthly basis.</p> <p>(aa) That the Senior Manager: ICT should consider developing a form to track all the reports that have been submitted and ensure that they have been signed off as evidence of the review and filed for audit purposes.</p> <p>(bb) That the critical capacity requirements should be identified for the various thresholds of outages for each telecommunications capability such as two hours, eight hours or twenty-four hours. UPSs should be sufficient to provide power backup to telecommunication and the computer equipment.</p> <p>(cc) That Environmental controls in the server room should be maintained and equipment serviced adequately on a quarterly basis.</p> <p>(dd) That the power backup systems should be tested regularly and monitored.</p> |

#### 1 ORGANISATIONAL OVERVIEW

|       |                           |            |
|-------|---------------------------|------------|
| 1.1   | <b>TOTAL PROJECTS:</b>    | <b>123</b> |
| 1.1.1 | <b>OPERATING PROJECTS</b> | <b>80</b>  |
| 1.1.2 | <b>CAPITAL PROJECTS</b>   | <b>43</b>  |

#### 1.2 GRAPHICAL REPRESENTATION OF PERFORMANCE: OPERATING PROJECTS

- 1.2.1 A total of 80 Operating Projects were reported on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.2 43.75% of the projects were reported as having achieved a 1 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.3 10% of the projects were reported as having achieved a 2 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.4 36.25% of the projects were reported as having achieved a 3 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.5 6.25% of the projects were reported as having achieved a 4 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.6 3.75% of the projects were reported as having achieved a 5 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 1.2.7 0% of the projects were reported as not applicable on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT

- 2.1.1 A total of 43 Capital Projects were reported on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.2 48.84% of the projects were reported as having achieved a 1 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.3 9.30% of the projects were reported as having achieved a 2 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.4 30.23% of the projects were reported as having achieved a 3 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.5 9.30% of the projects were reported as having achieved a 4 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.6 2.33% of the projects were reported as having achieved a 5 on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT
- 2.1.7 **0% of the projects were reported as not applicable due to not having any targets on the SDBIP for the 2018/2019 ANNUAL PROGRESS REPORT**

Which has resulted in delays in the approval of Stage 1 funding application.                          | A progress meeting was held on the 12th of June 2019 with DoHS to determine progress regarding Stage 1 submission. A progress report regarding the submission will be drafted by DoHS and submitted to the municipality to advise on progress of the application. Further monthly engagements have been proposed to eliminate delays. |
