CHAPTER I – MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR'S FOREWORD

Chris Ndlela
City Mayor

FOREWORD BY THE CITY MAYOR, CLLR CHRIS NDELELA. 2011/12

The financial year 2011/12, has had a life cycle of its own. The early stages of this life Cycle, will culminate into the long term vision and strategy that will map the way forward for this City's development for the next 20 to 25 years in the form of the City Development Strategy.

This cycle is:

- (i) Midst of Administration in terms of S139(b) of the constitution.
- (ii) Stabilization process post administration characterized mainly by the appointment of Senior Management.
- (iii) Development of a Long Term Financial Plan and City Development Strategy to ensure sustained stability of the Municipality.

The period that led to the Municipality being put under administration was characterized by:

- (i) A high staff vacancy rate (only 62% of positions were filled)
- (ii) Extensive number of acting positions throughout the Municipality, including Section 57 posts.
- (iii) Lack of financial and administrative delegations.
- (iv) Incoherent strategic planning process
- (v) Unrealistic budget.
- (vi) No performance Management.
- (vii) Inadequate revenue collection and increasing debtors.
- (viii) Electricity outages mainly as a result of ageing infrastructure.
- (ix) High water and electricity losses.
- (x) Ageing fleet.
- (xi) Erratic waste collection services and many other issues as well.

Msunduzi Municipality

During the period of administration, the Provincial Intervention Team (PIT) developed a turn-around Strategy (TAS), including a Financial Recovery Plan (FRP), which sought to achieve a financial, administrative and service delivery turn around. The TAS focused broadly on the following key aspects:-

- (i) Improving financial sustainability
- (ii) Improving and reviewing current systems and processes, including the upgrading of the Information and Financial Management System..
- (iii) Improving and enhancing asset management through an integrated infrastructure and asset management plan to ensure upgrading and maintenance , growth readiness and proper fleet management
- (iv) Improving financial administration through proper supply chain management
- (v) Enhancing operations of the Municipality through organizational re-alignment and Human Resource Development.

The Section 139(b) which the Municipality was subjected to, was finally lifted at a Council meeting on the 15th of December 2011. One of the determining factors that led to the lifting, was the appointment of the Municipal Manager, this being one of the core deliverables of the PIT. The newly appointed Municipal Manager, Mr. Mxolisi Nkosi, assumed duty on the 3rd of January 2012. Having a new Captain to steer the ship, augured well at a practical level at a point when the Municipality was expected to stand on its own feet post administration. Successful strategic planning and public participation process, culminated in the production of the IDP, Budget, Medium Term Revenue Expenditure Framework (MTREF) and Service Delivery and Budget Implementation Plan (SDBIP).

Having developed and currently implementing the Financial Recovery Plan (FRP), with the assistance of National Treasury, it was reiterated that the Municipality needed to move beyond Crisis and re-active management and short term planning. In this regards, with the assistance of National Treasury (NT), a Long Term Financial Plan has been developed with clearly defined end goals that will change the future behavior , resource allocation and growth and development of the Municipality. The LTFP will have an effect on Service D Delivery Mandates of the Municipality, noting the service delivery imperatives and backlogs of Msunduzi as identified in the Integrated Development Plan (IDP)

The LTFP Is primarily aimed at ensuring that the Municipality has sufficient and cost effective funding in order to achieve its long term objectives through the implementation of the IDP and medium term operating and capital budgets. Finally, the LTFP is intended to provide financial and policy guidelines to ensure that all future activities and planning initiatives are aligned to the LTFP so that Msunduzi can achieve sustainable Municipal Service Delivery and financial resilience in the long term. The LTFP will be reviewed on an annual basis, and ideally, all future budgets sand financial planning processes must be aligned to the LTFP.

Whilst the IDP is a 5 year document detailing planning within the Municipality over the next five years, the City Development Strategy will be the development planning blue print of the Municipality for the next 20 to 25 years. The key aspects to be included in the development of the CDS include the following aspects:-

- (i) Urban Development Policy
- (ii) Development Indicators
- (ii) Rural/Urban Interface
- (iv) Public Transportation
- (v) Land(use, management, acquisition etc)
- (vi) Human Settlements
- (vii) Vulnerability
- (viii) Finance
- (ix) Socio-political stability
- (x) Human Capacity

It is also important that as citizens we are proud of and comfortable within the space we currently live. To this end,

the Municipality will be embarking on the Pietermaritzburg Urban Renewal Project(PURP), which will focus among other things:-

- (i) Metered Street parking
- (ii) Dealing with pot holes in the CBD
- (iii) Regulating Street trading and providing street furniture.
- (iv) Regulating street signage, billboards and advertising
- (v) Urban beautification.
- (vi) Repairs and maintenance of street lights
- (vii) Street sweeping and waste collection

Lastly, Msunduzi Municipality has achieved our drinking water quality summa-cum-laude for two consecutive years in the form of receiving Blue Drop Status. We have a focused implementation plan in line with Blue Drop requirements. Whilst the status is the goal, the main objective though, is to ensure that our residents as well as visitors receive quality potable water.

In terms of the integrated planning processes the reviewed IDP is developed in alignment with all national and provincial plans including the Provincial Growth and Development Strategy (PGDS). In order to ensure that strategic objectives as contained in the IDP are achieved these are included in the annual SDBIP which is monitored on a monthly and quarterly basis. Any objectives that are not met require managers to provide reasons for deviation as well as corrective actions.

During the financial year the municipality embarked on a project to develop a public participation policy in line with the guide lines provided by CoGTA. In addition other methods of public participation and accountability are provided through monthly ward committee and community meetings, Mayoral IDP/Budget Izimbizo and stakeholder forums.

It is against this background that one can say that 2011/ 2012 has been a year of transition which has taken on the form of a positive move away from the maladministration of the past towards a streamlined political and administrative core that are working together to ensure a better life for all.

THE HONOURABLE MAYOR
COUNCILLOR C. J. NDLELA

COMPONENT B: EXECUTIVE SUMMARY

I. FOREWORD BY THE MUNICIPAL MANAGER: ANNUAL REPORT 2011/2012

Mxolisi Nkosi
Municipal Manager

As mentioned by the Mayor, the financial year 2012/ 2013 has been characterized by a process of transition primarily driven by the lifting of the Section 39 intervention by the Department of Cooperative Governance and Traditional Affairs (COGTA). My appointment as the Accounting Officer (Municipal Manager) on the 01 January 2012 was right at the outset of this period of transition.

During the 2011/12, there are a number of milestones in terms of projects either completed or started. These include the following:-

- New state of the art sewer pump station in Lincoln Meade at a cost of R 13 million. This one pump station has replaced two that were troublesome and sometimes caused sewer to be discharged into the river. This new pump station will save operational costs and comes with a stand-by generator, and will ensure that there is no discharge of sewer into the river.
- Two reservoirs. One under construction, and the other in the final stages of design. The one under construction is in Copesville and will have a capacity of 20ml at a cost of R30 million. The Mason's Mill reservoir is in the final design stage and will cost about R25 million.
- The Integrated Rapid Public Transport Network (IRPTN) was launched this year, and the first stage to conduct a survey has already commenced. This project will cost R3.1 billion over 5 years.
- The widening of the New England Road project is also at an advanced stage at a cost of R12.4 million.
- The Chota Motala Interchange was completed by the end of 2012, and it cost over R200 million.
- The Hayfields Residential and Hotel Development project has already commenced and will cost R200 million.
- The Greater Edendale Mall was opened in September 2011, and the project cost R300 million and created 1000 permanent jobs.
- The Camps Drift Water Front Mixed Use Project is awaiting the Environmental authorization. It will comprise of the residential development, commercial Development in terms of restaurants and a hotel. It will cost R1.6 billion rand.
- The Liberty Midlands Mall phase three development will commence soon at a cost of R500 million. The sale of land has been concluded in this regarded.
- The Hilton Powerline upgrade to solve the electricity problems in the Hilton and Sweetwaters areas, is already under way at a cost of R15 million and is expected to be completed by end of January 2013.
- We have also undertaken an Electricity Network Protection study with the view to find ways to protect our electricity network at a cost of R3.5 million.

- The Pietermaritzburg Airport is receiving a revamp of the runway, the parking area and later the terminal building. A state of the art navigation system was also installed. The increase in passenger numbers, has justified the R40 million injection in upgrading the airport.
- We also conducted an in depth assessment of our electricity infrastructure through the Independent Development Trust (IDT), which explained very clearly the challenges we have in electricity supply in order for us to plan and budget appropriately to deal with electricity challenges.

This is to mention some of the projects that were undertaken during the 2011/ 2012 financial and are currently ongoing in some instances.

We believe very strongly that we are on the right track as a Municipality. Our Debt Recovery plan should be able to assist us recover what is owed to the Municipality, so that we are able to continue to deliver services to our people. This Municipality is committed to tangible and visible deliverables to better the lives of its residents and believe that for democratic governance to be meaningful; all stakeholders must be fully engaged to participate in all processes.

The Municipality currently has one municipal entity, that is, Safe City. The focus of Safe City is on crime prevention through the monitoring of CCTV which placed at key strategic points within the municipality. The municipality provides funding on an annual basis for the operational and, when available, capital needs of the organization. Safe City is administered through a board of Directors.

The municipality works closely with all sector departments in terms of development within its jurisdiction. On an annual basis, as part of the Integrated Development Plan (IDP) process, all Sector departments are invited to present and make submissions to the municipality on the plans that they have for development within the area. These plans are then included in the IDP.

In the 2010/ 2011 financial year, the municipality received a financially unqualified report with other matters. In order to address the other matters as contained in the 2010/ 2011 Audit Report, an audit Action Plan was developed and monitored on a monthly basis by the Controls Transformation Steering Committee,

In conclusion, the 2011/ 2012 financial year has been a year of recovery during which processes had to be re-aligned and much focus has been given to the recovery of debt, revenue generation and expounded capital grant expenditure.

M.A. NKOSI
MUNICIPAL MANAGER

2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

Msunduzi Municipality provides Water, Sanitation, Electricity, Refuse Removal, & Housing as part of the Basic Services. It also provides Roads, Stormwater & Drainage together with Local Economic Development and the approval of local building plans to local communities.

2.1. VISION STATEMENT

A safe, vibrant city in which to live, learn, raise a family, work, play and do business.

2.2. MISSION STATEMENT

To ensure that the Municipality functions effectively and in a sustainable manner in order to deliver services of excellence to the community

2.3. LOCALITY

The Municipality affectionately known as Pietermaritzburg or the City of Choice is located along the N3 at a junction of an industrial corridor from Durban and Pietermaritzburg and an agro-industrial corridor stretching from Pietermaritzburg to Escourt. Regionally is identified at the cross section of the N3 corridor and Greytown Road corridor to the north, a tourist route to the Drakensberg and Kokstad Road to the South. It is the second largest city in KwaZulu-Natal and a contributor towards 80% of the GDP by 9 largest cities in South Africa.

2.4. THE POPULATION OF MSUNDUZI

Total Population: 618 536

THE ECONOMY

THE STATE OF THE ECONOMY

The figure below indicates the Msunduzi GDP yearly growth rate percentage, and as can be seen, the GDP growth rate for 2011 was 3.85% representing a GDP of R25,492,758,644. This figure is up from the -0.31% growth rate experienced in 2010.

GDP per Annum for the Msunduzi Municipality (HIS Global Insight, 2011)

Annual GDP Growth Rate for Pietermaritzburg (2003 – 2012)

This figure indicates the annual GDP rate both per quarter and per year. The year on year rate remains positive although for Quarter 2 of 2008, Quarter 1 of 2009, and Quarter 4 of 2010, the GDP growth was negative. The trend is, however, positive at present.

These figures are mirrored by the Gross Value Added (GVA) figures for the municipality. GVA is a measure of the value of goods and services produced in an area. The GVA for the Msunduzi municipality for 2011 was R22,702,000,000.00 (Quantec, 2011). The GVA growth rate for 2011 was 3.42%. The GVA per capita for this period was R36 703.00 (Quantec, 2011).

EMPLOYMENT

The HIS Global Insight data indicates that in 2011, 111 014 people were formally employed in the municipality with the majority, approximately 35% or 38 724 people, being employed in Community Services, followed by 15% in Finance and a further 15% being employed in households. The data indicates that employment in Msunduzi in 2011 accounted for 68.48% of the formal employment in the uMgungundlovu DM, a figure that is up from the 64.5% in 2001.

Number of Formally Employed People per Sector (HIS Global Insight, 2011)

The labour absorption rate is the rate at which the economy absorbs labour. The Census indicates the rate for the municipality is 36.39% and that the employment growth rate is 27.87%. The Census indicates that the average household income is R108 926.00 which is markedly up from the figure of R50 178.00 in 2001 (Statssa, 2011).

UNEMPLOYMENT

The Census (2011) indicates that levels of unemployment have declined from the high figures of 48.2% of the economically active population in 2001, to a figure of 33% in 2011. COGTA (2012) estimated the unemployment levels for the Msunduzi municipality at 45% which is above the provincial average.

A further positive trend is the decline in the youth (15 – 34 years) unemployment rate which stood at 58.2% in 2001 and declined to 43.1% in 2011.

COMMENT ON BACKGROUND DATA:

The data provided herein is data used from the Census 2011 report conducted by Statistics South Africa and HIS Global Insight, 2011. Msunduzi Municipality strives to ensure the backlogs in the delivery of Basic Services like Water, Electricity and Housing are reduced on an annual basis.

3. SERVICE DELIVERY OVERVIEW

SERVICE DELIVERY INTRODUCTION

1. Service Delivery – The Provincial Intervention Team reviewed the Indigent Policy with a view to addressing risk areas attached to the applications process to declare a consumer indigent. The policy was therefore changed to provide indigent support on the basis of consumptions.

2. Indigent Population

Definition of “Indigent” & Qualification for Concessions

“Indigents”– means an owner/occupier of a property as defined in the qualification for concessions.

Qualification for concessions –

Owners and/or occupiers of residential property:

- where the electricity lifeline tariff is requested and a circuit breaker of 20Amp is fitted
- and/or where there is no electricity distribution by Council, where the water consumption is less than 6kl, will qualify as an Indigent.
- Concessions set out below, and as reflected in the Council's Tariffs, shall automatically qualify for such concessions, subject to the conditions set out hereunder:

Property Rates

Indigents will qualify automatically like all domestic consumers for a reduction in the market value of the property as approved from time to time by Council and as reflected in the applicable Tariff Register.

A rebate of 100% will be granted on all residential property from a value of R15,001 to a value of R150,000.

Electricity

Free kWh as determined from time to time by Council and as reflected in the applicable Tariff Register.

If the consumption is 500 kWh or less, 200 kWh will be free

If the consumption is greater than 500 kWh, then 50kWh will be free

Electricity MCB

Free amperage as determined by Council from time to time and as reflected in the applicable Tariff Register.

20Amp circuit breaker

Water

Consumption of water as determined from time to time by Council and as reflected in the applicable Tariff Register.

6kl

Refuse

Free refuse as determined by Council from time to time and as reflected in the applicable Tariff Register. If the lifeline tariff for electricity consumption is used, or where no electricity is consumed or where less than 6kl of water is used, a 50% rebate will apply for sewerage removal.

Sewerage

Free sewerage as determined by Council from time to time and as reflected in the applicable Tariff Register. If the lifeline tariff for electricity consumption is used, or where no electricity is consumed or where less than 6kl of water is used, a 50% rebate will apply for refuse removal.

COMMENT ON ACCESS TO BASIC SERVICES:

Above is a diagram reflecting performance on Access to Basic Services for 2011-2012 financial year. Please refer to Chapter 3 – Service Delivery Performance for further information pertaining to shortfalls, reasons for deviation and support needed in terms of unblocking.

4. FINANCIAL HEALTH OVERVIEW

FINANCIAL OVERVIEW

TABLE 10: FINANCIAL OVERVIEW – 2011/2012			
			R'000
Details	Original Budget	Adjustment Budget	Actual
Income			
Grants	R 326,131	R 326,131	R 351,599
Taxes, Levies and Tariffs	R 2,186,598	R 2,219,003	R 2,215,158
Other	R 826,467	R 92,111	R 617,921
Subtotal	R 3,339,196	R 2,637,244	R 3,184,678
Less Expenditure	R 3,339,106	R 2,772,925	R 3,094,018
Net Total*	R 90,000	(R 135,681)	R 90,660
* Note: Surplus/ (deficit)			

Note: Actual grants are also made up of the unspent grant from the previous year's funds released after the adjustment budget. An amount of R 90,660,291 surplus is excluding grant of R 149,070,067.

TABLE 11: Operating Ratios	
Details	%
Employee Cost	22
Repairs and Maintenance	1.3
Finance Charges and Depreciation	11

COMMENT ON OPERATING RATIOS: Actual employee costs are below National Treasury's norm of 30% and repairs and maintenance is far below the norm of 7% and above.

TABLE 12: TOTAL CAPITAL EXPENDITURE 2009/10 – 2011/12			
Detail	2009/10	2010/11	2011/12
Original Budget	R327,343,282	R295,937,266	R411,313,300
Adjustment Budget	R263,002,130	R394,548,007	R351,440,647
Actual	R176,033,494	R111,148,752	R223,563,286

COMMENT ON CAPITAL EXPENDITURE:

There was a big improvement of capital expenditure for 2011/12 compared to 2010/11 i.e. 63.6% and 28.2% respectively against the adjustment budget. But it should be bear in mind that in 2010/11 the municipality was under administration. The business units are encouraged to increase they expenditure pattern mostly on the external grants.

5. ORGANISATIONAL DEVELOPMENT OVERVIEW

ORGANISATIONAL DEVELOPMENT PERFORMANCE

The Human Resources Function of the Msunduzi Municipality consists of two Process Units: Human Resources Management (Personnel; Job Evaluation; Employee Relations; Employment Equity; Skills Development; Organizational Development; Occupational Health and Safety; and HR Management Services) and Human Resources Development (Skills Development and Organizational Development).

In order to acquire skills and the qualifications that will improve the quality of life of employees and the efficiency and effectiveness of the organization, the Msunduzi Municipality, during 2011/2012, provided financial assistance for study to 39 employees, as part of a coordinated career development process, in support of the Skills Development Strategy, IDP & Sector Skills Priorities.

During the 2011/2012 financial year Msunduzi Municipality remained under administration for the 1st half of the financial year in terms of terms of S 139 (b) of the Constitution of South Africa. During the financial year all Section 57/56 posts were vacant or occupied in an acting capacity. In the second half of the financial year 3 Section 56/57 managers were appointed being the Municipal Manager, Deputy Municipal Manager: Finance and Deputy Municipal Manager: Infrastructure Services. In the 11/12 financial year the Municipality continued with disciplinary and criminal processes against various members of staff. Due to the nature & complexity of the allegations these matters are still in the process of being finalised. Confidentiality of these sub judicæ disciplinary matters remains strictly confidential. Two legal advisors have been appointed by Council to expedite the backlogs in the finalization of the sub judicæ disciplinary matters.

The posts of Deputy Municipal Manager: Development Services and Community Services have been advertised. Critical and Funded posts have been prioritised, with 103 posts advertised during 2011/12 and the recruitment and selection process is underway.

A Policy Development specialist was seconded to the Municipality from COGTA to assist with the development and review of 26 Organisational Development related Policies. The Policies are currently being work shopped at the portfolio committee as part of the consultative process preceding approval. During the latter part of 2011/2012 an OD specialist was further seconded to the municipality, from COGTA, to review the current organisational structure and align capacity to improve service delivery. The 3 tier structure was developed and has been tabled for Council approval. Consultation with the Business Units proceeding in June of 2012 extending the review beyond level 3.

6. AUDITOR GENERAL REPORT

The Auditor-General has expressed an unqualified opinion with emphasis matters relating mainly to:

- ✓ Irregular expenditure;
- ✓ Restatement of corresponding figures;
- ✓ Material losses/impairments;
- ✓ Material underspending of budget; and
- ✓ Unaudited supplementary schedules.

Whilst there is no significant improvement on the above matters but there is an improvement of the liquidity ratio and financial sustainability and the existence of an uncertainty that may cast significant doubt on the municipality's ability to operate as a going concern.

The audit report still indicates weaknesses in the supply chain management which result to irregular expenditure amounting to R27,483 million. Great strides have been made in this area by implementing controls and processes of identifying contracts which had been awarded to suppliers in contravention of the Local Government: Municipal Supply Chain Management Regulations (SCM Regulations) in an area that is prone to fraud and corruption. Further efforts are being made to enforce strict control measures that will reduce malpractices. One of the strict control measures is that the municipality is investigating investing into a process that will be used to identify conflict of interest and non-compliance with the SCM Regulations.

The significant increase in losses on electricity which resulted to revenue losses is noted. The municipality is fighting this scourge of theft of electricity and hopefully as resources are increased and new strategies implemented the municipality will reduce the losses.

The losses on water are static, however, strategies to reduce these losses is being implemented and results should be seen in the long term.

Management of debtor's book is receiving close attention as stringent credit control measures will be implemented.

Another challenge is on material underspending on capital budget which impacts negatively on service delivery and is evil and immoral as it deprives the poor communities' of basic services. Extra-ordinary measures have to be implemented in this area to improve service delivery.

If the municipality is to get a clean audit by 2014, more effort from all levels of management as well as support from Council is required to raise the bar.

7. ANNUAL REPORT PROCESS

Msunduzi Municipality Operational Plan for the preparation and adoption of the Annual Report 2011/2012

TABLE 13

No:	Description:	Timeframe:
1.	Data Collection, Preparation and finalization of the annual performance report 2011/2012 (SBU's to supply information.	July 1 – August 15 2012
2.	Preparation and finalization of the annual financial statements / consolidated financial statements 2011/2012	July – August 2012
3.	Submission of the annual financial statements / consolidated financial statements 2011/2012 and the Annual Performance report 2011/2012 to the Auditor General for auditing	On or before the 31 August 2012

5.	Data collection commences for the compilation of a first draft of the annual report – an e-mail with a template attached will be forwarded to respective individuals responsible for required information submissions in order to complete the annual report 2011/2012- Submissions to be received by the end of September 2012.	September 2012
6.	Begin Tender procedure for the Publishing and Printing of the Annual Report 2011/2012 – Specifications to be forwarded to SCM – Await response as to the appointment of the service provider	October 2012
7.	Finalise 1st draft of the Annual report 2011/2012 and forward to the Municipal Manager for comment	1st – 9th of November 2012
8.	Draft completed and forwarded to Auditor General for comments / changes if required	9th – 16th of November 2012
9.	2nd draft of Annual report completed and forwarded to Municipal Manager for comment.	On or before the 30th of November 2012
10.	Engage appointed service provider – produce drafts of the Annual Report 2011-2012	December 2012
11.	Finalised, published and printed annual report by service provider	1st week of January 2013
12.	Annual report table by the Mayor at Full Council	On or before the 31st of January 2013
13.	Tabled annual report 2011/2012 to be made accessible to the public	Within 14 days from the date of tabling the annual report
14.	A copy of the report to be submitted to the MEC for local government in KZN, the Auditor General, Provincial Legislature and National Treasury.	Within 14 days from the date of tabling the annual report
15.	Oversight report on Annual Report 2011/2012 to commence once Annual Report has been tabled at Full Council – Oversight report to be completed within two months of the Tabling of the Annual Report to Full Council.	Start in February 2013 – completed on or before the 30th of March 2013
16.	Oversight report made available to the public within seven days of being tabled in Council	On or before the 6th of April 2013

COMMENT ON THE ANNUAL REPORT PROCESS:

The Municipal Finance Management Act No. 56 of 2003, Chapter 12, prescribes that every municipality must for each financial year prepare an annual report in accordance with this Chapter. The council of a municipality must within nine months after the end of a financial year deal with the annual report of the municipality and of any municipal entity under the municipality's sole or shared control in accordance with section 129.

The purpose of an annual report is –

1. to provide a record of the activities of the municipality or municipal entity during the financial year to which the report relates;
2. to provide a report on performance against the budget of the municipality or municipal entity for the financial year; and
3. to promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity.

The annual report of municipality must include –

1. the annual financial statements of the municipality, and in addition if section 122 (2) applies, consolidated annual financial statements, as submitted to the Auditor-General for audit in terms of section 126 (1);
2. the Auditor-General's audit report in terms of section 126 (3) on those financial statements;
3. the annual performance report of the municipality prepared by the municipality in terms of section 46 of the Municipal Systems Act.

The accounting officer of a municipality must prepare the annual financial statements of the municipality and, within two months after the end of the financial year to which those statements relate, submit those statements to the Auditor-General for auditing and the accounting officer of a municipal entity must prepare the annual financial statements of the entity and, within two months after the end of the financial year to which those statements relate, submit those statements to the parent municipality of the entity and the Auditor-General for auditing. The Auditor-General must audit those financial statements and submit an audit report to the accounting officer of the municipality or entity within three months of the receipt of the statements.

The mayor of a municipality must, within seven months after the end of the a financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control.

The council of a municipality must consider the annual report of the municipality of municipal entity, and by no later than two months from the date on which the annual report was tabled in council, adopt an oversight report containing councils comments on the annual report which must include a statement whether the council-

1. has approved the annual report without reservations;
2. has rejected the annual report; or
3. has referred the annual report back for the revision of those components that can be revised.

In order to give effect to the above legislative requirements, Msunduzi Municipality developed table above in order to ensure the communities of Msunduzi Municipality are able to view the contents of the Annual Report on time; the table serves as a strict guide.

CHAPTER 2 – GOVERNANCE

INTRODUCTION TO GOVERNANCE

Governance at Msunduzi Municipality is made up of Political & Administrative Governance, Inter-governmental Relations, and Public Accountability & Participation along with Corporate Governance. Political & administrative governance is the breakdown of Elected Councillors, the committees they sit on, & the number of meetings they attend. It further looks at the administrative aspect of the municipality in terms of the organisational structure being implemented and a distinction made of the business units and their respective functions. Intergovernmental relations is basically the relationship that the municipality forges with other sector departments in order to carry out day to day activities, like National Treasury, the Auditor General & the provincial Department of CoGTA. Public accountability is the way the Municipality operates with regards to the communities by way of holding community meetings, Izimbizo's and the process of ward committees dealing with issues within the wards. Corporate governance looks at issues of transparency and accountability whereby the municipality outlines its top risks, and also the way in which they run the supply chain management unit. Together these important aspects intertwine and are forged so as to ensure all aspects of the municipality are properly functioning and that communities receive quality services at an affordable price.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political & administrative governance at Msunduzi Municipality comprises of the elected councillors and the respective senior managers and the way they actually work together on a day-to-day basis in order to achieve organisational goals.

2.1. POLITICAL GOVERNANCE

INTRODUCTION TO POLITICAL GOVERNANCE

Msunduzi municipality has several portfolio committees of which the Full Council, Executive Committee, Municipal Public Accounts Committee and the Oversight Committee form part of. Msunduzi Municipality has an Audit Committee attached to the municipality that provides opinions and recommendations on financial processes and performance and provides comments to the Oversight Committee on the Annual Report. The municipality has established an Oversight Committee, comprised of non-executive councillors, and community representatives with the specific purpose of providing Council with comments and recommendations on the Annual Report.

COUNCILLORS

Councillors are elected by the local registered voters to serve a predetermined term of office on the local council as representatives of their respective constituents. The Msunduzi Municipal Council has a total of 73 seats. Thirty seven (37) of these seats are allocated to ward councillors who are elected by the wards they represent. The other 36 seats are allocated to political parties in proportion to the number of votes cast for them.

COMMITTEES BY NAME & PURPOSE

The following table reflects the different committees of Council and their respective purposes.

TABLE 16: The Executive Committee

Reviews the performance of the municipality in order to improve:

- the economy, efficiency and effectiveness of the municipality;
- the efficiency of credit control and revenue and debt collection services;
- the implementation of the municipality's by-laws; and
- Monitors the management of the municipality's administration in accordance with the policy directions of the municipal council (output monitoring);
- Oversees the provision of services to communities in the municipality in a sustainable manner;
- Annually reports on the involvement of communities and community organisations in the affairs of the municipality;
- Considers recommendations on the alignment of the IDP and the budget received from the relevant councillors;
- Ensures that regard is given to public views and reports on the effect of consultation on the decisions of the council;
- Makes recommendations to council regarding:-
- the adoption of the estimates of revenue and expenditure, as well as capital budgets and the imposition of rates and other taxes, levies and duties;
- the passing of by-laws; and
- the raising of loans.
- approval or amendment of the IDP
- appointment and conditions of service of Municipal Manager and heads of departments
- Deals with any other matters referred to it by the council and submits a recommendation thereon for consideration by the council;
- Attends to and deals with all matters delegated to it by council in terms of the Systems Act;
- Appoints a chairperson/s from the members of the Executive Committee, for any committee established by council in terms of section 80 of the Structures Act to assist the Executive Committee;
- Delegates any powers and duties of the Executive Committee to any Section 80 committee;
- Varies or revokes any decisions taken by a section 80 committee, subject to vested rights;
- Develops strategies, programmes and services to address priority needs of the municipality through the IDP and estimates of revenue and expenditure, taking into account any applicable national and provincial plans and submits a report to, and recommendations thereon, to the council;
- Subject to applicable legislation, recommends or determines the best methods, including partnerships and other approaches to deliver services, programmes and projects to the maximum benefit of the community;
- Identifies and develops criteria in terms of which progress in the implementation of services, programmes and objectives to address the priority needs of the municipality can be evaluated, which includes key performance indicators which are specific to the municipality and common to local government in general;
- Manages the development of the performance management system, assigns responsibilities in this regard to the municipal manager and submits the proposed performance management system to council for consideration;
- Monitors progress against the said key performance indicators;
- Receives and considers reports from committees in accordance with the directives as stipulated by the Executive Committee;
- Elects a chairperson to preside at meetings if both the mayor and deputy mayor are absent from a meeting in the event of there being a quorum present at such a meeting, if the Mayor failed to designate a member of exco in writing to act as Mayor;

TABLE 16: The Executive Committee Continued

- Considers appeals from a person whose rights are affected by a decision of the municipal manager in terms of delegated powers, provided that the decision reached by this committee may not retract any rights that may have accrued as a result of the original decision.
- Reports, in writing, to the municipal council on all decisions taken by Exco at the next ordinary council meeting

Other functions of the Executive Committee

- Recommends to council after consultation with the relevant Portfolio Committee, policies where council had reserved the power to make policies itself;
- Recommends after consultation with the relevant Sect 79 Committee, rules of order of council meetings and approves rules of order for meetings of itself and any other committee;
- Makes recommendations to council on proposed political structures of council;
- Makes recommendations to council in respect of council's legislative powers; and
- Determines strategic approaches, guidelines and growth parameters for the draft budget including tariff structures;

TABLE 17: The Finance Committee

Budget and Treasury Management

Budget and Tariffs

- Ensure the time schedule outlining key deadlines for budget process as prescribed in Section 21 (b) of the MFMA is considered and recommended to the Executive Committee and Full Council.
- Oversee the preparation of the Annual Budget and make recommendations to the Executive Committee.
- Consider the Annual Budget's compliance with the MFMA and alignment with the IDP and make recommendations to the Executive Committee.
- Evaluate the competency of financial services officials dealing with the budget in all units, take necessary steps to ensure compliance and competency levels and report to the Management Committee and if necessary the Executive Committee.
- Ensure the staffing capacity of the Budget Office is maintained at optimal levels and review the organisational structure of the unit to ensure effective management and control and make recommendations thereon to the Management Committee and if necessary the Executive Committee.
- Consider the Budget Policy and Procedures and make recommendations to the Executive Committee.
- Consider the monthly budget reports and statements and make recommendations to the Executive Committee.
- Consider the Mid-Year Budget and the Adjustments Budget and make recommendations to the Executive Committee.

Annual Financial Statements

- Timely preparation and legislative compliance of the Annual Financial Statements for Council and Municipal Entities.
- Timeous submission of the Annual Financial Statements to the Auditor-General.
- Evaluate the capacity and effectiveness of the unit and report to the Management Committee and if necessary the Executive Committee.

Supply Chain Management

- Review the Supply Chain Management Policy and make recommendations to the Executive Committee.
- Consider the Supply Chain Management budget and make recommendations to the Executive Committee.

TABLE 17: The Finance Committee continued

- Budget implementation.
- Document management and filing systems.
- Evaluate the skill and competency of the unit and ensure relevant competency levels and report to the Management Committee.

Tenders

- Legislative compliance in respect of tender procedures from advertisement to award stage.
- Implementation of the Supply Chain Management Policy in the tender process.
- Maintenance of Bid Registers and the publication thereof on the Municipal website and noticeboards.
- Budgetary provision for all tenders prior to advertisement.
- Role of the Legal Advisers in the tender opening process.
- Record keeping in respect of tenders.

Quotations

- Legislative compliance in respect of quotations, order notes and acceptance letters.
- Implementation of the Supply Chain Management Policy in respect of the quotation procedure.
- Budgetary provision for all goods/services procured by the quotation process.
- Record keeping in respect of quotations.

Creditor's Database

- Monitoring that the Creditor's Database is being updated and correctly utilised.

Expenditure Management

- Expenditure controls and procedures.
- Evaluate the skill and competency of staff and report to the Management Committee and if necessary the Executive Committee.
- Legislative compliance and statutory commitments.
- Monthly reconciliations.

Contracts Management

- Policies and procedures for management of contracts.
- System of delegation to ensure contract performance.
- Consider regular reports on the management of contracts and performance of the contractors and report to the Management Committee and if necessary the Executive Committee.
- Legislative compliance of any contract variations.

Payments

- Controls for payment of creditors.
- Trade Creditors Proof List.
- Implementation of controls and legislative requirements.

Remuneration

- Controls for payment of staff salaries, wages, allowances and benefits.
- Implementation of controls and legislative requirements.

Inventory Management

- Consider the Stores budget and make recommendations to the Executive Committee.

TABLE 17: The Finance Committee continued

- Implementation of the budget.
- Implementation of inventory management and control measures.
- Evaluate the capacity and competency of the unit and ensure relevant competency levels and report to the Management Committee and if necessary the Executive Committee.

Revenue Management

- Review all policies in respect of Revenue Management and make recommendations to the Executive Committee.
- Implementation of the policies.
- Evaluate the capacity and competence of the unit and report to the Management Committee and if necessary the Executive Committee.

Billing

- Billing systems, meter reading performance and customer care.

Rates

- Collection levels of rates income.

Credit Control

- Evaluate the effectiveness of mechanisms, processes and procedures for credit control and report to the Management Committee and if necessary the Executive Committee.
- Implementation of procedures for Credit Control

FINANCIAL CONTROL AND CASH MANAGEMENT

- Evaluate the effectiveness of financial controls and systems and report to the Management Committee.
- Evaluate the capacity and competency of the unit and report to the Management Committee and if necessary the Executive Committee.

Cash Management

- Implementation of systems controls and management of cash.
- Cash-backed funding levels.

Financial Systems Management

- Evaluate financial systems and management thereof and report to the Management Committee.
- Implementation of financial systems management, control measures and legislative compliance.
- Consider monthly reports and make recommendations to the Executive Committee.

Reconciliations

- Reconciliations and legislative compliance.

Bylaws

- Consider bylaw reviews submitted by Legal Unit in respect of matters within the committee's terms of reference and make recommendations thereon to the Executive Committee.
- Consideration of bylaws within the committee's terms of reference for adoption and publication.

TABLE 18: The Economic Development Committee

- All matters requiring the attention of the committee and arising under the provisions of the relevant legislation, including any legislation by which such legislation is amended or repealed:
- Alienation and acquisition of immovable property and other transactions in respect of such immovable property:
- Management, maintenance and control of corporate land assets:
- Property Valuations and administration:
- Leases"
- Housing, both formal and informal, as delegated to the Msunduzi Municipal Council by law:
- Land Audit and identification of land for commercial, housing, recreational, religious and or for any other purpose:
- All matters in respect of building plans, sub-divisional plans and private township layouts:
- Matters dealing with Land Survey, Development Management and Forward Planning:
- Compliance with Acts and applicable Bylaws governing licensing procedures, eg Business, signage, dogs, etc and those sections of the Informal Trade policy which affect licensing:
- Commercial and industrial development within the Msunduzi Municipal area:
- Tourism in line with the Integrated Development Plan:
- Entrepreneurial development:
- Investment attraction, retention and expansion:
- All matters and initiatives pertaining to Black Economic Empowerment/Enhancement:
- Business incentives:
- Matters pertaining to the Municipal Economic Assets (Airport, Fresh Produce Market and Forestry):
- Matters related to Environmental Management and Environmental Impact Assessment:
- Control and maintenance of unalienated town lands (ie bird and wildlife sanctuaries and nature areas), including timbered areas other than plantations under the control of the Forestry Board:
- All matters relating to the Greater Edendale Development Initiative:
- The review of those By-laws, regulations, rules and the like, and tariffs which regulate and arise out of matters within the terms of reference of this committee and the proposal of amendments and additions thereto and recommend to the Executive Committee.
- Consideration of business plans for the Economic Development Services Business Unit and the monitoring of the business unit's performance in relation to the objectives set out in its business plans.

TABLE 19: The Corporate Services Committee

INTERNAL AUDIT AND COMPLIANCE

Monitor Budget expenditure and implementation of Internal Audit Programme.

COUNCIL AND COMMITTEE SUPPORT TO POLITICAL OFFICES

- Mechanisms for community consultation.
- Consider motivations and budget for community consultation projects, for recommendation to the Executive Committee.
- Administrative systems and policies within the political offices.
- Budget implementation and expenditure.
- Receive reports from Ward Committees for recommendation to relevant structures.
- Secretariat services.

LEGAL SERVICES AND LEGISLATIVE COMPLIANCE

Corporate and Legal

- Consider legal and arbitration matters, institution of proceedings etc and recommend to the Executive Committee where necessary.
- New or amended legislation and policies.

TABLE 19: The Corporate Services Committee continued

- Legislative compliance of existing policies.
- Where necessary recommend amendments to policies to the Executive Committee.
- Service Level Agreements.
- Legal budget implementation and expenditure.

Bylaws

- Consider bylaw reviews submitted by Legal Unit in respect of matters within the committee's terms of reference and make recommendations thereon to the Executive Committee.
- Consideration of bylaws within the committee's terms of reference for adoption and publication.

Delegations Management

- Annually review delegations to political structures and administration and make recommendations thereon to the Executive Committee or the Management Committee.

Policies, Processes and Procedures

- Review of Rules and Procedures of Council and its Committees for recommendation to the Executive Committee.

HUMAN RESOURCES MANAGEMENT

Performance Management

- Annual monitoring and review of Performance Management System and recommendations thereon to the Executive Committee.
- Annual Performance Report.

Labour Relations

- Consultation with Local Labour Forum.
- Where necessary make recommendations on Labour Relations/Bargaining Council matters to the Executive Committee.

Recruitment and Selection

- Annual review of Human Resource policies and processes in respect of recruitment and selection and where necessary make recommendations to the Executive Committee thereon.
- Legislative compliance.

Occupational Health

- Implementation of Occupational Health and Safety Act.
- Management training in respect of Occupational Health and Safety Act.

Job Evaluation

- Monitor job evaluation and grading system.

Training and Development

- Policies and procedures for training and skills development.
- Budget implementation and expenditure.
- Work Skills Plan.

Employee Relations

- Annual review of Human Resource policies in respect of Overtime, Telephone/Cellphone usage, Locomotion Allowance, Subsistence and Travel, Leave and Sick 2. Leave, etc. and make recommendations thereon to the Executive Committee.

TABLE 19: The Corporate Services Committee continued

- Implementation of Human Resource Policies.
- Internal disciplinary and grievance procedures.
- Corporate Communications.
- Human resource expenditure and budget implementation.

INFORMATION MANAGEMENT

Management Information Systems

- Annual review of ICT policies for recommendation to the Executive Committee where necessary.
- Consideration of ICT budget for recommendation to the Executive Committee.
- Council website.

Information Centre

- Document and information keeping systems.
- Access to Information policies and procedures.

Printing

- Printing Unit budget and operations.

Information Systems Technical Support

- Council's Information Systems and Technical Support.
- Corporate Information and Communication Technology Assets.
- Consideration of ICT Budget for recommendation to the Executive Committee.
- Annual review of ICT policies for recommendation to the Executive Committee where necessary.

TABLE 20: The Community Services Committee

REGIONAL COMMUNITY SERVICES PROVISION MANAGEMENT

Airport

- Co-ordinate discussions/negotiations with the Provincial Government, District Council, Pietermaritzburg Business Chamber and Airport Management with respect to the future management and maintenance of the Airport in terms of the Municipal Structures Act.
- Consider the budget for the Airport and make recommendations to the Executive Committee.
- Budget expenditure and project implementation.
- Management contract and implementation.
- Other revenue avenues.
- Review the Airport tariffs annually and make recommendations to the Executive Committee.

Health Services and Clinics

- Co-ordinate discussions/negotiations with the Provincial Government and District Council with respect to the future provision and management of Health Services in terms of the Municipal Structures Act.
- Consider the budget for Health and Clinic Services and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness and financial viability of the Clinic Services and report to the Management Committee and if necessary the Executive Committee.

Libraries

- Consider the budget for Libraries and make recommendations to the Executive Committee.
- Budget expenditure.

TABLE 20: The Community Services Committee Continued

- Evaluate the effectiveness and financial viability of Library Services and report to the Management Committee and if necessary the Executive Committee.
- Service Level Agreements.

Cemeteries and Crematoria

- Co-ordinate discussions/negotiations with the Provincial Government and District Council with respect to the future establishment, management and maintenance of cemeteries and crematoria.
- Consider the budget for cemeteries and crematoria and make recommendations to the Executive Committee.
- Budget implementation.
- Review the tariffs in respect of cemeteries and crematoria annually and make recommendations to the Executive Committee.
- Evaluate the effectiveness and financial viability of the management and maintenance of the cemeteries and crematoria and report to the Management Committee and if necessary the Executive Committee.

Environmental Health

- Co-ordinate discussions/negotiations with the Provincial Government and District Council with respect to the future management of Environmental Health Services.
- Consider the budget for Environmental Health Services and make recommendations to the Executive Committee.
- Budget expenditure.
- Review the tariffs and fines in respect of the implementation/enforcement of the Environmental Health legislation and make recommendations to the Executive Committee.
- Evaluate the effectiveness and financial viability of the Environmental Health Services and report to the Management Committee and if necessary the Executive Committee.

COMMUNITY SERVICES PROVISION MANAGEMENT

Parks, Conservation and Environment

- Consider budget for Parks and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of management and maintenance of Parks and report to the Management Committee and if necessary the Executive Committee.

Sport and Recreation

- Consider budget for Sport and Recreation and make recommendations to the Executive Committee.
- Budget expenditure.
- Review tariffs for sport and recreation facilities annually and make recommendations to the Executive Committee.
- Evaluate the effectiveness of management, maintenance and usage of sport and recreation facilities and report to the Management Committee and if necessary the Executive Committee.

Market

- Consider budget for the Market and make recommendations to the Executive Committee.
- Budget expenditure
- Review the tariffs for the Market annually and make recommendations to the Executive Committee.
- Evaluate the effectiveness of management and the financial viability of the operations of the Market and make recommendations to the Management Committee and if necessary the Executive Committee.

TABLE 20: The Community Services Committee continued

Forestry

- Review the Service Level Agreement with NCT and evaluate the effectiveness and financial viability of the forestry activities undertaken on behalf of the Municipality, consider implementation of Section 78 process and make recommendations to the Executive Committee.
- Consider the budget for NCT Forestry activities and make recommendations to the Executive Committee.
- Budget expenditure and Service Level Agreement.

Municipal Public Works

- Consider the maintenance budget for immovable municipal assets and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of the asset maintenance plans/programmes and make recommendations to the Management Committee and if necessary the Executive Committee.

Tatham Art Gallery

- Consider budget for the Tatham Art Gallery and make recommendations to the Executive Committee.
- Budget expenditure.

PUBLIC SAFETY AND DISASTER MANAGEMENT

Traffic Services

- Consider the budget for Traffic Services and make recommendations to the Executive Committee.
- Budget expenditure.
- Review the fines structure, processes and procedures and report to the Executive Committee.
- Evaluate the effectiveness of the management and enforcement of traffic legislation and report to the Management Committee and if necessary the Executive Committee.

Licensing

- Consider the budget for Licensing and make recommendations to the Executive Committee.
- Budget expenditure.
- Review the bylaws governing Licensing procedures and the Informal Trade Policy and make recommendations to the Executive Committee.
- Evaluate the effectiveness and capacity of the Licensing Unit and the revenue collection arising from this function and report to the Management Committee and if necessary the Executive Committee.

Public Safety and Security

- Consider the budget for Public Safety and Security and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness and capacity of the Public Safety and Security unit, especially in respect of providing safety and security within public areas; the monitoring and control of Informal Traders and illegal activities; and the relationships with the South African Police Force, Safe City and relevant business units and report to the Management Committee and if necessary the Executive Committee.
- Safe City.

TABLE 20: The Community Services Committee continued

Fire and Rescue Services

- Consider the budget for Fire and Rescue Services and make recommendations to the Executive Committee.
- Budget expenditure.
- Shift system and overtime practices.
- Evaluate the effectiveness, capacity and legislative compliance of the Fire and Rescue Services and report to the Management Committee and if necessary the Executive Committee.

Disaster Management

- Consider the budget for Disaster Management and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness, capacity and compliance of Disaster Management and report to the Management Committee and if necessary the Executive Committee.

TABLE 21: The Municipal Public Accounts Committee

- MPAC may review and examine the following documents:
 - (a) Audit Reports on annual financial statements of the Municipality;
 - (b) Any reports issued by the Auditor-General on the affairs of the Municipality;
 - (c) The annual reports of the Municipality;
 - (d) The mayor's quarterly reports on the implementation of the budget and the financial state of affairs of the municipality;
 - (e) Any other financial statements or reports referred to MPAC by the Council;
 - (f) Any information relating to personnel; books of account, records, assets and liabilities of the Council; and
 - (g) Relevant information that may be required for the purpose of fulfilling its mandate.
- MPAC may summon any councillor or municipal official to assist it in the execution of its duties.
- MPAC may report on or make recommendations in relation to any of the reports or financial statements which it may examine.
- In its examination (mentioned in clause 2) MPAC must take into account previous statements and report and consider the degree to which previously identified shortcomings have been rectified. The Committee must report to Council on its findings.
- MPAC shall initiate and develop the Annual Oversight Report on the Municipality's Annual report.
- MPAC may initiate, direct and supervise investigations into any matter falling within its terms of reference including projects requested by EXCO and Council.
- MPAC may consider any recommendations made by the Audit Committee, portfolio committee or any other committee referred to it, and render an opinion on such recommendations.
- MPAC may request or invite members of the public to attend any meeting of the Committee i.t.o. s16 (1) of the Systems Act, 2000, to assist it with the performance of its functions.

TABLE 22: The Infrastructure Services Committee

Municipal infrastructure planning, funding, maintenance and development management

Municipal Infrastructure Grants

- Consider budget and project applications for Municipal Infrastructure Grants and make recommendations to the Executive Committee.
- Budget expenditure and project implementation.
- Evaluate the effectiveness and capacity of the unit and report to the Executive Committee.
- Evaluate the alignment of the Integrated Development Plan and the Municipal Infrastructure Grant projects with community needs and report to the Management Committee and if necessary the Executive Committee.

TABLE 22: The Infrastructure Services Committee continued

Municipal Infrastructure Planning

- Consider the Municipal Infrastructure Plans and budget and make recommendations to the Executive Committee.
- Budget expenditure and project/plans implementation.
- Evaluate the alignment of the Integrated Development Plan and the Infrastructure Plans with the community needs and report to the Management Committee and if necessary the Executive Committee.

Fleet Management

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of management and the capacity of the unit and report to the Management Committee and if necessary the Executive Committee.
- Review implementation of the Fleet Management System, the Section 78 process and the vehicle policy and report to the Executive Committee.

Mechanical Workshops

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the capacity and effectiveness of the unit and report to the Management Committee and if necessary the Executive Committee.
- Skills development programme.

Asset Management and Maintenance

- Consider infrastructure maintenance plans and budget and make recommendations to the Executive Committee.
- Budget expenditure and maintenance plans implementation.
- Evaluate the effectiveness of maintenance plans and the capacity of the units for implementation and report to the Management Committee and if necessary the Executive Committee.
- Assess the state of assets and the asset register and report to the Executive Committee

ELECTRICITY DISTRIBUTION MANAGEMENT

Administration

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of management, the capacity of the unit and the legal compliance of the Administration unit and report to the Management Committee and if necessary the Executive Committee.
- Review tariff policies and report to the Executive Committee.
- Tariff policies, Demand Management System, connections and disconnections, overtime, customer services etc.

HOUSING AND HUMAN SETTLEMENT DEVELOPMENT MANAGEMENT

Housing

- Consider the budget and housing projects and make recommendations to the Executive Committee.
- Budget expenditure.
- Review all housing policies, rental policies, informal settlement policies and make recommendations to the Executive Committee.

TABLE 22: The Infrastructure Services Committee continued

- Rental agreements.
- Evaluate the effectiveness and capacity of the unit, including allegations of fraud and corruption, and report to the Management Committee and if necessary the Executive Committee.

Town Planning

- Consider budget and make recommendations to the Executive Committee.
- Monitor budget expenditure.
- Approved applications.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Valuations and Real Estate

- Consider the budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.
- Business rental, land sale and land purchase agreements.

Maintenance

- Consider the budget and maintenance plans and make recommendations to the Executive Committee.
- Budget expenditure and plans implementation.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Planning

- Consider budget and planning programmes and make recommendations to the Executive Committee.
- Budget expenditure and programme implementation.
- Evaluate effectiveness, capacity and legal compliance of unit and report to the Management Committee and if necessary the Executive Committee.

Networks

- Consider budget and refurbishment programmes and make recommendations to the Executive Committee.
- Budget expenditure and refurbishment programmes.
- Evaluate effectiveness, capacity and compliance of the unit and report to the Management Committee and if necessary the Executive Committee.

Connections

- Consider budget and programmes/projects and make recommendations to the Executive Committee.
- Budget expenditure and project implementation.
- Evaluate the effectiveness, capacity and compliance of the unit and report to the Management Committee and if necessary the Executive Committee.

TABLE 22: The Infrastructure Services Committee continued

WATER DISTRIBUTION AND SANITATION MANAGEMENT

Administration

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of management, capacity and compliance of the unit and report to the Management Committee and if necessary the Executive Committee.
- Review tariff structures and policies and make recommendations to the Executive Committee.
- Policies, water restrictions and audit meters, free basic water etc.

Maintenance

- Consider the budget and maintenance plans and make recommendations to the Executive Committee.
- Budget expenditure and maintenance plans.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Planning

- Consider the budget and planning programmes and make recommendations to the Executive Committee.
- Budget expenditure and programmes.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Networks

- Consider the budget and refurbishment programmes/projects and make recommendations to the Executive Committee.
- Budget expenditure and programmes/projects.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Connections

- Consider the budget and projects and make recommendations to the Executive Committee.
- Budget expenditure and programmes.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.
- Illegal connections.

Sanitation

- Consider the budget and projects and make recommendations to the Executive Committee.
- Budget expenditure and projects.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

WASTE MANAGEMENT

Waste Removal

- Consider the budget and make recommendations to the Executive Committee.
- Budget expenditure and management.
- Evaluate the effectiveness of management and the capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Refuse Collection

- Consider the budget and make recommendations to the Executive Committee.
- Budget expenditure and management.
- Evaluate the effectiveness of management and the capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

Landfill Site

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness, capacity and legal compliance of the unit and report to the Management Committee and if necessary the Executive Committee.
- Consider recommendations of the Landfill Site Monitoring Committee for further recommendation to the Executive Committee if necessary.

ROADS AND STORMWATER

Administration

- Consider budget and make recommendations to the Executive Committee.
- Budget expenditure.
- Evaluate the effectiveness of management, capacity and compliance of the unit and report to the Management Committee and if necessary the Executive Committee.

Maintenance

- Consider the budget and maintenance plans and make recommendations to the Executive Committee.
- Budget expenditure and maintenance plans.
- Evaluate the effectiveness, capacity and legal compliance of the unit and report to the Management Committee and if necessary the Executive Committee.

Planning

- Consider the budget and planning programmes and make recommendations to the Executive Committee.
- Budget expenditure and programmes.
- Evaluate the effectiveness and capacity of the unit and report to the Management Committee and if necessary the Executive Committee.

POLITICAL DECISION-TAKING

The Rules and Procedures of Council and its Committees provide as follows for the decision-making process of the Council:

“Decisions

- 1) All matters concerning the following shall be determined by a decision taken by the Council with a supporting vote of a majority of the Council:-
 - (a) the passing of by-laws;
 - (b) the approval of budgets;
 - (c) the imposition of rates and taxes, levies and duties; and
 - (d) the raising of loans.
- (2) All other questions before the Council shall be decided by a majority of the votes cast.
- (3) If on any question there is an equality of votes, the Councillor presiding (the Speaker) shall exercise a casting vote in addition to that Councillor's vote as a Councillor.
- (4) Before the council takes a decision on any of the following matters it shall first require the Executive Committee to submit to it a report and recommendation on the matter:-
 - (a) the passing of by-laws;
 - (b) the approval of budgets;
 - (c) the imposition of rates;
 - (d) the raising of loans;
 - (e) the approval of an integrated development plan for the Municipality and any amendment to that plan;
 - (f) the appointment and conditions of service of the Municipal Manager and a head of department of the Council.”

TABLE 23: TYPE AND NUMBER OF COMMITTEE MEETINGS

Community Services	10
Development Services	21
Oversight Committee	21

Note: Minutes of all meetings as well as attendance registers can be obtained from Msunduzi municipality's secretariat unit or the information center.

2.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

The municipal manager is the head of the municipal administration. Subject to the policy directions of the municipal council, the municipal manager is responsible and accountable for the formation and development of an economical, effective, efficient and accountable administration. The municipal manager must make sure the administration is equipped to implement the municipality's integrated development plan, that it operates in accordance with the municipality's performance management system, and that it is responsive to the needs of the local community.

The roles and responsibilities of the Municipal Manager are comprehensively set out in Section 55 of the Municipal Systems Act and responsibilities of the Municipal Manager as Accounting Officer is set out in Chapter 8 of the Municipal Finance Management Act, 56 of 2003.

The Municipal Manager's office has assumed direct responsibility for Communications and Corporate Strategy as well as the drafting, management and implementation of Council's Integrated Development Plan (IDP). The Internal Audit unit is also located in the Municipal Manager's office and ensures compliance with municipal legislation.

In addition the five Business Units that mirror the committee portfolios also report to the Municipal Manager. These Business Units, each headed by a Deputy Municipal Manager, ensure that services are delivered to the people of the Msunduzi Municipality. They are:

- Infrastructure services;
- Community services;
- Economic Development;
- Financial Services; and
- Corporate services.

The municipal manager and his team of executive managers hold weekly meetings to discuss key strategic service deliverables, and to offer guidance on achieving IDP goals. The administrative component is aligned with the five National Key Performance Areas; *Financial Viability and management, Local economic Development, Basic service delivery and Infrastructure development, Good Governance and Public Participation, Institutional Development and Transformation, Environmental Planning and Social Services*

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

The implementation of Section 139(1)(b) of the Constitution continued for the first half of the 2011/2012 financial year. Throughout this process, the municipality received full support from the Office of the MEC for Cooperative Governance and Traditional Affairs. Substantial support in the development of a financial recovery plan has also been obtained from National Treasury. The provincial Treasury has also assisted in terms of developing both the strategic and operational risk registers of the municipality.

Whilst the Municipal Infrastructure Grant (MIG) was the primary source of funding for capital projects related to infrastructure development and basic services, the following basic services are delivered to the community using mechanisms of intergovernmental relations with National/ Provincial Departments and/ or parastatals:

Water & Sanitation - Department of Water Affairs and Umgeni Water;

Housing - Department of Human Settlements;

Electricity - Department of Minerals & Energy and Eskom

Various other grants, such as the Neighbour Partnership Development Grant, have been received for the implementation of projects. All information related to grants received is disclosed as required in the Annual Financial Statements.

2.3 INTERGOVERNMENTAL RELATIONS

NATIONAL INTERGOVERNMENTAL STRUCTURE

The municipality remains a member of the South African Cities Network (SACN). Unfortunately, due to the financial constraints of the organization, there was a minimal level of participation in the various knowledge-sharing forums organized by the SACN.

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The municipality has received support for the implementation of Organizational Performance Management from the Provincial Department of Cooperative Governance and Traditional Affairs. The Municipal Manager participates in the MUNIMEC and Technical MUNIMEC forums.

RELATIONSHIPS WITH MUNICIPAL ENTITIES

The municipality has one municipal entity called Safe City. Safe City is dedicated to making the City of Pietermaritzburg a better place in which to live, work and play. The project has a number of elements, including:

1. The monitoring of crime through 70 CCTV cameras in the City;
2. An SMS programme which encourages citizens to report suspicious behaviour and activities;
3. c-SAFE, a panic alert system accessible from your cell phone.

DISTRICT INTERGOVERNMENTAL STRUCTURES

At a District level, the municipality has participated in the District Municipal and Technical Forum which is chaired by the District Mayor, Councillor Yusuf Bhamjee. In addition, the municipality has partnered with the District on issues related to waste management.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

During the 2011/ 2012 financial year, the municipality had 37 functional ward committees which serve as a conduit between the municipality and the committee. In addition, a draft public participation policy and guideline was developed.

In addition to ward committees, the Service Delivery and Budget Implementation Plan (SDBIP) is made public and published on the municipal website. This contains projected financial and service delivery Indicators and deliverables. Members of the public are also invited to participate in the Oversight process related to the Annual Report.

In the promotion of public accountability and participation members of the public are invited to attend all meetings of the Council and its committees.

Another mechanism of public participation is conducted through Mayoral Budget and Integrated Development Plan (IDP) izimbizo. These are held prior to developing the draft budget in order to provide feedback to the community the implementation of projects in the current financial year and to illicit the needs of the community in order to provide input for the new financial year. A second imbizo is held once the draft budget has been developed in order to inform the public of key elements in the proposed budget and illicit responses thereto.

Section 2.4 below provides an outline of further mechanisms which the municipality utilizes as a mean of public participation.

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

The Msunduzi Municipality has adopted a Communication Strategy during the course of 2011/12 financial year and the Public Participation Policy is going through various committees for consultation and finally approval by Full Council.

The policy categorized the stakeholders as follows:

- **Internal Stakeholders:**
 - **Public Sector Stakeholders:**
Provincial and National Departments, District, Metro and local Municipalities, Councilors, Executive and Portfolio Committees, Ward Committees, Parastatals eg Eskom, Telkom, Traditional Leaders.
 - **Public Sector Forums:**
Police Forums, IDP Forums, Local Implementation Forums.
- **External Stakeholders**
 - **Business and Labour Stakeholders:**
Organized Business (Chamber Of Business and Industry) and Labour Formations, Service Providers
 - **Civil Society Organizations:**
NGOs, CBOs, Faith Based Organisations, Youth Organisations; Lobby Groups - (Environmentalist Groups), Unorganized Groupings – (the poor and other Vulnerable Groups), Special Interest or Pressure Groups, Sports Organizations, Self Help Organizations (SHO), Civic or Resident Associations, Citizens etc.

The IDP Representative Forum becomes a very central forum to finalize the prioritization process, it is also envisaged that the Budget and PMS stakeholders engagement structures as reflected in the IDP Guides, must be the same or integrated structures.

Every year around the end of August, Msunduzi Municipality finalize a Process Plan which is approved by Full Council, once approved a public notice is posted to our website and various newspapers inviting members of public as well as various stakeholders to make submissions with regards to developmental priority needs. The very same Process Plan is posted to the Msunduzi website where different activities and milestones are reflected in terms of the IDP review and PMS and Budget implementation and monitoring.

The Msunduzi Municipality has a structured program of public participation. This program is articulated in the Process Plan and forms the basis for citizenry engagement framework.

The public participation is an on-going engagement process, and the following are forms of citizenry participation that are utilized by the Municipality to ensure the citizen and stakeholders voice are accommodated in the planning, execution and review of the IDP, Budget and PMS processes:

- Ward Committee Monthly Meetings
- Stakeholders Quarterly Meeting (Reporting on PMS Progress/SDBIP and IDP)
- Monthly Community Meetings by Councilors (due to financial constraints are held once in two months /6 meetings per annum per ward)
- Project Based Meetings
- Sector Plan Based Engagements
- Executive committee – Public Gallery
- Full Council Meeting – Public Gallery
- Integrated Development Planning Meetings:
- Izimbizo: Public Meetings for Budget, IDP etc
- Municipal Property Rates Act (MPRA)
- Service Standard or Charter
- Community Based Planning
- Complaints Register: Customer Care and Batho Pele Engagements
- SukumaSakhe – Premier's Flagship Tool for Accelerated Service Delivery at a Ward Base Level
- Attendance to invitations by Interest groups
- Partnerships and MOUs: MIDI, etc

Some of the above various forms of public participation engagements are conducted throughout the year specifically at an operational level and then some of them are organized on a fortnightly, monthly, and quarterly and annually as reflected in our Process Plan.

WARD COMMITTEES

Section 74 of the Municipal Structures Act, and regulation 5 of the Government Gazette No. 27699 Ward Committee, state that Ward Committees may have powers and functions delegated to them (which are essentially advisory in nature) in terms of S59 of the Municipal Systems Act, these are:

- 1) To serve as an official specialized participatory structure in the Msunduzi Municipality.
- 2) To create formal unbiased communication channels as well as a co-operative partnership between the community and the Council.
- 3) Advise and make recommendations to the Ward Councillor on matters of policy affecting the Ward.
- 4) Assisting the Ward Councillors in identifying the challenges and needs of residents.

- 5) Dissemination of information in the Ward concerning municipal affairs such as the budget, integrated development planning, performance management systems, service delivery options and municipal properties.
- 6) Receive queries and complaints from residents concerning municipal service delivery, communication with Council and provide feedback to the community on Council's response.
- 7) Ensure constructive and harmonious interaction between the municipality and community through the use and co-ordination of ward residents meetings and other community development forums,
- 8) and Interact with other organizations and forums on matters affecting the ward.

A ward committee may also make recommendations on any matter affecting its ward to the ward councillor or through the ward councillor to the local council.

PUBLIC MEETINGS

In total 339 ward committee meetings were held and 210 community meetings were held, broken down as follows:

COMMUNITY MEETINGS

COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:

The Municipality and Communities alike benefited from the meetings mentioned above as through the consultative processes, brainstorming occurred and ward committees imparted their advice to the Councillor who in turn did so to council. Council then took these recommendations forward by using certain aspects in terms of the Municipal Turn Around Strategy. Requests are being dealt with in a systematic manner with council having taken a decision to open a fully fledged call centre to take calls from community members where there are issues of service delivery.

2.5 IDP PARTICIPATION AND ALIGNMENT

TABLE 26: IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
*Section 26 Municipal Systems Act 2000	

COMPONENT D: CORPORATE GOVERNANCE

OVERVIEW OF CORPORATE GOVERNANCE

Corporate Governance at Msunduzi Municipality entails Risk Management, Anti-Corruption and Fraud and Supply Chain Management which is unpacked below.

2.6 RISK MANAGEMENT

RISK MANAGEMENT

The Accounting Officer and Council are required by the Municipal Finance Management Act, Act 53 of 2003 to establish and maintain appropriate risk management systems. Risk Management Practices requires the Accounting Officer and Council to manage the strategic and operational risks of the municipality. The risk management system must provide for mitigating strategies and control activities against the risks within the municipality from unacceptable likelihood and impact.

It is expected that a municipality's risk management system identifies strategic and operational risks and assign responsibility to appropriate officials within the municipality. The Audit Committee's role in relation to risk is to support the Accounting Officer and Council.

The municipality has appointed the Deputy Municipal Managers as Risk Management Committee under the chairperson of the Chief Financial Officer. The terms of reference for the Risk Management Committee are embedded in the Risk Management Policy which has been reviewed and restructured and has been adopted by Council.

Risk assessment is done on annual basis and as we embark on new initiatives and programmes any emerging risks that could have a negative impact on the municipality's ability to achieve its strategic objectives.

The Council is ultimately responsible for risk management supremacy with Exco and Audit Committee playing a very crucial oversight role as a function that is delegated to them and legislated. The status of strategic and operational risks are reported and monitored on regular basis by Internal Audit Unit and Risk Management Committee who give feed back to the Accounting Officer and Audit Committee.

Continual improvement of Integrated/Enterprise Wide Risk Management which is being introduced has commitment of the Strategic Management in the municipality, and has enabled an increased level of risk management maturity to be achieved in the municipality.

The following are significant risks that are facing the municipality. As a municipality we are fully aware of the root causes and we have been able to put in place mitigating strategies within the SDBIP for 2011/12/13 which goes to outer year of the MTERF.

TABLE 27: RISKS, ROOT CAUSES AND MITIGATION STRATEGIES

Risk	Root Causes	Mitigation Strategies
Frequent electricity outages & losses of electricity	Conductors/Cable faults on secondary network Primary infrastructure ageing Obsolete switchgears illegal connections old substation buildings theft of infrastructure	Notwithstanding financial constraints the municipality has programmes in place to replace old infrastructure with new infrastructure, refurbishment & replacing programme is in place, security measures and replace copper conductors with aluminum Installation of new switchgear. The R90 million programme to deal with electricity interruptions is gorging ahead over the next twelve months.
Fraud and corruption relating to tenders.	Inappropriate employment practices Ineffective leadership Conflicts of interest Greediness Undue Political interference	Continuous forensic investigations and prosecution of suspects. An intensive conflict of interest identification review has been conducted & further reviews to determine further irregularities has been initiated.
Huge debtor's book & low collection rate which impedes insolvency & liquidity of the municipal finances & going concern or sustainability of the municipal operations	Lack of vigorous strategy to collect & data cleansing.	Despite financial a constraint which is an impediment, a strategy will be developed to deal with huge debtor's book & vigorous collection. The filling of critical posts in finance has been prioritized. Daily cash flow monitoring will reflect early warning signals.
Inability to cope with demand of basic services due to high vacancy rate.	Financial constraint & lack of incentives & attractive salary packages in high competitive industry to enticement best candidates.	Prioritization of filling of critical posts has been done & filling of critical posts has begun.
Loss of water due to pipe bursts, leaking pipes & meters that cannot be read.	Poor maintenance & the decaying infrastructure.	Asset Management Plan, Pressure Reduction Program, & installation of new meters project as per Council Resolution on commitment to funding.
Ineffective call center operations resulting to disgruntled customers which may tarnish the image of the municipality.	Lack of standard operating procedure. Lack of training.	A standard operating procedure & training plan is being developed for implementation.
Non-compliance with the Aviation Regulations that could lead to the municipality losing its airport license.	Lack of prompt response by Business Units to faults reported on faulty equipment at the airport.	LED and IS Management to convene immediately to resolve problems that results to non-compliance to Aviation Regulations.

2.7 ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI-CORRUPTION STRATEGY

The municipality has a policy on anti-fraud & corruption that was approved in 2009, however, due to budget constraint; the municipality did not rollout anti-fraud and corruption workshops. However the policy is currently undergoing vigorous review. The anti-fraud and corruption strategy will be developed and workshops rollout throughout the municipality in the two last quarters of the 2012/13 financial year.

The municipality has been dealing with matters relating to fraud and corruption within the municipality. There are criminal investigations that are going ahead and other matters are with the National Prosecuting Authority. There several cases of misconduct with have been finalised and some are on-going.

New allegations of fraud or corruption and other irregularities are currently under investigation and those that are finalised are being referred to either South African Police Services or Legal Unit for formulation of misconduct charges and setting up disciplinary enquiries tribunals. As alluded to under risk management mitigating strategy in respect of fraud and corruption, an intensive conflict of interest identification review has been finalised which will result in a number anti-fraud & corruption initiative.

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW OF SUPPLY CHAIN MANAGEMENT (SCM)

- The Msunduzi Municipality's Supply Chain Management unit is a support function for all business units within the council to ensure provision of efficient, transparent, fair, equitable and cost effective procurement services hence assisting them to implement their service delivery priorities.
- In terms of the MFMA SCM regulations the SCM unit is established to implement the SCM policy adopted by council.
- It operates under the direct supervision of the chief financial officer or an official to whom this duty has been delegated in terms of section 82 of the Act

Core Functions

- Demand management;
- Acquisition management;
- Logistics management;
- Disposal management;
- SCM risk management; and
- Performance management

The supply chain management policy for the year 2011/2012 was adopted by Council in 29 September 2011 in term of SCM Regulation 3 (1) (a) and implemented immediately thereafter, this was the second review since 2005. The main change made to the policy was to bring it in line with the structure of the SCM regulations. The aim was to establish a credible base from which the business processes can be developed.

Further review of the current SCM policy was done in December 2011 to further align the policy to Preferential Procurement Regulations 2011, issued in terms of the section 5 of the preferential Procurement Policy Framework Act, Number 5 of 2000 (PPPFA). The Regulations were published in the Government Gazette on 08 June 2011 the new regulations aims to align the Preferential Procurement Policy Framework Act, 2000 and the Broad – Based Black Economic Empowerment Act, 2003 effective from 7 December 2011, issued by National treasury.

An SCM implementation plan was developed and implemented throughout the year and quarterly reports on implementation were submitted to Council.

2.9 BY-LAWS

A BRIEF OVERVIEW OF THE DEVELOPMENT OF BYLAWS DURING THE 2011/2012 FINANCIAL YEAR:

The Legal Advisor who was responsible for the development of by-laws retired in September 2011. The remaining staff commenced a review of the by-laws. An individual was seconded by CoGTA who commenced the development and review of a number of by-laws. It would appear that the centralization of the publication function of the Government Printers have impeded the prompt promulgation of by-laws. The following by-laws were developed/ revised during 2011/2012 financial year. They will be enforceable once they have been gazetted.

TABLE 28: BY-LAWS INTRODUCED DURING 2011/12					
Newly Developed	Revised	Public Participation adopted prior to adoption of By-laws (Yes/No)	Dates of Public Participation	By-laws gazette (Yes/No)	Date of Publication
N/A	GENERAL BYLAWS	YES	JULY/AUGUST 2011	NO	N/A
WASTE MANAGEMENT BYLAWS	N/A	YES	JULY/AUGUST 2011	NO	N/A
INDIGENT POLICY BYLAWS	N/A	YES	JULY/AUGUST 2011	NO	N/A
CREDIT CONTROL AND DEBT COLLECTION AMENDMENT BYLAWS	N/A	YES	JULY/AUGUST 2011	NO	N/A
BYLAWS REGULATING THE USE AND DISCHARGE OF FIREWORKS	N/A	YES	JUNE/JULY 2012	NO	N/A
SPECIAL RATING AREAS BYLAWS	N/A	YES	APRIL/MAY 2012	NO	N/A

COMMENT ON BY-LAWS

It is expected that the development and revision of bylaws will be greatly enhanced by the end of the 2012/2013 financial year.

INTRODUCTION:

The Annual Performance Report (APR) is a legislative requirement which prescribes that the report must be submitted to the Auditor General by the 31st August annually. The Annual Performance Report, amongst other documents, will form part of the consolidated Annual Report of the Municipality which must be submitted to Council by the end of January on an annual basis.

The Annual Performance Report 2011 / 2012 of the Msunduzi Municipality is divided into three (3) broad categories as follows:

- **SECTION ONE: FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT.**
- **SECTION TWO: ANNUAL REPORT OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN 2011 / 2012.**
- **SECTION THREE: LEGISLATED KEY PERFORMANCE INDICATORS AS PRESCRIBED BY THE DEPARTMENT OF COOPERATIVE GOVERNANCE AND TRADITIONAL AFFAIRS (CoGTA).**

This report must be read in the context of understanding that during the 2011 / 2012 financial year; Msunduzi Municipality continued to be placed under a Section 139(b) intervention for the first six months.

During the 2011 / 2012 financial year, in the absence of a fully-fledged and functional Organizational Performance Management System (OPMS), the municipality adopted the process related to the Service Delivery and Budget Implementation Plan (SDBIP) as the OPMS. However, the municipality would like to acknowledge that the SDBIP in itself is not an all-encompassing OPMS but rather a component thereof. As part of the reporting process on the SDBIP, the municipality has introduced a process for reporting against pre-determined objectives and Key Performance Indicators (KPI's) that are contained in the approved Service Delivery and Budget Implementation Plan (SDBIP). The process is based on a colour-coded dashboard that serves as an early-warning indicator of under / zero performance. Quarterly reports, based on the colour-coded dashboard were submitted to Council with applicable recommendations that were adopted. These reports and Council resolutions are available for inspection on request.

It must be noted that in January 2012 of the 2011 / 2012 financial year, Msunduzi Municipality was no longer under the Section 139(b) intervention. In January 2012, Msunduzi Municipality employed a new Municipal Manager and by the end of the Financial year had employed a new Chief Financial Officer as well as a Deputy Municipal Manager for Infrastructure Services. All other S57 posts were vacant due to resignations & suspensions. These vacancies were managed by the organization by way of acting appointments. During the 2011 / 2012 financial year no individual quarterly assessments were conducted as Msunduzi Municipality had not adopted an OPMS framework and therefore the establishment of evaluation panels to assess the Municipal Manager and Manager's reporting directly to the Municipal Manager did not take place.

In the 2012 / 2013 financial year institutional arrangements have been put in place in order to ensure the implementation of an OPMS as per legislative requirements and also to enable meaningful and informed monitoring and evaluation. It is hoped that as OPMS becomes institutionalized within the municipality and part of our everyday business, that Managers, Councillors and the Community alike will use it as tool to monitor the services that are being delivered by the municipality thereby increasing the accountability and transparent role of local government.

SECTION I: FUNCTIONAL AREA SERVICE DELIVERY REPORTING PER BUSINESS UNIT

I. COMPONENT A: BASIC SERVICES

This component includes: water; waste water (sanitation); electricity; waste management; housing services; and indigents (free basic services).

II. WATER SERVICES

INTRODUCTION TO WATER SERVICES

Note: Recent legislation includes the Water Services Act 1997 and the General Enabling Act 2005

The MEC for Local Government, Traditional Affairs and Housing designated the Msunduzi Municipality a Water Service Water Authority through a Government Gazette dated 13 June 2003. This notice authorized the Msunduzi Municipality to perform the functions and exercise the powers referred to in Section 84(1) (b) of the Municipal Structures Act (117 of 1998) which provides for the provision of potable water supply and sanitation systems. In terms of Section 11 of the Water Services Act (108 of 1997), every Water Services Authority has a duty to ensure the adequate sustainable access to water and sanitation to all consumers within the area of jurisdiction.

In order to ensure that that City does not contravene the aforementioned legislation and further ensure our citizens are adequately catered for the following are is a list of achievements for 2011/12 financial year :-

- 1.) Provided informal households in wards 1 to 9 with Basic sanitation with the Installation of an additional 2116 Ventilated Improved Pits (VIP's).
- 2.) Successfully completed Phase 2 of 5 Year Non Revenue Water reduction program. The following is a summary of Non – Revenue water interventions to date:-
 - 1 768 km of underground pipe was surveyed. A total of 1,869 visible and non-visible leaks were located of which 1,739 were repaired.
 - 30 Pressure Reducing Valves have been designed which has a potential saving of 10 ML/day.
 - Advanced Controllers have been installed to control the pressures in the CBD. Potential savings from real losses are conservatively estimated at 3.4ML/day or R4 million/annum.
 - Structural analysis has been conducted on Hathorns Reservoir and all faults have been located and the Contract for repairs was awarded at the end of June 2012.
 - Phase 1A of Trenchless pipe replacement program has been completed in which 3km of pipe in CBD has been replaced thus far.
 - A total of 1,157 of the defective 5 600 water meters have been changed to date and hence the accuracy levels of the Municipalities billing information have increased.
 - 6,061 meter sites have been maintained which previously could not be read which has further contributed to customer and more accurate billing information.
 - Top 100 consumer's water meters have been audited to ensure that the water meter is installed and reading correctly which recommendations and designs on improvements.
 - All standpipes on the billing database have been audited to ensure that their meters were correctly working.
 - All inlet control valves feeding reservoirs in the East City and 80% of West City have been audited to ensure no reservoir overflows occur.
 - 82 existing PRVs and their associated zones have been audited in preparation for pressure management.

- 3 new PRVs were installed which shall feed the CBD and produce further savings as well as a reduction of burst frequency in the CBD shall be the result ensuring the CBD has a stable supply.
 - A tissue producing factory was investigated and the correctly sized meter was installed which increased revenue for this single consumer by 2.2ML/day.
 - A custody transfer meter at Kettlefontein was changed out due to incorrect meter installation.
 - Consumer awareness: More than 1 500 street pole posters have been placed in the City. 17 schools have been visited to date to promote the responsible use of water. A very successful schools soccer tournament was held to reiterate to the pupils the message of "Water is Life". Positive media advertising through this project is estimated at over R4.8 Million rand for this project.
- 3.) Installation of approximately 4km of Sanitation reticulation in order to connect low income households to waterborne sanitation.
 - 4.) Visual Survey (Closed Circuit Television Camera) of 2446 km of sanitation reticulation in order to prioritize as-set renewal.
 - 5.) Blue Drop status awarded to Msunduzi Municipality for Drinking Water Quality and Compliance.
 - 6.) The completion of the Planning and Design aspects of the following core projects for the Elimination of Conservancy Tanks, Masons Reservoir, Ashdown Midblock Eradication, and Shenstone Ambleton bulk Sewer Outfall.
 - 7.) Reactively responding and restoring 1829 burst mains.
 - 8.) Reactively responding and resolving 2424 sanitation mainline blockages.
 - 9.) Installed approximately 3.9km of water reticulation pipeline for the provision of basic water.
 - 10.) Commenced construction of a new 20 mega-litre reservoir in Copesville.

The City's bulk water purchases from Umgeni Water increased to 183 ML/day (183018.769 kl/day). This daily volume equates to 66801 ML per annum (66801851 kl per annum).The growth in purchases can be directly related to increase of volume from consumers and the water lost due to old/redundant infrastructure. It should further be noted that sewage flows have also increased at the Umgeni owned Darvill Waste Water Treatment works to a dry weather flow of approximately 74 ML/day.

The response rate to water and sanitation interruptions were achieved at 75% and 88% respectively. Various factors contributing to this poor performance include the rapid deterioration of infrastructure, human resource constraints, vandalism and age of fleet.

The City has further been awarded the prestigious Blue Drop Certification for drinking water excellence for the 2nd year in a row. A microbiological compliance of 98% and a well-developed and implemented Water Safety plan ensured that our 2011/2012 shortcomings were adequately addressed. Drinking water compliance can be monitored on the Department of Water Affairs Website by clicking on the Mywater tab.

TABLE 30: TOTAL USE OF WATER BY SECTOR (CUBIC METER)

	Agriculture	Forestry	Industrial	Domestic	Unaccountable water losses
2010/2011	N/A	N/A	8 218 022	24 725 278	21 422 003
2011/2012	N/A	N/A	8 224 080	22 972 695	20 097 077

Water use by sector (m3 / per annum)

COMMENT ON WATER USE BY SECTOR

The Unaccountable water loss represents certain portions of Non-Revenue Water namely real losses and billing consumptions. Several other core aspects can be analyzed to give a more appropriate understanding of water conservation initiatives to decrease Non-Revenue Water.

The Industrial consumption shows no growth at all while the total domestic consumptions (excludes unbilled authorized consumption) shows a decrease. This is attributed to inaccurate billing data and/or metering inefficiencies.

The real lossess lightly decreased by approximately 5% due to the implementation of the Non- Revenue water program. It should be noted that due to the financial situation of the Msunduzi Municipality, the program was revised to ensure that short term objectives where aligned with sustaining the municipality's finances and further that Non-Revenue reduction project is a 5 year strategic plan whereby the financial savings in relation to reduced bulk purchases and water losses are currently been realized. It should be noted that the purchased period(days) for financial year 2011/2012 was 375 days as compared to the 2010/2011 purchase period which was 363 days. This is a difference of 8 days which does impact on the water losses and Non-revenue Water.

The following key areas of improvements can be noted when comparing key statistics in the 2011/12 financial year to those of the previous financial year.

- In the 2011/2012 financial year the Msunduzi Municipality purchased a total volume of 66 801 ml (66 801 851 kl) as compared to 2010/2011 financial where we purchased 61 846 ml (618 46 351 kl). This equates to an increase of 4955 ml or 7.4% per annum.
- In the 2011/2012 financial year Msunduzi Municipality sold a total volume of 39 643 ml (39 643 638 kl) as compared to 2010/2011 financial where we sold 39031 ml (39 031 160 kl). This equates to an increase of 612 ml or 1.5% per annum.
- The Msunduzi Municipality's real losses (Burst mains, service leaks, reservoir overflows and infrastructure failures) decreased from 21 422 003 kl in the 2010/2011 financial year to 20 097 078 kl in the 2011/2012 financial year.
- Non-Revenue Water volumes increased by an average of 18 362 kl/day
- Inefficiency of Use of Water Resources, which essentially measures the physical leak or real loss volume, deteriorated by 6.2%

Besides the aforementioned technical interventions, the City has further embarked on series of projects to ensure that the social aspects of water provision and scarcity are covered. This included the:-

- Scholarly education on being water wise.
- Media awareness on saving of water
- Posters on street poles.

The Key performance indicators for Non-Revenue Water currently form part of the 5 year IDP.

COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

The Water sub unit only implemented MIG approved projects and no budgetary provision was made for council funded projects. Each of the aforementioned projects had a specific target which was monitored as per the SDBIP. The targets in relation to the planning and designing of infrastructure were all accomplished in line with the IDP, however the construction/implementation projects were hindered mainly due to Environmental Impact Assessments and procurement procedures. Implementation of certain projects were further compounded by the 54% technical (Engineers, Technicians) vacancy rate that exist within the unit.

The largest Capital project in line with Msunduzi's Turnaround Strategy, was the Non-Revenue Water project. This project officially commenced in the later part of the 2010-2011 financial and is part of a 5 year business plan in order to reduce water losses and increase revenue with measureable Key Performance Indicators. Although a lot of emphasis is placed on this initiative, it is envisaged that only in approximately 2 years will the Municipality realize the benefits of these conservation strategies.

1.2 SANITATION SERVICES

INTRODUCTION TO SANITATION PROVISION

Providing basic sanitation to informal areas and the appropriate sanitation services to low-income communities and thereafter elevating this to water borne sewerage, whilst ensuring that adequate attention and funds are allocated. Asset renewal is a key development challenge in the City. Capacity, adequate and reliable infrastructure is essential to provide water borne sewerage to all households within the Msunduzi Municipality. This priority is developed along the lines of financial availability and other relevant resources.

The possible construction of an additional sewerage treatment works to eliminate capacity problems is also in the feasibility stage.

The challenge is to first provide basic sanitation in the VIP sector. There has been significant improvements in this sector and with the number constructed in the 2011/2012 year, Msunduzi Municipality's original basic sanitation backlog has been 100% completed.

- Statistics for 2011/2012 based on Census South Africa 2011.
It should further be noted that Msunduzi Municipality is not aware of any "bucket toilet" systems as defined by the Department of Water Affairs, however this is reported to show complete transparency in relation to Census 2011 information. This will be formally investigated as part of the Water Services Development Plan.

COMMENT ON SANITATION SERVICES PERFORMANCE OVERALL:

The largest capital project was the Vuilndela : VIP installation program to which we have now achieved a coverage rate 100% in relation to previously reported backlog. Whilst ensuring that this Basic service of Sanitation for all is delivered in line with Departments of Water Affairs mandate, the sanitation sub unit also started construction phases on waterbourne projects. This entailed the installation of approximately 4 km of reticulation pipeline. The sanitation unit also proceeded and completed the planning and design portions of waterbourne sanitation projects and rehabilitation projects.

It should further be noted that one of the core aspects effecting economic and housing development in the current capacity constraints at the Darvill Waste Water Works. The hydraulic capacity of the plant is 75 ML/d (mega-liters per day) and the current inflow fluctuates between 75 ML/d and 78 ML/day on dry weather flow. Umgeni Water have committed approximately R 260 million over the next 6 financial years to the hydraulic capacity by an additional 30 ML/d. This will effectively change Darvill from a 75 ML/d to 105 ML/d capacity which will provide for Msunduzi's Water Borne sanitation needs for the next 15 years.

Reactively, the Sanitation sub unit attended to blocked sewer mains both during and after hours and responded and resolved to 88% of all reported complaints within the 2011-2012 financial year. Non compliance in attending to this essential service was generally due to fleet problems. The Municipality has recently acquired a new vehicle fleet and it is envisaged that re-active strategies will be much more effective.

1.3 ELECTRICITY

INTRODUCTION TO ELECTRICITY

The Msunduzi Electricity Unit is licenced by the National Electricity Regulator of South Africa (NERSA) to supply electricity to 70% of the total customers in the Municipality's area of jurisdiction and the remainder which is comprised of the Greater Edendale and Vulindlela areas is supplied by Eskom. The Electricity Unit operates under the Electricity Regulator Act of (2006).

The Electricity Unit generates approximately 40% of the total revenue of the Municipality 70% of the income for the Electricity Unit comes from our large customers (industrial and commercial) and 30% from our residential customers.

Msunduzi purchases electricity in bulk on the Megaflex tariff from Eskom at 132 000 volts and is transformed to lower voltages. There are two Eskom in-feed points (Msunduzi substation and Mersey substation). We have a notified maximum demand of 350 MVA (Mersey 160 MVA and Msunduzi 190 MVA). During 2011/2012 application was made to Eskom to increase the Mersey notified demand to 180 MVA. The highest maximum demand recorded for 2011/2012 was 360 MVA and the units purchased was 1 752 171 MWh.

3 power transformers for the Northdale Primary Substation were delivered during the 2011/2012 financial year. Five mini-substations and seven pole-mounted transformers were replaced and 1275 meters of medium voltage cable were installed from Hilton substation to Sweetwaters.

The Hilton area was experiencing continuous outages due to the numerous faults on the existing 33kV overhead lines to Hilton. Work commenced on the upgrade of the 33kV overhead line.

CHALLENGES

The Electricity Unit is facing many challenges.

- The backlogs on the repairs, maintenance, refurbishment and replacement of electricity infrastructure.
- High demand for electrification in informal settlements.
- Protection of revenue from theft and tampering.
- High electrical losses. 12, 95% for the 2011/2012 financial year.
- The revenue losses are mainly due to technical losses, illegal connections, unbilled metered consumers, unmetered authorised consumers and tampering with meters.
- Difficulty in attracting and retaining qualified and competent technical staff. The shortage of technical staff continues to affect service delivery.
- Upgrading of street lights.
- The theft of cables and vandalism of electricity infrastructure was on the increase during the 2011/2012 financial year.

COMMENT ON ELECTRICITY SERVICES PERFORMANCE OVERALL:

Due to financial constraints and ageing infrastructure Msunduzi Municipality brought on board the Independent Development Trust (IDT) to do a condition assessment and source funding to rectify. Going forward this will be addressed in the 2012/2013 financial year.

1.4 WASTE MANAGEMENT

INTRODUCTION TO WASTE MANAGEMENT

Rounds are being balanced, budget reallocated to provision of alternate service delivery methods in tandem with reducing refuse by implementing recycling at household level. The business unit has still managed to provide services despite compactor shortages (alleviated by arrival in June 2012 of 7 new compactors). Ageing and sickly staff are being addressed with a view to transfer and replenishment by younger, fitter staff. The budget is severely restrictive but new productive methodologies have to be implemented to develop a new culture/attitude of working. Status quo has been achieved with waste disposal, street cleaning and recycling. The top 3 service delivery priorities are once again collection, cleaning and now recycling, the impact of which will be felt in savings in the future. Communities that are living in poverty receive a skip or special service as and when necessary. Waste collection and transportation services, street cleaning, garden refuse sites, public toilets, and awareness and education are carried out by the Waste Management business unit. A separate Landfill site unit provides and manages the landfill and disposal services.

COMMENT ON WASTE MANAGEMENT SERVICE PERFORMANCE OVERALL:

The variance in income is due to fluctuations in the customer base as customers are lost or gained. The variance in expenditure is attributed to the service being an essential service, with serious health and safety repercussions. In addition certain measures as stated in the following paragraphs were not in place to assist in cost reduction or budget control.

Key staff such as the Business Manager, admin related staff where not in place adversely affecting the business unit. The matter has since been addressed partially with allocation of staff and development of a system to improve income.

With planned improvements in productivity, mechanisation of certain services such as sweeping for example, and the adoption of alternate service delivery options such as public-private partnerships, outsourcing to smme's, and so forth the future targets can be realistic and achievable.

1.5 WASTE MANAGEMENT (LANDFILL SITE)

INTRODUCTION TO WASTE MANAGEMENT (NEW ENGLAND LANDFILL SITE)

The New England Landfill Site is the largest, permitted Site in the KwaZulu-Natal Midlands and is a regional Site serving the disposal needs of not only Msunduzi but local municipalities within the jurisdiction of the District Municipality. The Site receives approximately 700 tons of waste daily which is spread, compacted and covered. Users of the Site are billed for the waste disposed and statistical data is maintained of the waste disposed in categories. The Site is managed to strict compliance with relevant environmental legislation and bi-annual monitoring for gas emissions, groundwater and surface water contamination, and leachate emissions is conducted to ensure that the Site does not pose an environmental threat to the environment. Tests conducted in August 2011 and June 2012 has confirmed that the Site is well managed and there are no threats to the environment.

Upgrade to Lanfill Site	5 647	0	5 647	0	5 647

COMMENT ON WASTE DISPOSAL SERVICE PERFORMANCE OVERALL:

The Site has been extensively upgraded in terms of infrastructure in order to increase the lifespan of the Site. This entailed construction of containment berms, clay-capping of the side slopes, perimeter and access road upgrade and an innovative ramp access construction in order to gain entry to the workface of the Site. Staff facilities have been improved and new weighbridges have been installed and the billing system upgraded in order to reduce losses and improve efficiency. The first phase of the installation of heavy-duty palisade fencing was also completed. A new Landfill compactor, which complements the existing Landfill compactor, was also acquired which has significantly improved the operations on Site. Funding has been obtained from COGTA via the uMgungundlovu District Municipality to construct a Materials Recovery Facility on Site which will achieve our target of recycling at least 50% of the waste to Landfill. This project will also provide sustainable jobs for co-operatives that have been established. In conjunction with this project, a waste recycling collection system will be implemented in order to source separate recyclables. We have embarked on the process of establishing a Gas-To-Energy project on Site. The Department of Energy is currently in the process of evaluating proposals submitted by specialist consultants for the generation of gas to energy with the intention of appointing Independent Power Producers. The project will commence on the appointment of the IPP. Commencement date is envisaged in the first quarter of 2013.

I.6 HOUSING

INTRODUCTION TO HOUSING

The provision of adequate Housing is a National priority and is legislated through the Constitution and the Housing Act. The delivery thereof is the responsibility of all three spheres of government, National, Provincial and local government.

Our Housing strategy is to provide housing in line with the deliverables of Outcome 8, which is to develop spatial plans to ensure new housing developments are in line with national policy on integrated human settlements and to accelerate the delivery of housing. Various targets have been set to comply with Outcome 8.

The backlogs in housing can be summarised as approximately 16000 to 25000 households living in informal structures, structures built of traditional material (mainly rural) or informal structures in a backyard. This data is obtained from the Community Survey 2007. The municipality has not undertaken any housing backlog study. We are currently in discussion with the Provincial Department of Human Settlements (PDOHS) to implement the housing needs register (HNR). This will assist in providing accurate data on the housing demand.

The municipality has also identified various land parcels on which new housing developments can be implemented. These projects have been packaged for submission to the PDOHS. Further discussions are underway with the PDOHS.

Housing Sector Plan: The Housing Sector Plan for the Municipality has been finalised and approved by Council in December 2011. The plan also includes a Slums Clearance strategy. Many interactive sessions were held with the PDOHS to complete this plan.

Vulindlela Rural Housing Project: This project application was submitted by the Municipality to PDHOS in June 2010 for the implementation of the largest rural housing project ever undertaken with Kwazulu-Natal. It was approved for full implementation in November 2010. Construction began in May 2011. The municipality role is that of a key stakeholder and assumes the roles as a municipality. It is also a member of the project steering committee and other task teams.

Many other smaller housing projects have been packaged for Stage 1 approval. Once approval has been granted by the PDOHS the feasibility, planning and design phase will commence.

The municipality is also prioritized by the National Department of Human Settlements (NDOHS) for social housing, informal settlements upgrading programme and more recently for Accreditation. We have been assessed and recommended for Level 1 accreditation. Regular information sessions are held with various Communities to explain housing processes and home ownership awareness.

The Housing function also includes the management of Council Rental stock. This comprises 364 units in various blocks. The Housing Admin unit is responsible for letting of rental stock, rent collection, maintenance, housing waiting list and disposal through the Enhanced Discount Benefit Scheme of the DOHS.

All the above goals are geared to meet the deliverables of Outcome 8.

**TABLE 59: PERCENTAGE OF HOUSEHOLDS WITH ACCESS TO FORMAL HOUSING
PERCENTAGE OF HOUSEHOLDS WITH ACCESS TO BASIC HOUSING**

Census Years	Total Households (incl. formal and informal Settlements)	Houses in formal settlements	Percentage of HHs in formal settlements
1996	115 430	82 691	72
2001	129 899	90 025	69
2011	163 993	120 847	74

Percentage of Households with access to Formal Housing: The Municipality does not have access to statistics of percentage of households in formal settlements on an annual basis, but relies on Census figures published. The following table represents the Census figures for the past three Census reports.

TABLE 60: HOUSING POLICY OBJECTIVES TAKEN FROM THE IDP

Service Objectives Service indicators	Outline Service Targets	2010/11		2011/12		2012/13

Note: Only the construction of municipal services in housing projects is considered as capital expenditure.

COMMENT ON THE PERFORMANCE OF THE HOUSING SERVICE OVERALL:

The Housing Sector Plan was only completed in October 2011 and approved by Council on 15 December 2011. Performance over the 2011/12 has been poor with respect to actual delivery of houses. But various preliminary planning and packaging was undertaken to align with the Outcome 8 deliverables. If the plan is approved, this will force a budget adjustment to both the capital grant by the PDOHS and the operating budget of the municipality as this will require additional resources to implement the plan.

Partnerships are also being developed with social housing institutions to deliver rental housing.

The National Department has initiated the National Upgrading Support Programme. This programme involves assessing conditions of informal settlements and preparation of project plans.

The municipality was also assessed for accreditation by the National Assessment Panel, who recommended Level 1 approval.

1.7 INDIGENTS – FREE BASIC SERVICES

INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

During the 2010/11 financial year, the Provincial Intervention Team reviewed the Indigent Policy to address identified risks. This resulted in a change in the basis of the policy. The policy approved for the 2011/12 financial year provided indigent support on the basis of consumptions and was therefore not application driven. The benefits were granted on the following basis:

Electricity: The consumer must install a MCB which is equal to or less than 20AMP. If the consumer has an MCB that is greater than 20 AMP, the reduction in AMP was done free in respect of the first change.

The benefit after complying with the AMP criteria translated into the following – if the consumer uses less than or equal to 500 kWh per month, 200kWh will be free. If the consumer uses more than 500kWh per month, 50kWh will be free. If the MCB is 20 AMP or less, there will be no MCB charge (lifeline tariff)

Water: 6kl free if less than 6kl is used (pay for all if usage is in excess)

Refuse: 50% rebate if registered as lifeline electricity

Sanitation: 50% rebate if registered as lifeline electricity, if no electricity, water usage must be less than 6kl to qualify. Rates: R150, 000.00 value deduction (all domestic properties)

*The graph above and Table below refers – The indigent policy was changed in 2010/2011 to a consumption driven approach by the intervention team. As such, indigent consumers could not be identified. The rebates were therefore not denoted as indigent rebates, hence the reduced numbers.

Although the policy remained consumption driven in the 2011/2012 financial year, for financial reporting purposes, the rebates were identified separately in order to fully reflect the value of the free basic benefit.

The total in the table below is based on the fact that Council has a consolidated bill and the number of households would therefore overlap from one service to the other.

TABLE 64: FREE BASIC SERVICES TO LOW INCOME HOUSEHOLDS

	Number of households				
	Total	Households earning less than R1.100 per month

		Target	Actual	Target	Actual	Target
To identify the number of indigent households registered on the municipal database	To ensure that households who are indigents benefit in terms of the approved Indigent Policy by applying the automatic qualification and ensuring that the application process is effective	Policy consumption driven – Consumption limits rebated as per policy imperatives	Rebates on accounts within the approved consumption limits	Policy consumption driven – Consumption limits rebated as per policy imperatives	Rebates on accounts within the approved consumption limits	Verification of automatic indigents on the billed data base & approval of applications
Review of the Indigent Policy	Reviewing issues relating to enforcing of the current policy annually	Annual Review	Approved during budget process	Annual Review	Approved during budget process	Annual Review 2012/13 policy approved

COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT:

The Provincial Intervention Team designed the Indigent Policy to provide a benefit based on consumptions in order to encourage indigents to minimise their consumptions and consume within their income limits.

The indigent policy stipulates the following qualifying criteria;

Owners and/or occupiers of residential property :

- where the electricity lifeline tariff is requested and a circuit breaker of 20Amp is fitted
- and/or where there is no electricity distribution by Council, where the water consumption is less than 6kl, will qualify as an Indigent.
- Concessions set out below, and as reflected in the Council's Tariffs, shall automatically qualify for such concessions, subject to the conditions set out hereunder:

Property Rates - Indigents will qualify automatically like all domestic consumers for a reduction in the market value of the property as approved from time to time by Council and as reflected in the applicable Tariff Register.

Electricity - Free kWh as determined from time to time by Council and as reflected in the applicable Tariff Register.

Electricity MCB - Free amperage as determined by Council from time to time and as reflected in the applicable Tariff Register.

Water - Consumption of water as determined from time to time by Council and as reflected in the applicable Tariff Register.

Refuse - Free refuse as determined by Council from time to time and as reflected in the applicable Tariff Register.

Sewerage - Free sewerage as determined by Council from time to time and as reflected in the applicable Tariff Register.

In the event that the consumption of water on a property that qualifies for the concessions as referred to above, exceeds the maximum volume determined by the Council as free basic water for whatever reason, the owner or occupier shall be billed for the total consumption of water as determined by the Council at the tariffs ordinarily applicable within the municipality, and the amount billed shall be deemed as payable. This provision is in line with the Water Act.

2. COMPONENT B: ROAD TRANSPORT

This component includes: roads; transportation planning; and storm water drainage.

INTRODUCTION TO ROAD TRANSPORT

The Roads and Transportation Sub-Units perform the following activities for the provision of efficient road network:

- a) Transportation network planning
- b) Road planning and design
- c) Road construction and maintenance
- d) Road infrastructure condition monitoring
- e) Public transportation planning
- f) Road safety and improvements
- g) Road marking and signage
- h) Municipal Building Maintenance

2.1 ROADS

INTRODUCTION TO ROADS

The backlog of roads that need upgrading, road safety measures (traffic lights, calming measure, signage enhancement, etc), road infrastructure rehabilitation and maintenance continues to be a major challenge for the Municipality in the current financial year going forward. There are still huge backlogs for construction of new roads and upgrading of gravel roads in the Greater Edendale, Vulindlela and Northern Eastern parts of Msunduzi (i.e. Thembalihle, Tamboville, Copesville, etc). These areas continue to grow since there are new low-cost housing programme being provided with sub-standard road services i.e. gravel and hyson cell concrete roads standards.

However, in 2009/10 a major project, the N3 / Chota Motala Road Interchange, commenced. This project will be completed in 2012. Once this project is complete, it will ease the traffic congestion experienced on the South-bound peak-hour traffic from the Northern Areas into the CBD in the morning and vice-versa in the evenings.

Inadequate funding for bulk services is increasingly becoming a retarding factor for development. This Sub-Unit continues to implement the user-pays principle for new developments to fast-track provision of bulk services for new developments. The Municipality continues to use external source of funds to fund its programmes and projects due to internal budgetary constraints, such as COGTA, DoT, MIG, etc. Priority is currently given to the problematic Electricity and Water infrastructure due to losses and outages experienced by these services.

However, asset renewal (i.e. road rehabilitation, major defects patching, surface overlays, etc) remains unattended due to financial constraints. Development of potholes has increased in our roads over the few years because of fatigue to road infrastructure.

UPGRADING OF NEW ENGLAND RD PHASE 2	0	339	336	100	14 000

COMMENT ON THE PERFORMANCE OF ROADS OVERALL:

Meaningful upgrade of gravel roads have been achieved in the past three financial years. This scale of upgrade diminished tremendously in the last two financial years because many projects that were funded by Council could not proceed because of the Municipal financial status over the same period. The Municipality has been totally dependent on grant funding to fund its road upgrading programmes. However, the above mentioned achievements are insignificant to the existing Municipal backlogs of gravel roads.

The rehabilitation pavements (i.e. renewal of road assets) have been stagnant over the past few years. A minimum of R15 million is required to catch up on assets renewals. Many major roads are in dire need of base repairs, major patching and overlays; as a result potholes are the order of the day.

Gravel road maintenance has also slowed down because the Municipality does not own any plant or equipment to undertake this exercise. The Roads Section is now reliant on hiring plant (which is a very expensive exercise) or use of private contractors to undertake this exercise.

2.2 TRANSPORTATION PLANNING

INTRODUCTION TO TRANSPORTATION PLANNING

Transportation Planning Section does not operate public transport or issue any licences for vehicles. The Transportation Planning Key Performance Areas are as follows:

1. Road Planning
2. Road Safety
3. Public Transport

Road Planning concentrates on planning for new roads and widening or improvements on existing road networks. The following road planning projects have been on the cards on the Transportation Plan:

- N3 / Chota Motala Interchange – its construction commenced in the 2009/2010 financial year and is expected to be complete in the year 2012.
- Widening of New England Road – funding obtained from COGTA and construction commenced in the 2011/2012 financial year and is expected to be complete in the year 2012.
- Burger Street Extension – design complete. Need funding for implementation.
- Bellevue Distributor – proposed road alignment has been confirmed, it is still in the approval process by the Municipality. Detail Design to be included in the 2013/14 Draft Capital Budget, subject to the affordability of the Municipality to fund its Capital Investment Projects.
- Integrated Rapid Public transport Network (IRPTN) – this project is funded by National Department of Transport, it is still at the planning stage and detail design is expected to commence in July 2013.

Road safety – deals with road safety, i.e. traffic calming measures, traffic lights, etc. Although plans are in place, but could not be implemented due to the Municipal financial constraints. Road marking and traffic signs replacement is undertaken by this wing of Transportation Planning.

Public Transport provides the enabling environment for public transport to operate by developing public transport facilities such as taxi ranks, taxi holding areas, lay-byes, bus shelters, etc. These are implemented as Capital projects. It deals with daily management for public transport facilities and operating licensing. A motivation for funding of Integrated Rapid Public Transport Network (IRPTN) projects under Public Transport Infrastructure System was granted by NDoT and National Treasury over the next three financial years. This project will provide the Municipality with information of how the future public transport system will run.

COMMENT ON THE PERFORMANCE OF TRANSPORT OVERALL:

Transportation Planning could not achieve what was set out for implementation in terms of Road Planning and Road Safety in the last two financial years (i.e. 2010/11 and 2011/12). Traffic Calming measures and traffic lights could not be implemented in the last two financial years although they were in the approved budget due to the Municipal financial constraints.

From a public transport point of view, the appointment of a consultant to undertake planning for Integrated Rapid Public Transport Networks (IRPTN) projects was delayed because of an objection from one unsuccessful service provider. This was dealt with through Supply Chain Management procedures and was eventually resolved. The consultant has commenced with the planning stage and the detail design is expected to commence in July 2013. This project is funded by the National Department of Transport under its Public Transport Infrastructure Systems (PTIS) Grant, as Msunduzi is one of the 12 cities declared Public Transport Authority.

2.3 WASTE WATER (STORMWATER DRAINAGE)

INTRODUCTION TO STORMWATER DRAINAGE

This Section deals with management of storm-water network system in terms of upgrade and maintenance to discharge the storm-water in a safe manner and to also prevent flooding of properties.

Currently, this Section is focusing on maintenance to prevent flooding of properties. Capital development or extension of storm-water infrastructure is currently on hold due to financial constraints. Only new systems or additions are provided by the private developers in terms of engineering requirements.

COMMENT ON THE PERFORMANCE OF STORMWATER DRAINAGE OVERALL:

Storm-water function is undermined in terms of funding provision. This is an important service as it prevents flooding of roads, properties and loss of life.

3. COMPONENT C: PLANNING AND DEVELOPMENT

This component includes: planning and local economic development.

3.1 PLANNING

INTRODUCTION TO PLANNING AND DEVELOPMENT

- a) The opportunity of town planning is to be able to work hand in hand with the communities in their attempts to achieve service delivery and make their life successful within their environment. Town planning deals with areas that need intervention by making sure that areas change for the betterment of people who are staying within those areas.
- b) The challenge that is facing town planning is an increase of unauthorised land uses as a result of rigid legislation in terms of enforcing unauthorised land uses and a shortage of human capacity to enforce unauthorised land uses.

INTRODUCTION TO PLANNING

- i) A strategy of town planning for 2011/2012 was to be more pro-active in development by working hand-to-hand with developers who want to invest in the city.
- ii) A Planning and Development Forum was also formed in house to fast-track applications that have been submitted by means of the Planning and Development Act.
- iii) A resolution was taken during this financial year to prepare a detailed planning for the South Eastern District Area, which include Ambleton, Ashburton and Lynnfield Park and also to prepare a Local Area Plan for the City centre as well as the extension of the town planning scheme over Sobantu and the Greater Edendale Area. This will help to curb the increase of unauthorised land uses and enforce unauthorised land uses.

COMMENT ON THE PERFORMANCE OF PHYSICAL PLANNING OVERALL:

The EXCO approved the prioritised Planning and Associated working program on the 26th April 2012, which involves the preparation of Local Area Plans for the South East District Area, the Central Area and CBD extension Local Area Plan together with the Extension of the Town Planning Scheme over Sobantu and Greater Edendale areas.

The terms of Reference for these three projects were approved by the Bid Specification Committee and the calling of the proposals for the three prioritized projects was published to the Natal Witness newspaper on the 25th June 2012 and the tender officially closed on the 25th July 2012.

The Department is currently assessing the received tenders and these will be forwarded to the Bid Evaluation Committee before the end of August 2012. These projects are anticipated to be undertaken over a period of 18 month and the actual appointment of prospective the service provider is expected to be finalised in December 2012

3.2 LOCAL ECONOMIC DEVELOPMENT

INTRODUCTION TO LOCAL ECONOMIC DEVELOPMENT

Even though the municipality recorded nil growth in 2011/12 however the municipality attracted a **multimillion rand investment** in a township retail outlet, which created **± 1200 permanent employment unit**. The municipality facilitated the establishment of a multimillion fruit and vegetable market 100% owned by a **cooperative** in the Pietermaritzburg central business district.

TOTAL:	92,597	94,166	89,249

COMMENT ON LOCAL JOB OPPORTUNITIES

The economic downturn has seriously affected the creation of new jobs in the city. Marginal gains have been made in the manufacturing and finance/property sectors, with the most significant increase in jobs coming from the Government/community services sector. Local businesses are not expanding – in fact many have retrenched staff to cut costs. The high municipal tariffs have impacted negatively on the business sector.

We need to give real support to SMMEs, especially the existing businesses, because they will create collectively the most jobs in the economy. With the increasing number of street traders, it is critical that we manage this sector efficiently through our monitoring and support programmes. We must invest in proper street trading furniture, and establish strategically located off-street markets. In the medium to long term it is critical that we complete our local area plans so that we can budget adequately for bulk services and transportation networks to support the various economic opportunity nodes.

We have a great opportunity to attract high tech manufacturing and assembly businesses related particularly to the motor and aviation sectors. Investigations are currently underway in the airport precinct to determine the development potential of the vacant land in and around the airport, and we continue with the upgrade of the airport which started last year.

The municipality will also be putting two strategically located sites along the N3 on the market for development, and coupled with the various developments proposed in the Ashburton area, we expect a significant number of jobs to be created.

THWALA ROAD	6 600	0	0	0	6 600
FREEDOM SQUARE	18 400	0	14 300	29	21 500

COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

The Tourism Hub Project is part of the Freedom Square redevelopment project, a flag-ship project of the municipality. This is the fourth project on the square, and is being funded by COGTA through the N3 Corridor funding programme to a value of R21, 8 million. The municipality is funding the balance. Funding has also been confirmed for two regeneration projects in Edendale via the NDPG for this year. The NDPG has approved R35 million for capital projects in Edendale. R6.5 Million was approved in the financial year 2011/12 for the development of Thwala Road in Imbali Township and the contractor will be appointed in August 2012.

We are expecting that our cash flow problems of the past year will be resolved so that other capital projects will go ahead. Budgetary provision made is adequate, and we will look to securing grant funding should it be necessary.

4. COMPONENT D: COMMUNITY & SOCIAL SERVICES

This component includes: Libraries; Art Gallery; Theatres & Halls; and Cemeteries & Crematoria.

4.1 LIBRARIES

INTRODUCTION TO LIBRARIES

The Bessie Head main library remains a flagship facility, having been upgraded with Carnegie Corporation of New York funding. This Library provides services to the entire country as well as playing host to numerous overseas researchers and visitors. In addition there are 8 branch libraries and two mobile libraries providing services to the entire municipality. The Bessie Head library is one of 5 Legal Deposit libraries in the country and is also a major facility within the Province. Our top 4 service delivery priorities are acquisition of book stock to improve services to the public; the provision of periodicals and newspapers to the community; to maintain and upgrade our buildings and facilities and our computer facilities.

We were successful in procuring books, periodicals and newspapers this year thanks to funding from the KwaZulu-Natal Province and the Carnegie Foundation of New York. Regrettably Carnegie funding will cease from the end of October 2012. We have also made progress in providing computer facilities and upgrading existing facilities. This was unfortunately restricted due to the financial situation of the municipality and the need to rely on to funding from the KwaZulu-Natal Province.

There was not much building maintenance in this period as this is not funded by the KwaZulu-Natal Province or the Carnegie Foundation and the Municipality couldn't provide funding for this purpose.

COMMENT ON THE PERFORMANCE OF LIBRARIES

Due to the financial situation of the municipality there were no capital projects for the libraries from Council Capital Funds, all capital projects were completed using capital funding received via the Carnegie Foundation.

4.2 ART GALLERY

INTRODUCTION TO ART GALLERY

The Tatham Art Gallery is an art museum which serves the Msunduzi region through the visual arts.

Acquisitions to permanent collection: 92 items accessioned into permanent collection.

Exhibitions: 17 exhibitions displayed against a target of 8.

Education and outreach: Ongoing programme of school visits, walkabouts, art classes for youth, artists-in-residence, artists' forums, concerts, support group (Friends of the Gallery), fundraising initiatives.

COMMENT ON THE PERFORMANCE OF COMMUNITY FACILITIES (THEATRES & HALLS) OVERALL:

The income received for the hiring of hall facilities must be in line with the expenditure. Council must recuperate all operating costs related to the service that the hall has been booked for. The halls must be managed and operated in line with sound business principles.

4.4 CEMETERIES & CREMATORIA

INTRODUCTION TO CEMETERIES & CREMATORIA

The unit provides a service for the burial and/or cremation of every resident and ratepayer living within the Msunduzi Municipal area by continuing to seek best practices in the industry. It also provide a pauper burial service for indigent residents of the City.

The identification of a new Cemetery is vital because of the lack of burial space in the existing cemeteries and to have two functional cremators at all times in order to provide an effective service delivery.

- 2 cremators are functional- the Dawson and Masson cremator and Macro Burner cremator have been repaired and are fully functional
- Development of Hollingwood Cemetery – SRK has been reinstated as the consultant to oversee the project.

TABLE 111: SERVICE STATISTICS FOR CEMETERIES & CREMATORIA

COMMENT ON THE PERFORMANCE OF CEMETERIES & CREMATORIA OVERALL:

The identification of a new Cemetery is vital because of lack of burial space in the existing cemeteries.

5. COMPONENT E: ENVIRONMENTAL PROTECTION

This component includes: environmental health; and, biodiversity and landscape.

5.1 ENVIRONMENTAL HEALTH

INTRODUCTION TO ENVIRONMENTAL HEALTH

Environmental Health Services continued to be provided without funding from National Treasury. With a limited budget and diminishing resources the nine functional areas relating to environmental health services as defined in the National Health Act, No. 61 of 2003 were carried out to ensure effective and efficient service delivery within the areas of Msunduzi. The service delivery priorities focussed on water quality monitoring, food quality and safety, health surveillance of premises and vector control. Water sampling of reservoirs and domestic water sources continued for the purposes of Blue Drop status accreditation. The departmental laboratory was used for the monitoring of water and food quality and also swabbing to determine standards of hygiene at food premises.

TABLE 116: SERVICE STATISTICS FOR ENVIRONMENTAL HEALTH

	TARGET	ACHIEVED
No. of Complaints investigated	550	467
No. of Trade Licence application processed	Dependent on no. received	120

- Note: It is the responsibility of the municipality to monitor air quality, in terms of the Air Quality Act, No. 39 of 2004. Eighty percent (80%) is the minimum target for verified data, in terms of the South African National Accreditations Systems (SANAS: TR 0702). In addition, for data to be accredited, the analysers must be calibrated and checked bi-weekly. Data management, maintenance, service and calibration costs were covered by Department of Agriculture, Environmental Affairs and Rural Development (DAEARD)
- During the month of July the sulphur dioxide analyser and wind and temperature sensors were faulty. The analyser and sensors were therefore operated only during a certain period in July.
- During August, the data captured was less than 80% due to problems with the data logger and temperature sensor. The station was decommissioned in September due to problems with the data logger. From November up until June, data was captured, but not verified as the service provider had been changed, and only raw data was available. Raw data is information that has not gone through the verification process.

Central Station

- Data not available due to budget constraints.

Edendale Station

- Data not available due to budget constraints.

COMMENT ON THE PERFORMANCE OF BIO-DIVERSITY; LANDSCAPE OVERALL:

No Capital Projects in 2011/2012.

6. COMPONENT F: HEALTH

This component includes: clinics (inclusive of HIV/ AIDS).

INTRODUCTION TO HEALTH

The Sub Unit ensured(i) the provision of a comprehensive Primary Health Care Services at the Municipal clinics, and (ii) provided HIV & AIDS Training, Counselling, Testing and Home Based Care for the communities within the Msunduzi Municipality. The achievement of the above was limited by the available Financial and Human Resources, but the services rendered were to the benefit of all communities inclusive of the poor.

INTRODUCTION TO CLINICS

The Msunduzi Municipal Clinics will transfer to the Provincial Department of Health during 2012/2013.

The Msunduzi Municipality has thirteen (13) five day a week and four (4) one day a week Primary Health Care (PHC) clinics as well as one (1) Mobile clinic, four (4) Chronic Medication collection points and one (1) dedicated TB Clinic Serving a population of approximately 616 000 people.

THE THREE PRIORITIES

Based on the Quality Assurance Audit findings, three priorities were identified namely:-

1. Improved Patient Safety: The need to improve the clinic infrastructure to prevent Medico-Legal hazards. Motivations were accordingly submitted.
2. Improved Supply of Medicines and Medical Supplies: The need for regular/ monthly ordering of medical supplies by strengthening the use of stock cards for receiving and issuing of supplies.
3. Improved Clinic Cleanliness: The need to increase the number of days/ times when clinics are cleaned.

Motivations were accordingly submitted. The constraining factors to the above were the limited Financial and Human Resources as well as long procedures to be followed.

MIG SINATHING CLINIC	0	175	169	100	
MIG ESIGODINI CLINIC	0	179	179	100	

COMMENT ON THE PERFORMANCE OF CLINICS OVERALL:

Construction of a new Masons Clinic, to replace an old structure, was halted apparently because of the Transfer of Clinic Services to the Provincial Department of Health in 2012/2013 (target date: 01.08.2012).

Additional rooms to Willowfountain Clinic – completion was delayed by water seepage and need to redirect sewerage piping.

Additional rooms to the Impilwenhle, Sinathing and Sigodini Clinics were completed.

Going forward – The target date for the Transfer of Clinics to the Provincial Department of Health is 01.08.2012.

7. COMPONENT G: SECURITY AND SAFETY

This component includes: Traffic; Safety & Security; Fire; and, Disaster Management.

7.1 TRAFFIC, SAFETY & SECURITY

INTRODUCTION TO TRAFFIC & PUBLIC SAFETY

The department of Public Safety helps ensure a safe environment and improve the quality of life through effective Traffic policing combined with efficient use of security officers. Traffic services include:

1. Control and regulate all forms of Traffic, promote education and training on the road and traffic safety.
2. Attend scenes of motor vehicle collisions and assist with traffic control, removal of injured persons and removal of vehicles so that traffic may flow freely again.
3. Eliminate points of congestion, obstruction, hindrance, interference or danger to vehicles and pedestrians.
4. A 24 hour 7 day week in-house security service is provided by the Security sub unit, operating on a 4 shift system for the following:-
City Hall, Tatham Art Gallery, Bessie Head Library, Clinics, C.E.D. B/T stores (Vulindlela), Imbali Unit 1 offices, Unit BB Imbali, Monitoring & visiting 78 Municipal sites protected by Contract Security
5. Land Invasions: Detecting and preventing the illegal invasion of Council Land, and the expansion of existing informal settlements. Monitoring of informal trading, and prosecution of offenders, Bisley and Ferncliff nature reserves and 3 conservation area's protecting Flora and Fauna. Protection of Council owned forests. Prevent incidents of timber theft and prosecute offenders. Prevent abuse of forest by motorcyclists etc. Prevention and prosecution of illegal dumping investigate all incidents of a criminal nature, and the prosecution of offenders, Escorting staff from other business units working in sensitive areas.

COMMENT ON THE PERFORMANCE OF TRAFFIC & PUBLIC SAFETY OVERALL:

Due to the Msunduzi Municipality being placed under Administration various Capital Projects were not funded.

Because of the lack of Summonses Servers (Vacant Posts) a large number of Summonses are being withdrawn at Court due to No-return of Service of Summonses.

A Large number of properties owned by Msunduzi Municipality are being guarded by our own Security Section.

7.2 FIRE

INTRODUCTION TO FIRE SERVICES

THE PURPOSE OF THE FIRE SERVICES UNIT IS:

1. To Fight or extinguish a fire and rescue of life or property:

Early and timeous response to fire and rescue incidents is critical for life and property saving measures to be effective. In order to improve turnout times to incidents the Municipality has started the process which should see two more fire stations opened in the vast Vulindlela area and Northdale suburb of the City. Whilst staff shortages are a challenge this is combated by a constant attempt to ensure that a minimum manning standard is complied with on a daily basis, even at the expense of overtime costs.

2. Prevent the outbreak and spread of fire and the protection of life or property from fire or other threatening danger:

The dedicated Fire Prevention officers ensure that all new building development applications are in compliance with the Building Regulations and SANS 0400 codes of practice for fire safety in buildings. Existing infrastructure is also subject of daily scheduled and ad-hoc inspections for fire safety compliance. A heightened effort has been placed on combating unauthorised occupancies, especially related to illegal boarding establishments housing school children, and the city centre decay. Attention is also given to fire safety compliance at sports and recreational events in compliance with the requirements of the Safety at Sports and Recreational Events Act 2 of 2010.

3. Basic fire and life safety training:

The Fire Prevention Officers undertake regular scheduled training with hospitals, commerce and industry in order to impart basic fire safety training in the use of first aid fire fighting equipment.

The Public Education Section engages schools and communities (especially informal settlements) in a drive to ensure basic fire and life safety awareness and skills are imparted at a rudimentary scale, mostly by meetings, attendance to community structures and visitations to schools, and, of schools to fire stations. Whilst this basic intervention is still not enough it is imperative that communities are aware of the fire service and services it offers, how to access these services, and what it is that they can do to provide basic fire safety protection to themselves.

COMMENT ON THE PERFORMANCE OF FIRE SERVICES OVERALL:

It must be borne in mind that part of the reporting covers the period during which the Municipality was under administration which ended in January 2012. Due to financial challenges, only critical projects were approved for Council funding. This could be the trend for at least the next two years until the Municipality is financially sound.

7.3 DISASTER MANAGEMENT

INTRODUCTION TO DISASTER MANAGEMENT

Disaster Management as a discipline is changing from being reactive to being proactive. To achieve this it is necessary to determine the risks that the communities are faced with, to provide a safe environment and to provide relief assistance to the affected. During this year risk analysis workshops were conducted and the raw data will now be processed to. This data will be presented to the yet to be launched Disaster Management Planning Advisory Committee in order to provide a safer environment.

Relief supplies and assistance were given to those affected by storms, fires and other disasters. Relief is in the form of temporary accommodation, food rations and waterproofing. The number of incidents has decreased over the last two years.

SERVICE STATISTICS FOR DISASTER MANAGEMENT

- During the 2011/12 year 176 incidents were attended.
- The cost of the emergency supplies issued to the victims came to R280 296.00 and 1064 people were affected.

9. COMPONENT I: CORPORATE POLICY OFFICES

This component includes: Executive & Council; Financial Services; Human Resource Services; ICT Services; Legal Services; Supply Chain Management; and, Internal Audit.

9.1 COUNCIL & EXECUTIVE SUPPORT

INTRODUCTION TO EXECUTIVE AND COUNCIL

The Executive and Council includes all administrative support that is provided to the offices of the Mayor, Speaker and Municipal Manager. This includes, inter alia, meetings of Council and its committees and support related to the functioning of ward committees.

The Executive and Council Support Unit is headed by the Process Manager: Sound Governance. The main purpose for the existence of this Unit is to give administrative support, primarily to Council and its committees and to ensure smoothness of Council's decision making process.

The Unit in turn comprises three sub-units, namely Secretariat, Information and Printing.

The Unit commits itself to providing efficient printing service to Council & business units; quality minutes and efficient record keeping of all minutes of Council and its committees.

In an attempt to improve its performance in so far as it concerns the quality management of minutes the Unit introduced various levels of accountability to check agendas and minutes so as to minimize errors and material amendments respectively. In addition, the decisions of Executive and Management Committees are electronically captured at meetings and confirmed at the end of each meeting so as to speed up the implementation of thereof.

COMMENT ON THE PERFORMANCE OF THE EXECUTIVE AND COUNCIL:

In the 2011/2012 financial year the new committee system introduced in the previous financial year was implemented. The portfolio committees held meetings on a regular basis and this can be seen in the summary provided above. Msunduzi Municipality was also able to meet the legislative deadlines in the development and submission of the Annual Performance Report for 2010/2011, Annual Report 2010/2011, Oversight Report 2010/2011 and also the Section 72 Mid-Year Budget & Performance review.

9.2 FINANCIAL SERVICES

INTRODUCTION TO FINANCIAL SERVICES

The Financial Services Unit comprises of the following sections, namely:

- Budget & Treasury
- Expenditure
- Revenue Management
- Supply Chain Management

National Key Performance Area for this business unit is a financial viability management. Programmes pertaining to the sections are as follows:

- Budget & Treasury-Compliance and Annual Financial Statement
- Expenditure-Trade and Sundry Payments, Payment of all invoices within 30 days, management of general insurance fund, remuneration management
- Revenue Management-Credit Control and billing, policies
- Supply Chain-Supply chain management

COMMENT ON THE PERFORMANCE OF FINANCIAL SERVICES OVERALL:

The high vacancy rate in the unit is a cause for concern, and it negatively affects the performance of this unit. The current organogram does not follow the format as suggested by National Treasury. This matter will be addressed in the new proposed organogram to be adopted in the 12/13 financial year.

9.3 HUMAN RESOURCE SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

The Human Resources Service in the Msunduzi Municipality comprises two process units, namely;

THE HUMAN RESOURCES DEVELOPMENT PROCESS UNIT

The core function of the Human Resources Development Process Unit is to facilitate the training and development of staff in line with the strategic priorities of the Integrated Development Plan of the Msunduzi Municipality and the identification of interventions that will assist in the smooth transformation of the Organisation. This Unit has two sub-sections, Skills Development and Organisational Development.

HUMAN RESOURCES MANAGEMENT & EMPLOYEE RELATIONS PROCESS UNIT

Human Resources Management and Employee Relations (HRM & ER) encompass Personnel, Job Evaluation, Systems and Remuneration Management, Employee Relations and Occupational Health, Safety and Loss Control and Employment Equity sub-units.

Human Resources Management is responsible for recruitment, selection, placement, remuneration of staff and employee wellness. Employee Relations is responsible for ensuring that all Labour related pieces of legislation are being adhered to and that the relationship between the employer and its employees is properly regulated. There are five Human Resources Support Services Managers rendering an HR support service on a day-to-day basis to the Strategic Business units.

The HR unit's strategic direction takes account of key social, political, economic, employment, technological and demographic trends impacting on individuals, communities and business across Msunduzi's area of jurisdiction.

By scanning both the internal and external environment, the business unit is able to confront and address key organisational, employee and community challenges facing the Msunduzi Municipality and develop responses that support the Cities' goals.

The HR strategy is informed and guided by the five-year strategic priorities as adopted by the IDP. The plan takes its strategic direction from the following City goals:

1. To create a knowledge based organizational in support of efficient and effective monitoring and evaluation, decision making, providing strategic direction and qualify customer service delivery
2. Improve working conditions, safety and capacity of our workforce

TABLE 161: HUMAN RESOURCES POLICY OBJECTIVES TAKEN FROM IDP

COMMENT ON THE PERFORMANCE OF HUMAN RESOURCE SERVICES OVERALL:

The Human Resources performance in 2011/2012 was limited in that the Msunduzi Municipality underwent tremendous budgetary constraints following a provincial intervention in the organization. Training was to a minimum due to a lack of budget and there were only 1 capital project. The intervention directed the organization on a re-structuring exercise which became a focus of HR performance within the year. Determination and review of HR policies and procedures for an effective and procedural lead service was a priority whilst under administration and post administration.

9.4 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)

Our mission is to be a respected internal service provider to all stakeholders of Msunduzi Municipality in order to enable efficient administration and service delivery using technologies that are proven and cost-effective. We will provide a portfolio of ICT related services to the Municipality and promote ICT as an enabler of technical service delivery. We will further strive to provide citizen-centric ICT offerings to the Community. It is our intention to reach a COBIT maturity level of 3 within 3 calendar years.

SERVICE DELIVERY PRIORITIES

Enhancing Municipal processes

- Service Level agreements
- ICT capabilities are an integral part of all job and person specifications
- Single source of data and knowledge
- Proper Policies and procedures
- Rollout of infrastructure across the city

Collaboration

- Portal offering of services to the community
- Introduction of appropriate architecture that supports collaboration and authentication
- Whole-of-life electronic portfolios are available for each consumer
- A new system provides an integrated set of functions to support all aspects of the municipality

Data for analysis and reporting come from a single source

- A corporate data model and associated corporate data repository are established
- A centralized operational data store
- A quality assured set of financial data provides reporting on the financial health and informs policy and planning

Management of ICT assets achieves maximum value from investment

- Policies and procedures for ICT asset management are implemented across the municipality
- An automated progressive audit of all ICT assets is undertaken
- ITIL best practice methodology for ICT service management, with an initial focus on ICT infrastructure and contracts management, is implemented
- A configuration management database is established for all assets

ICT supports and enhances organizational effectiveness

- Consumers make use of internet based financial systems for payment, receipting, recording and reporting
- A single system supports payroll and personnel management and incorporates employee self-service capabilities
- ICT improves processes and systems by introducing workflows, systems integration and automation of manual processes

Economic Development Enabling

- Broadband strategy in conjunction with Province
- Fibre-city concept
- Provision of data connectivity to all businesses and residences
- Local free phone calls (033)

9.5 LEGAL SERVICES

INTRODUCTION TO LEGAL SERVICES

Constitutional and other legal imperatives require local government to participate in and develop extensive legal relationships. As social change agents local government interacts with individuals, interest groups, the private sector and other organs of state in a number of ways. Needless to say, Legal Services play a crucial role in such interaction.

Our essential and top priority has always been to minimize legal risk to the Municipality, whether it is on a proactive or reactive basis. This is done in relation to a number of activities, including civil court matters, the supply of sound legal advice and negotiating agreements.

During the past year particular emphasis was placed on ensuring that legal opinions and comments were timeously provided. In this regard, Legal Services has emphasized to customer business units that providing all the relevant facts accurately and timeously is an absolute prerequisite for timeous and sound legal advice. Much progress has been made in this regard.

The role of Legal Services as a key support service has also been firmly entrenched during the past year. Business units are now required to refer all committee reports to Legal Services for input.

No professional can perform without being provided with the necessary “tools of the trade.” In this regard we identified that our resource material and library was inadequate to service our needs. With the necessary support, we acquired Lexis Nexus in electronic format.

We also drafted a Service Charter and commenced a review of key bylaws.

Lastly, a fundamental step in improving our service has been the formal allocation of specific responsibilities to specific incumbents within the business unit. With limited resources available, this step contributed to better productivity.

SERVICE STATISTICS FOR LEGAL SERVICES

Legal Services play a crucial role in the interaction between the municipality as social change agent and individuals, interest groups, the private sector and other organs of state. Its activities include but are not limited to:

- advising on and developing legally sound and binding policies and legislation in relation to local government's constitutional mandates,
- interpreting and advising on the application of the Bill of Rights and the Constitution, not only to individuals and juristic persons, but also other organs of state in the national and provincial spheres, including the so-called “parastatals” such as Telkom, Eskom and Water Boards,
- negotiating and drafting of contracts and other legal instruments,
- instituting and defending of claims in various forms, including interdicts, declarators and summonses,
- prosecuting bylaws and regulations in the criminal courts, and
- interpreting and advising on the application of a myriad of other statutes relating to municipalities. In this regard, there are extreme misconceptions about the knowledge - depth and -range actually expected from a legal advisor in the local sphere.

It can be safely claimed that the vast bulk of work performed by Legal Services takes place behind the scene and as such it is easy to miscalculate or misjudge the outputs performed by the unit. In addition to the activities outlined above and indeed, the items formally placed on our SDBIP, Legal Services:

- provide legal comments on all reports initiated by other business units, on a daily basis,
- regularly attend various formal committees, sub-committees, working groups of the Municipality, including portfolio committees, the Executive Committee, the Bid Evaluation and Bid Adjudication Committees. In addition we regularly attend impromptu meetings requested by customer units,
- frequently coordinate, plan and direct or manage the activities of a single business unit or multidisciplinary municipal teams in relation to a particular legal issue, problem or objective,
- consider and evaluate approximately 20 new insurance claims against the municipality every month,
- act, where required, as Prosecutors or Chairpersons of Disciplinary hearings.

For the purpose of this document, emphasis will only be placed on two of the key activities performed by Legal Services, namely delictual claims and prosecutions. These statistics therefore do not reflect the total output by Legal Services.

Delictual court claims and court interdicts:

Work on these matters involves daily management of court pleadings and extensive legal processes, including but not limited to correspondences with opposition attorneys, pre-trial procedures and court attendances. These procedures are extensively regulated by; inter alia, the Rules of Practice in the High and Magistrate's Courts.

The Contingency Liabilities -report reflects that during the 2011/2012 - financial year, Legal Services had to manage a total of **136 delictual court cases and interdicts**. **The vast majority of this work was performed in-house.**

Criminal Prosecutions:

The work in these matters involve all those processes in prosecuting persons in the criminal courts, including the consideration of evidence presented by Peace Officers, drafting of charge sheets where necessary, liaising with the Court and lawyers representing the accused. Ultimately, Legal Services represent the municipality in court. These procedures are extensively regulated by the Criminal Procedure Act, 51 of 1977.

Information received from the Clerk of Court reflects that during the 2011/2012- financial year, Legal Services had to attend to approximately **300 entries in the Court Roll**. These entries include remands of cases, applications for and the confirmation of warrants and other processes normally associated with criminal courts. **All the prosecutions are performed in-house.**

COMMENT ON THE PERFORMANCE OF LEGAL SERVICES OVERALL:

Legal Services performed reasonably well during 2011/2012. Whilst some areas of its operations have been improved upon, there are still a number of challenges. These include the filling of existing vacancies, not only those in legal advisory positions, but also support staff. With limited staffing and the huge emphasis being placed on regular management and compliance reporting, much time is spent on pure administrative issues whilst, at the same time, legal issues and processes offer no compromise on deadlines. Another challenge is to strengthen and standardize internal administration, especially in relation to record keeping and archiving. All these challenges inevitably impact on its ability to focus on its core business.

9.6 SUPPLY CHAIN MANAGEMENT

INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (SCM)

- The Msunduzi Municipality's Supply Chain Management unit is a support function for all business units within the council to ensure provision of efficient, transparent, fair, equitable and cost effective procurement services hence assisting them to implement their service delivery priorities.
- In terms of the MFMA SCM regulations the SCM unit is established to implement the SCM policy adopted by council.
- It operates under the direct supervision of the chief financial officer or an official to whom this duty has been delegated in terms of section 82 of the Act

Core Functions

- Demand management;
- Acquisition management;
- Logistics management;
- Disposal management;
- SCM risk management; and
- Performance management

The supply chain management policy for the year 2011/2012 was adopted by Council in 29 September 2011 in term of SCM Regulation 3 (1) (a) and implemented immediately thereafter, this was the second review since 2005. The main change made to the policy was to bring it in line with the structure of the SCM regulations. The aim was to establish a credible base from which the business processes can be developed.

Further review of the current SCM policy was done in December 2011 to further align the policy to Preferential Procurement Regulations 2011, issued in terms of the section 5 of the preferential Procurement Policy Framework Act, Number 5 of 2000 (PPPFA). The Regulations were published in the Government Gazette on 08 June 2011 the new regulations aims to align the Preferential Procurement Policy Framework Act, 2000 and the Broad – Based Black Economic Empowerment Act, 2003 effective from 7 December 2011, issued by National treasury.

An SCM implementation plan was developed and implemented throughout the year and quarterly reports on implementation were submitted to Council.

TABLE 173: IMPLEMENTATION CHECKLIST

Supply Chain Management

Municipality Details	Answers
Name of Municipality	KZ225 Msunduzi
Contact Person (name):	Dudu Ndlovu
Email address:	dudu.ndlovu@msunduzi.gov.za
Phone:	033 392 2472
Name of the Head of the SCM Unit (if different to above):	N/A

	Question	Answer	Comment on progress	Date for completion	Official(s) responsible
1	Has the Council adopted a SCM policy in terms of SCM regulation 3?	Yes	N/A	N/A	Head: SCM
2	How many staff are employed by the SCM Unit? (show full time staff equivalent, a person shared with another function or working part-time on SCM is shown as a fraction)	51	30 of the 51 employees are from the stores which includes a majority of general workers and petrol attendants	N/A	N/A
2.1	How many positions are unfilled, ie waiting for an appointment? (full time equivalent)	52	SCM Head post advertised in November 2011, the 13 other vacancies will be filled in 12/13	2012/13	DMM:HR
2.2	Has a job description been developed for each position within the SCM Unit?	Yes	N/A	N/A	N/A

Question		Answer	Comment on progress	Date for completion	Official(s) responsible
3	Has a detailed implementation plan for SCM been developed?	Yes	N/A	N/A	Head: SCM
3.1	If "YES", is progress regularly measured against the implementation plan?	Yes	Progress on the Procurement Plan is updated monthly	N/A	Head: SCM
4	Is a report on the implementation of the SCM Policy provided to the mayor (within 10 days of the end of each quarter (reg 6(3))	Yes	N/A	N/A	Head: SCM
5	SCM Processes:				
5.1	Is the necessary needs assessment undertaken before each acquisition?	Yes	N/A	N/A	Manager Demand and acquisition
5.2	Are preferential policy objectives identified to be met through each contract?	Yes	N/A	N/A	Manager: Contract Management
5.3	Is the performance of vendors regularly monitored?	Yes	Monthly assessments are done by the monitoring officer and reported to Council on a quarterly basis	N/A	Monitoring officer
5.4	Are SCM processes independently monitored to ensure the SCM policy is followed and desired objectives achieved?	Yes	N/A	N/A	IA
6	Are the threshold values contained in the SCM Policy aligned with the values stipulated in regulation 12?	Yes	N/A	N/A	N/A
6.1	If "NO" are the values contained in the SCM Policy higher than that stipulated in regulation 12?	NO	N/A	N/A	N/A
7	Do municipal bid documents comply with MFMA Circular No 25?	Yes	N/A	N/A	SCM Practitioners
8	Do municipal bid documents include evaluation criteria for use by the bid evaluation and adjudication committees?	Yes	N/A	N/A	Manager: Contract Management
9	Regulation 46 requires the SCM Policy to establish a code of conduct.				
9.1	Is the Code of Conduct issued by NT in MFMA Circular No 22 utilised?	Yes	N/A	N/A	Head: SCM
9.2	Are measures in place to ensure all SCM practitioners are aware of the SCM code of conduct?	Yes	All practitioners have signed the code of conduct.	N/A	Head: SCM
10	Are all delegations in terms of SCM roles and responsibilities in writing (other than delegations contained in the SCM Policy)?	Yes	But not yet adopted by Council	31/05/2013	CFO

Question		Answer	Comment on progress	Date for completion	Official(s) responsible
11	Prior to making an award above R30 000 the municipality or municipal entity must check with SARS whether that persons tax matters are in order (reg 43 and MFMA Circular No 29). Is this being complied with?	Yes	N/A	N/A	SCM Practitioners
12	Please confirm if records are kept of the following:				
12.1	Petty cash purchases?	Yes	Creditors department are the custodian of these records	N/A	Creditors Manager
12.2	Written or verbal quotations received and awards made?	Yes	Creditors department are the custodian of these records	N/A	Creditors Manager
12.3	Tenders and all other bids received and awards made?	Yes	Records are kept at SCM offices	N/A	Manager Demand and acquisition
13	Are all invitations for bids above R30 000 advertised for at least 7 days on the website and official notice board? (reg 18(a))	Yes	N/A	N/A	SCM Practitioners
13.1	In addition, are all invitations for competitive bids publically advertised in newspapers commonly circulating locally? (reg 22(1))	Yes	N/A	N/A	SCM Practitioners
14	Is the "list of accredited prospective providers" required by regulation 14 updated at least quarterly?	Yes	N/A	N/A	Manager: Demand and acquisition
15	Is there a database established to record redundant and obsolete store items?	Yes	N/A	N/A	Logistics Manager
16	Are debriefing sessions held with unsuccessful bidders?	No	Written regret letters are sent and on request meetings are set.	N/A	SCM Practitioners
17	Training SCM practitioners				
17.1	Has a training strategy for SCM practitioners been developed?	Yes	N/A	N/A	HR
17.2	What is the 2011/2012 budget for the training of SCM practitioners?		R140 000.00	N/A	N/A
17.3	Has the municipality or entity used an outsourced training provider for SCM, other than SAMDI?	Yes	Cool Ideas	N/A	N/A
17.4	If "yes" to 17.3 please list below the names of training provider(s) used to date (expand this box if necessary)				
	.		Cool ideas T/A ESP consulting	N/A	N/A
	.				

Question			Answer	Comment on progress	Date for completion	Official(s) responsible
17.5	Indicate the number of officials who have attended the SCM training conducted by SAMDI?			None	N/A	N/A
17.6	Indicate the number of officials who have attended SCM training conducted by training providers other than SAMDI?			23	N/A	N/A
18	Has as SCM procedure manual been developed to assist officials implement the SCM policy, consistent with the MFMA, regulations, circulars and the Accounting Officers Guidelines?		Yes	N/A	N/A	N/A
19	Bid Committee membership:					
19.1	Does the Bid Specification Committee membership comply with regulation 27?		Yes	N/A	N/A	N/A
19.2	Does the Bid Evaluation Committee membership comply with regulation 28?		Yes	N/A	N/A	N/A
19.3	Does the Bid Adjudication Committee membership comply with regulation 29?		Yes	N/A	N/A	N/A
19.4	Has regulation 29(4), which stipulates that a member of a bid evaluation committee or an advisor may not be a member of a bid adjudication committee, been breached?		No	N/A	N/A	N/A
20	Procurement of IT related goods and services:					
20.1	Are you aware that SITA can assist with the procurement of IT related goods and services (regulation 31)		Yes	N/A	N/A	N/A
20.2	Have you utilised this facility before?		Yes	N/A	N/A	N/A
21	Does the SCM Policy provide for an effective system of risk management for the identification, consideration and avoidance of potential risks in the SCM system? (reg 41(1))		Yes	N/A	N/A	N/A

COMMENT ON THE PERFORMANCE OF SUPPLY CHAIN MANAGEMENT OVERALL:

In terms of the MFMA SCM regulations, the SCM policy of the municipality must provide for a system of demand, acquisition, logistics, disposal, risk and performance management, and the current policy has been aligned to provide for that.

Demand management

The preferential policy objectives were identified at a global level hence during the 2011/2012 financial year a procurement plan was established and the procurement preferential preference points were set on how these objectives will be met for each contract for the new financial year was developed.

Acquisition Management

Thresholds as per section 12 of the SCM regulations has been set and complied with throughout the year.

A thorough review of the bid documentation was done to ensure full compliance with circular 25 and the latest SCM regulations and to ensure full compliance with circular 25 for the 2011/2012 financial year.

It was also noted that the following provisions of the SCM regulations were not fully complied with during the financial year, this will however be rectified in the new financial period; Regulations 42, 44 and 38 (i).

Logistics management

An effective system of logistics management has been established. The continuous interrogation of inventories and improvements on systems and processes has yielded positive results in that there is a progressive reduction of stock holdings. Although purchases are slightly higher than last year, there is ongoing liaising with end user sector departments on inventory holdings and have been able to utilize slow moving stock to good advantage. There is a marked improvement on utilizing cable stock that has been held for a long period, which had a positive impact on purchases and has contributed to the reduction in purchases as per the graph below. The savings realized over the three year cycle amounts to R 14.2 million

Disposal management

An effective system of disposal management has been established and detailed processes developed to ensure compliance with section 40 of the SCM regulations.

Disposal Committee was also established during the 2011/2012 financial year.

Risk Management

The monitoring tool was established during 2011/2012 and the implementation commenced in 01 April 2012. The contracts are being monitored on monthly basis, though there is a human capital challenge as there is only one monitoring officer. Also measures are now being put in place to ensure identification, consideration and avoidance of potential risks in the supply chain management system in accordance with section 41 of the SCM regulations. The supply chain management operational risk register was established and is in place.

Performance Management

A SCM policy and procedures database that ensures compliance and monitoring of compliance with the SCM regulations and processes has been developed and implemented. The database enforces the accountability to all individuals involved in SCM and to ensure that SCM processes are independently monitored to ensure that the SCM policy is followed and desired objectives are achieved.

Training of SCM Practitioners and Bid Committees

SCM Management, SCM practitioners and Bid Committee members were all trained during 2011/2012 as per SCM Regulation 8 in accordance with Treasury guidelines on supply chain training to meet the competency level required for supply chain practitioners. Further training is being provided over a period of two years that consist of 20 modules.

CAPITAL PROJECTS OF THE MUNICIPALITY

1. Copesville water scheme: ward 29: construction of a 20ml reservoir, portable water pump station and associated pipework at a value of R32 229 530.17
2. Expression of interest - New England landfill site upgrade at a value of R8 304 421.20
3. New England Road widening: phase ii at a value of R10 644 761.40
4. Proposal call for turnkey contract-design and construction of 33kv overhead lines to Hilton at a value of R14 884 760.00
5. Specialist contract: non-revenue water reduction programme refurbishment of joint seals and defective concrete in Hathorns reservoir at a value of R2 712 365.00
6. Construction of Msunduzi athletic track at a value of R1 455 252.75
7. Upgrade of Waterfall Road in Edendale- Esgodini at a value of R1 975 802.40

9.7 INTERNAL AUDIT

INTRODUCTION TO INTERNAL AUDIT

Internal Audit is an independent, objective, assurance and consulting activity designed to add value and improve the municipality's operations. The unit assists the municipality to accomplish its objectives through a systematic, disciplined approach to evaluate and improving the effectiveness of risk management, system of internal control and governance processes.

COMMENT ON THE PERFORMANCE OF INTERNAL AUDIT OVERALL

The Internal Audit unit has made significant progress in the completion of our annual audit plan in relation to the slow start of 2010/11. In 2010/11 and partly 2011/12 the municipality, being under administration shifted its focus to one of sustainability. During 2011/12 the unit completed 49% of its annual audit program and facilitated the process of compiling the municipality's risk register. The focus in 2012/13 is to widen the scope of the audits undertaken and this is represented by a 38% increase in the number of audits to be completed in 2012/13 over that planned for in 2011/12. The unit will continue to provide support to all areas in council and in doing so add value to service delivery. The Unit is understaffed in its current structure and the structure itself is inadequate but is being reviewed as part of the municipality's organizational structure review. However, financial constrain is still a challenge in as far internal audit unit's budget is concerned but we have a hope that the short fall will be taken care of during the budget adjustment.

IO. COMPONENT J: ORGANIZATIONAL DEVELOPMENT PERFORMANCE

INTRODUCTION TO ORGANIZATIONAL DEVELOPMENT PERFORMANCE

Human Resources of the Msunduzi Municipality consists of the following Units: Personnel; Job Evaluation; Employee Relations; Employment Equity; Skills Development; Organisational Development; Occupational Health and Safety; and HR Management Services.

The Human Resources Unit has a mandate in particular to address the following areas of responsibility:

- Recruitment, selection and employment;
- Labour relations management;
- Pay and leave administration;
- Staff administration;
- Grading and remuneration;
- Sick leave management;
- Employee wellness;
- Rewards and recognition systems;
- Performance management systems for all staff;
- Talent management and succession planning;
- Skills retention initiatives; and
- Staff morale, organisational diagnostics and perception studies.

The Corporate and Human Resources functions and responsibilities address many of the IDP requirements to ensure effective service delivery and community development, these include:

1. To Contribute Towards Employability & Self Employability of Youth and Community.
2. To ensure a competent workforce to achieve organisational objectives.
3. Improve Quality and Management Control Processes.
4. To align the organisational culture to the business objectives to Improve organisational efficacy and measure.

COMMENT ON VACANCIES AND TURNOVER:

The Municipality's assisted education scheme is used as a means of helping interested staff acquire skills to ensure that they are given greater responsibilities. In addition staff is appointed to act in higher level positions as part of their development. Several management and supervisory development programmes are also used for staff development. The annual Workplace Skills Plan identifies training needs for all staff. Managerial and supervisory posts are advertised both internally and externally maintaining the possibility being filled by internal appointments. A strategy has been implemented to assist the municipality in recruiting and retaining identified scarce skills. This strategy aims to bring stability to the employment levels of scarce skilled staff.

The Municipality was under administration which saw the suspension and in some instances the resignation of section 57 managers. The suspension periods have been protracted and a have been a restraint on the posts being filled. The Municipal Manager, the Chief Financial Officer and Section 57: DMM: Infrastructure Services were appointed in the 2011/2012 financial year.

10.2 MANAGING THE MUNICIPAL WORKFORCE

INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

The Municipality has developed and adopted the policy on Staff Retention and Attraction to address the scarce skills phenomenon. It is the belief of the municipality that through recruitment the application of the staff Retention and Attraction Policy will contribute towards assisting the Municipality to meet its objectives as expounded in the IDP.

The objectives of this policy are; besides a payment of remuneration maybe pitched at a market rate of a particular post the Municipality has the scarce skills development strategies. Employees and non-employees are contracted to learnership on scarce skills training, bursaries are granted in some of the following discipline i.e. architects, tour planning, quantity surveyors, engineer, mechanical engineer, land surveyors, professional valuers etc. Coaching and mentoring, job satisfaction surveys and career pathing are part of the Policy. Through the implementation of this policy then a need will rise to develop a succession policy which will be carefully interrogated within the context of retention of the skills in the organization and addressing the growing unemployment even among those young people that have graduated at our institutions of higher learning.

Range of Policies and Management practices

1. Recruitment and Selection
2. Industrial Relations management
3. Pay and Leave Administration
4. Grading and remuneration
5. Sick Leave Management Programmes
6. Internal Climate Surveys
7. Employee Wellness Programmes
8. Training and Development

POLICIES

The Municipality has made much progress in the development of the required workforce policies and procedures. It is constantly reviewing these to ensure their continued applicability and relevancy and develops new policies when required.

COMMENT ON INJURY AND SICK LEAVE:

F1 – F2 Employees posts vacant or filled posts incumbents on suspension and then special leave during the course of 2010/2011.

The following steps were taken during the year to reduce injuries on Duty, sick leave management and follow-up action.

1. **IOD Management and Occupational Disease Monitoring.**
 - 1.1. Comprehensive Safety Management programme in place with scheduled audits for compliance
 - 1.2. On-site first aid and IOD Management
 - 1.3. Initial Assessment by OHN and referral for serious cases
 - 1.4. Facilitation of incident and accident investigation
 - 1.5. Scheduled safety training, and safe work procedures

2. Medical Surveillance

- 2.1. Pre-placement, periodic, transfer, and scheduled medical examinations based on occupational risk exposure profiles
- 2.2. Audiometry and hearing monitoring
- 2.3. Spirometry and respiratory programme

3. Preventative Programmes

- 3.1. Immunisation programmes
- 3.2. Occupational post exposure prophylaxis for needle stick injuries
- 3.3. Trauma de-briefing for workers exposed to traumatic events

4. Incapacity and Medical Board Assessment management

- 4.1. Return to work assessments
- 4.2. Disability management

5. Sick leave Management

- 5.1. Multidisciplinary approach to sick leave management
- 5.2. Active surveillance of employee absenteeism rate
- 5.3. Profiling sick leave frequency and trends
- 5.4. Home visits, liaison with treating medical practitioner
- 5.5. Awareness and liaison with medical practitioners found to issue frequent and generous sick leave
- 5.6. Medical assessment of employees taking frequent and long episodes of sick leave
- 5.7. Facilitate medical assessments for incapacity
- 5.8. Address causes of sick leave identified, eg. Lifestyle, substance abuse, financial problems through wellness interventions

6. Sick leave management linked to HIV and AIDS

- 6.1. Occupational Health diagnostic, clinical and support programme
- 6.2. VCT drives
- 6.3. Wellness follow-up care for HIV positive employees at the Occupational Health clinic
- 6.4. Referral for ARV treatment

7. Employee Relations

TABLE 189: NUMBER AND PERIOD OF SUSPENSIONS

Position	Nature of Alleged Misconduct	Date of suspension	Details of Disciplinary Action taken or status of case and reasons why it is not finalized	Date Finalized
Personnel Manager	Various irregularities	Provincial Intervention Team	Action Current, poor capacity for Disciplinary process in organisation	Employee has returned to work. Discipline to continue
Manager: Supply Chain Management	SCM	Provincial Intervention Team	Action Current, poor capacity for Disciplinary process in organisation	Employee has returned to work. Discipline to continue
Manager: Contracts	SCM	Provincial Intervention Team	Action Current, poor capacity for Disciplinary process in organisation	Employee has returned to work. Discipline to continue
Manager: Consolidated Billing	Various irregularities	Provincial Intervention Team	Action Current, poor capacity for Disciplinary process in organisation	Employee has returned to work. Discipline to continue

TABLE 189: NUMBER AND PERIOD OF SUSPENSIONS (Continued)

Position	Nature of Alleged Misconduct	Date of suspension	Details of Disciplinary Action taken or status of case and reasons why it is not finalized	Date Finalized
Contracts Officer	Provincial Intervention Team	Provincial Intervention Team	Action Current, poor capacity for Disciplinary process in organisation	Employee has returned to work. Discipline to continue

TABLE 190: DISCIPLINARY ACTION TAKEN ON CASES OF FINANCIAL MISCONDUCT

Position	Nature of alleged misconduct and rand value of any loss to the municipality	Disciplinary action taken	Date Finalised
Manager : SCM	Provincial Intervention Team	Provincial Intervention Team	Not Yet Finalised
Manager : SCM	Provincial Intervention Team	Provincial Intervention Team	Not Yet Finalised
Manager: Speakers Office	Various SCM/False Documents	Provincial Intervention Team	Not Yet Finalised
Coordinator: Speakers Office	Various SCM/False Documents	Provincial Intervention Team	Not Yet Finalised
Contracts Officer	Provincial Intervention Team	Provincial Intervention Team	Not Yet Finalised

COMMENT ON SUSPENSIONS AND CASES OF FINANCIAL MISCONDUCT:

The Municipality has just emerged from administration. The suspensions have, in many instances, extended beyond a year. The incumbents have been permitted to return to work, outside of their substantive posts, the disciplinary process to continue. The disciplinary procedures were being conducted by the Provincial Intervention team, outside of the control of the Employee Relations Unit.

10.3 PERFORMANCE REWARDS

The Municipality has not yet effectively implemented performance Management within the organization. Performance management is not being cascaded to the employees beyond the section 57, performance contract Employees. 2010/2011 saw no performance reward beneficiaries, including Section 57 employees.

TABLE 191: PERFORMANCE REWARD BY GENDER

Designation	Gender	Total number of employees in group	Number of beneficiaries	Expenditure on rewards 2011/12 R'000s	Proportion of beneficiaries within group %
Lower Skilled (Levels 1-2)	Female	0	0	0	0
	Male	0	0	0	0
Skilled (Levels 3-5)	Female	0	0	0	0
	Male	0	0	0	0

	Male	0	0	0	0
Senior Management (Levels 13-15)	Female	0	0	0	0
	Male	0	0	0	0

TABLE 191: PERFORMANCE REWARD BY GENDER (Continued)

Designation	Gender	Total number of employees in group	Number of beneficiaries	Expenditure on rewards 20011/12 R'000s	Proportion of beneficiaries within group %
MM and S57	Female	0	0	0	0
	Male	3	0	0	0
Total:		3	0	0	0

Note: No performance bonuses were paid. Councillor started the implementation of the performance agreements for the first three levels of management and it will be incrementally cascaded down to other levels of employees.

IO.4 CAPACITATING THE MUNICIPAL WORKFORCE

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

The Municipal Service Act 2000, S68(1) required municipalities to develop their human resource capacity to a level that enables them to perform their functions and exercise their powers in an economical, effective, efficient and accountable way.

The Municipality through Human Resources Development Unit under the Corporate Services Department is the custodian or champion for skills development on behalf of the Municipality. Various training interventions are conducted through different levels in the organisation. There are training programmes that are attended to equip the employee in order to improve the quality and standard of service delivery. The Workplace Skills Plan is developed along the LGSETA guideline. Almost what is due to the municipality in terms of the training rebates is collected on an annual basis in full. Whilst the Human Resources Development Unit is tasked to improve the competency of our employees the unit is also responsible to work in partnership with various departments and training providers and communities to improve the level of skills, knowledge and behaviour of our employees and citizens to be active participants in the city and the economic development and growth of the city.

Capacity Development

The Municipality has several well developed capacity development programmes and systems in place;

1. Annual Workplace Skills Plan
2. Learnership and Apprentices Schemes
3. Study Assistance
4. Internship
5. Adult Basic Education Programmes
6. Management Training Programmes
7. Councillor training Programmes
8. Community Training

This is a statutory report under the national treasury: LG MFMA Regulations

* Based on the MFMA Regulations 29967, 14.4 (a) the number 223 refers to the total number of financial officials employed within the Msunduzi Municipalities Finance Unit.

The number of officials that require must meet the minimum competency regulations are only 54 Officials employed within the Finance and SCM Units and Municipal Entities that are affected by the regulations.

The Msunduzi Municipality has appointed Altimax in December 2011 to train 42 employees on 20 Unit Standards in order for them to comply with the National Competency Regulations. Due to the time frames, a Special Merit Application has been submitted to the National Treasury requesting an extension until the 01 March 2014.

	Male	13		

*% AND *R VALUE OF MUNICIPAL SALARIES (ORIGINAL BUDGET) ALLOCATED FOR WORKPLACE SKILLS PLAN

COMMENT ON SKILLS DEVELOPMENT AND RELATED EXPENDITURE AND ON THE FINANCIAL COMPETENCY REGULATIONS:

The Skills Development Budget was not in line with the Skills Development Levies Act as the Municipality was not budgeting 1% of the salary bill for Skills Development, (monies were re-allocated at mid-year due to non-expenditure). A report was written to MANCO in April 2012 and a resolution has been taken that with immediate effect, the amount that needs to be budgeted for Skills Development will be 1% of the Payroll and that all grants received from LGSETA will be allocated to Skills Development.

In terms of achieving the National Treasury Regulations, a training provider has been appointed to train 37 employees within the Finance and Supply Chain Units. The Municipality has also made use of the SAICA-Deliotte Programme to train 5 Finance Managers and currently 5 Senior Managers.

10.5 MANAGING THE WORKFORCE EXPENDITURE

INTRODUCTION TO WORKFORCE EXPENDITURE

Managing workplace expenditure is governed by Section 66 of the MFMA Act 56 of 2003. The economic challenges faced by the Municipality include, optimizing productivity and rand value, balancing compensation for performance results, the growing dilemma of providing health care and wellness programmes for all employees, hiring and retaining professional staff and raising and addressing the skills levels of all employees.

The strategic and economic challenges are managed through the following programmes:

1. Affirmative Action and Employment Equity
2. Code of Conduct of employees
3. Grievances and disciplinary Procedures
4. Skills Development and Study Assistance
5. Occupational Health and safety
6. Working Hours and Overtime
7. Remuneration scales and allowances
8. Recruitment and Appointments
9. Sexual harassment and Employee Assistance

10. Sick Leave monitoring and management
11. Wellness programmes
12. Injury on duty management
13. Workplace Skills Plans
14. Management and Supervisory development of staff.

Managing a workforce of 3000 permanent employees is a responsibility of Human Resources together with IT Systems Management, through integrated software, Payday.

Financially all vacancies and programmes are approved at the budget period, in line with the strategic focus areas identified in the IDP. Any over expenditure is reviewed and regularized.

COMMENT ON UPGRADED POSTS AND THOSE THAT ARE AT VARIANCE WITH NORMAL PRACTICE:

The Municipality has not yet completed the implementation of the TASK Job Evaluation System. The Organisation was restructured in 2005; at which stage, a new organizational structure was developed. All posts arising from the new organizational structure have not yet been graded. In the absence of graded posts, perceived grades are implemented.

A re-aligned MACRO organizational Structure was approved in 2008. Restructuring process is to commence in 2012/13.

II. COMPONENT K: FINANCIAL PERFORMANCE

All relevant information relating to Financial Performance will be dealt with in terms of the Annual Financial Statements.

SECTION 2: ANNUAL REPORT ON THE SERVICE DELIVERY & BUDGET IMPLEMENTATION PLAN

- 2.1. The Service Delivery and Budget Implementation Plan (SDBIP) is a legislative requirement as per the Municipal Finance Management Act (MFMA).
- 2.2. The SDBIP gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget.
- 2.3. The SDBIP facilitates the accountable role that managers hold to the Council and that Councillors hold to the community.
- 2.4. It also fosters the management, implementation and monitoring of the budget, the performance of senior management and the achievement of the strategic objectives as laid out in the IDP.
- 2.5. Chapter 1 of the MFMA describes the SDBIP as:

A detailed plan approved by the mayor of a municipality in terms of section 53 (1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include the following:

- (a) projections for each month of-
 - (i) revenue to be collected by source; and
 - (ii) operational and capital expenditure, by vote;
- (b) service delivery targets and performance indicators for each quarter".

- 2.6. In terms of the provisions above, IN-YEAR monitoring on service delivery indicators was conducted according to the attached SDBIP on a quarterly basis and reports thereof submitted to the EXCO, the Full Council, Portfolio Committees and the Municipal Public Accounts Committee.
- 2.7. Monitoring through the SDBIP enables the municipal manager to monitor the performance of senior managers, the mayor to monitor the performance of the municipal manager and for the community to monitor the performance of the municipality as each activity contains outputs, outcomes and timeframes. The SDBIP is compiled on an annual basis.
- 2.8. As the SDBIP is a management and implementation tool, and not a policy proposal, it is not required to be approved by Council- it is however tabled before Council and made public for information and monitoring purposes. However, the top layer of the SDBIP cannot be revised without the approval of the Council.
- 2.9. During the 2011/2012 financial year, the municipality implemented a quarterly dashboard reporting process.
- 2.10. The dashboard is colour-coded in order to serve as an early indicator warning system in order to identify areas that require intervention in areas of non/under performance.
- 2.11. Quarterly reports on the SDBIP 2011/2012 were submitted to Council and are available on request.
- 2.12. During the third (3rd) quarter report on the SDBIP, Council took a resolution to remove all those projects which did not have cash-backed funding as the inclusion of these projects resulted in a skewed reporting of performance. These indicators must be catered for, according to available budgetary resources, in outer years of the IDP.

2.13. The graphical representations below illustrate the performance of the municipality, over the four (4) quarters of the 2011/2012 financial year, as per the colour-coded dashboard.

THE COLOUR-CODED DASHBOARD

	TARGET PROJECTS	KEY
	NIL ACHIEVED	
	TARGET PARTIALLY MET	
	TARGET MET	
	TARGET EXCEEDED	
	NOT APPLICABLE	

1 ORGANISATIONAL OVERVIEW

1.1	TOTAL PROJECTS:	326
1.1.1	OPERATING PROJECTS	277
1.1.2	CAPITAL PROJECTS	49

1.2 GRAPHICAL REPRESENTATION OF PERFORMANCE: OPERATING PROJECTS

- 1.2.1. A total of 277 Operating Projects were reported on the SDBIP for the 4th Quarter ending June 2012 and annually for the 2011/2012 financial year.
- 1.2.2. 15.52% of the projects were reported as having Nil Achievements for the 4th Quarter & 17.68% for the financial year.
- 1.2.3. 31.76% of the projects were reported as having been partially met for the 4th Quarter & 39.35% for the financial year.
- 1.2.4. 27.79 of the projects were reported as having been met in the 4th Quarter & 34.65% for the financial year.
- 1.2.5. 7.94% of the projects were reported as having exceeded the target for the 4th Quarter & 6.49% for the financial year.

- 1.2.6. 16.96% of the projects were reported as not applicable due to not having any targets set for the 4th Quarter.

2.1 GRAPHICAL REPRESENTATION OF PERFORMANCE: CAPITAL PROJECTS

ORGANISATIONAL OVERVIEW - CAPITAL PROJECTS 2011/2012
FINANCIAL YEAR QUARTERS 1 - 4 & ANNUAL REPORT

- 2.1.1. A total of 49 Operating Projects were reported on the SDBIP for the 4 Quarter ending June 2012 and annually for the 2011/2012 financial year.
- 2.1.2. 16.32% of the projects were reported as having Nil Achievements for the 4th Quarter & 14.28% for the financial year.
- 2.1.3. 36.73% of the projects were reported as having been partially met for the 4th Quarter & 38.77% for the financial year.
- 2.1.4. 22.44% of the projects were reported as having been met in the 4th Quarter & 32.65% for the financial year.
- 2.1.5. 8.16% of the projects were reported as having exceeded the target for the 4th Quarter & 10.20% for the financial year.
- 2.1.6. 16.32% of the projects were reported as not applicable due to not having any targets set for the 4th Quarter.

SECTION 3: LEGISLATED KEY PERFORMANCE INDICATORS – DEPARTMENT OF COOPERATIVE GOVERNANCE AND TRADITIONAL AFFAIRS

The attached Annexure 'E' is the annual report of the legislated Key Performance Indicators from the Department of Cooperative Governance and Traditional Affairs (CoGTA) in KwaZulu Natal. Quarterly reports of the attached were submitted to CoGTA during the financial year 2011/2012.

CONCLUSION:

This annual performance report reflects the performance of Business Units during the year 2011/ 2012. It is evident that performance across the organization, and at all levels, was largely influenced by the intervention in terms of section 139(b) of the Constitution. As is reflected in the report of the Service Delivery and Budget Implementation Plan, a large proportion of capital projects had either been partially met, met and even exceeded as compared to nil achieved. This is a vast improvement from previous financial years.

The Msunduzi Municipality and its Municipal Entity The Consolidated Annual Financial Statements For the year ended 30 June 2012

I, am responsible for the preparation of these annual financial statements, which are set out on pages 176 to 266, in terms of Section 126(1) of the Municipal Finance Management Act (56 of 2003) and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclose in Note 29 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearer Act and the Minister of Provincial and Local Governments determination in accordance with this Act.

MA Nkosi
Municipal Manager

Accounting Policies

1. Presentation of Consolidated Annual Financial Statements

The consolidated annual financial statement the year ended 30 June 2012 have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

These consolidated annual financial statement the year ended 30 June 2012 have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. They are presented in South African Rand.

These accounting policies are consistent with the previous period.

1.1 Significant judgements and sources of estimation uncertainty

In preparing the consolidated annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the consolidated annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the consolidated annual financial statements. Significant judgements include:

1.2 Consolidation

Basis of consolidation

The consolidated annual financial statement the year ended 30 June 2012 incorporate the annual financial statements of the municipality and the municipal group.

The consolidated annual financial statements of the municipality and its municipal group are used in the preparation of the consolidated annual financial statements and are prepared as the same reporting date.

The results of municipal entity, are included in the consolidated annual financial statements from the effective date of acquisition. Where necessary adjustments are made to the consolidated annual financial statements of the municipal group to bring their accounting policies used in line with those of the municipality.

All intra-group transactions, balances, revenues and expenses are eliminated in full on consolidation.

1.3 Going concern assumption

- The technical feasibility of the product or process can be demonstrated;
- The existence of a market or, if to be used internally rather than sold, its usefulness to the economic entity can be demonstrated;
- Adequate resources exist, or their availability can be demonstrated, to complete the project and then market or use the product or process; and
- The asset must be separately identifiable.

In terms of the accounting standard GRAP 1 paragraphs 27 to 30 the annual financial statements are prepared on a going concern basis. The assumption is based on the fact that the municipality may invoke its power to levy additional rates or taxes to enable the municipality to be considered as a going concern even though the municipality will be operational for extended periods with negative net assets. The administration imposed by the provincial department of Corporate Governance and Traditional Affairs (COGTA) in terms of section 139(b) of the Constitution was lifted on the 1st of January 2012. This lead to the appointment of the Municipal Manager in terms of section 82(1)(a) of the Municipal Structures Act on the 1st January 2012.

1.4 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

1.4 Property, plant and equipment (Continued)

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Major spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment. In addition, spare parts and stand by equipment which can only be used in connection with an item of property, plant and equipment are accounted for as property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses except for X,X and X which is carried at revalued amount being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings when the asset is derecognised.

1.4 Property, plant and equipment (Continued)

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings as the asset is used. The amount transferred is equal to the difference between depreciation based on the revalued carrying amount and depreciation based on the original cost of the asset.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life
Land	Infinite
Furniture and fixtures	7 - 10 years
Infrastructure	
• Roads and paving	5 - 100 years
• Pedestrian malls	30 years
• Electricity	10 - 100 years
• Water	10 - 100 years
• Sewerage	10 - 100 years
• Storm Water	20 years
• Housing	3 - 30 years
Community	
• Buildings	10 - 50 years
• Recreational facilities	10 - 100 years
• Security	5 years
• Watercraft	15 years
Other property, plant and equipment	2 - 5 years
Office equipment	3 - 7 years
Other	
• Vehicles	5 years
• Bins and containers	5 years
• Landfill sites	7 years
• Specialised vehicles	10 years
• Specialised property, plant and equipment	10 - 15 years

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

1.5 Intangible assets

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the economic entity or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity; and
- the cost of the asset can be measured reliably.

property, plant and equipment are initially recognised at cost.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows. Amortisation is not provided for these property, plant and equipment. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed every period-end.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life
Computer software, internally generated	3 - 5 years
Computer software	3 - 5 years

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss is the difference between the net disposal proceeds, if any, and the carrying amount. It is recognised in surplus or deficit when the asset is derecognised.

1.6 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

1.6 Investment property (Continued)

Initial Recognition:

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the Municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is the cost at date of completion

Subsequent Measurement:

Investment property is measured at fair value. After initial recognition all investment property is measured at fair value at each Statement of financial position date. No depreciation is calculated on these properties. Item Useful life

Property - land indefinite

Property - buildings 5 - 50 years.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of business, are as follows:

1.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

A financial asset is:

- cash;
- a residual interest of another entity; or
- a contractual right to:
 - receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.
- equity instruments or similar forms of utilised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

1.7 Financial instruments (Continued)

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- derivatives;
- combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
 - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and
 - financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Cash and cash equivalents	Financial asset measured at amortised cost
Trade and other receivables from non-exchange transactions	Financial asset measured at amortised cost
Trade and other receivables from exchange transactions	Financial asset measured at amortised cost
Long term receivables	Financial asset measured at amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Long term liabilities	Financial liability measured at amortised cost
Trade and other payables	Financial liability measured at amortised cost

The entity has the following types of residual interests (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The entity measures a financial asset and financial liability initially at its fair value (if subsequently measured at fair value).

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at amortised cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

1.7 Financial instruments (Continued)

Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, an entity calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

Gains and losses

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The entity assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting.

The entity derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity :
 - derecognise the asset; and
 - recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognised in surplus or deficit in the period of the transfer.

1.7 Financial instruments (Continued)

If the entity transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognise either a servicing asset or a servicing liability for that servicing contract. If the fee to be received is not expected to compensate the entity adequately for performing the servicing, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing, a servicing asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

1.8 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Finance leases – lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the municipality's incremental borrowing rate.

The lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

1.9 Inventories

Inventories are initially measured at cost except where inventories are acquired at no cost, or for nominal consideration, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the economic entity incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the formula. The same cost formula is used for all inventories having a similar nature and use to the economic entity.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.10 Non-current assets held for sale (and) (disposal groups)

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets held for sale (or disposal group) are measured at the lower of its carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

1.11 Impairment of cash-generating assets

Cash-generating assets are those assets held by the economic entity with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Identification

The economic entity assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the economic entity estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the economic entity also test a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the economic entity estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the economic entity applies the appropriate discount rate to those future cash flows.

Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.11 Impairment of cash-generating assets (Continued)

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the economic entity determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the economic entity use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Reversal of impairment loss

The economic entity assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

1.11 Impairment of cash-generating assets (Continued)

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

1.12 Impairment of non-cash-generating assets

Cash-generating assets are those assets held by the economic entity with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Non-cash-generating assets are assets other than cash-generating assets.

Identification

The economic entity assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the economic entity estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the entity also test a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Value in use

Value in use of an asset is the present value of the asset's remaining service potential.

The present value of the remaining service potential of an asset is determined using the following approach:

Depreciated replacement cost approach

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the economic entity would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

Restoration cost approach

Restoration cost is the cost of restoring the service potential of an asset to its pre-impaired level. The present value of the remaining service potential of the asset is determined by subtracting the estimated restoration cost of the asset from the current cost of replacing the remaining service potential of the asset before impairment. The latter cost is determined as the depreciated reproduction or replacement cost of the asset, whichever is lower.

1.12 Impairment of non-cash-generating assets (Continued)

Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Reversal of an impairment loss

The economic entity assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the economic entity estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

1.13 Employee benefits

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

1.13 Employee benefits (Continued)

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measure the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognise the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits: Defined contribution plans

When an employee has rendered service to the entity during a reporting period, the entity recognise the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

Where contributions to a defined contribution plan do not fall due wholly within twelve months after the end of the reporting period in which the employees render the related service, they are discounted. The rate used to discount reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the obligation.

Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognise actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Assets held by a long-term employee benefit fund are assets (other than non-transferable financial instruments issued by the reporting entity) that are held by an entity (a fund) that is legally separate from the reporting entity and exists solely to pay or fund employee benefits and are available to be used only to pay or fund employee benefits, are not available to the reporting entity's own creditors (even in liquidation), and cannot be returned to the reporting entity, unless either:

- the remaining assets of the fund are sufficient to meet all the related employee benefit obligations of the plan or the reporting entity; or
- the assets are returned to the reporting entity to reimburse it for employee benefits already paid.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the entity recognise past service cost as an expense in the reporting period in which the plan is amended.

Plan assets comprise assets held by a long-term employee benefit fund and qualifying insurance policies.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The return on plan assets is interest, dividends and other revenue derived from the plan assets, together with realised and unrealised gains or losses on the plan assets, less any costs of administering the plan (other than those included in the actuarial assumptions used to measure the defined benefit obligation) and less any tax payable by the plan itself.

1.13 Employee benefits (Continued)

The entity account not only for its legal obligation under the formal terms of a defined benefit plan, but also for any constructive obligation that arises from the entity's informal practices. Informal practices give rise to a constructive obligation where the entity has no realistic alternative but to pay employee benefits. An example of a constructive obligation is where a change in the entity's informal practices would cause unacceptable damage to its relationship with employees.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly;
- plus any liability that may arise as a result of a minimum funding requirement

The amount determined as a defined benefit liability may be negative (an asset). The entity measure the resulting asset at the lower of:

- the amount determined above; and
- the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of these economic benefits is determined using a discount rate which reflects the time value of money.

Any adjustments arising from the limit above is recognised in surplus or deficit.

The entity determine the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the consolidated annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The entity recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses;
- past service cost;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, an entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, an entity shall attribute benefit on a straight-line basis from:

- the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The entity recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- any resulting change in the present value of the defined benefit obligation; and
- any resulting change in the fair value of the plan assets.

1.13 Employee benefits (Continued)

Before determining the effect of a curtailment or settlement, the entity re-measure the obligation (and the related plan assets, if any) using current actuarial assumptions (including current market interest rates and other current market prices). When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is (OR is not) presented as the net of the amount recognised for a reimbursement.

The entity offsets an asset relating to one plan against a liability relating to another plan when the entity has a legally enforceable right to use a surplus in one plan to settle obligations under the other plan and intends either to settle the obligations on a net basis, or to realise the surplus in one plan and settle its obligation under the other plan simultaneously.

Actuarial assumptions

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
 - those changes were enacted before the reporting date; or
 - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

Pension Obligations

The municipality and its employees contribute to 7 different Pension Funds, of which 2 (The Natal Joint Provident and Retirement Pension Fund) cater for the majority of the staff.

Natal Joint Retirement Funds, Government Employee Pension Fund and Associated Institution Pension Fund are defined benefit funds.

The Natal Joint Provident Fund, Pietermaritzburg and South African Local Authority are defined contribution funds.

The schemes are funded through payments to financial consultant companies or trustee-administered funds, determined by periodic actuarial calculations.

The Municipality has both defined benefit and defined contribution plans.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. A defined contribution plan is a pension plan under which the Municipality pays fixed contributions into a separate entity. The Municipality has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

For defined contribution plans, the Municipality pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Municipality has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

1.14 Provisions and contingencies

Provisions are recognised when:

- the economic entity has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the economic entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of a activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the economic entity

No obligation arises as a consequence of the sale or transfer of an operation until the economic entity is committed to the sale or transfer, that is, there is a binding arrangement.

1.14 Provisions and contingencies (Continued)

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 44.

1.15 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the economic entity has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the economic entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the economic entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the economic entity;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by .

Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

1.15 Revenue from exchange transactions (Continued)

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Royalties are recognised as they are earned in accordance with the substance of the relevant agreements.

1.16 Revenue from non-exchange transactions

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

1.17 Conditional Grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

1.18 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

1.19 Borrowing costs

It is inappropriate to capitalise borrowing costs when, and only when, there is clear evidence that it is difficult to link the borrowing requirements of an entity directly to the nature of the expenditure to be funded i.e. capital or current.

1.19 Borrowing costs (Continued)

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.20 Translation of foreign currencies

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At each statement of financial position date:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous consolidated annual financial statement the year ended 30 June 2012 are recognised in surplus or deficit in the period in which they arise.

When a gain or loss on a non-monetary item is recognised directly in equity, any exchange component of that gain or loss is recognised directly in equity. When a gain or loss on a non-monetary item is recognised in surplus or deficit, any exchange component of that gain or loss is recognised in surplus or deficit.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

1.21 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.22 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote;
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.23 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.24 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.25 Budget information

The consolidated annual financial statements and the budget are not on the same basis of accounting therefore a reconciliation between the statement of financial performance and the budget have been included in the consolidated annual financial statements. Refer to note 58.

1.26 Related parties

The NCT tree farming (Pty) Ltd manages timber plantations established on Council owned land on behalf of the Council by a management agreement. NCT is entitled to a 5% management fee based on net profit.

1.27 Housing development fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

1.28 Investments

Where the carrying amount of an investment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

1.29 Use of Estimates

The preparation of consolidated annual financial statements in conformity with Generally Recognised Accounting Practice requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the economic entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated annual financial statements are disclosed in the relevant sections of the consolidated annual financial statements. Although these estimates are based on management's best knowledge of current events and actions they may undertake in the future, actual results ultimately may differ from those estimates.

1.30 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP, GRAP or GAAP.

1.31 Grant in aid

The Msunduzi Municipality transfers money to individuals, institutions and organisations. When making these transfers, The Municipality does not:

Receive any goods or services directly in return, as would be expected in a purchase or sale transaction
Expect to be repaid in future; or

Expect a financial return, as would be expected from an investment

These transfers are recognised in the financial statements as expenses in the period that the events giving rise to the transfer occurred.

1.32 Correction of prior period errors

When accounting errors have been identified in the current year, the correction is applied retrospectively as far as it is practicable and the prior year comparatives are restated accordingly. When there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as it is practicable and the prior year comparative is restated accordingly.

1.33 Issued capital

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Notes to the Consolidated Annual Financial Statements

2. New standards and interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the economic entity has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:

- GRAP 1 (as revised 2010): Presentation of Financial Statements
- GRAP 2 (as revised 2010): Cash Flow Statements
- GRAP 3 (as revised 2010): Accounting policies, Changes in Accounting Estimates and Errors
- GRAP 4 (as revised 2010): The Effects of Changes in Foreign Exchange Rates
- GRAP 9 (as revised 2010): Revenue from Exchange Transactions
- GRAP 10 (as revised 2010): Financial Reporting in Hyperinflationary Economies
- GRAP 11 (as revised 2010): Construction Contracts
- GRAP 12 (as revised 2010): Inventories
- GRAP 13 (as revised 2010): Leases
- GRAP 14 (as revised 2010): Events After the Reporting Date
- GRAP 16 (as revised 2010): Investment Property
- GRAP 17 (as revised 2010): Property, Plant and Equipment
- GRAP 19 (as revised 2010): Provisions, Contingent Liabilities and Contingent Assets
- GRAP 100 (as revised 2010): Non-current Assets Held for Sale and Discontinued Operations
- GRAP 5 : Borrowing costs
- GRAP 6 : Consolidated Separate Financial Statements
- GRAP 7 : Investments in Associates
- GRAP 8 : Investments in Joint Ventures

2.2 Standards and Interpretations early adopted

The economic entity has chosen to early adopt the following standards and interpretations:

Standard/ Interpretation:

- GRAP 24: Presentation of Budget Information in the Financial Statements
- GRAP 25: Employee benefits
- GRAP 104: Financial Instruments

2.3 Standards and interpretations issued, but not yet effective

The economic entity has not applied the following standards and interpretations, which have been published and are mandatory for the economic entity's accounting periods beginning on or after 01 July 2012 or later periods:

Standard/ Interpretation:

- | | |
|---|---------------|
| • GRAP 18: Segment Reporting | 01 April 2013 |
| • GRAP 23: Revenue from Non-exchange Transactions | 01 April 2012 |
| • GRAP 103: Heritage Assets | 01 April 2012 |
| • IGRAP 1: Interpretation of GRAP: Applying the Probability Test on Initial Recognition of Exchange Revenue | 01 April 2014 |
| • GRAP 21: Impairment of non-cash-generating assets | 01 April 2012 |
| • GRAP 26: Impairment of cash-generating assets | 01 April 2012 |
| • IGRAP 2: Changes in Existing Decommissioning, Restoration and Similar Liabilities | 01 April 2014 |
| • IGRAP 3: Determining Whether an Arrangement Contains a Lease | 01 April 2014 |
| • IGRAP 4: Rights to Interests Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds | 01 April 2014 |
| • IGRAP 5: Applying the Restatement Approach under the Standard of GRAP on Financial Reporting in Hyperinflationary Economies | 01 April 2014 |
| • IGRAP 6: Loyalty Programmes | 01 April 2014 |

2. New standards and interpretations (Continued)

• IGRAP 7: The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction	01 April 2014
• IGRAP 8: Agreements for the Construction of Assets from Exchange Transactions	01 April 2014
• IGRAP 9: Distributions of Non-cash Assets to Owners	01 April 2014
• IGRAP 10: Assets Received from Customers	01 April 2014
• IGRAP 13: Operating Leases – Incentives	01 April 2014
• IGRAP 14: Evaluating the Substance of Transactions Involving the Legal Form of a Lease	01 April 2014
• IGRAP 15: Revenue – Barter Transactions Involving Advertising Services	01 April 2014
• IGRAP 11: Consolidation – Special purpose entities	01 April 2014
• IGRAP 12: Jointly controlled entities – Non-monetary contributions by ventures	01 April 2014

2.3 Standards and interpretations issued, but not yet effective

5. Trade and receivables from exchange transactions (Continued)

Credit quality of consumer debtors

The credit quality of consumer debtors that are neither past nor due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counter party default rates. Although credit quality can be assessed the entity did not apply any methods to evaluate the credit quality.

Consumer debtors impaired

The amount of the provision was R 584 042 761 as of 30 June 2012 (2011: R 525 990 243).

6. Cash and cash equivalents

Cash and cash equivalents consist of:

Cash on hand	1,222,181	1,046,900	44,985	44,985
Bank balances	65,722,023	52,250,779	65,722,023	52,250,779
Short-term deposits	561,104,238	281,608,001	561,104,238	281,608,001
	628,048,442	334,905,680	626,871,246	333,903,765

Average rate of return	5.09	6.02	5.09	6.02
------------------------	------	------	------	------

Cash and cash equivalents are classified as financial instruments under the loans and receivable category. Due to the short term nature of these investments no amortisation was performed. Fair value is taken at face value.

No cash and cash equivalents were pledged as security for any financial liabilities.

No restrictions exist with regard to the use of cash.

No portion is past due or impaired.

These amounts best represent the maximum exposure to credit risk at the end of the reporting period, without taking account of any collateral held or other credit enhancements.

Credit quality of cash at bank and short term deposits, excluding cash on hand

The credit quality of cash at bank and short term deposits, excluding cash on hand that are neither past due nor impaired can be assessed by reference to external credit ratings. Although credit quality can be assessed the Municipality did not apply any methods to evaluate the credit quality.

The municipality has the following bank accounts

Msunduzi Municipality

Pledged as security

No property, plant and equipment was placed as security for financial liabilities.

Refer to Appendix B for the detailed property, plant and equipment schedules.

Fully depreciated assets.

All assets that were fully depreciated in the asset register had their useful lives reviewed in the 2011/2012 financial year. This was processed retrospectively and in terms of GRAP 3 treated as a prior period error.

During the financial year useful life of property, plant and equipment has been reviewed, the estimated useful life for certain assets has been adjusted.

9. Investment property (Continued)				
Details of valuation				
Investment property has been accounted for in terms of GRAP 16 and comprises of both land and buildings owned by the Msunduzi Municipality. Investment property will not be depreciated but will be annually valued on balance sheet date to determine their fair value as prescribed in GRAP 16.				
Mills Fitchet has been awarded the tender for the valuation and identification of all investment property of the Msunduzi Municipality. The deliverables of the project included:				
<ul style="list-style-type: none"> • A comprehensive deed search • Providing separate land and building values • Identifying Investment property • Providing a data fact sheet for each property identified with information on the street address, SG 21 digit key (Erf, stand, portion), property description, GIS information and a photograph of the property. 				
The method applied in updating the investment property data in the asset register was:				
<ul style="list-style-type: none"> • Vacant land was reviewed to determine future use and if no future use could be determined then it was classified as investment property. • Properties with valid rental and lease agreements were deemed to be investment properties. • All buildings have been identified and classified as investment property 				
Restrictions on the realisability of investment property or the remittance of revenue and proceeds of disposal are as follows:				
Contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements is as follows:				
In the exceptional cases when the municipality have to measure investment property using the cost model in the Standard of GRAP on Property, Plant and Equipment when the municipality subsequently uses the fair value measurement, disclose the following:				
<ul style="list-style-type: none"> • a description of the investment property, • an explanation of why fair value cannot be determined reliably, • if possible, the range of estimates within which fair value is highly likely to lie, and • on disposal of investment property not carried at fair value: <ul style="list-style-type: none"> • the fact that the entity has disposed of investment property not carried at fair value, • the carrying amount of that investment property at the time of sale, and • the amount of gain or loss recognised.

Fair value information

Financial assets at fair value through surplus or deficit are recognised at fair value, which is therefore equal to their carrying amounts.

Fair value through surplus or deficit - impaired

Other financial assets at fair value through surplus and deficit are not considered to be impaired.

The municipality has not reclassified any financial assets from cost to fair value, or from fair value to cost or amortised cost during the current or prior year.

Loans and receivables impaired

No portion of these loans were impaired as at 30 June 2012.

Credit quality of other financial assets

The credit quality of long term receivables that are neither past due nor impaired can be assessed by reference to external credit ratings. Although can be assessed the entity did not apply any methods to evaluate the credit quality.

No portion of the long term receivables was pledged as security for financial liabilities.

No long term receivables defaulted and no terms of long terms receivables were re-negotiated.

These amounts best represent the maximum exposure to credit risk at the reporting period , without taking of any collateral held or other credit enhancement.

For debt securities classified as at fair value through surplus or deficit, the maximum exposure to credit risk at the reporting date is the carrying amount.

11. Other financial liabilities

Held at amortised cost				
External loans	619,538,347	554,024,880	619,538,347	554,024,880

	311,926	281,850	311,926	281,850

19. Employee benefit obligations

Defined contribution and benefit plan

The Council provides retirement benefits to its employees by contributing to a either a pension or provident fund. Membership to either a pension or provident fund is compulsory for all permanent employees.

The majority of the members and the Council contributes to the Natal Joint Municipal Pension (NJMP) and Provident funds, employees contributing to South African Local Authorities Pension Fund (SALA), Associated Institution Pension Fund (AIPF), Pietermaritzburg Provident Fund and Government Employees Pension Fund (GEPP). Employees contributing to SALA, AIPF, Pietermaritzburg Provident Fund and GEPP make up the minority of members contribution to the pension funds.

The Msunduzi Municipality's liability in these funds can not be determined owing mainly to the assets not being allocated to each employer and one set of financial's being compiled for each fund and not for each contributing employer.

The majority of personnel are members of the following pension funds:

Kwa-Zulu-Natal Joint Municipal Provident Fund.

An interim actuarial valuation was performed on 31 March 2011 by Arthur Els and Associates Consulting Actuaries .

Results of the valuation.

The Fund self-insures its risk benefits in excess of the full benefit. It therefore maintains a Risk Reserve Account as a measure of protection against volatility in claims experience. The amount of R15 072 000 is required to be held in the Risk Reserve Account. The market value of the assets exceeded the liabilities before the declaration of the April 2011 bonus by (R156,000).

Figures in Rand	Economic entity		Controlling entity	
	2012	2011	2012	2011

19. Employee benefit obligations (Continued)

The Fund is financially sound as at the valuation date.

Benefits of the fund:

- * Pension age - 65 years
- * Earliest retirement age - 58 years (55 years if more than 10 years continuous service)
- * Full benefit - Initial transfer plus member's contributions plus employer's contributions for full benefits plus investment earnings and bonuses.
- * Member's portion of full benefits - Initial transfer plus members contributions plus local authorities contributions for full benefits plus interim, special and final bonuses
- * Benefit on retirement after earliest retirement age or pension age - Full benefit.
- * Benefit on retirement because of ill health - Full benefit
- * Benefit on death in service - Full benefit plus 0.7% of annual pensionable salary for each month of potential service to a maximum of 2.1 years salary.

Contributions of the fund :

- * Members contributions

Members may choose to contribute at a rate of 5%, 7% or 9.25% of their pensionable emoluments in terms of regulation 14(a)

- * Local Authorities Contributions Participating employers contribute at a rate of 1.95 times of the rate of members contribution in terms of regulation 17(1)(b)

Benchmark: The benchmark asset allocation determined as being appropriate for the fund, which takes cognisance of membership and liability profile, is stated below :

Domestic Investments:	953,561,000
International Investments	68,085,000
Risk Reserve Account	15,072,000
Unallocated Assets (deficit)	156,000
Membership	9,542

Natal Joint Municipal Pension Fund: (Retirement) Interim actuarial valuation

An interim actuarial valuation was performed on 31 March 2011 by Arthur Els and Associates Consulting Actuaries .

The market value of the Fund's assets was R 5, 614,553,000 as at 31 March 2011.

The Discounted Cash Flow (DCF) method of valuation has been applied for the purposes of determining the Fund's financial condition. The funding level in respect of contributory members has deteriorated reducing from 95.9% to 90.9%. The primary reason for this is that salary increases averaged 13% per annum over the valuation period which is doubled the 6.5% per annum expected in the valuation assumption.

On the DCF funding level has decreased and the overall shortfall has increased. The valuation disclosed a surplus of R315.5 million in respect of pensioners and a shortfall of R549.5 million in respect of members.

The regulations of the fund have been amended with effect from 1 July 2004, so that the Committee of Management is able to levy a separate surcharge on local authorities which grant excessive salary increases, thereby causing a financial strain on the Fund to the detriment of other stakeholders.

The employers are no longer permitting members to join the Fund, so that it is effectively closed to new members. This means that the average age will increase over time which, in turn, means that the required rate of contribution will also increase.

Figures in Rand	Economic entity		Controlling entity	
	2012	2011	2012	2011

19. Employee benefit obligations (Continued)

Thus, once the surcharge ceases, the underlying rate of contribution will not be sufficient to meet the cost of the benefits. It is necessary to set aside a reserve to hold assets equal to the expected shortfall. For this reason a "Contribution Reserve is held equal to the present value of the shortfall in terms of the Financial Services Board's Circular PF117 for the 5 years to 2015 when it is expected that the surcharge will cease.

Benefits:

- * Members Contributions - 7% of Pensionable salaries plus a surcharge of 1,65 % of pensionable salary in respect of members who were members at 30 June 2002.
- * Pension age 65 Years
- * Final average Salary - Average annual pensionable salaries during the last year of service.
- * Pension on retirement at pension age - 2.1% of final average emoluments per year of continuous service.
- * Lump sum on retirement at pension age - 5.5% of final average emoluments per year of service.
- * Pension on retirement because of ill-health (minimum ten years continuous service) - Pension as for retirement at pension age.
- * Lump sum on retirement because of ill-health (minimum 10 years continuous service) - Lump sum as for retirement at pension age.
- * Lump sum on retirement because of ill health (less than ten years continuous service) - The greater of the resignation benefit or twice the members contributions.
- * Surviving Spouses pension on death in service - 1,05% of final average emoluments per year of continuous service that the member would have had at the pension age.
- * Surviving Spouses pension on death of pensioner - 1,05% (0,77% in the case of a pensioner who retired before 1 July 1999) of final average emoluments per year of continuous service.
- * Lump sum on death in service - Annual pensionable emoluments.
- * Withdrawal - members contribution plus 5/12% for each month of continuous service (the addition is approximately equal to compound interest at 10% a year) and increased by 5% for each complete year of service up to a maximum of 20 years.

Post retirement medical aid contributions.

The municipality operates on 6 accredited medical aid schemes, namely Bonitas. Discovery Health, Hosmed, Key-Health, LA Health and SAMWU Medical Aid Scheme. Pensioners continue on the option they belonged to on the day of their retirement.

The last post-employment health care benefits actuarial valuation in terms of IAS19 was done by Ernst & Young for the period ending 30 June 2010. The valuation undertaken in accordance with the requirements of Professional Guidance Note (PPN) 301 of the Actuarial Society of South Africa.

For the 2011/2012 financial period there were no actuarial valuation done and is staff benefit provision based on the last valuation that was undertaken by Ernst and Young during the 2009/2010 financial period. A new valuation will be undertaken in the future in terms of IAS 19 or GRAP 25 when effective.

According to the last valuation the accrued liability amounted to R 332,7 million as at 30 June 2011. The estimated projection for 2011/2012 amounted to R 359,8 million that needs be recovered over a two year period.

A reconciliation of Msunduzi's accrued liability for the year ending 30 June 2012 is set out below:

Year ended 30 June 2012

Opening balance	332,720,000	310,120,000	332,720,000	310,120,000
Service cost	12,180,000	10,520,000	12,180,000	10,520,000
Interest cost	27,100,000	24,000,000	27,100,000	24,000,000

The landfill site provision represents management's best estimate of the municipality's rehabilitation liability based on an valuation provided by an external consultant on the remaining useful life of the landfill site.

Contract Q50 of 10/11 - Appointment and provisional programme for closure costing of the New England Road landfill site - was awarded to Jeffares and Green in June 2011.

Alien vegetation provision.

According to the National Environmental Management Act, 1998 (Act No. 107 of 1998) the municipality was encouraged to recognise a provision in this regard.

The Department of Agriculture has since 2006 provided considerable support to the Msunduzi Municipality in terms of clearing listed alien invasive plants.

The Msunduzi Municipality's involvement and responsibility is effectively operational support to the Department of Agriculture terms of clearing listed alien invasive plants.

General valuations on properties are performed every 4 years in terms of the Municipal Property Rates Act. The last general valuation came into effect on 1 July 2009. Supplementary valuations are take place on an annual basis to take into account building additions, changes, sub divisions and consolidations.

A general rate of 1.89 cents in a rand for 2012 - (2011: 1.78 cents in a rand) is applied to property valuations to determine assessment rates.

The adjustments during the year are compiled of all interim assessments, corrections and amendments to the accounts. This includes any transfer of payments, penalty reversals and value changes. A list of adjustments is available on a monthly basis and form part of the scope .

24. Service charges

Sale of electricity	1,212,660,157	1,011,458,928	1,212,660,157	1,011,458,928

31. Impairment of assets

Impairments

Property, plant and equipment	-	156,028	-	156,028
Investment property	585,791	-	585,791	-
Inventories	-	1,103,748	-	1,103,748
	585,791	1,259,776	585,791	1,259,776

Inventory - Due to technological changes the inventory has become redundant.

The main classes of assets affected by impairment losses are:

Investment property

Contract Supply Chain Management (SCM 15 of 11/12) was awarded to Mills Fitchet (Natal) Pty Ltd to revalue and update the fixed asset register with complete records of investment property owned by the municipality.

Impairment of investment property was performed because the municipality had identified old and dilapidated buildings which added no contributory value to the investment property.

42. Prepaid electricity

Commissions - are calculated on sales from prepaid electricity sales made by vendors on behalf of the Council. The commissions are included in the general expenses category of the statement of financial performance.

In the 2006/2007 financial year two vendors had defaulted in depositing amounts received from prepaid sales. As a result no commission was paid to them. The defaulting vendors are Sweet waters and Phayiphini who had ceased trading in January 2007 and October 2006 respectively.

The amounts of R55 723 and R75 896 respectively are deemed to be irrecoverable for the 2005/2006 financial year. Also the amounts of R13 980 and R15 671 being the movements for the 2006/2007 year are deemed irrecoverable .

This matter is being handled by the legal division in conjunction with the SAPS- Commercial branch unit and Venn Nemeth & Hart attorneys.

46. Events after the reporting date

The assets and liabilities attached with the primary health care service department of their municipality have been presented as a discontinued operation following a Council decision dated 29 April 2011 to transfer the primary health care service department to the KwaZulu-Natal Provincial Government. The agreed date of transfer is 1 August 2012. The non current assets are to be transferred at no cost or compensation to the municipality as per Council resolution dated 27 June 2012.

47. Discontinued operations or disposal groups or non-current assets held for sale

The decision was made by the accounting officer to discontinue these operations due the lack of return on investment.

The revenue and expenditure of the discontinued service is set below.

Surplus / Deficit

Revenue				
Grants and subsidies	3,266,965	12,488,226	3,266,965	12,488,226
Sundry	15,301	320	15,301	320
Expenditure

51. Unauthorised expenditure

Depreciation and asset impairment	21,071,373	136,390,573	21,071,373	136,390,573
Finance charges	-	570,740	-	570,740
	21,071,373	136,961,313	21,071,373	136,961,313

Depreciation is calculated as an estimate on the approved budget and taking in to account the previous years depreciation.

The following two factors are not considered when depreciation is estimated:

1. Depreciation as captured in the statement of financial performance is inclusive of offset depreciation which includes depreciation on revaluations.
2. Variances do occur due to asset reclassification, revaluations and review of useful lives of assets.

52. Electricity, water & inventory losses

Units purchased - kWh	1,752,171,161	17,521,752,171,161	1,752,171,161	1,752,171,161
Units sold - kWh	1,514,431,630	1,552,609,369	1,514,431,630	1,552,609,369
Loss - kWh	237,739,531	199,561,792	237,739,531	199,561,792
Electricity loss as a percentage	13	11	13	11
Electricity loss in Rand value	119,063,582	82,413,730	119,063,582	82,413,730

The acceptable norm of electricity loss is 3%. The significant electricity losses of 237,739,531 kWh (2011 - 199,561,792 kWh) occurred during the year under review, which resulted in material revenue losses to the municipality.

The loss above the norm is due to theft, distribution losses, illegal tampering of electricity meters and can also be attributable to the ageing infrastructure.

Figures in Rand	Economic entity		Controlling entity	
	2012	2011	2012	2011

52. Electricity, water & inventory losses (Continued)

The following targets were set for the reduction of electricity losses:

- Physical audits will be carried out on all electricity meters
- Tampered meters will be removed and customers will be required to make good on debt before reinstatement.
- Where meters have been disconnected and reconnections have not been paid for, night checks will be done to ascertain whether customers have illegally reconnected the meter
- Provision has been made in the 2012/2013 capital budget for the acquisition of protected structures for housing the electricity meters.
- Customers will thereafter not have access to the electricity meters and this will assist in combating theft of electricity

Water losses

Units purchased - KI	66,801,851	61,846,351	66,801,851	61,846,351
Units sold - KI	39,643,638	39,031,160	39,643,638	39,031,160
Losses - KI	27,158,213	22,815,191	27,158,213	22,815,191
Apparent losses - KI	(7,061,135)	(1,393,188)	(7,061,135)	(1,393,188)
Real losses - KI	20,097,078	21,422,003	20,097,078	21,422,003
Water loss as a percentage	30	35	30	35
Water loss in Rand value	75,116,846	75,459,006	75,116,846	75,459,006

The acceptable norm in developing countries of water loss is 20%. The significant water losses of 20,097,078 KI (2011: 21,422,003 KI) occurred during the year under review, which resulted material revenue losses to the municipality.

The loss above the norm is due to theft, distribution losses, illegal tampering of water meters and can also be attributable to the ageing infrastructure.

The following targets were set for the reduction of water losses:

- Design of 10 new pressure reducing valves - 30 new pressure reducing valves were designed
- Commissioning of 8 new pressure reducing valves
- Optimisation of 50 existing PRV zones
- Completion of leak detection and repair activities on approximately 1 350km of reticulation
- Inspection and repair of 10 reservoirs
- Replacement of 5km of existing AC pipelines

The following achievements were made in the reduction of water losses:

- Design of 30 new pressure reducing valves
- Recommissioning of 8 new pressure reducing valves zones
- All zones were prepared for optimizations however due to budget constraints broken meters were not repaired and no installing of new meters could be done.
- Completed 1350km of leak detection
- 10 reservoirs were inspected however only one reservoir was repaired due to budget constraints
- Replacement of 3.485km of existing AC pipelines due to budget constraints.

Inventory losses

Central Stores - net write up of general ledger	132,048	408,486	132,048	408,486
---	---------	---------	---------	---------

In the 2011 financial year, the following remedy has been implemented to control the movement of stock within the stores environment, the stores unit has created a separate dispatching and receiving bay to restrict the unnecessary cross flow of stock that is being received and stock that is being issued. The results of the implementation of this measure is twofold.

- Firstly there is a check at the dispatch area of the number of items as per the requisition by a storeman and an assistant, the result of this is that we have seen a huge reduction in the number of shortages that have been reported on, as compared to previous years. Secondly the creation of the receiving bay were all items that are ordered by council are received except goods that are to be delivered to on-site locations has assisted in the reduction of short receipts on council orders. We have a stock monitor person that is tasked with the monitoring of materials delivered to on-site locations.

Cable stores - net write down of general ledger	-	(72,491)	-	(72,491)
---	---	----------	---	----------

Figures in Rand	Economic entity		Controlling entity	
	2012	2011	2012	2011

52. Electricity, water & inventory losses (Continued)

The 2010 variance arose through the theft of cable from the cable yard. Copper is a high value commodity in the scrap metal market place. The thefts took place over a period of time and all have been reported to the South African Police as well to the Municipality's Internal Security division.

The 2011 write down is primarily due to the theft of copper cable at the cable yard. The South African police have been informed and various cases of theft have been opened. The following remedy has been implemented and has since yielded positive results:

- The cable yard though being fenced off is further secured with a security guard a guard dog as well as intruder sensors during the night shift, we have relocated all the copper cable drums and these are being stored in a secure lockable storeroom.
- During the day the gate leading to the cable yard is locked and only when a request for cable is received is the gate unlocked and opened, the number of personnel entering the cable yard are also restricted to the crew that is requesting the cable.

For the 2011 financial year the Edendale store has been closed and all stores issues are being made from the central stores department.

In 2011 quarterly inventory counts have been performed. An inventory management plan has been drafted which indicate the procedures that have been implemented with regard to receipts, issuing, safeguarding and physical verification of stores items. Monthly reconciliation's are also being performed. A inventory policy is being drafted as part of the Supply Chain Management policies and procedures.

53. Traffic fines outstanding

As per NATIS - traffic department

Notice of intention to prosecute - 341's	3,019,600	892,900	3,019,600	892,900

57. Change in estimate

Landfill rehabilitation provision

The New England Road landfill site provisional programme closure was awarded to Jeffares and Green in June 2011. The useful life of the landfill site was estimated in 2011 to be 10 years. The landfill site provision represents management's best estimate of the municipality's rehabilitation liability based on an valuation provided by an external consultant. The effect of this revision has increased the provision by R 2 036 237.

58. Comparison of budget against actual

Refer to Appendix G for the statement of comparatives of budgets against actuals.

59. Risk management

Financial risk management

The municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The municipality's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, municipality treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the group to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored.

Market risk

An internal audit investigation was conducted during the 2010/2011 financial year. Discrepancies were identified and are in the process of being investigated and internal audit has been scheduled for follow up during the 2012/2013 financial year.

60. Going concern

The consolidated annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SAFE CITY MSUNDUZI (PTY) LTD

Report on the financial statements

We have audited the annual financial statements of Safe City Msunduzi (Pty) Ltd, which comprise the directors' report, the balance sheet as at 30 June 2012, the income statement, the statement of changes in equity and cash flow statement for the year then ended, a summary of significant accounting policies and other explanatory notes, as set out on pages 282 to 292.

Directors' responsibility for the financial statements

The company's directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards for Small and Medium-sized Entities, and in the manner required by the Companies Act of South Africa. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements fairly present, in all material aspects, the financial position of the company as at 30 June 2012, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards for Small and Medium-sized Entities, and in the manner required by the Companies Act of South Africa.

Supplementary information

Without qualifying our opinion, we draw attention to the fact that the supplementary schedule set out on page 292 does not form part of the annual financial statements and is presented as additional information. We have not audited this schedule and accordingly do not express an opinion on it.

Report on other legal and regulatory requirements

With the written consent of all shareholders, we have performed certain accounting and secretarial duties.

INDEPENDENT COMPILER'S REPORT TO THE MEMBERS OF SAFE CITY MSUNDUZI (PTY) LTD

We have compiled the annual financial statements of Safe City Msunduzi (Pty) Ltd based on information provided by management. These financial statements are presented in accordance with International Financial Reporting Standards for Small and Medium-sized Entities, and in the manner required by the Companies Act, 2008 of South Africa. They comprise the directors' report, the balance sheet as at 30 June 2012, the income statement, the statement of changes in equity and cash flow statement for the year then ended, a summary of significant accounting policies and other explanatory notes, as set out on pages 282 to 292.

Management responsibility for the financial statements

The company's management are responsible for these financial statements, including adoption of the applicable reporting framework, and the accuracy and completeness of the information used to compile the financial statements.

Compiler's responsibility

We performed this compilation engagement in accordance with International Standard on Related Services 4410, Compilation Engagements. This Standard requires that we comply with quality control standards and relevant ethical requirements, including ethical principles of integrity, objectivity, professional competence and due care.

A compilation engagement involves applying expertise in accounting and financial reporting to assist management in preparing and presenting financial information. A compilation engagement does not include gathering evidence for the purpose of expressing an audit opinion or a review conclusion. Accordingly, we do not express an audit opinion or a review conclusion on these financial statements.

SAFE CITY MSUNDUZI (PTY) LTD

CHAIRMAN'S REPORT FOR THE YEAR ENDED 30 JUNE 2012

Background

Safe City Pietermaritzburg was formally constituted as an Association incorporated under section 21 of the Companies Act on 28 March 2002. Its establishment followed a long period of research and planning undertaken under the guidance of Mr Des Winship and colleagues who constituted the Board of the local organisation then known as Business Against Crime. Initially, the organisation's Board, conceptualised as a partnership between the Municipality and the private sector, and was chaired by the Mayor at the time, Cllr Hloni Zondi. Other representatives of the Municipality also sat on Safe City Board of Directors. In the course of time, legislation prohibited these representatives from holding directorships and Safe City Pietermaritzburg lost the advantage of having direct Municipal input into decision-making. The intervention Team that took over Msunduzi Municipality administration, raised concerns that according to the MFMA that it is illegal to fund an organisation registered under section 21, and therefore, in order for Safe City to comply, it has to register as a (Pty) Ltd company. To ensure that Safe City complies with the MFMA, it deregistered as a section 21 company, and registered as Safe City Msunduzi (Pty) Ltd in December 2010 thereby remaining legal as an entity of Msunduzi Municipality.

Representation on the Board aside, the partnership is governed by an agreement by which the Municipality would make the necessary financial resources available for the operation of the organisation as well as the capital expenditure required to extend the CCTV surveillance to other parts of the city. While it is understood that the Board cannot include representatives of the Municipality, the organisation has felt for some time that its work is hampered by a lack of regular and constructive communication with its funding body. Despite numerous requests, to date no Municipal official has been nominated to represent council as an observer on the Safe City Board. All the people who have directed this project through both the planning and operational phases have done so on a voluntary basis and it remains a principle of the Board that there is no remuneration to its directors.

Directors

The following persons are Directors of Safe City Msunduzi (Pty) Ltd. It must be noted that there are still vacancies to be filled to have a fully composition management of the Board.

Ms. Z Sokhela - Director of BP Cascades, Past President and Member of PCB, UFET Council, UKZN Council and current chairperson of the Safe City Board of Directors.

Mr. D Kambouris - Past Chairman of BFC, Member of Community Chest and current Safe City Accounting Officer.

Mr D Winship - Retired CEO: Huletts Aluminium, Retired Executive, Director of Tongaat Hulett Group, Member of BFC, Director of Life Line and founder member of Safe City.

Mr V C Biggs - Retired Director: McCarthy, Member of Allison Homes, Member of SAVS/NCW, Member of BFC and founder member of Safe City.

Mrs D Harrison - Director: Lifeline PMB T/A Lifeline and Rape Crisis, Member of BFC, Member of Community Chest.

Mr K Vorster - Financial Planner for PSG, Member of BFC. Currently Chairman of Business Fighting Crime, member of the non Ferrous Metal Group as well as the Banking Task Team.

Ms. P Dlamini - Currently Publishing Director for Nutrend Publishers. A former Tutor at UKZN (PMB) and lecturer in the African Languages and Applied Linguistics Departments at the University South Africa (UNISA) and a former IsiZulu Tutor for the American Embassy - South Africa.

Ass Comm. T Davis (ret) - Retired SAPS Area Commissioner: KZN Midlands, Member of Business Fighting Crime and Regional Chairperson: The League of Retired SAPS Members.

Advocate S Magwaza - Senior Council: Director of Public Prosecutions: KwaZulu-Natal.

Ms. Z Kahn - Senior State Prosecutor: Magistrates Court Pietermaritzburg.

Brig. J Reynders - Current Station Commander: S A P S Pietermaritzburg and member of Business Fighting Crime.

Brig. R Gwala - Current Station Commander: S A P S Plessislaer.

Partners

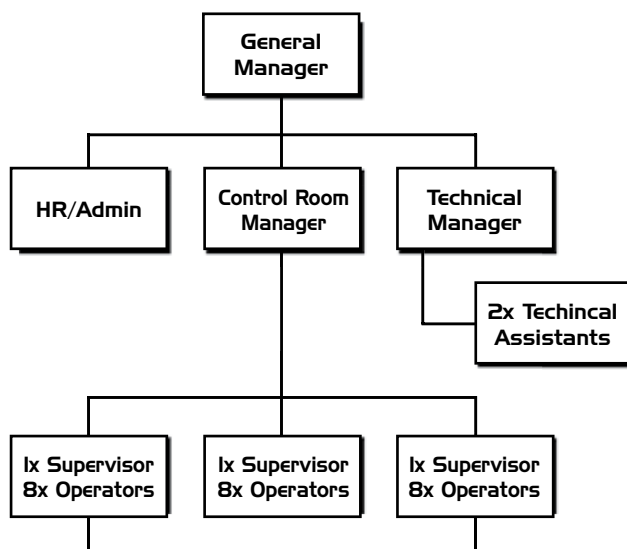

Business Fighting Crime (BFC) remains a sponsor on various activities for Safe City and has borne the costs of marketing an SMS crime alert campaign that was initiated by Safe City in 2008. BFC again made a financial contribution to Safe City for the financial year to the amount of R10 052.

Safe City also received other financial assistance in the form of discounts which will be explained in para 6.4. Safe City considers its partnership with the Msunduzi Municipality and the SAPS to be one of its notable strengths, while it also enjoys constructive relationships with the National Prosecuting Authority, BFC and various Community Police Forums.

Of concern during the 2011/12 financial year was the inability to get adequate response from the Municipal Security Department to respond and apprehend persons responsible for bylaw infringements detected on camera. This matter has been brought to the attention of the Municipal Manager and Deputy Municipal Manager for Community Services. There is also a critical need for Municipal Traffic/Security staff on a near permanent basis in the Control Room. This presence will streamline and expedite Municipal response to the detection of Bylaw infringements. Income from ANPR operation could have been considerably higher if a dedicated Traffic team had been assigned to the project.

Staffing

The current Safe City operating staff consists of:

Total: 30

Particular matters relating to the year 2011 and 2012:

Automatic Number Plate Recognition

The Automatic Number Plate Recognition System (ANPR) was commissioned on the 1st September 2010 and enables the city to generate income from outstanding traffic fines. Results of the ANPR system can be seen in the table below. A Memorandum of Understanding between the Msunduzi Traffic Department and Safe City Msunduzi has been drafted and submitted but not yet approved.

Income generated	Arrests made	Warrants executed
R 1 489 305	1727	2 209

The Safe City Development Committee (SCDC)

The SCDC has ceased to operate which has a negative impact on an opportunity to meet on a monthly basis where matters of mutual interest between the Municipality and Safe City could be discussed, such as the implementation of new bylaws, illegal trading and policing of city bylaws. Progress in the ANPR project is being monitored and any shortcomings are timeously identified and addressed.

Promotion and Marketing of Safe City Msunduzi

In partnership with BFC, Correctional Services, SAPS and the NPA, Safe City exhibited again at the Royal Show in a hall dedicated to the agencies responsible for crime and justice. Safe City again secured a Gold Medallion and was a joint recipient of the President's Trophy for Special Endeavour. The RAS was again used to highlight the existence and importance of the partnership that exist between Safe City, Msunduzi Municipality, National Prosecuting Authority and the South African Police Service. Crime Prevention recommendations flyers were distributed in English and Zulu to visitors. Emphasis was placed on young school children to prevent becoming victims of crime and to report crime.

Regular media releases via local newspapers, electronic media and sms was sent to the public informing them of successes, crime tendencies and gatherings or marches that could disrupt the flow of traffic in the city.

Finance

Upgrading the Moveable Camera operating capacity

During the Municipal strikes in 2011 the need for the rapid deployment of a reliable moveable camera to monitor key installations or potential flash points has been laid bare. The current moveable camera cannot operate if not in line of sight with the Natalia building. On numerous occasions the Joint Operational Centre under the chairmanship of Brigadier Reynders was unable to monitor unrest situations that could have been to the detriment of the city and its inhabitants. Under the guidance of Mr. P v Rensburg of Dihlase Consulting Engineers the Safe City Board of directors took a decision during a Special Board meeting held on 28th March 2012 to urgently upgrade and improve the existing capability of the moveable camera by using reserve operating funds to purchase a new wireless communication system which does not need line of sight with Natalia to operate in a 3km radius from Natalia.

The total cost of the upgrade including shipping and import costs amounted to R 349 806.00. (vat incl.)

Safe City Capital Budget for 2012 and 2013

Safe City applied for R3 500 000 in order to extend the current CCTV footprint to the greater Edendale area by re-commissioning the defunct CCTV camera at Edendale hospital, install CCTV surveillance in the vicinity of the new Edendale Mall, expand CCTV coverage to strategic Municipal sites and improve the viewing facilities in the Disaster Control Room. The expansion to the greater Edendale area would have enhanced security for persons visiting the newly developed business centres, and by monitoring Moses Mabidha Road increase the potential income in respect of the ANPR system. Unfortunately to date, no capital funding was made available to realise the proposed expansion.

Safe City Operating Budget for 2012 and 2013

Safe City has applied for R4 792 000 in order to maintain its high level of service excellence. Unfortunately only R4 500 000 was approved. The increase would have been used to maintain the ageing CCTV infrastructure and also to accommodate staff salary increases in accordance with PSIRA guidelines.

Financial Contributors:

The following local companies and institutions paid for or gave discounts to Safe City in the day to day running of the business:

Name of Company	Value	Period	Event
Business Fighting Crime	R 10 052	Once off and per annum	RAS 2012 stand and Coretalk Monthly lease.
Ben Booysen	R 4 563	Per annum	Reduction in monthly maintenance in air conditioners.
Mikros Traffic Monitoring	R 15 000	Per annum	No increase in monthly lease of ANPR system.
XTEC	R 1236	Per annum	37.5% reduction in standard photocopy machine lease.
Kay Makan	R 6 500	Once off	Donation for RAS 2012 lucky draw prizes.

The audited financial statements of the organisation are attached to this report.

Performance of the Control Centre

Core Functions:

The 24/7 surveillance operation is the core of Safe City's business. It is ISO 9001 certified and SABS approved.

Primary Function:

- The monitoring of traffic and Municipal Bylaws such as littering, street gambling and illegal trading.
- Facilitating the Automatic Number Plate Recognition (ANPR) system for the execution of outstanding traffic warrants and the recovery of outstanding revenue.
- The prevention, detection and investigation of crime.
- The maintenance of the existing CCTV system.
- Advising Msunduzi Municipality on expansion of CCTV system.
- Oversee the design, specification and installation of new CCTV equipment.

Secondary Function:

- Facilitating the Disaster Management JOC.
- The monitoring of gatherings, marches and events of public interest within camera visual area.
- Attend meetings with the Municipality to determine possible additional services.
- Liaise with Community Police Forums, Bank Task Group and Non Ferrous Metal Forum.
- Informing the public and business community regarding current crime tendencies and advise them on crime prevention strategies.
- Receive and disseminate crime information and public complaints via the Safe City SMS Safe project to the relevant role-players.

Standard Procedure

The crime statistics for Pietermaritzburg are submitted to the Control Room every morning by the SAPS. These statistics together with observations made by surveillance is discussed every morning with SAPS coordinator and Municipal Security and Traffic officials, if present. An operational plan is then compiled to address any tendencies detected or planned events. This enables operators to be more crime prevention orientated. All suspicious incidents noted on camera are recorded as an "Incident detected". The SAPS, or Traffic Officer if present in the Control Room, will determine the appropriate response required to address the matter.

The yearly target for SAPS dispatches is between 50% and 60% of incidents detected. A record is maintained of vehicle despatches as compared with incidents detected.

An arrest is made when the suspect is apprehended. It often happens that after an arrest has been made the complainant refuses to open a case. This tendency is very frustrating as suspects then continue to commit crimes elsewhere. The latter is then reflected as a preventable operation.

Summary of Operational Performance: 2011 and 2012

Description	Total for Year	Target for Year	Difference %
No of incidents Detected	3,706	3,672	1%
Response by SAP Units	1,571	1836	14%
Arrests Effected	232	333	33%
SAP Response Time	5.3 min	4 min	33%
% Camera down time	1%	1%	0%

Incidents detected

The total number of incidents detected was 3706 compared to 3403 incidents the previous year. The target for 2011/12 was exceeded by 34 (1%) incidents. These incidents include all matters detected such as fighting, committing crime, suspicious behaviour and motor vehicle accidents. Some of the incidents detected are as follows:

Fighting	1 455
Bylaw Infringements	383
Motor vehicle Accidents	308
Motor vehicles	313
Poss. of Stolen Prop	266
Suspicious behaviour	219
Robbery Related	157
Drug Related	154
Marches and Gatherings	37

Responses by SAP

The total number of responses of the SAPS was 1571 compared to 1471 for the previous year. The target for the year of 1853 (- 14%) was not met. The main reason is that a number of incidents such as fighting had stopped before the SAPS could be dispatched. As SAPS vehicles are always busy attending complaints Safe City will cancel a request for assistance if the need therefore no longer exists in order for vehicles to attend to other serious matters

The number of arrest made was 232 compared to 235 for the previous year.

This is a decrease of 2 (- 0.8%). The target of 333 was not met. It has become increasingly clear that criminals are avoiding the area covered by the cameras and are committing their crimes in unmonitored areas.

Between 76% - 82% of reported serious crime occurred outside camera area. Most reported contact crimes such as assault and rape occurred indoors and would therefore not be detected. Theft of motor vehicles still occurred mostly out of camera view. This matter can be resolved by expanding the CCTV coverage into identified areas provided that the necessary capital funds are available for such expansions

SAP response time

The average response time for SAPS vehicles to respond is calculated from the time of notifying the SAPS Emergency Control Room until a vehicle arrives on the scene. Time was 5.3 min compared to 4.9 min for the previous year. This is 1.3 min more than the target of 4 min. The availability of patrol vehicles during peak times and traffic congestion has had a negative effect in this regard. The high number of requests for SAPS assistance during weekends also has a negative effect on response times.

Camera Downtime

The average camera downtime was 1.09%. Safe City's target has always been 1%. It will be noticed that downtime has improved since May 2012 because the power supply to cameras has been restored by the Electricity Dept. Acceptable downtime targets can only be met through continuous and thorough maintenance schedules as well as the availability of sufficient spares.

Reported Crime Statistics

Please note that the statistics as provided by the SAPS Pietermaritzburg is for operational evaluation and is not for public consumption.

	2011/12	Nov-10	Inc /Dec	Safe City Arrests
Murder	30	33	3	4
Att. Murder	20	11	9	1
Ass. Com	419	433	14	10
Ass. GBH	230	216	14	22
Rape	56	39	17	3
Rob with F/A	45	37	8	-
Rob Other	263	220	43	49
Rob Com	202	117	85	30
Bus. Rob	34	33	1	-
Hi Jacking	8	9	1	-
Theft from M/V	107	174	67	1
Theft out of M/V	217	235	18	6
Theft of M/V	147	184	37	-
Burglary Bus.	319	179	140	23
A Crime (Serious)	6,414	6,823	409	232

The total serious crimes reported for 2011/12 shows a decrease compared to the previous year. Contact crimes such as Robbery and Rape however shows an increase whilst Property crimes such as Theft of Motor Vehicle shows a decrease. Assault GBH and Rape incidents still occur mostly indoors and is therefore difficult to detect and to prevent. Root causes for the latter is mainly due to socio economic factors such as unemployment, family violence and drug or liquor abuse. Theft out of and from motor vehicles however shows a decrease. False cases are still being reported for insurance purposes as well as for self-gain. Although theft of motor vehicles shows a decrease it remains a very difficult crime to detect and 95% of vehicles stolen occurred outside camera visual area. Safe City and the SAPS are currently using the Average Speed Enforcement cameras on the N3 in conjunction with Mikros and the RTI to alert Law Enforcement Agencies if stolen vehicles are moving on the N3 North or South bound from Pietermaritzburg.

Conclusion

The year 2011/12 again faced many challenges that had to be overcome.

One of the challenges is to improve the functionality of the moveable camera. As the wireless communication has not yet been installed and tested at the time of writing this report the matter will again be addressed in the Mid Year Budget Review.

Another challenge that still has not been addressed satisfactorily is to assist the Municipality in the enforcement of the bylaws. The continuous infringement of bylaws is detected by Safe City on a daily basis. The lack of adequate Municipal Security response and also the lack of arrests in this regard are very frustrating. This matter was again brought to the attention of the Deputy Municipal Manager for Community Services and was also highlighted during Safe City's presentation to the 2010/11 Budget Oversight Committee.

It is again emphasised that is of vital importance to ensure the continuation of the ANPR project, and that it should even be expanded where possible. Not only does it create a sense of law abidance by motorists but it is also a very effective tool in recovering outstanding Municipal revenue.

The most important challenge for Safe City is to remain a centre of excellence whilst no capital funding or an increase in operational funding has been granted for 2012/13. Not only does it place a severe strain on maintaining an ageing CCTV infrastructure but also places the entire operating budget under pressure because the increase in staff salaries and other monthly operating expenses such as telephone, electricity and administration fees has to be accommodated. It will be appreciated if this matter could receive urgent attention during the mid year review.

The relationship with the city's administration has however been very fruitful during 2011/12 and Safe City would like to thank the Mayor, Councillor Nkosi, the acting Municipal Manager Mr. Maseko as well as the new Municipal Manager Mr. Mxolisi for their constructive support towards the Safe City project and for supporting our belief that Safe City is performing a valuable community service.

We would also like to thank all partners including BFC, SAPS, National Prosecuting Authority and several others who are, to a lesser or greater extent, stakeholders in our operation.

The members of the Safe City Board are thanked and commended for their support and commitment. Mr. Koos Vorster, chairperson of BFC, have again earned special thanks for their particular and loyal support.

We record with sadness the death on 15 December 2011 of Peter Warmington who served on our Board since the inception of Safe City in 2002, and was a past Chairman. Through his unique talents and positive attitude he contributed a great deal to the successful direction of the organization.

The Board wishes thank the Management and staff of Safe City, as well as the Project Engineer, Mr. Pieter Janse van Rensburg of Dihlase Consulting.

We reserve our particular gratitude to the Msunduzi Municipality, the main funders of this operation. We acknowledge, too, the financial and moral support of Business Fighting Crime, Pietermaritzburg Chamber of Business, Hulamin, Ben Booysen, Mikros as well as the valuable assistance rendered by legal advisors, Venn Nemeth & Hart, our auditors Colenbrander Inc, and the local media on safety and security matters.

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2012

The directors have pleasure in submitting their report together with the audited annual financial statements for the year ended 30th June 2012.12.27

General Review

Safe City Msunduzi (PTY) Ltd is a company incorporated in the Republic of South Africa. The principal activities of the company are to provide camera surveillance of certain areas under the Jurisdiction of the Msunduzi Municipality.

No matter which is material to the financial affairs of the company has occurred between 30 June 2012 and the date of approval of the financial statements.

Statements of Responsibility

The directors are responsible for the maintenance of adequate accounting records and the preparation and integrity of the financial statements and related information.

The auditors are responsible to report on the fair presentation of the financial statements. The financial statements have been prepared in accordance with International Financial Reporting Standards for Small and Medium Sized Entities, and in the manner required by the Companies Act.

The directors are also responsible for the company's system of internal financial controls. This is designed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements, and to adequately safeguard, verify and maintain accountability of assets, and to prevent and detect misstatement and loss. Nothing has come to the attention of the directors' to indicate that any material breakdown in the functioning of these controls, procedures and systems has occurred during the year under review.

The financial statements have been prepared on the going concern basis, since the directors have every reason to believe that the company has adequate resources in place to continue in operation for the foreseeable future. These financial statements will be presented at the company annual general meeting for the approval of shareholders. It is possible that amendments may be required prior to shareholder approval being given.

Financial results

The results of the company for the year under review are fully set out in the attached financial statements and require no further comment.

Post balance sheet events

No material fact or circumstance, which requires comment, has occurred between the accounting date and the date of this report.

Dividends

No dividends were declared or proposed during the year under review.

Share capital

There were no changes in the authorised and issued share capital of the company during the year under review.

Directors and secretary

The directors of the company during the accounting period and up to the date of this report were as follows:

Z Sokhela (Chairman)
D Winship
P Warmington (deceased)
D Kambourois
V C Biggs
D Harrison
K Vorster

Auditors

Colenbrander Incorporated will continue in office.

Cash and cash equivalents at end of year	9.2	1,177,196	1,001,915

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

1. Basis of preparation and accounting policies

The basis of preparation and principal accounting policies of the company, are consistent in all material respects with those applied in the previous year, except as otherwise indicated.

Basis of preparation

The financial statements have been prepared on the historical cost basis, except as modified by the revaluation of freehold land and buildings.

Property, plant and equipment

Plant and equipment are stated at cost less accumulated depreciation. Depreciation is recorded by a charge to income computed on the straight line basis so as to write off the cost of the assets over their expected useful lives. The expected useful lives are as follows

	Useful life
Computer equipment	3
Office equipment	6
Motor vehicles	5

Expenditure on additions and improvements to property, plant and equipment including the cost of related interest is capitalised as expenditure is incurred.

Deferred taxation

Deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that the taxable profit will be available against which the deductible temporary differences can be utilised.

Revenue

Revenue comprises the invoiced value of sales, recorded in the financial statements at the date goods are delivered to customers or services provided.

Revenue, which excludes Value Added Tax, comprises of the sale of goods, rendering of services and interest received.

Revenue from the sale of goods is recognised when significant risks and rewards of ownership of the goods are transferred to the buyer.

Revenue from the rendering of services is recognised on an accrual basis in accordance with the substance of the agreement.

Interest received is recognised on a time proportion basis, taking account of the principal outstanding and the effective rate over the period to maturity, when it is determined that such income will accrue to the company.

Cash flows

For the purposes of the cash flow statement, cash includes cash on hand, deposits held on call with banks, investments in money market instruments, and bank overdrafts.

Comparative figures

Where necessary, comparative figures have been adjusted to conform with any changes in presentation in the current year.

1. Property, Plant & Equipment

	2012			2011		
	Cost / valuation R	Accumulated depreciation R	Carrying value R	Cost / valu- ation R	Accumulated depreciation R	Carrying value R
Computer equipment	50,708	(42,488)	8,220	50,708	(38,799)	11,909
Office equipment	7,000	(7,000)	-	7,000	(7,000)	-
Motor vehicles	60,000	(26,000)	34,000	60,000	(14,000)	46,000
Furniture and fittings	126,623	(63,623)	63,000	64,615	(50,700)	13,915

COMMENT ON MIG:

The total MIG expenditure inclusive of the MIG Capital Budget and the MIG Administrative costs is R 124 004 637 and this amount represents 98.06% of the total MIG allocation of R 126 455.000. An amount of R 2 450 363 that represents 1.94% was unspent. The total MIG capital expenditure recorded on the Promis Financial System as at the end of the 2012 financial year is R 120 977 448.00 and this amount represents 97.92% of the MIG Capital Budget of R 123 547 000. The total MIG administrative budget is R 2 908 000.

The MIG funds were used for the upgrade and construction of projects for roads and stormwater, water and sanitation, landfill site, Hollingwood Cemetery, Community Halls, crèches, clinics and sports facilities. Refer to the attached document for projects undertaken for the 2011/2012 financial years.

CHAPTER 7 – REPORT OF THE AUDITOR GENERAL 2011/2012

REPORT OF THE AUDITOR-GENERAL TO THE KWAZULU-NATAL PROVINCIAL LEGISLATURE AND THE COUNCIL ON MSUNDUZI MUNICIPALITY

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

Introduction

1. I have audited the consolidated and separate financial statements of the Msunduzi Municipality set out on pages 176 to 266, which comprise the consolidated and separate statements of financial position as at 30 June 2012, the consolidated and separate statements of financial performance, statement of changes in net assets and the cash flow statement for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the consolidated financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these consolidated and separate financial statements in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Local Government: Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2011 (Act No. 6 of 2011) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on the consolidated and separate financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the *General Notice* issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated and separate financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated and separate financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the consolidated and separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated and separate financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the consolidated and separate financial statements present fairly, in all material respects, the financial position of the Msunduzi Municipality as at 30 June 2012, and its financial performance and cash flows for the year then ended in accordance with the SA Standards of GRAP and the requirements of the MFMA and DoRA.

Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Irregular expenditure

8. As disclosed in note 49 to the financial statements, irregular expenditure amounting to R27,483 million was incurred during the year, mainly as a result of contracts awarded to suppliers in contravention of the Local Government: Municipal Supply Chain Management Regulations (GNR 868 of 30 May 2005) (Municipal SCM Regulations).

Restatement of corresponding figures

9. As disclosed in note 48 to the financial statements, the corresponding figures for 30 June 2011 have been restated as a result of errors discovered during 2012 in the financial statements of the Msunduzi Municipality at, and for the year ended, 30 June 2011.

Material losses/ Impairments

10. As disclosed in note 52 to the financial statements, the municipality incurred significant electricity losses of R119, 064 million (2011: R82, 413 million) and water losses of R75, 117 million (2011: R75, 459 million) during the year.
11. As disclosed in note 5 to the financial statements, the municipality raised a provision for bad debts amounting to R584, 043 million (2011: R525, 990 million) on consumer debts as the recoverability of these amounts are doubtful.

Material underspending of the budget

12. As disclosed in note 58 to the financial statements, the municipality has materially underspent its capital budget to the amount of R234, 852 million (53%) (2011: R235, 361 million, (68%)). As a consequence, the municipality has not achieved its objectives of basic service delivery and infrastructure development.

Additional matter

13. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

14. The supplementary information set out on pages 246 to 266 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. In accordance with the PAA and the *General Notice* issued in terms thereof, I report the following findings relevant to performance against predetermined objectives, compliance with laws and regulations and internal control, but not for the purpose of expressing an opinion.

Predetermined objectives

16. I performed procedures to obtain evidence about the usefulness and reliability of the information in the annual performance report as set out on pages 59 to 175 of the annual report.
17. The reported performance against predetermined objectives was evaluated against the overall criteria of usefulness and reliability. The usefulness of information in the annual performance report relates to whether it is presented in accordance with the National Treasury annual reporting principles and whether the reported performance is consistent with the planned objectives. The usefulness of information further relates to whether indicators and targets are measurable (i.e. well defined, verifiable, specific, measurable and time bound) and relevant as required by the *National Treasury Framework for managing programme performance information*.

The reliability of the information in respect of the selected objective is assessed to determine whether it adequately reflects the facts (i.e. whether it is valid, accurate and complete).

18. The material findings are as follows:

Usefulness of information

Consistency

19. The Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), section 41(c) requires that the integrated development plan should form the basis for the annual report, therefore requiring consistency of objectives, indicators and targets between planning and reporting documents. The reported targets as included in the service delivery budget implementation plan (SDBIP) or annual performance report submitted for auditing are not consistent with the targets as per the approved integrated development plan. The planned targets specified in the annual performance report were not all included in the integrated development plan. This was due to a lack of understanding by business units and inadequate training to enable application of the principles of the Municipal Planning and Performance Management Regulations, 2001.

Measurability

20. The Municipal Planning and Performance Management Regulations, 2001 require that indicators/measures should have clear unambiguous data definitions so that data is collected consistently and is easy to understand and use. A total of 38% of the indicators/measures relevant to the selected objective, basic service delivery and infrastructure development, were not well defined in that clear, unambiguous data definitions were not available to allow for data to be collected consistently. This was due to a lack of understanding by business units relating to the defining of key performance indicators and inadequate training to enable application of the principles of the Municipal Planning and Performance Management Regulations.

21. The Municipal Planning and Performance Management Regulations, 2001 require that performance targets should be specific in clearly identifying the nature and required level of performance, measurability, and the time period or deadline for delivery. The following findings relate to the planned and reported targets for the selected objective, basic service delivery and infrastructure development:

- All of the selected planned and reported performance targets were not specific in clearly identifying the nature and the required level of performance;
- 26% were not measurable in identifying the required performance;
- 38% were not time bound in specifying the time period or deadline for delivery.

Reliability of information

Validity and accuracy

22. The Municipal Planning and Performance Management Regulations, 2001 requires that processes and systems which produce the indicator should be verifiable. A total of 42% of the actual reported performance relevant to the selected objective, basic service delivery and infrastructure development, was not valid and accurate or differed materially when compared to evidence provided. This was due to a lack of monitoring, review and standard operating procedures for the recording of actual achievements.

Additional matter

23. I draw attention to the following matter below. This matter does not have an impact on the predetermined objectives audit findings reported above.

Achievement of planned targets

24. Of the total number of planned targets for the selected objective, only 119 (36,5%) were achieved during the year under review.
25. This was mainly because indicators and targets were not suitably developed during the strategic planning process. The municipality did not consider relevant systems and evidential requirements during the annual strategic planning process, while the capital budget relevant to the objective basic service delivery and infrastructure development was also underspent.

Material adjustments to the annual performance report

26. Material audit adjustments in the annual performance report were identified during the audit, some of which were corrected by management. Those that were not corrected are included in paragraphs 18 to 21 of this report.

Compliance with laws and regulations

27. I performed procedures to obtain evidence that the municipality has complied with applicable laws and regulations regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key applicable laws and regulations as set out in the *General Notice* issued in terms of the PAA are as follows:

Annual financial statements

28. The consolidated and separate financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of current assets, current liabilities, revenue, expenditure and irregular expenditure identified by the auditors were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Strategic planning and performance management

29. The municipality did not timeously adopt and implement a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players as required by sections 38, 39, 40 and 41 of the MSA and the Municipal Planning and Performance Management Regulations 7 and 8.

Procurement and contract management

30. The performance of contractors or service providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA.
31. Persons in the service of the municipality who had a private or business interest in contracts awarded by the municipality failed to disclose such interest, as required by SCM regulation 46(2)(e) and the code of conduct for staff members issued in terms of the MSA.
32. Awards were made to service providers who are persons in the service of other state institutions, in contravention of SCM regulation 44. Similar awards were identified in the prior year and no effective steps were taken to prevent or combat the abuse of the SCM process in accordance with SCM regulation 38(1).

Human resource management and compensation

33. The acting senior managers directly accountable to the municipal manager did not sign annual performance agreements for the year under review, as required by sections 57(1)(b) and 57(2)(a) of the MSA.
34. The municipal manager did not provide a job description for each post on the staff establishment as required by section 66(1)(b) of the MSA.

Expenditure management

35. Money owing by the municipality was not always paid within 30 days of receiving an invoice or statement, as required by section 65(2)(e) of the MFMA.
36. The accounting officer did not take reasonable steps to prevent irregular expenditure, as required by section 62(1)(d) of the MFMA.

Revenue management

37. A credit control and debt collection policy was not implemented as required by section 96(b) of the MSA.

Internal control

38. I considered internal control relevant to my audit of the consolidated and separate financial statements, annual performance report and compliance with laws and regulations. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

Leadership

39. The accounting officer did not exercise adequate oversight responsibility regarding performance reporting, compliance with laws and regulations and related internal controls. The monitoring of the implementation of action plans to address internal control deficiencies was not adequate to prevent some of the findings that are recurring. An information system governance framework that supports and enables the business, delivers value and improves performance has not been established and implemented.

Financial and performance management

40. Proper records were not kept to ensure that useful and reliable information is available to support financial and performance reporting. Adequate review and monitoring of compliance with applicable laws and regulations were not undertaken.

OTHER REPORTS

Investigations

41. As per the forensic report allegations of mismanagement, non-compliance with the SCM regulations and the MFMA, lack of overtime approval, irregularities in the procurement unit (contracts), theft and fraud, including those relating to the management of the market were investigated. Thirty-seven investigations were completed, of which 26 are being proceeded with criminally. Thirteen investigations are still in progress.

Auditor-General

Pietermaritzburg
30 November 2012

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

CHAPTER 8 - RESPONSE TO THE REPORT OF THE AUDITOR

THE MSUNDUZI MUNICIPALITY REPORT BY MUNICIPAL MANAGER FOR COUNCIL January 2013

RESPONSE TO THE REPORT OF THE AUDITOR - GENERAL ON THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS OF THE MSUNDUZI MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2012

BACKGROUND AND PURPOSE OF REPORT

The report of the Auditor-General dated 30 November 2012 on the Audit of the Accounts of the Council for the financial year ended 30 June 2012, has been received and is on the Council agenda.

Section 21(1) and (2) of the Public Audit Act, 2004 (Act No. 25 of 2004) states:

- (1) The Auditor-General must submit an audit report in accordance with any legislation applicable to the auditee which is the subject of the audit.
- (2) If there is no such legislation as contemplated in subsection (1) the Auditor-General must submit the audit report to the relevant legislature within a reasonable time.

Also the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) Section 126 (1) and (2) must be complied with.

Comments and action on matters raised in the report are set out below with the numbering corresponding to the Auditor-General's report.

GENERAL RESPONSE

The Auditor General has expressed an **unqualified** opinion with emphasis of matters relating to irregular expenditure, restatement of corresponding figures, material losses/impairment and material under spending of the budget.

The audit opinion has remained the same from the previous financial year with similar emphasis of matter items that were reported. An audit action plan has been prepared to address these matters going forward.

REPORT ON THE FINANCIAL STATEMENTS

1. Introduction

Noted

2. Accounting officer's responsibility for the consolidated financial statements

Noted

3 Auditor-General's responsibility

Noted from 3 to 5

6. Opinion

Noted

7. Emphasis of matters

Noted

8. Irregular expenditure

Noted

9. Restatement of corresponding figures

Noted

Restatements of corresponding figures are in line with the accounting standard:
GRAP 3 - Accounting Policies, Changes in Accounting Estimates and Errors.

GRAP 3 paragraph 41 gives guidance on how to deal with material errors that are not discovered until a subsequent period. These prior period errors are corrected in the comparative information presented in the financial statements for that subsequent period.

10. Material losses/Impairments

Noted from 10 to 11

Electricity losses

The acceptable norm of electricity loss is 3%. The significant electricity losses of 237,739,531 kWh: 13 % occurred during the year under review, which resulted material revenue losses to the municipality.

The loss above the norm is due to theft, distribution losses, illegal tampering of electricity meters and can also be attributable to the ageing infrastructure.

Water losses

The acceptable norm in developing countries of water loss is 20%. The significant water losses of 20,097,078 kl : 30 % occurred during the year under review, which resulted material revenue losses to the municipality.

The loss above the norm is due to theft, distribution losses, illegal tampering of water meters and can also be attributable to the ageing infrastructure

12. Material under spending of the budget

Noted

13. Additional matter

Noted

14. Unaudited supplementary schedules

Noted

15. Report on other legal and regulatory requirements

Noted

16. Predetermined objectives

Noted from 16 to 18

19. Usefulness of information

Consistency
Noted

20. Measurability

Noted from 20 to 21

2.2. Reliability of information

Validity and Accuracy
Noted

23. Additional matter

Noted

24. Achievement of planned targets

Noted from 24 to 25

26. Material adjustments to the annual performance report

Noted

27. Compliance with laws and regulations

Noted

28. Annual financial statements

Noted

Financial statements were handed to the Auditor General on 31 August 2012 as legislated in the MFMA, however as the audit was being conducted the auditor's from the Auditor General's office allowed, the municipality to pass subsequent journal entries and amend the annual financial statements.

29. Strategic planning and performance management

Noted

30. Procurement and contract management

Noted from 30 to 32

33. Human resource management and compensation

Noted from 33 to 34

35. Expenditure management

Noted from 35 to 36

37. Revenue management

Noted

38. Internal control

Noted

39. Leadership

Noted

40. Financial and performance management

Noted

41. Other Reports

Investigations

Noted

42. Recommendation

It is recommended:

That the report dated 30 November 2012 by the Auditor - General to the members of the Council on the financial statements of The Msunduzi Municipality for the year ended 30th June 2012 be noted.

That the report dated 18 January 2013 by the Municipal Manager, in reply to the Auditor-General's report, be noted.

Submitted for consideration as per Legislation.

M. A. NKOSI
MUNICIPAL MANAGER

CHAPTER 9 – REPORT OF THE AUDIT COMMITTEE

ANNUAL REPORT OF THE AUDIT COMMITTEE FOR THE PERIOD 01 JULY 2011 TO 30 JUNE 2012

The Audit Committee of the Municipality has pleasure in submitting its report. This report is submitted in terms of the provisions of sections 121(3) (j), 166(2) (b) and 166(2) (c) of the Municipal Finance Management Act of 2003 ("the MFMA") and covers the financial period from 1 July 2011 to 30 June 2012.

The report records the outcome of the work done by the Audit Committee. The committee from time to time made recommendations as preventative or corrective measures to the weaknesses identified by Internal Audit Unit in the municipality based on reports and information supplied to the Audit Committee.

The recommendations or advice in this report have been made based on certain information at a point in time and supplied to the Audit Committee and are subject to change after due consideration of new information received as well as subsequent deliberation with the municipality.

Members

The Audit Committee consist of the members listed hereunder and meets as a minimum, four times a year as per the approved Audit Committee Charter. The composition of the committee was changed by the Council during the cause of the year under review.

Name of Member	Number of Meetings Attended
Mr M A Jordan (Chairperson) (resigned June 2012)	6
Mrs S Keshav (Deputy Chairperson)	7
Mr R M J Baloyi	8
Mr B Ntuli	6
Mr G S Majola	6
Mr A Latiff	8

On the 21 June 2012 the Executive Committee as a result of the resignation of Mr Jordan recommended to council the appointment of MsKeshav as the chairperson and MrBaloyi as the deputy.

Overview of Activities

The Committee held 8 meetings during the year on the following dates.

26 July 2011
11 August 2011
29 August 2011
30 September 2011
25 November 2011
6 March 2012
24 April 2012
19 June 2012

In addition the chairperson or her delegate availed himself for meeting with the Auditor-General, the Executive Committee Meetings to report on Audit Committee issues.

Audit Committee Responsibilities

The Audit Committee has complied with its responsibilities arising from section 166 of the Municipal Finance Management Act, Act 56 of 2003 (MFMA) and clause 14(2) (a) of the Municipal Planning and Performance Management Regulations of 2001. The Audit Committees' work was guided and regulated by an Audit Committee Charter, which was reviewed, amended and ratified by Council on the 27th June 2012 and has discharged all its responsibility as contained therein.

Internal Audit Function

The Internal Audit Charter as adopted by the Audit Committees on 26th July 2011 regulates the work of the Internal Audit Activities.

In terms of S165 (1) each Municipality is required to have an internal audit, S165 (3) allows the Municipality to co-source the internal audit function if the Municipality requires assistance to develop its internal capacity. The internal audit services were co sourced with two firms of Accountant and Auditors during the year ended 30 June 2012. The internal auditors presented annual audit coverage plan which was approved by the audit Committee on the meeting held on the 28 February 2012. The delay of submission of the annual audit coverage plan was due to the delays in finalising risk assessment exercise.

During this financial year internal audit reports were presented to the Committee and discussed with management and at the Audit committee meetings. Issues that were raised were, deliberated upon and recommendations made to council including the issues raised by the Auditor-General.

The Committees also noted that there were several acting positions at managerial level, including internal audit during the financial year as these are critical positions to operations of the Audit Committee being effective. The Committee also noted the re-action by the Accounting Officer as well Council in filling the vacancies at management level including the Executive Manager of Internal Audit Unit and hope that the process will continue until all vacancies have been filled.

Risk Management

Risk assessment was conducted with the assistance from KwaZulu-Natal Provincial Treasury which then informed the annual audit coverage plan for 2012/13 financial year. Risk assessment report was tabled before the Audit Committee and noted. Progress reports on risk management were submitted to the Audit Committee, however members expressed dissatisfaction of the format of the reporting and made recommendation thereto so as to enable members to identify the top ten risks of the municipality and advise accordingly and enable the committee to confirm that the risk register was duly updated and the risk assessment report was submitted to the Council. Notwithstanding the above certain risks identified were considered in the preparation of the audit coverage plan.

System of Internal Control

The system of internal control are designed to provide reasonable assurance that the assets are safeguarded and the liabilities and working capital are effectively and efficiently managed.

The internal audit reports in all areas audited indicated that there were weaknesses in the system of internal control due to a number of reasons including high vacancy rate at all levels, a number of policies which were outdated and needed review and limited financial resources. The Accounting Officer initiated a process of the review of policies and bylaws and improvement on the system of internal control including but not limited Trade Payables review on monthly basis before payment are realised as well as subjecting any payment documentation to internal audit review during the year under review.

Irregular, fruitless, wasteful expenditure and Unauthorised Expenditure have been brought to the attention of the Finance Portfolio Committee, Executive Committee, Council and Audit Committee for noting. The municipality has developed a framework on reporting of irregular, fruitless, wasteful expenditure on monthly basis. The Supply Chain Management processes and controls are improving thus reducing continuous incurring irregular expenditure.

Financial Management and Reporting

There has been an improvement in the use of the accounting system which assisted in producing adequate, credible and accurate financial reporting.

The Committee however noted that debtor's books continued to increase despite concerted effort during administration and various strategies. This was as a result of collection rate of the current debt which is not improving. These challenges taking place in the difficult economic situation being faced by residents and business in the Msunduzi and the lack of new employment opportunities.

Whilst the municipality is not faced by liquidity challenges, it needs to trade carefully to improve its long terms sustainability.

Annual Financial Statements for the Year Ended 30 June 2012

The Audit Committee reviewed the Annual Financial Statements for the year ended 30 June 2012 prior to submission to the Auditor-General. The first review was done by the Internal Audit Unit and presented its report to the Audit Committee and in addition the Audit Committee conducted its own review and raised questions on certain issues which satisfactory addresses to ensure adequacy and compliance GRAP and MFMA as well MFMA circulars issued by National Treasury.

The Audit Committee also review the accounting policy and noted changes in accounting practises which were informed by the GRAP standards.

The Chairperson or her delegate also attended the Audit Steering Committee meeting where the final management report was tabled and discussed with both Executive and Management.

Performance Management Reporting

Internal Audit Unit's annual audit coverage plan included review of performance management on quarterly basis. Quarterly reports were tabled at the Audit Committee meetings and deliberated on. The Audit Committee noted that the Key Performance Indicators as per the Service Delivery Budget Implementation Plan (SDBIP) did not comply with the smart principle. Although quarterly SDBIP reports were tabled before Executive Committee and Council, Council did not monitor performance of the section 57 managers.

Governance

The Committee has met the chairperson of the MPAC to establish a relationship that will promote the credibility of information reported to Council. Although no framework has been established, the Committee has invited the MPAC chairperson to attend all their meetings in order that MPAC as part of the discussions and deliberations which we believe will assist the MPAC in discharging its duties of the oversight role. The relationship between the two committees will be formalised and strengthened moving forward.

The Audit Committee did not perform governance review; however, this review is including in the annual audit coverage plan for 2012/13 financial year.

Information and Communication Technology

Although internal audit did not perform any audit on this area, however, the Audit Committee noted the findings of the Auditor-General in his interim report. The municipality has to improve its efforts to improve its Information and Communication Technology system of internal control.

Conclusion

The Committees wishes to express its sincere gratitude to the Council Committees and all those involved in the improvement of systems at the Municipality and to the Municipal Manager and Senior Management for their support during its term of office.

IA01	Feroz Casimjee	Audit Plan	n/a	Annual plan to be approved by Audit Committee by July 2011	Nil	Achieved	Nil Achieved	The Annual Audit Plan was approved on the 25 February 2012. Firstly being under administration had an impact on decision making as the person who was going to do the assessment, secondly after the decision was taken in July 2011 KZN Treasury came in in August 2011 and advised that they need 2 months to do the assessment and the report. Thirdly this was delayed due to the approach that management had a 3 day workshop but did not want to finalise it but preferred that it be done per business unit & then the availability of manager created more delays until the audit report was ready in December 11 & the new MIM started in January 12 when a final report was issued to him.	This could not be corrected at that time, however moving forward risk assessment to inform the planning for the next three years 13/14 to 15/16 started earlier & it being finalised.
