**Key Tariff Rules applicable to Domestic Tariffs**

2. Customers are allowed to migrate from credit to prepaid but if the customer has chosen to do so, the same customer will not be allowed to migrate back to credit - this is due to the fact that the Municipality is intending to phase out credit system and migrate all customers to prepaid system. Therefore the customer should do their analysis properly before an application to migrate is lodged with the Municipality.
3. The supply provided as per the application for new supply or for an upgrade will only be changed after 12 months of taking supply, the application for a downgrade of MCB within the first 12 months of taking supply may not be entertained.
4. The act of scratching the MCB, replacing Municipal MCB with other MCBs and any other interference with the MCB is regarded as tampering, any customer who's MCB has been found to be scratched, replaced with other MCBs, or interfered with in any way will be dealt with in terms of Debt collection and Credit control Policy and Electricity Bylaws.

4. Each request for demand increase or decrease shall be investigated, upon receipt of written application from the customer, the response shall be given to the customer in writing with conditions for such change of scale, and where cost are applicable.
5. The Municipality reserves the right to cut the supply off after warnings has been issued and not adhered to.

The minimum demand charge per month payable by the consumer shall be an amount calculated as aforesaid on the basis of 70% of the highest of the previous twelve months highest maximum in kVA, whichever is the higher maximum demand in kVA notified to the City Electrical Engineer by the consumer or 70%.
