Key Tariff Rules applicable to Domestic Tariffs

Customer is allowed one free MCB change per 12 months period, however a customer who is 1. reducing the MCB needs to understand that any future request for MCB size increase may attract MCB size increase fees and shall be subject to availability of such demand in that network.

Customer are allowed to migrate from credit to prepaid but if the customer has chosen to do so, the same customer will not be allowed to migrate back to prepaid - this is due to the fact that the 2. Municipality is intending to phase out credit system and migrate all customers to prepaid system.

- Therefore the customer should do their analysis properly before an application to migrate is lodged with the Municipality.
- The supply provided as per the application for new supply or for an upgrade will only be changed 3. after 12 months of taking supply, the application for a downgrade of MCB within the first 12 months of taking supply may not be entertained.
- The act of scratching the MCB, replacing Municipal MCB with other MCBs and any other inteferrence with the MCB is regarded as tampering, any customer whose MCB has been found to be scratched, replaced with other MCBs, or intefered with in any way will be dealt with in terms of Debt collection and Credit control Policy and Electricity Bylaws.
- 5. Any domestic supply that takes supply greater than 70 kVA shall be clasified as large power user and be charged a standard tariff of either C Scale or TOU. There shall be no concession on this matter

Please note the changes to winter time-of-use periods – these are only applicable to winter but the summer is still the same. NERSA has approved the following changes to the winter time-of-use peak period to overcome the misalignment between the system peak and the tariff peak particularly in the winter period as follows:
