**Service Delivery and Budget Implementation Plan
(SDBIP)**

2008-2009

1. INTRODUCTION

This document provides for the annual submission of the Service Delivery and Budget Implementation Plan (SDBIP) as required in terms of the Municipal Finance Management Act. This document should be read in conjunction with the Msunduzi Integrated Development Plan (IDP), Budget and the business plans of Strategic Business Units for the financial year 2008/ 2009.

2. BACKGROUND

2.1 The Service Delivery and Budget Implementation Plan (SDBIP) is a legislative requirement as per the Municipal Finance Management Act (MFMA).

2.2 The SDBIP gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget.

2.3 The SDBIP facilitates the accountable role that managers hold to the Council and that Councillors hold to the community.

2.4 It also fosters the management, implementation and monitoring of the budget, the performance of senior management and the achievement of the strategic objectives as laid out in the IDP.

2.5 Chapter 1 of the MFMA describes the SDBIP as:

"A detailed plan approved by the mayor of a municipality in terms of section 53 (1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include the following:

(a) projections for each month of-

(i) revenue to be collected by source; and

(ii) operational and capital expenditure, by vote;

(b) service delivery targets and performance indicators for each quarter"; and,

(c) any other matters that may be prescribed.

2.6 In terms of provisions above, the following tables are included:

Table 1: Monthly Projections of Revenue to be Collected for each Source;

Table 2: Monthly Projections of Expenditure (operating & capital) and revenue for each vote;

Table 3: Quarterly Projections of Service Delivery Targets and Performance Indicators for each vote; Including Ward Information for Expenditure and Delivery

Table 4: Ward Councillor Priority Projects;

Table 5: Three Year Capital Budget

2.7 Monitoring through the SDBIP enables the municipal manager to monitor the performance of senior managers, the mayor to monitor the performance of the municipal manager and for the community to monitor the performance of the municipality as each activity contains outputs, outcomes and timeframes. The SDBIP is compiled on an annual basis.

2.8 The SDBIP is yet another step forward to increasing the principle of democratic and accountable (local) government as enshrined in Section 152(a) of the Constitution.
