PRESS RELEASE – AGRICULTURE STUDENTS

22 July 2016

His Worship the Mayor Cllr Chris Ndlela welcomed three students that had gone for Agriculture Studies in Denmark on Thursday 21 July 2016. The program is called Livestock Management Programme and is facilitated by the Agricultural Development Agency in partnership with the Department of Agriculture. The students left for Denmark in September 2015 and returned in June 2016, from the 9 month long program. The program comprises of piggery production, crop production, dairy production, and agricultural economics. They also had a chance to do internship programs on farms in Denmark. "The main emphasis which was placed on us whilst overseas was that we must develop our future farm entities. With this in mind we formulated business plans and farm project models to stimulate our mind-set and get ourselves focused on the vision and mission of our future" they shared with the Mayor. The three thanked the municipality for the great opportunity and encouraged learners to know their dreams and work hard towards achieving them.
