

19 September 2016

PUBLIC NOTICE

PLANNED INTERRUPTION OF BULK WATER SUPPLY

In line with the notice by Umgeni water, this serves to confirm that the 30 hour shutdown of water supply to Umsunduzi will commence at 8 o'clock on 22 September 2016 with the estimated completion time by 14h00 on the 23 September 2016. The 30 hour shutdown period does not mean that all our residents will go without water for the entire duration. These times refer to the bulk system being shut and opened up. Umgeni water in conjunction with Umsunduzi municipality has increased our flow to core reservoirs to ensure that we have storage over this period. However we urge our residents to be extra vigilant in the use of water over this period so we can maximise our storage and therefore have an uninterrupted water supply.

We regret any inconvenience to our customers and we will endeavour to ensure a continuous and uninterrupted water supply.
