1. INTRODUCTION

The Annual Report is a key instrument of transparent government and accountability. It is a post-financial year document, which provides an overview of the process of the financial and non-financial performance in respect of the previous financial year, in this instance 2015/2016.

The Municipal Finance Management Act (MFMA) assigns specific oversight responsibilities of an Oversight Report.

Given the processes required by Council to effectively undertake its oversight role, the establishment of the Municipal Public Accounts Committee of Council will provide the appropriate mechanism in which Council could fulfill its oversight responsibilities.

The Municipal Public Accounts Committee and herein referred to as the oversight Committee, has the primary role to consider the Annual Report, receive input from various role players and to prepare a draft Oversight Report for consideration by Council.

2. BACKGROUND

The oversight role of Council is an important component of the financial reforms and it is achieved through the separation of roles and responsibilities between council, the Executive (Mayor and Executive Committee) and Administration. Good governance, effective accountability, and oversight can only be achieved if there is a clear distinction between the functions performed by the different role players.

Non-executive Councilors are required to maintain oversight on the performance of specific responsibilities and delegated powers that they have given the executive (Mayor/Executive committee). In other words, in exchange for powers in which Council have delegated to the Executive, Council retains a monitoring and oversight role ensuring that there is accountability for the performance or non-performance of the municipality.

The Municipality Finance Management Act, No.56 of 2003 (MFMA) vests in Council specific powers of approval and oversight.

- Approval of budget
- Approval of Budget related Policies; and
- Review of the Annual Report and adoption of the Oversight Report

3. THE MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

3.1 COMPOSITION

The Municipal Public Accounts Committee is a Committee of Council established under section 79 of the Municipal Structures Act, 1998. The Municipal Public Accounts Committee consists of the following Councilors;

Councilor M Schalkwyk
Councilor N Ngubo

ANNEXURE 'B'

DOLPHINS IN ACTION at the Oval

The Hollywoodbets Dolphins will be buoyed by the fact that the tournaments leading run scorer Khaya Zondo (Pictured) returned to form with a century and a fifty in their last Sunfoil Series outing as they prepare for a must-win against the Multiply Titans this week

The Hollywoodbets Dolphins' base camp will move up the N3 this week as they make the Pietermaritzburg Oval home once again for their crucial Sunfoil Series against the defending champions the Multiply Titans from Thursday 2 February to Sunday 5 February.

As the Sunfoil Series heads into its final two rounds of fixtures the title is achievable for all six franchises, which puts the second place Dolphins under pressure as they hope to leapfrog the VKB Knights in to top spot should they win this week.

"We have got a squad of 14 players with us in Pietermaritzburg," Hollywoodbets Dolphins coach Grant Morgan said on

Tuesday.

"We will take the same eleven that drew to the Lions with Craig Alexander and Cody Chetty remaining in the squad.

"The only addition to that squad is Praelan Subrayen.

"Sibz Makhanya has a slight side strain which means he might not be able to bowl in the match but we will have enough fire power in the bowling ranks to do the job."

Morgan is hoping that he can select the same eleven players that put a potentially strong Lions team under pressure in Pietermaritzburg a fortnight ago and he is happy with the direction his team is going in.

"It's everything on the line for all the teams going into these final two games and I am really happy with how the boys have bounced back from a disappointing T20 campaign.

"This week we are going up against a strong Titans side and they will be coming here to get a win following their defeat to the Cobras - who are putting some big pressure on all the other teams now.

Following a disappointing T20 campaign

and a soul-searching break the Hollywoodbets Dolphins have been in strong positions in all three of the Sunfoil Series matches, which is a testament to the attitude of the players.

This week's fixture will be the first in a coaching capacity for Imraan Khan who retired from the game recently to take up the position as assistant coach with the Dolphins.

The Dolphins will be encouraged by the return to form of the tournaments leading run scorer Khaya Zondo, who has scored 714 runs in his eight games, whilst Vaughn van Jaarsveld is second on that runs scorers list with 710 runs in eight games.

another woman without him I struggled to pay bills and educate my children. The healer priests and gurus I visited ALL FAILED to fix this problem. But after hearing testimonials about JABA on the radio newspapers plus my neighbours he recently saved me from drugs and alcohol abuse. I visited 'JABA' with R100 and he read my fortune, accurately told me about my past-life my marriage and using a mirror in a dish of water he showed me faced of all my enemies and my husband's girlfriend. He Prayed for me and gave me Indian Crystals, holy water for cleansing and a special body oil. WHAT A MIRACLE! In 2 days my enemies plus my in-laws approached me and confessed. My Husband's also broke up with his girlfriend and returned back home. I am happily married and there's no other way but to say thank you but to tell others about you.

4. ANNUAL REPORT 2015/2016

4.1. COMPONENT C: COMMUNITY SERVICES

(Page 126 of the Annual Report 2015/16)

In response to the inquiry on the vacancy rate within the unit, the General Manager: Community Services advised that there was a high vacancy rate within her unit and the staff absorption process had not assisted in closing the gap. She added that she was awaiting Corporate Services Business Unit to advertise posts internally. In response to the question regarding the limited refuse bins within the CBD, she stated that the refuse bins were destroyed by the striking Expended Public Works Programme (EPWP) employees who had their contracts terminated and had not been able to replace them due to limited budget.

In terms of the informal traders on the streets, the General Manager: Community Services advised that their removal was the function of the Sustainable Development and City Enterprises Business Unit, however Community Services Business Unit provides protection services on request. She also added that prior to the Environmental Health Sub-unit being moved to Sustainable Development and City Enterprise Business Unit, an intervention was made to clean the streets where the illegal mechanics conduct their informal trade however, the process proved to be futile as the informal traders continued with polluting the streets with motor oil. The General Manager: Community Services emphasised that transgressors must be removed and the process of removing them must be done by the relevant business unit in order to ensure that the problem is eliminated.

The General Manager: Community Services advised that there was a major challenge in terms of refuse removal due to the limited resources (refuse removal trucks) to perform the function. She further indicated that the funding to procure refuse removal trucks had been requested but was not allocated.

In response to the enquiry on the employment of EPWP staff, the General Manager: Community Services advised that the budget to resume the programme had been requested however, allocation had not been made as yet.

[At this point of the proceeding, (10h00) the African National Congress Councillors requested a recess and returned at 10h17]

On return, the African National Congress reported that they were not satisfied with the General Manager: Community Service's response and believed that, as much as she was not responsible for dealing with informal or illegal trading, she should be liaising with the General Manager: Sustainable Development and City Enterprises.

In response to the question on the vacancies and availability of budget to fill vacancies, the General Manager: Community Services advised that there was an allocation of R7, 5 million allocated for priority posts; however that she was not in a position to provide exact numbers of posts to be filled. Responding to the request on the EPWP employments per ward, she repeated that funding had been requested, adding that it would be budgeted for 2016/2017 financial year should the requested funding be allocated.

The Committee noted with concern the high vacancy rate within the Community Services Business Unit and it was contributing greatly on the uncleanliness of the City it was further noted that the multi-sector team comprising of different departments which was established to deal with the decay of the City must

be invited to provide a progress update. The General Manager: Community Services advised that there was a proposal of the establishment of a single Law Enforcement Unit comprising of different disciplines/ sectors to ensure that enforcement within the City was strengthened and implemented.

4.1.1. Theatres and Halls

(Page 129 of the Annual Report)

The Committee raised concerns regarding the maintenance of halls as some have caretakers and others do not. The Committee requested that the system of booking halls be linked to the that of providing supervising and informing the ward councillors where bookings are made in order to establish a mechanisms of monitoring and ensuring that users do not steal or vandalise the property after it had been utilised.

It was reported that 157 chairs had been stolen from a hall in ward 22, Councillor Ngongoma's ward and the culprit refuses to return the chairs. The Manager: Area Based Manager undertook to make a follow up on the matter as he had not been aware of it.

4.1.2. Cemeteries and Crematorium

(Page 130 of the Annual Report 2015/16)

The Committee raised a concern with regards to cemeteries that were not being maintained, and further requested that resources be distributed evenly as there are cemeteries that are maintained on a continuous basis. The Manager: ABM undertook to attend to the request and further responded to the query on the limited space on Hollywood Cemetery stating that there was a portion of land that had been made available and would be fenced in order to be utilised for burial.

Responding to the enquiry made on whether there was a proper record keeping and identification of graves process, the Manager: Support Services advised that there was a good record keeping procedure useful for identifying graves for some cemeteries and not for others. She added that the reasons for this was that there was not yet a proper capturing system for some cemeteries and further stated that registers were being used and that other cemeteries were previously privately owned hence were privately administered. The Committee members requested that cemeteries that did not have fencing be fenced.

4.1.3. Traffic and Public Safety

(Page 135 of the Annual Report 2015/16)

The Committee raised serious concerns with regards to motorists not adhering to road regulations and absence of law enforcement. It was further requested that traffic officers be posted on areas designated as traffic hot spots especially during peak hours. The Committee also raised a concern regarding the decreasing numbers of employees within the Community Services Business Unit in particular in the Traffic Sub-unit.

The Senior Manager: Public Safety Enforcement and Disaster Management acknowledged that the staff complement was indeed decreasing. He added that the reasons were that all those traffic officers who had criminal records had to be deregistered in terms of legislation as the vetting process was not conducted previously on the appointment, resignations and deaths. He stated that there were no existing means of replenishing staff and that contributes to the unit failing to perform its function of enforcement due to the limited human resources. He emphasized that the services rendered by the Traffic Sub-unit and the Fire Sub-unit were essential and emergency services and could not be outsourced, emphasizing that it was critical that personnel be appointed to capacitate the department.

4.1.4. Disaster Management

(Page 138 of the Annual Report 2015/16)

It was noted that the Disaster Management Sub-unit was highly incapacitated hence the department was unable to attend to disaster management queries timeously due to limited staff and vehicles. The Committee requested that the budget for resources that are provided to the affected family be increased or be need based, as some of the items issued to families were not necessarily what they need or would be useful at the time of the disaster, referring to foam mattresses and tents.

4.1.5. Sports and Recreation

(Page 139 of the Annual Report 2015/16)

The Committee requested that the price that was charged at the Protea Grounds Sport field be investigated as it appeared to be above the normal price that was charged at other Sportsfields. The Committee further recommended that a Sports Facilitator be appointed in the municipality who would be responsible for organising games and facilitating them internally and externally amongst all wards to assist youth to occupy them so as to lower the risk of being involved in social ills. The Committee further recommended that funding be sought from the Department of Sports and Recreation in order to intensify sports development.

4.1.6. Libraries

(Page 140 of the Annual Report 2015/16)

In response to the enquiry made on the proposed Ward 22 library, the Manager: Library Services updated the Committee that the process of building the proposed library was going ahead, the process was at the Bid Adjudication Committee level and was to commence after approval had been obtained from Bid Adjudication Committee. He further appraised the Committee on the challenge that led to the delay which was the delay on advertising and finalising the tender by the Department of Arts and Culture as they were the custodians of the project and would hand over the library after project completion.

It was proposed that the funding for the library be transferred to the municipality for the purpose of commencing with the process of advertising the tender as soon as possible.

It was

RESOLVED

- a) That the issue of the high vacancy rate be included in the Oversight Report requesting that steps be taken as a matter of urgency to ensure that posts are advertised internally and externally before the end of the current financial year.
- b) That the multi-sector team established to address the challenges faced within the CBD be invited to the next standing meeting of the Municipal Public Accounts Committee to provide the Committee with a progress update on the current status quo.
- c) That a check list be developed and an official be assigned after a booking of a hall had been done to assess and monitor the condition of the hall before and after it has been used, in instances where damages are noted, the municipality deducts repairs from deposit made towards the hall by the user.

4. ANNUAL REPORT 2015/2016

(Raised verbally)

The General Manager: Infrastructure Services tendered his sincere apologies with regards to him not attending oversight meetings scheduled before the current one and he further advised that an urgent meeting provincial level came up where he had to revert to the municipality with a response.

4.1. CHAPTER 3-COMPONENT A: INFRASTRUCTURE SERVICES

4.1.1. Water Services

(Page 88 of the Annual Report)

The General Manager: Infrastructure Services further reported that his unit was experiencing a challenge in terms of high water consumption at the Greater Edendale (Vulindlela) that was not accounted for in terms of payments. He added that this contributed to the escalated debt incurred by the municipality and payable to uMngeni Water due to unaccounted water losses that the municipality had to pay for.

The Committee raised concerns in terms of the water leaks noted in the Greater Edendale area that were reported in numerous occasions but had not been attended to to date . it was then requested that the non-billing of water usage within the area be addressed as a matter of urgency in order to manage the challenge of unaccounted water.

The Committee requested that the General Manager: Infrastructure Services at the next standing meeting of MPAC provides a comprehensive report clearly outlining the leaks audited or detected within the Vulindlela Area, number of rectified and those that were still outstanding.

In response to the question regarding the unit being seen to be non-responsive, the General Manager: Infrastructure Services stated that there was a challenge in terms of reporting service delivery challenges due to the malfunctional state of the Call Centre

The Committee undertook to include the issue of the non-functioning Call Centre onto the Oversight Report and instruct the Accounting Officer to find an immediate solution to the problem as it continues to hamper service delivery across the municipality. The Committee raised serious concerns with Line Managers stating that, they sometimes ignore Councilors requests when reporting service delivery related faults.

It was reported that the Vulindlela Communities were without water more frequently as compared to other wards which was an infringement of the community's right to access to basic services in this instance which is water. The Committee felt that when it comes to water distribution, Vulindlela and Greater Edendale wards were the most disadvantaged when compared to other wards.

The General Manager: Infrastructure Services advised members that adding to the challenge of poor performance was the high vacancy rate within the Infrastructure Services Business Unit as well as new developments that were not taken into account with approved municipal building plans hence an increased water demand.

NOTED.

4.1.2. Sanitation Services

(Page 95 of the Annual Report 2015/16)

Councillor Jugmohan reported that she had inherited a challenge of having a burst sewer pipe within her ward which had not been addressed despite numerous attempts of reporting it to the relevant unit and further stated that she was not sure of the next step to take in order to resolve the problem as the residents that were in close proximity to the busted pipe were getting sick because of the contaminated air around the area.

The General Manager: Infrastructure Services noted the request and undertook to attend to it.

NOTED

4.1.3. Electricity

(Page 95 of the Annual Report 2015/16)

The Committee raised a concern with regards to the High Mast Lights ward 7 (Councillor Ngubane's ward) that had never functioned since its installation which then defeats the purpose of it being installed. The Committee further raised numerous issues in terms of broken/non-working streetlights and further requested that the General Manager: Infrastructure Services to attend to the challenges as soon as possible.

NOTED.

4.1.4. Waste Management: Landfill Site

(Page 109 of the Annual Report 2015/16)

The Committee proposed that the option of converting waste to energy be explored.

NOTED.

4.1.5. Report on the Municipal Infrastructure Grant (MIG)

(Page 347 of the Annual Report 2015/16)

The General Manager: Infrastructure Services explained the issue of the returned money to the National Treasury, stating that Infrastructure Services Business Unit was only responsible for almost R500 000 which was for VAT further adding that the other big amounts were from the Integrated Rapid Public Transport Network project.

The Committee further requested that the report with highlighting the projects and amounts that the General Manager: Infrastructure Services was directly and indirectly accountable for be submitted to the next standing meeting of the MPAC

It was

RESOLVED

- a) That the issue of the high vacancy rate be included in the Oversight Report requesting that steps be taken as a matter of urgency to ensure that posts are advertised internally and externally before the end of the current financial year.

- b) That a comprehensive report be submitted to the next standing meeting of the Municipal Public Accounts Committee clearly outlining the leaks audited/detected within the Vulindlela Area, number of rectified or repaired and those that still remained unresolved.
