Please note the changes to winter time-of-use periods – these are only applicable to winter but the summer is still the same.

NERSA has approved the following changes to the winter time-of-use peak period to overcome the misalignment between the system peak and the tariff peak particularly in the winter period as follows:

- The morning winter peak period will be moved one hour earlier from 07:00 – 10:00 to 06:00 – 09:00.
- The evening winter peak period will be moved one hour earlier from 18:00 – 20:00 to 17:00 – 19:00.
- There is no change to the total number of peak, standard and off-peak hours.
- There are no changes to the summer peak time-of-use periods.

Only customers on time-of-use tariffs will be affected by this change; that is customers on, Megaflex.

The new defined time periods are depicted in the diagrams below:
