# MAINTENANCE AND INFRASTRUCTURE

- THE DISTRICT HEALTH BUDGET FOR 2017/18 ONLY PROVIDES FOR DAY TO DAY MAINTENANCE.

NO NEW BUILDINGS ARE PLANNED FOR THE 2017/18 FIN YEAR.

**2016/17 Fin year total infrastructural upgrade, repairs and renovations done to the following facilities:**

- **Esigodini clinic,**
- **Caluza clinic**
- **Imbalenhle CHC**

**(Work still in progress) financed by NDOH:**

# INFRASTRUCTURE CONTD.

**2017/18 Fin year total infrastructural upgrade, repairs and renovations will be done to the following facilities:**

- **Kwa Patha Clinic**
- **Impilwenhle Clinic**

**(Work still in progress) financed by NDOH:**

# INFRASTRUCTURE CONTD.

- **All clinics have adequate electricity supply**
- **Attempts to secure back-up supply underway**

## Water

Water supply remains a challenge. Assistance is needed

**The following clinics are affected:**

- Sinathing
- Songozima
- Impilwenhle
- Willowfountain
- Azalea clinics

## Other challenges:

Slip off road to Taylors and Songozima Clinic – need to be tarred

Ex Municipal Clinics experiencing structural challenges – Khan Road, Ashdown and Eastwood clinics all have leaking roofs and require urgent attention

Note: There is no lease agreement between the Municipality and the DOH for these facilities

## Road Signage:

A project for placing of directional signs to all health facilities is underway

# REQUESTS:

- Facility building plans - Sewerage, water pipes etc. (needed for NCS of Compliance)
- More space needed in the health facilities especially where a health facility is located in the Municipal Complex . Maintenance of such buildings - contact person at the municipality to facilitate the process.
- Marking of the dedicated areas e.g. parking for Ambulances and Disabled people
- Road directional signage to facilities.
- General cleanliness around the clinics ( dumping , collection of waste , enforcement of by laws )
- The Municipality and other stakeholders are requested to assist in the mobilization of the people in the communities during the awareness campaigns , sensitizing people on the Ideal Clinic Concept and 909090 strategy during the IMBIZO
- Ward councillors to assist in the functionality of the war rooms and ensure that all the departments and organisations are attending war room meetings.

# REQUESTS CONTINUED

## ELECTRICITY AND WATER SUPPLY IN FACILITIES

- Payment of accounts- importance acknowledged
- Delay in payment – please warn and give some time before the disconnection of the supply because lives of people are badly affected by the non availability of electricity and water in the facility as well as the efficacy of the medication that need to be kept in a certain temperature
- If supply of electricity is being interrupted for any reason either than payment - request that the fault reported from health facilities be treated with priority e.g. contact person for follow up on the progress of the fault reported.
- If the supply of water is interrupted for any reason – please ensure that there is an alternative supply of water to the health facilities during that period .
